# LAND OF THE TSIMSHEANS

**By G. W. J. Fiddes, Med. '40**

NORTH of us are the Alaskan mountains, which now we see with bright sunlight on their snow-peaks; to the west stretches away the Pacific Ocean; southerly is the Inside Passage, far-famed for treacherous navigation; and to the east rise the low foot-hills of the Coast Range.

DR. FIDDES

Port Simpson* is a village of character: the past and the present live as neighbours. Here, side by side, we see the old customs blending harmoniously with all that is modern. The people of this village can best be described by their own phrase, *Kit Simgal am codu* (those of the kindly hearts). Old Matthew Johnson of the Kispaklas Tribe (people of the quiet water) tells us of the days in his boyhood when the nine tribes of our village were so hostile to one another that murder was committed whenever a man walked alone at night. He speaks, also, of the many times when the Haidas came across the stormy waters of Queen Charlotte Sound in large dug-out canoes to raid our village for fish and slaves.

But the people of this nation, the Tsimsheans, were industrious, skilful in fishing and hunting, and interested in the arts of peace. Before 1860 the village had a population of five thousand and a large Hudson's Bay post; and schooners from Victoria, Great Britain and Asia made it a port of call. In 1862 Father Duncan, a Church of England missionary, with great heroism and consecration, came to the village and soon established a church and day-school. To this man all native people of the coast owe much and they speak his name with reverence and gratitude.

Here in the early summer the streams run full of salmon—"springs," "cohoe," "sockeye" and every other variety—and the Tsimsheans were from the earliest times the best of fishermen. Long before the white men came they fished by net from their own canoes and dried great mounds of salmon in sheds along the shore. They lived by the fish they caught, traded it for that which they did not have, stored it as a harvest all winter long, and lit their fires and lamps from their *ooligans* (candle fish). Theirs was a healthy life, free from the worry of starvation and blessed with a country bountiful.

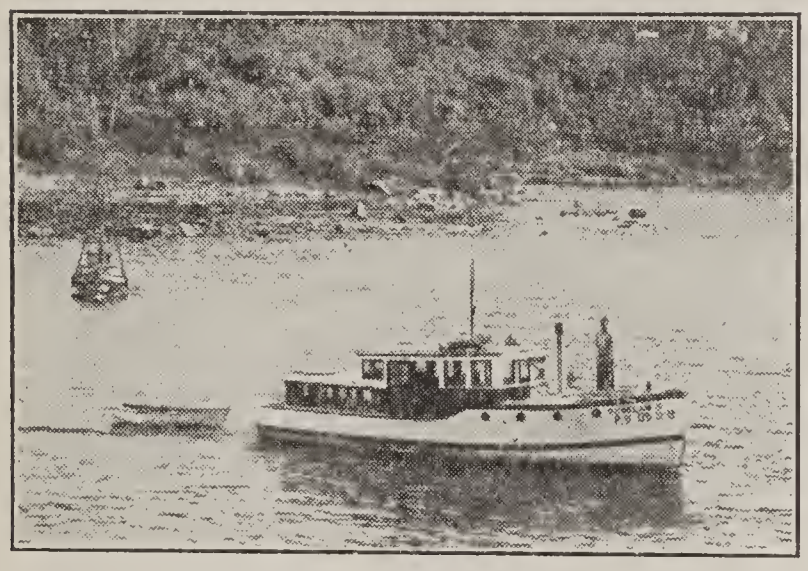

In the spring of the year the families make caravans and, in large or little boats carrying all that they hold dear, journey from their villages to the great rivers of the Skeena, Nass or Stikine. Here they live, the men at their toil and the women mending their nets or packing the fish until the run is spent. This is the same today as it was before white men came among them; but now the men fish from gasoline and diesel power boats and the women work in modern canneries, spending their money upon radios and good things to eat.

Today the village is smaller and thinks more in terms of its past glories; but it has a good Hudson's Bay post, a few little stores, two day-schools and a boarding-school, many community halls and a well-equipped hospital of thirty beds. There are a few "whites," possibly twenty-five in all, but we are here because of their benevolence, not because they could not manage without us. There is a council and a chief-councillor, and a constable, but no one seems to remember who he is for he is never needed. The village has its own electric lighting plant, water supply, a splendid wharf and harbour, a large and beautiful church, and more big houses than most Ontario towns.

Even today in Port Simpson the past is not so very far away. Here in the village is an old chiefess known to us as "Granny Dudoward." She is keen and

***Port Simpson is one of the most northerly Indian villages on the Pacific Coast. It is the end of the Canadian telegraph system and the largest Indian village in British Columbia. Dr. Fiddes is medical superintendent at the Port Simpson General Hospital, which is operated by the United Church of Canada, and ministers to several bands of Indians of the surrounding area. Mrs. Fiddes was Dorothy Wilson, Arts '37.**

wise, and from her ninety-three years of vivid memories she tells us most thrilling tales. A huge copper *hyatch* (tribal gong) weighing a hundred pounds or more hangs in her parlour. She explains that her tribe many years ago had to pay ten slaves a year and ten war-canoes laden with their richest possessions for three years to buy this trophy for their own. Her chieftain's chair is of hand-rubbed walnut, inlaid with mother-of-pearl in the most exquisite design of forest trees and deer. She lives alone in a great frame house, surrounded by her beaten-gold work, totems of every kind, and delicate patterns of beads and lace—a house that once rang to the voices of the Eagle Tribe of the Tsimsheans.

THE "SUNBEAM"

Down near the shore where you cross the brook is a little stone column on which is carved most carefully these words: "Here lies Legaic, one of the chiefs of the Tsimshean Nation who died a Christian. The day that Legaic died he said to his friends, 'When I die I hope it is in a lonely place and that no one will find me for five hours, for by then I hope I shall be in Heaven.' He was found by his people eight hours after he died. God gave him more than he asked."

I think that the tourists who visit our village are disappointed, for it looks just like any other little coastal town. When you see the wharf and the roadway from aboard the steamer, and all the Indian folk going about their business and wearing most ordinary clothes, there is little to photograph and nothing that seems at all romantic. But we find the Indians' ways most pleasant, their customs mystical, and their heritage still clasping hands with all that is now historic.

Here, quite apart from the rest of our country, lives this nation in quietness and loyalty and respect for the laws of God and man. Each Sunday brings the chime of bells from our village church; and there in the quietness, with light through memorial windows, a congregation gathers to worship, a choir chants most beautifully, and but for their weathered faces, a little browner in the light, they are as you and I and all good people everywhere.

But tonight is Saturday, and there in the largest hall our village boys play basket-ball with a picked team from Prince Rupert; and they will most likely win, for they play basket-ball exceedingly well. In the intermissions there will be music by a band or one of the orchestras—good music, well played, but having that haunting mellowness which is a part of the Indian's speech and movement and music. And then there will be lunch, of course—dainty things to eat and coffee well made. These are the Indians we know here. Perhaps all this because of the faith and foresight of missionaries and pioneers who blazed such a bright trail before us.

There is adventure and thrilling fun in every common day. We travel, of course, by boat, a worthy sea-going boat we call the *Sunbeam*. We can eat or sleep or spend a week on it, or make a hurried trip at any time. Some days are fair and our journeyings have part of the glamour of a Hollywood cruise. At other times, when fog comes down and we cannot see a length ahead, we go by compass, chart and time. And then there are stormy days, when the water breaks white across the cabin and each wave hurls all before it and sends us reeling into another. Always there are the tides and the bars, which are deep or dangerous at the will of a passing hour.

When the days are bright, then all the sea is full of life. Gulls and water-fowl follow the boat in graceful white patterns, porpoises flash across the bow sleeky black in the sunlight, and seals play on the shoals and rocks or pout dog-like

faces above the water. When the skies are gray or rain covers the land and sea, on the bleakest shores stand the shags, great black birds patiently waiting the storm to cease before they leave their nesting place.

Our boat is almost legendary, it seems; for thirty years it has travelled this part of the coast, being overhauled every year to go to sea again. We fly the flags of our hospital and of all the fishing villages along the coast, and get a happy hail from almost every passing boat. The Navy Patrol gives us a cheery "Heigh-ho"—and stops the next ship to inspect it thoroughly. "Jim," the keeper of the wharf, is on

THE PORT SIMPSON HOSPITAL

hand when we come into Prince Rupert, and his greeting is usually: "I knew you would be coming. It's started raining again."

Old Stephen, chief from Aiyansh, came into hospital for a major operation. It needed to be done, but Stephen is seventy, very fat now, and his heart is bad. We operated on Stephen, with our fingers crossed, and hoped for a slow recovery, but Stephen had other plans. He did not like little sips of tea and fruit juices, he wanted a salmon steak; and that night after the operation he got up, put on his clothes, and the nurse found him on his way for a drink of water. The following day Stephen took off his dressing and showed his visitors his wound. He went home the next week completely happy.

The white man brought many plagues to these Indians, but none so devastating as tuberculosis. In the past whole families and tribes have vanished from this disease, and few there are who have not some trace of it in their background. Until recently the Indian people have been deep in the shadow of this cloud, which threatened complete extinction of their race. Today it seems that, through the efforts of Government and Indian hospitals, the cloud is being dispelled. It is true that the immunity of the Indian is higher than before and that his conditions of living are better for the cure of tuberculosis; but best of all, he now has sanatorium care when it is needed.

Matthew tells us that the young men of today are good for nothing. He says that when he was a boy they used to swim the surf every day of the year, wade over to the village island rather than use the bridge, and go to the Skeena in dug-out canoes. He can light a fire by twirling a dry stick in a notched board, and he can make beaver traps from cedar strips. The young men, however, know a good boat engine when they see one and catch more fish in much less time than Matthew ever could. Here in Port Simpson is life of this kind. Matthew tells us of the Indians who prayed to a great God long before the white men came; and side by side with Matthew, walks his nephew who wants to build a new house facing the south so that it will be bright and clean for his little son.

Do you remember the happy land of Shangri-la in James Hilton's book, *Lost Horizon?* Were it not for our papers and radios and the great sadness of war pervading us all and creeping darkly even here, this is Shangri-la.

---

## S. H. HENRY, ARTS '09, APPOINTED TO COUNCIL

THE executive committee of the University Council has appointed S. H. Henry, Arts '09, of Toronto, as a member of the Council for the period ending on March 31, 1945, in succession to the late Senator H. H. Horsey, Arts '94, who died in Kingston on January 6. Mr. Henry, who has been prominent in educational affairs for many years, is general secretary of the Ontario Secondary School Teachers' Federation.

## MODERN CANADIAN PROBLEMS SUBJECT OF LECTURE SERIES

THE University's Monday afternoon series of lectures will this year comprise discussions of "Modern Canadian Problems" in several different fields. The lectures will be delivered in Convocation Hall at five o'clock and will be broadcast over CFRC. The programme is as follows:

January 19—"The Demands of Labour," by Tom Moore, president of the Trades and Labour Congress of Canada.

January 26—"Price Controls," by Dr. C. A. Curtis, professor of economics at Queen's.

February 2—"Religion and Morals," by Rev. Dr. J. P. R. Sclater, pastor of Old St. Andrew's Church, Toronto.

February 9—"Tendencies in Modern Literature," by B. K. Sandwell, editor of Toronto *Saturday Night*.

February 16 — "Reconstruction," by Dr. J. M. Macdonnell, Arts '04, president and general manager of the National Trust Company, Toronto, and chairman of the Board of Trustees of Queen's.

## STUDENTS HONOUR MEMORY OF TEACHER

EARLY in May, William Kemp, Arts '98, popular member of the staff of the Central Technical School, Toronto, was killed in a motor car accident. He had been at this school for many years, and was to have retired very shortly. To perpetuate his memory, the students of the school took up a collection to provide for two scholarships, one for boys and one for girls, to be known as the William Kemp Memorial Scholarships. They will be presented annually to the boy and girl attaining the highest marks in any of the first year classes at the Central Technical School.

Mr. Kemp entered Queen's in 1895 and obtained his B.A. degree three years later and his M.A. in 1899. In 1898 he won the medal in modern languages. He taught school at Dutton, Barrie, Colborne, Picton, Kingston and Streetsville, Ont., and at Prince Albert, Sask., before going to Toronto.

## CANDIDATES NOMINATED FOR COUNCIL ELECTIONS

FIFTEEN candidates have been nominated by graduates or by the executive committee of the University Council for this spring's Council elections. Nine of these are to be elected, to hold office until 1948.

Ballots are being mailed to the graduates and these must be returned to the secretary of the Council on or before March 31. For the guidance of the voters, brief information about each candidate is given on the back of the ballot.

The nominees—nine of whom are retiring members of the Council and six of whom are new candidates—are as follows: James Bartlett, Science '07, Kirkland Lake, Ont.; C. H. Bland, Arts '07, Ottawa, Ont.; N. A. Brisco, Arts '98, New York, N.Y.; C. R. Buss, Sc. '27, Thorold, Ont.; C. A. Cameron, Arts '13, Belleville, Ont.; Mrs. F. C. Casselman (Cora T. Watt), Arts '12, Edmonton, Alta.; Mrs. D. M. Chown (Mary C. Macphail), Arts '17, Kingston, Ont.; A. D. Cornett, Arts '07, Theol. '11, Oshawa, Ont.; A. F. Cross, Arts '23, Montreal, Que.; D. G. Geiger, Sc. '22, Toronto, Ont.; R. K. Paterson, Med. '06, Ottawa, Ont.; W. R. Patterson, Arts '02, Med. '06, Toronto, Ont.; N. D. Runnalls, Arts '33, Collingwood, Ont.; G. J. Smith, Arts '12, Sc. '15, Kingston, Ont.; and M. B. Tudhope, Arts '97, Brockville, Ont.

## BIOLOGY MUSEUM OFFICIALLY OPENED

THE reorganized Biology Museum of the University was formally opened by Principal R. C. Wallace in a brief ceremony on Saturday, December 13. Members of staff and a number of others who are interested in museum work or who had assisted in re-establishing this department at Queen's were present. The museum is situated in the Old Arts Building—in the rounded, western end, which was remodelled and fire-proofed during the summer of 1940.

The reorganization of the biological collection, which has been going on since the fall of 1939 under the guidance of

Ronald W. Smith, a graduate in biology of Acadia University, was made possible by a grant from the Carnegie Foundation. Mr. Smith completed the work started by Professor James Fowler and further developed by Dr. W. T. MacClement.

The museum has more than 30,000 specimens, including the Fowler Herbarium, some 5000 marine shells, 500 mammals, and a particularly extensive collection of birds. Two of the most interesting mounts are those of the extinct carrier pigeon and the rare duck-billed platypus. The exhibits are systematically arranged and artistically exhibited.

## TWO QUEEN'S FLYERS REPORTED MISSING

TWO Queen's men have been reported missing in recent R. C. A. F. casualty lists. They are Sergeant Pilot Douglas George Pettet, Arts '40, and Pilot Officer J. W. P. Skidmore, Arts '41.

Douglas Pettet was born in Montreal and received his early education and part of his high-school training there. He subsequently attended the collegiate institute at Picton, Ont., and entered Queen's in 1936, receiving his B.A. degree in 1940. He then enlisted in the R. C. A. F., and trained at Malton, Ont., for some time before going to Jarvis, where he received his wings as a member of the second class of air observers to graduate in Canada. He completed his training at Trenton, Ont., and Rivers, Man., and arrived overseas a year ago Christmas Day. He had been flying in the Middle East since last June, and in a recent letter he stated that he had 550 flying hours to his credit in five months.

Pilot Officer Skidmore, or "Skid" as he was universally known at Queen's, was a cheer leader while at the University and one of the most active and best-known students on the campus. Although he was born in Cobourg, Ont., his parents now reside in Drexel Hill, a suburb of Philadelphia. He spent three years in Arts at Queen's before enlisting in the R. C. A. F. early in 1940. He took his initial training at No. 1 I. T. S., Eglinton, Ont., and his elementary flying training at Windsor, Que. He received his wings at Moncton, N.B., and was granted his commission a few days later. He was then posted to a bombing and reconnaissance squadron in Newfoundland and had been there ever since. Two months ago he married Miss Audrey Barlow, of Saint John, N.B.

## FIVE TRUSTEES ELECTED BY ACCLAMATION

J. M. MACDONNELL, Arts '04, LL.D. '41, president and general manager of the National Trust Company, Toronto, and R. D. Harkness, Sc. '13, vice-president of the Northern Electric Company, Montreal, have been re-elected to the Board of Trustees of the University by the benefactors. They were the only persons to receive the requisite number of nominations in their respective categories, and hence were elected by acclamation.

Mr. Macdonnell, who has sat on the Board since 1923 and been its chairman since 1930, continues as a representative of the benefactors in general. His new term of office will expire on March 31, 1946. Mr. Harkness was first elected to the Board in 1936, to represent the Faculty of Applied Science. He will continue in this capacity until March 31, 1945.

E. A. Collins, Sc. '05, assistant to the vice-president of the International Nickel Company of Canada, Copper Cliff, Ont., and Dr. B. M. Stewart, Arts '11, deputy minister of labour at Ottawa, have likewise been re-elected by acclamation, by the graduates. They will serve until March 31, 1945. Mr. Collins first became a member of the Board in 1933, and Dr. Stewart in 1938.

To succeed the late Dr. O. D. Skelton, for the period ending on March 31, 1944, two candidates were nominated by the graduates. They were Mrs. James A. Richardson, of Winnipeg, widow of the late James A. Richardson, Arts '06, LL.D. '29, chancellor of the University from 1929 to 1939, and S. H. Henry, Arts '09, of Toronto, general secretary of the Ontario Secondary School Teachers' Federation. Mr. Henry subsequently withdrew, and Mrs. Richardson was thus also elected by acclamation.

## UNIVERSITY PARTICIPATES IN LABOUR FORUMS

MEMBERS of the staff of the University, a number of students, and several government and labour officials participated in two interesting labour forums held in Kingston recently.

The first meeting was held on November 16 under the auspices of the Kingston Workers' Educational Association and the Department of Extension at Queen's. W. H. Fowler, secretary of the Kingston Trades and Labour Council, acted as chairman.

At this meeting Principal Wallace outlined the value of labour's war effort in England and the importance of labour's co-operation with the Government. Professor F. A. Knox, of the department of economics, stressed the need of avoiding inflation. He was followed by Mr. Kenneth Taylor, a member of the price-control board at Ottawa, who spoke of the steps the Government had taken to control prices. An explanation of the order-in-council pegging wages was given by Professor J. C. Cameron, of the industrial relations section at Queen's, and Mr. E. Boyd, of the Railway Express Workers' Union, Toronto, told of labour's objection to the new regulation. The discussion that followed was analyzed by Professor J. A. Corry, of the department of political science.

The meeting held on December 7 was a student forum, sponsored by the Social Problems Club and the Student Labour Forum Committee. John Pollak, Med. '42, president of the S. P. C., was in the chair. The speakers were Mr. George Harris, of the United Electrical, Radio and Machine Workers of America, Toronto, C. I. O., and Mr. Irving Burman, of the International Association of Machinists, Montreal, A. F. of L., who attempted to erase some of the misunderstandings prevalent on the subject of organized labour and to show the support given the war effort by labour. Discussion groups were led by Dr. I. Halperin, Mrs. Gregory Vlastos, Dr. R. A. Chipman, and Miss Idele Wilson, of the University staff, and a documentary film on the W. P. A. project was shown.

## J. T. PARKHILL, ARTS '41, JOINS ALUMNI STAFF

JOHN T. PARKHILL, Arts '41, has joined the staff of the General Alumni Association, to serve as assistant editor of the *Review,* and as assistant in the Employment office.

J. T. PARKHILL

Mr. Parkhill graduated with his Honours B.A. in English and French last spring, and is at present doing further work towards his M.A. degree. During his University course he was active in student affairs and was a member of executives of numerous undergraduate organizations. He has been literary editor of the *Journal* for the past two years.

## "THE UNIVERSITIES ARE DANGEROUS"

PROFESSOR W. E. C. HARRISON, of the department of history at Queen's, is the author of a pamphlet recently published by the Oxford University Press. Written "in the conviction that some brief statement of the position of the universities in the struggle against tyranny is very necessary at this time," *The Universities Are Dangerous* is at once a logical evaluation and lucid statement of the universities' war effort, a spirited and eloquent defence of the humanities especially in wartime, and an irrefutable pronouncement that the universities are fundamentally the most potent democratic weapon against tyranny, against totalitarianism and against Hitler.

## CAMPUS BRIEFS

AN operator's booth for the loudspeaker and radio equipment in Grant Hall has been installed in the second-floor corridor at the rear of the south gallery of the hall. From this booth, the operator will be able to judge and regulate the sound amplification so that there will be proper reception in all parts of the auditorium. The operator was previously

housed in the anteroom at the east end of the platform, but this arrangement was found unsatisfactory. Supplementary amplifiers are also being provided for the main and upstairs corridors.

* * * *

At a meeting of the executive committee of the Board of Trustees, R. W. Winter, Arts '26, director of the Department of Extension, was appointed to act also as director of the Summer School.

* * * *

"The Gatineau Madonna," by Professor André Biéler, resident artist at the University, and "Winter Harvest," by Mrs. W. E. C. Harrison, who assists Professor Biéler in the department of fine arts, are among the paintings selected by the Royal Canadian Academy of Arts for exhibition across Canada during the current year. The National Gallery is sponsoring the exhibit. Professor Biéler also had a Lower Quebec scene shown at the recent Royal Academy exhibition in Montreal.

* * * *

The John and Mary Markle Foundation, of New York, is making a grant of $5100 to the University for special research in biochemistry. The work will be carried on by Dr. R. G. Sinclair, Arts '24, professor of biochemistry, with the help of an assistant who has not yet been appointed. Some time ago the Markle Foundation contributed $1000 for research in psychology at Queen's.

* * * *

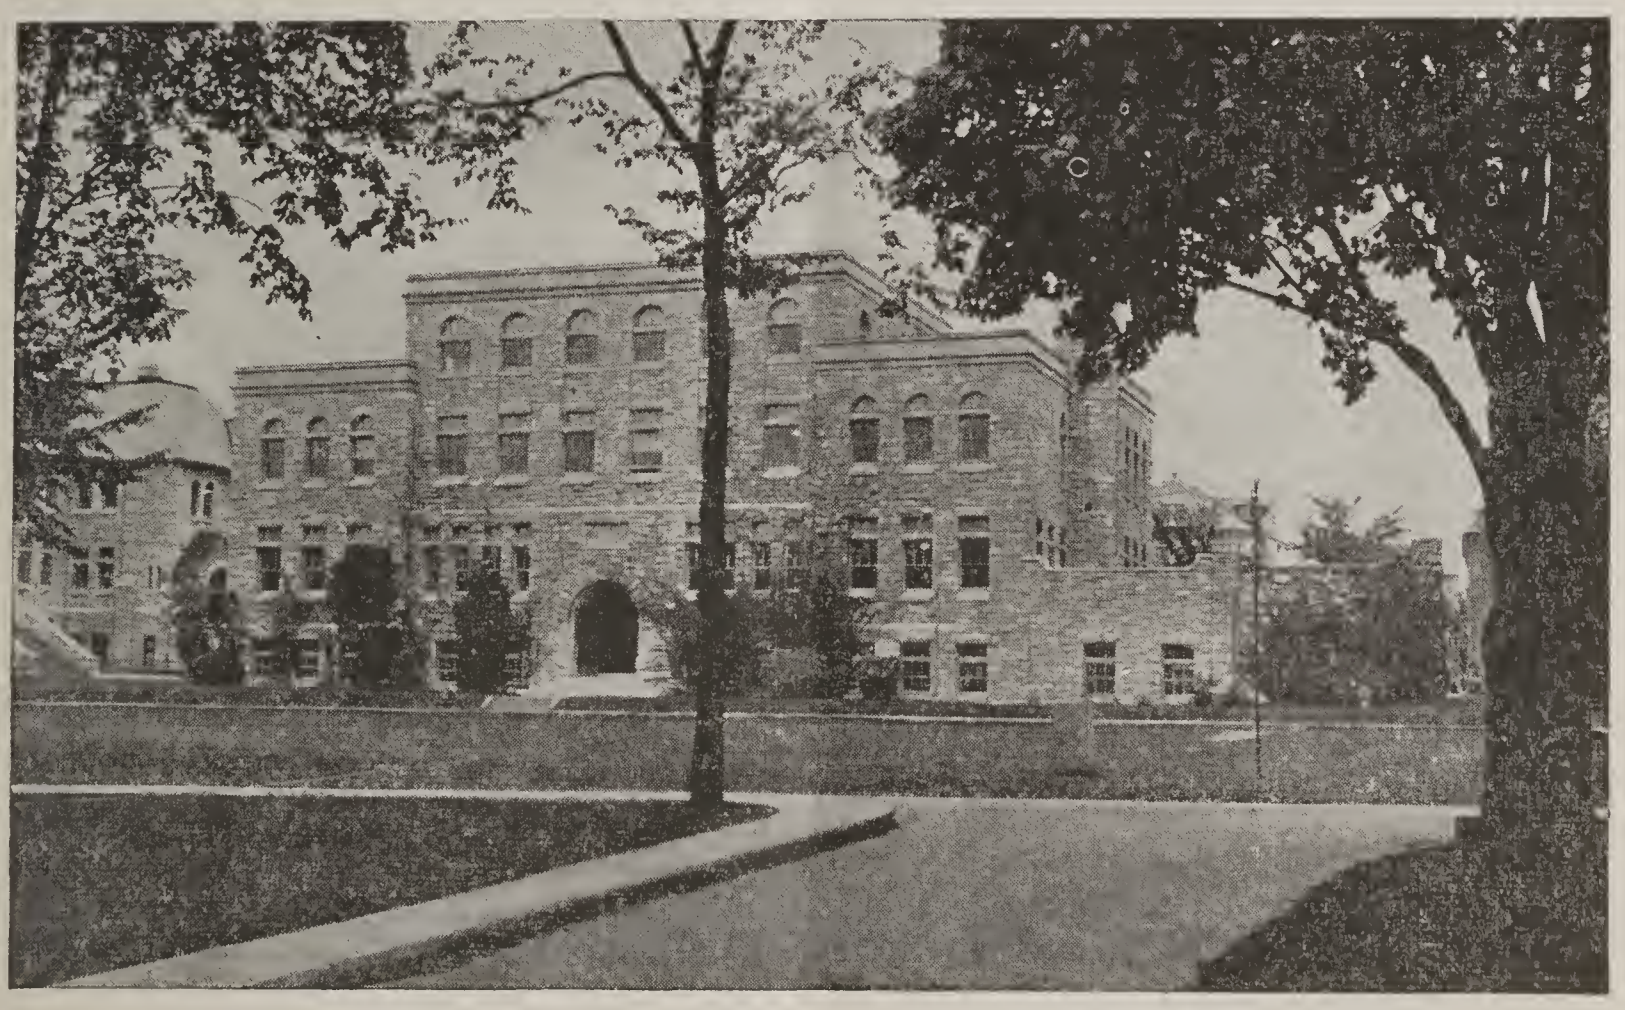

Metal fire-escapes are being erected at Goodwin House, Gordon House and Muir House, and at Collins House, the new men's residence, in accordance with a recent ruling of the Ontario Fire Marshal's department.

* * * *

The twenty-ninth session of the Queen's School of Navigation opened on January 5. Instruction for all grades of certificates, including that of coasting master, is being given by Captain A. Barrett of Kingston.

* * * *

A community rink has been built on the University property just west of the Richardson Stadium. The dressing-rooms of the Stadium have been lent free of charge to the City on the understanding that the rink be available to Queen's students one night each week.

FLEMING HALL FROM THE SOUTH

# AT THE BRANCHES

## Montreal

AT the regular meeting of the Montreal branch, held in the Ritz Carlton Hotel on December 2, with President G. R. Maybee, Sc. '25, Arts '27, in the chair, a special committee was appointed to further the endowment campaign among the Queen's alumni in the Montreal area. The committee comprises J. Knox MacLachlan, Arts '16 (chairman), R. O. Sweezey, Sc. '08, A. E. Orwell, Sc. '30, and C. W. McDougall, Com. '38, with power to add.

The meeting indicated its desire to have the Montreal medal awarded again this year, but definite arrangements in this connection were left with the medal committee, which meets in January.

The guest speaker of the evening was Donald C. McDonald, Arts '38, who is on the staff of the Montreal *Gazette*. His lucid and informative address on "Meeting the Nazi Threat in Latin America" presented new aspects of this timely subject. The questions and discussion which followed Mr. McDonald's talk were ample evidence of how much his audience appreciated his knowledge of the subject. He was introduced by James Courtright, Sc. ,41, and thanked by E. M. Patton, Com. '26.

## Kootenay

THE annual meeting of the Kootenay branch was held on the evening of October 20 at the home of C. E. Marlatt, Sc. '23, Trail, B.C. Business was dealt with first, and the following officers were elected: honorary president, C. E. Marlatt; president, James Atwell, Sc. '24; vice-president, F. C. Ransom, Sc. '30; secretary, L. M. DeLong, Sc. '27; executive —A. E. Allison, Arts '20, A. M. Chesser, Sc. '24, and A. B. Thompson, Arts '27.

The business completed, S. S. R. McDiarmid, Sc. '03, gave a very interesting talk on the history of Queen's and his personal impressions of Principal Grant. Mr. McDiarmid's address was followed by dancing and refreshments.

## Lakehead

NO special gathering of the graduates at the head of the Lakes was arranged to listen to the Centenary broadcast on October 18, but all the graduates were notified and numerous small parties were held on that night. The annual reunion dinner took place two weeks later, on November 1, in the Royal Edward Hotel, Fort William.

Dr. J. A. Crozier, Arts '97, gave an outline of the Centenary celebrations, which he attended as delegate from the branch. He told of the progress made by the University during its one hundred years of teaching, particularly stressing the great strides which had been made in Medicine. R. J. Askin, Sc. '23, proposed the toast to the University, and Robert Muir, Arts '28, replied. Queen's songs and yells added to the enjoyment of the evening.

MISS FLANAGAN

Miss Maud Brock, Arts '27, was elected president, succeeding W. H. H. Green, Arts '14. Other officers are: vice-president, Dr. J. H. Dennison, Med. '30; secretary-treasurer, Miss Patricia Flanagan, Arts '33; committee—Miss T. V. Terho, Arts '38, R. J. Askin, Sc. '23, and V. W. Hermanson, Arts '31.

## Ottawa

A WELL attended and very successful dance was held by the Ottawa Alumni branch on December 30 at the Royal Ottawa Golf Club. The several hundred guests were welcomed by the president, C. D. Wight, Sc. '28, and Mrs. Wight, and Dr. W. P. E. Paterson, Med. '26, convener of the dance committee, and Mrs. Paterson. A. K. Light, Sc. '17, was in charge of the ticket arrangements.

Holiday decorations were used to adorn the club, with a huge Queen's crest placed effectively in the lounge. An excellent orchestra provided music for dancing, and supper was served later.

The guests included graduates, former students, and students of the present day who were in Ottawa for the holidays.

## London

"WHAT Queen's has Meant in One Hundred Years" was the title of an address delivered by Dr. K. P. R. Neville, Arts '96, registrar of the University of Western Ontario, at the annual banquet of the London branch of the General Alumni Association, which took place in the Hotel London on November 1.

Dr. Neville summarized the tremendous obstacles that Queen's had overcome, and called Principal Grant "the greatest man in Canada between 1875 and 1890, even though Sir John A. MacDonald was then in his prime." He also mentioned the great contributions of Queen's graduates in many fields of endeavour.

The following officers were elected for the ensuing year: honorary president, John Elliott, Arts '89; past president, H. A. Stewart, Arts '26; president, M. L. Entwistle, Arts '26; vice-president, T. W. Latta, Arts '35, Com. '34; secrtary-treasurer, J. O. Hughes, Com. '29.

After the dinner and address the programme was rounded out by an enjoyable bridge tournament.

## Niagara Peninsula

A MOST successful and enjoyable bridge was held on November 28 at the home of Merle Ker, Sc. '18, Niagara Falls, Ont. Mrs. Ker and Mrs. Harold Evans (Bessie Simmons), Arts '28, were in charge of the refreshments.

The party was particularly well attended by alumni and friends from the Falls itself. Of the fifty present, about half were recent graduates who are on wartime jobs in the various plants of the Peninsula area, a large number being from the Welland Chemical Works. These new men and women are taking a keen interest in the branch and its activities, and a vigorous and flourishing membership is looked for.

The alumni were reminded that the annual dinner of the branch would be held on January 30, with Vice-Principal W. E. McNeill as guest speaker.

## Porcupine

DR. GREGORY VLASTOS, of the department of philosophy at Queen's, was guest speaker at the annual dinner of the Porcupine branch, held on December 5 in the auditorium of the McIntyre Building, Schumacher, Ont. Approximately seventy alumni were present.

A. E. PUGSLEY

The president, A. E. Pugsley, Sc. '33, was in the chair, and called upon W. S. Blake, Arts '24, to introduce the speaker of the evening, although several of the recent Arts graduates needed no introduction to the popular philosophy professor. E. L. Longmore, Sc. '12, thanked Dr. Vlastos for his inspiring address. All who were present considered themselves fortunate to have had the opportunity of listening to a speaker whose every statement gave such mental stimulaton.

During the business part of the meeting, the secretary-treasurer, D. W. Carriere, Arts '35, informed the members of the branch's loan of $50 to the Sc. '44 Cooperative, a loan that is to be repaid to the Queen's Centenary Fund.

## Pennsylvania

DR. GEORGE E. FLANAGAN, Med. '23, and Mrs. Flanagan entertained at a very enjoyable Queen's reunion dinner in their home at Myerstown, Penn., on Noveber 30. The guests included Dr. John Lansbury, Med. '26, now associate professor of medicine at Temple University, and Mrs. Lansbury, of Philadelphia; Dr. R. K. Childerhose,

Med. '21, Mrs. Childerhose, and their daughter, Isabel, of Harrisburg; and Dr. Clarence Moore, Med. '27, and Mrs. Moore, also of Harrisburg. Last year the first alumni affair of this sort was held at the home of Dr. and Mrs. Childerhose, when Dr. and Mrs. Flanagan, their son, George, and Dr. and Mrs. Moore were guests. These Queens doctors in Pennsylvania hope that their group will gradually enlarge to become a branch of the General Alumni Association, and with this purpose in view they are planning to hold a Queen's picnic this coming summer to which all alumni in the state will be invited.

# ALUMNI NEWS

## Births

**Butler**—On November 4, 1941, at Los Angeles, Calif., to B. C. Butler, Arts '27, Com. '28, and Mrs. Butler, Ottawa, a son (Donald Charles).

**Camelford**—At the War Memorial Hospital, Dunnville, Ont., on December 29, to Lieut. J. A. Camelford, Sc. '33, and Mrs. Camelford, a daughter (Judith Mary).

**Campbell**—At the Kingston General Hospital, on December 6, to Dr. W. A. Campbell, Med. '24, and Mrs. Campbell (Mary Clark), Arts '24, a son.

**Eaman**—At the Ottawa Civic Hospital, on January 1, to J. A. Eaman, Arts '38, and Mrs. Eaman, a son.

**Fenwick**—At the Ottawa Civic Hospital, on December 15, to Dr. J. F. Fenwick, Sc. '29, and Mrs. Fenwick, a son (John Bennett).

**Gauld**—On December 7, at the General Hospital, Niagara Falls, Ont., to T. R. Gauld, Com. '31, and Mrs. Gauld, a son (Bruce Rankin).

**Hazelgrove** — At St. Joseph's Hospital, Parry Sound, Ont., on December 10, to A. R. Hazelgrove, Sc. '39, and Mrs. Hazelgrove, a daughter (Janet Dyas).

**Hoffman**—At the Youville Hospital, Noranda, Que., on November 29, to W. A. Hoffman, Sc. '34, and Mrs. Hoffman (Carmel Milne), Arts '33, a son (Peter Norman).

**Little**—At the Civic Hospital, North Bay, Ont., on December 23, to Walter Little, Arts '28, and Mrs. Little (Marjorie McDonald), Arts '28, a daughter (Jean Minnes).

**MacLean**—At the Ottawa Civic Hospital, on December 28, to Mr. R. W. MacLean and Mrs. MacLean (Margaret Davis), Arts '37, a son.

**Murphy**—At St. Mary's Hospital, Montreal, on October 13, 1941, to F. B. Murphy, Com. '38, and Mrs. Murphy, twin daughters (Frances Margaret and Mary Elizabeth)—Corrected notice.

**Nicholson**—At Memorial Hospital, Cartagena, Colombia, South America, on January 10, to R. M. Nicholson, Sc. '33, and Mrs. Nicholson (Eileen Ficken), Arts '33, a son.

**Plunkett**—At the Ottawa Civic Hospital, on December 2, to Dr. J. E. Plunkett, Med. '30, and Mrs. Plunkett (Marion Moffatt), Arts '26, a son.

**Spencer** — On December 14, at Halifax, N.S., to Major G. H. Spencer, Sc. '39, and Mrs. Spencer, a son.

**Stewart**—At Rosamond Memorial Hospital, Almonte, Ont., on December 14, to D. E. Stewart, Sc. '33, and Mrs. Stewart, a daughter.

**Wing**—On December 31, at Quebec City, to John W. Wing, Sc. '36, and Mrs. Wing, of Toronto, a son (Bruce John Winston).

## Marriages

**Allen** — At Windermere Avenue United Church, Toronto, on December 20, Betty-Jean Reid to Hewson Ward Allen, Com. '41. They will live in Toronto.

**Bocking**—At St. Paul's United Church, Parkhill, Ont., in the latter part of December, Alma Ruth Brown to James Henry Bocking, Arts '36. They will live in Windsor, Ont.

**Bowie-Kidd**—In St. Andrew's Manse, Gananoque, Ont., on December 30, Catherine Elizabeth Kidd, Arts 34, daughter of Rev. C. E. Kidd, Arts '02, Theol. '07, and Mrs. Kidd (Mary Youngson), Arts '98, to Lieut. Murray Richardson Bowie, Med. '37, son of Dr. H. A. Bowie, Med. '01, and Mrs. Bowie, Ottawa. The marriage was performed by the bride's father, and Dr. E. D. Rooke, Med. '37, was best man.

**Clarke**—On November 29, in St. John's Anglican Church, Jordan, Ont., Mary Elizabeth (Betty) Clarke, Arts '42, daughter of Roger F. Clarke, Sc. '13, and Mrs. Clarke (Muriel Shortt), Arts '09, and granddaughter of Mrs. Adam Shortt (Elizabeth Smith), Med. '84, Ottawa, and the late Dr. Adam Shortt, Arts '83, to LAC. Richard Blake Palmer, R.C.A.F. They will live in Kingston.

**Cuthbertson**—On September 6, 1941, in Trinity United Church, Shawinigan Falls, Que., Edith Varley to Charles Cassells Cuthbertson, Sc. '38, Shawinigan Falls.

**Egan-Horner**—In Princess Street United Church, Kingston, on December 13, Phyllis Horner, Arts '40, to Lieut Charles Franklin Egan, Med. '41, R.C.A.M.C.

**Fleming**—At the United Church, Tweed, Ont., recently, Vera Winnifred Drinkwater, to Frederick William Fleming, Arts '41. They will live at 16 Willcocks Ave., Toronto.

**Fraser** — On December 27, at Trinity United Church, Shediac, N.B., Mary Tait O'Brien to Lieut. Chesley Drummond Fraser, Arts '42, of New Glasgow, N.S.

**Greenwood**—At the rectory of St. Mary's Church, Tillsonburg, Ont., recently, Pauline Duffy to Chester Greenwood, Arts '42 (Extramural).

**Hamilton**—In Parkdale United Church, Toronto, on December 10, Elizabeth Evelyn Fox to Rev. James Hamilton, Arts '40. They will reside in Wakefield, Que.

**Hatch-Farmer**—On December 26, in St. George's Cathedral, Kingston, Muriel Farmer, Arts '38, to Paymaster Lieut. Melville Stanton Hatch, Com. '38, R.C.N.V.R. They are residing in Windsor for the present.

**Hewitt**—At St. Luke's Church, Ottawa, recently, Marjorie Keitha Dick to Donald Hewitt, Arts '40.

**Hosie**—At St. Thomas Church, Toronto, on November 18, 1941, Frances Mary Seymour to David Hosie, Sc. '34. They are living at 24 Howland Ave., Apt. D., Toronto.

**James**—On December 22, in St. James's Church, Kingston, Helen Dunken McCrodan to Sub-Lt. E. Ralph James, Arts '37, R.C.N.V.R.

**Kennedy-MacKay**—On October 11, at the home of the bride's parents, 193 Carling Avenue, Ottawa, Caroline MacKay, Arts '38, daughter of Dr. B. R. MacKay, Sc. '08, and Mrs. MacKay, to John Edward Kennedy, Arts '38. MacPherson Hubbell, Com. '36, Toronto, was best man, and the music was played by Miss Margaret Biehn, Arts '38. Mr. and Mrs. Kennedy are living in Ottawa, where Mr. Kennedy is working as a senior research assistant in the National Research Council.

**MacKinnon**—In Knox College Chapel, Toronto, on December 20, Elizabeth Margaret Agnes Young, daughter of Dr. George S. Young and Mrs. Young (Eva Greenhill), Arts '99, to M. H. M. MacKinnon, former member of the English Dept. at Queen's.

**MacKinnon** — In Lundy's Lane United Church, Niagara Falls, Ont., on December 27, Marion Elaine Houck to Merton John MacKinnon, Sc. '32. They will live in Ottawa.

**Pearce**—At Amherst, N.S., on December 6, Patricia Isabel Sutherland to Eldridge Burton Pearce, Sc. '40.

**Pentland**—In June, 1941, at Toronto, Ont., Evelyn Hudson to Dr. Ernest Seth Pentland, Arts '32, of Creighton Mine, Ont.

**Pilkey**—On August 14, 1941, in the United Church, Banff, Alta., Nedra Ethel Wilson to Gordon Everett Pilkey, Sc. '33. They will live at 29 Balmoral Ave., Hamilton, Ont.

**Rigsby**—On November 14, Dorothy Manderson, Dresden, Ont., to David L. Rigsby, Sc. '40, a member of the British Air Commission now stationed at Consolidated Aircraft Corporation, San Diego, Calif.

**Saunders**—In St. James's Chapel of St. Mary's Cathedral, Kingston, on December 27, Pauline Mary Martin to George Oaten Saunders, Sc '41, Kingston.

**Spence**—In All Saints' Church, Ottawa, on December 20, Dorothy Macpherson to Flt. Lt. Neville Spence Spence, Sc. '36, Ottawa.

**Winn**—At St. Andrew's United Church, Niagara Falls, Ont., on December 6, Kathryn Elizabeth Williams to Neil Lackner Winn, Sc. '39. They will live in Niagara Falls.

## Deaths

**Burns**—Former librarian of the Dominion Supreme Court and well-known biographical writer, Clement Bancroft Burns, Arts '90, died at his home in Ottawa on December 19 at the age of 73. His death came as the result of a heart attack, after an illness of two weeks. Mr. Burns was born at Halifax and spent his early youth in Nova Scotia. He attended Dalhousie and Queen's universities, where he studied law. He received his B.A. at Queen's in 1890. During the gold rush of '98 he was in the Yukon, where he published a newspaper which played a large part in the promotion of public enterprise and in moulding the thought of the people there. Many years ago, he went to Ottawa as private secretary to the late Hon. W. S. Fielding, minister of finance during the governments of Sir Wilfrid Laurier. He held various posts in the government service, finally becoming librarian of the Supreme Court, a post which he filled with distinction for more than thirty years and from which he retired three years ago. He had a wide knowledge of politics and was well known by and very popular with members of the legal profession. He was also an ardent sports fan, and was a regular attendant at big hockey, baseball and football games in Ottawa. Keenly interested in the lives of men who have played major roles in shaping the destinies of Canada, Mr. Burns recorded many of them in biographical form. He is survived by his wife, a daughter, and three sisters.

**Fleming**—The death occurred in Kingston on December 22 of Walter A. Fleming, Arts '91. He had been in poor health for several years. Born in Halifax, N.S., in 1868, the late Mr. Fleming was the son of Sir Sandford Fleming, chancellor of Queen's from 1880 to 1915. He attended the Royal Military College and spent one session at Queen's. While at the University he was a valued member of the senior rugby team. He lived in Kingston for thirty years prior to his death. He is survived by his wife and two brothers.

**Haggins**—At his home in Ottawa, Ernest Melville Haggins, Arts '12, died on November 15 after a long illness. He was in his fifty-first year. Born at North Gower, Ont., Mr. Haggins was a son of Alex. Haggins and the former Jemima Fennel. He attended Kemptville High School and then spent three years at Queen's. He settled in Ottawa over thirty years ago, when he was appointed to the Department of National Revenue as a customs appraiser. This position he held until his illness last April. He was

a member of Southminster United Church. He is survived by his parents, his wife, a daughter and two sons.

**Horsey** — Senator Henry Herbert Horsey, Arts '94, of Ottawa, died in the Kingston General Hospital on January 6 following a brief illness. He had been a Liberal member of the Upper House since 1928. Senator Horsey was born in Kingston in 1871, the son of the late Henry Hodge Horsey, a well-known contractor who built the Kingston Court House. He received his early education in Ottawa and then proceeded to Queen's, where he obtained his B.A. degree in 1895. While at the University, he was an outstanding player on the great football teams that held championships from 1890-1894. He retained his keen interest in athletics throughout his life, and in recent years rarely missed a championship Intercollegiate football game in Kingston. After graduation from Queen's, he joined his brother, the late Dr. E. H. Horsey, Med. '89, in the insurance business, representing the Sun Life of Canada, and later the Manufacturers' Life, in Eastern Asia. He became general manager in Eastern Asia for the latter company in 1900, and established a number of its branches throughout the Orient. Returning to Canada, he retired from business in 1910 but remained a director of the Ottawa Light Heat and Power Company and the Ottawa Electric Company. He was also a member of the governing board of the Ottawa Ladies' College. Senator Horsey was always an enthusiastic and generous worker on behalf of Queen's, and served on the University Council and as one of the Council's representatives on the Board of Trustees from 1927 until his death. He was a member of the United Church and of the Rideau Club, the Ottawa Badminton Club and the Picton Golf Club. His marriage to the former Florence Cook of Kingston took place in 1895. Surviving are his wife and one daughter.

**Johnstone**—On December 22, William M. Johnstone, Sc. '13, died at Ottawa. Mr. Johnstone was born at Stamford, Ont., and attended high school in Niagara Falls. After graduating from Queen's in 1913 with his B.Sc. degree, he became resident engineer on storm-sewer construction at Toronto. Later he was stationed at Copper Cliff, Ont., and at Hamilton, where he was engineer of sewer and underground construction. He then became vice-president and general manager of the Stanley Construction Company, and subsequently assistant works commissioner for Ottawa, which post he filled for ten years prior to his death. He is survived by his widow, formerly Norma Elmer of Kingston.

**Macdonnell**—Lt.-Gen. Sir Archibald Cameron Macdonnell, K.C.B., C.B., C.M.G., D.S.O., Croix de Guerre, Officer of the Legion of Honour, and LL.D. of Queen's, 1922, died in Kingston on December 23 after an extended illness. Sir Archibald was born at Windsor, Ont., in 1864, and was educated at Trinity College School and the Royal Military College, from which he graduated in 1886. He immediately entered military life, and by 1889 had become adjutant and quartermaster of the Canadian Mounted Infantry. He then joined the Royal Northwest Mounted Police. In 1900 he went to South Africa as a captain in the Canadian Mounted Rifles, recruited mainly from the R. N. W. M. P. In South Africa he was dangerously wounded, mentioned in dispatches, received the D.S.O., and rose to the rank of lieutenant-colonel. On his return to Canada, he rejoined the Mounted Police, was made superintendent, and remained with the corps until 1907, when he was appointed major in the Lord Strathcona's Horse. In 1914 he went to France at the head of this unit, and in 1917 he was made commanding officer of the First Canadian Division. He led the Canadian troops into Germany after the armistice. He was mentioned many times in dispatches, was seriously wounded in 1916, received the Croix de Guerre with palms, was named an Officer of the Legion of Honour, and had conferred upon him a series of British honours which culminated in his knighthood. In 1919 Sir Archibald was appointed commandant of the Royal Military College, which position he filled with distinction until his retirement in 1925. He is survived by one daughter, Mrs. Walter Gillespie, Barrie, Ont.

**Newman**—Following an illness of one year, Norman Edward Newman, Arts '39, second son of Mr. and Mrs. Abraham Newman, of St. Catharines, Ont., died in the general hospital of that city on October 31, at the age of 27. Mr. Newman was born in St. Catharines and received his preliminary education there. He attended the University of Toronto for four years before entering Queen's, where he received his B.A. in 1939. He was prominent in all branches of athletics during his school and college career. At Queen's he won his basketball letter in his first year, and was manager of the senior team and inter-faculty coach during the next two sessions. Besides his parents, he is survived by one sister and two brothers, one of whom is Benjamin Newman, Arts '42.

**Reid**—On December 9, Gilbert John Reid, Sc. '13, died suddenly from a heart attack at his home in Kingston. Shock of the sudden death of his son, Flt. Lt. Jack Reid, is believed to have aggravated the heart condition which brought about Mr. Reid's death. His son was fatally hurt on November 7 in a motor accident near Hamilton. "Gib" Reid was born in Kingston, the son of John Reid and the late Sarah Simmons. He entered Queen's in 1909, spent three years with the class of Sc. '13, but did not finish his course. While at the University he was a quarterback on the senior rugby team and took an active part in all athletics. He joined the engineering staff of the Ontario Department of Highways in 1913, serving first as a patrol foreman and later as an inspector. In 1936 he was appointed maintenance engineer of the Kingston division. He is survived by his wife and two sons.

## Notes

### 1890-1899

**Dr. G. F. Dalton**, Arts '98, Med. '02, has practised for many years as an eye, ear, nose and throat specialist at Springfield, Mass. After leaving Queen's, Dr. Dalton did postgradaute work in London, England, where he received his M.R.C.S. and L.R.C.P. in 1903, and at Manhattan Eye, Ear, Nose and Throat Hospital, New York City. He was a captain in the U.S. Army Medical Corps in 1918-19.

**Donald A. McKenzie**, Arts '96, has retired from the active ministry of the Presbyterian Church and is living at Cobourg, Ont.

**Rev. A. McMillan**, Arts '99, has retired from the active ministry of the United Church. The Kamloops-Okanagan Presbytery at its meeting in Kelowna, B.C., recently placed on record its appreciation of Mr. McMillan's services to the United Church in the various pastorates which he had occupied in that presbytery over many years.

**James Thorne**, Arts '96, has moved from 8 Cooper St., Ottawa, to Billings Bridge, Ont., where his address is Box 25.

### 1900-1909

**Miss Mary L. Allison**, Arts '02, is now living in Adolphustown, Ont.

**C. P. Bishop**, Arts '00, is now retired and living at 336 Russell Hill Drive, Toronto. He was formerly assistant treasurer of the T. Eaton Company.

**Dr. E. L. Bruce**, Sc. '09, Arts '11, Miller research professor of geology at Queen's, was elected councillor and first vice-president of the Geological Society of America at its fifty-fourth annual meeting held in Boston on December 29.

**G. A. Carefoot**, Arts '04, Paed. '10, retired last August as public-school inspector for Lincoln County, Ont., which position he had held since 1917. He lives at 18 Thomas St., St. Catharines, Ont.

**R. H. Cooper**, Sc. '09, is with the engineer services branch of the Department of National Defence, Ottawa. He lives at 202 Second Ave.

**H. B. R. Craig**, Sc. '03, is division engineer for the Hydro-Electric Power Commission of Ontario at Ferland. He resides at 4283 Riverside Drive, Windsor, Ont.

**Rev. W. J. Cook**, Arts '07, who did missionary work for many years in Central India, is at present minister of the Presbyterian Church in Creemore, Ont.

**M. U. Ferguson**, Sc. '04, is engineer in charge of construction for the R. C. A. F. at St. John's, Nfld.

**H. K. Fleming**, Sc. '09, is with the Owen Sound division of the Ontario Department of Highways. His residence address is R. R. No. 3, Collingwood, Ont.

**Judge A. M. Harper**, Arts '00, of Vancouver, is now living at 1336 West 26th Ave.

**G. J. Jackson**, Sc. '09, is doing photo-topographical surveying work for the Province of British Columbia. His address is Cedar Hill Cross Roads, R.R. No. 4, Victoria, B.C.

**C. E. Law**, Arts '05, has been teaching in Manitoba since 1908. For the past ten years he has been on the staff of the Winnipeg Junior High and Collegiate schools.

**Col. R. J. Manion**, Med. '04, former head of the Conservative party, has been named director of civil air raid precautions for Canada. Colonel Manion began his medical studies at Queen's, but finished his course at the University of Toronto, where he received his degree.

**N. C. Polson**, Arts '02, of the manufacturing chemical company bearing his name in Montreal, has been appointed to the Montreal City Council in succession to the late Mr. Louis Armstrong, who had represented the nominees of public bodies.

### 1910-1919

**H. F. Archibald**, Arts '18, has retired after thirty-seven years service with the Protestant School Commissioners of Montreal. For twenty-three years he was principal of Maisonneuve School. He is living at 3481 Addington Ave.

**M. J. Aykroyd**, Sc. '13, Toronto, has been elected as a councillor in the electrical branch of the Association of Professional Engineers of the Province of Ontario for 1942.

**Sylvio Bourgoing**, Sc. '12, is employed by the Department of Public Works of Canada at Rimouski, Que.

**H. C. Bates**, Sc. '17, was recently appointed engineer for Perth County, Ont. He will have as neighbours **D. J. Emrey**, Sc. '22, and **T. R. Patterson**, Sc. '18, engineers in the adjoining counties of Waterloo and Huron respectively, and **J. N. Meathrell**, Sc. '23, in Oxford county.

**S. L. Burns**, Sc. '14, formerly at Temiskaming, Que., with the Canadian International Paper Company, is now with the Inspection Board of the United Kingdom and Canada, 15 Broad St., New York City.

**Mrs. F. C. Casselman** (Cora Watt), Arts '12, M.P. for Edmonton East, addressed the Women's Canadian Club in Toronto on December 5. She was also a luncheon speaker at the annual convention of the Ontario Provincial Council of Women, held at the Royal York Hotel, Toronto, early in December.

**J. B. Dunkley**, Sc. '11, is acting engineer for Prince Edward County, Ont. He lives in Picton.

**R. A. Elliott**, Sc. '10, general manager of the Deloro Smelting and Refining Company, Deloro, Ont., has been elected vice-president of the Association of Professional Engineers of Ontario for 1942.

**Dr. D. R. Fletcher**, Med. '16, has been superintendent of the Ontario Hospital, Whitby, Ont., for the past seven years.

**O. G. Gallaher**, Sc. '10, formerly at Merritt, B.C., is now assistant district engineer for the British Columbia Department of Public Works, New Westminster, B.C.

**Dr. G. M. Gibson**, Med. '10, formerly of Drumheller, Alta., is now living at Balfour, B.C.

**J. B. Beddome**, Arts '14, teaches in the high school at Vernon, B.C.

**W. E. Hay**, Arts '17, B.Paed. '20, is inspector of schools at Stettler, Alta.

**T. L. Hughson**, Sc. '16, is associate construction engineer and construction superintendent with the Robertson Construction and Engineering Company, Niagara Falls, Ont.

**Mrs. W. H. Jenkin** (Mabel Henderson), Arts '19, Detroit, member of the Detroit branch of the American Association of University Women, has had articles published in recent months in "The Michigan Christian Advocate," "The American Citizen," and "The Farmer's Advocate."

**Prof. T. Watson Kirkconnell**, Arts '16, of the department of English, McMaster University, addressed the Royal Canadian Institute recently on "The Peoples of Canada." The lecture was illustrated with motion pictures.

**Dr. H. M. Young**, Med. '12 (F.A.C.S. 1924), surgeon at Moose Jaw, Sask., recently attended the Kiwanis International Council in Chicago as district governor of Kiwanis for Western Canada.

## 1920-1929

**Mrs. Alma J. Alkenbrack**, Arts '24, of Napanee, Ont., is recovering in the Kingston General Hospital following an operation early in January.

**D. B. Angus**, Sc. '28, is mill superintendent at Central Patricia Gold Mine, Central Patricia, Ont.

**Mrs. Paul Banker** (Grace Wood), Arts '26, was appointed librarian of the Brooklyn Museum Library of Art and Ethnology in March, 1940. She had been on the staff for several years.

**Bliss Barnum**, Arts '26, Toronto, was bereaved recently by the death of his father, Mr. C. W. Barnum, formerly of Kingston.

**L. D. Barrett**, Sc. '28, is on the staff of the Ontario Department of Highways. He lives at 1 Hilo Road, Long Branch, Ont.

**Miss Bertha Bassam**, Arts '22, at present in New York City, was bereaved during December by the death of her father, Mr. William Edward Bassam, at Whitby, Ont.

**S. A. Beatty**, Arts '25 (Ph.D. McGill), has served as director of the Atlantic Fisheries Experimental Station at Halifax, N.S., since 1939.

**A. W. Bromley**, Sc. '26, is plant engineer at Pamour Porcupine Mines, Pamour, Ont.

**H E. Bushlen**, Sc. '29, is a member of the civilian engineering staff of No. 3 Training Command, R.C.A.F. Headquartrs, Montreal.

**W. A. Dawson**, Sc. '23, is chief of planning for the Otis-Fensom Elevator Com-

pany, Hamilton, Ont. During 1940 he was in England making a survey of armament plants engaged on production of Bofors guns.

**Rev. A. E. Duffield,** Arts '28, is minister of John Street United Church in Sault Ste. Marie, Ont .

**Dr. C. W. Duncan,** Med. '26, practises at 194 Kelvin St., Winnipeg, Man. He is medical officer of health for the municipality of North Kildonan, and senior medical officer for the Swift Canadian Company, Winnipeg.

**J. A. Gemmell,** Sc. '28, is engineer in charge of draughting and design at the shell filling plant of Defence Industries Limited, Pickering, Ont.

**Miss Janet Greig,** Arts '20 (M.A. University of B.C.), is assistant professor of French at the University of British Columbia, Vancouver.

**A. G. Hamilton,** Sc. '22, formerly of the E. I. du Pont de Nemours and Co. Inc., Niagara Falls, N.Y, is now doing work for this company at El Monte, Calif.

**Dr. G. S. Harris,** Med. '22, formerly practising at Cambria, Ont., is now a quarantine officer at Halifax, N.S.

**W. K. Kendrick,** Arts '23, Toronto, was bereaved recently by the death of his mother, Mrs. O. S. Kendrick, at Bellamy, Ont.

**J. G. L. McCrea,** Sc. '23, has been promoted to the position of general manager of Sigma Mines (Quebec) Limited, Bourlamaque.

**R. W. E. McFadden,** Arts '21, science master at Brantford Collegiate Institute, has been appointed secretary-treasurer of the Ontario Secondary School Teachers' Fraternal Society.

**Ross MacKay,** Sc. '23, is with E. Long Limited, Orillia, Ont.

**K. G. McNab,** Arts '27, is agency superintendent at Toronto for the Manufacturers Life Insurance Company.

**Flt.-Lt. G. M. Minard,** Sc. '28, of the R. C. A. F., has been transferred from St. Hubert, Que., to Moncton, N.B.

**C. W. Morgan,** Sc. '28, assistant engineer, Department of Public Works of Canada, is on loan to the Directorate of Engineer Services, Department of National Defence, Ottawa. He is living at 85 Java St., Ottawa.

**G. D. O'Connor,** Sc. '21, is engineer-draughtsman at the St. Louis Barracks, Quebec City. He is also instrumentman and concrete inspector for the Valcartier Military Camp at Rimouski Training Centre and the Dominion Arsenal, in M.D. No. 5.

**H. J. Racey,** Sc. '28, is assistant chief engineer in charge of mill maintenance and construction work for the Brown Corporation at La Tuque, Que. He is also in charge of the engineering office and the mill training school.

**F. R. Roche,** Arts '23, vice-principal of the collegiate institute at Renfrew, Ont., was bereaved on December 16 by the death of his wife.

"Why can't you decide between those two boys?"
"Because they both smoke Sweet Caps!"

**SWEET CAPORAL CIGARETTES**

*"The purest form in which tobacco can be smoked."*

**Dr. Horace (Shag) Root**, Med. '24, is serving as a naval surgeon with the United States Army on Palmyra Island in the Pacific Ocean. Dr. Root practised in New York City until his enlistment about two years ago.

**E. W. Roy**, Sc. '22, is secretary-treasurer of the Napanee Iron Works, Napanee, Ont.

**Miss Madeleine Saulter**, Arts '20, formerly library assistant to the research clerk in the Department of Mines, Ottawa, has been promoted to the position of research clerk.

**W. H. Spence**, Arts '26, has taught English and history in the Western Technical-Commercial School, Toronto, since graduating from O.C.E. in 1928.

**Mrs. L. E. R. Stephens** (Lillian Newell), Arts '29, Sudbury, Ont., and **Mrs. R. D. Bradfield** (Eva Newell), Arts '26, Kingston, were bereaved by the death of their father on December 28.

**Dr. B. R. Susman**, Arts '29, Med. '33, formerly at Gogama, Ont., is now practising at Warren, Ont.

**H. V. Tancock**, Arts '22, was recently appointed head of the history department of Humberside Collegiate Institute, Toronto.

**A. S. Townsend**, Sc. '24, is construction engineer for Donald Inspection Limited, Toronto. He lives at 349 Prince Edward Drive.

**J. R. Traves**, Sc. '26, has been on the staff of the Bell Telephone Company of Canada since graduation. He is now living at 20 Neville Park Blvd., Toronto.

**Miss Lillian Underwood**, Arts '29, teaches in the collegiate institute at Cornwall, Ont.

**M. J. Vechsler**, Com. '26, Canadian trade commissioner at Lima, Peru, whose territory also includes Ecuador, Chile and Bolivia, is at present on leave in Canada. He was a recent visitor in Kingston.

**D. H. G. Wright**, Sc. '21, president of Preston East Dome Mines, has been elected vice-chairman of the Toronto branch, Canadian Institute of Mining and Metallurgy.

### 1930-1941

**W. J. Ahearn**, Sc. '37, is with the Royal Air Force, Ferry Command, Dorval Airport, Montreal.

**Miss Wilma Anglin**, Arts '38, formerly teaching at Elgin, Ont., has accepted a position on the staff of the high school at Fergus, Ont., where she will teach French and German.

**K. F. Bews**, Sc. '34, is chief draughtsman and senior engineer with the Canadian International Paper Company, Gatineau, Que. He lives at 78 Hopewell Ave., Ottawa.

**I. H. Birch**, Sc. '37, formerly with the Canadian International Paper Company at Temiskaming, Que., is now with this company at Hawkesbury, Ont., as acid-plant and digester-house engineer.

**K. O. Birkin**, Arts '33, is school inspector at Napanee, Ont.

**J. H. Brown**, Sc. '40, is plant engineer for Brown-Boggs Company, Hamilton, Ont.

**W. C. Brown**, Arts '31, formerly with the Empire Life Insurance Company, Kingston, has joined the actuarial department of the

Prudential Assurance Company Limited (London, England). He is in the Canadian head office, 465 St. John St., Montreal.

**H. E. Bulmer**, Arts '33, Sc. '33, is superintendent of pricing and routing for the Massey Harris Company, Toronto.

**Dr. R. C. Burr**, Med. '32, lecturer in radiology at Queen's, recently attended the National Radiological convention held in San Francisco, Calif.

**R. W. Burton**, Arts '41, is in the shipping department of Parke, Davis and Company, Windsor, Ont.

**A. T. Cairncross**, Sc. '31, is assistant engineer with the Aluminum Company of Canada, Arvida, Que.

**J. I. Carmichael**, Sc. '36, had an article entitled "Some Problems in Aircraft Production" in the November issue of the "Journal" of the Engineering Institute of Canada. The paper was presented before the Lakehead branch of the Institute some time previously.

**E. G. Carmichael**, Sc. '41, is a metallurgical engineering apprentice at the Aluminum Company of Canada's plant in Kingston.

**Miss Mary Priscilla Carter**, Arts '41, is teaching at the public school in Kenora, Ont.

**J. P. Callum**, Sc. '38, is master mechanic of blast furnaces with the Algoma Steel Corporation Limited, Sault Ste. Marie, Ont.

**N. B. Campbell** Sc. '40, is research chemical engineer with the Canadian Celanese Company, Drummondville, Que.

**Major Campbell Fraser**, Sc. '34, 2nd Cdn. Fd. Coy., R.C.E., is confined to No. 5 General Hospital, Canadian Army Overseas, as the result of an accident which occurred some weeks ago.

**R. B. Copeland**, Med. '38, is on the staff of the McIntyre Porcupine Mines, South Porcupine, Ont.

**E. M. Coulthart**, Sc. '41, has accepted a position with Naval Service Headquarters, Ottawa, works and buildings directorate, as junior engineer on heating, air-conditioning and plant-layout work.

**J. H. Cowan, Sc. '33**, is in charge of technical control in the specialty-paper mills of the E. B. Eddy Company, Hull, Que.

**T. N. Davidson**, Sc. '41, is on the staff of the Canadian National Carbon Company, Toronto.

**Lieut. G. W. Dennis**, Arts '39, of the Hastings and Prince Edward Regiment, is training for service as a commando. He went oversea about a year ago.

**F. L. Edwards**, Sc. '36, is doing inspection work for the Sutton Horsley Company, Toronto, Ont.

**T. M. Eedson**, Sc. '34, is on the staff of the Canadian Westinghouse Company, Hamilton, Ont.

**R. A. Findlay**, Sc. '30, is assistant superintendent of labour and transportation for Defence Industries Limited, Nobel, Ont.

**S. J. Gore**, Sc. '34, has been employed by the city of North Bay since 1939 as engineer at the civic pumping station.

**Miss Mary Gardiner**, Arts '38, is teaching English in the collegiate institute at Prince Albert, Sask.

**T. V. Graham**, Sc. '34, is mill engineer with the Lamaque Mining Company, Bourlamaque, Que.

**W. K. Gummer**, Arts '37, has received his Ph.D. in geology from the University of Chicago. The degree was conferred on him at the winter convocation, held during December.

**Mrs. R. B. Hadden** (Isabel Anderson), Arts '34, is now living in London, Ont., where her husbad is assistant accountant in the Bank of Toronto.

**C. A. Hames**, Sc. '38, is research and test engineer at the Sherritt-Gordon Mines, Sherridon, Man.

**PO. C. S. Hansen**, Sc. '34, R.C.A.F., is now stationed at Gander, Nfld.

**Miss Ruth Harper**, Arts '33, is engaged in social work at Hartford, Conn.

**J. F. Harris**, Sc. '41, is employed at the Canadian Locomotive Company, Kingston.

**D. H. W. Henry**, Arts '39, is in his third year at Osgoode Hall, Toronto.

**Miss Ruth Hood**, Arts '41, is correspondent for the War Savings Committee, Ottawa.

**Rev. H. A. Jamieson**, Arts '40, was recently inducted as rector of St. Saviour's Anglican Church, Toronto.

**Wing Commander W. M. Keddie**, Sc. '30, now stationed at No. 31 S.F.T.S., Collins Bay, Ont., addressed the members of the Kingston Rotary Club recently at their weekly meeting in the La Salle Hotel. He spoke on U. S. war supplies, particularly airplanes and tanks, and the part that they would play in the battle of Libya.

**Miss Rhoda Laidley**, Arts '35, is in the bacteriology department of the Dominion Government's laboratory of hygiene at Kingston, Ont.

**W. C. Little**, Sc. '30, of the Canadian Broadcasting Corporation, is on loan to the National Research Council, Ottawa. He is residing on Osborne Ave., Britannia Heights, Ont.

**A. S. Lockley**, Arts '41, is doing postgradaute work in fishery biology at the University of Michigan.

**O. E. B. Low**, Arts '34, who has been a member of the public-school board at Ottawa for the past three years, was elected chairman of the board at the first meeting of the year, held on January 7.

**D. W. McHoull**, Arts '34, formerly head of the history department in the high school at Timmins, Ont., is now on the staff of Humberside Collegiate Institute, Toronto.

**I. D. MacKenzie**, Sc. '40, has been transferred to the Montreal office of the Shawinigan Engineering Company. He was formerly at Shawinigan Falls, Que.

**W. K. McShane**, Arts '41, recently returned from overseas as a member of the United Kingdom Inspection Board training group. On his way to England he witnessed a submarine attack on a British convoy and saw a British destroyer blast a submarine to destruction with depth charges.

**Mrs. B. W. Martin** (Doris Pound), Arts '34, is living in Kingston for the duration of the war. Her husband a Flying Officer in the R.C.A.F., is now in Singapore.

**G. E. Monteith**, Sc. '39, is with the Standard Chemical Company, Montreal.

**Flt.-Lt. G. H. Newsome**, Sc. '39, R.C.A.F., is now stationed at No. 14 E.F.T.S., Portage la Prairie, Man.

**A. J. Noftall**, Arts '41, is teaching in the Prince of Wales school, Peterborough, Ont.

**Arthur Parmiter**, Arts '41, is on the staff of the Domestic Finance Corporation, Rosslyn, Virginia. Mrs. Parmiter was **Vera Common**, Arts '42.

SPUN ROCK WOOL · HEAT COLD SOUND · INSULATION

**SPUN ROCK WOOL**
(Reg'd.)

**A resilient, long-fibred insulation made from molten rock. Proof against Fire, Vermin, Vibration and Corrosion. Recommended for cold-storage; sound-proofing and acoustical treatments; all industrial purposes up to 1000 F. Made in standard forms for home insulation; exported in bulk form.**

**Spun Rock Wools Ltd.**

THOROLD, ONTARIO

J. Buss, Sc. '19 C. R. Buss, Sc. '27

**Dr. R. R. Patterson**, Med. '36, has been appointed to the neuro-surgical staff of Hellman Hospital, Birmingham, Ala. He is also medical examiner for the Mutual Life Insurance Company in that city.

**E. S. Pentland**, Arts '32, received his M.D. degree from the University of Toronto in 1940. He interned for a year at the general hospital in Hamilton, and since then has been physician for the International Nickel Company, Creighton Mine, Ont.

**E. A. Patzalek**, Sc. '38 (M.Sc. Notre Dame), is on the staff of Dominion Foundries and Steel Limited, Hamilton, Ont.

**Dr. E. G. Planty**, Arts '30, has been research assistant in the graduate school of education, Cornell University, for the past two years. After leaving Queen's Dr. Planty obtained a B.A. at St. Lawrence University, Canton, N.Y., an M.A. from Columbia University, New York City, in 1932, and his Ph.D. at Cornell last year.

**H. R. Pletch**, Sc. '39, is on the staff of the Goodrich Rubber Company, Kitchener, Ont.

**Jacob Poliskin**, Sc. '38, is with the Barrett Company Montreal. He lives at 5551 St. Hubert St.

**H. M. Rice**, Arts '35, is engaged in the inspection of chemicals and military explosives for the Inspection Board of the United Kingdom and Canada. He is living at 72 Second Ave., Ottawa.

**Flt. Lt. G. W. Richardson**, Arts '35, is now stationed at No. 4 Wireless School, R.C.A.F., Brantford, Ont.

**A. H. Ross**, Sc. '36, recently joined the staff of the Eldorado Gold Mines, Port Hope, Ont., as general production superintendent of the refinery. He is in charge of all operations, maintenance, power and research. Mr. Ross was formerly with Defence Industries Limited, Valleyfield, Que.

**O. S. Russell**, Sc. '30, is assistant line supervisor, Western Division, Niagara System of the Hydro Electric Power Commission of Ontario, London, Ont.

**S. R. Scott**, Com. '40, is in the head office of Provincial Paper Limited, Toronto.

**U. A. Shane**, Arts '37, has been chief chemist of Price Brothers aud Company Limited, Jonquierre, Que., since 1939.

**D. M. Shepherd**, Arts '39, is continuing his work in classics at the University of Chicago towards his Ph.D. degree.

**H. V. Smeltzer**, Sc. '41, is back at the University this year doing postgraduate work in chemistry.

**Miss Inez Stabback**, Com. '30, is teaching in the high school at Midland, Ont.

**J. G. Stone**, Sc. '41, is in the office of the division engineer, Canadian National Railways, Ottawa.

Dr. **Irwin Sugarman**, Arts '34, Med. '36, Montreal, was bereaved on December 24 by the death of his father, Mr. Nathan Sugarman, Kingston.

Mrs. **John G. Sutherland** (Mabel Smith), Arts '36, is now living at 195 Cooper St., Ottawa.

**E. J. Thompson**, Sc. '33, is on the staff of A. Wander Limited (Ovaltine Company), Peterborough, Ont.

**I. D. Vessie**, Sc. '38, has been transferred from McMasterville, Que., to the Nitro, Que., plant of Defence Industries Limited.

**F. S. Ward**, Sc. '35, is assistant inspector for the British Admiralty Technical Commission at Messrs. E. S. Bliss and Company, 53rd St. and Second Ave., Brooklyn, N.Y.

**C. T. Williams**, Sc. '41, formerly at Falconbridge, Ont., is now mine shift boss for the Cotopaxi Exploration Company of New York City at their property in Ecuador. His address is Cotopaxi Exploration Company, Apartado 272, Latacunga, Ecuador.

**Dr. A. C. Young**, Med. '36, has been appointed district physician for the Tennessee Coal and Iron Company, Birmingham, Ala.

**Dr. H. G. Young**, Med. '38, is specializing in urology at the Long Island College Hospital, Brooklyn, N.Y.

**Dr. R. J. Young**, Med. '32, has been in general practice at Peterborough, Ont., for several years.

**Dr. J. E. Zbar**, Arts '33, Med. '36, has announced the opening of offices for the practice of otolaryngology at 411 Hempstead Ave., Rockville Centre, L.I., N.Y.

## General

**Prof. W. J. Alexander**, LL.D. '19, who retired from the staff of the University of Toronto in 1925, received the degree of LL.D. from that university on December 15. Professor Alexander joined the staff in 1899 and subsequently became famous as a teacher of English and as head of the department of English in University College

**Sir Gerald Campbell**, K.C.M.G., LL.D. '39, formerly British Minister to the United States, is now Director General of the British Information Services. His address is 30 Rockefeller Plaza, New York City.

**Dr. Louis S. St. Laurent**, LL.D. '30, one of Canada's most prominent lawyers was sworn in at Ottawa on December 10 as Minister of Justice for the Dominion succeeding the late Rt. Hon. Ernest Lapointe, LL.D. '41.

# UNDERGRADUATE MEMORIES OF LONG AGO

**By J. A. Reid, Sc. '02**

MY brother and I, coming from Nova Scotia, arrived at Kingston about the beginning of October, 1898. We registered in the Faculty of Science or, as it was then called, "The School of Mining and Agriculture Affiliated with Queen's University." The freshman class in Science of 1898-99, as I remember, comprised fourteen individuals, to wit: W. S. Dobbs, E. T. Dwyer, M. F. Fairlie, M. R. Garrow, J. V. Gleeson, G. A. Grover, C. W. Knight, A. J. McNab, D. S. Noble, A. V. Redmond, G. C. Reid, J. A. Reid, L. P. Silver and C. W. Workman. My brother and I were the only entrants from outside of Ontario, and seven belonged to Kingston.

Twelve registered as miners and two as electricals. We had no civil or mechanical engineers in our class at the outset; subsequently, however, changes took place. Redmond, G. C. Reid and Gleeson became civil engineers, the two former being absorbed into the railway construction of the period. Grover, after a short stay with the Topographical Survey in Ottawa, turned to law and practised in Toronto for many years.

At the present time Dobbs, Garrow, Grover, Noble and Redmond are dead, and possibly Gleeson, as I have not heard of him for many years. Of the remainder, A. J. McNab is a leading figure in the Newmont Mining Corporation of New York City; C. W. Knight is head of the Cyril Knight Prospecting Company of Toronto; M. F. Fairlie and J. A. Reid are consulting engineers in Toronto; C. W. Workman is also following the profession of mining and has been recently domiciled at Kingston. L. P. Silver practised mining for a while, but eventually abandoned it and is now in the wholesale fur business in Montreal; E. T. Dwyer is with Canadian Westinghouse Company in Hamilton; G. C. Reid is a civil engineer at Halifax, N.S.

In our class the two most prominent figures were A. J. (Sandy) McNab and A. V. (Gus) Redmond; the latter was also known as "The Czar," on account of his fondness for getting his own way in various matters. Of the two, McNab was the more popular and the dominating character. They were, however, very good friends, and in the final year reached a gentleman's agreement, whereby "Gus" became president of the Engineering Society, while "Sandy" remained the "power behind the throne" and wielded the actual authority.

At that time (1898) the Science staff consisted of Dr. W. L. Goodwin, director of the School of Mining and professor of chemistry; Professor W. G. Miller, geology; Professor William Nicol, mineralogy; Professor Courtenay De Kalb, mining and metallurgy; Professor R. R. Carr-Harris, civil engineering; and Mr. William Mason, lecturer in surveying and drawing. In addition, we took lectures in the Arts Faculty—in mathematics from Professors Dupuis and Carmichael, in physics from Professor Marshall, and in (junior) English from Professor Cappon. All have since passed to the Beyond. Dr. Goodwin was the last, having died in January, 1941.

Dr. Goodwin, in addition to teaching us chemistry, endeavoured by precept and example to keep us on the path of sobriety and temperance, but I regret to say that his efforts in that direction were not attended with any marked degree of success.

Professor (afterwards Doctor) Miller. of imposing physique and stature, was in my time, through his strong character and quiet but genial manner, the most popular teacher in the Science Faculty. His success as a teacher came from his personality and his power of inspiration rather than from his skill as a lecturer. These qualties enabled him to arouse in

many of his students, myself included, an interest in geology that they retained throughout their lives. His influence ex-

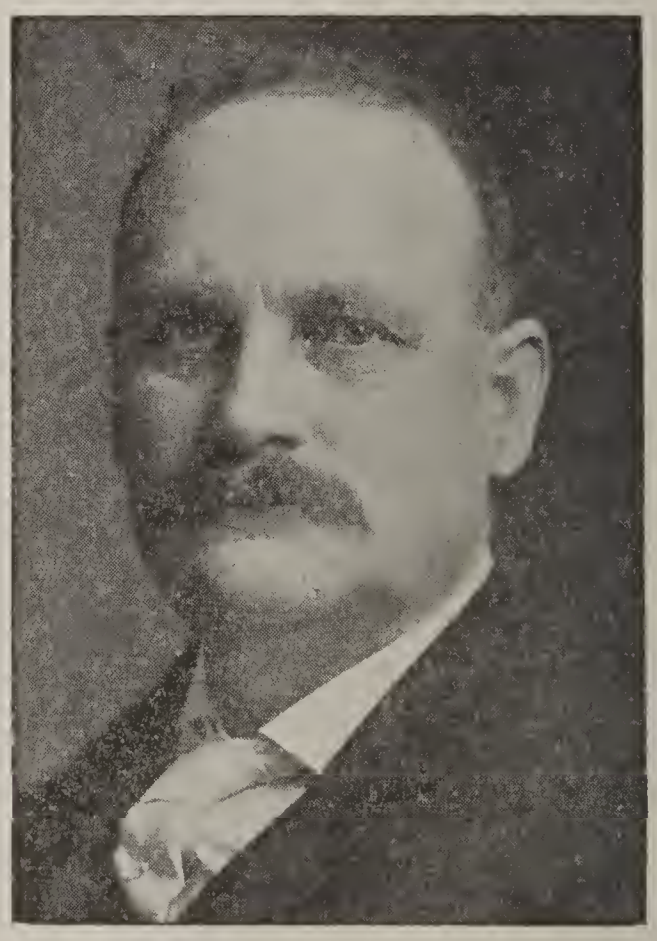

DR. W. G. MILLER

tended far beyond his incumbency of the chair of geology, and the present position of Queen's in respect to this science is largely due to Professor Miller. His subsequent career as the first provincial geologist of Ontario and his researches in his chosen field of Pre-Cambrian geology made his name renowned in after years in the annals of both mining and geology.

Professor Nicol was in all respects very different from his colleague in geology. He lacked the quality of inspiration that distinguished Professor Miller, but was nevertheless a very able teacher, with a thorough grasp of determinative mineralogy which, by dint of unremitting effort, he succeeded in driving into our somewhat obdurate skulls. On account of his sharp, sergeant-major style, he was usually not popular with first- and second-year students; but underneath that brusque exterior he was one of the most kindly and generous of men, and few of his students ever left the halls of Queen's without having experienced a radical and favourable change in their sentiments towards Professor Nicol. He was an enthusiastic mineral collector and laid the foundation of the present mineral collection of Queen's. His pet aversion was women students from the Arts Faculty who occasionally took lectures in mineralogy; and I once remember his telling us, almost with tears in his eyes, how one young lady possessed of a lead pencil and an inquiring turn of mind ruined one of his most cherished specimens.

Professor Nicol also taught assaying, the results obtained by the students being compared for correctness with other tests made by expert assayers or analysts on the same material. In this connection, my brother George was once doing a silica estimation on an iron ore when the thing spurted and some of the material was lost. This he replaced with sand from a sand bath, apparently showing good judgment or, what was more likely, having good luck, for when the results were given out, like Abou Ben Adhem, "Lo! h's name led all the rest."

Professor De Kalb came to Queen's from the United States, and in addition to his professional duties was one of the provincial mining inspectors. "Courtenay," as he was commonly called, was a good lecturer and, according to his own account, had a most extensive experience in mining and metallurgy over the

PROFESSOR WILLIAM NICOL

greater part of the two Americas. One of his students (not of my year) once checked the various places where he had

been and the time spent therein. He made the astounding discovery that the professor was upwards of one hundred and fifty years old ! ! although his personal appearance was decidedly at variance with that advanced age.

A current legend about Professor De Kalb was that once when he and a senior student were driving in the hinterland of Frontenac or Hastings they encountered a rabbit on the road. Anxious to demonstrate his skill with the traditional weapon of the western frontier, the professor stopped the rig, drew a revolver, took careful aim at the rabbit and fired. According to the most popular version, he missed the rabbit and shot the horse through one of its ears, whereupon the injured and indignant animal immediately generated an amount of horsepower greatly in excess of its rated capacity, summarily ejecting the unsuccessful marksman and his companion from the vehicle and depositing them in a nearby ditch.

Professor De Kalb left Queen's just before the beginning of our final year and was succeeded by Professor S. F. Kirkpatrick.

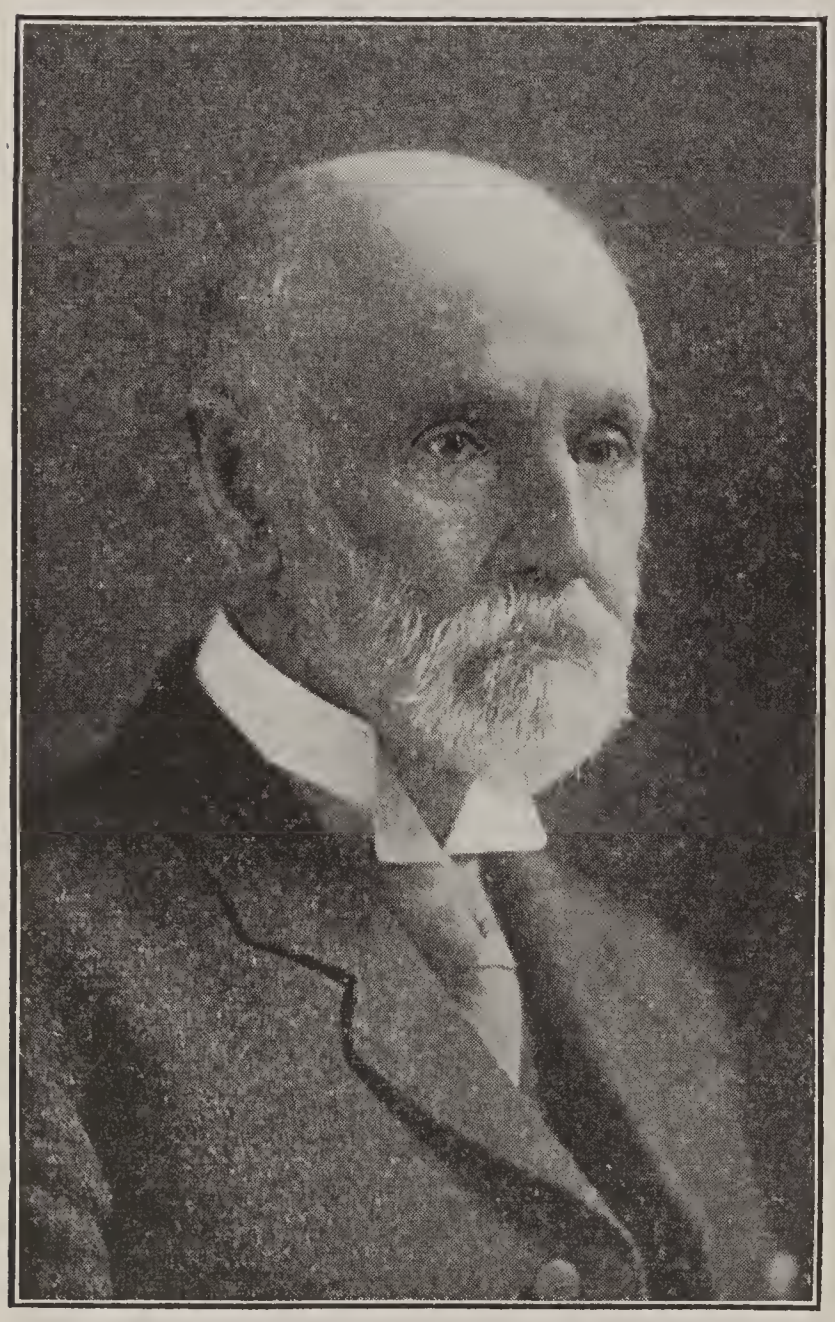

Professor Carr-Harris was a kindly but somewhat unconventional gentleman. His most outstanding characteristic, as I remember, was an intense aversion to the policy of the Canadian Society of Civil Engineers (now the Engineering Institute of Canada) in endeavouring to secure engineering legislation. I well recall a speech he made to us in our first year, that "set us all by the ears," in which he prophesied that if such legislation took effect we would lose our birthright. He even carried his antagonism so far as to attempt to form another engineering society in opposition to the C. S. C. E. Whether or not Professor Carr-Harris' hostility had any effect in delaying engineering legislation, I do not know, but it is certain that it did not become an active force until twenty-four years later.

Mr. Mason, besides teaching surveying and drawing, was bursar of the School of Mining. He formerly belonged to the Royal Engineers and was once stationed at Halifax. During our practical surveying classes on Barriefield Common in the vicinity of Fort Henry, he would shoo us all away and then carefully set up a transit or level, after which we were permitted .to approach cautiously, peer gingerly through the telescope, and read the vernier or the rod. He certainly taught us to be careful with instruments, but his excessive caution prevented us from becoming familiar with their manipulation. Mr. Mason died at the outset of our second year. After his death the office of bursar was abolished and we paid our fees directly to the registrar of the University.

Professor Dupuis, known as "Nathan," was dean of the Faculty of Science in addition to being professor of mathematics. I shall not dwell on his reputation as a teacher; this is well known. He was a man of short stature and slight physique, the physical antithesis of Professor Miller; but that slight form contained a remarkably powerful and dominating personality, and it is my opinion that had "Nathan's" lot been cast as a sheriff in the days of the "Old West," he would have made a name for himself by disarming and arresting gunmen and other "bad eggs." One incident will illustrate this. At the beginning of my sophomore year when I was taking second-year mathematics, six or eight big fellows entered the classroom and took the back seats, just behind me. They were all athletes and had all been plucked in mathematics, were not feeling very good about it, and came in with the object of creating a disturbance. As soon as the lecture started they began talking out loud to each other. The noise escaped the attention of Professor Dupuis for some minutes; then he noticed it, and looking straight at the would-be disturbers, he said in an even but decisive tone: "That noise in the back seats has got to stop, and I don't intend repeating that order." It stopped instantly; so suddenly, in fact, that I looked around in surprise, and every one of those chaps had the look of a cowed and frightened pup. It was certainly a remarkable demonstration of the power of mind over matter. The stronger personality of the little professor

had literally paralyzed the weaker wills of those big athletes, much the same as a serpent is supposed to subdue a bird. Professor Dupuis, however, rarely had cause to exercise the remarkable power that he possessed, as he was generally respected and admired by the faculty and the students, both for his attainments as a mathematician and his qualities as a man. He had the reputation of being inflexibly just, but it is also true that he not infrequently tempered justice with mercy.

Professor Marshall, generally known as "Davy" or "Feesicks," was a Scot, with a

DR. N. F. DUPUIS

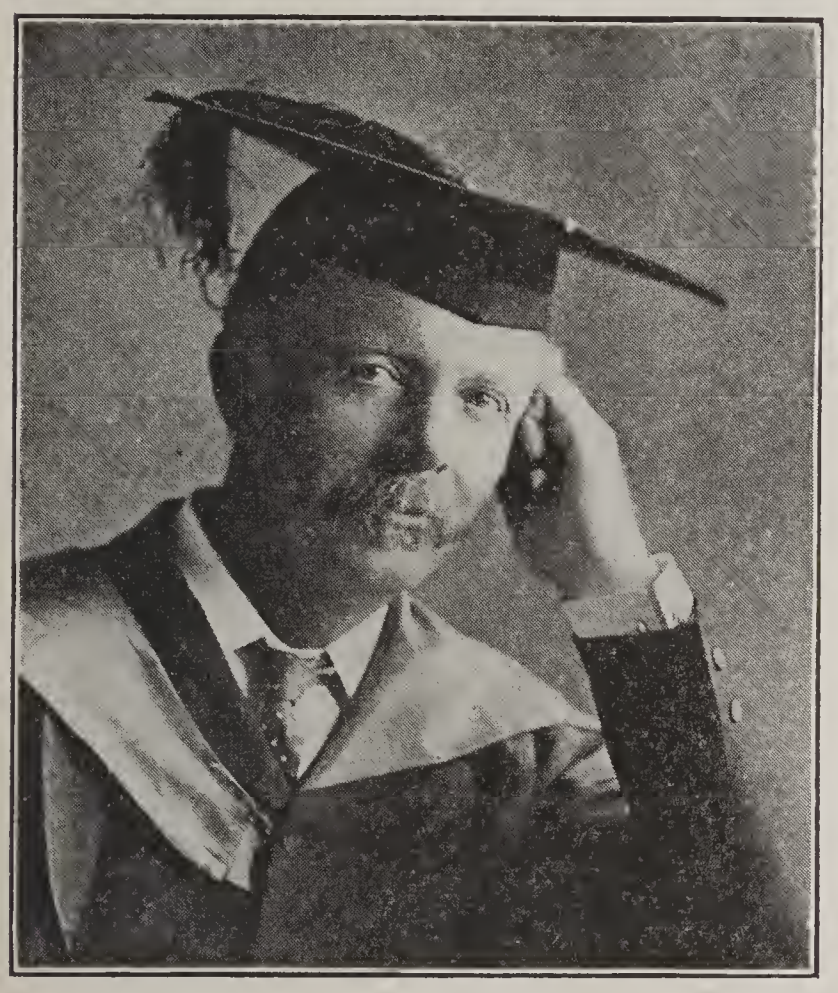

distinct Lowland accent. He had been a pupil of the celebrated Tait of Edinburgh, and before coming to Queen's had taught in the Imperial University at Tokyo, Japan. He was intensely methodical, and it was currently stated that you could set a watch by the time he performed an experiment or told a story in the class. It would be undue flattery to say that Professor Marshall was a good lecturer, and as he was also devoid of the qualities that command respect from students, he was frequently the victim of the practical humorists in his classes. He was a man of independent means and had a fine house in Kingston, filled with Oriental curios, to which it was his custom to invite the freshmen during the fall session for an evening's entertainment. During the course of the evening, it was the professor's habit to entertain the company with a rendering of the humorous Scottish song "The Laird of Cockpen," after which he would invite one of his guests to play checkers, a game in which Professor Marshall prided himself on his skill. The time that we were there the professor selected one of our number, Dave Noble, to be the victim of his "bow and spear"; but Dave turned out to be an exceptionally good player, and had the temerity to defeat the professor three times hand running. His subsequent failure in physics during the spring examinations was attributed by his classmates to his imprudent conduct on this occasion.

We took only junior English from Professor Cappon, but I think that it would have been to our advantage to have had some more. He was the best lecturer that I listened to at Queen's. He made the subject so clear and interesting that I always looked forward to attending his lectures. The fact that I got second division in this subject with very little study, I attribute to the excellence of the teacher rather than to any ability of my own.

The University buildings in my time were few compared with the present. They consisted of the old College building, used as residences by Principal Grant and Professors Watson and Dyde of the Arts Faculty; the (old) Arts Building; the Medical Building; the John Carruthers Science Hall; the Mining Laboratory, known as the "Mill"; and the Mechanical Laboratory, commonly called the "Toolhouse." The last two were frame structures; the others were of stone. In the north-west corner of the grounds there was a football field, used for practices, interyear games and the like. Intercollegiate matches, however, were played in a fenced enclosure some distance farther

west, one block north of Union Street. The cornerstone of the New Arts Building (Kingston Hall) was laid in the fall of 1901 by the Duke of York (afterwards King George V), but the building was not completed until after I had left the University.

According to my recollections, the total student body during the session 1898-99, including extramurals, comprised approximately six hundred persons. The Arts Faculty had much the largest attendance; and Science, the youngest and smallest of the faculties (it was only five years old), had a total in all of twenty-eight regular students, of which the freshman year accounted for exactly one-half. The final year, 1899, had only one member, C. P. Merritt, of St. Catharines, Ont., who died at Grand Forks, B.C., in the summer succeeding his graduation.

PROFESSOR D. H. MARSHALL

In my time there was no hazing of freshmen, and if a first-year student was reasonably civil to his seniors he was not molested. Freshmen were not permitted to carry canes, a rather meaningless prohibition, as during my four years at college I do not remember a student in any class ever sporting a cane. There were also faculty courts, organized by the students to punish infractions of college customs or discipline, and it was a favourite sport of the Medical and Science students to "gang up" and raid the Arts court, or put it "on the bum," according to local parlance. This led to frequent scuffles, but they were always good natured and nobody was ever hurt, except possibly in his dignity. Usually Medicine and Science were allies in these affairs; but occasionally the Meds raided our court, and I remember assisting on one occasion in their defeat and ejection from Science Hall.

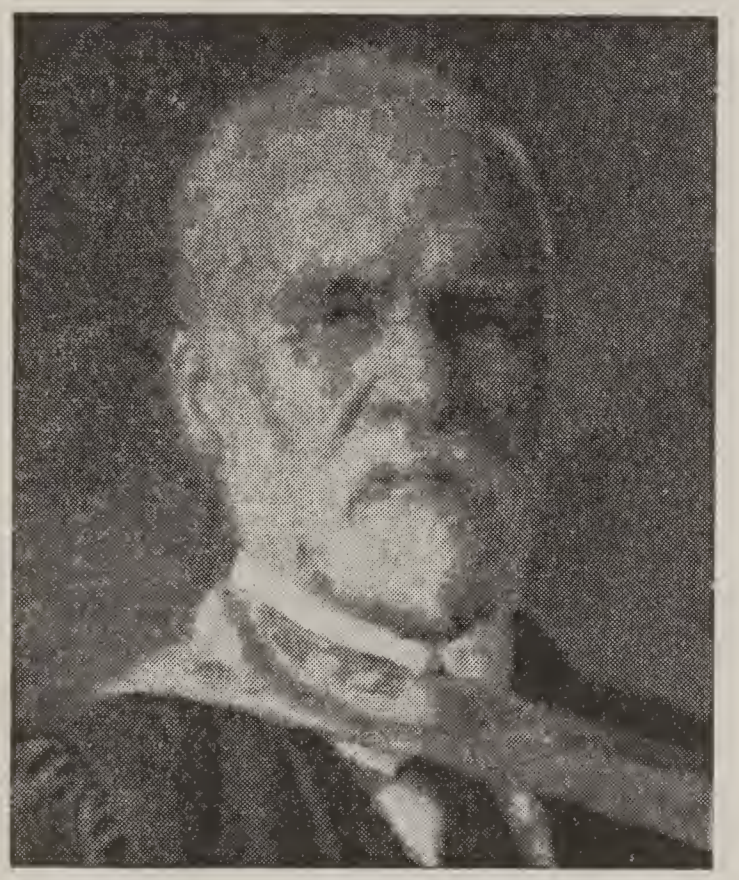

During the court proceedings the "constables" used to fine various members of the audience for supposed breaches of court etiquette. In our court the money collected in this way was afterwards expended in supplying liquid refreshments for the "judiciary" and their friends On one occasion a bottle of whiskey was provided to enliven proceedings, and upwards of twenty men became decidedly "illuminated." How so many could get "lit" on so little remained something of a mystery until it was discovered that the custodian of the bottle kept replenishing it with absolute alcohol from the laboratory.

College politics were a live issue in the Alma Mater elections, which took place on or about December 2. There were two parties or factions in the University, called respectively the "Bears" and the "Y. M. C. A." The former, consisting of the wilder spirits and their sympathizers, were principally Medical and Science students, together with the more sportive element from Arts. The latter party, also called the "Christians," comprised the majority of the Arts students and the Divinities. In the elections the "Bears" were usually unsuccessful, for one reason if no other that the young ladies of the Levana Society, whatever they might think of the "Bears" individually, had little use for them collectively and generally voted in a solid block against their candidates.

On election night we had a lively time, but I must confess that occasionally our conduct was distinctively rowdyish. We used to form a procession and march up and down the sidewalks on Princess Street four or five abreast, crowding everybody off into the street or the

stores. The local police, too few in number to cope with such a mob, usually kept out of sight. On one occasion, however, a policeman, forgetting what the proverb says about the better part of valour, undertook to stop the procession by arresting one of the marchers. He was promptly seized, his captive set free, and in the resulting scuffle rolled in the muck and filth of the gutter. He was finally allowed to regain his feet, and as he stood there surrounded by a jeering crowd, his uniform befouled with mire, he was at once the maddest and most helpless officer of the law I have ever seen.

In my time the Science and Medical dinners were always "wet." On these occasions all the students, and occasion-

DR. W. L. GOODWIN

ally some of the more sportive members of the staff, "kicked over the traces" and had a good time. I remember how at one function Dr. Goodwin, our principal exponent of teetotalistic morality, was inveigled into taking the "Demon Rum" like a serpent into his bosom, or rather stomach. It happened at our final-year dinner. The worthy doctor was seated at the head table next to "Gus" Redmond (the Czar) who, as president of the Engineering Society, was master of ceremonies. There was one item on the menu which the doctor enjoyed very much, so he asked the "Czar" what it was.

"Roman punch, Doctor," answered Redmond.

"What! Impossible!" gasped the horrified doctor.

"Well, there it is, doctor," said Redmond, handing him the menu.

The doctor glanced at it and made no further comment, but his face fell and it is to be feared that the enjoyment of the rest of the programme was considerably impaired by his involuntary lapse.

On another occasion a distinguished representative of the Humanities, who perhaps had entered into the festivities in slightly too convivial a spirit, inadvertently placed himself in a situation where he was in danger of being exposed to the ribald merriment of the "Macedonians" of Science. From this predicament he was fortunately rescued, just in the nick of time, by a "Good Samaritan" in the shape of a senior student.

At one of these affairs, for the first and only time in my life, I saw a man "go under the table." One of the company, whose potations had evidently seriously strained his "factor of safety," was attracting considerable attention by his antics when suddenly he slipped forward from his chair and vanished from view beneath the "festve board," where he spent the rest of the evening in peaceful slumber. Hilarity, mingled with feelings of relief, greeted his disappearance from the scene.

It can be inferred from the above that in those days "John Barleycorn" was not without a following even in the seats of learning, and some of us, myself included, learned to do things that were not taught in the curriculum. Drinking, however, was mainly confined to the Science and Medical students; there was little of it among the Arts students, and as far as I know, it was non-existent among the Divinities. In that faculty, however, there was one professor who had the reputation of being able "to bend his elbow" on occasion. This gentleman, a native of Ireland (I beg pardon, Eire), was noted for his wit and ability as an after-dinner speaker and, as such, was in great demand at faculty dinners and other convivial gatherings.

At that time students on entering the University had to affiliate themselves with some religious denomination in the city, and before presenting themselves for examinations in the spring, were supposed to bring a certificate of church attendance from a pastor in the religious body to which they belonged. To escape these regulations a certain Science student, not religiously inclined, declared his adherence to an aberrant sect not represented in the city. All went well until the spring, when on application for permission to take his examinations, the registrar, Mr. G. Y. Chown, B.A., requested his certificate of church attendance.

"What do you mean" asked the astonished M————.

"I mean this," replied "G. Y.," with his characteristic grim finality: "You have stated that you belong to such and such a church, and according to the regulations, before you take the examinations you must present a certificate of church attendance from a pastor of that denomination."

Poor M———— was nonplussed, but by some kind of hocus-pocus he was finally able to satisfy Cerebus and pass the sacred portals.

Eighteen ninety-eight was the first year of the Intercollegiate Football Union, and the celebrated Guy Curtis, the gridiron hero of former days, was then fading from the scene. He was no longer on the football team, but played point on the O. H. A. championship hockey team of 1898-99. During the football season of 1899 he coached the Kingston City team, the Granites, and by a clever piece of football strategy won them the deciding game in Toronto over an Ottawa team, and the championship of the union to which they belonged (whether the O.R.F.U. or the Quebec Union, I do not remember). That was his last effort; during my two remaining years at college I do not recollect seeing him around Kingston. Curtis, while no student, was in the fullest sense of the words an amateur and a sportsman. He played solely for the love of the game, and I do not think that he ever made a dollar out of his athletic proficiency.

During the period 1898-1901, Queen's footballers usually won their home games and lost those abroad, but in 1900 they defeated Varsity in the playoff and won the championship of the Intercollegiate Union. In those times the hockey team was more successful and probably more famous than the football team; during the four years that I was at Queen's, it won the championship of the O. H. A. three times in succession. After the hockey season was over in Ontario, the boys usually went on a barn-storming expedition to Pittsburg and other American cities. Outstanding hockey players of the period were Jock Harty, George (Bunty) Dalton and Ward Merrill. According to my recollections, Medicine headed the athletic procession, Arts came in the middle, with Science and Divinity dividing honours at the tail.

It would not be fitting to close these "Memories" without some mention of the greatest figure in the history of Queen's University, George Monro Grant; especially as the closing years of his career atQueen's coincided with my undergraduate life at the University. Although Queen's was the smallest of the three principal universities of Canada, Dr. Grant, because of his character and talents, was undoubtedly the most widely known figure in university circles in his day. In addition to his prominence in educational matters, Principal Grant was also the leading proponent of British connection, or Imperialism as it was usually called in Canada. I believe that he regarded the British Empire next to Christianity, as the greatest uplifting force in the history of mankind.

I have listened to many public speakers in my time and would say that Grant was the best of them. Although his stature was not much above the common height of men and he was of spare figure, nevertheless he presented an impressive appearance on the platform. He likewise had a fine command of language, but his greatest gift was his voice. I have never heard one like it. It was peculiarly deep, resonant and powerful, and under his absolute command; without apparently raising it, he could make himself heard (and felt) in the most remote corner of a large hall. With all his powers, Dr. Grant was no mere rhetorician, and never spoke

solely to create an effect. One of the most impressive features of his delivery was its intense earnestness; everyone in his audience instinctively felt that he believed every word he said.

The finest speech that I ever heard him make was his last. It was on the Imperial connection with respect to the South African war, a subject, needless to say, very close to his heart. He had been ill all the autumn and winter of 1901-02 of the disease that caused his death in May of the latter year, and towards the end of the winter appeared in Convocation Hall. When he started to speak I felt sorry for him, for he halted and stumbled, and it seemed as if his glory had departed; but in a few minutes he recovered himself, and from then on spoke with a fire and eloquence that I have never heard equalled. This speech was afterwards widely quoted in the press of the day. One of the excerpts that I remember was about "The weary Titan bearing on his back the burdens of Empire." It was in truth a swan song, for he never spoke again and died about two months afterwards.

Principal Grant was not only a great Canadian, but likewise a great Briton in the widest acceptance of the term; his viewpoint embraced not only Canada but the whole Empire as well.

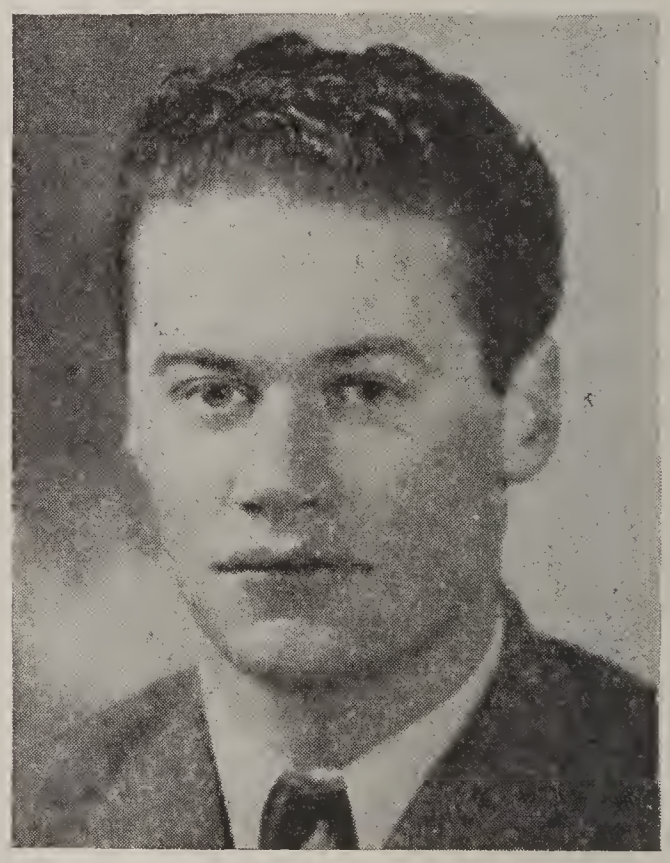

He accomplished much in his lifetime, but at that, the man was greater than his task, for it seems to me he possessed in full measure the endowments of a statesman of the first rank. It was Queen's good fortune, as it was Canada's misfortune, that this remarkable man, with his wide views, tolerance, ability and eloquence, had his main attention diverted to education rather than to public affairs.

## TWELVE STAFF MEMBERS SPEAK OVER CFRC

ADDRESSES on the following subjects were given by members of the University staff over Queen's radio station CFRC during the month of January: "The Early Universities," Rev. Dr. S. M. Gilmour; "Earth Sciences and Raw Materials," Dr. E. L. Bruce; "Nutrition," Dr. R. G. Sinclair; "Chemistry and the War," Dr. J. A. McRae; "Trails in Reading," Mr. E. C. Kyte; "Chemical Engineering and the War," Dr. L. F. Goodwin; "Infant Hygiene," Dr. J. S. Delahaye; "The Elizabethan Era in Drama," Dr. G. H. Clarke; "Research," Dean John Matheson; "Metals and the War," Dr. O. A. Carson; "Alcohol," Dr. E. M. Boyd; "Drama of the Eighteenth Century," Prof. J. A. Roy.

## THREE ALUMNI DIE ON ACTIVE SERVICE

LAC GORDON FRANCIS CLARK, Arts '41, of Kingston, and his fellow-aviator, LAC. A. C. Cornell, of Toronto, were instantly killed when their R.C.A.F. plane crashed in Kingston on the afternoon of January 26.

GORDON F. CLARK

The plane, which was from the Uplands Airport in Ottawa, had flown over the University buildings when, according to observers, it developed motor trouble and suddenly plunged to earth with terrific force in a vacant field at the west end of the city. Immediately after striking the ground it burst into flames and was almost entirely consumed.

Gordon Clark was born in Kingston in 1918. He graduated from the K.C.V.I. and entered Arts at Queen's in 1937. Last spring, on the completion of his third year in the Commerce division, he joined the

Air Force and had received his wings only shortly before his death. While at the University he was active in athletics, playing both intramural and junior Intercollegiate football and hockey. He was also a member of the *Journal* staff and business manager of the 1941 Year Book. His funeral took place with full military honours at Kingston on January 28.

* * * *

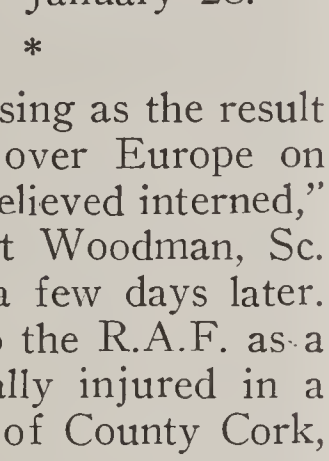

AT first reported missing as the result of air operations over Europe on October 23, 1941, and "believed interned," Sergeant Douglas Albert Woodman, Sc. '41, was listed as dead a few days later. He had been attached to the R.A.F. as a navigator, and was fatally injured in a crash on the west coast of County Cork, Eire.

The funeral of the airman took place at Mallow, Eire. Representatves of Eire's chief-of-staff and of the Canadian government, together with other officers, marched behind the coffin, which was draped with the Union Jack. Shops were closed while the cortège passed through the streets.

Sergeant Woodman was born in St. Catharnes, Ont., in 1918. After completing his preliminary education in that city, he came to Queen's and enrolled in Science with the intention of specializing in aeronautics. He left college during his second year to join the R.C.A.F.

* * * *

DOUGLAS ROBERT LAIRD, Arts '40, was drowned overseas recently while serving with the Commandos. He enlisted in the fall of 1940 along with four other students from Queen's, went overseas with the First Division, and was later transferred to a Commando unit as a lieutenant.

D. R. LAIRD

The company to which he was attached was crossing a swift river during practice with full equipment. Half way across, Lieutenant Laird got into difficulties. A sergeant of his company went to his aid, but hindered by barbed wire and his equipment, was unable to effect rescue.

Douglas Laird was born in Parry Sound, Ont., in 1918. After attending the Parry Sound high school he enrolled at Queen's and was granted his degree of Bachelor of Commerce in October, 1940.

---

## SPEAKERS DISCUSS LABOUR DEMANDS, PRICE CONTROLS

AN account of the part labour might be expected to play in the war effort and an outline of the economic aspect of the war were given in the first two lectures in the annual Monday-afternoon series which opened at the University in January. The general title for the series is "Modern Canadian Problems."

Mr. Tom Moore, president of the Trades and Labour Congress of Canada, spoke on "The Demands of Labour," on the nineteenth. The following week, Dr. C. A. Curtis, professor of economics at Queen's, chose as his topic "Price Controls."

Labour's demands during war time are based on the opportunity to participate in the formation of policies that drastically affect the worker's very existence, said Mr. Moore. Labour is fully in harmony with all measures necessary to prevent inflation, though it does disagree with the general assertion that wages are to any great degree responsible for rises in the cost of living, hence there could be no justification for pegging wages on an unfair or unsound basis.

The Government apparently recognizes the principle that there should be no ceiling on profits by the fact that it is content to take a percentage of these, leaving the residue to the corporation or firm concerned, pointed out Mr. Moore. Labour seeks equality of sacrifice and therefore can see no reason why profits and dividends should not be rigidly controlled as it is evidently the intention that wages should be.

Discussing the economic aspect of the war, Dr. Curtis felt that price control, control of supply, and a general spread of war costs to all income groups with no one group gaining economically would be chief features of the economic front in the near future.

Price control, either specific or ceiling, leads inevitably to control of supply, said

the speaker. If supplies become relatively scarce, supply control must be introduced for those specific commodities which are necessities and for which equitable distribution is imperative. It can be taken for granted, then, that if the present plan is continued there will be control of supply in many fields, he said.

---

## "TO BE POSTED IN CASE I DON'T GET BACK"

THE letters that appear below were recently received by the parents of FO. Bruce G. McIver, Sc. '40, who was a member of the Royal Air Force and who was reported "missing" some time ago. Unfortunately, the *Review* is unable to print all letters of this nature that are sent in. The following documents are, however, so moving that they are being published almost in their entirety.

R.A.F. Station,
.....England,
June 14, 1941.

Dear Mom and Pop:

This is to be my first operational trip tonight and I am writing this in case it is my last—with instructions to post it only in case I don't get back.

B. G. McIVER

Failing getting back, there is a 50-50 chance of being a prisoner of war in Germany which, although not a pleasant prospect, is better than nothing. It would take about two or three weeks to get the notification of being a prisoner.

Assuming this is the case I am going to need things badly, as we only have what clothes we land in. Mostly I will need boots and socks. Parcels can be sent through the Red Cross and you may have to send at least three, hoping that one will get through. First of all send me a pair of heavy boots—size 8—and two pair of woollen socks. They had better be sent in a separate parcel; also send me a sweat shirt, as it will wear better. After that, food is the next problem—concentrated things like Oxo—Horlick's tablets — solid chocolate — tobacco and cigarette papers, so I can roll my own. As for the Oxo and concentrated foods, I would need them if I try to make an escape and get out of Germany. . . . .

Mainly send parcels—if you have to use up all the money I have in the bank. Go to the R.C.A.F. and the Red Cross for advice on how to send things. In any case, although it would be a rather dull time for the next three or four years, there is some consolation in it.

The other, more gruesome, side to the affair would be the report "killed in action." Well, if that happens you have the consolation to know it all happened quickly and there is no long drawn-out suffering as there often is in Army casualties.

As I write this—my Obituary as it were (rather novel to write your own!)—I am not at all frightened at the prospect. The chances are about 20 to 1 that you will get your 200 hours in, and we all believe that we will be one of the lucky 19, so by thinking that you feel quite at ease. Jim Erly, my room-mate, has done six trips and it is really not as bad as you would imagine. Really, it is easier to go on Operations than to sit at home and wait for them to come back.

I might seem to have not been kind to you both by throwing away all the hopes you had built up for me by giving me a University education, and then turning around and joining the Air Force. I know you had always been so proud of my little efforts which gave me so much success in my school work. Truly I did join thinking that I would be an instructor after finishing my course. All the rest of the fellows did in the course, so I did what I thought best, and expected to stay in Canada. After getting to Toronto at Overseas Pool, I knew then what was to happen and by that time I was reconciled to the fact and hoped that you were, too—although I did not think it best to tell you and so spoil what little time there was left by having that hanging over our heads.

Looking back on it all now—the Atlantic crossing — meeting the King and Queen — seeing England — meeting real

men here in the Air Force—well, it has been well worth it. I have certainly lived life to the full and to do that one must take risks. As you have been proud of me before, you have all the more reason to be proud of me now; and the fact that you can hold your head up in anyone's company, and know no one can say a word against me, your son, I hope that will be some consolation. For my own part, if I had the chance to do everything again I wouldn't have done anything different—which is something to say and to feel right in your mind about.

I must be off now to "briefing"—find out where we are going tonight, and get ready. I hope you never receive this letter, as it is only to be posted in case I don't get back.

Your loving son,

BRUCE.

---

R.A.F. Officers' Mess,
....., England.
November 15, 1941.

Dear Mr. and Mrs. McIver:

Perhaps you can derive some small comfort from a letter written by one who was a close friend and admirer of your son Bruce (we always called him "Mac"). I first met him at ..... and arrived at this station a couple of weeks after he did. During the months we have been together we became rather intimate. I miss him more than I dare admit to myself.

Mac's rugged, friendly nature and even disposition gave him a well deserved, but unsought, popularity. He was always ready for "fun and games" and a bit of "gandy-dancing," to use his ready phrases. In spite of his fun-loving nature, he developed an enviable reputation for reliability and resourcefulness in the serious duties in which he was engaged. He seemed entirely adequate to any situation that he was called upon to face. I was more than proud to call him a fellow Canadian.

In an unostentatious way he performed many acts of kindness. I cite one case that came to my attention: He wrote letters of encouragement and sent small items of Canadian food to Mrs. Walker, mother of Ron Walker, a friend of Mac's, who is now a prisoner of war. Such consideration of others is rather rare among us, who, in view of the nature of our work, tend to become indifferent to the humanities of life.

I could say much more, but I'm sure it's superfluous for me to extol Bruce's fine qualities to you. Furthermore, the work yet to be done forces us, who are still carrying on, to keep our emotions and feelings well under control. Perhaps, in the more spacious days that surely lie ahead, it will be my privilege to meet you in person. . . . . .

The letter which I enclose was found by me in his trunk. In an effort to learn his wishes I read it. Need I say that it is one of the most moving documents I have ever been privileged to read? In order to give comfort to others who, like yourselves, have suffered so heavily, I think excerpts from it should be published anonymously.

Mac also left a vivid personal record of his operational work, with instructions that it be returned to you when censorship would permit its transmission by mail. I am keeping this and making provisions for its delivery to you if anything happens to me.

May Mac's letter give you the fortitude and comfort that he intended it should. Believe me, you are not alone in your sense of great loss.

Yours in deep sympathy,

HUBERT H. MILLER, F.O.

---

No. ..... ..... Squadron,
Royal Air Force,
....., England,
November 12, 1941.

Dear Mr. McIver:

I write to offer you my sympathy in the anxiety caused you by the news that your son is missing from operations.

Last week-end my Squadron was detailed for a very special task which necessitated operating from a base in Scotland, and your son was a Navigator of one of the aircraft which set out in the early hours of Sunday morning to carry it out.

I am not able to give you the nature of the work to be done, but I can tell you that it was off the coast of Norway. You will have heard that on that night a large number of Bomber Aircraft were reported missing, chiefly due to abnormal weather, and that experienced by my Squadron was no exception.

We have no means of knowing what actually happened, but it is reasonable to suppose that it was in fact the weather which was responsible for the aircraft not reaching its base. At half-past eight on Sunday morning a message was received from the aircraft to the effect that the pilot did not think he would be able to reach the coast and five minutes past nine an S.O.S. was received, saying that the aircraft was coming down in the sea. The position was 48 miles due East of Wick. The air sea rescue service immediately instituted a search and during the afternoon I myself led several Squadron aircraft to assist, but it was regretted that no trace was found.

It is, of course, possible that the crew were picked up by a passing ship, but I do not wish to raise false hopes for you, but think it my duty to tell you that there was a very high sea running at the time, and that the chance of their survival is very small.

Your son had been under my command for seven months and during that time he had made for himself a great reputation as a keen and enthusiastic Navigator of outstanding ability. His cool courage in the performance of his difficult task under conditions of great danger was an example to all, and with Flt. Lt. Herd, with whom he had flown on 25 operational trips, he helped to form one of the most successful crews. We are all appreciative of the motives which brought him so many miles across the Atlantic to assist this country, and I am sure it will be some consolation to know he had served us nobly and unselfishly. . . . .

Once again, both personally and on behalf of the whole Squadron, may I express my deepest sympathy.

Yours sincerely,
R. S. ALLEN,
Wing Commander, Commanding,
No. ..... Squadron, R.C.A.F.

## GIFT OF MRS. RICHARDSON GREAT AID TO RESEARCH

THE money so generously provided by Mrs. James A. Richardson of Winnipeg for the carrying-on of special research at Queen's—$5000 annually for two years, with the possibility that the help will be continued—is proving invaluable in the maintenance and expansion of much extremely important work. The Richardson Fund has also given great encouragement to members of the staff whose research activities have been seriously restricted by the University's limited financial resources.

Of the $5000 available for the current year, $3500 has been allocated to the Science Research Committee, and $1500 to the Arts Research Committee. At present nine members of the staff are participating in the Science appropriation, and eight others are sharing in the Arts allotment.

Special equipment and library material are being procured for particular divisions of the work, and financial aid is to be given to researchers who need to visit outside libraries or laboratories to further their investigations. In certain cases, student assistants will be provided for the summer months and additional stenographic help will be furnished for the preparation of reports for publication.

## HIGH TRIBUTE PAID TO LATE SENATOR HORSEY

THE following tributes were paid by Prime Minister Mackenzie King and Principal R. C. Wallace to Senator H. H. Horsey, Arts '94, who died in Kingston on January 6 and whose obituary appeared in the January issue of the *Review*.

"In the passing of Senator Horsey, Canada has lost one of the most upright, cultured, public spirited and generous minded men in her public life," said Prime Minister King. "He was stalwart in his loyalty to his friends, both personal and political, and to the principles and policies in which he so firmly believed. He has left a name which will be honoured in the public life of our country."

Principal Wallace spoke as follows: "The death of Senator Horsey has removed from our midst one of the most loyal graduates of Queen's University. Senator Horsey gave of his influence and his wisdom to the work of the Board of Trustees for an unbroken period of fourteen years. His genial personality and his sense of duty have been an inspiration. Our deepest sympathy goes out to his widow and daughter in their sad bereavement."

## SUMMER SCHOOL COURSE IN FINE ARTS EXPANDED

PLANS have been made to expand and correlate the teaching of art, music and drama in the Queen's Summer School. The new arrangement—to be known as the "School of Fine Arts"—will come into operation this summer.

Heretofore, a few courses counting towards a degree have been offered in art and music in both summer and winter sessions. In addition, the students have had the opportunity of taking training in music, without degree credit, as members of the Glee Club, which has presented concerts and other musical productions. Considerable work in drama has also been carried on, likewise of a non-degree character, under the direction of Dr. William Angus; there have been lectures in play production and a number of plays have been presented both in the winter and summer sessions.

In detail, the new, extended programme for the summer is as follows:

ART—The degree course will be continued as in past summers, but in addition there will also be a non-degree summer course for artists. It is expected that most of those who register in this course will be either professional or student artists. The series of lectures will consist of a study of the modern schools in relation to other periods. Methods, both old and new, which technically fit into the art of the times will be discussed and used. Work in the practice of tempera, fresco, oil, and mixed techniques will be done. The many reference books in the art room of the Douglas Library, the new chodachrome projector, and the varied landscape in and about Kingston will aid Professor André Biéler, resident artist at the University, and Mr. Edward Holgate, R.C.A., of Montreal, in presenting an instructive and interesting course.

MUSIC—As well as the regular course in the history and appreciation of music, training in instrumental and choral work will be given. This, in part, is intended for those who are organizing music in public and high schools. There will also be the opportunity for original composition, in the form of incidental music for the final production of the drama section. The course will be under the supervision of Dr. F. L. Harrison, professor of music at Queen's. He will be assisted by Mr. Leslie R. Bell, director of music at the Ontario College of Education, and by Tania Plaw, a graduate of the Paris Conservatoire, who will conduct advanced pianoforte classes by the class-lecture-recital method.

DRAMA—This Summer School course will now count towards a degree, and work previously offered as a supplement will be substantially enlarged. Dr. Angus, assisted by Mr. C. B. Rittenhouse, director of drama in the Protestant schools of Montreal, will conduct the course, which will consist of the following elements:

(1) The study of drama and directing technique. This part will be based on the analysis of a large number of modern plays.

(2) Play production. Some of the students in this course will act in plays to be given in public, and all of them will learn methods of play production, including the making of scenery, lighting, and the details of instructing in actual production.

(3) The third element affords an option. Specially qualified students will write short plays for actual production. Those, however, having no talent for play writing will have an option of the speech arts, consisting of reading, choral reading and so forth.

It is felt that the new School of Fine Arts at Queen's will play an important part in helping to develop further in Canada the culture that "makes for a fuller and richer life."

## NEW HEAD OF CANADIAN CONSTRUCTION ASSOCIATION

J. B. STIRLING, Arts '09, Sc. '11, vice-president of Messrs. E. G. M. Cape and Company, Montreal, was appointed president of the Canadian Construction Association at the annual meeting of that organization held during the latter part of January. The following interesting sketch of Mr. Stirling's career appeared in the January 31 issue of *The Financial Post*:

"The New Contractor

"There once was a time when the public's idea of a contractor was a rough, tough, unlettered gang-boss, pulling himself upwards by brute force. Today

(Courtesy, International Press)
**J. B. STIRLING**

Canada's construction industry numbers about as many such men as the journalistic fraternity numbers hard-drinking, cursing reporters. Both types are virtually extinct. Into the contracting industry have entered engineering graduates, B.Sc's. of our big universities, men with a professional attitude to their work.

"As it has done in the selection of most of its recent presidents, the Canadian Construction Association last week chose as its head for the coming year another professional engineer, J. B. Stirling, vice-president of the E. G. M. Cape Company, Montreal. Mr. Stirling is not only a B.Sc. but a B.A. of Queen's.

"The J. B. stands for 'John Bertram,' which tells also where the new C. C. A. president hails from. He was a grandson of the founder of Dundas' great machine tool industry and it was in Dundas that Mr. Stirlng was born 53 years ago and raised.

"When he came out of Queen's in 1911, young Stirling went west and worked as a civil engineer on municipal construction jobs in the pre-war boom that brought Dauphin, North Battleford, Estevan and such centres to the front. In the Great War he was a sapper (and later an officer) in the Engineers.

"He has been associated with Colonel Cape for 26 years, in recent years as vice-president in charge of operations. Most of the time Mr. Stirling has lived in Montreal, but he is well known in Toronto, where the Banting Institute is a monument to his work; in Halifax and Saint John, where he built docks, grain elevators and the Admiral Beatty Hotel. Other big jobs he has directed have been grain elevators on the Georgian Bay and the Canadian Vickers plant in Montreal.

"Mr. Stirling was vice-president of the C.C.A. last year; is a past president of the Queen's Alumni in Montreal and a member of the executive of the Montreal branch of the Engineering Institute of Canada.

"This engineer-contractor is a prototype of today's 'general contractor'; a professional man of high ethical standards; an alert business man with a keen interest in public affairs."

---

## BAN ON INTERCOLLEGIATE SPORT CONTINUES

AT a recent meeting of representatives of McGill, Queen's, Toronto and Western universities, it was decided that the present ban on Intercollegiate sport should be continued. The meeting was held to consider a request by the students of McGill, Queen's and Toronto that Intercollegiate competition, cancelled shortly after the outbreak of war, be resumed. In a poll at Queen's, approxi-

mately ninety per cent of the student body had previously voted for the return of the pre-war sports programme, and ballots at the other colleges had recorded similar student opinion.

In a statement issued after the meeting, President Cody of the University of Toronto, who had acted as chairman, announced that it had been agreed to allow exhibition games and participation between college teams in local leagues, but that no travelling would be permitted. The general purpose of the ban on Intercollegiate sport was, according to Dr. Cody, "the avoidance of the expense of travelling and of interference with the paramount needs of military training." He pointed out that the universities realized the importance of athletics in keeping men in good physical condition and in preparing Canadian youth for the war effort. For this reason, "regulation, not suppression, was the keynote of the university action."

The following programme was unanimously agreed upon:

1. No Intercollegiate competition among the senior, intermediate or junior teams of the four universities represented at the meeting.
2. All possible emphasis to be placed upon intramural competition at each university.
3. No interference by athletics with the students' military or academic work.
4. No travelling by athletic teams to outside points.
5. In addition to intramural programmes, teams may be entered in local leagues, with the permission and under the responsibility of their respective institutions.
6. Each university may arrange for such local exhibition games as it sees fit, on the basis that such games do not involve competition with teams representing any of the other three universities.

Principal Wallace and Dr. John Orr represented Queen's at the meeting; President Cody and Dean S. Beatty, Toronto; President Fox and Prof. N. C. Hart, Western; Dr. A. S. Lamb (acting for Principal James) and Dr. Grant Fleming, McGill.

## ON HIS MAJESTY'S SERVICE

LAST month the *Review* published a list of Queen's alumni on active service. This list was only as complete as the facilities of the Alumni office for gathering such information would allow, and no doubt some of our readers have noted omissions and errors in it. The *Review* will be grateful if such persons will send in this information immediately, so that the University records may be kept up to date and full honour given to the Queen's alumni who are now serving their King and Country. Please address such communications to the *Queen's Review*, Queen's University, Kingston, Ont.

Below is the twenty-third in the series of monthly lists of those who have joined some branch of the fighting services. It includes either omissions in the full list published in the January *Review* or the names of alumni who have recently enlisted.

Royal Canadian Army Medical Corps —Lieut. G. C. Ferguson, Arts '26, Med. '28, Lieut. T. P. McGowan, Med. '28, Capt. J. D. Neville, Med. '10.

Royal Canadian Naval Volunteer Reserve—Sub-Lt. C. R. Senior, Sc. '43.

Infantry—Lieut. D. F. B. Corbett, Com. '36, Capt. H. J. Campbell, Com. '32.

Royal Canadian Artillery—Lieut. B. B. Champagne, Arts '41, Lieut. Carson Flammer, Sc. '41, Lieut. E. M. Kaplan, Arts '42, Lieut. W. H. Kidd, Arts '37, Lieut. J. F. G. Murphy, Sc. '40, Major J. E. Dowsley, Sc. '33.

Royal Canadian Air Force — LAC. Harry Berofe, Med. '42, Douglas Geldart, Sc. '45, R. H. Menary, Sc. '43, PO. W. E. A. Pollard, Sc. '40, FO. W. D. Whyte, Arts '38, A. W. Stollery, Sc. '39, LAC. Henry A. T. Fleming, Arts '44.

Royal Canadian Ordnance Corps — Lieut. G. H. Martin, Sc. '40, Lieut. E. K. MacEachern, Sc. '39, Lieut. R. E. Simpson, Sc. '40, Lieut. H. A. Taggart, Sc. '23.

Royal Canadian Engineers—Cadets E. K. Aboud, Sc. '40, L. H. Brown, Sc. '40, H. F. McGill, Sc. '40, Lieut. R. C. Eddy, Sc. '41.

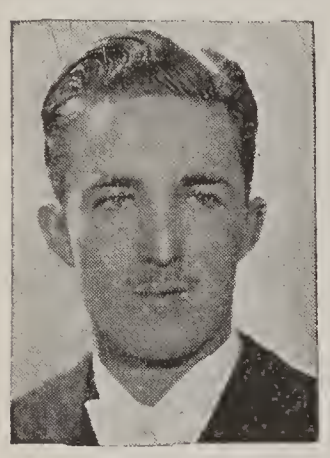

## A LETTER FROM H.M.S. VICTORIOUS

H.M.S. *Victorious,*
c/o G.P.O., London,
December 9, 1941.

The *Queen's Review,*
Kingston, Ontario.

Gentlemen:

May I add my congratulations to those already sent from overseas, to Queen's, on its successful first hundred years. And may nineteen forty-two see this success continued.

F. G. FLYNN

I have been on this carrier since its conversion, in the capacity of executive lieutenant. During the past year I was afforded the pleasure and thrill of being on board during the *Bismarck* "show" and the attack on Norway and Finland.

Last year prior to my appointment here, I was a unit officer, in command of minesweeping trawlers in the North Sea.

In my year and a half of service abroad I have renewed friendships and made the acquaintance of many Queen's men. It is with a great deal of pride that I find more Queen's men and students in the ranks of the R.C.N.V.R. abroad than from any other university in Canada.

May this year see our efforts directed to the common goal: Victory to us and our allies, and confusion to our enemies.

Sincerely yours,
FRED G. FLYNN, Arts '36,
Lieut., R.C.N.V.R.

---

## NEW SCHOLARSHIPS ESTABLISHED AT QUEEN'S

AMONG the funds, scholarships, bursaries, prizes and other awards for student competition or assistance recently established at the University through the benefactions of alumni and other friends of Queen's are the following:

The O. M. Montgomery Memorial Fund—Founded by the Aluminum Company of Canada in memory of the late O. M. Montgomery, Sc. '05, formerly vice-president and general manager of this company. Annual value, $750. To be used to provide bursaries, loans, or under certain circumstances, gifts for worthy students in any faculty who are in need of financial assistance.

The Canadian Industries Limited Fellowship—Established by Canadian Industries Limited for postgraduate research in chemistry or chemical engineering at Queen's. Annual value, $750. Open to graduates from Queen's or elsewhere.

The International Nickel Company of Canada Scholarship—Maintained by the International Nickel Company of Canada Limited for postgraduate work at Queen's in chemistry, chemical engineering, mining, metallurgy, mineralogy or geology. Annual value, $50. Open to B.Sc's of Queen's who have made consistently high standing throughout their course.

The Science '03-'06 (Denny Memorial) Scholarship—Established by members of the classes of Science '03-'06 and other friends of the late J. J. Denny, M.Sc. '21. Annual value, $100. Open to students in second-year mining or metallurgy.

The W. P. Wilgar Memorial Scholarship — founded by Science alumni of Queen's and other friends of the late Professor W. P. Wilgar, Sc. '03, formerly head of the civil engineering department at Queen's. Annual value, $100. Open to students in second-year Science. (In addition to the Wilgar Memorial *Scholarship,* a special Wilgar Memorial *Fund* has been established by other alumni and friends of Professor Wilgar, together with certain companies with which he was associated in his research work for the Ontario Department of Highways. The income from this fund is to be used for research, with particular reference to highway work in the department of civil engineering.)

The Science '14 (Alexander Macphail) Scholarship—Maintained by the Class of Science '14 in honour of Dr. Alexander Macphail, formerly head of the civil engineering department. Annual value, $100. Open to second-year students in the civil, mechanical, and electrical divisions of the Science course.

The Science '39 Scholarship — Sponsored by the Class of Science '39. Annual value, $75 or $100. Open to students in first- or second-year Science.

The Science '40 Scholarship — Maintained by the Class of Science '40. Annual value, $75 or $100. Open to students of first- or second-year Science.

The Science '41 (J. O. Watts Memorial) Scholarship — Sponsored by the Class of Science '41 in memory of the late Professor J. O. Watts. Annual value, $75 or $100. Open to first- or second-year students in Science.

The Arts '39 Scholarship—Maintained by the Class of Arts '39. Annual value, $75 or $100. Open to students in first-, second- or third-year Arts.

The Arts '40 Scholarship—Sponsored by the Class of Arts '40. Annual value, $75 or $100. Open to students in first-second- or third-year Arts.

The Hannah Washburn Polson Prize—Founded by Dr. James A. Polson. Med. '10, in memory of his mother. Annual value, $50. Awarded to the final-year Medical student showing the greatest proficiency in clinical diagnosis in medicine, surgery and obstetrics.

The Helen E. Dwyer Memorial Scholarship—Established by Dr. James G. Dwyer, Arts '02, Med. '05. Annual value, $50. Awarded to the second-year Medical student obtaining the highest standing in embryology and histology.

The N. C. Polson Memorial Prize—Established by Lt.-Col. Stuart M. Polson, Arts '05, Med. '10, in memory of his father. Annual value, $50. Awarded to the final-year Medical student judged by his teachers to be the best adapted to apply his training in practice.

The Mylks Medal in Obstetrics and Gynaecology — Provided by Dr. G. W. Mylks, Med. '97. Awarded to the student in final-year Medicine who has had the best record in obstetrics and gynaecology during the last three years of his course.

The Alexander MacLachlan Peace Prize—Founded by the family of the late Dr. Alexander MacLachlan, Arts '84. Annual value, $30. To be awarded to the student submitting the best essay on enduring world peace.

The Pipe Band Scholarship—Maintained by the Queen's Pipe Band. Annual value, $25. Awarded to the best piper among first-year students.

## STUDENT ACTIVITIES

GUEST SPEAKERS at recent meetings of the Commerce Club have been Mr. E. C. Woods, sales manager of the Imperial Tobacco Company, Montreal, and Professor J. L. McDougall, of the Commerce staff at the University. Mr. McDougall's subject was "The Economic Aspects of the St. Lawrence Waterway Project."

* * * *

Under a ruling passed by the Senate, all first year women students must take the St. John Ambulance home nursing course this term. A course in first aid was obligatory during the fall session.

* * * *

At the Students' Christian Movement conference held at Aurora, Ont., during the Christmas vacation, fourteen Canadian colleges were represented. There were one hundred and sixty delegates, about half of whom were students, and half graduates who had been active in S.C.M. affairs during their undergraduate days.

* * * *

Wing Commander W. M. Keddie, Sc. '30, spoke to the Math and Physics Club on January 16. His subject was "Science in War."

* * * *

The preacher at the A.M.S. monthly non-denominational church service on Sunday, January 11, was Father H. W. Daly, national chaplain of the Canadian Catholic Youth Union.

* * * *

The fourth annual public-speaking contest for freshmen, held on January 20, was won by F. B. Lee, Sc. '45, of Ottawa.

Each contestant chose his own topic and was allowed ten minutes to present it. Mr. Lee's subject was "Problems of Modern Canadian Chinese."

* * * *

Principal Wallace gave the second of his three annual freshmen addresses in Grant Hall on January 21. His subject was "The Social Sciences."

* * * *

Lady Byng of Vimy, LL.D. '25, widow of the former Governor-General of Canada, was guest speaker at the regular meeting of the Levana Society on January 20. Mrs. André Biéler spoke at another of the Levana Society meetings held recently.

* * * *

Professor W. G. McBride, head of the mining department at McGill University and president of the Canadian Institute of Mining and Metallurgy, was guest speaker at the annual meeting and smoker of the Mining and Metallurgy Society, held in Grant Hall on January 30. Professor McBride's address dealt with the problems that face the undergraduate in the present war.

* * * *

"The Radicals in Chemistry" was the title of an address given to the Queen's branch of the Canadian Institute of Chemistry by Mr. D. J. Leroy, of the National Research Council, on January 19. At a previous meeting Dr. T. Thorvaldson, of the University of Saskatchewan, spoke to the group on the "Application of the Polarograph in the Electrorefining of Zinc."

* * * *

The annual Arts "Formal" took place in Grant Hall on January 22. About four hundred guests danced to the music of Mart Kenney's orchestra. Proceeds from the sale of special corsages were turned over to the Students' War Aid Fund. Supper was served in the refreshment rooms. As a supplement to the Arts At-Home, an A.M.S.-sponsored charity dance was held in Grant Hall on the evening of Friday, January 23. The entire proceeds were turned over to the Red Cross.

* * * *

The annual Levana formals were held in Ban Righ Hall on January 29 and 30. To the music of Berkley Kidd's orchestra, the dancers moved through a "Winter Wonderland." Silver, white and midnight blue were the theme of the decorations, while evergreen branches, silver stars and snow added to the effect. Only War Fund corsages were allowed at both the Arts and Levana formals.

* * * *

As members of the University Women's Training Detachment, a number of the women students have been studying military drill and learning military law. It is expected that an A.R.P. course will also be offered in the near future.

* * * *

An enactment passed by the A.M.S. in December, whereby the Socety assumed control of year dances, was subsequently vetoed in a student referendum. The dances thus remain under the control of their respective years.

* * * *

At a meeting of the Drama Guild in the common room of Ban Righ Hall on January 15, Vice-Principal McNeill presented a number of recordings of English drama.

* * * *

Dr. G. W. Mylks, Jr., Arts '27, Med. '29, of the department of gynaecology, spoke to the Biology Club on January 26 on gonatropes and their significance. At an earlier meeting, Dr. C. H. McCuaig, Med. '21, of the psychiatry department, spoke on mental hygiene.

* * * *

Under the continuing ban on Intercollegiate sport, athletics at Queen's are still confined to local and intramural competition.

In hockey, a Queen's team has won the Kingston City League championship and the Van Horne cup, in the Senior "B" O.H.A. grouping; and a number of Queen's men were members of the Kingston Combines, playing in the Senior "A" O.H.A. league.

In basketball, the Queen's junior team has topped the Y.M.C.A., the R.A.F., and the K.C.V.I. in the Junior City League; and the Queen's intermediate entry in the same league has won two and lost two of the scheduled games.

Intramural hockey, basketball and bowling are now in full swing, with the ultimate winners to be decided this month.

# AT THE BRANCHES

## Victoria

ALUMNI in Victoria gathered for their annual meeting on January 15 at the home of the president of the branch, Ralph D. Matthews, Arts '26.

The occasion was made particularly enjoyable by the presence of Dr. R. Bruce Taylor, former principal of Queen's, who is now living in Victoria. Dr. A. E. Lavell, Arts '91, of Toronto, who happened to be travelling in the West, was also present, and the members had the pleasure of hearing him speak on "Queen's of My Day," wherein were recounted many interesting stories about the growth and development of the University. Dr. Lavell made special mention of the history of the Queen's yell and the part that he had played in formulating it. Another distinguished guest was Dr. Helen Ryan, Med. '85, one of the first women graduates in Medicine at Queen's.

During the business part of the meeting, the following officers for 1942 were elected: president, Rev. Hugh A. McLeod, Arts '18; vice-president, W. H. Hughes, Arts '12; secretary-treasurer, Dr. V. W. Smith, Med. '39.

The gathering closed with the Queen's yell, led by Dr. Lavell.

---

## Niagara Peninsula

A MOST successful dinner dance was held by the Niagara Peninsula branch in the ball-room of the General Brock Hotel, Niagara Falls, on January 30. Dr. W. E. McNeill, Vice-Princpal of the University, was the guest speaker.

Presided over by President J. C. Pattinson, Arts '37, the meeting was the largest Queen's function held in the Peninsula in several years. About a hundred and fifty were present. Guests at the head table included T. R. Gauld, Arts '37, and Mrs. Gauld, and A. L. Reid, Arts '11, and Mrs. Reid. Mr. Reid introduced Dr. McNeill, who spoke on "The Sustaining Power of Noble Words." The subject was wholly apart from the current trend of thought, but was connected with present-day occurrences in such a way that it drew rapt attention. The fact that hardly a chair moved for the forty minutes of the address was ample indication of the interest shown.

After the dinner, community singing was enjoyed while the room was cleared for dancing. Queen's colours provided the decorations. The committee in charge of the affair consisted of the president, the secretary (C. R. Buss, Sc. '27), and M. F. Ker, Sc. '18.

---

## Montreal

THE second regular meeting of the Montreal branch was held in the Ritz Carlton Hotel on January 27. President G. R. Maybee, Sc. '25, Arts '27, was in the chair.

J. Knox MacLachlan, Arts '16, chairman of the branch's endowment committee, reported that a personal canvass of the alumni in the Montreal area would be made in the near future. He emphasized the great value of yearly pledges to the University, regardless of the individual amounts. He referred to the success achieved through this method of alumni help at other universities comparable to Queen's, and asked for the full co-operation of all Queen's people in the Montreal area.

The president stated that the Montreal medal was to be awarded this year to Mr. James G. (Jimmy) Bews, who had been director of physical education at the University for more than thirty years, and who was beloved and respected by many generations of Queen's students. This announcement was enthusiastically endorsed by all present.

The speaker of the evening was Mr. George P. Luden, consul general for the Netherlands in Montreal. In his interesting address, entitled "The Netherlands in Europe, Asia and America," Mr. Luden described the extent of the Netherlands Empire and the part that it is playing against the Axis powers.

## Kingston

A DELIGHTFULLY arranged and successful bridge in aid of the scholarship fund for refugee students at Queen's was held on January 5 in the common room of Ban Righ Hall, under the auspices of the Kingston branch of the Alumnae Association. The guests were received by Dr. A. V. Douglas, dean of women at the University, and Mrs. E. T. Munro (Barbara Graham), Arts '38, president of the Kingston alumnae. Mrs. G. M. Billings (Mary Graham), Arts '39, and Mrs. John Lesslie (Peggy Jemmet), Arts '40, were joint conveners. They were assisted by Mrs. Harold P. Davis (Dorothy Horwood), Arts '33, Miss Gladys Simmons, Arts '32, Miss Doris Wiliams, Arts '26, Mrs. Norman Miller (Grace Jeffrey), Arts '14, Miss May McDonald, Arts '37, and Mrs. V. E. Eksim (Margaret Pense), Arts '30. Refreshments were served by the committee, assisted by Miss Eileen Anglin, Arts '40, and Miss Jacqueline Earle, Arts '42.

Ferna Halliday, '16, called the lucky numbers for the draw. One of the prizes, a flag done in petit point, was won by an unknown "J. H." This mystery was explained as follows: A certain member had lost her book of tickets and the money from a few tickets she had sold. Some days later a strange man, a soldier, called the secretary to say that he had found the book and the money, had sold the remaining tickets, and was returning the proceeds to the secretary.

Among others who were present were Mrs. J. F. MacDonald, Mrs. G. S. Young (Eva Greenhill), '99, Mrs. M. A. MacKinnon (Lillian Vaux), '03, Mrs. Ian Galt (Mabel Johnston), '18, Mrs. R. C. Jacobsen (Esther Wagner), '25 Mrs. E. H. Coon (Jean Fell), '20, Mrs. D. G. Wright (Laura Hughes), '18, and Misses Eva Coon, '17, Maybelle Govan, '25, Viola Davidson, '18, Mary Mangan, '18.

Arts '19 was represented by Mrs. R. E. Dowsett (Jean Rose), Mrs. P. Moseley (Mary Shields), both of Toronto, Lorraine Shortt, of Ottawa, and Winnifred Hay, of Campbellford.

Coffee and doughnuts closed a very happy evening.

## Toronto

"JAPAN'S New Order in the Far East" was the subject of an address by Dr. C. J. L. Bates, Arts '01, at a luncheon group meeting of the Toronto branch held on January 12 at the Ellen Bradley Grill. Dr. Bates recently returned to Canada after spending forty years in Japan—twenty years as president of the West Japan University. His work in the Far East brought him into close contact with the Japanese and their way of life, and his address on such a timely subject was most interesting and informative.

* * * *

On January 23, Mrs. J. MacGregor (Eunice Simpson), '23, opened her home at 61 The Kingsway to the Toronto alumnae. Square dancing, with Mrs. D. G. Geiger ("Goldie" Bartels), '22, as the orchestra, claimed many of the newer graduates; while bridge, Chinese checkers and croquinole were enjoyed by several, and bingo and roulette engaged the sporting instincts of the "gamblers."

## Births

**Baker**—At the Royal Victoria Hospital, Montreal, on January 30, to J. H. Baker, Sc. '29, and Mrs. Baker, a daughter.

**Browne**—At the Wellesley Hospital, Toronto, on October 30, to Eric I. Browne, Sc. '36, and Mrs. Browne (Marion Hayes), Arts '35, a son (David Carl Bevis).

**Carnegie**—At the Ottawa Civic Hospital, on January 19, to A. J. Carnegie, Com. '32, and Mrs. Carnegie (Mildred Bowie), Arts '34, a daughter.

**Dowd**—At the Ottawa Civic Hospital, on January 30, to Dr. R. A. Dowd, Med. '16, and Mrs. Dowd, Osgoode, Ont., a daughter.

**Dufton**—On January 17, at the Private Patients' Pavilion, Toronto General Hospital, to Mr. John Dufton and Mrs. Dufton (Josephine Tett), Arts '33, a son.

**Haffner** — On January 4, at Kellogg, Idaho, to Bernard Haffner, Sc. '41, and Mrs. Haffner, a daughter (Julie Ann).

**Ingles**—At Halifax, N.S., on January 31, to Wing Commander C. L. Ingles, Sc. '34, and Mrs. Ingles, a son (Charles James).

**Johnston**—At the General Hospital, Cornwall, Ont., on January 5, to Rev. Canon D. A. and Mrs. Johnston (Gladys M. Eamon), Arts '28, a son (David Alexander Eamon).

**Kindle**—In New York City, on February 7, to Dr. C. H. Kindle, Arts '26, and Mrs. Kindle, a daughter (Mary Anne).

**McMahon**—On January 29, at the Private Patients' Pavilion, Toronto General Hospital, to H. W. McMahon, Arts '33, and Mrs. McMahon, a son.

**Williams**—At the Ottawa Civic Hospital, on January 17, to K. N. Williams, Arts '26, Com. '27, and Mrs. Williams, a son (Thomas Laurence).

**Winfield**—At Mount Hamilton Hospital, Hamilton, Ont., on January 28, to Mr. H. S. Winfield and Mrs. Winfield (Arleigh McKone), Arts '34, a son (Lee Edward).

**Wright**—On February 5, at Jeffrey Hale Hospital, Quebec City, to Capt. Arnauld L. Wright, Arts '32, Sc '33, and Mrs. Wright, a daughter.

**Young**—At the Ottawa Civic Hospital, on January 26, to Dr. Ernest M. Young, Med. '30, and Mrs. Young, a son.

## Marriages

**Chandler-Kennedy**—At Glenview Presbyterian Church, Toronto, on February 14, Elizabeth Margaret Kennedy, Arts '38, daughter of Mrs. Alfred Kennedy (Lena Forfar), Arts '03, and the late Mr. Kennedy, Arts '01, to Ralph Wright Chandler, Sc. '41, of Port Arthur, Ont.

**Clark-Campbell**—On January 20, at the home of the groom's parents, Ottawa, Azelie de Lendrecie Campbell, Com. '37, Arts '38, to Sub-Lieutenant George Clifford Clark, Med. '45, son of Dr. W. C. Clark, Arts '10, LL.D. '35, deputy minister of finance, and Mrs. Clark (Margaret Smith), Arts '14.

**Cross**—On November 17, in Port Arthur, Ont., Margaret Cross, Arts '41, to Mr. W. J. R. Paton. They are living in Toronto.

**Eligh**—On January 17, in Ryerson United Church Vancouver, B.C., Jean Mary Kendall to Lieutenant Gordon Peter Eligh, Com. '39. Lieutenant and Mrs. Eligh will reside for the present at Red Deer, Alta., where the former will complete his training with the R.C.A.S.C. Lieutenant C. E. Walker, Com. '39, was best man

**Hesson**—On January 27, at St Paul's Anglican Church, Kingston, Vivian Cherry to Sergeant Observer William Howard Hesson, Arts '43, of the R.C.A.F.

**Houston**—In the Chapel of Christ Church Cathedral, Ottawa, on January 29, Dorothy Jean Rivier to Robert Valleau Houston, Arts '38. They will live at 68 Seymour Avenue, Cornwall, Ont.

**Kee**—On February 7, in St. Paul's United Church, Brampton, Ont., Barbara Frances Waite to Charles Alexander Kee, Arts '38, Schumacher, Ont.

**McElroy**—On January 31, in the Chelsea Club, Ottawa, Margaret Joan McElroy, Arts '40, to Donald Alexander Adamson.

**Porter**—On January 31, in the United Church, Lakefield, Ont., Helen Josephine Porter, Arts '34, to Flying Officer Thomas Gordon Church. They will live at 106 Welington St., St. Thomas, Ont.

**Simpson**—On February 14 in St. Peter's Church, Mount Royal, Que., Audrey Mabel Dickerson to Lieutenant Robert Edward Simpson, Sc. '40, of the R.C.O.C.

**Smith-Montgomery** — In Oak Bay, Victoria, B.C., on February 7, Ruth Campbell Montgomery, Arts '38, to Dr. Vincent William Smith, Med. '39, of Victoria.

## Deaths

**Beech**—Principal of the Vancouver High School of Commerce, William Kenneth Beech, Arts '11, passed away on January 14. Mr. Beech was born in Prince Edward County, Ont., and after obtaining his B.A. degree at Queen's in 1911 became associated with the Vancouver schools. He later continued his studies and received his M.A. at the University of British Columbia and his B.Paed. at the University of Toronto. Particularly interested in the commercial aspect of his teaching work, he organized the special courses which later developed into the High School of Commerce. He was author and editor of several textbooks for use in commercial courses. He died in his sixty-sixth year. Surviving are his wife, a daughter, a son and a sister.

**Dickson**—The death of Dr. J. Sydney Dickson occurred recently at Sydney, Australia. Dr. Dickson was born in Kingston in 1884 and entered Queen's from Regiopolis Col-

lege on a combined Arts-Medical course in 1906. After graduating with his M.B. degree in 1913, he interned for a year at Saint John, N.B. He then went to the far North of Canada as surgeon on a government steamer and subsequently took postgraduate work at Edinburgh, Scotland. He served with the Imperial forces in East Africa during the Great War. On his return to Canada at the end of the war he was granted his B.A. at Queen's, and a short time after went to Australia, where he carried on a successful practice until his death. He is survived by his widow and three children, two sisters and a brother.

**Carufel**—Arthur O Carufel, Sc. '35, died suddenly on November 30, 1941, while travelling from Peru to the Panama Canal zone.

A. O. CARUFEL

He was born in Sault Ste. Marie, Ont., in 1909, and obtained his early education in that city. After graduation from Queen's in 1935 with his B.Sc. in mineralogy and geology, he spent two years as a mining engineer in the Lake of the Woods and the Larder Lake areas of Ontario. He then did a year's postgraduate work at the University of Minnesota, obtaining his Master of Arts degree in geology. He went from there to the Yellow Knife area in the Great Slave Lake district, and in 1939 joined the engineering staff of an American-operated company, the Sociedad Minera Backus y Johnson del Peru, at Casacala, Peru. He was returning home when his death occurred. Besides his mother, he is survived by four sisters and two brothers, one of whom is overseas.

**Drury**—Dr. Alfred J. Drury, Med. '23, died at his home in Roselle, N.J., on January 23 as the result of a heart attack. He was forty-four years of age and had been ill with a cold for several days. Dr. Drury was born and educated in Kingston, and after graduating from Queen's, interned at the Lying-In Hospital, New York City, and the Elizabeth General Hospital, Elizabeth, N.J., before entering practice at Roselle in 1925. He was a member of the staffs of the Elizabeth General Hospital and the St. Elizabeth Hospital, Elizabeth, and of the Rahway Memorial Hospital, Rahway; a member of the American Medical Association, the Union County Medical Association, and the Clinical Society of Elizabeth. He was also a member of Azure Lodge, 129, A.F. and A.M., of Cranford. For ten years prior to his death he had been school physician for Roselle, in addition to carrying on his extensive general and institutional practice. High tributes were paid to Dr. Drury by the hospitals and other organizations with which he had been associated. He is survived by his wife; his mother, Mrs. W. L. Drury, of Kingston; a brother, Dr. C. W. Drury, Sc. '09, of Toronto; and two sisters, Mrs. J. S. McDonell, and Miss Olive Drury, Arts '14, both of Kingston. The pall-bearers at Dr. Drury's funeral, held in Kingston on January 29, were the members of a boys' club to which he had belonged while attending the Kingston Collegiate Institute. They included Dr W. A. Campbell, Med. '24, Dr. O. A. Carson, Sc. '23, Dr. R. N. Irwin, Med. '26, and T. D. Slater, Arts '21.

**Hanley**—Born in Kingston sixty-five years ago, the Very Rev. Archibald James Hanley, Arts '99, parish priest of Brockville, Ont., passed away at his sister's residence in Kingston on January 9 after a lengthy illness. Dean Hanley received his early education in Kingston and spent a year in Arts at Queen's in 1895. After being ordained in 1901 and following a year's study in Rome, he returned to his native city as rector of St. Mary's Cathedral. He was appointed parish priest of Gananoque seventeen years later, and after seven years there was moved to Brockville. He is survived by two sisters, both of Kingston.

**McNabb**—On January 8, Joseph W. McNabb, Arts '07, died at his home in Ottawa as a result of a heart attack. He was in his seventy-fourth year and had been in ill health for some time. Born in Cameron Township, Victoria County, Ont., Mr. McNabb obtained his education at the Cameron Public School, the Lindsay High School, and the Ottawa Normal School, and later at Queen's, where he received his B.A. degree in 1907. He began his teaching career near his home in 1888, and three years later went to Ottawa. He had taught for forty-seven years on the staff of the Ottawa public schools prior to his retirement in 1934. For thirty-one years he had been principal of one school. Deeply interested in civic affairs, Mr. McNabb was an Ottawa alderman for seventeen years and served on many civic committees. Perhaps his most valuable work was done as chairman of the playgrounds committee and as a director of the Central Canada Exhibition, in which position he took great interest in the child-welfare department, giving special attention to the development of the hobby show. He was a past master of Doric Lodge, A.F. and A.M., and of the Scottish Rite. Surviving are his wife, one son, a daughter, two brothers and a sister.

**Pirie**—A resident of Parry Sound, Ont., where he had practised law for fifty years as senior member of the firm of Pirie and Stone, Edwin Pirie, K.C., Arts '88, passed away suddenly on January 24 following a heart attack. The late Mr. Pirie was born in Dundas, Ont., in 1866, and after graduating from the high school there, entered Arts at Queen's in 1884. While at the University he was a famous association football player. In 1891, three years after receiving his B.A. degree, he entered the legal pro-

fession at Parry Sound. He was a member of the United Church and was active in church and musical circles. Surviving are three brothers, Dr. H. H. Pirie, Arts '86, Med. '90, of Dundas, Dr. A. F. Pirie, Med. 87, and Mr. A. M. Pirie, both of Costa Rica; and one sister, Miss M. R. Pirie, of Dundas.

**Ruttan**—In his seventy-third year, Dr. F. S. Ruttan, Med. '93, died at his home in Woodstock, Ont., on January 13. Born at Sydenham, Ont., he was educated there and at Queen's, where he graduated in 1893 with the degree of M.D. Before moving to Woodstock in 1906, Dr. Ruttan had practised at Middleville, Wolfe Island and Yarker, Ont. He was appointed M.O.H. in Woodstock in 1913, but enlisted for service with the Medical Corps the following year. He later joined the Second Field Ambulance in France as captain, and served with this unit and as medical officer of the First Battalion until he was placed in charge of No. 1 Canadian General Hospital at Etaples, with the rank of major. This hospital, of 2,000 beds, was one of the most famous in France. Returning to Woodstock after the war, Dr. Ruttan resumed his practice and also his post of M.O.H., which he held until his death. He is survived by one sister, Mrs. F. S. Ferguson of Sydenham.

**Van Luven** — Lt.-Col. Robert Miles Van Luven, Med. '99, a veteran of two wars, died on January 13, at his home on the Lakeshore Road, Portsmouth, Ont., following a sudden heart attack. Colonel Van Luven was born at Murvale, Ont., seventy-four years ago, and was in his third year in Medicine at Queen's in 1899 when he went to South Africa as a lieutenant in the Third Canadian Dragoons. Enteric fever caused him to be invalided to England, and on his return to Canada he entered the clothing business and later engaged in farming. During the First Great War he was major and company commander of the 146th Battalion, but transferred from this unit to help raise the 253rd Battalion, Queen's University Highlanders. He went overseas with this battalion. He was lieutenant-colonel of the 4th Hussars in Kingston after the war, and continued in that capacity until he was retired to the reserve of officers. Besides his widow, Col Van Luven is survived by a daughter, Miss Helen Van Luven, Arts '27, and two sons.

## Notes

### 1890-1899

Rev. J. K. Clark, Arts '95, retired on November 1 after forty-three years in the ministry of the United Church in Canada. He is living in Belmont, Ont.

Dr. F. C. Hagar, Med. '95, has been in general practice for some time at 7124 Sunset Blvd., Hollywood, Calif.

L. F. S. **Holland**, Sc. '98, has been for the past seven years general manager and secretary of the Oregon Hill Gold Mining Company, Placerville, Calif. Since 1905 Mr. Holland has been connected with various mining interests in Colorado, Arizona and California He lives at 1768 N. La Brea Ave., Hollywood, Calif.

**Mrs. George T. Kennedy** (Agnes Griffith), Arts '95, lives at 99 Metcalfe St., St. Thomas, Ont.

**Dr. A. C. Neish**, Arts '98 (Ph.D. Columbia), formerly head of the chemistry department at Queen's, was recently presented with a diploma by the Kingston Horticultural Society for his valuable services to the society over many years.

### 1900-1909

**C. W Agnew**, Sc. '08, is with the International Nickel Company of Canada, Copper Cliff, Ont.

**Rev Dr. C. J. L. Bates**, Arts '01, former president of the Kwansei Gakuin University, Kobe, Japan, was the special speaker at Old St. Andrew's Church, Toronto, on February 8, when his sermon was broadcast over CBL. He spoke on "The Kingdom of God Movement in Japan."

**Dr. A. E. R. Boak**, Arts '07 (Ph.D. Harvard), professor of history at the University of Michigan, presented a paper on "The Achievement of the Social Sciences," at the centennial of the College of Literature, Science and the Arts, at the University of Michigan, on Oct. 15 last.

**Rev. G. A. Brunet**, Arts '09, rector of St. Matthew's Anglican Church, Ottawa, has been appointed canon of Christ Church Cathedral, Ottawa. Rt. Rev. Robert Jefferson, Bishop of Ottawa, conferred this honour upon him in recognition of the notable achievements in St. Matthew's parish over many years.

**H. J. Coon**, Arts '06, is now executive assistant at the head office of the Bank of Nova Scotia, Toronto.

**R. H. Eldon**, Arts '01, of Toronto, retired from the teaching profession in 1926. He was commercial master on the first teaching staff of Harbord Collegiate Institute, following the inception of commercial departments in the secondary high schools in Toronto in 1892. In 1911 he became principal of the first high school of commerce, not only in Ontario but in Canada. For some years this school occupied temporary quarters in Toronto, but in 1916 it was established in a new building known as the Central High School of Commerce. He held this position until his retirement. Although now eighty-two years of age, Mr. Eldon is still hale and hearty and very active.

**Allan Gorman**, Sc. '09, is office engineer in the forest service, Department of Mines and Resources (Lands, Parks and Forests Branch), Ottawa He lives at 69 Cartier St.

**Dr. T. J. Gray**, Med. '04, is practising at 101—21st St. E., Saskatoon, Sask.

**Dr. James J. McCann**, Med. '09, M.P. for South Renfrew, is doing valuable work in his capacity of president of the Canadian Public Health Association. The "Globe and Mail" of January 20 called attention to this in an editorial which reviewed some of the

health problems which Dr. McCann is considering and the practical suggestions he is making for dealing with them.

**Dean John Matheson,** Arts '01, of Queen's, and **Prof. Murdoch Matheson,** Arts '07, of the University of Saskatchewan, were bereaved on January 29 by the death of their brother, Rev. Finlay Matheson, retired minister of the United Church in Canada.

**Rev. J. A. Petrie,** Arts '00, Theol, '06, has held the pastoral charges of Rutland and Oyama, B.C., for the United Church of Canada since 1940. His address is R. R. No. 1, Kelowna, B.C.

**J. H. Sexton,** Arts '02, Strathroy, Ont., was bereaved on January 11 by the death of his wife. **Dr. G. B. Sexton,** Med. '30, London, Ont., is a son, and **Miss Ella Sexton,** Arts '30, Toronto, a daughter.

**L. P. Silver,** Sc. '02, has been in the fur business since 1913. He is now president of L. P. Lazare and Company, Montreal and Windsor. For some years after graduation Mr. Silver practised as a consulting geologist.

**Dr. Sidney M. Smith,** Med. '00, has been in private practice at Milwaukee, Wisc., since graduation. His address is 2690 So. Kinnickinnic Ave.

**Dr. M. Y. Williams,** Sc. '09 (Ph.D. Yale), Vancouver, B.C., is president of Section IV, Royal Society of Canada.

### 1910-1919

**M. J. Aykroyd,** Sc. '13, of the Bell Telephone Company of Canada, Toronto, gave a lecture on "Reducing the Overhead" at the ninth annual winter conference of the Canadian Electrical Association held at the Mount Royal Hotel, Montreal, on January 19 and 20. The lecture was illustrated by coloured moving pictures of the big buried cable project which the Bell Telephone Company recently completed north of Oshawa.

**Dr. J. H. Blair,** Med. '16, formerly with the Workmen's Compensation Board in Vancouver, is now practising at Blairmore, Alta.

**K. A. Brebner,** Sc. '14, is now chief estimating engineer for Canadian Car Munitions Limited, Montreal. He had previously been chief draughtsman and plant engineer for Price Brothers and Company, Riverbend, Que.

**Dr. D. M. Campbell,** Med. '19, is chief anaesthetist at the Christie Street Hospital, Toronto.

**Dr. Norman Dennison,** Arts '19, Med. '21, Rochester, N.Y., was bereaved early in January by the death of his mother, Mrs. James Dennison, at Kingston.

**J. B. Dunkley,** Sc. '11, is engineer for Prince Edward County and for the town of Picton, Ont.

**C. C. Fitzgerald,** Sc '12, is with the works department, City Hall, Toronto.

**Dr. H. R. Fleming,** Arts '16, Med. '22, Humboldt, Sask., and **Mrs. James Ronan** (Lula Fleming), Arts '17, Kenora, Ont., were bereaved on January 12 by the death of their father, Mr. William James Fleming.

**FO. F. B. Goedike,** Sc. '10, is resident engineer at the R.C.A.F. airport in Trenton, Ont.

**Rev. J. I. MacKay,** Arts '14, Theol. '17, for the past fourteen years minister of the Church of All Nations in Toronto, has been appointed superintendent of home missions for the Montreal, Ottawa and the Bay of Quinte conferences of the United Church of Canada.

**N. B. MacRostie,** Sc. '11, Arts '14, was recently elected head of the Ottawa branch of the Engineering Institute of Canada.

**J. F. Twigg,** Arts '12, lawyer in Windsor, Ont., has been elected chairman of the Windsor Board of Education by unanimous vote.

### 1920-1929

**H. C. Barlow,** Arts '20, is chief chemist in the stellite laboratory of the Deloro Smelting and Refining Company, Deloro, Ont.

**Rev. Theodore Bay,** Arts '29, is doing missionary work for the United Church of Canada at Calder, Sask.

**Rev. H. F. Cross,** Arts '22, was recently appointed rector of the parish of Warwick and Wisbeach, where he will be in charge of St. Mary's and St. Paul's churches. His residence address is St. Mary's Rectory, R.R. No. 2, Watford, Ont.

**Miss Elizabeth Edwards,** Arts '26, formerly at Simcoe, Ont., has been appointed public health nurse for Picton, Ont.

**Dr. H. T. Ewart,** Arts '26, Med. '35, was recently promoted to the rank of major in the R.C.A.M.C. and appointed registrar of No. 1 Neurological Hospital, Canadian Army Overseas.

**Dr. A. L. Greenleess,** Arts '20 (Ph.D. California Institute of Technology), has been a member of the teaching staff of Rutgers University, New Brunswick, N.J., since 1924. His address is 66 South Adelaide Ave., New Brunswick.

**T. A. M. Hulse,** Arts '29, is editor of the "Aurora Era," a weekly publication at Aurora, Ont. He is also on the reporting staff of the "Toronto Daily Star."

**Dr. G. C. Lindsay,** Med. '23, Kingston, has been elected chairman of the local Board of Education.

**E. M. Lockett,** Com. '24, Kingston, and **PO. L. W. Lockett,** Sc. '23, Montreal, were bereaved on January 30 by the death of their mother, Mrs. L. C. Lockett, at Kingston.

**Miss Doris McClelland,** Arts '20, Wallaceburg, Ont., was bereaved on January 19 by the death of her mother, Mrs. Richard J. McClelland, of Kingston.

**Rev. W. Harold Reid,** Arts '24 (M.A. Toronto), for the past four years minister of Knox Presbyterian Church, Oshawa, recently received a call to St. Andrew's Church, Quebec City, and was inducted into that ministry on October 30 last as successor to **Rev. A. M. Gordon,** D.D. '19, who is now chaplain for the Quebec Military District.

**Dr. R. G. Sinclair**, Arts '24 (Ph.D. Rochester), Craine professor of biochemistry at Queen's, was elected president of the Kingston Horticultural Society at the annual meeting held on January 16.

**D. W. Stewart**, Sc. '23, is now manager of production for Basic Magnesium Incorporated, Las Vegas, Nevada.

**Miss Marie Stock**, Arts '26, was recently appointed head of the moderns department of Humberside Collegiate Institute, Toronto.

**E. B. Taylor**, Com. '29, for some time manager of the Kingston branch of the brokerage firm of Messrs. R. Moat and Company, was recently appointed manager of the Kingston office of the Wartime Prices and Trade Board.

**Mrs. E. A. Thomson** (Edith Erskine), Arts '25, is now living at 27 Colin Ave., Toronto.

**Mis Mary White**, Arts '29, Toronto, **Dr. F. Clark White**, Med. '31, Norwich, Conn., and **Capt. E. P. White**, Med. '34, R.C.A.M.C. Overseas, were bereaved on January 9 by the sudden death of their father, Rev. F. W. White, retired minister of the United Church of Canada.

**Dr G. T. Whitty**, Med. '24, Windsor, Ont., was bereaved on January 8 by the sudden death of his brother, Mr. James A. Whitty, of Kingston.

### 1930-1939

**Dr. Eli Abramson**, Arts '33, Med. '36, who left Queen's after three years in Medicine, finished his course at the University of Montreal and is now practising at Lac Vert, Sask.

**J. F. Benjafield**, Sc. '33, is job superintendent for the Foundation Company of Canada. He lives at Apt. 15, 5215 Victoria Ave., Montreal.

**G B. Cathcart**, Sc. '31, is sales engineer for the Canadian General Electric Company at Ottawa.

**John J. Connolly**, Med.'33, has been named executive assistant to the Minister of Defence for the Navy. He spent one year in Medicine at Queen's and then went to Ottawa University and the University of Notre Dame, where he was later an instructor. He attended Osgoode Hall and was called to the Ontario Bar in 1934. Since that time he has been practising law in Ottawa, a member of the firm of Clark, Robertson, Macdonald and Connolly. He holds the degree of LL.B. and Ph.D.

**Hugh Crumley**, Arts '30, for some years branch secretary for the Manufacturers Life Insurance Company at Singapore, was recently reported as still there and fighting with the Volunteer Defence Corps.

**G. W. Cushnie**, Arts '33, is principal of the high school in Kapuskasing, Ont.

**H. A. Davis**, Sc. '38, is plant engineer with the Ontario Steel Products Company, Oshawa, Ont.

**Miss Mildred Dever**, Arts '33, who was for seven years in charge of Latin and Greek in the Alexandria High School, and later on the temporary staff of the Ot-

IF THE *DISCUS THROWER* COULD TALK—
"I'm going to throw this thing away and have a Sweet Cap."

**SWEET CAPORAL CIGARETTES**

*"The purest form in which tobacco can be smoked."*

tawa Technical High School, is now teaching Latin and French in the high school at Niagara-on-the-Lake, Ont.

**R. A. Doherty**, Sc. '33, has joined the electrical engineering staff of Montreal Cottons Limited, Valleyfield, Que.

**J. C. Elliott**, Sc. '34, who has been with the Dominion Natural Gas Company for several years, latterly at Merlin, Ont., was recently transferred to the company's plant in Brantford, Ont.

**Campbell Fraser**, Sc. '34, was recently promoted to the rank of major in the R.C.E. and appointed O.C. of 2 Cdn. Field Coy., Canadian Army Overseas.

**R. E. Freeman**, Sc. '38, is in the radio division of the National Research Council, Ottawa.

**A. J. Frost**, Com. '30, was recently appointed comptroller of the Toronto General Trusts Corporation.

**Thomas Grindlay**, Arts '36, is credit clerk for Dominion Woollens and Worsteds Limited, Victory Building, Toronto.

**J. G. Hall**, Sc. '36, has been on the staff of the American Can Company, Simcoe, Ont., since graduation. He is engaged mainly in process inspection.

**Miss Ruth Harper**, Arts '33, is doing social service work in Hartford, Conn.

**L. G. Henry**, Sc. '39, has been transferred from Shawinigan Falls to the alkali division of Canadian Industries Limited at Cornwall, Ont. He is plant engineer.

**Dr. Leslie S. Jolliffe**, Med. '36, has been appointed assistant pathologist at the Boston City Hospital.

**R. V. Houston**, Arts '37, is with the Howard Smith Paper Mills, Cornwall, Ont.

**H. B. Howe**, Sc. '36, is engineer draughtsman for Canada Cement Company, Montreal.

Rev. **F. J. Jackson**, Arts '38, is minister of the United Church at Monteith, Ont.

**J. E. Jackson**, Sc. '37, is project engineer in the engineering products division of the RCA Victor Company, Montreal.

**Mrs. Marcel Jeanneret** (Ethel Mellan), Arts '37, Toronto, has collaborated with her husband in a book "From Cartier to Champlain," recently published. It has been recommended by the Department of Education for use in grades 6 and 7.

**W. D. Keeley**, Sc. '38, formerly a sapper with the South African Engineers, was promoted on the field in Lybia last summer to the rank of 2nd Lieut. He was then sent back to South Africa for training and after completing half of this time was given his commission. He has since been promoted to 1st Lieut. When last heard from he was still in South Africa looking after Italian prisoners and building camps.

**K. M. Kelly**, Com. '38, who joined the staff of the Canadian Broadcasting Corporation two years ago, is now acting assistant to the secretary at Ottawa.

**C. M. Krug**, Arts '37, of the Canadian General Electric Company, Peterborough, Ont., was recently promoted to the position of production manager of the carriage division.

**Miss Lillian Latimer**, Arts '39, formerly of Blenheim, Ont., is now teaching at the continuation school in Lansdowne, Ont.

**Miss Jeanne Le Caine**, Arts '37, has been appointed instructor in mathematics at Smith College. She received her Ph.D. in mathematics last June at Radcliffe College.

**Dr. John S. Ledwell**, Med. '35, has been in private practice at 127 Water St., Charlottetown, P.E.I., since 1937.

**Mrs. Neil McKechnie** (Eliabeth Cameron), Arts '36, is now living at 4913 Coronet Ave., Montreal.

**Miss Ruth McKenzie**, Arts '30, is on the staff of the Toronto Public Library.

**Miss Jean MacPhail**, Arts '37, has been teaching senior English at the high school in Kapuskasing, Ont., since 1939.

**Dr. A. L. Magill**, Med. '38, is in private practice at 153—10th St. W., Owen Sound, Ont.

**Pierre Mauffette**, Sc. '39, is assistant professor of mineralogy and geology at Ecole Polytechnique, University of Montreal. He lives at 6648 St. Denis St., Montreal

**J. S. MacMillan**, Sc. '32, is on the staff of the Foundation Company of Canada, Montreal.

**Dr. Fergus J. O'Connor**, Jr., Med. '36, has opened a practice at 189 Brock St., Kingston, for the diseases of children. Since graduation Dr. O'Connor has held several hospital staff appointments, latterly in the

children's departments. He was at Ottawa General Hospital for one year, Ogdensburg State Hospital for two years, New York Foundling Hospital for a year, and Washington, D.C., Children's Hospital for one year.

**Hon. Flt. Lt. Rev. Gordon W. Porter,** Arts '30, Theol. '34, has been posted to overseas chaplain' duty and is ministering to the R.C.A.F. somewhere in Great Britain. His address is R.C.A.F. Headquarters, Overseas Command, London, England. Mrs. Porter (Caroline McLaren), Arts '31, and their two children are residing in Wellington, Ont.

**Dr. J. H. G. Preston,** Med. '35, has been promoted from flight lieutenant to squadron leader in the R.A.F. He is at present serving in' Africa.

**Miss Sally Putnam,** Arts '38, is receptionist for Drs. Edward R. Evans and H. W. Jones in their medical offices at 246 Genesee St., Utica, N.Y.

**A. Blake Robertson,** Sc. '31, is general manager and secretary-treasurer of Robertson Construction and Engineering Company, Niagara Falls, Ont. He lives at Queenston, Ont.

**C. N. Rowse,** Arts '39, of the mathematics staff of Leamington High School, had an article in the February issue of "The School" (secondary edition), entitled "Maximum and Minimum Assignments," in which he explained a method designed to keep pupils steadily at work regardless of their capacities and to some extent their initial interest.

**G O. Saunders,** Sc. '37 is stationed at Providence, R.I., as assistant inspector of Naval Ordnance for the British Admiralty.

**Miss Annette Schalburg,** Arts '39 of the R.C.A.F. (Women's Division), has been promoted from the rank of sergeant to assistant section officer.

1940-1941

**Dr. B. M. Connolly**, Med. '40, is interning at St. Joseph's Hospital, Toronto.

**W. P. Daly**, Sc. '41, is on the engineering staff of Foster Wheeler Limited, St. Catharines, Ont.

**F. A. Davis**, Sc. '40, is assistant refinery engineer for the British American Oil Company, Montreal East, Que.

**Miss Marion Fisher**, Arts '41, is on the office staff of Canadian Industries Limited, Montreal.

**Mrs. W. R. Kidd** (Ethel Fair), Arts '40, is living at Lyndhurst, Ont.

**Dr. J. W. Latimer**, Med. '41, is assisting **Dr. W. C. Arkinstall**, Med. '31, and Dr. D. M. Arkinstall (M.D. Toronto), in their practice at Hearst, Ont.

**Miss Helen Lynton**, Arts '41, is a postal censorship examiner in the Post Office Department, Ottawa.

**Miss Margaret Pound**, Arts '41, of Winnipeg, has joined the ranks of the R.C.A.F. (Women's Division), and will serve as an equipment assistant.

**A. M. Ross**, Arts '40, is teaching in the high and vocational school at Timmins, Ont.

**G. R. Yourt**, Arts '40, ventilation engineer at the Wright-Hargreaves Mine, Kirkland Lake, Ont., is the author of two excellent pamphlets on ventilation recently published by the Canadian Institute of Mining and Metallurgy. They are called "Ventilation and Dust Control at the Wright-Hargreaves Mine," and "Assay Office Dust Control." For the first paper Mr. Yourt has been awarded the Leonard medal by the Engineering Institute of Canada. The presentation is to be made at the annual dinner of the Institute in Toronto on March 11. The second paper won first prize in the Kirkland Lake district in a competition sponsored by the Mining Institute.

## General

**Dr. Arthur Gibson**, LL.D. '35, Dominion entomologist, has retired after forty-two years in the Government service. Dr. Gibson joined the Department of Agriculture in 1899 as assistant in the entomology and botany division, and when the department set up a separate entomology division in 1914 he became chief of the field crops and garden insects branch. Six years later he was appointed Dominion entomologist and chief of the division. The members of his staff presented him with a beautiful silver tea service when he left his office on January 15.

**Dr. R. G. Trotter**, head of the history department at Queen's, read a paper at the annual meeting of the American Historical Association held early in January at Chicago, Ill.

**Dr. W. E. McNeill**, vice-principal and treasurer of the University, spoke to the Women's Art Society in Montreal on January 20. The subject of his address was "The Sustaining Power of Noble Words."

**Dr. Gregory Vlastos**, professor of philosophy at Queen's, has been named member of the National Committee of Protestant Associates to combat Fascist forces at home and work for a democratic victory. The organization is composed of prominent Protestant laymen throughout the United States and Canada.

# THE PROBLEM OF METAL SUPPLIES

By G. C. Bateman, Sc. '05

*An address delivered by Mr. Bateman in Toronto on February 11 at a joint meeting of the Electric Club of Toronto, the Ontario Municipal Electric Association and the Association of Municipal Electric Utilities.*

I AM pleased at the opportunity of talking to you because this group, representing as it does the electrical industry, the public utilities and the municipalities, is the largest consumer of copper for domestic use.

I believe there are very few people today who really appreciate the serious situation that exists in the supplies of raw materials, and so I am glad of the opportunity of telling you something of our problem in the hope that I may enlist your co-operation and help.

This is essentially a mechanized war, and the demand for metals—for tanks, ships, guns, shells and airplanes—is greater than at any previous time. You will remember that before some of the great advances in the last war the guns stood for miles, almost hub to hub, and fired steadily for perhaps 48 hours; yet today the British demand for copper is more than 2½ times what it was at the maximum of the 1914-1918 requirements.

There is a general belief that Canada has plenty of metals, and a belief which is not so general, although widespread enough to be dangerous, that while it may be necessary to conserve our supplies, it is really not necessary to carry this to the point where it hurts. The first part of this statement is true, but the second part is most decidedly not true.

In one sense, Canada has plenty of metals; it is, in fact, the greatest exporting country of non-ferrous metals in the world. Our production is far in excess of our own requirements. For example, we are not consuming more than 5 to 6 per cent of our production of aluminum or 5 to 6 per cent of our production of nickel. I doubt whether, at the maximum of our war demands, we can use more than 50 per cent of our zinc or 60 per cent of our copper.

If we looked at these metals from only the point of view of Canadian supply and Canadian requirements, there would, of course, be no problem as we have much more than we can use ourselves. However, we can not and must not look at it from only the Canadian point of view. We must look at it from the point of view of the overall supply and the overall requirements of the United States and the British Empire, and there the position is by no means so favourable. In fact, it is decidedly unfavourable; there is a serious deficiency in all of the primary non-ferrous metals and in most of the strategic minerals.

In the face of such a situation, Canada has no other option—and this is a position we have taken for a long time—than to curtail drastically the non-essential uses of metals in order to make the maximum amount available for the war effort. In fact, before we get through, we shall have to curtail some of what we consider essential uses and perhaps some of the war uses of metals in order to provide for the most pressing of our war needs.

As I said before, our own position in the primary non-ferrous metal field is

favourable, but there are other metals and minerals less well known but equally important which we do not produce and which we have to import. The principal ones are chrome, manganese, tin and tungsten. You may think you are not particularly concerned with these, but if you do, you are wrong.

None of the fabricated products which you use can be made without steel, and steel cannot be made without manganese. In fact, quite apart from manganese steels, each ton of steel produced requires an average of about 14 pounds of manganese, and so far we have been unable to find any important supply of manganese ores in Canada.

I wish I had a map of the world with me because the story of our mineral supplies is a lesson in geography, and it is much easier to follow it with a map. However, as there is none, I shall try to do the best I can without it.

There is lots of manganese in the world, but not much of it in North America, and practically none in Canada. It is not a problem of ore supply so much as it is of transportation and shipping. The chief centres of supply are Takoradi in the Gold Coast of Africa, Brazil, Cuba, Russia, Karachi in Baluchistan, and the east coast of India. Brazil and Cuba may be considered as a United States preserve. Certain supplies are drawn from India, but Canada and the United Kingdom are largely dependent upon the Gold Coast and, in the absence of a map, I may tell you that this is not far to the southeast of Dakar. Now, if the Germans were able or were permitted to seize Dakar, our supplies of this essential material would be seriously jeopardized.

Chrome is one of the essential alloying materials in the production of special steels, and you in the electrical industry are familiar with its use for heating elements. At the present time Canada is not a producer of chrome, although we hope to provide part, at least, of our requirements. Supplies are, or were, drawn principally from Rhodesia, South Africa, the Phillipines, New Caledonia, India and Turkey. The Phillipines, at least as far as supplies of chrome are concerned, are gone. New Caledonia is definitely in the danger zone, and Turkey is an uncertain quantity. Our chief source of supply is thus Rhodesia and South Africa. As with manganese, the enemy occupation of Dakar would endanger supplies from Rhodesia and South Africa.

Manganese and chrome are both used principally in the production of ferro alloys and, as an evidence of the increased demand, I may tell you that, while before the war we used approximately 30,000 horsepower in the production of ferro alloys, today we are using well in excess of 200,000 horsepower. The greatly increased need for ores has correspondingly increased the need for shipping which, in itself, also represents one of the serious shortages.

Tungsten is used primarily in the production of high-speed steels and, as such, is important in your manufacturing processes. You are perhaps more familiar with tungsten as the element in incandescent lamps. Some tungsten comes from South America, some from the United States, some from Australia and New Zealand, some from Portugal and Malaya; but the principal source has been China, with the product coming out over the Burma Road. This is one of the reasons why the Far East is important to us, because, with greatly increased demands, tungsten is definitely short and our production in Canada is negligible.

There are many phases of modern warfare other than actual fighting, and one of these is the field of economic warfare, part of the function of which is to acquire supplies which might otherwise be available to the enemy. Sometimes this gives the seller a golden opportunity; recently I paid $1000 a ton for some Portuguese tungsten for which the British had paid $22,000 a ton to keep it away from the Germans. I am told that the competition was so keen that the Germans approached the British to see whether they would not put a price ceiling on tungsten in order to prevent such ruinous competition.

Tin is something with which you are all familiar. Its principal uses are for tin plate, bearing metals and solders, and it has a very wide application in the electrical industry. Approximately 75 per cent of the world's tin comes from Malaya and the Dutch East Indies, with Bolivia next in importance, and some also coming from the Belgian Congo. Now, as you know, Malaya is lost, and the Dutch East Indies are in serious danger. For a time during the fighting in Northern Malaya the name of Ipoh figured very largely in the news as the scene of a determined resistance. To me it was more than the centre of serious fighting, it was also the centre of a great tin-mining area. To you perhaps the loss of Penang may have meant the loss of an important naval base, but to me it meant more, it meant the loss of the greatest tin smelter in the Far East.

Let us look at this picture realistically. If the British have done as well as was expected of them, they will have adopted the scorched-earth policy, and the tin dredges will have been destroyed. If, for some reason, they failed to do this, we can be sure that the Japs won't fail to destroy the dredges when they are finally driven out. It will probably take from a year to a year and a half to build and install new dredges, so that even if the war were to end this year, it would be well on in 1944 before we could expect any considerable shipments of tin from Malaya. In the meantime we do not know just where or in what quantity further supplies will be available. Under these circumstances, what are we going to do? There is only one answer, cut consumption to the minimum; and if you think you cannot get along without tinned wires, without high-grade babbits and without tin solders, you will, in the majority of cases, have to change your mind because the tin won't be available. To ensure this, we are taking over surplus stocks and putting them in a government warehouse under lock and key, and it will need a good reason to get them out.

With chrome and manganese it is largely a case of shipping, with tin and tungsten it is a question of scarcity; but the answer is the same in both cases. Intensify our search for domestic supplies, acquire stocks wherever possible, and exercise the utmost degree of conservation with the supplies we have.

Now, I would like to turn back to the primary non-ferrous metals with which you are more familiar and which you are more accustomed to use — aluminum, nickel, lead, zinc and copper.

You have all seen the newspaper reports of the tremendous expenditures for war materials to be made in the United States. You have all heard of the Victory Programme in that country, but so far no one has been able to convert those expenditures and that programme into terms of the raw materials on which they are based. All we can say at the moment is that the programmes will add fresh burdens to an already overburdened production schedule. When you stop to re-

alize that one large bomber may take 85,000 pounds of aluminum in the form of sheet alone, you will see why an increase of 1000 per cent in aluminum production over the pre-war output may not be too much, and that is what the plans call for. The principal requirements for aluminum are raw materials and electric power. The raw materials, that is the ores, are obtained from British and Dutch Guiana in South America, and shipping is subject to the hazards of submarines on the Eastern Atlantic coast. Power is definitely short, and this is the reason why you will see some of the new plants built around some of the large cities in the United States where power can be taken away from other uses.

Nickel production today is approximately seven times what it was in 1914, but today the estimated deficiency is twice as much as the total production in 1914. Canada provides about 95 per cent of the nickel available to the Allies, with most of the balance coming from New Caledonia, which, as I said before, is now in the danger zone. Fortunately, most of the production is in a safe area, but there are limits to our ability to increase our output to any great extent.

A few months ago I estimated the deficiency in zinc at approximately 200,000 tons. I was in Washington about that time and was told that, in spite of this large shortage, the zinc position was somewhat easier because there was not enough copper to alloy with it. A few days ago I read in *Time* that zinc requirements in the United States were now estimated at 1,450,000 tons per year. Production is about 1,000,000 tons or a little less. Where is the balance to be obtained? I don't know. If requirements of zinc are 1,450,000 tons, that means that requirements for copper are over 2,000,000 tons, and I have heard estimates much higher than this. United States copper production is around 1,000,000 tons, and that of South America is perhaps 600,000 tons, but this South American production is also subject to shipping hazards. Here again there is a great deficiency, and I do not know how this can be met. The deficiency may be greater than we estimate because, as I said before, we have not yet been able to convert the Victory Programme into terms of raw material requirements.

Perhaps some of you may think that your requirements are so small in comparison with these large tonnages that the war effort would not be effected one way or the other if you were given all you asked for. For the individual this is probably quite true, but these individual requests have to be multiplied by thousands and in the aggregate they amount to large figures. In 1940, for example, the electrical industry as a whole used 35 to 40 per cent of all the copper consumed in Canada. Under present conditions the percentage is probably smaller, but the tonnage is larger on account of the great expansion in war plants. The demand for electrical uses comes into competition with more direct war uses, such as shells and ammunition, and you can judge how severe this competition is when I tell you that our production of brass has been increased by 1000 per cent and that our requirements are not yet satisfied.

Lead, so far, is the least scarce of the metals; but with increased war demands and the substitution of lead for copper and brass, consumption continues to increase and this metal will also have to be rationed. Our own domestic consumption is now two or three times what it was at the outbreak of the war.

Canada cannot do a great deal more than it is now doing in the production

of nickel, copper, lead and zinc. Our mines are working under forced draft. Our smelters are working practically to the limit of their capacity and, in some cases, to the limit of the power available.

We have been too apt to talk glibly about our illimitable mineral resources. In talking this way we have just been fooling ourselves. Our resources are far from illimitable, and I shudder to think of the toll that is being taken of our vanishing ore reserves and of the effect that this may have on the future life of these mines. If you were to ask me where in Canada we could quickly provide new and important supplies of metals, I would have to tell you I do not know. We could increase our production of zinc concentrates for shipment to United States smelters, but I cannot tell you where there is any substantial amount of lead available; and the total tonnage of copper in the unworked copper properties in Canada of which I know would not represent more than three to four months' production at our present rate. This is not an optimistic picture.

What, then, is the answer? How can these deficiencies be met? If we had time, we could do it easily because the United States and the British Empire, between them, control 75 per cent of the mineral wealth of the world; but we haven't time. We must try and do in one, two or three years what the enemy has taken many years to do.

Mine production, already at a high level, cannot be increased overnight. We need new mines which we haven't got; and any large programme requiring mine development, milling and smelting facilities would probably take years. We haven't got these years, and if we wait for them, we may be lost.

Our need is now, and the only answer is to go to those places where the material is being used and take it away. We must do this, regardless of its effect on our national economy, and, in doing so, we need the understanding and the help of men like yourselves. I heard recently of one municipality that has its warehouses stocked to the roof with copper pipe and scarce metal products of that sort. The man who piles up unnecessarily large inventories under today's conditions is not showing what, in ordinary times, might be good business judgment—he is doing a disloyal act and sabotaging the war effort.

You may ask what you as individuals can do. You can utilize existing plant and equipment to the best possible advantage. You can defer any but the most essential construction. You can rebuild old equipment instead of buying new, even although it may not be as efficient or as economical. You can put unused equipment on the market, and you can go over your inventories with a fine-toothed comb to see that they do not contain obsolete supplies and are not larger than they should be. You can go through your scrap piles to see what useable material they contain. In doing so you will probably surprise yourselves, and you can collect, segregate and dispose of every pound of scrap metal. You can, and you should, be the metals controller of your own operations, because unless the initiative comes from the top you cannot expect results.

Restrictions and curtailment must be continued. They must be made more widespread and more severe because of the scarcity of essential materials. If we cannot fight and win this war and, at the same time, carry on a normal way of life, there can be no question as to which must be sacrificed; normal life must temporarily disappear, to be picked up again as best we may after the war is over.

## THE UNIVERSITY AND THE WAR

THE wartime programme at Queen's was reviewed by Principal Wallace at a recent meeting of the National Service Advisory Committee of the University. The purpose of the meeting was to ascertain whether there were any further services that Queen's could render at this time.

The present activities of the University were surveyed by the Principal under the following headings: Military Training, Special Training, Special Services and Student War Work. He stated that nearly every one of Queen's 1600 students and many members of the staff were participating in war work under one or other of these groupings.

Men students from the ages of 18 to 25 are taking military training in the C.O.T.C., the Auxiliary Battalion or the R.C.A.F. Unit. In the last named, instruction in navigation, signalling and airplane detection is given by members of the University staff and by officers from the Norman Rogers Airport.

Special training includes radio direction finding courses, a radio course for final-year electrical and physics students, war surgery and war medicine for the two

C.O.T.C. MANOEUVRES

final years in Medicine, courses in first aid for the members of the C.O.T.C., and courses in first aid and home nursing for the women students. A Women's Voluntary Service Corps has also been carrying on, giving drill and military instruction, with some of the members taking signal and Morse code work under R.C.A.F. direction. Unfortunately, a change in army staff personnel necessi-

MACHINE GUN PRACTICE

tated the discontinuance of a women's motor transport course in which many of the girls were much interested.

Direct war services being rendered by the University itself, include special research in physics, chemistry, bacteriology, pharmacology, physiology and psychology. The work in psychology is proving particularly valuable as a means of determining the suitability of men for the various divisions of the armed forces. In addition, the extramural department is assisting the Canadian Legion in supplying educational material for soldiers, and also for specially selected internees of established British sympathies. Six of the latter are in actual attendance at the University. Particular mention was made by the Principal of specific assistance being given to the Government by individual members of the staff.

The student body, through its War Aid Commission, is constantly endeavouring to raise money for the war effort. The objective of the present term is $4000, which will be applied mainly to the purchase of Victory bonds to go into the University Men's Residence Fund. Both the Government and the University are thus helped. More than half of the students' current quota has already been raised.

The women students are working continuously — sewing and knitting in the University Red Cross room, assisting city organizations and helping at the Kingston blood clinic as technicians and donors. (In this connection, about 50 per cent of Queen's students have made blood contributions, while many others who volunteered could not be accepted.) The girls have also been assisting the Red Cross in visiting soldiers in the hospitals and in keeping their libraries supplied with books, and are rendering valuable service in many other ways. Several are taking business training during the evenings to fit them for war work.

A special course in industrial personnel work, an extension of the course in navigation to train men and officers for the mercantile marine, an intramural summer course for members of the R.C.A.F. wishing to obtain matriculation standing, and a summer course in nutrition were mentioned as possibilities whereby the University might lend further help in the war effort.

TRAINING IN FIRST AID

## FO. W. J. MacRAE, Sc. '36 KILLED IN ENGLAND

ONE of the first Queen's men to serve with the Royal Air Force in the present war, Flying Officer William John (Red) MacRae, Sc. '36, was killed in a flying accident in England early in March, 1940, according to a report which has just reached the Alumni office. No details of the accident were given at the time by the British Air Ministry.

Flying Officer MacRae, a son of Mr. and Mrs. J. J. MacRae, of Regina, Sask., was born in that city in 1913, and received his early education in Connaught School and the Regina Collegiate Institute. He attended Queen's for two years as a member of the class of Science '36 and while at the University was unusually popular, especially among the students from Western Canada.

After leaving Queen's in 1934, he worked for a short time at the Manitoba Basin Mines and in 1936 joined the Royal Air Force along with Flt. Lt. G. D. Clancy, Sc. '36, who is now a prisoner of war in Germany.

In the early days of the war "Red" MacRae took part in many of the raids over the Kiel Canal. His death was all the more tragic by reason of the fact that he was to return shortly to Canada as an instructor under the British Commonwealth Air Training Plan.

## QUEEN'S MAN KILLED OVER MEDITERRANEAN

ALBERT PERRY McLEAN, Arts '42, was killed in action on December 13 while serving as a sergeant observer in the Mediterranean area. His body was found at sea and was buried at Argostolia, near the west coast of Greece.

Perry McLean was born in Vancouver, B.C., on December 16, 1918, and entered Arts at Queen's from the high school at Grimsby, Ont., in the fall of 1938, with the intention of becoming a lawyer. At the outbreak of war he discontinued his course and joined the R.C.A.F. He was operating from the Malta base at the time of his death.

While at the University, he took a prominent part in athletics, playing junior football, boxing in the welterweight class, and participating in various track competitons.

---

## CAMP TRAINING WAIVED FOR SCIENCE STUDENTS

ACCORDING to a ruling of the Department of National Defence and the Department of National War Services, university students registered in engineering, architecture, forestry, agriculture and certain courses in Arts, including physics, chemistry, geology, mathematics and the natural sciences, may undertake work this coming summer in war industries, in essential occupations or in the advancement of their professional training in lieu of the 1942 summer military camp training.

This decision was made by the Government, under the advice of the Wartime Bureau of Technical Personnel, with a double purpose: first, to meet the demand for technical help which is so greatly needed in war and allied industries in Canada at the present time; second, to enable students in engineering and similar courses to gain the practical experience necessary to round out their theoretical training and thus hasten the development of the supply of fully qualified engineers and scientists that is also so seriously needed.

In this connection the Wartime Bureau of Technical Personnel has ascertained the requirements of essential industry throughout Canada for technical help during the coming summer, and has informed the universities of these needs. The universities in turn are relaying this information to their students.

Each student is to be supplied by his university with a form which, when completed by the employer and certified by the Wartime Bureau of Technical Personnel, will constitute a certificate of approved summer employment. The minimum time to be spent in employment in order to qualify for this certificate has been established as fourteen weeks. Any question regarding the acceptability of employment other than that specified by the Bureau, which may be searched out by the student himself, will be settled by reference to the Bureau.

The Wartime Bureau of Technical Personnel is not undertaking to find employment for students or to allocate the students; but it is prepared to guide and supplement the efforts which students, universities and employers may make to utilize the vacation period to the best possible advantage of all concerned.

---

## UNIVERSITY PURCHASES VICTORY BONDS

THE investment by the University of $235,000 in the Second Victory Loan brought Queen's holdings of War Loan issues to a total of $820,000.

Most of the money for the purchase of these bonds came from the sale or maturing of investments that had been yielding from 5 to 6 per cent. This has meant an average depletion of approximately 2½ per cent in the income from $820,000 of the University's endowment fund, representing a loss of about $20,500 in annual revenue or, in other words, a capital depreciation of some $370,000.

These figures indicate the serious problem that Queen's, and other universities that are largely dependent upon endowment income, are facing at the present time.

## THREE SPEAKERS DISCUSS MODERN CANADIAN PROBLEMS

"RELIGION AND MORALS" was the subject of the third address in this year's series of Monday-afternoon special lectures under the general heading of "Modern Canadian Problems." The speaker was Rev. J. P. R. Sclater, D.D '35, of Old St. Andrew's Church, Toronto.

Dr. Sclater laid stress on the importance to future generations of the lessons to be learned from present-day events, which were giving rise to such tremendous problems, and also on the great need for religious stock-taking by the individual. In the future, he declared, a transfer of emphasis from property to personal well-being in our life and legislation would have to take place.

Mr. B. K. Sandwell, Editor of Toronto *Saturday Night,* gave the fourth lecture, "Trends in Canadian Literature." At present, he said, a tendency towards the pessimistic view was the predominant trend, in contrast to the optimism of the nineteenth century. It was not so much material poverty as poverty of the spirit which distressed modern writers of fiction. They depicted life in a grim, sordid and pessimistic light as a result of the study of the soul of contemporary man. The only note of relief was to be found in the faith that human beings were capable of something better and in a passionate desire that it should be realized.

The present-day emphasis on marital problems was simply an expression of the opinion that marriage was among the institutions which were functioning unsatisfactorily in this industrial age. The writers felt a great emptiness and futility in the relationship of man and woman, which used to be the inspiration of all the romantic poetry of an older time.

Books of the modern novelist should not be banned from young readers, declared the speaker. The problems they expressed were for youth to examine. Contemporary literature was not merely for amusement; it had a constructive part to play in the moulding of society.

In the final lecture of the series, J. M. Macdonnell, Arts '04 LL.D. '41, eminent Canadian financier and chairman of the Board of Trustees of Queen's, spoke on the question of post-war reconstruction.

Many people believe that all thought and action should be concentrated on winng the war, and that the problem of reconstruction should be postponed until after the war is won. "I believe this to be wholly wrong," said Dr. Macdonnell. 'To refuse to consider post-war conditions is a kind of defeatism—an unwillingness to face the future. It is a part of courage not to be dismayed by the black events of the moment."

Peace might come very suddenly, said the speaker, and our problems would be overwhelming unless we were prepared to deal with them better than we did the last time. Because of the strong bond between Canada and the United States, this country was in a position "to play a very considerable part in the vast and important settlement after we have won the war." To do this, however, we must not evade our responsibilities as we did in the years after the First Great War.

---

## UNION CAFETERIA PATRONS ARE GOOD TRENCHERMEN

AN army is not the only body that marches on its stomach, if the figures recently released by the Students' Union may be taken as a guide.

During the past twelve months Queen's men eating in the cafeteria tucked away more than four tons of butter, six tons of beef, and about four tons each of chicken, ham and lamb. They also managed to find room for 4,260 dozen eggs. Every day they devoured 50 pounds of butter, 35 loaves of white bread, and 15 loaves of brown bread.

To prepare and serve this food, there is a staff of two cooks, seventeen waitresses and six part-time helpers. Meals are planned a week in advance by the dietitian.

These figures would indicate that the Union is doing its share in furthering the educational principle of a sound mind in a sound body.

## AQUATIC EXHIBITION PRESENTED BY STUDENTS

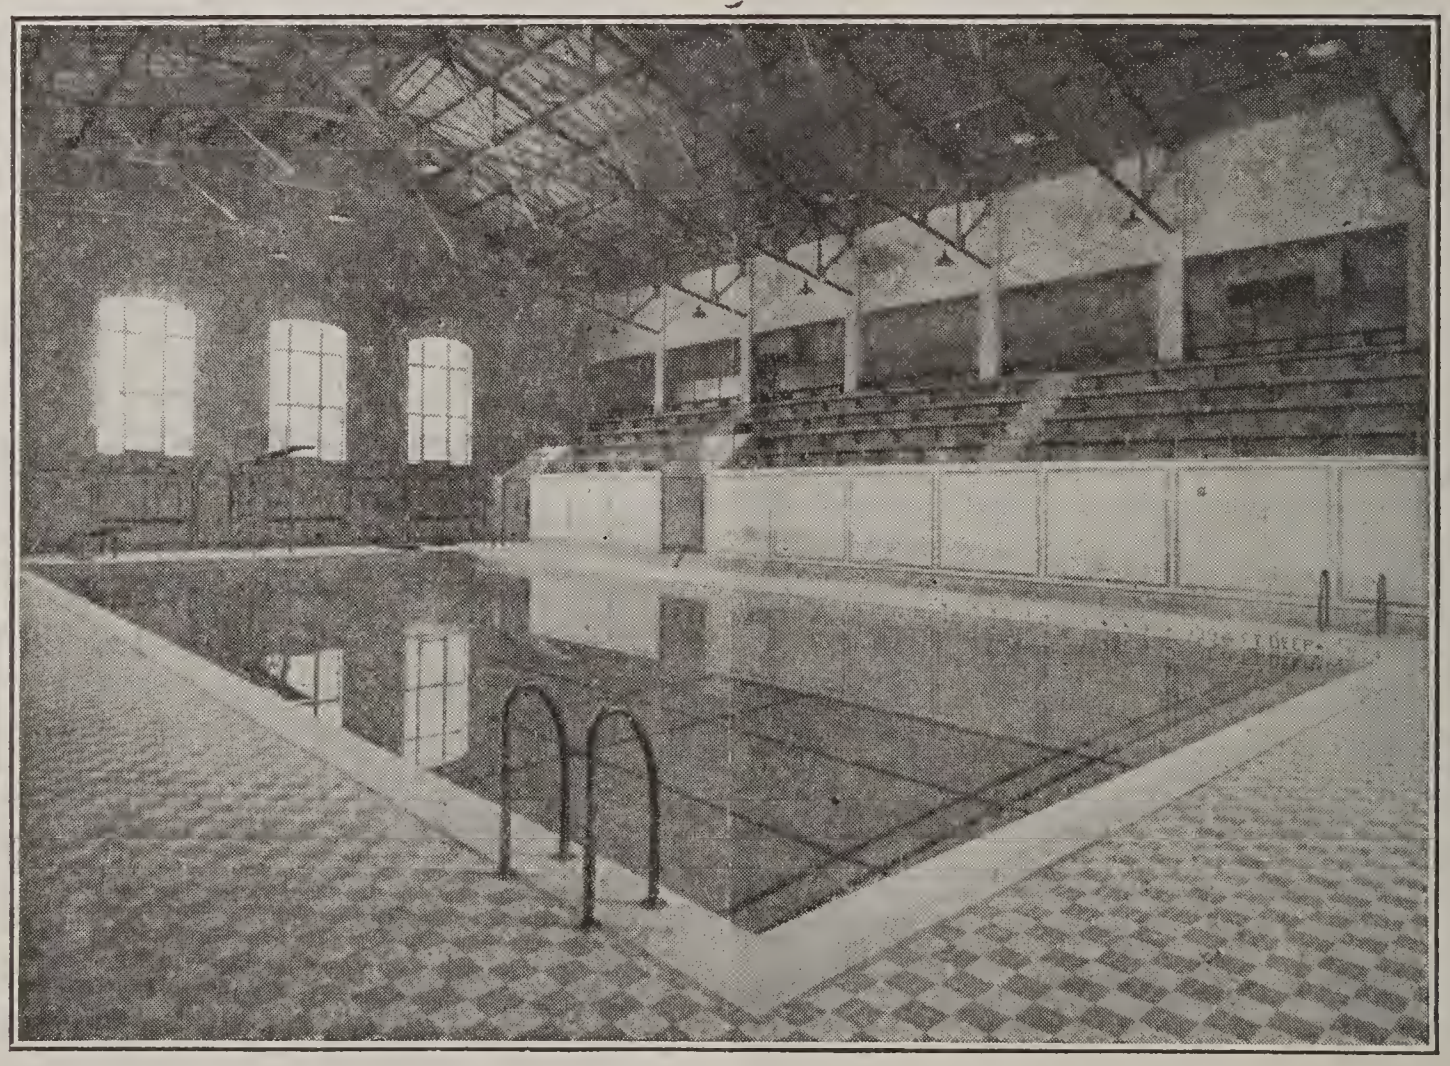

THE finest aquatic exhibition ever put on at Queen's, and probably one of the best events of its kind that has taken place in Canada, was staged by the students in the Gymnasium during the week-end of February 21.

Originally planned for Friday and Saturday evenings, the "Queen's Water Follies" had to be repeated Monday in order to accommodate the crowds that could not gain admittance for the first two performances. The show was sponsored by the Alma Mater Society for the benefit of the students' War Aid Committee, and the proceeds went towards the purchase of Victory bonds. The special committee in charge, headed by W. R. Berry, Arts '42, of Brantford, Ont., were given unstinted praise for producing an entertainment that was replete with interest from start to finish.

The north wall and platform of the pool room in the Gymnasium were arranged as a South Sea island, with palm trees, a beautiful beach, sun umbrellas and so forth, while the white-tiled pool itself was made even more attractive by under-water lighting.

The programme, which was in two sections, began with a "grand march" in which the whole cast took part. The nine acts that followed were smooth, fast moving and would have done credit to Billy Rose himself. Especially outstanding were the diving and precison-swimming exhibitions, and the ornamental specialty number put on by two co-eds. Officers of the C.O.T.C. brought the first half of the programme to a close with a demonstration of military bridge-building.

Then followed a pantomime on a Japanese attack on the tropical island. The scene opened on the beach, with white-clad sailors and grass-skirted girls basking in the sunshine. Acrobatic tumbling by the sailors and Hawaiian dancing by the girls, a fashion show and novelty numbers led up to the sensational climax of an air raid, with roaring planes, a blackout, a naval battle, which included phosphorus-painted swimmers representing the ships, and finally the dive of a flaming man-airplane from the rafters of the roof.

SCENE OF THE "WATER FOLLIES"

## BIOLOGY DEPARTMENT STORY TOLD BY PROFESSOR EARL

LITTLE is known of the teaching of biology at Queen's prior to 1860. The history of the department since that time was sketched by Professor R. O. Earl at a recent meeting of the Biology Club.

The appointment of Professor Lawson, eminent botanist and Fellow of the Royal Society, to the Medical School in 1860 brought about the first active work in biology at the University. Professor Lawson made an attempt to start a botanical garden, and a remnant of the effort can still be seen in front of the Principal's residence. Through his enthusiasm and guidance, however, came the founding of the Botanical Society of Canada.

It was not until 1880, when Professor James Fowler was added to the staff, to lecture on botany, zoology and geology, that work of a permanent nature was done. Professor Fowler was keenly interested in botany, and he was responsible for the collection of the 48,000 specimens now to be found in the Queen's herbarium.

The expansion of the department was gradual, and in 1892 the field of animal biology was placed under the supervision of Dr. A. P. Knight, who was later appointed to the biology board of the Dominion Government. His investigations proved to be of great practical value to the Canadian fishing industry.

In 1906 Dr. W. T. MacClement was placed in charge of the botanical division, and Mr. A. B. Klugh, a very able technician and photographer, was added to the staff.

On the retirement of Dr. Knight in 1917, the subjects of botany and zoology became the biology department under Dr. MacClement; and in 1924 this department, which previously had been operating in four different buildings, was reorganized and concentrated in the Old Arts Building. The addition of the greenhouse was also made at this time.

In the years 1931 and 1932, the personnel of the department was expanded by the appointment of Dr. Gleb Krotkov, to teach plant physiology, and of Dr. John Stanley (now serving with the R.C.A.F.), to cover the field of invertebrates. These appointments brought about a new phase and emphasis in the teaching of biology. Up to 1930 the course was presented mainly for the benefit of teachers, but since then an ever-growing number of students have taken the work as a preliminary to postgraduate study and research.

On the retirement of Dr. MacClement in 1936, Professor R. O. Earl was placed in charge of the department, and Mr. W. Curran was added to the staff. This appointment gave a much better balance to the teaching, as Mr. Curran had specialized in the study of fish and vertebrates.

The most recent appointment was that of Mr. Ronald W. Smith to the museum. In 1931 the Old Arts Building had been fireproofed, and in 1940 work was begun on the west wing. Here the interior was completely dismantled and made into four floors, two of which are devoted to lecture rooms and one to the animal museum. The responsibility of building up the collection and arranging the specimens was placed in the hands of Mr. Smith when he joined the staff in 1939, and the collection is now in excellent condition. Mr. Smith is also serving with the R.C.A.F. at present.

Through the passing years, emphasis has shifted from one aspect of biology to another. Dr. Earl is of the opinion that today the subject is much more thoroughly covered by the student than ever before. At present, openings for graduates in biology are rather limited. Dr. Earl predicted, however, that in the near future more practical aspects of this science will create many and varied opportunities for the trained expert.

---

## CORRECTION

THE picture which appeared on Page 41 of the February *Review* was that of the late Dr. Maurice Hutton, former Principal of University College, University of Toronto, and not that of the late Professor D. H. Marshall, one-time head of the physics department at Queen's. This unfortuante mistake occurred because of a mis-labelling of the cut in the files of the University.

# ON HIS MAJESTY'S SERVICE

AT first believed shot down in flames, Sgt.-Pilot George S. Edwards, Arts '42, of the R.C.A.F., is now definitely known to be a prisoner of war in Germany. In a letter received by his parents recently, Sergeant Edwards, who had completed most of his work in accounting at Queen's, said that he was teaching that subject to two of his fellow prisoners and was anxious to continue his own course. Arrangements were therefore made by the University to send him the necessary material, and this is now on its way. Sergeant Edwards, who cannot speak too highly of the Red Cross, states that letters, cigarettes and parcels are reaching him regularly through this agency.

* * * *

Dr. John Stanley, associate professor of biology at Queen's, has been granted leave of absence to enlist in the Royal Canadian Air Force. He will receive the rank of pilot officer and will serve in an administrative capacity. Dr. Stanley was born in London, England, and came to Canada in 1913. He attended the University of British Columbia and received his B.A. there in 1927. He then did postgraduate work at the University of Minnesota, where he obtained his M.A. and his Ph.D. In 1930 he went to Hawaii, remaining there for over a year to study insect parasites. Returning to Canada, he spent six months with the National Research Council at Ottawa, and then joined the biology staff at Queen's, where his special field has been bio-mathematics. Dr. Stanley enlisted with the Queen's C.O.T.C. in the fall of 1940 and was commissioned as a lieutenant in the reserve force in the fall of 1941. Early in November of the same year he applied for admission to the R.C.A.F.

* * * *

Wing Commander N. W. Timmerman, D.S.O., D.F.C., Sc. '36, of the R.C.A.F., led a Canadan squadron in the aerial attack on Nazi battleships in the Straits of Dover on February 12.

No information about Pilot Officer Branston W. Martin, Com. '34, who was attached to the R.A.F. in Singapore at the time the base fell, has yet been received. Pilot Officer Martin joined the R.C.A.F. in November, 1940, and was sent to England in January, 1941, where he was attached to the R.A.F. He had been stationed at Singapore since September, 1941. Mrs. Martin (Doris Pound), Arts '34, is living at her home, 154 Lower Albert St., Kingston.

* * * *

Major Colin Campbell, Sc. '22, of the Royal Canadian Engineers, former minister of public works in the Ontario Government, and now in charge of tunnelling work at Gibraltar, broadcast a message to Canada over C.B.C. on February 24 in connection with the second Victory Loan.

* * * *

Below is the twenty-fourth in the series of monthly lists of those who have joined some branch of the fighting services:

Royal Canadian Air Force—FO. William Amodeo, Med. '40, LAC. Douglas Fry, Com. '40, Sgt-Plot Robert Gamble, Arts '43, Sgt.-Pilot V. A. Haw, Sc. '41, PO. J. A. Hill, Sc. '38, PO. C. G. Silver, Com. '40, Sgt.-Pilot P. L. Stevenson, Arts '43, E. P. Sutherland, Med. '44, PO. J. R. Bridger, Sc. '32.

Royal Canadian Army Medical Corps —Capt. W. R. I. Slack, Med. '34.

Royal Army Medical Corps — Capt. Melville Swartz, Med. '37 (transferred from the R.C.A.M.C.).

Royal Canadian Naval Volunteer Reserve—Surgeon-Lt. S. R. Arber, Med. '40, Sub-Lt. J. M. Dowler, Com. '39, Surgeon-Lt. M. B. George, Med. '33, Sub-Lt. C. E. Lingren, Arts '36, Sub-Lt. Finlay McLean, Arts '42, Sub-Lt. Ian McPhee, Arts '43, Sub-Lt. Jack Warren, Arts '41, Surgeon-Lt. W. J. G. Breckenridge, Med. '38.

Royal Canadian Artillery—Lieut. C. R. Baker, Sc. '43, Lieut. B. A. Clarke, Arts

'42, Lieut. D. M. Cornett, Arts '41 (incorrectly listed in January "Review" as D. M. Corbett).

Royal Canadian Engineers—Lieut. E. H. Capstick, Sc. '33, Lieut. D. H. McGuire, Sc. '40, Lieut. E. W. McMahon, Arts '40, Lieut. J. G. Pierce, Sc. '41, Lieut. J. H. Shepherd, Sc. '36, Lieut. E. M. Stewart, Sc. '42, Lieut. W. M. Rice, Sc. '30.

Royal Canadian Army Service Corps—Lieut. G. P. Eligh, Com. '39, Lieut. C. E. Walker, Com. '39.

Royal Canadian Ordnance Corps—Lieut. G. H. Martin, Sc. '40, Lieut. J. E. Martin, Com. '44.

Canadian Forestry Corps—Lieut. A. E. Morton, Com. '30.

Canadian Chaplain Service — Hon. Capt. J. Y. MacKinnon, Arts '12, Theo. 15 (Chaplain of First Hussars, London, Ont.).

## REVOLUTION POSSIBLE STATES A.M.S. SPEAKER

"THE prospect of a revolution in Canada after the war is a distinct possibility unless this country squarely faces its economic and other problems." This was the opinion expressed by Dr. Watson Kirkconnell, Arts '16, professor of English literature at McMaster University and one of Canada's best-known authorities on Canadian racial matters, in the second of the annual Alma Mater Society addresses, delivered in Grant Hall early in February.

The peaceful haven of Queen's was no longer typical of the variety and complexity of Canadian life, stated the speaker. People of Anglo-Saxon origin made up less than half the population of Canada, while in contrast to this only 38 per cent of the children were of Anglo-Saxon parentage. Thus the mathematical possibility arose that within one century less than 20 per cent of the people of Canada would be Anglo-Saxon. This fact was not realized in Canada, particularly in the light of the political issues that would have to be faced in the years ahead.

"So far as the West is concerned, the differences of racial origin among the people need cause little concern, for their quality of mind and inherent idealism parallel our own," said Professor Kirkconnell. "Experience of the last two years shows that the new Canadians are playing their part in our national life." Speaking of the situation in his own university, he stated that, although 75 per cent of the students were of Anglo-Saxon origin, they obtained only two out of twelve proficiency scholarships.

The potential outbreak could come either from the extreme right or the extreme left. "There has been a systematic attempt," the speaker declared, "over a period of years to build up a proletarian revolution—to attempt a putsch." That fact could be documented easily by press reports. Even now this spirit among extreme leftists in Canada was apparent.

## QUEEN'S GRADUATES HEAD WINNIPEG CANADIAN CLUB -

C. E. JOSLYN, Sc. '15, was elected president, and J. E. S. Dunlop, Arts '04, was chosen vice-president of the Winnipeg Canadian Club at its recent annual meeting.

Mr. Joslyn has been on the staff of the Hudson's Bay Company at Winnipeg since 1919. For the past twelve years he has been manager of its land department.

Mr. Dunlop has been associated with teaching and educational affairs in Manitoba since graduation from Queen's, and has occupied numerous important posts. He has been a school inspector for the province since 1911.

## SEVEN MEMBERS OF STAFF SPEAK OVER CFRC

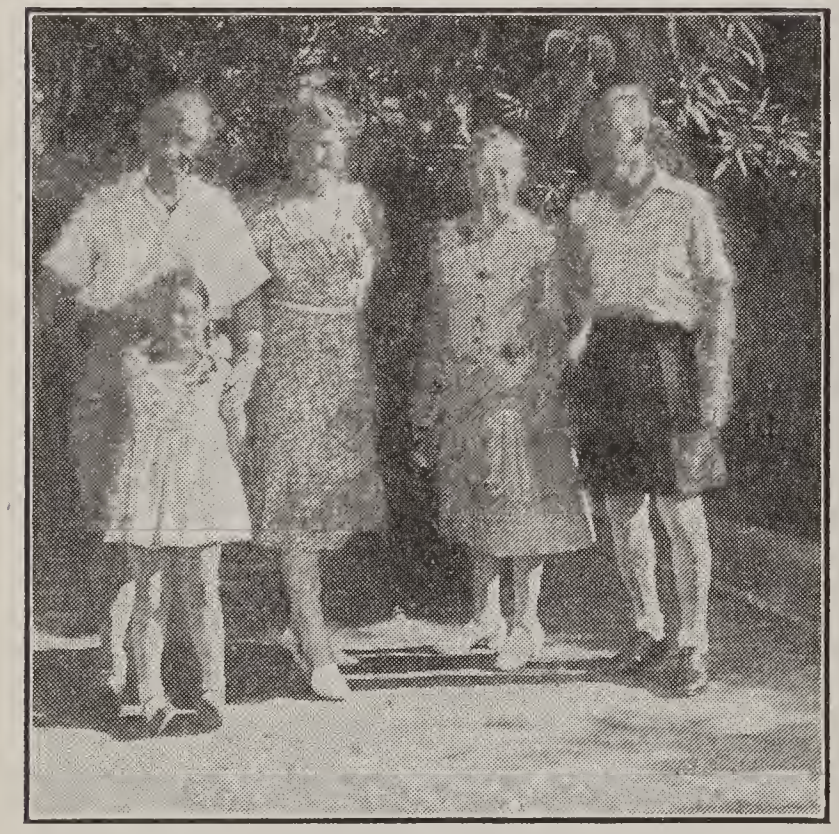

ADDRESSES on the following subjects were given by members of the University staff over Queen's radio station CFRC during February: "Wages and Salary Control," Prof. J. C. Cameron; "Mental Health," Dr. C. H. McCuaig; "The Drama of Ibsen in Relation to Social Problems" and "Johnson's Boswell," Mr. E. C. Kyte; "Food in Wartime," Dr. G. W. Mylks, Jr.; "Mechanical Engineering and the War," Mr. W. A. Wolfe; "Nutrition," Dr. G. S. Melvin; "Two Canadian Craftsmen," Miss Jean Royce.

## ALUMNI IN INDIA SEND GREETINGS

OF the many congratulatory messages received by the University on the occasion of her hundredth anniversary, none was more welcome than the following cable from Queen's alumni in India:

"GREETINGS FROM INDIA. LONG LIVE QUEEN'S! — FRED CARSON, '04 AND '23. VERA FERRIER SULLY, '21, AND ELMO SULLY, '23. PAUL SYKES, '23."

Fred Carson, now Sir Frederick, was for many years connected with the North Western Railway in India and in 1938 was made its general manager. In recognition of his valuable services to the government of India he was knighted in 1941. For some time past he has been in charge of army transportation in Iraq and was in India on leave when the cablegram was sent to Queen's. Unfortunately, Sir Frederick Carson was not present when the picture reproduced below was taken.

ELMO SULLY, MRS. SULLY AND DAUGHTER, MRS. SYKES, PAUL SYKES

Paul Sykes, one of the first graduates in Commerce at Queen's, joined the Department of Trade and Commerce in 1927 as assistant Canadian trade commissioner at Auckland, New Zealand. In 1929 he was appointed Canadian trade commissioner at Hong Kong. He was later stationed at Tientsin, China; Dairen, Manchuria; and Hamburg, Germany. In 1937 he went to India as trade commissioner at Calcutta. He has recently been in Bombay. His wife was formerly Jean Duff of Kingston.

E. A. Sully joined the Ford Motor Company of Canada at Windsor, Ont., in 1928. He was transferred to the Winnipeg branch in 1929, where he was assistant superintendent for a short while. In 1930 he went to India as sales manager for the Ford Motor Company of India and has been in Bombay since that time. His wife, formerly Vera Ferrier, taught in Ottawa for several years before her marriage.

## GLEE CLUB PRESENTS "THE PIRATES OF PENZANCE"

ON February 2 and 3, after an absence of five years, Gilbert and Sullivan returned to Queen's, with very gratifying success. Before exceedingly appreciative audiences, an all-student cast performed *The Pirates of Penzance* in the K.C.V.I. auditorium, responding to five curtain calls on the second night. On Thursday of the following week, the Queen's Glee Club journeyed to the Vimy Barracks, where they were accorded a further enthusiastic reception both during and after the performance.

Introducing an innovation of their own into the operetta, the chorus of the Major-General's daughters produced a mildly startling effect by appearing in modern costume. However, their singing was so marked by lucidity and sprightliness, as, indeed, were all the choruses, that the departure did not seem anachronistic for very long.

Singing the rôle of Mabel, Marjorie Peebles, of Kemptville, Ont., displayed both dramatic and vocal talent. Douglas Gray, of Brockville, playing Pirate Apprentice, sang the tuneful melodies of his part with grace and ease. Maurice Park, of Barrie, president of the Glee Club, acted the semi-comic role of Major-General Stanley with the right shades of mock-heroic dignity and, in addition, displayed great rhetorical virtuosity in the Major-General's difficult song. The piratical, intriguing maid of all work was acted vigorously and well by Marion

Trott, of Somerset, Bermuda, while Mary Macleod, of Alexandria, Ont., Mary Carmichael, of Ottawa, and Naomi Bristol, of Toronto, had leading roles as General Stanley's daughters. The part of the Pirate Chief was capably taken by Harold (Knute) Williamson, of Belleville, who possesses one of the finest voices on the campus, and that of the Lieutenant by Wyatt MacLean, of Brockville, who provided excellent comedy as well as good singing. Probably the best performance was that of Edward Somppi, of Port Arthur, who combined a most excellent voice with the best acting of the operetta to make his part of the Sergeant of Police the hit of the show; he received magnificent vocal and comic support from his chorus of police, who acted their parts with great exuberance and gusto.

The operetta was produced by Dr. William Angus, director of dramatics, and conducted by Dr. F. L. Harrison, professor of music. Mrs. G. B. Reed acted as director of the production. Professor André Biéler and Mrs. Biéler designed the sets, and Mrs. William Angus was in charge of make-up.

## THE BOOKSHELF

*The Carnegie Fund enables the Douglas Library to purchase books that no one department of the University might consider to be within its scope. Some of the volumes so purchased are noted below. All these, though primarily intended for undergraduate students, are at the disposal of alumni who wish to read them, and the Librarian will be pleased to forward any that may be desired.*

ANDERSON, SHERWOOD, et al — THE INTENT OF THE ARTIST. Four experts in as many professions discuss their respective callings and the basic problems of each of them.

AUDEN, W. H. — THE DOUBLE MAN. Lloyd Frankenberg believes the *Double Man* will have a greater effect on contemporary poetry than that of any poem since *The Waste Land*.

BENSON, E. F. — FINAL EDITION. The memories of an English novelist (author of *Dodo* and other famous works) who died last year.

BROOKS, VAN WYCK — NEW ENGLAND; INDIAN SUMMER. A sequel to *The Flowering of New England*: literary memories of the great American writers who lived in New England at the end of the 19th century.

BUCHAN, JOHN — SICK HEART RIVER. A fine tale, almost the last work of its author, concerning Northern Canada and the hunt for a demented man.

CLAPESATTLE, HELEN — THE DOCTORS MAYO. How the great Mayo clinic at Rochester was born and built up.

DODD, W. E. — AMBASSADOR DODD'S DIARY, 1933-1938. The Ambassador from the United States to Germany was very early aware of Nazi intentions and preparations, but could find no responsible person to accept his views.

FARRELL, J. T. — FATHER AND SON. A novel of a modern American city and the relations between two men.

GAULLE, GENERAL CHARLES DE — ARMY OF THE FUTURE. This is the book, written by a Frenchman, upon which the German strategy of an all-out attack is based.

HAY, IAN — THE BATTLE OF FLANDERS, 1940. In little more than a pamphlet Ian Hay has packed the outlines of a remarkable story. It is evident that the British army did not fail in any respect either of strategy, resource or courage: the only failure was in their allies.

JONES, G. P. — TWO SURVIVED. A wonderful and true story of the voyage of two men in an open boat after their ship had been torpedoed.

MARTIN DU GARD, R. — THE THIBAULTS. This is the novel of a genera-

tion, that which encountered and survived the last war. It gives us social France and helps us to understand the causes of collapse.

MAUGHAM, W. S. (ed.) — TELLERS OF TALES. A superb anthology of one hundred short stories selected by Mr. Maugham. The only exception that could be taken to it is that it contains no story of the editor.

MICHIE, A. A. — THEIR FINEST HOUR. Actual stories from British men of all classes, showing how the German onslaught on England in 1940 was met and defeated.

MURPHY, J. T. — RUSSIA ON THE MARCH. Will be required reading for all who wish to know the secret of Russia's magnficent and successful struggle.

PHELAN, J. — IRELAND; ATLANTIC GATEWAY. The author feels that the United States could save Eire's soul and many British lives by virtually becoming the foster-parent for that distressful country.

ROBERTSON, E. A. — THAMES PORTRAIT. A beautiful and beautifully illustrated account of a great English river from its source to the sea.

SHIRER, WILLIAM —BERLIN DIARY. A remarkable and authoritative document by an American war correspondent from the beginning of the present war through 1940. A tale of enormous preparations, enormous power, and opportunity lost.

TAYLOR, DEEMS (ed.) — TREASURY OF GILBERT AND SULLIVAN. Some of the most tuneful music of the Savoy operas, with charming and appropriate illustrations.

UTTLEY MRS. A. — THE COUNTRY CHILD. This may be "escapist" literature, but to all who are interested in children it brings pictures that are unforgettable.

VALTIN, J. — OUT OF THE NIGHT. In Germany, Russia, England (from which he was politely ejected) and the United States, this man moved, sowing dissension, even in the ranks of the "comrades"; acting as a spy, suffering and enduring.

WALLACE, R. C. (ed.) — SOME GREAT MEN OF QUEEN'S. Grant and Grant's men: brief biographies of some of the "Makers".

WAVELL, SIR ARCHIBALD — ALLENBY. The biography of a great General by one who is also a serving soldier.

---

## LIFE OF SERVICE ENDS WITH DEATH OF MISS ANN BAILLIE

ALUMNI of Queen's, particularly Medical graduates of recent years, will learn with regret of the death at the Kingston General Hospital on February 5 of Miss Ann Baillie, who has been superintendent of nurses at the Hospital since 1924. She had been in poor health for several months, but carried on her duties until shortly before her death.

Although not an alumnus of Queen's, Miss Baillie had a close association with the University through her work at the Hospital where she came in contact with most of the Medical students and administered to many hundreds of others at times of illness. She was held in the highest esteem by all who knew her. She was a Nova Scotian by birth and graduated wth her nursing diploma from the K.G.H. in 1911. In her eighteen years of supervision at the Hospital, a total of 643 nurses trained under her guidance.

During the first Great War, Miss Baillie served for four years in France and Egypt, and was mentioned in dispatches for bravery and devotion to duty. She was honoured with the Royal Red Cross decoration in recognition of her outstanding service.

---

## "JIMMY" BEWS IS ILL

ONE of the best-known members of the University, beloved alike by staff and students, is temporarily absent from the campus. Mr. James G. Bews, for thirty years physical instructor at Queen's and latterly superintendent of buildings and grounds, is confined to his bed for at least a month with a heart condition.

Generations of Queens alumni, every one of whom has known "Jimmy" as guide, philosopher and friend, will join in wishing him a speedy and complete recovery.

# STUDENT ACTIVITIES

IN a questionnaire recently circulated by the Aesculapian Society, 64% of the Medical students went on record as being in favour of an eleven-month medical term at Queen's, 9% were opposed to the suggested change, and 27% were undecided. The students estimated that a loan fund of approximately $60,000 a year would have to be established to enable them to finance themselves on the eleven-month basis. The speed-up in medical training has already been instituted at a few Canadian universities and at numerous American ones.

* * * *

Mrs. Dorise Nielson, M.P. for North Battleford, Sask., spoke to the Social Problems Club on February 10. Her address, entitled "Canadian Problems," dealt with the questions of conscription and the control of industry.

* * * *

J. M. Macdonnell, Arts '04, LL.D. '41, president of the National Trust Company, and chairman of the Board of Trustees of the University, was guest speaker at the banquet of the International Relations Club in Grant Hall on February 16. Dr. Macdonnell outlined the heavy responsibilities that the university student must bear in serving the state in war time.

* * * *

The Alma Mater Society in collaboration with undergraduate organizations of other Canadian universities, recently sponsored a drive to raise funds for the students of Mount Allison University, whose residence was burned during the winter. The money will be used to replace books and personal belongings.

* * * *

Dr. K. C. Evans, dean of Divinity at Trinity College, Toronto, conducted the first of the February University church services in Grant Hall. He spoke on "The Knowledge of God." The second service of the month was conducted by Rabbi B. Steidel, director of the Hillel Foundation, whose sermon was entitled "Religion — Democracy's Strongest Front."

* * * *

Early in February the co-eds held an open house in Grant Hall for the men of the R.C.A.F. who are taking the radio direction finding course at Queen's. In return, the unit entertained the girls later in the month. Dancing and refreshments, with the added treat of songs by the R.C.A.F. quartet, made the evening very enjoyable.

* * * *

W. C. Miller, Sc. '17, city engineer and treasurer of St. Thomas, Ont., recently addressed a meeting of the Engineering Society on "Engineering and Engineers."

* * * *

The International Student Service held a tag day early in February to raise funds to provide students now in enemy prison and internment camps with books and tuition.

* * * *

The Queen's Debating Union in its final contest of the year on February 25, lost to Loyola College when the subject was: "Resolved that the recommendations of the Rowell-Sirois Commission be adopted in Canada." Queen's upheld the affirmative. Queen's men previously lost by a small margin in a debate with McGill when the subject was "Resolved that war can be eliminated in our present state of civilization." Varsity women debaters defeated Levana in an intercollegiate meet during February on the subject "Resolved that this house approves of propaganda as a tool of Government." The Queen's girls upheld the affirmative.

* * * *

Representatives of six Ontario universities recently presented the Ontario Department of Education with a petition signed by 6600 students, urging the Government to establish a series of university scholarships under the Federal Youth Training Act.

* * * *

As the Gymnasium was not available, Grant Hall was the scene of this year's Science "Formal," on February 13. Al-

though the no-decoration rule for Grant Hall precluded the elaborate effects that have regularly characterized the Science at-homes, the students were free to display their initiative in the platform arrangements, with very satisfactory results. The affair was succcessful in every way.

* * * *

The Ottawa correspondent of the *New York Times,* Mr. Percy J. Phillips, was guest speaker at the annual banquet of the Arts Society, held in Grant Hall on the evening of February 28. Mr. Phillips, who has been a newspaper man for thirty years and who was in Paris at the fall of France, spoke on foreign affairs and the developments that had led up to the war.

* * * *

Mrs. H. F. H. Hertzberg, Commissioner of Girl Guides for Ontario, spoke to the Levana Society recently on the subject of "Guiding," in which she outlined the aims and success of the movement.

In the realm of athletics. . . . Science '45 won the intramural swimming meet, with Science '43 in second position. . . . Science '43 took top position in the boxing and wrestling assault, in which there was a record entry list. . . . The ski meet went to Science '44, when Arts '45 failed to place their fifth man in the downhill race. . . . In the gymnastic meet, D. A. Tetu, Sc. '42, of Ottawa, duplicated his 1940 victory, to win the grand aggregate. . . . In basketball, the Queen's team set a new record in the junior E.O.B.A., going through six regular contests and as many exhibition games without a defeat. . . . The intermediate basketball trophy was won by the Kingston Combines, of which some Queen's students were members. The regular Queen's team placed second in the final standing. . . . Science emerged victorious in the interfaculty hockey and basketball leagues, beating Medicine 3-0 in hockey, and Arts 30-23 in the final basketball fixture.

## Montreal

MR. SVEN N. OFTEDAL, Royal Norwegian press representative in Canada, was guest speaker at the third monthly meeting of the Montreal branch, held in the Ritz Carlton Hotel, on February 24. President G. R. Maybee, Sc. '25, Arts '27, was in the chair.

Mr. Oftedal was formerly editor of the Stavenger *Ostenblat,* and had held this position for one year under Nazi rule until he was forced to leave Norway in April, 1941. He had been too sympathetic towards the British. Speaking on how "Norway Fights On," he outlined the aid that the Royal Norwegian Navy was giving to the Allies. He also related some of his personal experiences under the Nazis. The discussion that followed Mr. Oftedal's talk indicated the keen interest of the audience. He was introduced by D. C. MacDonald, Arts '38, and thanked by the president.

The chairman of the branch's endowment committee, J. Knox MacLachlan, Arts '16, informed the gathering that so far the results of the Montreal campaign had been very encouraging.

## Toronto

ON February 21, Toronto alumnae entertained at a coffee party at the Granite Club in hour of Mrs. F. C. Casselman (Cora Watt), Arts '12, M.P. for Edmonton East. It was a delightful opportunity for friends of both University and Kingston Collegiate Institute days to renew acquaintance with Mrs. Casselman, and to hear her speak briefly about "Alberta." Miss Dorothy Wilson, a former classmate, thanked Mrs. Casselman for her interesting talk.

Miss Ferna Halliday, Arts '16, opened her home for a Valentine tea on February 14, in aid of the War Fund. Over $35.00 was realized.

THE MONTREAL BRANCH
will present
the MONTREAL MEDAL
for 1942
to
"JIMMY" BEWS
On Wednesday, April 22,
at the Ritz Carlton Hotel

## Births

**Adair**—At the Private Patients' Pavilion, Toronto General Hospital, on Febrary 14, to T. H. Adair, Sc. '31, and Mrs. Adair, Welland, Ont., a daughter.

**Allison**—At Syracuse Memorial Hospital, Syracuse, N.Y., on December 19, to Dr. William E. Allison, Med. '38, and Mrs. Allison, a son (David Brasie),

**Basserman**—At St. Michael's Hospital, Toronto, on February 28, to R. R. Basserman, Sc. '31, and Mrs. Basserman (Marie Cummins), Arts '29, of Malartic, Que., a son.

**Bruce**—On February 22, to C. G. Bruce, Sc. '38, and Mrs. Bruce (Jessie Bailey), Arts '34, of Central Patricia, Ont., a son (Geoffrey Mark).

**Cain**—At the Kingston General Hospital, on February 10, to Mr. D. W. Cain and Mrs. Cain (Elizabeth Day), Arts '38, a daughter.

**Cleland**—At the Private Patients' Pavilion, Toronto General Hospital, on February 16, to Dr. C. A. Cleland, Med. '30, and Mrs. Cleland (Marion Ferguson), Arts '28, a son (Douglas Ferguson).

**Crummy**—On July 11, 1941, at the Grace Maternity Hospital, St. John's, Nfld., to Dr. A. S. Crummy, Med. '34, and Mrs. Crummy, a daughter (Marilyn).

**Fowell**—At the Women's College Hospital, Toronto, on February 13, to Mr. J. E. Fowell and Mrs. Fowell (Margaret Groves), Arts '34, a son (John Robert Donald).

**Keith**—At the Kingston General Hospital, on March 1, to Dr. M. L. Keith, Sc. '36, and Mrs. Keith, a son (David Clayton).

**Kidd**—At St. Joseph's Hospital, Toronto, on January 29, to Karl Kidd, Arts '25, and Mrs. Kidd, a daughter.

**Leishman**—On February 15, at the Women's College Hospital, Toronto, to M. A. Leishman, Sc. '35, and Mrs. Leishman (Laura Doherty), Arts '33, a son (Roderick James Wallace).

**Little**—At Normetal, Que., recently, to J. A. Little, Sc. '27, and Mrs. Little, a daughter (Mary-Jo).

**McLaughlin**—On March 6, at the Private Patients' Pavilion, Toronto General Hospital, to W. E. McLaughlin, Arts '36, and Mrs. McLaughlin, a son.

**McLennan**—At the Ross Memorial Hospital, Lindsay, Ont., on February 25, to Dr. Trevor M. McLennan, Med. '32, and Mrs. McLennan (Alwilda Martin), Arts '29, of Sunderland, Ont., a son.

**Megill**—At the Ottawa Civic Hospital, on February 27, to Lt.-Col. W. J. Megill, Sc. '32, and Mrs. Megill (Doris Kent), Arts '32, a son.

**Moore**—At the Private Patients' Pavilion, Toronto General Hospital, on February 14, to Allan A. Moore, Arts '33, and Mrs. Moore, a daughter.

**Robinson**—At the Mount Hamilton Hospital, Hamilton, Ont., on February 3, to Dr. H. C. Robinson, Med. '30, and Mrs. Robinson, a daughter.

**Rogers**—At the Memorial Hospital, Niagara Falls, N.Y., on February 23, to Dr. A. O. Rogers, Arts '29, and Mrs. Rogers, of Lewiston, N.Y., a son (Arthur James).

**Simpson**—At the Private Patients' Pavilion, Toronto General Hospital, on February 20, to Theodore Simpson, Com. '32, and Mrs. Simpson, a son (John Theodore).

**Soles**—At Jeffery Hale's Hospital, Quebec City, on February 11, to W. E. Soles, Sc. '35, and Mrs. Soles, a son.

**Stoddart**—At the Ottawa Civic Hospital, on February 12, to Dr. T. G. Stoddart, Med. '34, and Mrs. Stoddart, a son.

**Thoms**—At the Kingston General Hospital, on February 7, to Capt. A. E. Thoms, Med. '36, R.C.A.M.C., and Mrs. Thoms, a daughter.

**Tobin**—At the Ideal Hospital, Endicott, N.Y., on March 6, to Dr. H. L. Tobin, Med. '28, and Mrs. Tobin (Mary Keenan), Arts '26, a daughter (Jane Elizabeth).

**Weir**—At St. Michael's Hospital, Toronto, on February 19, to J. T. Weir, Arts '35, and Mrs. Weir, a daughter.

**White** — At the Homeopathic Hospital, Montreal, on February 16, to F. L. White, Sc. '33, ad Mrs. White, a daughter (Elizabeth Anne).

**Whyte**—At the Private Patients' Pavilion, Toronto General Hospital, on February 21, to Squadron Leader J. C. Whyte, R.C.A.F., Med. '30, and Mrs. Whyte, a son (Jeffrey Andrew).

## Marriages

**Alford**—In Dominion United Church, Ottawa, on February 14, Mary Elizabeth Sims to William Douglas Alford, Sc. '41. They are living in Montreal. David Seymour, Sc. '42, was best man.

**Asselstine**—In the First United Church, St. Satharines, Ont., on December 30, 1941, Grace Mary Asselstine, Arts '39, daughter of Mrs. Asselstine and the late Mr. Oliver Asselstine, Arts '06, to Leonard Gordon Newell, of Springfield, Ont. Ruth Sherman, Arts '39, of Quebec City, was bridesmaid.

**Booth-Grindlay**—On February 7, in First United Church, Ottawa, Mary Margaret Grindlay, Arts '40, to John Carleton Booth, Arts '36. They are living in Ottawa.

**Fawley**—On October 27, 1941, Barbara Holmes, of Scunthorpe, Lincolnshire, England, to Flying Officer A. P. Fawley, Sc.

'37, who is now with the operational Australian squadron, flying in the middle east.

**McDiarmid**—In Halifax, N.S., on February 16, Patricia Waring, of Toronto, to Pilot Officer Athol P. McDiarmid, Com. '38, of the R.A.F.

**MacDonald**—On July 3, 1941, in the chapel of St. Paul's Cathedral, Toronto, Ruth Lenore MacDonald, Arts '31, to Mr. J. L. Dolley. They are living at 32 Garnock Ave., Toronto.

**Occomore**—On December 20, 1941, Ethel Bryant, of Guelph, Ont., to Harry E. Occomore, Arts '41. They are living at 21 Poplar Plains Road, Toronto.

**Simpson**—In St. Peter's Church, Town of Mount Royal, Quebec, during February, Audrey Mabel Dickerson to Lieutenant Robert Edward Simpson, Sc. '40, of the R.C.O.C.

## Deaths

**Anglin**—The death of Francis Robert Anglin, Arts '92, occurred in the Kingston General Hospital on Monday, February 9, after an illness of two weeks. Born in Kingston in 1871, Mr. Anglin entered Queen's from the Kingston Collegiate Institute with the class of '92. He graduated with his B.A. degree in 1895, taking honours in French, German and Latin. He then joined the long-established lumber firm of his father, Messrs. S. Anglin and Company, Limited, and eventually became its president. He was a lifelong member of Sydenham Street United Church, Kingston, and an elder for many years. He was a member of the Kingston Board of Education for eighteen years and its chairman for one year, and was a charter member of the Kingston Kiwanis Club. He was also an active Y. M. C. A. worker and served as a director of the Kingston institution. Predeceased by his wife, the former Mary Baker, sixteen months ago, he is survived by two sons, Donald G. Anglin, of Kingston, and Arthur B. Anglin, Sc. '33, of Toronto; two daughters, Mrs. John L. Davidson (Helen), Arts '26, of Toronto, and Marion P. Anglin, Arts '28, of Kingston; one brother, C. S. Anglin, Arts '92, of Kingston; five sisters, two of whom are Mrs. A. E. Knapp, Arts '00, of Kingston, and Mrs. H. D. McQuaig, Arts '07, of Gananoque, and two grandchildren.

**Breuls**—At the venerable age of eighty-nine years, fifty of which had been spent in the teaching profession, Ira D. Bruels, B.A. '94, died in Toronto on February 18. Mr. Breuls was born in Markham, Ont., in 1852, and took extramural work at Queen's between 1888 and 1894. He taught in a number of Ontario schools, was principal of the high school at Port Hope and later at North Bay, and then served as school inspector in Renfrew County for fifteen years. He retired in 1928 and took up residence in Toronto. Surviving are his widow, two sons and a daughter.

**Byers** — One of Montreal's best-known contractors, Archibald Fullerton Byers, Arts '99, died at the Royal Victoria Hospital in that city on February 9. He had been in failing health for some months. He was president of the A. F. Byers and Company, Limited, general contractors, and of the Aerocrete Construction Company, Limited, both of Montreal. For five years prior to the formation of his own firm in 1913, he was associated in the construction business with the late J. P. Anglin. Mr. Byers was born in Gananoque in 1875, attended public and high schools there, spent one year in Arts at Queen's, and then entered McGill, where he graduated in 1900 with his B.Sc. degree. He returned to Queen's for a further year's work in Arts in 1907. A keen sportsman, he was consultant to the Quebec fish and game department and was author of a book on the natural history of the Quebec trout. He also served as mayor of Hampstead, Que. In addition to his wife, he is survived by three sons, a daughter and three brothers.

A. F. BYERS

**Danby**—Frederick William Danby, Arts '11, principal of the Kingston Collegiate and Vocational Institute for the past thirteen years and onetime minister of the Methodist Church, died suddenly on February 23 in the Kingston General Hospital. Born at Varneigh, Ont., fifty-nine years ago, Mr. Danby received his primary education in Ottawa and his secondary education at Kemptville, Ont. He then entered McGill University, studying in Arts and Theology. He was ordained into the Methodist ministry and for a period of eight years served pastorates in several Ontario centres. After graduating from Queen's in 1911 with his B.A. degree, he started his educational career as principal of the school at Richmond, Ont. He became supervising principal of public schools in Smiths Falls, Ont., in 1914, a post he held for four years. In 1918 he received an appointment to the Ottawa Technical School, where he was head of the mathematics department for eleven years. From there he came to Kingston. In addition to his active interest in the Kingston Rotary Club, of which he was a past president, he was a past master of Ancient St. John's Lodge, A.F. & A.M., president of the Boy Scouts Association, and president of the Y.M.C.A. Hi-Y Club. He was a prominent member of the Sydenham Street United Church and was on the board of stewards. His life was one of service to the community, exemplifying citizenship in its truest sense. He is survived by his widow, two

sons, one of whom is Surgeon Lieut. Charles Danby, R.C.N.V.R., Med. '40, now at sea, two daughters, two brothers and four sisters.

**Day**—After an extended illness, Alfred Ernest Day, K.C., Arts '95, passed away at his home in Kingston on February 12. Mr. Day was born in the Township of Kingston sixty-six years ago and entered Queen's from the Kingston Collegiate Institute. He received his B.A. in 1895 and his M.A. in 1896, having specialized in languages. He then attended the Ontario Normal College and taught for several years before entering Osgoode Hall. He was called to the bar in 1912 and immediately began practice in Kingston. He was a member of the legal firm of Nickle, Farrell and Day until 1923, when he became senior partner in the firm of Day, Revelle and Rankin. In 1936 he entered partnership with D. J. Rankin, under the name of Day and Rankin. In every case his partners were other alumni of Queen's. He was held in high regard throughout the legal profession. He also had many other interests and was a member of numerous organizations. These included the Royal Edward Lodge, A.F. and A.M., of which he was a past master; the Orange Lodge, No. 577; the Kingston Conservative Association, of which he was vice-president at the time of his death; the Queen's University Council, of which he had been a member for many years; the Law Society of Upper Canada; the Frontenac Law Association; and the Canadian Bar Association. He was also past president of the Masonic Past Masters Association. He was an elder of Sydenham Street United Church, Kingston. Surviving are his widow, and two step-children. He was predeceased by a sister and two brothers—Dr. H. E. Day, Med. '02, who died some years ago, and C. W. Day, Arts '11, who was killed in the First Great War.

**Douglas**—Rev. J. H. Douglas, Theol. '02, died suddenly in Cookstown, Ont., on February 8, at the age of sixty-nine. Born at Hornby, Ont., the late Dr. Douglas attended Albert College in Belleville before coming to Queen's in 1899. His first appointment after leaving the University was at Lavant Station, north of Kingston, from which he ministered to the missions in the surrounding area. He then spent several years in Western Canada, and later moved to Prince Edward Island. He received an appointment to Deseronto, Ont., four years ago and went from there to the Cookstown parish only last October. Surviving are his widow, a daughter and a son.

**Flower**—A member of the teaching profession for over half a century, John Flower, B.A., passed away at his home in Welland, Ont., on February 15, following an illness which had been critical for some weeks. He had resigned only a short time ago as public-school inspector for Welland. Mr. Flower was born in Dunnville, Ont., seventy-one years ago, and attended the local schools there. He then went to the Ottawa Normal School, and after graduation began his career as a teacher in Haldimand County rural schools, remaining there for over eight years. He was later public-school principal at New Sarum in Elgin County, at Mildmay in Bruce County, and at Renfrew. In 1905 he went to Welland as principal of Central School and continued in that position until his appointment as inspector seventeen years ago. In 1919 he registered in Arts at Queen's and obtained his degree in 1923. He took most of his University work extramurally and at Summer School. He was a member of the League of Nations Society of Canada, secretary of the first Children's Aid Society organized in Welland, and a member of Central United Church, where he served on the official board and as treasurer of the missionary and maintenance fund. He took a keen interest in astronomy and philosophy. In 1927 he married Miss Wilhelmina Jamieson, of Ottawa, who survives him along with two sisters, Mrs. Alice Stephens, of Dunnville, and Mrs. James Nicholson, of Seattle, Wash.

**George**—Well remembered as a key member of the famous Queen's hockey team which won the Allan Cupy in 1909, Gregory Angus George, Sc. '12, died at his home in Westmount, Que., on February 2. Born at Eganville, Ont., in 1888, son of the late Mr. and Mrs. William George, he received his preliminary education there and entered "Prep" Science at Queen's in 1905, graduating in 1912 with his B.Sc. in Mining. He then went to Ottawa, where he played hockey with the New Edinburgh team, later joining the professional ranks as a member of the Ottawa Senators. Some time later he moved to Montreal, where he played with the Wanderers. During this time he also made use of his mining training by prospecting in the North Country, which was then opening up on a large scale. In 1918 he joined his brothers in the operation of a large wholesale grocery business at Eganville, Ottawa and Montreal. In Montreal the firm was known as the Country Co-operative Stores, a chain organization. He remained in this business until 1928, still keeping in touch with the mining industry by making substantial financial contributions to mining development. In the early thirties he laid plans to furnish the principal gold mines of the North with hardwood timber for underground workings, and with lime which was used in connection with the milling of gold ores. This developed into a prosperous business, especially during the past few years. He had a wide circle of friends both in the Ottawa Valley and in Montreal, and was especially popular among the Queen's alumni, one of whom has written the following tribute to him: "Greg" George was quiet and unassuming, an inherent gentleman whose word was as

good as his bond. To know him was to know an exemplary character. He was a true friend." Surviving are his wife, formerly Kathleen Mary Galligan, of Pembroke, two sons and a daughter. His brother, Basil George, Sc. '11, predeceased him in April, 1933.

**Leadbeater**—Word of the sudden death of Mrs. W. R. Leadbeater (Ethel Jordan), Arts '10, in Toronto on February 22 will be received with regret and a deep sense of personal loss by the many women graduates of Queen's who came to know her intimately while they were in residence at Queen's under her supervision. Mrs. Leadbeater was born in Darinth, England, in 1887, daughter of the late Rev. W. G. Jordan, D.D. '99, and Mrs. Jordan, and came to Canada with her parents when Dr. Jordan was appointed minister of the Presbyterian Church in Strathroy, Ont. Nine years later, when Principal Grant invited her father to occupy the chair of Hebrew and Old Testament exegesis at Queen's, she came to Kingston, where she attended the collegiate institute. In 1906 she entered Queen's, graduating four years later with her B.A. Shortly afterwards she married William Richard Leadbeater, Arts '11, and lived in Wallaceburg until his death a few years later. In 1919 she succeeded the late Mrs. Donald Macphail as head of "Avonmore," second residence for Queen's women, opened in 1916. She carried on in this capacity until the Avonmore and the Earl Street residence were replaced by Ban Righ Hall in 1925. Mrs. Leadbeater was then appointed house manager at Ban Righ, a position which she held with distinction until her retirement eleven years later. She is survived by a son, Lieut. W. J. Leadbeater, 47th Highlanders Overseas, and a brother, Dr. Dennis Jordan, Arts '08, Med. '10, of Toronto.

**Letherland** — Prominent physician of Harrisville, N.Y., for the past twenty-five years, Dr. Albert Letherland, Arts '08, Med. '09, died at his home there on December 5, following a heart attack. He had been in poor health for over a year, but was critically ill for only a few days Dr. Letherland was born in Elginburg, Ont., in 1880, son of Mr. and Mrs. John Letherland. He attended school in Kingston and entered Queen's in 1904, obtaining his B.A. in 1908 and his M.D. the following year. While at the University he was active in sports, especially as a runner. After a year's internship at Seton Hospital, New York City, and another year spent on the staff of a private hospital at Caroleen, N.C., he started a private practice at Benson Mines, N.Y., where he remained for five and a half years. In 1916 he moved to Harrisville, remaining there until his death. He was a member of the staff of the House of the Good Samaritan, Watertown, N.Y., of the Van-Duzee Hospital, Gouverneur, N Y., and of the Lewis County General Hospital in Lowville, N.Y. At one time he was coroner for Lewis county and for a number of years physician for the C.C.C. camp near Harrisville. He was a member of the American Medical Association, the Medical Society for St. Lawrence County, the Medical Society of the State of New York, and the New York State Officers' Association. At the time of his death he was health officer for the towns of Clifton Fine, Pitcairn, and the consolidated district of Harrisville and Diana. He was also active in community affairs and in the Masonic Order, holding membership in the Harrisville Lodge, F. and A.M., No. 926. Gouverneur chapter, R.A.M.; Media Shrine, Watertown; the Marble City Commandery and the Emma Louise Chapter, O.E.S. He was a member of the Presbyterian Church, the Harrisville Chamber of Commerce and the Harrisville Rod and Gun Club. Surviving are his widow, one son and one daughter.

**Peart**—At the Toronto General Hospital, on February 18, Ethel Geneva Dickey, Arts '37, wife of Capt. A. F. W Peart, Med. '40, died suddenly, following the birth of her infant daughter. Mrs. Peart, only daughter of Mr. and Mrs. Ethelbert Dickey, was born at Yonge Mills, Ont., on February 28, 1914, and moved to Brockville with her parents when she was six years old. She lived the greater part of her life in that city, attending the local schools, where she distinguished herself scholastically by winning the general proficiency medal in the entrance examinations, and the French scholarship during her studies at the Brockville Collegiate Institute. She enrolled at Queen's in 1934 and graduated in 1937 with her honours B.A. in French and English. She then entered the Ontario College of Education and, following her graduation in 1938, taught in the high school at Kincardine for one year and at Brampton for two years. Following her marriage in July, 1940, she lived for a short while at Niagara-on-the-Lake, where her husband was stationed with the R.C.A.M C., and latterly at Barrie, Ont., following Captain Peart's transfer to Camp Borden as inspector of hygiene. Besides her husband and infant daughter, she is survived by her parents.

MRS. PEART

**Locke**—Dr. Mahlon W. Locke, Med. '05, well-known physician of Williamsburg, Ont., died on February 7, following a heart seizure. He was in his sixty-first year. Dr. Locke was born in Williamsburg, attended high school at Kemptville, and then entered Queen's, graduating with his M.D. degree

in 1905. He continued his medical studies in Toronto and later went to Great Britain, where he did further postgraduate work at the universities of London, Edinburgh and Glasgow. He received the degree of L.R.C.P. & S. at Edinburgh. Returning to Canada, he set up a typical country doctor's practice with all its attendant hardships in his home town of Williamsburg. Subsequently he developed a process of manipulation of the muscles and bones of the feet, which proved particularly beneficial in the treatment of arthritis and rheumatism. His reputation soon spread and gained him international fame. As a result, the number of his patients increased to a peak of many hundreds a day. They came from all parts of the North American continent and from other countries. The Locke clinic in full operation was an unforgettable sight. Down the radiating aisles of an open court outside the doctor's home, the patients moved in constant streams to have their feet treated by "the man with the marvellous hands," who was seated in a special swivel chair at the centre of the great wheel. Despite the tremendous demands of his foot clinic, Dr. Locke was never too busy to attend to the medical needs of his local patiets. He also found time to devote to his stock of fine horses and cattle. He is survived by his widow; three daughters, Marion, Arts '40, Ruth, Arts '43, and Jean at home; and a son, Parker, Arts '41, at present attending Manitoba University.

**Lunam**—Third on the seniority list of Queen's graduates, Dr. Henry Lunam, Arts '77, passed away in Campbellton, N.B., on February 20 at the age of eighty-four. Dr. Lunam was born at Campbell's Bay, Pontiac County, Que., on October 18, 1857. He received his early education at Campbell's Bay and then attended Queen's, graduating with his B.A. degree in 1877. The following year he entered McGill University and graduated from there with the degree of M.D., C.M. in 1881. Shortly afterwards he commenced practice at Campbellton, N.B., and a few years later he spent several months visiting hospitals in London, England. Returning to Canada, he eventually became one of the best-known doctors in Restigouche County, N.B. When smallpox broke out in 1900, he worked night and day fighting the epidemic. As a result of his experience during this outbreak, he was frequently called upon by the New Brunswick government to go to different parts of the province to investigate suspected cases of smallpox, so dreaded at that time. He assisted in the establishment of the Hotel Dieu Hospital in Campbellton in 1888, and was appointed senior doctor on the medical staff of the Soldiers Memorial Hospital in 1919. He was made a life member of the Canadian Medical Association in 1931 in recognition of his fifty years of service in the medical profession. Dr. Lunam was a past master of Campbellton Lodge, No. 32, A.F. & A.M. He also served on the town council of Campbellton, and for many years was an active member of the Presbyterian Church and subsequently of the United Church of Canada. He was also keenly interested in the affairs of the New Brunswick Fish and Game Protective Association, and one of his greatest joys was salmon fishing at his own lodge on the Restigouche River. He is survived by three daughters, one son, two grandsons, three granddaughters and one brother.

**Taylor**—On December 16, 1941, Mrs. Hélène Héloise Dupuis Taylor, Arts '96, passed away at her home in Wellington, Ont. Mrs. Taylor was born on December 20, 1863, a daughter of Professor Nathan G. Dupuis, for many years head of the mathematics department and dean of Science at Queen's. Although she attended the University for only one session, that of 1892-93, she was intimately associated with Queen's affairs for many years. After residing for some time in the Montreal district and at Carleton Place, Ont., she went to Wellington, where she was a co-worker with her husband, the late Rev. Dr. Melvin Taylor, in his ministry and active in all branches of church work. Surviving are two step-children

## Notes

### 1880-1889

**E. P. Goodwin**, Arts '88, is retired and living at Baie Verte, N.B.

**Dr. Ebenezer Hooper**, Med. '85, now in his ninety-sixth year, is in good health and living at 1370 Queen St. W., Toronto.

### 1890-1899

**Rev. Dr. Thurlow Fraser**, Arts '98, Theol. '02, minister of Union Presbyterian Church, Carney's Point, New Jersey, although still retaining his Canadian citizenship, is serving his thirteenth year as Commissioner of the Boy Scouts of America in an area with more than 1000 Scouts and hundreds of Wolf Cubs. He is also acting chaplain of the American troops in his vicinity and an honorary member of the Officers' Club and the Veterans of Foreign Wars of the United States.

**Dr. Alexander Nugent**, Arts '97, Med. '99, is now retired and living at 12 Aylmer Ave., Ottawa. For over thirty-five years Dr. Nugent did missionary work in India for the Presbyterian Church and the United Church. His particular field of labour was in the central provinces, principally in the city of Ujjain, capital of a native state, where he was for many years vice-mayor, the first and only man not a native to hold that position.

**Rev. Dr. T. J. Thompson**, Arts '95, D.D. '29, minister emeritus of Glebe United Church, Ottawa, observed his eightieth birthday on Sunday, February 22, by taking the pulpit in the church of which he had been the minister for nearly thirty years before his retirement in 1939.

### 1900-1909

**Dr. H. E. Chatham,** Med. '09, is retired and living at 1124 Woodstock Ave., Victoria, B.C.

**Dr. G. F. Cliff**, Med. '06, and **Mrs. Cliff** (Alma Mundell), Arts '02, left Kingston recently for Burwash, Ont., where Dr. Cliff has been appointed physician at the Burwash Reformatory.

**H. B. Fetterley,** Arts '04, is on the editorial staff of the Ontario Public School "Argus," the new monthly journal published under the auspices of the Association of Ontario Public School Trustees and Ratepayers. After teaching for several years in Cornwall, Ont., Mr. Fetterly was appointed inspector of public schools in Dundas County in 1918, which position he held until 1930 when he was made superintendent of the Ontario School for the Deaf at Belleville. In 1935 he was elected to the Belleville Board of Education and in 1941 was chosen as its chairman. For the past five years he has been president of the Belleville Children's Aid Society.

**J. M. Macdonnell,** Arts '04, president and general manager of the National Trust Company, Toronto, has been elected president of the Dominion Mortgage and Investment Association.

**Dr. L. L. Playfair,** Med. '06, F.R.C.S. Edinburgh, has moved his office from 686 Main Street to the Medical Arts Building, Hamilton.

### 1910-1919

**Ralph Bartlett,** Sc. '11, has been elected vice-chairman of the Ottawa branch of the Canadian Institute of Mining and Metallurgy.

**Mrs. F. C. Casselman** (Cora Watt), M.P., Arts '12, addressed the University Women's Club in Ottawa early in March on the subject of post-war international peace.

**Miss Evalena Ferguson,** Arts '17, is teaching in the High School of Commerce at Hamilton, Ont

**Dr. G. B. Ferguson,** Arts '15 (M.D. University of Manitoba), is practising at Holdfast, Sask.

**Dr. R. M. Filson,** Arts '13, Med. '15, of Hartford, Conn., was bereaved on February 6 by the death of his mother, Mrs. Robert Filson, formerly of Kingston and Amherst Island.

**Miss Mora Guthrie,** Arts '19, was elected regent of the Elizabeth Tudor Chapter, I.O. D.E., Ottawa, at the annual meeting held in the Chelsea Club on February 26.

**Lt.-Col. N. M. Halkett,** Arts '12, Med. '14, of the R.C.A.M.C., is now serving overseas in command of No. 7 Canadian General Hospital.

**Miss Esther Grace Harrop,** Arts '17, of Vancouver, is teaching this year on exchange at East York Collegiate Institute, Toronto.

**Miss Winnifred Hay,** Arts '19, has joined the staff of the Aluminum Company of Canada Limited, Kingston.

**DANIEL M. GORDON: HIS LIFE**

**By Wilhelmina Gordon.** "A clear portrait of a man of parts, of strict moral and spiritual integrity, of vision and of devoted zeal, of sound scholarship, of charm and possessed of a mightily saving sense of humour and gift for friendship."—*Evening Telegram, Toronto.* $3.50.

**INDIA TODAY**

**Edited by W. E. Duffett, A. R. Hicks and G. R. Parkin.** A short but comprehensive study of the rise of the nationalist movement in India, completely impartial in approach; highly significant in view of the vital importance of India today. 60 cents.

**FRENCH-CANADIAN OPINION ON THE WAR**

**By Elizabeth H. Armstrong.** An analysis of the movement of French-Canadian opinion regarding world affairs since the outbreak of war. 40 cents.

**SOME GREAT MEN OF QUEEN'S**

**Edited by Principal R. C. Wallace.** "The sketches are excellently done, well rounded within their limitations of space, and they depict with fine clarity the zeal and faith and personality which went into the building of a great Canadian university."—*Ottawa Journal.* $1.50.

RYERSON

**Mrs. N. B. MacRostie** (Annie Callander), Arts '13, Ottawa, was bereaved on February 26 by the death of her mother.

**W. E. Manhard,** Sc. '13, has been supervising and resident engineer for the R.C.A.F. during the past two years, in charge of construction at the stations in Picton and Mountain View, Ont.

**E. D. Quantz,** Sc. '16, is chief engineer at the Teck Hughes Gold Mines, Kirkland Lake, Ont.

1920-1929

**Mrs. D. W. Boucher** (Thelma Bogart), Arts '27, was re-elected chairman of the Kingston Public Library Board at the annual meeting held on February 27. She has also been elected honorary president of the Ontario Horticultural Association.

**Rev. M. E. R. Boudreau,** Arts '23, is minister of Knox Presbyterian Church, Cannington, Ont.

**Dr. G. D. W. Cameron,** Med. '27, is now chief or the laboratory of hygiene, Department of Pensions and National Health, Ottawa. He was formerly on the staff of Connaught Laboratories, University of Toronto.

**FO. J. E. Clark,** Sc. '28, of the R.C.A.F., is O.C. at No. 266, A.M.E.S., Middle East Headquarters, Cairo, Egypt. Prior to enlisting, Flying Officer Clark was in the engineering department of the Bell Telephone Company at Ottawa.

**Lt.-Col. S. C. Clegg,** Arts '29, is commanding officer of 1st Bn. Dufferin and Haldimand Rifles, C.A., and now stationed at Camp Nanaimo, B.C.

**Wing Commdr. D. A. Harding, Arts '25,** of the R.C.A.F., will take over command of Hagersville, No. 16 Service Flying Training School. For the past seven months he has been in command at No. 5 I.T.S. at Belleville.

**Mrs. Clyde Hartwell** (Elizabeth MacKay), Arts '27, is principal of the school in Rycroft, Alberta.

**Dr. Charles E. Lyght,** Med. '26, director of the health service, Carleton College, Northfield, Minnesota, was recently elected a fellow of the American College of Chest Physicians. He will deliver an address at Philadelphia during the annual meeting of the National Tuberculosis Association early

in May, summarizing the progress of student tuberclosis work during the past five years, the period when Dr. Lyght was chairman of the Tuberculosis Committee of the American Student Health Association.

**Miss Madge Martin**, Arts '28, is teaching at the central collegiate institute in Moose Jaw, Sask.

**G. C. Monture**, Sc. '21, Ottawa, general assistant to **G. C. Bateman**, Sc. '05, metals controller for Canada, addressed the annual dinner of the Prospectors' and Developers' Association in Toronto on February 6. He dealt with the search that is going on for essential war materials, and the part that prospectors can play in this important work.

**G. H. Murray**, Sc. '24, was elected secretary-treasurer of the Ottawa branch of the Canadian Institute of Mining and Metallurgy at its annual meeting held during February.

**F. L. Rae**, Arts '29, is teaching on the staff of the Hamilton Technical School, Hamilton, Ont.

**Rev. A. D. Sutherland**, Arts '24, Theol. '26, has moved from Sault Ste. Marie, to Welland, Ont., where he is minister of St. Andrew's Presbyterian Church.

**R. F. B. Taylor**, Com. '24, was recently appointed representative of the Foreign Exchange Control Board in Toronto. Mr. Taylor opened the Toronto office of the board in November, 1939, and was in charge until March, 1940, when he was transferred to Ottawa, later being appointed head of the Services Section. For a short time before his return to Toronto he was on loan to the Wartime Prices and Trade Board, where he assisted in the organization of the accounting administration.

**W. J. Thomson**, Sc. '27, is chemical engineer for the Abrasive Company of Canada, at Arvida, Que.

**Miss Edith Trayes**, Arts '29, is teaching in the high school at Thorold, Ont.

**M. J. Vechsler**, Com. '26, Canadian Government Trade Commissioner at Lima, Peru, has been named to establish a new Canadian Government Trade Commissioner's office in Santiago, Chile. He expects to start his new work in May or June of this year.

**O. E. Walli**, Sc. '25, teaches at the high school in Timmins, Ont.

**Mrs. C. F. Washington** (Jean Malcolm), Arts '26, of Walkerton, Ont., was bereaved on February 14 by the death of her mother, Mrs. George Malcolm, formerly of Stratford, Ont.

**C. D. Wight**, Sc. '28, Ottawa, was bereaved early in January by the death of his father, Mr. Edward C. Wight, former principal of Lady Evelyn School in Ottawa.

### 1930-1939

**Miss Marjorie Alexander**, Arts '39, is teaching at the Stamford Collegiate Institute, Niagara Falls, Ont.

**D. B. Archer**, Sc. '35, Mrs. Archer and their son, left early in March for Talara, Peru, where Mr. Archer has taken a position as chemist with the International Petroleum Company. He was formerly on the staff of Imperial Oil Limited, Sarnia, Ont.

**CANADIAN LABORATORY SUPPLIES LIMITED**

CANADA'S LEADING LABORATORY SUPPLY HOUSE

TORONTO:
32 Grenville St.

MONTREAL:
296 St. Paul St. West

WINNIPEG:
338 Donald St.

**C. E. Almqvist**, Sc. '36, is process control supervisor at the nylon plant of Canadian Industries Limited, Kingston.

**E. A. Barton**, Sc. '30, has joined the engineering staff of the John Inglis Company, Toronto, as engineer in charge of the commercial engineering pump division. He was formerly with the M. W. Kellogg Company, New York City.

**W. T. Bray**, Sc. '37, is now mine superintendent for Canadian Refractories Limited, at Kilmar, Que.

**Dr. J. R. J. Card**, Med. '37, is taking a public health course at the University of Toronto.

**Miss Ruby Cordy**, Arts '34, teaches French, English and physical training at the collegiate institute in Brockville, Ont.

**E. H. G. Cornford**, Arts '39, is on the staff of the Welland Chemical Works, Niagara Falls, Ont.

**W. S. Darling**, Sc. '32, is with Messrs. Stevenson and Kellogg Limited, Montreal.

**Dr. D. O. Ferris**, Med. '31, is at the Mayo Clinic, Rochester, Minn.

**Mrs. John E. Fowell** (Margaret Groves), Arts '34, is living at 99 Crescent Road, Toronto.

**Flt. Lt. E. C. S. Gould**, Sc. '37, of the R.C.A.F., is stationed at Seal Cove, Prince Rupert, B.C.

**Dr. Edward Kahn**, Med. '37, is on the staff of Lady of Lourdes Memorial Hospital, Binghamton, N.Y.

**Dr. Horace Leigh,** Med. '35, has joined the U.S. Army Medical Corps. He is serving as a captain with the 2nd Evacuation Hospital, and is stationed at the present time in Fort Devens, Mass.

**Dr. A. G. Macdonald**, Med. '39, formerly at Long Lac, Ont., is now practising at Copper Mountain, B.C.

**R. H. Macklem**, Arts '33, formerly of Thorold, Ont., is teaching English this year in Runnymede Collegiate Institute, Toronto. He is also coach of the senior basketball team.

**W. C. Marshall**, Sc. '39, is surveyor and spare shift boss at Madsen Red Lake Gold Mines, Madsen, Ont.

**T. F. Rahilly**, Sc. '39, is assistant mechanical superintendent for the Algoma Steel Corporation, Sault Ste. Marie, Ont.

**W. A. Rous**, Arts '34, is in the office of the International Petroleum Company, Toronto.

**Dr. A. W. Rupert**, Med. '38, is on the staff of the Albany Hospital, Albany, N.Y.

**C. H. Sager**, Sc. '36, of the inspection board of the United Kingdom and Canada, is at present with Research Enterprises, Toronto.

**Hubert Smedley**, Sc. '35, formerly at Sturgeon River Gold Mines, is now at Research Enterprises, Toronto.

**J. A. Stoneman**, Sc. '34, is on the staff of the Cartier Construction Company, Montreal. He resides at Mont Joli, Que.

**L. A. Traver**, Sc. '38, is superintendent of the Central Cadillac Mines, Cadillac, Que.

### 1940-1941

**Ward Allen**, Com. '41, is studying at Osgoode Hall this year.

**R. W. Baker**, Sc. '41, is on the geological staff of the Central Patricia Gold Mines, Central Patricia, Ont.

**R. A. Bradford**, Arts '41, is on the staff of the Confederation Life Association, Kingston.

**J. W. Church**, Sc. '41, is factory manager for .5 Vickers Gun Division, Ottawa Car and Aircraft Limited, Ottawa.

**G. C. Collison**, Sc. '41, has joined the staff of Trinidad Leaseholds Limited, Trinidad, British West Indies.

**R. A. Cunningham**, Sc. '41, of the E. G. M. Cape and Company, is at present on one of their projects in Newfoundland. His address is 30 Le Marchant Road, St. John's, Nfld.

**Miss Mary Everard**, Arts '40, is teaching this year at the high school in Port Credit, Ont.

**Dr. D. M. Ewart**, Med. '41, is interning at the General Hospital, Moose Jaw, Sask.

**Dr. W. C. Gibson**, Med. '40, is associated in practice with his father, **Dr. J. C. Gibson**, Med. '92, at 3518 Baldwin Ave., Detroit, Mich.

**W. H. Gray**, Com. '40, received his degree in chartered accountancy last December, and has since joined the staff of the accounting administration of the Wartime Prices and Trade Board in Ottawa.

**E. D. Hawken**, Arts '40, teaches at North Collegiate Institute, Toronto.

**Clarence Marshall**, Sc. '41, is doing estimating and design work for the Dominion Structural Steel Company, Montreal, Que.

**W. B. McCaskill**, Sc. '41, is supervisor in chemical and physical control of cordite for Defence Industries Limited, Winnipeg, Man.

**R. R. McMichael**, Sc. '41, is doing surveying for the civil aviation branch, Department of Transport. He is stationed at Moose Jaw, Sask.

**R. I. Petrie**, Sc. '41, is with Defence Industries Limited, Nitro, Que.

# HEALTH SERVICES IN THE COMMUNITY

**By Dr. J. J. McCann, M.P., Med. '09**

*An address delivered by Dr. McCann, president of the Canadian Public Health Association, over the C.B.C. network on March 17.*

IN delivering the opening address in the educational series "Our Wartime Health," I wish to commend the initiative and enterprise of the Canadian Broadcasting Corporation in placing before the Canadian public the need and importance of establishing and continuing adequate public health services throughout Canada in order to maintain our wartime efficiency and morale.

Canada is at war. This is a war—not of armies—but of peoples. We are engaged in the most momentous and desperate struggle in world history. Not only are we fighting to protect our democratic institutions and our way of life; we are fighting for our very existence. Our effort to achieve victory must be an *all out* effort, and *all out* means every sinew against every enemy. Canada has declared for total war. That is the stated policy of the Government, and that is the expressed will of the Canadian people. What does that mean? It means that all our resources, material and human, must be used to achieve final victory, and nothing in the achievement of that objective is of more importance than the maintenance of the physical and mental health of the civil population, from which the military and industrial personnel must be extracted.

DR. J. J. McCANN

There is no gainsaying, to win we must be strong morally, mentally and physically. It is not enough to be financially strong, nor to have all the instruments of war; if we are not physically and mentally fit, then we may go down. Not only must we have men and women in good health to manufacture the weapons of war; we must have soldiers, sailors and aviators in good health to man the front line, to man the ships, and to pilot the planes.

It is reassuring to learn from Lieutenant-General McNaughton, who is now on a visit to Canada, that the health of our troops overseas is excellent. There had been periods of some anxiety—nearly everybody who went to Britain had to accommodate himself to the change in atmospheric conditions and suffered from types of common colds not prevalent in Canada—but never had the epidemics of colds and similar ills used all the hospital accommodation the Canadians had in Britain.

In the words of General McNaughton, the Canadian medical profession had "seized hold of its full responsibility with regard to the troops; and in diet, in the preparation of food and in the health of the troops in general, it had taken the most imaginative and aggressive attitude. It is a curious thing that the greater the mechanization of troops, the more the troops must be prepared to march, partly for health's sake and partly for strategic reasons. It was nothing for a Canadian unit to march forty miles in one scheme and that included tank units as well as infantry. The troops are simply in splendid condition." General McNaughton also said that despite the intense mechanization of their lives, the men of the tank corps were in better health than anyone else. For this the medical profession deserved great praise for its research. He mentioned Dr. Best, famed as colleague of the late Sir Frederick Banting, as being now in Britain working on problems of soldiers' health and diet.

Canada, as never before, depends upon her man power and her woman power.

We must be superior to our enemies, not only in equipment but also in physical and mental condition. This applies with equal force to the men in the front line, to those on the farms and in war industries. The importance of a nation's fitness in time of war can hardly be exaggerated. For example, a serious deterioration would bring an appreciable fall in the output of munitions.

It is a matter of satisfaction to know that the health of our armed forces in Canada is also excellent. Constant vigilance on the part of the medical corps, the application of our knowledge with reference to nutrition and preventive inoculation, has insured a state of well-being and freedom from infection unknown in former wars.

On the home front we are confronted with the problem of maintaining the health of the civil and industrial population. At present more people are employed in industry than at any time in the history of Canada. The estimated total is in excess of 3,000,000, of whom 700,000, including 75,000 women, are engaged in manufacturing munitions. The health of these workers is all-important. In order to have a maximum efficiency it must be seen to that their hours of work are not too long, their working conditions good, their nutritional requirements adequately met, and their home environment satisfactory.

Then, too, there are military camps adjacent to many communities. This means that these communities become overcrowded, increasing the danger of the spread of infections and communicable diseases, and overtaxing the already meagre facilities in most communities for coping with increased difficulties. To meet these conditions, planning and cooperation are necessary, and we must approach the problems by pooling our community resources. The means at our command are infinitesimal and far from adequate.

There was a day in man's nomadic life when he could shift for himself and his family, when he could find food and shelter and maintain security of life through his personal efforts, but today we need friendly police and health services to protect us against the harsh inroads of modern civilization.

Let us not forget the human wastage due to illness, and the enormous cost in terms of dollars and cents. It has been estimated that about 200,000 individuals are constantly ill and unable to work. Most of this illness is preventable, a large number of deaths are postponable. On any one day Canada has 50,000 wage-earners idle through illness. That is, on every working day our national effort is handicapped by the absence of 50,000 workers from their places. Much of the wastage is avoidable. The responsibility rests on each one of us. The cost of illness is about $300,000,000 annually. Add to this the cost of postponable deaths (because the annual unnecessary loss of human capital is enormous), and we reach a figure of nearly a billion dollars. This is the really big bottleneck in our war production programme.

Governments are usually in a dither about the slow-up in war production on account of strikes. An official survey in the United States shows that more than two and a half million days of employment were lost in the first six months of 1941 because of strikes in army contract factories. We do know that sickness costs fifty times more in work-days than do strikes. Although we do not have as many labour lockouts and strikes in Canada as our neighbours to the south, I have no doubt that the loss of time through workers' disability is comparable in this country to that of the United States.

The foregoing health problems and others kindred to them are being handled and solved in the main by well-organized and well-directed health services in each community. This, of course, is in addition to services rendered by private physicians.

The type of this community service varies in different parts of the country. In Quebec in 1926, county health units were established; 54 counties are now served, and health services are extended to rural areas, while urban areas have a set-up of their own. Fifty medical officers, 200 nurses, 50 sanitary inspectors, and 15 clinic physicians specializing in

tuberculosis now devote all their efforts to protect public health; while almost as many technicians, both men and women, are spreading the doctrine of good health and prevention from disease in the towns and rural areas. Child welfare clinics have been set up, where several hundred thousands of babies are examined and mothers given advice. Clinical laboratories have been established, where over 200,000 samples are examined yearly. In one year more than 75,000 children were immunized against diphtheria, more than 200,000 received regular visits from public health nurses, and every rural school was visited by nurses and hygienists. Tuberculosis specialists examined more than 25,000 people, and countless thousands received vaccination and inoculation against smallpox and typhoid. The results have been outstanding. In 14 years the death rate from tuberculosis has fallen from 140 to 73 per 100,000 of population. Infantile mortality has diminished in similar proportions. The greatest improvement has been in Montreal, where, since the introduction of pasteurization of milk, the number of infant deaths from intestinal diseases has dropped to one-ninth of the former total.

I have given these details for the Province of Quebec because of the fact that since a well-organized community health service has been established there the results have been outstanding. In the Maritimes a similar system is in vogue with equally good results.

The Prairie Provinces also have a definite system of providing medical care. It is known as the "Municipal Doctor Scheme." The "municipality" in Western Canada is the local unit of government; it consists of an area of from 200 to 300 square miles, with the population ranging from 1500 to 3000 persons. The municipal doctor, as the name implies, is a physician engaged by the municipality or municipalities, or parts thereof, to supply medical services to the residents of his area without charge to the individual residents, for which he is paid a definite salary by the municipality that engages him. The money for this purpose is raised by a levy on all taxable property in the municipality, and a recent survey of a group of municipalities showed that the cost for a family on a quarter-section of land is approximately $4.50 a year.

In Ontario, community health services have attained a prominence and a recognition perhaps not surpassed in any other part of the Dominion. Each municipality —be it township, town or city—must, under the Public Health Act, set up a board of health and appoint a medical practitioner as medical officer of health; and he becomes the executive officer of the board and is held responsible for enforcing the Health Act. These officers serve either part time or full time; if the latter, they are required to have the degree of D.P.H. from a recognized university. Full-time dental officers are employed in the larger centres. All health officers are responsible to their municipality and to the provincial department of health, and can be dismissed only for cause by the provincial authorities. The M.O.H. lays the plan of organization work for his particular municipality. The organization in a good-sized town includes one or more public health nurses, who do the school nursing and conduct child welfare and maternal health clinics. There are sanitary inspectors, food inspectors, and a competent engineer who supervises the water supply (which, of course, is filtered and chemically treated), and the garbage collection and sewage disposal systems. Arrangements are made for periodic visits of travelling chest clinics, mental health clinics and venereal disease clinics, if such are not provided within the municipality. The health officer himself carries out vaccination and immunization against smallpox and for diphtheria — both of preschool and school children.

Ontario is the only province in Canada where milk pasteurization is compulsory —96% of the milk sold in Ontario is pasteurized. Milk, as you know, carries tuberculosis, typhoid, scarlet fever, septic sore throat and many other infectious diseases. Since pasteurization, bovine tuberculosis and tubular joint disease have almost entirely disappeared. In fact, mortality due to intestinal milk-borne diseases has been greatly reduced; for instance, in Toronto in 1914 the infant mortality rate was 155 per 1000 births, and

at the end of 1940 the rate was reduced to 41 per 1000 births. A death rate of 60 per 1000 for all of Canada could easily be obtained if pasteurization were general. Toxoid immunization has almost eradicated diphtheria from the Province. The City of Hamilton has not had a case for eight years, and many other municipalities have had equally good results.

By what procedures were these successes brought about? The basis of all health work is education. The public must be brought to a realization that there is no better investment than community health services, and that none will pay greater dividends now or in the future. Those in charge of these services need public support, especially the support of women's organizations. Economic barriers have prevented full use of facilities that health services have placed at our disposal, but moral and educational support will help remove those barriers.

One very definite way in which you can materially contribute to the successful conclusion of the war is to check all members of your household, and make certain that every reasonable precaution has been taken against the inroad of unnecessary sickness. The outcome of this war depends upon the productive man-hours of the munition and supply assembly lines, as well as upon the effectiveness of armies in the field. Total war is just what the words imply. We all play our part in a vast co-ordinated machine of construction and destruction. Physical fitness keeps the production line going, it keeps the child in school, it permits the mother to care for the home, it cuts down the cost of sickness and keeps the doctor away.

## GOVERNMENT PLANS AID FOR MEDICAL STUDENTS

IT was recently announced by the Minister of National Defence that arrangements were being made by the Government whereby financial assistance would be provided for medical students who planned to enlist in the armed forces upon the completion of their course.

For some time the Government and the Canadian medical schools had been endeavouring to evolve a plan under which the medical course could be shortened in order to meet the urgent need for doctors in the services and in civilian life. It was estimated that the armed forces would require about 800 medical officers within the next year—600 for the Army, 150 for the Air Force and 50 for the Navy —and the need would continue as long as the war lasted.

The only means of reducing the length of the medical course—without curtailing the actual study time, which was felt to be inadvisable — was by decreasing the normal vacation periods to an absolute minimum. This involved a serious financial problem, as most of the students were dependent in whole or in part upon their summers' earnings for the funds to continue their course.

Under the arrangement now proposed, medical students who enlist in the armed forces after finishing their fourth year will be granted leave of absence, with pay and subsistence allowance, to enable them to return to university, complete their course and obtain a license to practise. If this plan materializes, the fifth- and sixth-year classes will begin their work this coming June and carry on with very brief vacations, completing their course in July, 1943, and December, 1942, respectively.

Plans for accelerating in some similar way the training of the junior years in Medicine and for providing the necessary financial aid are still being given consideration by the Government. If a satisfactory arrangement for these classes can also be worked out, by means of governmental loans or undergraduate scholarships, the term for the third and fourth years will also start in June, that for the second year late in August, and that for the first year at the regular time in September. The consecutive terms will run almost continuously, the customary vacation periods being practically eliminated. The total length of the course would thus be reduced from six to about four and a half years without the amount of actual training being decreased.

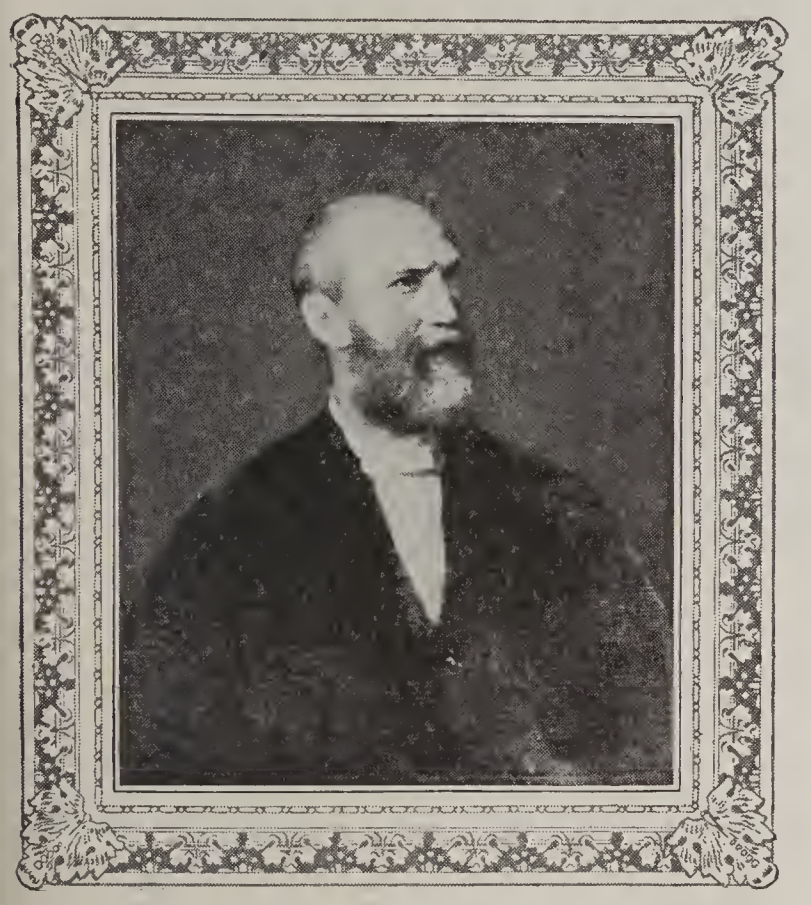

# "GEORDIE"

**By L. P. Chambers, Arts '04, Theol. '15**

*Queen's College is our jolly home;*
*We love her still where'er we roam.*
*The very songs we used to sing*
*In mem'ry's echoes long shall ring.*
*—Geordie!*

SO rang the Queen's Doxology; and it was not in a spirit of irreverence that we sang it at times when a churchman might have thought "Praise God, from whom all blessings flow" more appropriate.

I remember on one occasion—it was the closing exercises of one of the Theological Alumni conferences, which we Arts men used to attend quite frequently

PRINCIPAL GRANT

and to which an unregenerate Science or Medical student sometimes gained admittance—we were singing our Doxology; and the presiding officer, a Queen's man who had, however, spoiled his record by going to Princeton Theological College, called us to order. "Gentlemen," he said, "let us be reverent; let us sing *the* Doxology." A Theological alumnus, back from Nanaimo, B.C., to attend the conference, turned to me in disgust and remarked: "Doesn't he know that 'Queen's College' is as sacred to Queen's men as 'Old Hundredth' is to other Presbyterians!"

I met "Geordie" Grant on my first day at Queen's; in fact, I slept my first night in his home—not for any blood or other claim, but because my brother and I had travelled four thousand miles to come to Queen's and he appreciated that fact. But where else should we have come than to Queen's? Like the Scotsman who, when asked if he had been born in Scotland, replied, "Of course!"; so might my father—being a Queen's man himself, Arts '66—have answered if asked whether he were going to send his boys to Queen's. For he had known Grant in the days before Grant came to Queen's, had admired his bold stand for Church Union—the old fight for the union of the three branches of the Presbyterian Church, back in the seventies—and had supported him in the Assembly. My father was also a Union man, as he himself—a minister of the Auld Kirk—proved by bringing to his manse a woman from the Free Church to be his wife; whereby he caused a scandal in the congregation, and wherefore, perhaps, he supported Grant in the Assembly.

So, when my father had gone out to Turkey as a missionary and had two sons to educate, he sent them to Kingston and wrote to his friend and mentor that they were coming. We arrived in Kingston by ferry from Cape Vincent around seven o'clock one evening, late in September, 1900. While we were bargaining with a cabby to take us to some hotel—for we had no idea where to go—a second cabby, on a single-spindled crutch, hobbled towards us. I think this man's name was Boyd. Queen's folk of those days will remember him. I can see him yet hoisting himself by means of his crutch up to the driver's seat of his old, black box-cab.

"Are you the boys from Turkey?" "Yes." "Then they're my fares," said he to the first cabby. And to the other's remonstrances, he replied with the unanswerable dictum, "*He* sent me to get them." We did not know who "he" was until, after we had been bundled bag and baggage into the cab, the driver told us

that he was taking us to "the Principal's" house, where we were to spend the night.

Grant was at dinner when we arrived, but came to the door and offered us his left hand to shake. His napkin concealed his other hand, and we did not know until later that the fingers were gone from it; but I can almost feel today the clasp of that left hand. We went upstairs to wash and hurried down to the dining-room, to a table abundantly laden with wholesome and appetizing food for hungry lads; but, as our host pointed out later, with no wine or whiskey, "although many people think that I serve liquor at my table because I am opposed to prohibition legislation."

A few questions about our parents and our journey, about our academic preparation—my brother hoped to be admitted to junior standing and I to be a freshman—then he excused himself. His housekeeper would look after us—Mrs. Grant had died some time before—and no doubt we were tired and would want to go to bed early. Unfortunately he had to attend a meeting that evening and so could not entertain us as he had hoped to do. We fancied that he was going to some faculty or business meeting. Not until later did we learn, to our chagrin, that he had gone to a public gathering down town, to debate the issue of prohibition with a coloured prohibition advocate, known, I believe, as the "Black Knight." The hall was filled to capacity with citizens and Queen's students. It was a battle royal; and Grant had the best of it, although probably few of the audience changed their opinions as the result of the debate.

Meanwhile my brother and I browsed around the study and then went to bed; nor did we hear our host come home from the meeting at which he was too modest to tell us he was to be one of the speakers. When the citizens and residents of Kingston were given an opportunity later to vote on the prohibition issue, one of the students at our boarding-house, a third-year Medical, refused to vote. His "conscience" would not let him vote against prohibition; his respect for Grant would not let him vote for it.

Next morning when we came down to breakfast we found Grant already at the table. He did not chide us for being tardy, but we felt a bit ashamed, for he had to hurry to his office in the Arts—now the Theology — Building to keep some appointment, and asked us to come there when we had finished our breakfast. When we reached his office, I showed him my scholarship certificate, but my brother had none. "We can't let a boy come all the way from Turkey to Queen's and then ask him to pay fees," said the Principal, handing my brother a scholarship. Then he went to the door and called a student who was passing—Billy McLaren—and asked him to take us around and help us find a room and a boarding-house.

I do not recall that I ever had any further conversation with Grant, except a nod and a greeting as we passed in the halls or on the campus. But his personality permeated the College, and one felt as if one were constantly in contact with him. Sham and greed in any one, he despised, and he let it be known. But boisterousness, even if it led to damage, he tolerated—perhaps enjoyed—provided the damage was paid for. This we had to do when we broke in the door of the philosophy room—now a biological laboratory, I believe—in the Old Arts Build-

Dr. Lawson P. Chambers has been associate professor of philosophy at Washington University, St. Louis, Mo., since 1925. After graduating from Queen's he went back to Turkey, where he taught until 1912, returning then to Queen's to study theology. He received his B.D. in 1915, and his Ph.D. the next year at Harvard. Then followed two years' teaching at Queen's, one year at Dalhousie, and four years at the Women's College in Constantinople. In 1923 he joined the staff of Cornell University and from there went to Washington University.

Dr. Robert Chambers, who arrived at Queen's with his brother, received his M.A. in 1902. He then did post-graduate work at Columbia University and in Germany, obtaining his Ph.D. at Munich in 1908. He later taught at the University of Toronto, the University of Cincinnati, Cornell Medical School, and finally at Washington Square College, New York University, where he has been research professor and head of the department of biology since 1928.

ing, to throw out a bunch of Science students who had barricaded themselves in the room, where the Arts Concursus was to be held. We might have met in some other place, but it would have been a confession of defeat to let the Science men keep us out of the room we had selected for the holding of our court.

And this tale, too, we heard of him—that, when the trustees voted to increase his salary from three to four thousand dollars (I think those were the figures), he protested that the University could not afford the increase. And who should know better than he, who had worn himself out in tireless effort to raise funds

THE PRINCIPAL'S HOUSE

And our court was, at need, a dignified and serious affair. We had comic sideshows occasionally—as when a student was fined ten cents for wishing to leave the court and was then ejected because he refused to pay. But when a third-year student was tried by his peers for conduct towards the women students unbecoming a Queen's man and a gentleman, and was ordered to leave the University, Grant supported the Concursus and refused to allow the student to remain on the campus.

Many stories were current about Grant. He always travelled second class, we were told, because the University paid his travelling expenses and he tried to keep them as low as possible. When a friend, thinking it undignified for the principal of a great university to travel second class, asked him why he did so, his reply was, "Because there is no third."

for the University—which grew so rapidly under his guidance that as soon as one endowment campaign was brought to a successful close he had to set out on another. If the trustees thought that the budget could stand any increases in salaries, said Grant, let them increase those of the poorest paid men on the staff; he could manage with what he had. It is not often that one meets this personal and practical concern for the underpaid; and it is little wonder that staff and students alike revered the man who—whether this story is true or not, though it is very much in character—thought more of Queen's than of himself and asked no sacrifice from anyone that he himself had not already matched.

During my second year at Queen's, Grant was frequently confined to his home or to the hospital. When, in the winter of that year, 1901-02, the County of

Frontenac voted against a grant to build an assembly hall at the University where the commencement exercises and other large functions might be held, he was greatly disappointed; but he took on a new lease of life when the students met the crisis by pledging a part of the necessary sum and undertaking to raise the rest. On that occasion he sent his personal thanks to the student body; and later he asked someone who had gone to the hospital to see him to give a further message to the students: "Tell them I have looked into the face of death and see there nothing to fear."

I last saw Grant at the Medical Convocation that spring. He had got out of bed, against the doctor's orders, to preside at the ceremony. Just before the diplomas were distributed he made a short speech. He had come, in spite of medical advice, to see this class graduate—perhaps the last he would see—and he wanted to say a few words to the citizens of Kingston and to the student body. It was said of him that he could never make a speech without asking for money. He wanted to dispel that illusion, for in this speech he was not going to appeal for funds. Anyone who saw this fine graduating class and knew the handicaps under which they had laboured to get their medical education would need no appeal from him to donate generously to Queen's.

Grant died that summer—1902. But in the hearts of those who were at Queen's in his day his name will ring in memory with "those merry songs we used to sing"; for to us the names of Grant and Queen's are synonymous. And the best wish that an old Queen's alumnus can think of for his Alma Mater in her hundredth year is that the students of today may speak and sing the name of Wallace with the same blend of humour, respect and loyalty as we spoke and sang the name of Geordie Grant.

## QUEEN'S MEN ARE MOVED IN GOVERNMENT SERVICES

J. E. MacKay, Arts '14, of Ottawa, was recently appointed secretary of the National Advisory Committee on Reconstruction, of which Dr. F. Cyril James, Principal of McGill University, is chairman, and Principal R. C. Wallace, of Queen's, is one of the other six members.

Mr. MacKay was for some years on the editorial staff of the Kingston *Whig-Standard,* and went to Ottawa shortly after the start of the war to join the Department of Trade and Commerce. He has now been lent by this department to the Reconstruction Committee. He will serve, also, as secretary of the various sub-groups of this committee.

Mr. MacKay succeeds Robert England, Arts '21, who has been executive secretary of both the Reconstruction Committee and the Rehabilitation Committee. Mr. England will now devote his whole time to the latter committee, which deals with the problem of the civil re-establishment of discharged service men.

## TWO NEW MEMBERS ELECTED TO UNIVERSITY COUNCIL

IN the annual elections of the University Council, which closed on March 31, two new members were chosen and seven retiring members were returned, to hold office until 1948. There were fifteen nominees.

The newcomers to the Council are Dr. N. A. Brisco, Arts '98, dean of the School of Retailing at New York University, New York City, and president of the New York Society of Queen's University; and Mrs. F. C. Casselman (Cora Watt), Arts '12, member of the House of Commons for Edmonton East.

The re-elected members are: James Bartlett, Sc. '07, Kirkland Lake, Ont.; C. H. Bland, Arts '07, Ottawa, Ont.; Judge C. A. Cameron, Arts '13, Belleville, Ont.; Mrs. D. M. Chown (Mary Macphail), Arts '17, Kingston, Ont.; Rev. A. D. Cornett, Arts '07, Theol. '11, Oshawa, Ont.; D. G. Geiger, Sc. '22, Toronto, Ont.; G. J. Smith, Arts '12, Sc. '15, Kingston, Ont.

## CHOIR, ORCHESTRA PRESENT GREAT BACH MASTERPIECE

"I THINK this will be the most significant performance in the musical history of Kingston. Nothing like it has been attempted here before." Such was the statement of Dr. George Humphrey, professor of psychology at the University, and it was made at the final rehearsal of the St. John Passion, presented in Convocation Hall on March 20. It sums up neatly and adequately what was, indeed, a very effective and, in one sense, a somewhat novel performance of this great work of Bach, by the University choir and string orchestra under the direction of Dr. Frank Ll. Harrison, professor of music at Queen's.

The St. John Passion was first conducted on Good Friday of 1723, in the gallery of St. Thomas's Church, Leipzig. Bach, as was his custom, conducted from the harpsichord, his choir and orchestra in front of him, singers to the right, instrumentalists to the left. At the back of the gallery towered the larger of the church's two organs, with its elaborate case in baroque style.

After the manner of this traditional performance, Dr. Harrison conducted from a harpsichord-style pianoforte, on a stage arranged to suggest the setting of a church gallery. The University choir of twenty-four members and string orchestra of sixteen had as background a painted scene, representing a baroque organcase, designed and executed by John Straiton, Arts '45, of Kapuskasing, Ont.

Both choir and orchestra drew on talent provided by the University staff and students and by the City. In addition, the part of the Evangelist, who sings the narrative, was taken by Harold Clark, well-known C.B.C. tenor of Toronto. The part of Christus was sung by Bernard Hartshorn, talented Kingston baritone. As is traditional, these two singers took their places on either side of the conductor. Other solo parts were taken by Marjorie Peebles, '45, of Kemptville, Berna Sheridan, '45, of Soperton, and Mary Macleod, '44, of Alexandria. Assisting at the pipe organ in the gallery was Iris Ivey, '44, of Oshawa.

The performance under Dr. Harrison was noteworthy as an exception to the usual modern practice of using large massed choirs and orchestras; it was a highly successful attempt to restore the balance between choral and instrumental forces as originally intended by Bach and to regain the eighteenth-century atmosphere of the authentic Bach passion.

---

## QUEEN'S COMPOSER HIGHLY PRAISED

MISS PHYLLIS GUMMER, Arts '40, daughter of Dr. C. F. Gummer, professor of mathematics at Queen's, shared honours with Miss Jean Fraser, of Mount Allison University, in a concert of their own compositions given in Conservatory Hall, Toronto, on February 28. Miss Gummer and Miss Fraser, both of whom were winners of scholarships in the Canadian Performing Right Society's competitions for young composers, gave a programme of unusually wide range, embracing chamber work, songs, violin, piano and organ compositions.

MISS GUMMER

Miss Gummer's work especially received high praise. The reviewer in the *Canadian Review of Music and Art,* after stating that her compositions displayed maturity and genuine musical thought, fine writing for the most part, and a much more than competent grasp of musical material, goes on to say:

". . . I am inclined to think that one work above the others fulfilled more completely every demand that one might make of a composition, and that was the song, "The Journey." Here Christina Rossetti's words were wedded most exquisitely to a fine melodic line of grace and loveliness in its own right, and these were bound the more indissolubly by the happiest of accompaniments. In all her work Miss Gummer showed herself to be possessed of real musically creative thought, and capable of producing a fine harmonic texture of great delicacy and strength."

These Canadian hard-rock miners of the R.C.E. have just finished a project somewhere in Scotland. Its importance can be judged by the presence of two generals and a brigadier at the closing of the switch for the final shot. The Canadian Army officer standing next to the switch box in the top picture is Lieut. H. A. Hosking, Sc. '33. Lieut. Hosking is seen in the background of the bottom picture.

## ON HIS MAJESTY'S SERVICE

PILOT OFFICER B. W. MARTIN, Com. '34, who was reported missing after the fall of Singapore, is now known to be safe somewhere in the Far East. He had been stationed in Singapore with the radio division of the R.A.F. since last August.

* * * *

Capt. J. E. Nichol, Med. '31, who joined the R.C.A.M.C. last September, arrived in England a few weeks ago. His overseas duties began in a preliminary way in mid-Atlantic when he performed a successful emergency appendectomy.

* * * *

Lieut. D. J. McIntyre, Sc. '40, of the R.C.E., has been instructor for the past seven months in military engineering and oi/c N.C.O. classes, 1 Cdn. Eng. Rein. Unit, Canadian Army Overseas.

* * * *

Sgt. Rosell F. Tees, Arts '41, who joined the R.C.A.F. a year ago and who went overseas shortly afterwards, is now reported as being interned in Eire.

* * * *

Below is the twenty-fifth in the series of monthly lists of those who have joined some branch of the fighting services:

Royal Canadian Air Force—AC. Harry Beckett, Sc. '34, Flt. Lt. Gordon Bicum, Med. '22, LAC. H. E. Davis, Sc. '43, Flt. Lt. G. H. Emery, Med. '39, FO. L. M. Gibson, Med. '38, FO. H. G. Kelly, Med. '40, Flt. Lt. R. J. Livesey, Med. '40, Sqdn. Ldr. G. E. McCormick, Com. '36, FO. J. K. B. Robertson, Arts '38, FO. G. H. Sprague, Med. '39.

Royal Canadian Air Force (Women's Division)—Lily Saunders Arts '24, Doreen Thurston (extramural).

Royal Canadian Naval Volunteer Reserve—Surgeon Lt. H. F. MacInnis, Med. '41, Sub-Lt. R. L. Weir, Sc. '36.

Royal Canadian Army Medical Corps —Major F. H. Bonnell, Med. '35, Major K. E. Hollis, Med. '14, Capt. J. A. Robertson, Med. '40.

Royal Army Medical Corps — Major Howard R. Duval, Med. '32, Capt. J. Stuart Young, Arts '34, Med. '38 (29th C.C.S. West African Forces).

Royal Canadian Army Pay Corps — Lieut. G. A. Lidington, Com. '41.

Royal Canadian Artillery—Lieut. W. G. Milliken, Com. '42, Lieut. W. A. Reid, Arts '41.

Infantry—Lieut. W. G. Denny, Arts '40, Lieut. Douglas McIntyre, Com. '39.

Royal Canadian Ordnance Corps — Lieut. J. O. Gage, Sc. '42, Lieut. W. E. Hanna Sc. '42, Lieut. C. E. McGaughey, Arts '38, Lieut. H. C. McKinnon, Sc. '42, Lieut. F. S. Newman, Sc. '42, Lieut. W. F. Rannie, Arts '38, Lieut. G. W. Thompson, Sc. '41.

## MEDICAL ALUMNUS MISSING IN NEAR EAST

MAJOR NORMAN I. McLEOD, Arts '28, Med. '34, of Kingston, has been reported missing in India since February 22, according to a cable received by his mother from the secretary of the military department, India Office, London, England. Major McLeod received a commission in the medical corps of the Imperial Army shortly after graduation. He took a training course for six months in England before going to Egypt, where he was attached to the staff of military hospitals, first in Alexandria and later at Cairo. In 1936 he was transferred to India, where he spent some time at the brigade laboratory, Barielly. He has latterly been P.A.D.M.S. with the 17th Indian Division.

## QUEEN'S DOCTOR PRISONER OF WAR

CAPT. W. R. Crowe, Med '22, who went to England early in the war to serve with the Royal Army Medical Corps, has been officially reported by the department of national war services as a prisoner. In January, 1940, he left his base in Scotland for the Near East, arriving there after a voyage around the Cape of Good Hope. Shortly afterwards he was posted to a commando unit that went to Crete, and on July 1 of last year he was captured. Dr. Crowe practised for a number of years at Minden, Ont., and was accompanied overseas by his wife, formerly Ruth Shaw, of Orangeville, Ont., who joined the staff of the Beaver Club in London.

## GRADUATES ON IMPORTANT AERONAUTICAL WORK

OUTSTANDING among Queen's men engaged in aeronautical work for war purposes are two brothers, Franklin and John Dobson, both graduates of Queen's in electrical engineering. Franklin Dobson, who obtained his degree with

FRANKLIN DOBSON

JOHN DOBSON

honors in 1932, is the designer of a special troop-carrying type of aircraft recently accepted by the United States Government. Three hundred are to be built as soon as possible. Following his graduation, Mr. Dobson did special work in aeronautical theory for two years at the Kaiser Wilhelm Institute, Gottingen. His active interest in one of Germany's leading glider clubs was halted, however, when Hitler assumed power.

John Dobson, who graduated in 1940, is officer in charge of meteorology at the R.C.A.F. station in Yarmouth, N.S. He joined the Canadian meteorological service shortly after graduation, and a year ago was put in charge at Yarmouth.

---

## QUEEN'S GYMNASIUM "ATTENTION AREA"

WITH the raising last month of the sky-blue flag of the R.C.A.F. in front of the Gymnasium, the campus has assumed an added military aspect. The flag, which is hoisted each morning and lowered at sundown, makes the building an "attention area" for servicemen.

R.C.A.F. detachments of airmen taking special courses at Queen's and at the Royal Military College are quartered in the Gymnasium under Commanding Officer Flt. Lt. R. L. Houlding.

## MYSTERY PLAY THRILLS THREE AUDIENCES

WITH a happy selection and combination of talent, the Queen's Faculty Players and the Drama Guild presented a three-act mystery-comedy in Convocation Hall on the evenings of February 2, 3 and 4. *Love From a Stranger,* an "atmosphere" play by Agatha Christie and Frank Vosper, performed with confidence and polish by a very capable group of actors, proved to be a welcome departure from the more usual sophisticated comedy or hilarious farce repertoire of student players.

Starring for the women and the Faculty Players was an experienced actress, Miss Violet Miller, who carried her rôle, perhaps the most difficult of the play, with enthusiasm and deftness. Starring for the men and the Faculty Players was C. B. Wade, instructor in accounting at Queen's; his long experience in acting the suave and smooth-tongued villain fitted him perfectly for his leading part. One of the outstanding features of the performance was Mrs. E. C. Kyte's interpretation of the voluble and tactless aunt. Her exceptionally fine acting and her humorous contribution did much to carry the play successfully through the always-difficult first act.

In the minor leads were two members of the Drama Guild, Bea Grant, Arts '44, of Kingston, and Mike Keegan, Arts '44, of Bermuda. Both were excellent, though neither had much previous experience in dramatics. Excellent, too, in the supporting rôles of gardener and doctor, respectively, were E. C. Kyte, university librarian, and Wyatt MacLean, Arts '44, of Brockville; their considerable experience in playing character rôles stood them in good stead.

Properties, under the direction of Mrs. E. E. Watson and Mrs. N. W. Buerger, were very good and excellently handled. Sets and stage crew were under the able and watchful eye of Dr. William Angus, director of dramatics. The final scene of *Love From a Stranger* was one of the most effective ever witnessed in a Queen's production, and was the result of ingenious work by Dr. H. M. Cave.

Professor Henry Alexander, of the department of English, was the very competent director. He was assisted by Bill MacKenzie, Arts '43, of Oakville, who co-ordinated the activities of the Faculty Players and Drama Guild.

## TWO TRUSTEES ELECTED BY UNIVERSITY COUNCIL

H. G. BERTRAM, Sc. '10, of Dundas, Ont., and D. H. Laird, Arts '98, of Winnipeg, Man., have been elected to the Board of Trustees by the University Council. They were the only members of the Council to receive the requisite number of nominations prior to March 31 and hence were elected by acclamation. They will serve for the ensuing three years.

Mr. Bertram, who is president of the John Bertram and Sons Company, Limited, and who has been a member of the Council since 1940 and a member of the Board of Directors of the General Alumni Association since 1936, is a newcomer to the Board of Trustees. He succeeds the late Senator H. H. Horsey. Mr. Laird has been a Trustee since 1928.

## QUEBEC MINING REPORTS AVAILABLE TO ALUMNI

THE Department of Mines and Maritime Fisheries of the Province of Quebec has recently issued two reports in which graduates of Queen's in mining, metallurgy or geology may be interested. These are:

First, the annual report on the mining industry of the Province for 1940. This is a useful document for those interested in the Quebec mining industry.

Second, a special geological report on the Matapedia Lake Area. The area covered by this report comprises about 700 square miles and, extending southward from the St. Lawrence, includes parts of the counties of Matane, Matapedia and Rimouski.

These reports are published in both English and French, and may be obtained free upon request addressed to the Deputy Minister of Mines and Maritime Fisheries, Quebec City, Que.

## SPRING CONVOCATION TO BE HELD SATURDAY, MAY 16

SPRING Convocation for Arts, Theology and Science, formally terminating the one hundred and first session of the University, will take place in Grant Hall at 3.00 o'clock on the afternoon of Saturday, May 16.

The annual meeting of the Board of Trustees will be held in the Douglas Library on the evening of the same day. Other events scheduled for the week-end include the annual meeting of the University Council, and the semi-annual meeting of the Board of Directors of the General Alumni Association.

A special Medical Convocation is being held in Convocation Hall at 3.00 o'clock on Monday, April 13. The closing of the final-year term in Medicine some six weeks earlier than usual necessitated this arrangement.

## OLD ATHLETIC GROUNDS SOLD BY UNIVERSITY

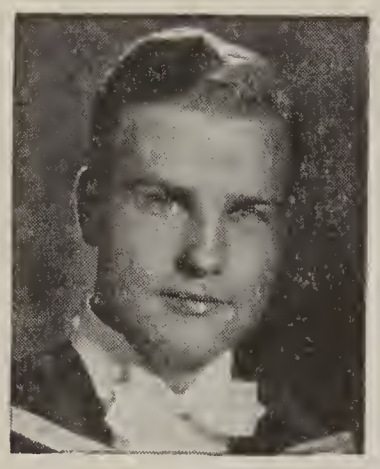

THE University has sold to the Kingston Board of Education the property known as the "Old Athletic Grounds," lying south of Earl Street at the west end of the city. This land will be used for the time being as a general sports field for the Kingston schools and will eventually serve as a school site. The property was purchased by Queen's in 1902 and was used for athletic events until the opening of the new Richardson Memorial Stadium in 1921.

Hundreds of Queen's alumni will have fond memories of the Old Athletic Grounds, where many a noted football battle was fought with the forces of McGill and Varsity and where, prior to 1908, many a championship was won. They will recall the old wooden grandstand on the west side, the narrow-seated bleachers strung out on the east, and the old street-car spur that ran into the south end of the field from Union Street. They will visualize the little old car that used to serve as a dressing-room for the visiting teams.

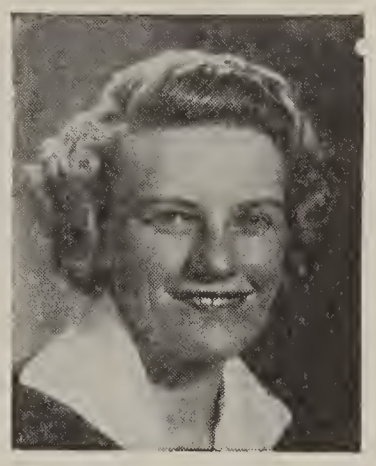

A lot of water has run under the bridge since those days.

## ALUMNI WIN VALUABLE GRADUATE SCHOLARSHIPS

THE Eleanor Tatum Long graduate scholarship in structural geology at Cornell University, Ithaca, N.Y., has been awarded to H. A. Quinn, Science '41. The scholarship has a value of $1200.

H. A. QUINN

MISS HEMLOW

Mr. Quinn graduated from Queen's last year with his B.Sc. in mining and has been back at the University during the past term doing postgraduate work in geology. His main work at Cornell, towards his Ph.D. degree, will be the preparation of a thesis on "The Structural Control of Ore Deposition at the Preston East Dome Mine," South Porcupine, Ont.

Miss Joyce Hemlow, Arts '41, has been awarded the Marty Memorial Scholarship for the year 1942-43, which she expects to hold at an American university.

Coming to Queen's from Nova Scotia, where she had been teaching, Miss Hemlow took her B.A. in 1941 with first-class honours in English. She spent the past year working towards her Master's degree, which she expects to receive at Convocation this spring.

---

## FIVE MEMBERS OF STAFF SPEAK OVER CFRC

ADDRESSES on the following subjects were given by members of the University staff over Queen's radio station CFRC during March: "Sanitary Engineering and the War," Prof. J. B. Baty; "Contemporary American Drama," Prof. William Angus; "Dumas and Marbeau," Dr. Glenn Shortliffe; "Drama—Shaw and Galsworthy," Prof. H. Alexander; "Public Health Laboratory," Dr. James Miller.

## CAMPUS BRIEFS

FIRST prize in the Andrina McCulloch scholarship contest in public speaking was won by J. A. Richardson, Arts '43, of Winnipeg. Runners-up in the finals were C. H. Vipond, Med. '44, of Ottawa, and F. B. Lee, Sc. '45, of Ottawa. Further awards were made to Louise Burka, '43, of Calgary, Jack Wheelton, Arts '43, of Windsor, J. W. Harding, Sc. '43, of Amherst, E. E. Baxter, Arts '42, of Bloomfield, A. H. Hollingsworth, Arts '42, of Brockville, and A. Rabinowitz, Arts '43, of Montreal. The prizes ranged in value from $110 to $16.

* * * *

N. A. Grandfield, Sc. '42, of Hamilton, has been awarded the annual prize of the Engineering Institute of Canada for 1941.

* * * *

Ken Phin, Arts '44, of Whitby, has been appointed editor-in-chief of the *Queen's Journal* for 1942-43.

* * * *

Guest speakers at the March luncheon of the Commerce Club were the Hon. Humphrey Mitchell, Federal Minister of Labour, who dealt with present-day labour relations and the Government's policies in connection therewith; and Mr. R. S. Carey, personnel superintendent of the Hudson's Bay Company, whose topic was "A Career in Merchandising."

* * * *

Miss Jean Royce, Registrar of the University, gave the main address at the annual dinner of the Levana Society, held in Ban Righ Hall on March 18. At the annual meeting of the Society, Miss Wilda V. Baker, '43, of Dalhousie Mills, Ont., was chosen as president for the next session.

* * * *

The $100 Victory bond raffled among the students as part of the fund-raising effort of the Queen's War Aid Commission was won by Miss Donna G. Young, '44, of Bath, Ont.

* * * *

Col. R. G. Whitelaw, Commandant of the Officers' Training Centre at Brockville, Ont., was guest speaker at the annual regimental dinner of the Queen's Contingent, C.O.T.C., held in Grant Hall

on Friday evening, March 13. About 200 officers, warrant officers and N.C.O's were present. Lt.-Col. L. J. Austin, mess president, presided.

* * * *

Wing-Officer L. W. Crowther, of the Women's Auxiliary Air Force, addressed the members of the Levana Society on March 11, upon the organization and work of the W.A.A.F.

* * * *

In the annual elections of the Engineering Society, P. A. Cain, Sc. '42, of Creighton Mine, Ont., was chosen as president for the 1942-43 session.

* * * *

The Queen's Theological Society has chosen W. J. Rogers, '43, of Parham, Ont., as its president for next year.

* * * *

With the presentation of "Topaze" at the Tivoli theatre in Kingston, the Queen's French Club brought to the Kingston screen its second French comedy this season.

* * * *

Principal Wallace gave the final of his three annual talks to freshmen and freshettes in Grant Hall on March 5. The Principal discussed philosophy and psychology—the world of the mind, and the forms of beauty as created by man.

* * * *

Sir Cedric Hardwicke, noted stage and screen actor, gave a most interesting informal talk to the students on March 6.

* * * *

At a special "open house" and dance held in Grant Hall on March 7, the sum of $60 was raised by the students to aid the undergraduates of Mount Allison University who suffered heavily through the recent destruction of their residence by fire.

* * * *

Classes in Arts and Science closed on April 2, and examinatione began about a week later. Final-year classes in Medicine finished on March 25, and the Dominion Council examinations started on March 26. The other Medical years are continuing until the regular closing date, May 1.

* * * *

Stewart Webster, Arts '43, Fort William, has been elected president of the Arts Society for 1942-43.

## A.M.S. COLOUR NIGHT CLOSES SOCIAL SEASON

ANOTHER social and athletic season was brought to a successful end by the A.M.S. "Colour Night", held in Grant Hall on the evening of March 6. Mr. Lew Hayman, coach of the Toronto Argonauts, was guest of honour at the dinner, and gave an invigorating talk in the course of which he analysed and praised the famous "Queen's Spirit" and showed how necessary the possession of such a spirit was to win the game of life. Others who participated in the programme were Vice-Principal W. E. McNeill, Dean John Matheson, Mrs. R. C. Wallace, Johnny Edwards, Arts '37, director of athletics, Dr. L. J. Austin, Wing Commander W. M. Keddie, Sc. '30, and Jack Day, Arts '23, honorary president of the Boxing, Wrestling and Fencing Club. Dorothy Wardle, Arts '42, president of the Alma Mater Society, acted as chairman of the banquet.

LEW HAYMAN

Before his address, Mr. Hayman presented awards to two outstanding University athletes; the Royal Todd trophy to W. H. (Pepper) Martin, Arts 45, Toronto, voted the most valuable player on the junior football team; and the Senator Powell trophy to Neville Rivington, Sc. '42,

Carp, Ont., as the most valuable player on the Tricolour hockey team.

The James Bews trophy, emblem of interyear athletic supremacy, went to Med.'44; and the Van Horne cup, the laurel of Eastern Ontario hockey, was awarded to the Queen's hockey squad. A senior Q with two stars went to N. L. Williamson, Med '42, New Liskeard, Ont., and

MISS DOROTHY WARDLE

the QII's to those who had won them. The Jack Day trophy was given to Peter Cain, Sc. '43, Creighton Mine, Ont., as the most outstanding member of the B. W. and F. Club.

Wing Commander Keddie, officer commanding the Norman Rogers Airport, presented a new trophy to the University, to be awarded each year to the outstanding Queen's basketballer. This cup was donated by men of the airport in appreciation of the hearty co-operation between the University and the airport, and of the generosity of the former in permitting the airmen to use its athletic facilities. Gordon McDonell, Sc. '45, Kingston, was the first recipient of the award.

As "students in the second term of their final year, who, maintaining a satisfactory academic standing during their undergraduate course, have rendered valuable service to the University in non-athletic, extra-curricular activities, namely the major offices of student government, journalistc work, debating, dramatics," the following received Tricolour plaques: Margaret Clark and Dorothy Wardle, Ottawa; H. M. Campbell, Elgin, Ont., Norman Grandfield, Hamilton, J. H. Houck, Brampton, Ont., C. R. McLean, Vancouver, Robert Motherwell, Ottawa, and W. R. Preston, St. Catharines.

The A.M.S. dance, which followed the dinner, was a most enjoyable affair, with the Maurice Allen campus orchestra supplying excellent music. Roy Bunston, Sc. '45, Ottawa, was convener of both the dinner and the dance.

---

## 1941-42 SPORTS SUMMARY

BELOW are the highlights of campus sports during the past term:

Jan. 18—The senior hockey team won the Van Horne series from Belleville, after eliminating Kingston in the semi-final round.

Feb. 7—Science '45 won the intramural swimming championship.

Feb. 8—The junior basketball team swept the Junior E. O. B. A. league in record time, taking four straight wins from the Y. M. C. A., R. A. F. and K. C. V. I.

Feb. 17—Science '45 won its second championship, winning the intramural hockey title.

Feb. 18—Science '43 again secured the boxing and wrestling championship.

Feb. 20—The Water Follies proved extremely popular for four performances.

Meds. '46 captured the intramural basketball championship.

Feb. 22—Medicine won the interfaculty basketball title.

Feb. 23—Science '44 won the intramural skiing title.

Feb. 24—Science defeated Medicine, to win the interfaculty hockey title.

Feb. 28—Douglas Tetu, Ottawa, secured the honours of the gymnastic meet for Science '42.

March 1—Science '43 outpinned Arts '44 in the bowling tournament.

March 3—The Kingston Combines won the intermediate E. O. B. A. championship. The Tricolour team fell to second

place, after being beaten by the R. M. C. and Garrison intermediates.

March 4—Meds. '44 remained at the top in inter-year sports, thus forcing Science to relinquish the Bews trophy for the first time since its presentation.

March 15—Leo Rosentzveig, Arts '42, Montreal, defeated Frank Lee, Sc. '45, Ottawa, in the intramural table-tennis tournament, to retain his championship. Over two hundred people witnessed the final match, which was played in the Gym as an added feature to the Journal-Levana basketball game.

* * * *

Among other winners in the Students' Union contests were: bridge — Jack Houck, Arts '41, Brampton, and Stuart Robertson, Sc. '43, Niagara Falls; snooker—Michael Roga, Sc. '45, Kirkland Lake; chess—Eric Sorenson, Sc. '42, Kingston.

* * * *

Interfaculty sports, heretofore supervised by the Athletic Board of Control, will be governed by an intramural rules committee, headed by the director of athletics, until after the war, when they will regain their former status. The A. M. S. has also appointed a committee to investigate the possibilities of presenting a sports award to worthy applicants during wartime.

---

## EMPLOYMENT OPPORTUNITIES IN PERSONNEL FIELD

THERE is a considerable demand in Canada at present, particularly in war industries, for university graduates who have had experience in personnel work.

It is therefore suggested that any Queen's alumni who would be interested in learning of personnel opportunities send a resumé of their qualifications and training either to the Employment Service at the University, or to Professor J. C. Cameron, head of the Industrial Relations Section of the School of Commerce.

THE STUDENTS' MEMORIAL UNION

# AT THE BRANCHES

## Toronto

ON the evening of March 25, about one hundred and twenty-five Queen's men met at a dinner and smoker at the Granite Club. Because of the demands of war industry and war services the attendance was not so high as usual, but those who were present did their best to make up for the absence of the others.

The guest speaker was Dr. Malcolm Wallace, principal of University College, University of Toronto, who addressed the meeting on the subject of reconstruction and the part that education would have to play in the post-war period. Starting with the peculiar truth that man was almost capable of making a paradise on earth but as yet had not succeeded, Dr. Wallace traced the troubles of the world to man's incapacity to translate his dreams into actualities. This incapacity characterized all history, and the present time was no exception. One of the needs of the world was for men of education to remember that in the realm of politics the professional man, with several years' experience in his profession, was a babe in arms in public matters. A serious post-graduate study of public affairs by mature graduates was suggested as a solution. This study should not be a part-time affair, but one organized and directed by experts, with the advantage of mutual contact of mature minds.

The thanks of the meeting were expressed to Dr. Wallace by Dr. W. R. Patterson, past-president of the Toronto branch.

At the head table were Prof. J. F. Macdonald, of the University of Toronto; W. P. Ferguson, principal of Danforth Technical School; Dr. B. T. McGhie, deputy minister of health for Ontario; J. C. Macfarlane, vice-president of the Canadian General Electric Company; W. H. Browne, secretary of the Moore Corporation; D. I. McLeod, of McLeod, Young, Weir and Company; M. J. Aykroyd, of the Bell Telephone Company (who acted as chairman); Dr. Malcolm Wallace; R. E. Story, president of the branch; Dr. C. C. Goldring, superintendent of schools for Toronto; Rev. G. B. McLennan, minister of Manor Road United Church; E. C. Gill, assistant general manager of the Canada Life Assurance Company; R. M. Smith, deputy minister of highways for Ontario; and Dr. W. R. Patterson.

Entertainment during the dinner was provided by Ken Van Wyck, a second-year student from the University of Toronto, who delighted his audience with a number of Lancashire selections; and by a unique xylophone artist who also worked musical miracles with wine glasses, using his fingers for a bow and producing excellent results. After the dinner, films were shown through the courtesy of the Bell Telephone Company and the Canadian General Electric Company. Following this, bowling, bridge and billiards were enjoyed. The attendance prize, which was donated by the Northern Electric Company, was won by F. E. Grimshaw. Smokes were provided through the kindness of Messrs. N. Slater Limited, Hamilton.

The committee in charge of this very successful affair—one of the best ever held by the branch—was headed by M. J. Aykroyd, and included Messrs. Simpson, Slinn, Gow, Collyer, Foster, Currie, Platt, McNeely, Young, McEachern and Bailey.

MRS. W. H. CLARKE of the Canadian Women's Voluntary Services, addressed the annual meeting of the Alumnae branch at the University Women's Club on April 1. Mrs. J. G. MacGregor (Eunice Simpson), Arts '23, conducted the meeting and welcomed the new president, Miss Elizabeth Macpherson, Arts '24. Miss Dorothy Parsons, Arts '34, treasurer of the war work fund, reported that the receipts during the year had been as follows: knitting groups, $152; donations and talent money, $103; money-making projects, $506; alumnae treasury, $141; summer school, $37; To-

ronto branch association, $98. The expenditures had included: sewing materials, $133; knitting, $125; donations to the Red Cross, $300; "blankets for Britain," $13; British war guest at Queen's, $100.

Miss Anita Martin, Arts '22, convener of the sewing group, stated that 368 garments had been completed. Miss Edna Poole, Arts '07, knitting convener, reported 292 pounds of finished articles sent to the Red Cross. Mrs. A. L. Scace (Jean Simmons), Arts '26, announced that subscriptions and pledges for the University Centenary Endowment Fund had been $1,327.

## Births

**Bishop**—At the Private Patients' Pavilion, Toronto Western Hospital, on March 12, to Major J. W. Bishop and Mrs. Bishop (Mary Fraser), Arts '35, a son.

**Booth**—On February 7, in Toronto, to LAC. Donald J. Booth, Arts '38, and Mrs. Booth (Frances Dargavel), Arts '38, a daughter (Cherry Elizabeth).

**Butler**—At the Royal Victoria Hospital, Montreal, on March 29, to C. W. Butler, Com. '37, and Mrs. Butler, a son (Ian Charles Whittier).

**Collins**—At the Niagara Falls General Hospital, on January 15, to Kenneth F. Collins, Sc. '41, and Mrs. Collins, a daughter (Marianna Louise).

**Collyer**—At the Private Patients' Pavilion, Toronto General Hospital, on March 30, to Cyril Collyer, Sc. '23, and Mrs. Collyer, a daughter.

**Cranston**—At the Victoria Hospital, Renfrew, Ont., on March 24, to Capt. F. W. Cranston, Sc. '36, and Mrs. Cranston, a daughter.

**Curtis**—At the Kingston General Hospital, on March 14, to Prof. C. A. Curtis, of the economics department at Queen's, and Mrs. Curtis, a daughter.

**Emery**—On September 5, 1941, to Flt. Lt. George H. Emery, Med. '39, and Mrs. Emery, a son.

**Freeman**—On April 6, to Dr. N. V. Freeman, Arts '15, Med. '22, and Mrs. Freeman (Gertrude Deadman), Arts '22, of Battersea, Ont., a daughter (Virginia Ruth).

**Hunter**—At the Private Patients' Pavilion, Toronto Western Hospital on March 22, to L. M. Hunter, Sc. '36, and Mrs. Hunter, a daughter.

**MacKay**—At Soldiers' Memorial Hospital, Orillia, Ont., on March 17, to Ross MacKay, Sc. '23, and Mrs. MacKay, a daughter.

**McNab**—At the Private Patients' Pavilion, Toronto General Hospital, in March, to K. G. McNab, Arts '27, and Mrs. McNab, a son.

**O'Connor**—On April 5, at the Hotel Dieu Hospital, Kingston, to Dr. M. J. O'Connor, Med. '34, and Mrs. O'Connor, of Ogdensburg, N.Y., a daughter.

**Partridge**—At the Kingston General Hospital, on April 10, to Mr. John A. Partridge and Mrs. Partridge (Margaret Muir), Arts '40, a son.

**Pound**—At the General Hospital, St. Catharines, Ont., on March 22, to W. T. Pound, Sc. '29, and Mrs. Pound, a son.

**Robertson**—At the Kingston General Hospital, on March 13, to Dr. Edwin Robertson, professor of obstetrics at Queen's, and Mrs. Robertson, a daughter.

**Walker**—On March 31, at the Hotel Dieu Hospital, Windsor, Ont., to Mr. James M. Walker and Mrs. Walker (Gladys Thomas), Arts '35, a son (Thomas James).

## Marriages

**Cathcart**—On February 28, in St. Mathias Church, Ottawa, Dorothy Marguerite Cathcart, Arts '39, to Dr. Ivan Woolsey. They will live in the Park View Apts., Kingston.

**Gardner**—On March 14, at St. Matthew's Anglican Church, Ottawa, Lillian Myrtle Gardner, Arts '39, to Mr. Gavin Henry Young, of Port Arthur, Ont.

**Meanwell-Bonham** — On February 20, in the Morgan Memorial Chapel, Queen's University, Elizabeth Burrows Bonham, Arts '42, daughter of J. C. Bonham, Sc. '15, and Mrs. Bonham (Marion H. Brown), Arts '19, of Walkerville, Ont., to Henry Bennett Meanwell, Sc. '42. The bride was given in marriage by Prof D. S. Ellis, Arts '07, Sc. '10, head of the department of civil engineering at the University.

**Patterson**—On March 14, in Halifax, N.S., Gwendolyn Lawrence, daughter of Lt.-Col. and Mrs. J. E. Lawrence, to Lieut. William C. Patterson, Sc. '38, of the R.C.N.V.R.

**Robertson**—On March 14, in St. Clement's Anglican Church, Toronto, Dorothy Vie Brady to Flying Officer David Nicholson Sneddon Robertson, Arts '34.

**Weston**—On December 29, 1941, in Hart House Chapel, Toronto, Ruth Adell Weston, Arts '34, to Pilot Officer C. E. Stephens. They are living in Brampton, Ont.

**Young**—On April 4, in Danforth Baptist Church, Toronto, Phyllis Taylor to Paul Barclay Young, Arts '35.

## Deaths

**Bolton** — Dr. Elmer Bolton, Med. '06, passed away suddenly on February 10 in Vancouver. Born in Belleville, Ont., in 1885, he attended the schools of that city before entering Queen's in 1902, where he graduated with his M.D. in 1906. He had been practising in Vancouver for many years, and was physician for Court Stanley Forest, I.O.F., since 1922, having been re-elected regularly every year. The following tribute was paid to him in the I.O.F. publication of his district: "He was the ideal family physician, quiet and patient, loved by the children, trusted by the parents. Nothing was ever too much trouble for him if there was real sickness, and no court of our society was better served by its physician." Surviving are his wife, three sons and one daughter.

**Dandurand** — Senator Raoul Dandurand, LL.D. '27, prominent French-Canadian Liberal and Government leader in the Senate, died suddenly at the Ottawa General Hospital on March 11. He had just recently been guest of honour at a Senate function during which he was presented with a bust of himself, as a token of esteem and affection. The ceremony was planned for his eightieth birthday last November, but was postponed until after the new year. A keen student of international and domestic politics, Senator Dandurand, last surviving senator appointed by Sir Wilfrid Laurier, for almost half a century exerted a very great influence on parliamentary life in Canada. He was a stout defender of the League of Nations and represented his country at several of its meetings, being president of the sixth assembly of the League at Geneva in September, 1925. He was born in Montreal in 1861 and attended Laval University, where he graduated in 1882. The following year he was called to the Quebec Bar and was created a Queen's Counsel in 1898. He wrote several important books on subjects of law, but his principal activities were in connection with politics and his wide business associations. In 1898 he was also appointed to the Senate, and when the Liberal Government once again took over the reins of office in 1921 under Rt. Hon. Mackenzie King, Senator Dandurand became a member of the ministry as secretary of state and also government leader in the Senate. During his many years in the Senate he added colour to the debates. He had an engaging presence and spoke fluently in both French and English. His life was conspicuous for the vigour with which he espoused the causes which he believed to be for the best interests of Canada. He was made a knight of the Legion of Honour by the French Government in 1891, an officer in 1907 and a commander in 1912. For his services during the First Great War to the French and Belgian relief funds he was made commander of the Belgian order "Pour la Couronne" and was given the gold medal of La Reconnaisance Francaise.

**De Muy**—Following an illness of only one day, Alderic Timothy De Muy died at his home in Chatham, Ont., on February 3. He had been a member of the teaching staff of Chatham Collegiate Institute for two years prior to his death. The late Mr. De Muy was born at Smiths Falls, Ont., received his early education there, and for several years was employed by the Canadian Pacific Railways. He was a member of the Brotherhood of Railway Trainmen. While situated at Smiths Falls, he took extramural work at Queen's and received his B.A. degree in 1938. He then attended the Ontario College of Education and subsequently entered the teaching profession. He was keenly interested in athletics and was also well known as a vocalist and an amateur actor. In Chatham he was closely associated with local and district musical organizations. Surviving are his wife, formerly Eva Bouchard, Arts '24, his mother, a sister, and two brothers.

**Gillespie**—Eminent eye, ear, nose and throat specialist in Duluth, Minn., for many years, Dr. Henry Norven Gillespie, Med. '96, died suddenly on March 27. Dr. Gillespie was born in Kingston and received his education in the local schools before entering Medicine at Queen's, where he graduated with his M.D. degree at the age of twenty-one. After leaving Queen's, he practised for several years in Mason City, Iowa, and then did postgraduate work in England and Scotland. Upon returning to the United States, he started his practice in Duluth. He was married to Elizabeth Alice Brice of London, England, who survives him along with five sisters and two brothers.

**Harten**—Prominent educationalist in New Jersey for many years and latterly associated with the Gregg Publishing Company, New York, George H. Harten, Arts '99, died at his home in Roselle, N.J., on October 21, 1941. He had been in poor health for several years. Mr. Harten was born in Merrickville, Ont., and later moved to Gouverneur, N.Y., where he attended the Gouverneur Academy. In 1895 he registered in Arts at Queen's, graduating with his B.A. in 1901. He devoted the greater part of his life to educational work, as classroom teacher, high-school principal and superintendent of schools. During the first world war he served with the War Camp Community Service, doing most of his work at Spartenburg, South Carolina. He joined the staff of the Gregg Publishing Company in 1921. Surviving are his wife and two sons.

**Kidd**—Known as the first missionary to loggers of the British Columbia coast, Rev. William James Kidd, Arts '02, Theol. '07,

died in Edmonton, Alta., on March 25 at the home of his daughter, Mrs. W. A. MacMillan. The late Mr. Kidd was born at Prospect, Ont., and attended schools in Carleton Place before enrolling as an Arts student at Queen's in 1898. He received his B.A. in 1903 and his B.D. in 1907. After several years of missionary work in British Columbia he moved to Alberta, where he was minister of the United Church at Okotoks. In 1936 he was transferred to Clover Bar and continued in this charge until taken seriously ill several months ago. He is survived by two daughters, two sisters and seven brothers, among whom are Rev. C. E. Kidd, Arts '02, Theol. '07, of Gananoque, Ont., and Dr. C. B. Kidd, Med. '15, of Leduc, Alberta.

**Race**—On March 6, Virginia Race, Arts '43, daughter of Mrs. W. B. Race (Mary D. Harkness), Arts '06, and the late W. B. Race, Arts '03, LL.D. '33, died at her home in Kingston. She was born in Sault Ste. Marie, Ont., in 1916, and later moved to Brantford, where her father was principal of the Ontario School for the Blind. She attended Dufferin school and the collegiate institute in Brantford and was a graduate of the Margaret Eaton School of Expression, Toronto. For a short time she was physical instructress at the Y.W.C.A. in Brantford. A few years ago she moved to Kingston with her mother and sister, Isabel, who is also a student at the University.

**Swingler**—Russell H. Swingler, Sc. '37, assistant engineer in the airways branch of the Department of Transport for the past four years, died at the Civic Hospital, Ottawa, on March 20 from injuries suffered in a fall from a fire escape on March 10. The accident occurred when he attempted to use the fire escape as a short-cut to the garage in the basement of the apartment block in which he lived. Mr. Swingler, who was in his twenty-ninth year, was born in Port Arthur, Ont., a son of Mr. and Mrs. Charles Swingler. He was educated in Port Arthur public schools and collegiate institute, and entered Queen's in 1933, where he received his B.Sc. with honours in mechanical engineering in 1937. He was appointed a junior engineer in the civil aviation branch of the Department of Transport shortly afterwards and had been with the department since that time. He was officer commanding the Falkland Sea Cadets of Ottawa, and the excellent progress of this group was due largely to his interest and untiring efforts. He is survived by his wife, formerly Wanda Morris, Arts '37, of Smiths Falls, whom he married in 1940; his parents; two brothers, now in the R.C.A.F.; and a sister.

R. H. SWINGLER

## Notes

### 1880-1889

**W. R. Givens**, Arts '88, who was seriously ill during the past winter, is now reported convalescing at his home in St. Petersburg, Florida.

**F. R. Parker**, Arts '87, is living at 1722 Church St., Elmira, N.Y.

**Rev. Dr. W. G. Mills**, Arts '85, is minister emeritus of St. Paul's Presbyterian Church, Los Angeles, Calif. He lives at 3489 Second Ave., Los Angeles.

### 1890-1899

**Dr. J. A. Crozier**, Arts '97 (M.D. McGill), has been practising since 1903 in Port Arthur, Ont., with the exception of the war years when he was medical officer of the 8th Bn. overseas.

After graduating from Harvard he spent one year as Dalton fellow and graduate assistant in pediatrics at Massachusetts General Hospital, and last year he was E. H. Bradford research fellow at Harvard Medical School.

**J. A. Martin**, Arts '36, has been appointed research chemist at the International Nickel Company of Canada, Copper Cliff, Ont.

**Bruce Megill**, Sc. '35, underground superintendent at Aunor Gold Mines, Timmins, Ont., since the property went into operation over three years ago, left recently to take a position as assistant manager at the new Dominion Magnesium Company's undertaking at Haley Station, Ont. where a $6,000,000 plant is being built for the recovery of this strategic war material.

**Lieut. A. F. Meiklejohn**, Arts '30, of the Stormont, Dundas and Glengarry Highlanders overseas, has been promoted to the rank of captain.

**N. W. Martison**, Sc. '39, is assistant to the general superintendent at the Aldermac Copper Corporation, Arntfield, Que.

**G. W. Motherwell**, Arts '37, is teaching in the collegiate institute at Picton, Ont.

**Capt. E. T. Munro**, Sc. '37, now serving with the R.C.S. overseas, has been promoted to the rank of major.

**W. C. Newman**, Arts '39, is on the general office staff of the T. Eaton Company, Toronto.

**C. R. Ross**, Sc. '39, has joined the staff of the Dominion Rubber Company, Montreal. He lives at 1506 St. Mark St.

**Flt. Lt. K. H. Running**, Med. '36, has been gazetted a temporary squadron leader in the medical branch of the R.C.A.F.

SUN LIFE OF CANADA
"assures Security"
HEAD OFFICE - MONTREAL

**Rev. T. H. Smith**, Arts '38, Theol. '41, is in charge of the Watson-Leroy pastorate of the United Church in Saskatchewan.

**Miss Jean Williamson** Arts '38, is teaching in the continuation school in Port Carling, Ont.

**A. R. Wood**, Sc. '34, of the Department of Public Works, Ottawa, will be transferred to Saint John, N.B., about May 1.

**H. D. Worden**, Sc. '35, has been chief engineer at Jerome Gold Mines, Biscotasing, Ont., since 1941.

**Miss Dorothy Zufelt**, Arts '39, has been teaching French and music in the high school at Markham, Ont., for the past year.

### 1940-1941

**Dr. Charles Agro**, Med. '41, has been on the interne staff of the Hamilton General Hospital for the past year.

**M. R. C. Amaron**, Arts '41, is supervisor of French for the Department of Education in Quebec. He is co-author (with S. J. MacGowan) of "Jouons," published by the Macmillan Company in 1941.

**T. E. Annable**, Arts '40, is teaching in the high school at Winchester, Ont.

**Miss Helen Cairns**, Arts '40, is on the staff of the Aluminum Company of Canada, 158 Sterling Road, Toronto.

**W. I. Cook**, Arts '41, teaches mathematics and science at the Strathcona Academy in Outremont, Que.

**Miss Margaret Farquharson**, Arts '41, is a nurse-in-training at the Toronto General Hospital.

**Rodrigue Gosselin**, Sc. '40, is dust and ventilation engineer at the Sigma Mines, Bourlamaque, Que.

**R. G. Lill, Sc.** '40, is now sub-surface engineer for Trinidad Leaseholds Limited, Trinidad, B.W.I.

**F. K. McKean**, Sc. '40, who joined the staff of the Braden Copper Co. at Rancagua, Chile, after graduation, is now level boss at Terriente Mine.

**G. W. Matheson**, Arts '42, is assistant geological engineer at the McIntyre-Porcupine Mines, Schumacher, Ont.

SPUN ROCK WOOL
HEAT COLD SOUND
INSULATION

**SPUN ROCK WOOL**
(Reg'd.)

A resilient, long-fibred insulation made from molten rock. Proof against Fire, Vermin, Vibration and Corrosion. Recommended for cold-storage; sound-proofing and acoustical treatments; all industrial purposes up to 1000 F. Made in standard forms for home insulation; exported in bulk form.

**Spun Rock Wools Ltd.**

THOROLD, ONTARIO

J. Buss, Sc. '19 C. R. Buss, Sc. '27

**R. A. Milliken**, Arts '40, is with Defence Industries Limited, Nitro, Que.

**H. F. Mott**, Arts '40, teaches in the Belleville Collegiate and Vocational Institute.

**J. G. Patterson**, Sc. '41, has joined the staff of the Northern Electric Company, Montreal.

**Jean-Pierre Potvin**, Sc. '40, has joined the staff of Canada China Clay and Silica Limited, St. Remi d'Amherst, Que.

**W. T. Ross**, Sc. '41, has been with the Ste. Anne Paper Company, Beaupre, Que., since graduation.

**S. W. Sellers**, Sc. '41, is with Defence Industries Limited, Nobel, Ont.

## General

**Prof. H. Alexander**, of the English department at Queen's, was recently elected honorary president of the newly established speech arts section of the Ontario Educational Association.

**Mr. John Irwin**, Montreal, member of the Board of Trustees at the University, has acquired control of Consolidated Dyestuff Corporation, Ltd. The name of the company has been changed to Irwin Dyestuffs Corporation. Mr. Irwin's ownership eliminates all German interest that was in the company prior to the start of the war.

**Principal R. C. Wallace** was guest speaker at the annual convention dinner of the Ontario Music Teachers' Association, held in Toronto early in April. His subject was "The Place of Music in a liberal education."

# *Take a Bit of Queen's with You*

*To the Graduating Class, 1942, and to all Queen's graduates, nothing can take the place of a suitable memento of Queen's. When you set out on your travels, take with you one of these books. Wherever you go, there will always be a bit of Queen's.*

## QUEEN'S UNIVERSITY: A CENTENARY VOLUME, 1841-1941

**Edited by Principal R. C. Wallace.** A souvenir volume of the Centenary celebrations of October, 1941. The central theme was a review of the progress of thought in the humanities, in theology, in the sciences and in medicine, during the hundred years of Queen's. $2.50.

## DANIEL M. GORDON: HIS LIFE

**By Wilhelmina Gordon.** "An important addition to Canadian history. Daniel Miner Gordon was very much a man of his time and to study his life is to gain new knowledge of the movements in education and religion which exercised Canadians."—*Saturday Night.* $3.50.

## SOME GREAT MEN OF QUEEN'S

**Edited by Principal R. C. Wallace.** "The loyalty, devotion and *esprit de corps* of Queen's students and graduates are well known. What is perhaps not so well known outside the University circle is that this spirit is due almost wholly to the brilliant, consecrated scholars, who, through the years, have constituted the faculty." — *United Church Observer.* $1.50.

The Queen's Review

Vol. 16 KINGSTON, ONT., MAY, 1942 No. 5

# "A MAKER OF QUEEN'S"

"WHAT a heritage I have! Memory brings to me the young, smiling faces, the thoughtful faces, the friendly faces, of the boys and girls of years gone by. And why not? They were all my family."

Such were the closing words of Mr. James G. Bews' address of appreciation after the Montreal Medal for 1942 had been presented to him, as one of the "Makers of Queen's," during an informal ceremony at his home in Kingston on the evening of May 1.

Because of his recent illness, Mr. Bews was unable to go to Montreal for the presentation of the medal; so Montreal came to him, in the persons of Messrs. Gordon R. Maybee, Sc. 25, Arts '27, president of the Montreal Branch of the General Alumni Association, and J. B. Stirling, Arts '09, Sc. '11, immediate past president of the branch. Present also at the ceremony were Mrs. Bews, Capt, D. C. Bews, Med. '35, and his wife, formerly Mary E. Woodsworth, Arts '36, Mrs. F. R. Maybee, of Napanee, Ont., Principal Wallace, Vice-Principal McNeill, and Deans Clark, Etherington and Matheson.

Mr. Maybee explained how the Montreal Medal had been instituted by the Montreal Branch of the Alumni Association in 1938 as a means of doing honour to members of the University staff who had made "meritorious contribution to the honour of Queen's University." The first recipient of the medal was Professor Alexander Macphail, in 1939; and the second, Dean John Matheson, in 1940. Mr. Bews is the third.

The medal is struck in solid bronze, measures two and a half inches in diameter, and is suspended from a three-foot loop of half-inch Tricolour ribbon. On the obverse are embossed the Queen's crest, scroll and motto, topped by the words "Maker of Queen's," and flanked by the year of presentation. On the reverse is embossed and engraved the following inscription: "The Montreal Medal, Presented by Montreal Branch, Queen's Alumni, to James G. Bews for Meritorious Contribution to the Honour of Queen's University."

Mr. Bews' first connection with Queen's was in 1902 when, as physical instructor at the Kingston Y.M.C.A., he was induced to spend part of his time at the University, teaching basketball and other games to the students. In 1907, after the erection of the Old Gymnasium, he was appointed physical director at Queen's and held this important post until 1938. During the latter half of this period he also acted as superintendent of buildings. In 1938 he was made full-time superintendent of buildings and grounds.

The following citation, prepared by Mr. Maybee, supporting the award of the Montreal medal, was read by Mr. Stirling; it was in the form of a large parchment, beautifully inscribed in writing of copper-plate perfection — the work of Mrs. Barré, a venerable Montreal lady of seventy-three years:

## "JIMMY" BEWS

### MONTREAL MEDALLIST FOR 1942

James G. Bews was born sixty-seven years ago in Dundee, Scotland, and came out to Canada when five years of age. He attended Kingston public schools and was an excellent student, passing his entrance at the age of twelve. Becoming a stone mason and bricklayer by trade, he lost no time in applying the principles of his craft to building a "true foundation" for all his dealings with his fellowmen.

It is now nearly thirty-five years since James Bews came to Queen's as physical director, in the days when the Old Gymnasium was erected. "Jimmy," as he is affectionately known by countless hundreds of alumni, has come to be truly loved by all who were fortunate enough to come under his influence. During his long association with Queen's, Jimmy's greatest desire has been to try to make every student feel that he belonged to a

great university, which carried with it traditions of loyalty and service. In the athletic sphere his constant aim has been to teach the true love of wholesome sport and the cultivation of gentlemanly behaviour, whether as winner or loser. It can quite truthfully be said that these desires have been fulfilled. Our sister universities have always recognized us as worthy and doughty opponents, and we are credited with those qualities of good sportsmanship which naturally should and do come from those who are developing high ideals of life.

It has often been said that Queen's freshmen have hayseeds in their hair. Many students do come directly from farm communities where athletics are not organized and competitive spirit is unknown. To Jimmy Bews much credit is due for interesting this type of student in active competition, for developing latent natural ability to excel in rugby, wrestling, track and field and other sports, and for discovering not a few who have become champions and intercollegiate record holders. His quiet poise and subdued enthusiasm have instilled confidence into the shyest aspirant to a place on the team.

Being an excellent all-round athlete himself, Jimmy never begrudged of his time or energy in training his charges to become more proficient in their chosen sport; so much so that it never occurred to him that he was getting on in years, and that it was unwise to keep up a pace normally designed for the young and vigorous. Nature has finally warned him that he can no longer fully enjoy the contests in which he once revelled. While his activities at present are necessarily limited, Jimmy Bews will always be an integral part of the gymnasium, stadium and campus of Queen's.

Because he has always fostered and encouraged the highest attributes of sport; because he has given three sons and a daughter to Queen's; because he symbolizes all that is best and truest about the Queen's spirit; because he has been deeply appreciated and respected by graduates and students alike for more than three decades; and because he is one of Nature's gentlemen, the Montreal Branch of the Alumni Association takes pride in awarding the Montreal Medal for 1942 to a most zealous "Maker of Queen's"—James G. Bews.

## PRESENTATION AND APPRECIATION

After the citation, Mr. Maybee formally presented the medal; and Principal Wallace, on behalf of the University, paid further high tribute to the very great service that James Bews had rendered to Queen's through almost four decades.

The *Review* is happy to be able to print in full the address of thanks which Mr. Bews had prepared for delivery in Montreal, but which on account of his illness he was unfortunately forced to condense when speaking at his home:

Mr. President, Members of the Montreal Alumni Association of Queen's University, Ladies and Gentlemen—

I am indeed happy to be with you tonight, to renew the friendships of past years, to recall old times with all their pleasant memories, and, greatest of all surprises, to receive from your hands the Montreal Medal, with which you have so graciously associated my name as a "Maker of Queen's."

This wonderful gift, coming at my time of life and practically just as I have relinquished my work in the gymnasium to a younger man, is the crowning event of my career at the University, and my joy and happiness at receiving this unexpected honour are hard for me to describe.

My job at the gymnasium was one that lent itself peculiarly to the making of sincere and lasting friendships, whilst at the same time giving me unlimited opportunity to study and understand the problems that confronted the average student coming to the University for the first time, and in many cases leaving home with all its familiar and chastening influences for the first time also. It was therefore the most natural thing in the world for me to offer advice, sympathy and encouragement, and likewise censure and criticism such as would come from a father under the circumstances.

With such a background and in this delightful atmosphere of intimacy and companionship, it was my great good fortune to spend the best years of my life with my family, as I always thought them. Is it

any wonder, in view of all this, that I find it exceedingly hard to pick words to express adequately the depth of my emotions, my thankfulness and my deep appreciation of the great honour you have conferred on me tonight? I admit that my eyes are misty as I say these words.

Medals have been awarded for ages to mark winners in all branches of athletics, for gallantry in action, for heroic deeds performed, and as reward for meritorious discoveries in science, medicine and other allied research work, as well as in literature and art. Such rewards have particular value to those who win them, and generally are an incentive to continued effort in the various fields of endeavour.

THE MONTREAL MEDAL

But this Montreal Medal presented to me this evening has a far greater significance than any of these. I like to think of it as a symbol of the love, affection and loyalty of students to an old teacher. As such its value is increased a thousandfold, and I shall cherish and wear it with justifiable pride.

As I look back over the years that have gone all too quickly and reflect on the fine character of the students who have passed through the halls of Queen's—men and women who have led, directed and moulded the lives of new generations and who will continue to do so—I am very humble in knowing that I had some small part in a period of exceptional growth at Queen's. Not least of the blessings that have fallen to my lot is that four of my own children have graduated from our beloved university, and so you will readily understand how deep its roots are entwined in my heart.

Perhaps some of the older graduates, when they recall the limited accommodation of thirty or more years ago as compared with the adequate space now provided in all faculties, will wonder how they managed to get in all their classes. For during that space of time we have added seventeen new buildings for classroom, laboratory or other purposes, and almost all of the older structures have been remodeled and fireproofed, until today we have at Queen's as fine a group of well-spaced, substantial educational buildings as can be found anywhere in Canada. Such an intensive and extensive construction programme in a comparatively few years is a glowing tribute to the cautious and careful administration of the financial resources of the University, and carries with it the finest traditions of Scottish thrift and foresight.

My first introduction to Queen's came in 1902 when, as a member of the local Y.M.C.A., I was asked to teach basketball to the girls at Queen's. At that time there was no gymnasium, but we found two rooms in the Old Arts Building that, when folding doors were opened, provided the only space available for a basketball court. And there, in what was then called the attic, we first played the game as far as the girls were concerned.

It would have been a simple thing to teach the game, but the first and important matter was to provide equipment, for there were no backboards or baskets and apparently no money to purchase them. It was then that I suggested that perhaps the male students could be induced to provide the necessary lumber for the backboards, whilst I undertook to make the baskets and nets. The response was immediate and a pile of boards, weather-beaten and suspiciously like the remainder of a fence that enclosed a portion of the grounds, was at my disposal. In the meantime I had fashioned the baskets from barrel hoops, with leather thongs for nets, which when erected allowed us to play the game.

As I look back on those practices I sometimes wonder whether the girls got more fun from putting the ball in the basket or from trying to get it out afterwards. The nets of that time were not

open as they are today and firmly caged the ball, and as the skirts worn then were ankle length, it was only a tall and extremely active girl who could jump high enough to dislodge the ball. So we invariably used a piece of broom handle, and it was only after repeated tries that the ball would finally be ejected from the basket and again put back in play.

The men students had the upper story of the Mechanical Laboratory for a gymnasium, where a pair of basketball nets and five swinging rings completed the equipment. A series of cross rods about eight feet from the floor made the playing of basketball as we now know it almost impossible, but these encumbrances developed a system of low passing and accurate bobbing that was interesting and most fascinating to watch. In the basement, in what is now the blacksmith shop, there still remains the shell of what used to be the only shower cubicle at the University, and it was there that the rugby teams of those days gathered to wash away the sweat and grime after practices and games.

I often wonder what the reaction of the student of today would be towards sport if he had to endure the doubtful cleansing properties of cold water, instead of the abundant hot water and sanitary arrangements, as well as the beautiful swimming pool with all its appointments.

Despite these handicaps we had grand teams whose wing lines would be equal to anything we have today, and fine athletes who played with energy and courage and surrounded the name of Queen's with all the finest attributes of good sportsmanship and, incidentally, always brought the biggest gates and most enthusiastic audiences to Toronto and McGill when we played on their home grounds.

There are many who can perhaps recall the scenes in the Old Gymnasium when our rugby team was dressing for the game, when players and students lent a hand in lacing up the canvas suits which were the familiar costume of the football player, and how the knees, elbows and shoulders were padded with towels lent, borrowed or extracted in various ways from the lockers until it was next to impossible to find a single one left. It was no uncommon sight to see players with odd stockings of various colour combinations; but that did not matter, they were going to play a game—it was the game that counted, not the matter of dress or equipment.

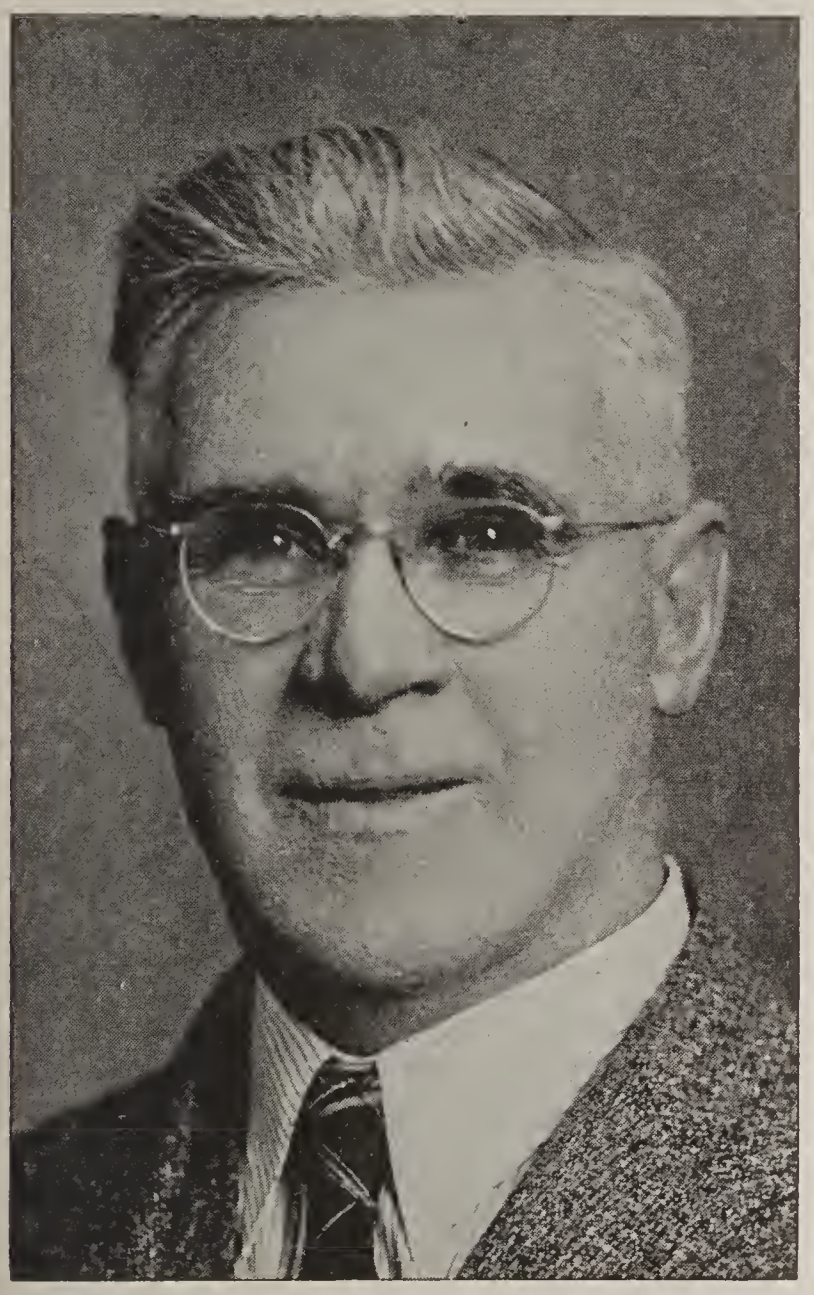

Our rugby teams rarely won a game, but that did not daunt them in the least. They never failed to fill every engagement, and when the proverbial Lady Luck favoured them, as it did once in a while, they were a happy and satisfied team who always took the occasional win with modesty and their losses like gentlemen and good sportsmen. This was the general condition of rugby at Queen's until the advent of Leadlay and Batstone, when a new era was ushered in that brought with it a series of victories beyond our fondest dreams.

There is no need to recall those years; they must be very vivid in the minds of those who travelled in any kind of vehicle with four wheels, often in coal cars, box cars, and even rode the rods to be with their beloved team and add their shouts to the hundreds of students who were more fortunate in their travelling experiences.

I had the great pleasure of first introducing physical training for the football squads as a conditioning measure, and its value was readily apparent and soon became general in all the universities. From what I could see and learn, our teams were worked harder and longer and possessed a greater degree of stamina and endurance than our rivals. Our boys often put forward their best efforts in the latter part of the game, much to the surprise of their opponents.

I remember when the senior rugby team was quartered in the British American Hotel it was usual to rout them out at 6.00 a.m. for morning drill, which was prefaced by a run out Ontario Street to Tête du Pont barracks, across the bridge to Barriefield, sometimes up to the fort, and then back to the market square, where they had twenty minutes of physical drill. They were a grand bunch of boys to work with, full of witty sallies and pranks, and there were few dull moments

in spite of the vigorous work they performed. It was when we were approaching the city end of the bridge one morning, after a faster than usual pace, that one of the boys shouted at the top of his voice, 'Say, fellows, I wonder what in hell Mr. Bews wants an automobile for!" It appears they all had similar views, for they all stopped and had a good laugh. That was typical of the many funny experiences that were of daily occurrence and made them such a grand team to work with. I loved every one of them.

"JIMMY" BEWS

But enough for the rugby teams! Let me remind you that we had Intercollegiate soccer championship teams more than thirty years ago, with such men as Foster, Whitehead, Pilkey, McDonald, McKenzie, Ball, MacLachlan, Fisher, Bissonnette, McNab and others of like calibre—splendid athletes every one of them, whose great strength as a team was due to skillful and unselfish combination effort. I remember going down to the photographers for a group picture in which Professor Macdonald, Professor MacClement and Principal Gordon were included as officers of the Soccer Club.

We also had hockey teams in those days that brought great renown to Queen's—with fine athletes, such as George Richardson, Marty Walsh, Dick Mills, Billy Dobson, Greg and Basil George, "Hod" Pennock, "Curly" Campbell, Vic Gilbert, Bert Daniels, "Buck" Crawford, Hugh Macdonnell and others, who bought their own outfits and played for the love of the game. It was not unusual to see these boys practising on a small pond, or on Caton's pasture, when it was impossible to make ice indoors in the old rink with its circular roof. Our hockey team of 1909 won the Intercollegiate Championship, then challenged the "Cliffsides" of Ottawa, and brought the Allan Cup to Queen's, the second year after it was presented for competition.

In 1908 we started to teach boxing, wrestling and fencing at the University, and in 1910 we staged the first meet of the newly organized Intercollegiate Boxing, Wrestling and Fencing Union. We had eleven championship bouts — five wrestling, five boxing and one fencing—to run off during the afternoon and evening of the same day, which made the contest not only a test of skill, but one of courage and stamina on the part of the competitors. Queen's won the championship that year, to the great joy of the students.

The following year, 1911, the meet was at McGill, and there with the same number of contestants we won every single event, or eleven championships. This is not likely ever to happen again. We now have seventeen events, and it takes two evenings and one afternoon to stage the meet.

The Boxing, Wrestling and Fencing Club at Queen's has had an interesting and successful career down through the years, and many championships have been won. Much of the success has been due to the zealous and energetic efforts of the students who are elected yearly to direct and encourage the large numbers who are fond of these vigorous games.

When I first came to Queen's, the most exciting and interesting event of the opening of the term was the initiation of the freshmen. The first fortnight was a period of secret meetings by the sophomores, to perfect their plans, and a corresponding period of uncertainty, doubt, and perhaps an element of fear for the freshmen, who never knew just when they would have to face the ordeal.

The "rushes," as they were called, one for each faculty, were productive of the most amazing and varied forms of indignity that inventive and fertile brains could devise, and each succeeding year brought a new form of treatment that strove to excel all performances of the past. I have photos of some of these encounters, which show in a realistic way how effective were the methods employed in transforming a white man into a scare crow, or another into a fair example of the extinct Dodo bird, by a liberal coat of oil and feathers.

The conquered freshmen were then treated to a ride on large wagons through the city streets. Innumerable banners with suitable slogans were given the freshmen to hold aloft during the parade and always caused much merriment. It was very funny to see a fine big roly-poly student, artistically painted and with only a fraction of his original clothing on his body, bearing a sign *If Mother Could Only See Me Now* and apparently entering into the fun, knowing full well that he would be doing the honours next year.

And then the mad scramble on Princess Street when the shoes of the freshmen were put in a pile and the signal given to get their own—something quite impossible and not achieved until they all arrived back at the gymnasium, when adjustments were generally completed to the satisfaction of all concerned. And what a sight the locker-room in the gym presented when all were assembled to remove the paint, grease and other mixtures by a liberal use of coal oil and other solvents! The floor was literally covered with parts of shirts, socks, trouser legs and sweaters, and a real clean-up job was the order of the day to restore the room to its normal state.

Despite the vigour and ruggedness of these rushes, it was unusual to find anyone bearing a grudge against another, and I may say that it was in these struggles that I found more than one wrestler who with training eventually became an Intercollegiate champion.

The initiation latterly has consisted of the freshmen showing distinctive ribbons on their coats, wearing the 'tam," and giving a dinner in Grant Hall to the sophomores.

But now, what a change at the University! Canada is at war, and everywhere intensive military training in all its branches is being taken by the students. Instead of going home at five o'clock, this hour is now the signal to assemble in one of the many classrooms for lectures in tactics, care of arms, and other essential duties of the soldier; whilst in the gun shed, groups of men are being taught to take apart and assemble the Bren gun with speed and accuracy. Fine weather finds every available spot on the campus covered with students doing squad and platoon drill; and the gymnasium floor resounds nightly to the pound of men engaged in rifle drill, first aid, and other divisions of military work.

The Boxing, Fencing and Wrestling room at the gym is filled to the doors with two-tiered bunks, as is also the women's gym, for the use of the radio section of the R.C.A.F., who take their lectures and practical work in the University buildings and their meals at the Students' Union. A large section of the men's locker room is given over to the administration and other services of the C.O.T.C. In fact, Queen's is playing a wonderful part in providing classroom space and training facilities to the limit of her ability, and is also conducting varied and intensive research work of great value to the war effort.

The women students are likewise doing their part; one can find them in a large room in the Old Arts building, sewing, knitting, making quilts and other necessary articles for overseas. And they are in earnest, too; you will see them run in between classes, take up their work, and stay at it until they have to report for their next lesson or lecture period. First

aid and ambulance work are also part of their training, and they are showing great spirit and enthusiasm in all they do.

Just now we have a great team at Queen's. It is composed of every man and woman, each doing his part cheerfully, and all imbued with the spirit that has made the University so greatly loved by her graduates and so honoured in the educational life of Canada.

How happy I am to be with you tonight—to recall the highlights of yesterday! Remember this! Remember the time! My memory is so full, and there are so many things I would like to talk about. But I must cease. Only let me thank you again for the joy and happiness that comes to me with this medal, and tell you of my great pleasure in knowing that my humble efforts were appreciated. The tenor of my thoughts is expressed in the following lines:

*Oft in the stilly night,*
*Ere Slumber's chain has bound me,*
*Fond Memory brings the light*
*Of other days around me.*

What a heritage I have! Memory brings to me the young, smiling faces, the thoughtful faces, the friendly faces, of the boys and girls of years ago. And why not? They were all my family.

---

## FOUR ALUMNI RECEIVE THEOLOGY TESTAMURS

TESTAMURS in theology were granted to four Arts graduates at the closing exercises of Queen's Theological College in the Morgan Memorial Chapel on April 22. The ceremony was conducted by Principal H. A. Kent.

Those completing their course were K. J. Crawford, Arts '39, Kingston, N. T. Holmes, Arts '41, Winchester Springs, Ont., A. M. Little, Arts '41, Metcalfe, Ont., and A. L. Shorten, Arts '40, Harrowsmith, Ont. O. E. Wagar, Arts '41, Napanee, Ont., had been laureated at an earlier function.

The students and their friends were addressed by Principal Wallace, Principal Kent and Rev. A. F. Shorten, whose son was among those receiving testamurs. "Theological education has no better friend that Principal Wallace," said Dr. Kent, in introducing him to the graduates. In his address Dr. Wallace remarked that "we of Queen's appreciate the relationship with the Theological College. The principle that religion and education cannot be separated should be adhered to; they must go on side by side."

Principal Kent noted that the present meeting marked the beginning of the second century of theological education at Queen's. He went on to say that the world outlook was not so black now as it appeared a year ago, and he exhorted the graduates to take courage from the events of the past. "There are not enough ministers," added Dr. Kent. "The church is not sending to the colleges enough men to become ministers to continue the teaching of religion in the churches."

Rev. Mr. Shorten congratulated the graduates on finishing their course, and especially upon their call to the Christian ministry and their endeavour to respond to it. "I congratulate you also on beginning your work in these days of challenge," said Mr. Shorten. "These are not the first dark and difficult days in history, and Christianity often has done its best work in dark and difficult days."

The Hugh Waddell and the Leitch Memorial scholarships, final-year awards valued, respectively, at $500 and $100, were won by Mr. A. L. Shorten.

---

## FORMER STUDENT WINS DISTINGUISHED FLYING CROSS

ONE of the heroes of the desert air war in the Middle East, Flt. Lt. Clifton Harper, a former extramural student of Queen's, was awarded the Distinguished Flying Cross early in April, three years to the day after he set out for England to join the Royal Air Force. Since that time he has fought in England, South Africa, the Middle East, Libya, Singapore, Sumatra, and about a month ago was transferred to India. Before joining the Air Force he taught school in his home town, Brighton, Ont., and in spare time did extramural work at Queen's from 1935 to 1938.

## QUEEN'S SCHOLARS RECEIVE IMPORTANT OUTSIDE AWARDS

EIGHT important fellowships, scholarships or other awards, in addition to those already announced in the *Review*, providing for postgraduate study in Canada or the United States have been won this spring by Queen's alumni. These are as follows:

A Royal Society fellowship, value $1500—J. E. L. Evans, of Winnipeg, who did graduate work in geology at Queen's in 1936-37 and 1937-38.

A grant from the Banting Foundation for further research in endocrinology at McGill University — Miss Eleanor L. Clarke, of Copper Cliff, Ont. Miss Clarke obtained her B.A. degree in 1939 with first-class honours in biology, and her M.A. in 1941. During her course at Queen's she also served as technical assistant in

MISS CLARKE

D. J. CONACHER

the department of pharmacology. Last year she was awarded the Marty Memorial scholarship, and since then has been engaged in research under Dr. Hans Selye at McGill.

A National Research Council fellowship, value $750—J. M. Harrison, M.A. '41, Winnipeg. Mr. Harrison was awarded an Arts research fellowship at Queen's last year and has since been working towards his doctorate in geology.

The Daniel L. Shorey travelling fellowship in the department of Greek language and literature at the University of Chicago—D. J. Conacher, B.A. '41, M.A. '42, of Kingston, who also qualified for the Charles Kendall Adams fellowship in Greek at the University of Wisconsin. Mr. Conacher was awarded the medal in Greek last year, and this past session has been assisting in the classics department at Queen's.

The Susan Lynn Sage fellowship in psychology at Cornell University, total value $650—J. H. Houck, B.A. '41, of Brampton, Ont., who has been doing M.A. work at Queen's during the past year on a Reuben Wells Leonard resident re-

J. H. HOUCK

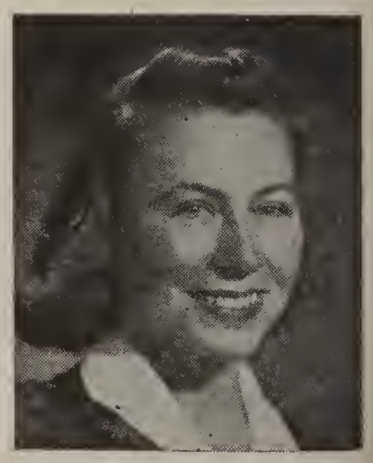

R. Y. MOIR

search fellowship. In the summer of 1941 Mr. Houck held a special fellowship at the Institute of World Affairs Salisbury, Conn., and this spring he shared with Miss Kathleen E. Butcher the Arts research travelling fellowship.

A National Research Council studentship, value $650, for further work at Queen's—R. Y. Moir, B.A. '41, M.A. '42, of Govan, Sask. Mr. Moir has held a large number of scholarships at Queen's in both physics and chemistry. He made the highest standing in Arts at the end of both his penultimate and final years, and won the medal in chemistry and the Reuben Wells Leonard resident research fellowship, under which he obtained his M.A. degree this spring.

MISS BUTCHER

MISS JEFFERY

A trustee fellowship at Smith college, total value $800—Miss Kathleen Butcher, B.A. '42, of Paris, Ont., who has also the honour of the Rebecca A. Green fellowship at Radcliffe College. Miss Butcher has had a brilliant record at Queen's, holding numerous scholarships through-

out her course. In her penultimate year she made the highest standing in the Faculty of Arts; and this spring she obtained the Prince of Wales prize for the best record of the final year, as well as sharing with Mr. J. H. Houck the Arts research travelling fellowship.

A fellowship at Radcliffe College, value $450—Miss Mary Jeffery, B.A. '42, of Paris, Ont., who has in addition the honour of a fellowship at Bryn Mawr College. Miss Jeffery will work at Radcliffe in the field of social psychology.

## COUNCIL HOLDS SIXTY-SEVENTH ANNUAL MEETING

CHANCELLOR the Hon. Charles A. Dunning presided at the sixty-seventh annual meeting of the Queen's University Council, held at the University on Friday evening, May 15. Forty-two members were in attendance.

In his message of greeting, the Chancellor extended a particular welcome to the new members of the Council—Dr. N. A. Brisco, Arts '98, dean of the school of retailing at New York University, Mrs. F. C. Casselman (Cora Watt), Arts '12, member of parliament for Edmonton East, and S. H. Henry, Arts '09, of Toronto, general secretary of the Ontario Secondary School Teachers' Federation.

Annual reports were presented by Principal R. C. Wallace, upon the work of the University during the past year and the plans for the next session; by Vice-Principal and Treasurer W. E. McNeill, upon the finances of the institution; by Director of Endowment G. J. Smith, upon the benefactions and grants received during the year; and by Lt.-Col. R. O. Earl, officer commanding the Queen's Contingent, Canadian Officers' Training Corps, upon the activities of the contingent and the other military units at the University.

Numerous matters pertaining to the general welfare of the University were discussed at length. These included the present trend of the students towards engineering, medicine and the pure sciences, rather than towards the humanities; the current high-school and matriculation examination system; and the possibility of collaboration between the University and leaders in Canadian industry and commerce in connection with the planning of courses of study.

The executive committee of the Council, consisting of Principal Wallace, Principal H. A. Kent, of the Theological College, Vice-Principal McNeill, Deans A. L. Clark, Frederick Etherington and John Matheson, Mr. J. M. Farrell, Mr. Francis King, and the secretary of the Council, Mr. G. J. Smith, was reappointed for the ensuing year.

## DOMINION GOVERNMENT AIDS MEDICAL STUDENTS

A PLAN of special military enlistment and of Government loans for the medical students of Ontario universities has been developed by the Dominion Department of Labour in collaboration with the universities. This arrangement solves the financial problem faced by the students in continuing their course under the new, accelerated schedule with its greatly reduced vacation periods.

In a recent announcement dealing with the matter, Labour Minister Mitchell stated that all medical students other than freshmen who needed aid and who agreed to enlist in the armed forces when they reached the second last year of their course would receive loans to enable them to continue their training. "The universities will select the students to be helped, and each university will administer its own fund and will make collection of the loans. When they reach the second last year of their course, students who are physically fit and have a good academic standing will be enlisted in the army. They will then be given leave of absence with pay until graduation, when they will be posted as medical officers."

The programme for the forthcoming Medical session at Queen's under the accelerated schedule is as follows:

First Year—The term will open during the latter part of September and close in the early part of May, as in former years. There will be the customary Christmas vacation.

Second Year—Opening of term, August 25; mid-term vacation, December 21 - January 2; end of session, April 12.

This class will begin the work of the third year on April 12, 1943, and carry through to December 19, with a mid-term vacation period of about two months.

Third, Fourth, Fifth and Sixth Years —Opening of term, June 2; mid-term vacation, August 3 - August 15; end of session, December 19. The fourth, fifth and sixth sessions for the first three of the above classes will begin on January 4, 1943, and carry through to July 10, with a mid-term vacation from March 29 to April 10.

The following detailed statement covering enlistment and the administration of student loans has been issued by the Medical Faculty:

Students about to enter the fifth and sixth years of their course who enlist in the armed forces will be given leave of absence, and will be paid $1.30 a day, plus $1.00 a day subsistence allowance, during these two years. During their subsequent eight months' hospital internship, they will receive $1.30 a day, but no subsistence payment. Undergraduates acting as interns will likewise receive no subsistence allowance.

Enlistments may be made in advance of the opening of the session, and pay and allowance will start immediately. Enlisted men may accept no other positions than hospital internships.

Students entering the second, third and fourth years who sign a written, witnessed agreement that they will enlist at the beginning of their fifth year will be eligible for loans, which will be provided by the Goverment and administered by the University. At its discretion the University may extend such help to men of the sixth year who demonstrate their need. Physical fitness is not considered up to the time of enlistment at the beginning of the fifth year.

Loans will be made only to students who could not without such assistance continue their course. The amount of each loan will be based on need and desert; a student repeating his year will not be eligible. Aid to a student shall be subject to discontinuance for cause.

The University will collect the loans for the Government, except that no loan shall be collected from the heirs or assigns of any student who may be killed or dies upon active service.

Students whose homes are outside of Ontario are asked to try to get help, including travelling expenses, from their own province; but they are not debarred from sharing in the fund administered by the University.

## UNIVERSITY OF MANITOBA HONOURS DR. MACKINTOSH

ON May 13 the University of Manitoba honoured Dr. W. A. Mackintosh, Arts '16 (Ph.D. Harvard), by conferring upon him the degree of Doctor of Laws in recognition of his great services to Canada in the field of economics and economic research.

Dr. Mackintosh, who is the Sir John A. Macdonald professor of political and economic science at Queen's and director of the School of Commerce and Administration, has been on leave of absence from the University since the start of the war, acting as economic adviser to Dr. W. C. Clark, Arts '10, LL.D. '35, deputy minister of finance at Ottawa.

While rendering valuable service to the whole of Canada through the numerous commissions upon which he has acted, perhaps Dr. Mackintosh's greatest contribution to the western provinces was in connection with his research into Canadian pioneer problems under the aegis of the American Geographical Society.

## CONVOCATION ON MAY 16 CLOSES 101st SESSION

ADDRESSING the new graduates at Spring Convocation on May 16, Principal Wallace dwelt on the duty of every alumnus of Queen's to help to the utmost in winning the war. To an audience including many students already in uniform, he said: "The fundamental criterion is that you use your abilities and your training in the highest service of your country at the present juncture, and that you do not rest satisfied until you feel that you are doing so."

Dr. Wallace's address followed the formal opening of Convocation by Chancellor Dunning, the singing of the ceremonial hymn, and the devotional exercises,

which were conducted by Rev. Dr. H. A. Kent, Principal of the Theological College. Dr. F. L. Harrison, resident musician, played a programme of appropriate music during the processional and recessional marches.

Speaking on behalf of the four honorary graduates, Hon. C. D. Howe, Minister of Munitions and Supply at Ottawa, suggested that one of the greatest responsibilities of the members of the classes now graduating from Canadian universities would be to help effect a satisfactory transition to a life of peace after the war had been won.

The degrees awarded by examination were as follows: B.D., 2; M.A., 16; B.A. (honours), 32; B.A. (pass), 138; M.Com., 2; B.Com., 25; M.Sc., 4; B.Sc., 112. One diploma in Medical Radiology was also granted. The Medical degrees had been conferred at a special Medical Convocaton, held on April 13.

Other features of the Convocation ceremony were the presentations of a portrait of the late Chancellor James Douglas and of a number of fine pictures for the University's art collection, and the awarding and announcing of the University fellowships, scholarships, medals and prizes.

## FOUR EMINENT CANADIANS HONOURED AT CONVOCATION

AT Spring Convocation on May 16, honorary degrees of Doctor of Laws were conferred upon Mr. V. K. Greer, Arts '11, chief inspector of public and separate schools for the Province of Ontario, Hon. C. D. Howe, minister of munitions and supply for the Dominion of Canada, and Mr. B. K. Sandwell, editor of Toronto *Saturday Night*. The degree of Doctor of Divinity was bestowed upon Rev. Alexander Ferguson, minister of St. Andrew's Presbyterian Church, Ottawa. The laureation citations, made by Principal Wallace, were as follows:

"Mr. Chancellor: I present to you Vanamber Kenneth Greer, teacher and administrator, whose services in the organization of sound educational methods in the public schools of this province have won for him the respect and devoted loyalty of instructors and teachers alike, to receive at your hands, from his Alma Mater, the degree of Doctor of Laws, *honoris causa*.

"Mr. Chancellor: I present to you Clarence Decatur Howe, engineer, builder, statesman, whose vision, organizing ability and indomitable energy have made Canada's part in supplying the munitions of war an outstanding contribution towards ultimate victory, to receive at your hands, the degree of Doctor of Laws, *honoris causa*.

"Mr. Chancellor: I present to you Bernard Keble Sandwell, economist, publicist, educator, stimulating expositor of literary tendencies, a wise critic of public affairs, and an authoritative voice in the advocacy of sound Canadian policy, to receive at your hands the degree of Doctor of Laws, *honoris causa*.

"Mr. Chancellor: I present to you Alexander Ferguson, a churchman learned in philosophy and in law, a devoted patriot who has given high service in war and in peace, and a preacher with words of compelling power, to receive at your hands the degree of Doctor of Divinity, *honoris causa*.

## CHANCELLOR DOUGLAS' PORTRAIT PRESENTED

AS a gift from the Douglas family, a portrait of the late Dr. James Douglas, Arts '58, Chancellor of Queen's from 1915 to 1918, was presented to the University at the Convocation ceremony on May 16.

The formal presentation was made by Mr. James Stuart Douglas, of Montreal, a son of the former Chancellor and a noted mining engineer. The painting, done in oils by Sir Wyly Grier, of Toronto, was gratefully accepted by Chancellor Dunning on behalf of the University.

Dr. James Douglas graduated from Queens with his B.A. degree in 1858. Throughout his eminent career he never lost interest in his Alma Mater, and in the course of time he became not only her highest officer but one of her most generous benefactors. Included among his gifts to Queen's and to Kingston were $150,000 in 1914 towards the cost of a

new library, subsequently given his name, $100,000 for general maintenance during the first three years of the Great War, and $100,000 towards the reconstruction of the General Hospital.

---

## ART FOUNDATION PRESENTS PICTURES TO UNIVERSITY

A NOTABLE group of twelve pictures was presented to the University at Convocation on May 16 by the Queen's Art Foundation. The presentation, which was the third gift of the Foundation, was made by R. M. Smith, Sc. '14, deputy minister of highways for the Province of Ontario.

Although the guiding principle of the Art Foundation is to create at Queen's an art collection representative of Canadian atmosphere and genius, the pictures chosen are not rigidly confined to Canadian subjects, nor are they necessarily the work of Canadian artists.

Thus, important items in the present group are a pair of pencil drawings by J. McNeill Whistler; and an oil painting by Mrs. M. A. Eastlake, presented in memory of her brother, the late Dr. J. Mackintosh Bell, Arts '99, LL.D. '24, which has for its subject "Shropshire."

Of special interest among the oils are two portraits by George Theodore Berthon, presented by Dr. Lorne Pierce, Arts '12, LL.D. '28, and Mrs. Pierce (Edith Chown), Arts '13, of Toronto; a landscape, "St. Tite des Caps," by the late Sir Frederick Banting, LL.D. '23, presented by Lady Banting; and a portrait called "Old Ned," by J. R. Tate, presented by the artist.

The vigorous style of Dr. Charles W. Jefferys, LL.D. '31, is represented by the water-colour painting, "The March of the North-West Mounted Police across the Prairies in 1847," which was presented by a few friends of the late Lt.-Col. W. P. Wilgar, Sc. '03, formerly professor of civil engineering at Queen's.

There are also several Canadian black-and-white pictures, of which the most interesting is an etching, "Thunder Clouds, Georgian Bay," by J. E. H. MacDonald, presented by Thoreau MacDonald.

## SOCIAL FUNCTIONS MARK CONVOCATION WEEK-END

IN honour of the recipients of honorary degrees, their wives, and other distinguished guests who were in Kingston for the Spring Convocation ceremonies, Principal and Mrs. Wallace entertained at a delightful luncheon on Saturday, May 16.

After Convocation, tea was served in the Gymnasium for the graduates, their friends and members of the University staff. This very enjoyable function was arranged by the Kingston branch of the Alumnae Association, under the convenership of Mrs. R. M. Winter, with alumnae of the General Hospital kindly lending their assistance.

On Saturday evening, the regular Convocation dance, sponsored by the General Alumni Association, was held in Grant Hall, with about five hundred graduates, students and friends in attendance. The music was supplied by the Vimy Orchestra. A special feature was a soft-drink booth operated in the corridor of the hall by members of the Red Cross Society.

The occupation of the Gymnasium and the Students' Memorial Union by the members of the Radio Technician's Detachment of the R.C.A.F. prevented the holding of the customary luncheon of the final-year class in Science.

---

## PRINCIPAL WALLACE SPEAKS AT MEDICAL CONVOCATION

"SOCIALIZED medicine is rapidly on its way," stated Principal R. C. Wallace in addressing the forty-two students who received their M.D.,C.M. degrees at the special Medical Convocation which took place in Convocation Hall on the afternoon of April 13. This ceremony, bringing to a close the eighty-ninth session of the Medical School, was held some five weeks earlier than usual because of the wartime speeding-up of the Medical course.

Stressing the need for socialized medicine in Canada, where the average annual income is little more than $1000, Dr. Wallace urged the new graduates to help give direction in the future to the policy of the committee now working in Ottawa

on socialized medicine legislation. "You should," said the Principal, "take a forward step in constructive thinking in this very important field."

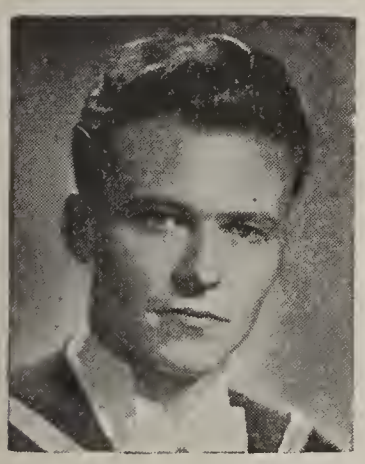

Chancellor the Honourable Charles Avery Dunning presided at the Convocation, laureated the graduates and awarded

DR. C. R. McLEAN

the prizes. The graduates were presented to the Chancellor by Dr. G. S. Melvin and hooded by Dr. W. T. Connell. Rev. Dr. H. A. Kent was chaplain of the day.

Major prize-winners of the final year were C. R. McLean, Moose Jaw, Sask., who was awarded the medal in medicine, the W. W. and Susan Near prize for highest standing throughout the course, the Dean Fowler scholarship, and the Edgar Forrester scholarship; L. J. Mulvi-

DR. L. J. MULVIHILL

DR. M. C. TROTTER

hill, Ottawa, Ont., who received the Neil Currie Polson memorial prize as the student adjudged by his teachers to be the best adapted to apply his training to practice, and the professor's prize in obstetrics and gynaecology; and M. C. Trotter, Collingwood, Ont., who won the John Franklin Kidd prize, the professor's prize in surgery and clinical surgery, and the Victor Lyall Goodwill memorial prize.

Other prize-winners were G. G. S. Moulds, Ottawa, D. H. Dixon, Winchester, Ont., W. H. Merrilees, Westport, Ont., G. K. Stilwell, Regina, Sask., J. E. Pollak, Prescott, Ont., R. W. McIntyre, St. Marys, Ont., D. R. Johnston, Kingston, Ont., J. A. D. Paul, Rouleau, Sask., M. A. Weaver, Burlington Ont., J. A. Begs, Westboro, Ont., and A. F. Hare, Regina, Sask.

On the afternoon preceding the Convocation, Principal and Mrs. Wallace entertained at tea in honour of the graduating students.

---

## ALUMNUS OF 1883 RECEIVES M.D.,C.M. DEGREES

AN interesting feature of the Medical Convocation on April 13 was the conferring *in absentia* of the M.D.,C.M. degrees upon Dr. Hugo Erichsen, of Birmingham, Mich., who received his licentiate from the Royal College of Physicians and Surgeons, in affiliation with Queen's University, in 1883. The degrees were conferred by special regulation.

Dr. Erichsen, who at present is tenth on the seniority list of Queen's alumni, graduated with his M.D. degree from Detroit Medical College in 1882, and was granted an M.D. by the University of Vermont in the same year, before receiving his L.R.C.P. & S. at Queen's in 1883.

During his long and active career Dr. Erichsen has occupied numerous important posts, including those of professor of neurology in the school of medicine at Chaddock College, Quincy, Ill., city physician for Detroit, Mich., and medical director for a great industrial organization. A man of wide interests, he has also done considerable writing, has been a skilled translator, a poet, a maker of gardens and a lover of music. He is a past president of the Cremation Society of America.

Among the honours and awards that have come to Dr. Erichsen are a Litt.D. degree from the College of the City of Detroit, honorary membership in the

Wayne County Medical Society, appointment by the French Republic as a Chevalier of the Ordre du Mérite Agricole in consideration of his valuable contributions to the literature of floriculture and horticulture, and a further French appointment as an Officier d'Académie française, which carries with it the decoration of the *palmes universitaires.*

---

## STAFF CHANGES ANNOUNCED BY BOARD OF TRUSTEES

MRS. JAMES A. RICHARDSON, Winnipeg, Man., and Mr. H. G. Bertram, Sc. '10, Dundas, Ont., were welcomed as new members of the Board of Trustees of the University at the semi-annual meeting of the Board, held in the Douglas Library on Saturday evening, May 16. Mrs. Richardson had been elected by the graduates in succession to the late Dr. O. D. Skelton, and Mr. Bertram had been chosen by the University Council to succeed the late Senator H. H. Horsey.

The Trustees approved the agreement with the Allied Broadcasting Corporation, Limited, under which the Queen's Radio Station, CFRC, surrenders its commercial broadcasting rights and reverts to its original position as an educational station. The new Kingston station, CKWS, operated by the Allied Broadcasting Corporation, will enter the field of commercial and general broadcasting about the middle of the summer; until that time CFRC will carry on as at present.

The following staff promotions were made in the Faculties of Arts and Applied Science; Assistant Professors J. C. Cameron (industrial relations section), R. L. Dorrance (chemistry), J. L. McDougall (political and economic science), H. H. Stewart (electrical engineering), and G. S. Graham (history), to be associate professors; Drs. H. M. Estall (philosophy), Benjamin Kropp (embryology), S. D. Lash (civil engineering), to be assistant professors.

The promotions in the Faculty of Medicine were as follows: Dr. N. E. Berry, assistant professor, to be full professor and head of the department of urology; Dr. R. C. Burr, lecturer in radiology, to be assistant professor and acting head of the department; Dr. C. M. Crawford, assistant professor of psychiatry, to be associate professor.

The following new appointments were made: Richard Norman Jones, B.Sc., Ph.D. (Manchester), to be lecturer in chemistry. Dr. Jones was born in Manchester, England, and has been at Harvard since 1937 as a research worker on the Commonwealth Fund Fellowship and a grant from the International Cancer Research Foundation. He will come to Queen's with a grant from this foundation for two years to be spent for graduate assistance, supplies and travelling. Major-General E. Schmidlin, to be professor of mechanical engineering and head of the department, succeeding Prof. L. M. Arkley, who is retiring this summer. General Schmidlin was formerly professor of mechanical engineering at the Royal Military College. Dr. M. W. M. Sloane, Med. '30, to be instructor in anatomy. Dr. Stephen W. Brouwer, to be Fellow in Medicine. Dr. Brouwer is a graduate in Arts and Medicine of the University of Wisconsin. He has recently been resident in Medicine at the Jefferson Hospital, Philadelphia, Pa. Drs. H. L. Batstone, Com. '26, Med. '32, and H. D. Wilson, both of the staff of the Ontario Hospital at Kingston, to be clinical assistants in the Faculty of Medicine.

Leave of absence was granted to Professors J. B. Baty (sanitary engineering), N. W. Buerger (mineralogy), John Stanley (biology), Israel Halperin (mathematics), Dr. P. A. McLeod (obstetrics and gynaecology), and Mr. R. M. Winter (director of extension), who have enlisted for war service.

The resignation of Mr. W. A. Wolfe, lecturer in mechanical engineering was received and accepted.

Reports were submitted by Principal Wallace, Vice-Principal and Treasurer McNeill, and Mr. J. C. Marfaclane, chairman of the endowment committee. The treasurer's report showed a small surplus after provision for the customary reserves. *These reports, together with those of the other departments of the University, are included in full in the annual "Principal's Report," copies of which may*

*be obtained by the graduates upon application to the Principal's Secretary, Queen's University.*

Col. Alexander Macphail, LL.D. '39, was re-elected to the board of the *Queen's Quarterly,* and Dr. Gerald Graham, Arts '24, was appointed to succeed the late Dr. Thomas Gibson.

Miss May Chown, Arts '11, and Mrs. C. H. McQuaig (Margaret Stewart), Arts '21, were re-elected to the Ban Righ Hall Board; Mrs. H. W. Harkness (Maude Brownlee), Arts '13, was appointed to succeed Miss Mary McCallum, Arts '16, who had resigned; and Mrs. D. W. Boucher (Thelma Bogart), Arts '27, was elected to succeed Mrs. James Richardson, who, as a member of the Board of Trustees, is now an ex-officio member of the Ban Righ Board.

Included in the report of the executive committee was a statement that an agreement had been made between the University and the military authorities whereby surplus C.O.T.C. funds paid to the University for quarters, and to the C.O.T.C. itself for administrative purposes, were being accumulated in a fund for a men's union, which would contain quarters for the C.O.T.C. The amount at credit at present was about $30,000.

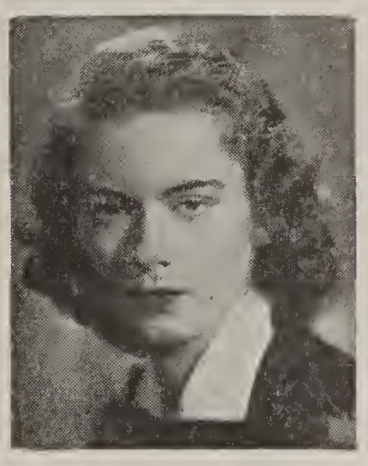

It was also reported that the old arrangement by which a considerabe number of separate summer-school and extra-mural fees were collected had been abandoned, and that henceforth there would be one inclusive fee of $30.00 a course. The new plan would become effective at the beginning of next session.

A further item dealt with alterations to the third floor of the New Medical Building, whereby the present animal quarters will be converted into research laboratories. A separate animal building will be erected between the New Medical Building and the Old Gymnasium. The cost of these changes is to be borne by the Government.

The executive committee of the Trustees was reappointed, and Dr. J. M. Macdonnell, Arts '04, LL.D. '41, was re-elected chairman of the Board for the ensuing year. Twenty members were present at the meeting, fourteen of whom were from centres outside of Kingston.

## DAUGHTER OF DR. HARKNESS KILLED IN MOTOR ACCIDENT

MARGARET HARKNESS, only daughter of Dr. H. W. Harkness, Sc. '13, Arts '15, assistant professor of physics at the University, and Mrs. Harkness (Maud Brownlee), Arts 13, met a tragic death on May 2 when a car in which she was driving collided head-on with another car on Highway No. 7, about eighteen miles west of Perth, Ont. The accident occurred shortly after 10 p.m., and Miss Harkness died an hour later at the Great War Memorial Hospital in Perth. She was on her way to visit relatives over the week-end.

MISS HARKNESS

Margaret Harkness was born in 1921 at Tsinan, China, where her father was a university teacher, and came to Canada with her parents about fourteen years ago. She had resided in Kingston since her father's appointment at Queen's in 1938, and was a fourth-year student in Arts at the time of her death. Popular among her classmates, she took an active part in student affairs, particularly in the work of the Drama Guild. Besides her parents she is survived by two brothers, Dixon and Harold.

## QUEEN'S GRADUATE IS YOUNGEST COLONEL

LIEUTENANT-COLONEL W. A. B. (Bill) ANDERSON, Arts '37, who has been stationed in Britain since December, 1939, arrived back in Canada on April 21, to take up staff duties at headquarters in Ottawa. At the age of twenty-six he is believed to be the youngest lieutenant-colonel in Canada.

Son of Major-General W. B. Anderson, who was in command of M. D. No. 3 for ten years before the war and who is at present living in retirement at Ottawa, Lieutenant-Colonel Anderson graduated in 1936 from the Royal Military College, where he was an outstanding football player and B.S.M. in his final year. He then attended Queen's and re-

ceived his B.A. degree in 1937. While at the University he played middle wing on the senior football team.

After graduating from Queen's he was stationed at Kingston with the R.C.H.A. until the autumn of 1938, when he was transferred to Winnipeg, subsequently becoming adjutant of the western field regiment with which he went overseas. He was promoted to the rank of captain in November, 1939. Posted to staff work in Britain he received his majority on regimental promotion in August of last year, and recently his lieutenant-colonelcy.

## THIRD FIRE-FIGHTING SCHOOL HELD AT QUEEN'S

UNDER the sponsorship of the Department of University Extension, in co-operation with the fire marshal of Ontario and the Dominion Association of Fire Chiefs, the third firemen's training school was held at Queen's on April 23 and 24. Forty-three members of fire departments of Eastern Ontario centres, 24 representatives of industrial plants, and 38 military men from the Kingston area were in attendance.

In his address of welcome, Principal Wallace stated that professional firemen faced particularly heavy responsibilities at present because of the war. To their normal duties were now added that of training civilians to combat fires. The University was happy to give support to projects which would encourage the wider application of knowledge and experience in this important field. Greetings were also extended by Dr. H. A. Stewart, mayor of Kingston and by Mr. James Armstrong, chief of the Kingston fire department.

The subjects dealt with at the conference were: "Arson, Sabotage and War Fires," W. J. Scott, K.C., fire marshal, Province of Ontario; "New Fire Hazards," E. J. Sait, fire prevention engineer, Canadian Industries Limited, Montreal; "Electrical Fire Hazards," A. C. Hanley, Sc. '18, district inspector, Hydro-Electric Power Commission of Ontario, Kingston; "Chemical Fire Extinguishers," W. J. Scott; "Ventilation and Salvage at Fires," Fire Chief J. J. O'Kelly, Ottawa, vice-president, Dominion Association of Fire Chiefs; "Fire Temperatures and their Effects on Building Materials," C. W. Caskey, deputy fire marshal for Ontario; "Chemistry of Fire," Prof. L. A. Munro, Queen's University; "Building Inspections," C. W. Caskey; "Resuscitation," Dr. J. W. Bell, provincial surgeon, St. John's Ambulance Brigade, Toronto; "First Aid in Fire Department Work," Dr. J. W. Bell.

The programme also included practical demonstrations of fire-fighting and A.R.P. equipment; and the showing of films on fires in industry, oil fires, and special war fires, including the handling of incendiary bombs and the methods of rescue from burning buildings.

## QUEEN'S MAN HEADS PROFESSIONAL INSTITUTE

JAMES G. WRIGHT, Sc. '17, of the Dominion Forest Service, Department of Mines and Resources, Ottawa, has been elected president of the Professional Institute of the Civil Service of Canada. His installation took place at the twenty-second annual meeting of the Institute, held in the Chateau Laurier on April 21 and 22. Mr. Wright joined the Institute in 1921 and has held offices both in the forest and forest products engineers group. For the past two years he has been second vice-president. His election as president is a tribute to his distinguished record both as a civil servant and as an active member of the Institute.

Mr. Wright was born in St. Louis de Gonzague, Que., in 1892, and received his early education there and at Valleyfield before coming to Queen's in 1913. He graduated in 1917 with the degree of B.Sc. in civil engineering, and in the same year passed his final examinations for Dominion land surveyor. In 1918 he entered the Dominion Civil Service in the surveyor-general's branch, transferring to the Dominion Forest Service in 1922. He is at present chief of the forest-fire research. His work in this connection has resulted in the Wright system of fire-hazard measurement. Under this system, tables are set up by which it is possible to prepare a daily index of fire hazard for any forest type and region on which data have been obtained. These

tables are now in daily use as a basis for the issuance of burning and travel permits, planning of field work in the forests, and the distribution of staff by forest protective organizations throughout Quebec, New Brunswick and the national parks of Western Canada.

## J. L. BRADBURY, Sc. '34, REPORTED DROWNED

OFFICIAL word has been received that Pilot Officer John Leslie Bradbury, Sc. '34, of the R.C.A.F., who was reported missing and believed killed in action on April 1, lost his life through drowning. The bomber which he was flying was forced down a mile off Cruden Bay on the Scottish coast. There were four occupants of the plane, two from Canada and two from the United States; the two Americans were saved.

Pilot Officer Bradbury was born in Aurora, Ont., in 1919, a son of Mr. and Mrs. Ernest Bradbury, and received his public and high-school education there. He registered in Science at Queen's in 1930, but remained for only two years. He went overseas last September after receiving his training at Dunnville, Ont. At the time of his enlistment he was a member of the Toronto police force. Besides his parents, he is survived by his wife and three children.

## SUMMER SCHOOL TO OPEN ON JULY 3

THE thirty-third session of the Summer School will open on July 3 and continue until the middle of August.

Classes in the various departments will be conducted as follows: classics, not yet decided; English, Dr. George Herbert Clarke, Prof. J. A. Roy and Dr. C. J. Vincent; French, Drs. W. M. Conacher and Glen Shortcliffe; German, Drs. H. Henel and Hilda Laird; history, Prof. W. E. C. Harrison, and Dr. J. P. Pritchett, of Queen's College, Flushing, New York; psychology and philosophy, Drs. D. O. Hebb, and T. A. Goudge, of the University of Toronto; economics and commerce, Prof. C. E. Walker and Dr. C. A. Curtis; biology, Dr. Benjamin Kropp and Dr. Norman Radforth, University of Toronto; chemistry, Prof. R. L. Dorrance and Dr. E. G. Taylor; mathematics, Drs. C. F. Gummer, Norman Miller, G. E. Edgett, and Prof. K. P. Johnston; physics, Prof. J. K. Robertson; geography, Mr. N. D. Runnalls, principal of the collegiate institute at Collingwood, Ont.

The School of the Fine Arts, which is being established this year, will provide an excellent opportunity for students to study art, drama and music: (a) For degree credit; (b) toward a certificate in art, drama or music; (c) as refresher courses. Art will be under the direction of Professor André Biéler, resident artist. He will be assisted by Mr. Edwin H. Holgate, of Montreal. Drama will be under the direction of Dr. Wm. Angus, of the department of English, who will have as his assistant Mr. C. B. Rittenhouse, supervisor of speech training and dramatics for the Montreal Protestant Board of School Commissioners. Dr. Frank L. Harrison, professor of music, will have charge of the music department, and his assistants will be Mr. Leslie R. Bell, director of music, Ontario College of Education and University of Toronto Schools, and Mme. Tania Plaw, of Kingston.

It is not expected that any part of the Canadian Officers' Training Corps course will be offered, but the home nursing or first aid course of the St. John Ambulance Association will be made available to the women students.

## DIRECTOR OF EXTENSION JOINS AIR FORCE

R. M. WINTER, Arts '27, director of extension of the University, has been granted leave of absence to join the educational branch of the Royal Canadian Air Force. He will hold the rank of flying officer.

After graduation with his B.A. degree in 1926 and his M.A. in 1927, Mr. Winter was associated with Messrs. R. A. Daly and Company, investment bankers, Toronto, for some years. He then entered the teaching profession and joined the staff of Danforth Collegiate Institute, Toronto. During this period he also served with the extension department of the University of Toronto.

In 1937 he was appointed director of the Department of University Extension at Queen's, and last January he also became director of the Summer School. For the past two years he has been intimately associated with the educational work carried on by the University in co-operation with the Canadian Legion War Services among the troops in the Kingston district and overseas. He will now continue this valuable work on a more intensive basis with the R.C.A.F.

## GRADUATING STUDENTS RECEIVE MANY HONOURS

OUTSTANDING among the members of this year's graduating classes in Arts and Applied Science who received University awards at Spring Convocation were: Miss Kathleen E. Butcher, Paris, Ont., winner of the Prince of Wales prize and the medal in mathematics; P. A. Pasquet, Kingston, who won the Governor General's medal in Applied Science and the departmental medal in civil engineering; Miss Audrey D. Freeman, Kingston, who was awarded the Reuben Wells Leonard travelling fellowship, an Arts research fellowship and the medal in French; R. S. Dick, who obtained a special Reuben Wells Leonard resident research scholarship, one of the Roberta McCulloch scholarships in English, the Wilhelmina Gordon foundation in English and the medal in English; F. W. Gibson, Kingston, who won a Reuben Wells Leonard resident fellowship, a special fellowship at the Summer School of International Relations, and the medal in history.

Other major awards to Arts graduates were as follows: Arts research fellowship, $500, M. W. Farrell, Ripley, Ont.; Reuben Wells Leonard resident fellowships, $500 each, L. M. Wise, Belleville, Ont., and Helen J. Brown, Saint John, N.B.; special award for resident research work from the Reuben Wells Leonard fund, $100, and the Sir James Aikens fellowship in Canadian history, $400, J. L. Field, Ottawa; J. B. Tyrrell scholarship in economic geology, $240, J. M. Harrison, Winnipeg; Western Ontario Graduates' fellowship in history, $320, H. A. Black, Lindsay, Ont.

Winners of Arts medals, in addition to Miss Butcher, Miss Freeman, Mr. Dick and Mr. Gibson, were: economics, M. W. Farrell, Ripley, Ont.; philosophy, Mary Jeffery, Paris, Ont.; biology, R. M. Notman, St. Catharines, Ont.; chemistry, L. M. Wise, Belleville.

In final-year Applied Science, D. B. Hyland, of Windsor, Ont., won the International Nickel Company scholarship of

P. A. PASQUET

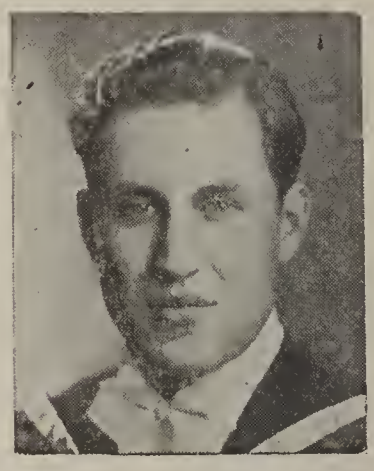

MISS FREEMAN

$500. Other graduate awards in this faculty were: departmental medals: mining, R. Beland Cabano, Que.; chemical engineering, G. A. Clark, Edgan, Man.; metallurgy, D. A. Fraser, Gatchell, Ont.; civil engineering, P. A. Pasquet, Kingston; mechanical engineering, E. W. Parker, Ottawa; electrical engineering, W. J. Smith, Dutton, Ont.; E. T. Sterne prize, $25, F. L. Perry, Winnipeg; L. M. Arkley prize, $40, L. C. Elder, Hensall, Ont.; Society of Chemical Industry prize, $25, L. M. Lyne, Sioux Lookout, Ont.

F. W. GIBSON

DR. N. L. WILLIAMSON

As mentioned in a previous issue of the *Review,* the Marty Memorial scholarship, founded by the Alumnae Association, was won by Miss Joyce Hemlow, Arts '41, of Liscomb, N.S., who will do postgraduate work at Radcliffe College, Cambridge, Mass.

The Jenkins trophy, for outstanding athletic and scholastic achievement, was

awarded to Dr. N. L. Williamson, Med. '42, of New Liskeard, Ont. At McMaster University, where he studied for his B.A. degree, Dr. Williamson co-starred on the hockey team with the famous Syl Apps. While studying at Queen's, he played for three years on the senior hockey team, and for two on the Kingston City team. In addition to his fine athletic record, he took high standing in his academic work. He received his degrees of M.D.,C.M. at the recent Medical Convocation.

## ALUMNI DIRECTORS HOLD SEMI-ANNUAL MEETING

D. A. GILLIES, Arts '05, Arnprior, and M. J. Aykroyd, Sc. '13, Toronto, were reappointed as directors of the General Alumni Association for the ensuing year at the semi-annual meeting of the Board of Directors held in the Douglas Library on Saturday, May 16. Mr. Gillies has been president of the Association since last October; he will continue to hold this important office.

Mid-year reports were submitted by the president and by the acting secretary-treasurer, Gordon J. Smith, Arts '12, Sc. '15. These reports showed that the Association had at present thirty-four branches—twenty-nine in Canada, three in the United States, and two in other countries. Through the efforts of the branches and of the Association as a whole, alumni of Queen's throughout the world were being kept in touch with their Alma Mater and with one another. The membership of the Association at March 31 showed an increase of 5 per cent over that of the same date in 1941.

It was stated that at the end of March Queen's graduates in the different faculties numbered: Arts, 5,677; Commerce, 467; Medicine, 1,739; Science, 2,140; Theology, 103; Honorary, 170. Of these graduates, 627 held degrees in more than one faculty. The net total was therefore 9,669.. The above figures did not include the graduates of this spring. The number of deceased graduates was 2,268.

The distribution of the graduates under normal (non-war) conditions was as follows: Canada, 81%; United States, 10%; other countries, 3%; addresses unknown, 6%. The normal distribution of the Canadian total by provinces was: Ontario, 77%; Quebec, 9%; Saskatchewan, 4%; Alberta, 3%; British Columbia, 3%; Manitoba, 2%; other provinces, 2%.

The records of the Alumni Office showed that at the end of March 931 graduates and former students of Queen's were serving in His Majesty's forces, and this total was undoubtedly far from complete.

G. J. Smith director of endowment for the University, was reappointed as acting secretary-treasurer of the Association and as acting editor of the *Queen's Review* in the continued absence of Mr. H. J. Hamilton, Arts '32, who is serving with the Wartime Bureau of Technical Personnel at Ottawa for the duration of the war.

As the General Alumni Association had been responsible for the renovation of Grant Hall some few years ago, and had borne the major part of the cost of this work and of the additional improvements that had been undertaken subsequently, it was decided that the Association would meet the expense of the further necessary alterations and extensions now being made to the public-address system in the hall. The cost of these improvements would be from $400 to $450.

It was decided that there would be no general reunion next fall, but that the Association would be pleased to assist in connection with any individual class gatherings that might be contemplated. The date of Autumn Convocation had been set for October 16, and it was arranged that the annual meeting of the Association and the fall meeting of the Board of Directors would take place during that week-end.

A special committee was named to confer with a committee of the Alumnae Association with a view to bringing about union or affiliation between the General Alumni Association and the Alumnae Association.

The following members of the Board or branch representatives were present: President D. A. Gillies, Arnprior; Second Vice-President A. C. Hanley, Kingston; Past Presidents E. A. Collins, Copper Cliff, J. C. Macfarlane, Toronto, and

A. E. MacRae, Ottawa; Mrs. D. W. Boucher, Prof. E. L. Bruce, and Dr. J. H. Orr, Kingston; Mr. D. G. Geiger, Mr. W. P. Ferguson, Toronto; Dr. W. G. Cornett, Hamilton; Mr. H. G. Bertram, Dundas; Dr. G. G. McNab, Guelph; Mr. J. J. Dunlop, Ottawa; Dr. J. E. McAskill, Watertown, N.Y.; Dr. N. A. Brisco, New York City.

## PROFESSOR L. M. ARKLEY RETIRES THIS SUMMER

HEAD of the department of mechanical engineering at Queen's for the past twenty-two years, Professor Lorne M. Arkley will retire from active service next September. On the evening of April 20, at the close of his final term at the University, thirty members of the Faculty of Applied Science met in the Old Arts Building to do him honour, and to present him with a walrus-hide travelling bag and a walking cane.

On behalf of the Science staff, Prof. M. B. Baker, Arts '00, Sc. '02, "dean" of all professors at Queen's in view of his forty-two years as a teacher at the University, made the presentation; and in an interesting address, referred to his long association with Professor Arkley and to the many changes at Queen's which they had experienced together. Brief speeches, in a reminiscent vein, were also made by other staff members.

After thanking his colleagues for their good wishes and their gifts, Professor Arkley gave a short history of the development of his department. He expressed his deep appreciation of the goodwill that had been extended to him during his years at Queen's and of the honour bestowed upon him on the present occasion.

Professor Arkley was born in Leeds, Que., in 1875, and graduated from McGill University with his B.Sc. in mechanical engineering in 1900; he returned for his M.Sc. in 1910. After graduation he served as a demonstrator at McGill for a year, then as assistant professor of mechanical engineering at Swarthmore College for five years. During the next five years he was director of the night school of machine design at the Franklin Institute, Philadelphia. In 1911 he joined the mechanical engineering staff of Toronto University, where he served as lecturer and as associate professor until he came to Queen's as head of the mechanical engineering department, in 1920. In addition to his teaching, he has had extensive experience in consulting work in Canada and the United States.

Prior to Professor Arkley's coming to Queen's, only forty-one students had received degrees in mechanical engineering. In the years that have passed since then, more than three hundred graduates have gone out from this department.

## DR. HILDA LAIRD REMAINS ALUMNAE PRESIDENT

HIGHLIGHT of the annual meeting of Queen's Alumnae Association, held Saturday, May 16, in Ban Righ Hall, was a luncheon at which the guest speaker was Mrs. F. C. Casselman (Cora Watt), '12, member of parliament for Edmonton East. The speaker was introduced to the large number of alumnae present by Dr. Hilda Laird, '18, newly re-elected president of the Association.

Mrs. Casselman outlined the progress of the last century in public health and preventive medicine. She said that the present importance of war-service should not be allowed to obscure the continuing necessity of social reform.

During the business meeting reports were received from officers, committee conveners, secretaries of branch associations, and from Dr. Douglas, dean of women. It was announced that much valuable war work was being done by such branches as those in Toronto, Montreal and Kingston. Dr. Florence S. Dunlop, '24, Alumnae representative at the recent conference of the Women's Committee on International Relations and the American Committee on the Cause and Cure of War gave an interesting report on the meetings. Further reports covered the contribution of the Association towards the cost of publishing the Centenary booklet and the donations of several of the branches to the Centenary fund.

Besides Dr. Laird, the following officers were re-elected: past president, Miss Mary White, '29, Toronto; vice-presi-

dents, Mrs. E. I. Holmes (Billie Nobes), '24, Ottawa, Miss Beryl Truax, '27, Montreal, and Miss Mary McCallum, '16, Smiths Falls; treasurer, Mrs. J. W. Dyer (May Sharpe), '27, Toronto; secretary, Miss Elizabeth Smith '35, Kingston; archivist, Miss Eleanor Tett, '28, Kingston; councillors—Mrs. A. W. Currie (Madeline McNeely), '31, Vancouver, Miss Mary Gardiner, '38, Prince Albert, Sask., Mrs. J. G. Stephens (Emma Horne), '29, Ottawa, Miss Janie Henderson, '25, Montreal, Mrs. H. Graves (Mary Baker), '32, Val D'Or, Que., Mrs. A. J. Douglas (Elsie Gardiner), '22, Flushing, N.Y. The only officer elected for the first time this year was Miss Mary E. Sheldon, '21, Hamilton, who was chosen to fill the place of Miss Anne Smith, '22, as a councillor.

A cordial welcome was accorded to a new honorary member of the Association, Mrs. James A. Richardson, wife of the late Chancellor of Queen's.

## QUEEN'S TO GIVE SUMMER COURSE IN PERSONNEL WORK

"A PRACTICAL, Condensed Course in Personnel Administration for War Industries, Sponsored and Approved by the Department of Labour of Canada," will be conducted by the Industrial Relations Section of the School of Commerce and Administration at the University this summer.

The course will be in two parts of two weeks each, as follows: Part I, June 8 to June 20, and Part II, August 10 to August 22.

The objective of the course is to give instruction to persons who are about to enter, or who have recently entered, the field of personnel administration, so that they may apply those principles and practices which have improved both production and employer-employee relations in many British, American and Canadian companies. The work will be in charge of members of the staff of the Industrial Relations Section of the University, assisted by experienced personnel directors of Canadian companies. The course is not designed to meet the needs of persons seeking employment.

The Dominion Government will assume all tuition costs, and on completion of the course will reimburse registrants for out-of-pocket travelling expenses.

## CAMPUS BRIEFS

THREE Queen's students won prizes recently in a Dominion-wide university contest for the best essays, in French and English, on post-war reconstruction problems in Canada. They were Carl E. Abner, Arts '42, Montreal, M. W. Farrell, Arts '42, Ripley, Ont., and C. C. V. Pitt, Arts '42, Toronto. With a student of McGill they shared second and third prizes in the English contest. First prizes were won by students from McGill and the University of Montreal, while second and third prizes in the French section were awarded, respectively, to students of the University of Montreal and Laval University.

* * * *

Fifty thousand cigarettes are being sent overseas to Kingston soldiers as a result of the most recent drive by the janitor and maintenance staff of the University. This group started its good work shortly after the beginning of the war, and since then has dispatched over a quarter of a million cigarettes to Kingston men. The Christmas shipment consisted of over 45,000.

* * * *

Forty-one of this spring's graduates in Medicine have entered on hospital internships in Canada and the United States, and one has enlisted for active service. Many of the former will also be joining the armed forces upon completion of their internship period.

* * * *

Thirty-seven graduates of Queen's were successful in the examinations of the Dominion Medical Council, held at the University during the last week of March.

* * * *

An old German field gun captured during the Great War, which stood for many years on the southeast part of the campus between the Principal's residence and Stuart Street, was recently donated by the University to the Kingston salvage committee.

# ON HIS MAJESTY'S SERVICE

WING COMMANDER NELLES TIMMERMAN, D.S.O., D.F.C., Sc. '36, recently returned to Canada after six years service with the R.A.F. Since the beginning of the war this distinguished bomber pilot has participated in more than fifty bombing and mine-laying expeditions over Germany and the Continent. Last year he was given command of a Canadian bomber squadron, and he has returned to Canada to take charge of an advanced training unit for bomber pilots.

* * * *

Sub-Lt. S. W. Breckon, Sc. '41, has been listed as one of the six Canadian survivors of the cruiser *Dorsetshire,* recently sunk by enemy action.

* * * *

Flt. Lt. G. W. Richardson, Arts '35, has been appointed commanding officer of the R.C.A.F. detachment of radio technicians stationed at Queen's University. He was formerly at No. 4 Wireless School in Brantford, Ont.

* * * *

Wing Cmdr. D. D. Findlay, Sc. '22, has been appointed officer commanding No. 4 Bombing and Gunnery School at Fingal, Ont. He goes to his new post from No. 3 Initial Training School, R.C.A.F., Victoriaville, Que.

* * * *

Major W. R. Airth, Sc. 26, has been appointed to command the 7th Field Park Company, Royal Canadian Engineers. The unit was mobilized recently.

* * * *

Major C. F. J. Finlay, Arts '35, Com. '36, has been appointed deputy assistant quartermaster-general, headquarters, 1st Canadian Division, Canadian Army Overseas.

* * * *

Below is the twenty-sixth in the series of monthly lists of Queen's alumni who have joined some branch of the fighting services:

Royal Canadian Air Force—PO. Edward Bishop, Arts '41, LAC. G. A. Cantrell, Arts '42, LAC. John Conlin, Arts '42, Flt. Lt. G. H. Emery, Med. '39 (Medical Branch), FO. N. D. Garand, Med. '40 (Medical Branch), PO. M. G. Fleming, Sc. '36, FO. W. C. Gibson, Med. '40 (Medical Branch), AC. Brian Guselle, Arts '42, Flt. Lt. T. H. Hawkins, Com. '29,, FO. H. V. Hughes, Med. '39 (Medical Branch), FO. J. G. Jenkins, Med. '40 (Medical Branch), FO. R. W. Johns, Sc. '39, FO. E. R. McGill, Com. '34, PO. Russell E. D. Ratcliffe, Arts '43, Med. '35, LAC. G. H. Taylor, Arts '38, LAC. W. A. Thomson, Com. '38, LAC. Robert Wilson, Arts '44, FO. W. E. Wright, Sc. '26.

Royal Australian Air Force—Rupert W. Dumbrille, Arts '35.

Royal Canadian Army Medical Corps—Capt. D. C. Bews,, Med. '35, Capt. R. R. Laird, Med. '37, Lieut. A. B. Murphy, Med. '37, Capt. W. M. R. Palmer, Med. '06, Capt. E. D. Rooke, Med. '37, Lieut. T. H. Smellie, Med. '32.

Royal Canadian Naval Volunteer Reserve—Sub-Lt. N. S. C. Dickinson, Arts '38, Surgeon-Lt. James Small, Med. '40, Surgeon-Lt. J. R. Wilson, Med. '40, Surgeon-Lt. R. G. Yoerger, Med. '22, Surg.-Lt. F. M. Young, Med. '40. The following members of Science '42 have joined the R.C.N.V.R. as provisional sub-lieutenants: W. L. Grisdale, N. A. Grandfield, Donald MacAskill, Neville Rivington, D. L. Smith, W. J. Smith.

Infantry—Lieut. R. M. Harvey, Com. '35, Lieut. C. J. Ireton, Arts '33, Lieut. J. M. Purvis, Arts '40, Lieut. D. A. Ross, Arts '39 (Canadian Grenadier Guards), Lieut. D. C. Smith, Arts 30 (Lanark and Renfrew Scottish Regiment), Lieut. Thomas Tyrrell, Med. '32.

Royal Canadian Corps of Signals—Sigmn. G. F. McKee, Arts '42.

Royal Canadian Ordnance Corps—Lieuts. G. C. Brown, D. W. Campbell, J. O. Gage, T. O. Grant, W. E. Hanna, H. C. McKinnon, F. R. Mullins, H. H. Munger, J. E. Nelligan, F. S. Newman, J. M. Seldon, and D. W. Thompson, all of Sc. '42.

Canadian Armoured Corps — Lieut. John Munro, Arts '38.

Canadian Chaplain Service—Hon. Flt. Lt. A. D. Matheson, Arts '12, Theol. '16.

Royal Canadian Engineers—Lieut. R. V. Darling, Sc. '35.

Royal Canadian Army Service Corps—Lieut. Lewis Day, Arts '39.

## ALUMNI AND STUDENTS LEND VALUABLE HELP

DURING the year ending March 31, 1942, the University received in grants, gifts and bequests for endowment or maintenance purposes the sum of $449,-980.65. The corresponding figure for 1940-41 was $383,523.68, and that for 1930-40 was $321,999.47. Of the 1941-42 total, individual alumni and alumni and student organizations contributed $59,-240.44.

In giving these figures to the *Review*, the director of endowment made the following comment: "To her alumni and her students, Queen's owes a deep debt of gratitude for the financial help that they have given during her centenary year. This assistance has meant much in the successful maintenance of her work — work that is essential not only to the war effort but also to the future well-being of Canada. The needs of Queen's are great, and her efficient operation depends in a large measure upon the loyal support of her alumni. Their sustained help, now and through the years to come, is earnestly requested. Every contribution, no matter how modest the amount, will be sincerely welcomed."

In summary, the benefactions received by the University during the past year were:

From 846 individual alumni—general funds, $15,262.32; scholarships, bursaries and prizes, $4,329.84; special projects, $3,158.53. Total, $22,750.69.

From 10 alumni and student organizations—general funds, $308.00; scholarships, bursaries and prizes, $176.75; special projects, $36,005.00. Total, $36,-489.75.

From 107 other individuals and organiations—general funds, $21,847.18; scholarships, bursaries and prizes, $33,472.99; special projects, $34,901.97. Total, $90,-222.14.

From Dominion and Provincial Governments—general funds, $275,000.00; special projects, $25,518.07. Total, $300,518.07.

Gross total—$449,980.65.

## FROM THE SPRING ISSUE OF THE "McGILL NEWS"

"EVER since the writer first walked shyly up the avenue of elms, he has had impressed upon him McGill's unique position by virtue of her private endowments and freedom from that regulation which goes with state grants. This independence may well be the open sesame to a process of undergraduate selection in the post-war years which will enable her to send out throughout the Dominion a group of chosen young leaders, refined by the test of war and trained by her in civil responsibilities as well as in academic delights or professional skills. *Then it may even be possible to refute the aphorism, so current in Ottawa now, that 'Canada is not governed by a king but by Queen's!'*"

## NEWLY FOUNDED AWARDS FORM IMPORTANT GROUP

AMONG the University scholarships, bursaries and prizes recently established by individual alumni, class groups or other friends of Queen's and awarded this spring were the following:

Arts '39 scholarship, $100, won by J. S. McGibbon, Arts '43, Oshawa, Ont.

Arts '40 scholarship, $100, established in memory of the late Sidney Watson, a member of the class, who died in Alexandria, Egypt, in April, 1941, as a result of injuries received during a sea battle in the Mediterranean, won by Miss Doreen Jeffs, Arts '43, Toronto.

International Nickel Company of Canada Limited scholarship, $500, won by D. B. Hyland. Sc. '42, Windsor, Ont.

Alexander MacLachlan peace prize, established by the family of the late Rev. Dr. Alexander MacLachlan, Arts '84, D.D. '11, $30, shared by Flying Officer G. L. A. Daverne, extramural, Saskatoon, and S. Soressen, extramural, Hughendon, Alta.

G. W. Mylks medal in obstetrics and gynaecology, established by Dr. G. W. Mylks, Sr., Med. '97, Kingston, won by Dr. D. H. Dickson, Med. '42, Winchester, Ont.

Hannah Washburn Polson prize, established by Dr. J. A. Polson, Med. '10, New York City, won by Dr. J. E. Pollock, Med. '42, Prescott, Ont.

Neil Currie Polson memorial prize, established by Lt.-Col. S. M. Polson, Arts '05, Med. '10, Petawawa, Ont., $50, won by Dr. L. J. Mulvihill, Med. '42, Ottawa.

Science '03-'06 (W. P. Wilgar Memorial) scholarship, established by members of these classes and other friends of the late Prof. W. P. Wilgar, Sc. '03, $100, won by H. E. Gove, Sc. '44, Niagara Falls, Ont.

Science '14 (Alexander Macphail) scholarship, $100, won by L. A. Page, Sc. '44, Crystal Beach, Ont.

Science '39 scholarship, $100, won by C. I. H. Nicholl, Science '44, Regina, Sask.

Science '40 scholarship, $100, won by C. N. Baker, Sc. '44, St. Catharines, Ont.

Science '41 scholarship, $100, established in memory of the late Mr. J. O. Watts, formerly lecturer in mathematics and physics at the University, won by J. A. Harvey, Sc. '45, Sask.

## AT THE BRANCHES

### Ottawa

J. J. DUNLOP, Arts '15, principal of Lisgar Collegiate Institute, Ottawa, was elected president of the Ottawa branch at the annual meeting held in the Quebec suite, Chateau Laurier, on May 5. He succeeds C. D. Wight, Sc. '28. assistant waterworks engineer at Ottawa, who presided at the meeting. Other officers elected were: honorary president, C. Jackson Booth, Arts '86; honorary vice-presidents, Mrs. Adam Shortt, Med. '84, Mrs. J. E. Plunkett (Marion Moffatt), Arts '26, Rev. Hugh Cameron, Arts '76, Rev. T. J. Thompson, Arts '95, D.D. '29, and A. H. Brown, Arts '96; first vice-president, Dr. W. P. E. Paterson, Med. '26; second vice-president, Mrs. A. G. Taylor (Edith May Culbert), Arts '19; third vice-president, W. H. Losee, Sc. '12; secretary, J. L. Shearer, Sc. '28; executive committee—Dr. O. E. Ault, Arts '24, E. I. Holmes, Sc. '24, Miss Marjory Gordon, Arts '38, Ralph Bartlett, Sc. '12, J. W. Strader, Arts '16, Miss Kathleen Wingard, Arts '12, Austin Cross, Arts '23, Dr. R. R. Barnes, Arts '28, Med. '30, Miss Ruth Hood, Arts '41, and Miss Myfanwy Williams, Arts '34; athletic committee—A. H. Brown, Arts '96, and G. D. Mallory, Sc. '20; auditors —A. T. Batstone, Arts '17, and H. L. Scott, Sc. '14; nominating committee—C. D. Wight, Sc. '28, A. K. Light, Sc. '17, and Miss Helen Wilson, Arts '24.

The special speaker of the evening was B. C. Butler, Arts '27, Com. '28, for several years Canadian Government trade commissioner at Java, who also served in the same capacity in Malaya and Thailand. His address, entitled "Two Years Before the Japs," gave a most interesting background to present events in the Pacific based upon his own observations. Motion pictures of the Pacific theatre of war were shown.

### Montreal

THE fourth regular meeting of the Montreal branch was held in the Ritz Carlton Hotel on April 7, with President G. R. Maybee, Sc. '25, Arts '27, in the chair. The meeting was featured as Past Presidents' Night, which the branch plans to make an annual event. The following past presidents attended: R. O. Sweezey, Sc. '08, Dr. A. D. Falkner, Med. '04, B. E. Norrish, Sc. '08, J. K. MacLachlan, Arts '16, R. H. Bissell, Sc. '28, A. E. Orwell, Sc. 33, F. W. Paynter, Arts '16, J. B. Stirling, Arts '09, Sc. '11, and C. A. Root, Arts '19.

The guest speaker was Austin Cross, Arts '23, well-known author and newspa-

per man, who is at present parliamentary press representative in Ottawa for the *Montreal Star*. In his address, entitled "The War from Ottawa," Mr. Cross, in his own inimitable manner, presented some very interesting opinions which provoked a round-table discussion that lasted more than an hour.

## New York

TAKING advantage of Dr. L. J. Austin's visit to New York to address the Medical Faculty of Queen's County, the New York Society of Queen's University held an informal dinner on April 17 in the Faculty Club of New York University, with Dr. Austin as guest speaker. Approximately seventy-five were in attendance, of whom about forty were doctors.

DR. L. J. AUSTIN

The president, Dr. N. A. Brisco, Arts '98, welcomed the guests. He spoke briefly about the large alumni membership in the New York area, which he credited in large measure to the efforts of Dr. F. J. Matthews, Med. '11. He also mentioned the support that had been given by New York alumni to the Centenary fund, and the fact that four members had established scholarships in various faculties. He paid a graceful tribute to Dr. George Hayunga, Med. '90 one of the oldest Medical graduates and a founder of the New York Society, who was a distinguished guest at the dinner.

Dr. Austin, who was introduced by Dr. J. G. Dwyer, Arts '02, Med. '05, LL.D. '27, brought greetings from Principal Wallace and Vice-Principal McNeill. In a particularly witty vein he ranged over his life in Kingston and his work at Queen's as professor of surgery. He also touched on his experiences in the last war and his life as a prisoner in Germany. Of particular interest were his remarks about the war effort at the University. He explained that because of the great need for medical men in the army the Canadian Government and the universities had worked out a plan whereby the supply of doctors would be speeded up. Medical sessions were now running almost continuously, with a vacation period of only two to four weeks. Students in the final years were able to join the army and continue their course at the same time.

Dr. Austin paid high tribute to Lt.-Col. D. M. Jemmett's work in the Queen's C.O.T.C., and announced that the American Legion scholarship, established by Dr. Hayunga and awarded annually to the member of the Queen's University Contingent of the Canadian Officers' Training Corps who obtained the highest marks on the C.O.T.C. examinations, had been won this year by a Medical student. This man had made the highest marks (497 out of 500) ever received in Canada.

Dr. Brisco thanked Dr. Austin for his kindness in addressing the New York group on this occasion.

## Toronto

THE luncheon-discussion group of the Toronto branch closed its fourth successful year at the regular noon-day meeting on April 13, with Ernest Collyer, Sc. '23, in the chair. This group, which operates within the branch organization, was started in 1939 under the chairmanship of M. J. Aykroyd, Sc. '13, who carried on for the 1939-1940 season also. Jack Milne, Sc. '35, was in charge during 1940-1941.

For the first three years the meetings were held twice monthly, but during the past year, because of the increased demands on everyone's time, it was decided to change to a monthly basis. The speakers were, with one exception, Queen's alumni, and their talks and the discussions which followed were both interest-

ing and instructive. Following is a brief summary of the season's activities:

November 10—Dr. J. M. Macdonnell, Arts '04, chairman of the Board of Trustees of the University and president of the National Trust Company, outlined briefly some of the reconstruction problems which will confront us after the war. He stressed the point that we must all give this matter serious thought and study now, and be prepared to play our part unselfishly during the period of readjustment from war to peace. We have seen the results of mistakes committed after the last World War, and with such experience fresh in our minds we must guard against repeating them this time.

December 8—At the December meeting, Mr. Aykroyd, who is outside plant engineer of the western area of the Bell Telephone Company, spoke on "Cutting Down the Overload." His talk, which was illustrated with coloured movies, described the latest machinery and methods of plowing long toll cables directly from the reels on which they are contained to their final location some three feet or more underground, where they are safe from the elements that frequently wreak such havoc with wire lines supported on poles.

January 12—Coming so closely after Japan's treacherous attack on Pearl Harbor, the address of Dr. J. C. L. Bates, Arts '01, on "Japan and the New Order in the Far East," was very timely. Dr. Bates spent twenty years in Japan and was for two years president of the University of West Japan at Kobe. He pointed to the trait of the Japanese to strike treacherous blows, their transition from an agricultural to an industrial nation and a world power, and their need for a commercial place in the sun for their changed national economy.

February 9—Professor Parkinson, of the department of economics at the University of Toronto, who is at present with the joint American-Canadian Economics Committee, described the background of economic conditions which made wartime price control legislation advisable and necessary if disastrous inflation were to be avoided. This control depends to a considerable extent on the co-operation of all for its usefulness and success.

March 9—Neil Hay, Sc. '23, manager, and Dr. Orin Carson, Sc. '23, consulting metallurgist, of the Kingston plant of the Aluminum Company of Canada, told of the huge demand for aluminum in our wartime industry. The Empire's desperate position in regard to a supply of this vital metal at the collapse of France, the vast improvement in the situation at the present time, and Canada's part in bringing this about were outlined by the speakers.

April 13—"Powers of Parliament" was the subject of a talk by G. W. Mason, K.C., Arts '06, at the last meeting of the season. Mr. Mason is a bencher of the Law Society and is well known as a counsel in governmental matters. His talk dealt with Dominion-Provincial relations and wartime legislation, and explained how it was that some of the powers assumed by the Federal body appeared to conflict with matters specifically delegated to the provinces by the British North America Act.

The group has planned to carry on next year under the chairmanship of A. J. Strain, Sc. '25, and his committee, the general feeling being that such a group serves a useful purpose and provides frequent get-togethers which are thoroughly enjoyed.

* * * *

QUEEN'S alumnae in Toronto held a most successful luncheon and bridge at the Embassy Hotel on May 2. Miss Elizabeth Macpherson, Arts '24, newly elected president of the group, and Mrs. J. G. MacGregor (Eunice Simpson), Arts '23, received the guests. Mrs. Joseph Dyer (May Sharpe), Arts '27, social convener, was in charge of the luncheon arrangements, and Miss Kathleen Elliott, Arts '26, convener of programmes, was in charge of the lucky number draw.

## Windsor

ON March 18 the Windsor branch held a very successful dinner-dance at the Beach Grove Country Club, with eighty-three guests in attendance. Typical of Queen's reunions everywhere, college songs and yells broke forth at every possible opportunity, and the evening was replete with good fellowship and reminiscence.

The toast to the King was proposed by Capt. S. A. Wallace, Arts '07; that to Queen's by L. R. Cumming, Arts '16, which was responded to by W. D. Lowe, Arts '02. Mr. Lowe recounted many interesting stories of his days at the University and the problems that confronted the staff and students at the turn of the century. The retiring president, A. F. S. Gilbert, Sc. '20 Arts '21, reviewed the activities of the year and paid tribute to the splendid work of the General Alumni Association. Through the kindness of R. J. Molloy, Com. '36, a film "Unfinished Rainbows," depicting the growth of the aluminum industry, was shown. After the election of officers, dancing and bridge were enjoyed.

The new executive is as follows: honorary president, Dr. J. M. Young, Arts '02, Med. '04; president, L. R. Cumming; vice-president, A. M. Innes, Sc. '33; past president, A. F. S. Gilbert; secretary-treasurer, R. J. Molloy; committee—Medicine, Dr. L. R. Le Fave, Med. '32; Law, E. R. Smith, Arts '24, Com. '25; Science, G. L. Williams, Sc. '31; Arts, Miss Anne Hume, Arts '14; Pedagogy Mrs. J. C. Bonham (Marion Brown), Arts '19; Commerce, J. F. Wallbridge, Com. '29, Arts '35; Undergraduates, Mrs. C. G. Walton.

---

### Quebec

QUEEN'S alumni in Quebec and members of the Women's University Club in that city held a very enjoyable joint dinner on April 16, in the Habitant Inn, St. Foy Road. Francois Turgeon, Com. '36, president of the Quebec branch of the General Alumni Association, and Mrs. M. T. Bancroft, president of the Women's University Club, presided. The guest speaker, Rev. Father P. J. Gallery, was introduced by Mr. Turgeon and thanked by Mrs. Bancroft.

OFFICERS, QUEEN'S CONTINGENT, C.O.T.C., 1941-1942

# ALUMNI NEWS

## Births

**Annable**—On October 29, 1941, at St. Joseph's Hospital, Chatham, Ont., to Kenneth C. Annable, Arts '33, and Mrs. Annable, a son (Winson Claude).

**Ballantyne**—At the Ottawa Civic Hospital, on May 11, to S. T. Ballantyne, Sc. '38, and Mrs. Ballantyne, twin daughters.

**Bishop**—On April 13, at the Kingston General Hospital, to A. W. Bishop, Arts '32, and Mrs. Bishop, a son (Lloyd George Alfred).

**Blakely**—At the Kingston General Hospital, on April 28, to Dr. H. W. Blakely, Med. '31, and Mrs. Blakely, a daughter.

**Bradley**—At the Ottawa Civic Hospital, on April 19, to B. L. Bradley, Arts '38, and Mrs. Bradley, a daughter.

**Bruce**—At Central Patricia Hospital, Central Patricia, Ont., on Feb. 21, to C. G. Bruce, Sc. '38, and Mrs. Bruce (Jessie Bailey), Arts '34, a son.

**Camsell**—At the Ottawa Civic Hospital, on April 16, to Charles Camsell, Jr., Sc. '32, and Mrs. Camsell, a daughter.

**Crain**—At the Ottawa Civic Hospital, on April 20, to Harold Crain, Sc. '32, and Mrs. Crain, a daughter.

**De Muy**—On February 13, at St. Joseph's Hospital, Chatham, Ont., to the late A. T. De Muy, Arts '38, and Mrs. De Muy (Eva Bouchard), Arts '24, a daughter (Andrée Cécile Adèle).

**Fowlie**—At Bourlamaque, Que., on April 6, to H. R. Fowlie, Sc. '28, and Mrs. Fowlie, a daughter.

**Hawkins**—At the Ottawa Civic Hospital, on April 26, to Flt. Lt. T. H. Hawkins, Com. '29, and Mrs. Hawkins, a son.

**Hyde**—At the Kingston General Hospital, on April 17, to A. E. Hyde, Sc. '37, and Mrs. Hyde, a son (Michael Arthur).

**McGowan**—At St. Joseph's General Hospital, North Bay, Ont., on April 2, to Dr. C. H. McGowan, Med. '34, and Mrs. McGowan, a daughter (Margaret Judith).

**Marans**—At the Kingston General Hospital, on April 19, to Mr. Harold Marans, and Mrs. Marans (Katie Ryan), Arts '31, a daughter (Judith Barbara).

**Milne**—At the Private Patients' Pavilion, Toronto General Hospital, on May 16, to J. N. Milne, Sc. '35, and Mrs. Milne, a daughter.

**Murphy**—At Regina, Sask., on April 1, to Dr. J. Earl Murphy, Med. '31, and Mrs. Murphy, a daughter.

**Ruttan**—On March 27, at Victoria, B.C., to Surgeon Lt. Cmdr. H. R. Ruttan, Med. '35, and Mrs. Ruttan, a son.

**Shortliffe**—At the Kingston General Hospital, on April 25, to Dr. Glen Shortliffe, lecturer in French at Queen's, and Mrs. Shortliffe, a daughter (Dale Virginia).

**Showman**—On April 13, at the Grace Hospital, Ottawa, to Wallace H. Showman, Arts '30, and Mrs. Showman (Eva McMahon), Arts '32, of 356 Hinton Ave., Ottawa, a son (Robert Wallace).

**Storr**—At the Ottawa Civic Hospital, on April 11, to C. B. Storr, Arts '37, and Mrs. Storr (Wilma Graburn), Arts '34, a daughter.

**Sutherland**—At Welland County Hospital, Welland, Ont., on April 7, to Rev. A. D. Sutherland, Arts '24, and Mrs. Sutherland, a daughter.

**Travers**—At Bourlamaque, Que., on April 23, to Mr. C. H. Travers and Mrs. Travers (Gwyneth Gwillim), Arts '33, a son.

**Walker**—In Winnipeg, on May 6, to Wing Cmdr. H. E. Walker, Sc. '34, and Mrs. Walker, a son.

**Warwick**—On April 23, to Harold Warwick, Com '35, and Mrs. Warwick, Toronto, a son.

**Wilson**—At the Ottawa Civic Hospital, on May 7, to Dr. L. D. Wilson, Med. '28, and Mrs. Wilson, a daughter.

## Marriages

**Barnabe-Donaldson**—On April 23, in the rectory of St. Theresa's Church, Ottawa, Peggy Donaldson, Arts '41, to Edward Albert Barnabe, Com. '39.

**Birch**—On May 2, in St. George's Anglican Church, Toronto, Margrethe Jane Crowe to Ian Hamilton Birch, Sc. '37, Hawkesbury, Ont.

**Brady-Nesbitt**—On May 16 in the Morgan Memorial Chapel, Queen's University, Margaret Jean Nesbitt, Arts '42, to Lieut. P. E. H. Brady, Arts '41, of the R.C.A.

**Brown**—In April, at St. James Church, Montreal, Mary Addie Bouck to Capt. Cyril Elliott Brown, Sc. '38, of the R.C.E.

**Brown**—On April 18, in Trinity Church, Ottawa, Elizabeth S. Treadwell to Ira Charles Brown, Sc. '40. W. D. Fritz, Arts '35, Sc. '40, was best man.

**Carson-Anglin** — In Sydenham Street United Church, Kingston, on May 2, Pamela Isabel Anglin, Arts '38, to Dr. George Thompson Carson, Med. '41, Ottawa.

**Crawford**—In the United Church, Morton, Ont., on April 29, Jean Roantree to Rev. Kenneth James Crawford, Arts '39. They will live in Adolphustown, Ont., where Mr. Crawford is supply minister for the United Church.

**Danby** — In Sydenham Street United Church parsonage, Kingston, on April 16, Margaret Lucy Clarke to Surgeon Lieut. C. W. E. Danby, Med. '40, son of the late F. W. Danby, Arts '11, and Mrs. Danby, Kingston.

**Dewar**—In Sudbury, Ont., early in May, Edna Constance Ross, Arts '42, to John Stuart Dewar, Sc. '41. They will live in Winnipeg.

**Estey**—On April 18, at the home of the bride's parents in Niagara Falls, Ont., Grace Caroline Williams to Donald G. Estey, Sc. '39.

**Ewart**—On April 30, at the home of the bride's parents, Westport, Ont., Mary McMurray Ewart, Arts '33, daughter of W. M. Ewart, Arts '98, and Mrs. Ewart, to John Sheldon Yoeger, of Ottawa.

**Flanagan**—In the rectory of Notre Dame de Lourdes Church, Mont Joli, Que., on February 24, Patricia Viola Flanagan, Arts '33, to Sergeant Observer Harold Beckett. They are living at St. George, N.B.

**Forrest**—On May 2, in George Street United Church, Peterborough, Ont., Mary Rosamond Burns to Lieut. John Lappen Forrest, Sc. '40. They will live in Kingston.

**Grisdale**—At the United Church, New Liskeard, Ont., on April 29, Doris Muriel Barager to Sub-Lt. William Latimer Grisdale, Sc. '42.

**Lidington-Bronskill**—In the Church of St. Alban the Martyr, Ottawa, on May 9, Frances Isabelle Bronskill, Arts '41, to Dr. Edgar Wilfred Lidington, Med. '42.

**Large** — In the vestry of St. Peter's Church, Toronto, on April 11, Adele Jean Arnall to Surgeon Lieut. George Eugene Large, Med. '38.

**Mulvihill** — At St. Mary's Cathedral, Kingston, on May 9, Dorothy Helen Richards to Dr. Louis J. Mulvihill, Med. '42, Ottawa.

**Ross**—Early in May, Mary Louise Allyn, Montreal West, to Lieutenant Donald Armitage Ross, Arts '39, of the Canadian Grenadier Guards.

**Seal**—At Hart House Chapel, Toronto, on May 9, Elizabeth Lois Seal, Arts '35, to Dr. John Pritchard Norquay, Toronto.

**Shaver**—At St. Andrew's Church, Newcastle, N.B., on May 11, Marjorie Elizabeth Macdonald to Dr. Murton R. Shaver, Arts '28, Med. '30.

**Simmons**—On April 25, at the home of the bride's parents, Campbellford, Ont., Margaret Jean Addie to William Neil Simmons, Sc. '36, Kingston.

**Stevens-Baker**—On May 9, at the home of the bride's parents in St. Catharines, Ont., Mary Baker, Arts '40, daughter of C. W. Baker, Sc. '05, and Mrs. Baker, to William H. Stevens, Sc. '40.

**Stone** — At Chalmers United Church, Kingston, on April 11, Ruth Margaret Johnston to Lieut. John Gordon Stone, Sc. '41, Ottawa.

**Sutherland**—Early in April, at the home of the bride's parents, Toronto, Marjorie Elizabeth Sutherland, Com. '33, to William Gibb Howson. They will live in Toronto.

**Tully**—On May 10, in the chapel of the Church of St. Mary Magdalene, Picton, Ont.,

*Offices at Toronto, Montreal, Ottawa, Hamilton, London.*

Mary Helen Tully, Arts '31, to Mr. Harry Allen Beaumont. They will reside in Plainfield Ridge, N.B.

**Tustin** — On May 16, in Christ Church, Niagara Falls, Ont., Agnes Emma Sills to Flying Officer Alan W. C. Tustin, Arts '38.

**Tetu**—On April 25, in All Saints' Church, Ottawa, Winifred Tremaine McGinnis to Douglas Alexandre Tetu, Sc. '42.

**Wallingford** — On April 29, in St. George's Cathedral, Kingston, Lilian Corinne Wallingford, Arts '42, to Charles Wesley Pedley. They will reside in Kingston.

**Walker**—On April 11, in St. George's United Church, Vancouver, B.C., Nan Russell to Lieut. Charles Edgar Walker, Com. '39, of the R.C.A.S.C., son of Prof. C. E. Walker and Mrs. Walker, Queen's University. They are living at Red Deer, Alta., where Lieutenant Walker is taking an advanced training course.

**Whyte**—In St. George's Cathedral, Kingstno, on May 4, Nora Katherine Rees to Dr. Don Wendell Whyte, Med. '40. They will live in Ottawa.

## Deaths

**Crawford**—Vernon William (Buck) Crawford, Arts '09, Sc '10, one of the great Queen's hockey and football players of the "naughties," died suddenly on April 25 at his home in Pittsfield, Mass. He was born in Kingston fifty-five years ago, the son of the late Capt. Robert Crawford, Arts '69, and Mrs. Crawford. After attending the local public schools and the collegiate institute, he entered Queen's in 1905 and obtained his B.A. in 1909 and his B.Sc. in electrical engineering the following year. He was a member of the senior hockey team for five successive seasons 1906 to 1910, was captain in 1908 and played centre on the famous team that won the Intercollegiate championship and the Allan Cup in 1909. His name will always remain in the hockey annals of Queen's, along with those of George Richardson, Billy Dobson, Dick Mills, Marty Walsh, "Curly" Campbell, Greg and Basil George, Vic Gilbert, Bert Daniels, Hugh Macdonnell and others. He was also a valued member of the senior football team from 1907 to 1909. After graduation Mr. Crawford joined the staff of the General Electric Company at Pittsburg, Penn., and two years later he was transferred to the Pittsfield, Mass., plant of this company, where he was in the transformer engineering department at the time of his death. He is survived by one brother, Reginald, and a sister, Doris, both of Kingston.

**Knowles** — Rev. Dr. Richard William Knowles, Arts '09, retired minister of the United Church, died at his home in Aylmer West, Ont., on April 16, following an illness of four weeks. He was born in Kinsale, County Cork, Ireland, in 1872, a son of Rev. Robert and Mrs. Knowles. He began his theological studies in Ireland but completed them at Victoria College, University of Toronto. In 1905 he registered extramurally at Queen's, where he studied for several years, later going to the United States for his Ph.D. For forty years he served as a minister of the gospel, first in the Methodist and later in the United Church. After his retirement seven years ago, he and Mrs. Knowles, who survives him, went to live in Aylmer.

**Root**—Dr. Horace Eldon (Shag) Root, Med. '24, died suddenly in New York City on May 5 from a heart ailment. He had recently been serving as a naval surgeon with the United States Army on Palmyra Island in the Pacific. He was born in Picton, Ont., in 1901, son of Mr. and Mrs. J. M. Root, and matriculated from Smiths Falls Collegiate Institute before entering Medicine at Queen's in 1919, where he graduated with his M.D.,C.M. in 1924. He will be remembered by undergraduates of those days as the originator of the "Tricolour Troubadours" and as a member of the famous "Sympathy Six," both college orchestras. Dr. Root practised in New York City for a number of years before going to Palmyra Island, where he was engaged by the Hawaiian Dredging Company as physician before joining the United States Army Medical Corps. He is survived by his parents, two sisters and one brother, Claud A. Root, Arts '19, of Montreal.

**Wilson**—After an illness of several weeks, Dr. Arthur Donald Wilson, Arts '28, Med. '30, died at the McAllen Hospital, Mission, Texas, on April 17. Born in 1903 at Enterprise, Ont., he received his education there and at the high school in Tamworth, Ont. He entered Queen's in 1923 on a combined Arts-Medical course, and received his B.A. in 1928 and his M.D.,C.M. in 1930. While at the University he won the Dean Fowler scholarship for the highest marks in the fourth-year medical examinations. Dr. Wilson served internships at the hospital in Middleton, Conn., the Kingston General Hospital, and the Lying-In Hospital in New York City, before starting a private practice in Hemlock, N.Y., where he remained for three years. In 1933 he went to Mission, Texas, and there built up a large medical and surgical practice. Three years ago he established his own clinic. He was a member of the Presbyterian Church, the Mission Rotary Club and the Masonic Order. He is survived by his wife, formerly Dorothy Irene Day, of Rome, N.Y., two daughters and his mother, Mrs. Mary Wilson, Enterprise, Ont.

## Notes

### 1880-1889

**Rev. James Cattanach**, Arts '89, minister of Govans Presbyterian Chuch, Baltimore, Md., is retiring the first of June after fifty years in the ministry. He first served in Centreville, Ont., later going to Taneytown, Md., and Mauch Chunk, Pa., before accepting his present charge at Baltimore, where he has been for the past twenty-six years.

### 1890-1899

**Miss Elizabeth McLennan**, Arts '99, has moved from 10244—113th St. to 11 Chatham Apts., Edmonton, Alta.

**Rev. A. D. McKinnon**, Arts '94, Theol. '97, is now living in Peachland, B.C.

### 1900-1909

**C. H. Bland**, Arts '07, was elected president of the Canadian Club of Ottawa at the annual meeting held in the Chateau Laurier recently.

**H. B. R. Craig**, Sc. '03, formerly of Windsor, Ont., has joined the staff of Fraser-Brace Limited, Montreal.

# *These Men Were Queen's*

All who wear the chrysanthemum will wish to read the stirring portraits of Grant, Watson, Dupuis, Cappon, Jordan and Shortt in *Some Great Men of Queen's* edited by Principal Wallace. About these names legends have grown up on the campus and throughout the land. To many they *were* Queen's. *Daniel M. Gordon: His Life,* by Professor Wilhelmina Gordon, is a fascinating book and an indispensable chapter in Canadian history.

We feel that many graduates who would treasure these books have not been reached. To make a wide distribution possible, special prices are offered until June 30th. Buy duplicate copies and give them to other graduates who will value them.

**DANIEL M. GORDON: HIS LIFE**

*By WILHELMINA GORDON*

Regular Price $3.50. Special Price $2.35, plus 15 cents postage.

**SOME GREAT MEN OF QUEEN'S**

*Edited by PRINCIPAL WALLACE*

Regular Price $1.50. Special Price 94 cents, plus .06 cents postage.

**QUEEN'S UNIVERSITY: A CENTENARY VOLUME, 1841-1941**

*Edited by PRINCIPAL WALLACE*

We still have available a few copies of this book. Edition limited to 500 copies. Price $2.50, postpaid.

*Order today. These special prices are good only until June 30, 1942. Please mention the "Queen's Review."*

THE RYERSON PRESS
TORONTO

**V. W. Jackson**, Arts '03, has moved from Winnipeg to Grimsby, Ont.

**Dr. F. A. Jones**, Arts '05, D.Paed. '17, principal of Ottawa Normal School, was elected president of the Ontario Educational Asociation at the eighty-first annual convention held in Toronto early in April.

**Dr. J. J. McCann**, Med. '09, M.P. for South Renfrew, Ont., has been elected chairman of the House of Commons special committee on radio broadcasting, which was formed recently to review the policies and aims of the Canadian Broadcasting Corporation, its regulations and developments, and consider its last annual report.

**Miss Margaret Moore**. Arts '04, is retired and living at 3015 Glencoe Road, Calgary, Alta.

**Rev. C. E. A. Pocock**, Arts '02, has resigned after forty years service in the ministry. In 1912 Mr. Pocock went to the West, first as minister at Wetaskiwin, Alta., then at Stettler, Fort Saskatchewan and Okotoks in the same province. Latterly he has been minister of First Church, Hanna, Alta.

**Dr. J. H. Stead**, Arts '06, Med. '09, Oakville, Ont., was bereaved on May 12 by the death of his mother, Mrs. Annie Stead, who was in her ninety-third year.

### 1910-1919

**Dr. Stanley Asselstine**, Med. '13, Windsor, Ont., was bereaved on April 11 by the death of his father, Mr. Oscar Asselstine, of Marlbank, Ont. Mr. Asselstine was in his ninety-sixth year.

**Dr. L. C. E. Beroard**, Med. '10, is retired and living at 221 Mathews St., Fort Collins, Colorado.

**S. L. Burns**, Sc. '14, is a member of the Inspection Board of the United Kingdom and Canada, in Montreal, where his address is 422 Dominion Square Building. He was formerly with the British Purchasing Commission in New York City.

**Dr. C. C. Clegg**, Med. '14, of the R.C.A. M.C., is attached to the medical staff at M.D. No. 3, Kingston.

**Dr. W. R. Hambly**, Sc. '10, Med. '11, London, Ont., and **Miss Ila Hambly**, Arts '20, Napanee, were bereaved on May 9 by the death of their mother, Mrs. George R. Hambly, of Napanee.

**C. O. Laidlaw**, Sc. '13, is a Federal engineer in the Department of Public Works at Detroit, Mich. His address is Bauman Ave., at Seven Mile Road.

**E. L. Longmore**, Sc. '12, formerly assistant manager of the Hollinger Gold Mines, Timmins, Ont., has been appointed general manager of Wartime Metals Corporation, recently created by the Dominion government to supervise and administer contracts between the Government and private companies.

**Hugh Matheson**, Sc. '13, is retired and living at 1395 S. E. Marine Drive, Vancouver, B.C.

**Rev. Dr. E. Leslie Pidgeon**, Arts '12 (D.D. Manitoba), has been nominated by the Quebec-Sherbrooke presbytery of the United Church of Canada for moderator of the next council of the church.

**J. M. Wardle**, Sc. '12, was the author of an article "The Alaska Highway," in the March issue of the "Journal" of the Engineering Institute of Canada.

**H. R. Welch**, Sc. '18, has been elected president of the Rotary Club of Ottawa for the coming year.

### 1920-1929

**Harvey J. Bell**, Arts '21, is practising law in North Battleford, Sask. His offices are in the Bank of Montreal Building.

**B. C. Butler**, Arts '27, Com. '28, formerly Canadian Government trade commissioner in Java, is at present associate secretary for Shipping Priorities Committee, Ottawa.

**G. G. Campbell**, Sc. '23, formerly at Uchi Lake, Ont., is now on the staff of Preston East Dome Mines. South Porcupine, Ont.

**Austin Cross**, Arts '23, is the author of a very interesting article on **Dr. W. C. Clark**, Arts '10, LL.D. '35, deputy minister of finance, which appeared in the March issue of "**Canadian Business.**" It is called "Watch Dog of the Treasury" and is a very lively sketch of Dr. Clark's undergradaute days at Queen's, and of his subsequent career as Queen's professor, practical economist and devoted civil servant.

**Carlyle Gerow**, Sc. '22, is on loan to the R.C.A.F., as fuel adviser, from the Dominion Steel and Coal Corporation Limited.

**W. M. Harvey**, Sc. '24, who for the past year has been on the staff of Rhokana Copper Corporation, Nkana, Northern Rhodesia, has returned to Canada and is now with the Aluminum Company of Canada at Arvida, Que.

**M. N. Hay**, Sc. '23, manager of the Kingston works of the Aluminum Company of Canada since the establishment of this plant a few years ago, has been appointed manager of the fabricating division of the company, with headquarters at Montreal.

**Mrs. E. I. Holmes** (Billie Nobes), Arts '24, was elected president of the Ottawa Home and School Council at the twenty-first annual meeting held on May 12.

**Dr. Clifford Howard**, Arts '26, Med. '28, formerly on the staff of Binghamton State Hospital, was recently appointed clinical

*Ontario Ladies' College*

director of the Ogdensburg State Hospital, Ogdensburg, N.Y.

**J. D. Elliott**, Arts '26, Com. '27, Prescott, Ont., **Mrs. Allan Patterson** (Isobel Esther Elliott), Arts '30, Brockville, Ont., and **Dr. F. G. Elliott**, Med. '34, Edmonton, were bereaved on April 19 by the death of their father, Mr. F. W. Elliott, prominent business man of Prescott for more than thirty years.

**Mrs. G. I. Johnston** (Marjorie Corran), Arts '26, Toronto, spent the week-end of May 16 at her home in Lindsay, when her parents, Mr. and Mrs. J. G. Corran, celebrated the diamond jubilee of their marriage.

**Prof. F. A. Knox**, Arts '23, professor of economics at Queen's, was re-elected president of the Kingston Young Men's Christion Association at the annual meeting on April 16.

**C. W. MacDonald**, Sc. '29, is with Sturgeon River Gold Mines, Nezah, Ont.

**C. E. McLurg**, Com. '29, has been chief accountant of the United Kingdom's payments office and an ex-officio member of the Inspection Board of the United Kingdom and Canada, Ottawa, since August, 1941. Formerly he was assistant accountant of Gutta Percha and Rubber Company, Kitchener, Ont.

**G. C. Monture**, Sc. '21, assistant metals controller for Canada, addressed the Toronto Canadian Club at a luncheon on April 20 on "The Battle of Metals."

**J. L. Murray**, Arts '20, formerly principal of the high school at Timmins, Ont., has been appointed principal of the Kingston Collegiate and Vocational Institute, to succeed the late **F. W. Danby**, Arts '11.

**Dr. J. R. Nicoll**, Med. '24, is practising as an eye, ear, nose and throat specialist

**Ridley College**

ST. CATHARINES, ONT.

Founded 1889

**Canadian Residential School for Boys.**

COURSES leading to pass and honour matriculation to the Universities and to business. Generous scholarships, bursaries, and Leonard Awards for boys entering both Upper and Lower Schools. Modern residences, large grounds, Memorial Chapel, new Gymnasium and Swimming Pool, Covered Rink. Next term begins Tuesday, September 8. For full information apply to

**H. C. GRIFFITH, M.A., LL.D., Headmaster.**

PICKERING COLLEGE

NEWMARKET, ONTARIO

*A Residential School for Boys*

**Your Boy's Future**

The development of the total personality of the child is the aim of a modern educational programme. Therefore, besides academic instruction it is our endeavour at Pickering to inculcate a knowledge and understanding which prepares students for citizenship in a changing world. In addition to the Matriculation and Business Courses, school life at Pickering promotes the physical, social and spiritual development of its students by offering a wide range of interests and supplementary activities—lectures and discussion groups on current problems, civic and economic—specialized library service—hobby clubs—vocational guidance—musical, artistic and dramatic interests. Seasonal athletic activities throughout the year.

For full information, write the Headmaster, Joseph McCulley, M.A.,

APPLICATIONS ARE NOW BEING RECEIVED FOR THE AUTUMN TERM, WHICH OPENS SEPT. 15.

TRINITY COLLEGE SCHOOL

*Separate Senior and Junior Schools*

FOUNDED 1865

*Tradition and Progress*

PORT HOPE, ONTARIO

A BOARDING SCHOOL IN THE COUNTRY FOR BOYS

Valuable scholarships and bursaries awarded annually.

Full information will be gladly sent on request to the Headmaster,

PHILLIP A. C. KETCHUM, M.A.

in Los Angeles, Calif., where his address is 553 South Western Avenue.

**Dr. D. S. Pasternack** Sc. '25 (Ph.D. McGill), is in the testing laboratories of the Department of Public Works at Ottawa.

**E. R. Sprott**, Arts '29, Com. '33, expects to graduate this spring from the University of British Columbia with his B.Sc. in forestry.

**R. W. Willis**, Sc. '27, formerly associated with the Canadian Bridge Company at Walkerville, Ont., has accepted a position as designing engineer with the Standard Steel Construction Company, Welland.

### 1930-1939

**Harold Allan**, Sc. '33, is now mine manager of the West Rand Consolidated Mines, West Rand, Transvaal. He is also a lieutenant in the Army Reserve Corps.

**F. R. Archibald**, Arts '33, is research chemist for Ventures Limited and Metal Hydrides Incorporated, Beverly, Mass.

**S. G. Barkley**, Arts '37, is acting as smoke expert for Allied War Supplies, Montreal, and also as plant representative for the Waterloo and Granby munitions plant.

**J. W. Beckham**, Sc. '38, is employed by H. G. Acres and Company Limited at the Shipshaw power extension, Kenogami, Que.

**D. W. Brown**, Sc. '37, is assistant engineer for Teleflex Limited, Toronto.

**John Carruthers**, Sc. '39, has been doing aircraft inspection work for the past two years at the Clark Ruse Aircraft Company, Dartmouth, N.S.

**G. L. Clendenning**, Arts '32, teaches in the technical school at Port Arthur, Ont.

**PO. M. G. Fleming**, Sc. '36, is navigation instructor at No. 5 S.F.T.S., Brantford, Ont.

**R. C. Hart**, Sc. '33, is chief geologist at Preston East Dome Mines, South Porcupine, Ont. He was formerly at Falconbridge Nickel Mines.

**R. H. Hartman**, Sc. '36, has been appointed assistant plant engineer for Page-Hersey Tubes Limited, Welland, Ont.

**Mary Hemphill**, Arts '37, has joined the R.C.A.M.C. as a nursing sister. She is stationed at Camp Borden, Ont.

**Lt. Col. C. F. Hubbs**, Sc. '35, R.C.O.C., is stationed at Canadian Military HQ., Trafalgar Square, London, England.

**E. T. Hurley**, Sc. '33, is an inspecting officer in the chemicals and explosives division of the Inspection Board of the United Kingdom and Canada. He lives at 190 Stanley St., Ottawa.

**FO. H. G. Kelly**, Med. '40, has been promoted to the rank of flight lieutenant in the R.C.A.F. He is now stationed at No. 9 A.O.S., St. Johns, Que.

**Dr. George Lewis**, Med. '35, and **Dr. J. L. Etherington**, Med. '36, are doing postgraduate work at the Manhattan Eye, Ear, Nose and Throat Hospital, New York City.

**Rev. J. T. P. Nichols**, Arts '36, Theol. '39, assistant minister at St. Giles United

Church, Hamilton, has accepted a call to the churches at Lewvan and Colfax, Sask., the call to be effective this July.

**J. D. Paterson**, Sc. '40, is process technician for Defence Industries Limited, shell filling division, Ajax, Ont.

**G. M. Robson**, Arts '39, is on the staff of the International Nickel Company, Copper Cliff, Ont.

**D. M. Shepherd**, Arts '39 is one of four Canadians among one hundred and sixteen graduate students awarded fellowships for the year 1942-43 by the University of Chicago. Mr. Shepherd's fellowship, valued at $300, is in the department of Latin Language and Literature.

**W. E. Soles**, Sc. '35, has joined the staff of the Anglo-Canadian Pulp and Paper Co., Quebec City.

**PO. T. R. Vout**, Arts '31, of the R.C.A.F., attached to the R.A.F., has been transferred to Egypt. PO. Vout went overseas last November.

### 1940-1941

**Dr. John Alexander**, Med. '41, left recently for Arvida, Que, to take up his new duties with the Aluminum Company of Canada.

**C. M. Bartley**, Sc. '41, is assistant geologist for Madsen Red Lake Gold Mines, Madsen, Ont.

**R. E. Henderson**, Sc. '40, Com. '42, is on the staff of Canadian Car and Foundry Company, aviation division, Fort William, Ont.

**W. R. Honeywell**, Sc. '40, is on the staff of Preston East Dome Mines, South Porcupine, Ont.

**R. W. Kraft**, Sc. '40, of the Aluminum Company of Canada, has been transferred from Arvida, Que., to Aluminium Laboratories, Kingston.

**Dr. J. C. Millar**, Med. '41, is in private practice at 495 Annette St., Toronto, Ont.

**J. G. Patterson**, Sc. '41, has joined the staff of the Northern Electric Company, Montreal.

**Dr. R. D. Smith**, Med. '40, is practising at Stellarton, N.S.

**Helen Storey**, Arts '40, is teaching at the high school in Rainy River, Ont.

**J. C. Thornham**, Sc. '40, is with the Toronto Transportation Commission.

# THE UNIVERSITY CARRIES ON

**By Principal R. C. Wallace**

WE are approaching the end of the third year of the war, with a diminution of student attendance—last winter—of only 12 per cent of the normal student body at Queen's University. Some of the Canadian universities suffered no loss in attendance at all. This is a situation that could not have been foreseen when the war began, and calls for explanation. Our expectation had been that at the end of two years of war the universities would have dropped to half of their normal population. What has happened to change the situation?

The explanation is not that young men and women are less loyal to great causes than they were twenty-five years ago. We who know the heartsearching which they have had, and are having, are well aware that this is not the explanation. The technical demands which this war makes have had immediate repercussions on the universities, and have placed on institutons of learning the responsibility to train young men and women to meet these demands. Even under the pressure of accelerated courses the universities cannot supply the needs of the armed services and of war industry for trained men and women; and we are being urged, not to permit young people to go out before obtaining their full training, but to train them fully and if possible more quickly by means of the regular courses. The third, fourth, fifth and sixth years in Medicine are in continuous session, summer and winter, the two senior years in uniform and on army pay. It is not found possible to adopt the same plan in Applied Science, as the summer work in industry, mostly war industry, is an essential part of the training. But another method is being adopted at Queen's to shorten the time of training. Specially selected able students who have completed junior matriculation are given a course in mathematics, physics and chemistry for eight weeks in the summer, and, if successful, will be admitted to first year Applied Science. In this way a year will be saved, and, for really able students, the loss in background equipment will not be serious.

The war has greatly increased the need for men thoroughly trained in science, applied science and medicine. What about the men and women in arts? There the need is not so clearly defined. While the attitude of the Government has been that it is advisable that all students should complete their training, and while they are encouraged to do so by being granted exemption if they take the full military course as laid down for each year, the students in the humanities (language, literature, philosophy, social studies) have not been convinced that they can serve their country best by continuing their university work. Already there is a very considerable falling off in numbers; and this tendency will become more marked next year. The matter resolves itself into a personal problem. Speaking in a general way, young people

liberally educated are needed to maintain poise and balance in the temper of our thinking; but in the individual case this seems rather a remote obligation to the young man or woman who is personally concerned, and the decision is usually made that a higher service can be done by joining one of the branches of the armed forces. There is little distinction in this matter as between men and women. It has been made possible at Queen's for students in the Arts course to graduate earlier by more liberal regulations with regard to the number of subjects that may be taken during the summer months and the number of supplementals which may be written in the autumn. It practically amounts to this, that the time that a student takes depends on his or her own ability. He may graduate in as short a time as he has the intellectual ability to master the courses which are prescribed.

There are demands outside the regular routine which have to be met. Training in radio direction finding goes on continuously, and the Gymnasium and the Students' Union have been hard pressed to meet the accommodation of the men in this course, who wear the uniform of the Royal Canadian Air Force. Engineers and physicists are trained to carry on in short-wave work in the services. Industrial personnel men are given courses to fit them for war industry needs. We are integrating the mechanical engineering courses to the needs of the Royal Canadian Ordnance Corps, and the men enter the service at the end of their third year, and continue partly in the service and partly at the University until they complete their training. We shall have more combined courses of this kind, to meet the requirements of the war. We shall also have more specialists' courses, particularly in engineering, for special needs as they arise. The University has become, in a real sense, a service department of the Government as far as the technical requirements of the war are concerned.

There is not much that can be said about the war research work that is going on in the laboratories of Queen's. It is all of a secret nature. It can be said that in some departments large staffs have been assembled for specially important work, and that altogether nearly all of our science departments are engaged in some phase of war research. This is a war that may well be won or lost in the laboratories; and nothing could have demonstrated more effectively the need for a keen research spirit in all our departments than the demand which the outbreak of the war made. The Government turned immediately to men of proved research ability in all our universities, and has leaned very heavily on them continuously during these war years. In some of our departments at least we were not found wanting. It will be many years after the war is over before the full story of the contribution of the scientific men of Canada can be told. It is enough to say that it has been a vital effort.

The military training that has been carried on continuously since the war began has done two things. It has opened the way to our students who are of officer type for recommendation to the Officers' Training schools at Brockville and Gordon Head. Our compulsory training serves in this way as a sifting process for finding the right men for officer training. The other

function which compulsory training has fulfilled has been to bring home to all students a sense of the importance of being prepared to meet the national need, and of being physically fit to do so. It has absorbed practically all the spare time that our students have had, but it has more than justified itself. Arrangements have been made for an air-training unit of considerable size on the campus for next winter. A tentative beginning was made last winter by the R.C.A.F., but arrangements were made too late in the term to be thoroughly effective. The Army and the Air Force have not had it all their own way as far as our students are concerned. A large number have found their way into the Navy, and have been serving in technical and other capacities on the high seas during the last two years or more. The Navy has a strong appeal, and there has been plenty of action to satisfy even the most adventurous.

Little has been said about our women students. They deserve a special word. They are all engaged in some extra work which will serve to make them more readily available for war services, whether as secretaries and business assistants, telegraph operators, motor transport drivers, assistants in the Censor department (if qualified in two or more foreign languages), and competent helpers in home nursing and first aid. Their training is integrated, as far as possible, with the needs that are being met by the various women's organizations, in the services and outside the services. It is significant as well that women are now being admitted into the faculty of Applied Science. There are aspects of engineering in which women have equal competence with men; and their services are needed. Those who are trained in business and in commerce have many more opportunities in war work than they can meet. Educated and well-trained women have come into their own. I think that they will maintain the place that they have won.

The calls on the staff have been very heavy, and are increasing daily. Replacements cannot be made, for the men are not available. We carry on by consolidating work, by eliminating courses which are not essential, by using senior students to assist where formerly graduate demonstrators were employed. From the standpoint of efficiency, the situation is not satisfactory, but the first consideration—overwhelmingly above everything else—is the winning of the war. If a member of the staff feels that he should be in direct war service, and if that feeling is so urgent that he cannot rest satisfied with the work of training others to war needs, there is no wisdom in insisting that he continue in his university work. We are endeavouring to make the best of it, and to carry on without serious impairment. Except in Applied Science and Medicine, it is possible to consolidate, and in that way to effect some relief to the teaching staff.

There is a consideration which causes concern, but about which there is nothing in the meantime to be done. The trend today is to science, applied science, and medicine, and our best students follow that path. The humanities are in eclipse in university life. The urgency of war needs is a partial explanation. If it proved to be the whole explanation, I would be prepared to write it off as a war loss, temporary and recoverable. It may be found to

be the case, however, that the war has done no more than accentuate a tendency which will persist. It is for that reason that those who have responsibilities in the field of education are thinking seriously about some better way of integrating liberal and professional education than has yet been found. But that is another story, and may deserve an article on its own account. It will serve the purpose here to indicate the problem, and to state that much thought is being given to it. As universities we shall fail in our purpose if we do not continue to be the home of liberal culture. Meanwhile our job is to do everything in our power to help in winning this war.

## ADDITIONAL STAFF MEMBERS JOIN ARMED FORCES

LEAVE of absence to serve with the armed forces of Canada or the United States has been granted to six more members of the University staff.

Assistant Professor J. B. Baty, who in 1939 succeeded Dr. W. L. Malcolm in the civil engineering department, has become a first lieutenant in the sanitary corps of the American Army. He is stationed at present at Fort Hancock, N.J.

J. F. EDWARDS

Dr. N. W. Buerger, lecturer in mineralogy since 1937, has enlisted in the United States Navy and is now training at Fort Schuyler, N.Y.

J. F. Edwards, Arts '37, who came to Queen's as instructor of physical education for men in 1939 has entered the R.C.N.V.R. as a sub-lieutenant on special duty. He is stationed for the time being at the Naval College, Halifax.

Dr. Gerald S. Graham, Arts '24, of the history department, who has been on special leave for the past year doing research work in the United States on a Guggenheim Fellowship, has joined the instructional staff of the R.C.N.V.R. with the rank of lieutenant-commander. Dr. Graham came to Queen's in 1936 from Harvard Unversity. He is in England at present.

Dr. Israel Halperin, assistant professor of mathematics, has enlisted with the Royal Canadian Artillery and is in the Officers' Training School at Brockville, Ont., with the rank of second lieutenant. He has been at the University since September, 1939.

DR. G. S. GRAHAM

Dr. Gregory Vlastos, associate professor of philosophy, has entered the R.C.A.F. with the rank of squadron leader. Dr. Vlastos, who came to Queen's in May, 1931, is with the administrative branch of the personnel division.

# LOIS SAUNDERS

**A Tribute by Vice-Principal W. E. McNeill**

LOIS SAUNDERS, who had been the first full-time librarian of Queen's University, died May 22, 1942, at the age of eighty-six. She had spent her last eight years in the Kingston General Hospital, ever under the threat of death, but with active mind and cheerful spirit. She was sustained by good talk with old friends who daily came to see her, by flowers and books which covered every table, and by the sight of Lake Ontario, which in its best moods equalled her loved Mediterranean. At the head of her bed were a few shabby books which none but herself might touch. The pages were thickened with constant handling and the broken backs mended with tape. The Greek New Testament, in which she read daily, was there, the Bible, Dante, the Oxford Book of English Verse, and a little tooled-leather volume that looked like a diary and was not.

Here friends came gladly,—both to give and to receive. A very vital spirit irradiated that little hospital room. Lady Fyfe said that her greatest regret in leaving Kingston was to lose Miss Saunders. Cappon, a few weeks before his death in a near-by room, then only a small and poor simulacrum of his once vigorous manhood, with a gray shawl over his bent shoulders, hobbled in on a nurse's arm to say good-bye. He took Miss Saunders' hands in both his own and thanked her for all she had done for him. For she had been part of the rich intellectual life of her day and had ministered to it generously. She, too, was a scholar, a character, a personality. She belongs with Grant and Fletcher, with Macnaughton, with Watson and Cappon. They had all been her special friends.

Miss Saunders was born near London, the daughter of a Church of England clergyman. Her youth was spent in a suburb of Bristol. She was brought up with dignity on Latin and Greek and all sound doctrine. Her tastes and interests were early formed and firmly held. She believed in Aristotle and Dante and Shakespeare, in Raphael and Michael Angelo, in the Conservative party and right people.

She had a gift for languages. From Latin and Greek she went to French, learned during a stay in the south of France, and to Italian, mastered in Italy while she studied Art. By herself, or with some private tuition, she acquired Spanish, Portuguese, German, Norwegian, and Russian. But this knowledge was merely a key to open the treasures of a varied literature. She had an abounding love for poetry and especially for the *Divina Commedia*. She has left to Queen's a valuable Dante collection with her own drawings of hell and purgatory.

Miss Saunders was twenty-five years old, an Art student in Italy, when her mother, who had moved to Kingston, summoned her home. It was then considered improper for an unchaperoned girl to be away from parents and friends. Though of a very independent cast of mind, Lois Saunders yielded to Victorian decorum, and thus a mother's quite unnecessary solicitude for a daughter helped to make history at Queen's University.

This was in 1881. Miss Saunders opened a studio in Kingston and taught and practised painting. She did a few landscapes,—Italian scenes, the Picton Sandbanks, the old military hospital, Quebec from the Island of Orleans; but mostly she painted flowers, which she loved intensely. Gladioli, irises, poppies, and peonies, usually studied in Adam Shortt's garden, were favourite subjects. With Sir Wyly Grier, who had grown up with her in England, or in a company of artists whom one of her friends used to assemble in his summer home on the Island of Orleans, she held her own in technical and aesthetic talk. A very distinguished Queen's professor, who became a little vain of his knowledge of Art, learned all he knew from Lois Saunders.

Above all she loved books. She read widely in many languages and gained a reputation for learning and taste. She was soon a personage in the best Kingston society. As an Anglican she went to St. George's Cathedral. Because her brother was physician to the Barracks and to the Royal Military College she became a member of the military set. Partly because her brother was on the Medical Faculty, but mainly because her own artistic and intellectual qualities gave her standing in all scholarly circles, she was taken into the University family. Principal and Mrs. Grant were her closest friends and Professor and Mrs. Macnaughton came next.

So when in 1899 Adam Shortt gave up his duties as part-time librarian, Miss Saunders seemed the ideal person for a full-time appointment. Knowledge of library technique was then of little importance. Neither Adam Shortt nor Lois Saunders had ever heard of analytics or corporate entries, but they knew books and had catholic interests. That was the main matter. Adam Shortt had gathered a fine collection of Canadiana and historical documents. Miss Saunders continued the work. She got the British Parliamentary papers, the Rolls series, French Government papers, and important institutional publications. In 1910 the Trustees formally thanked her for securing valuable collections for the library. She was hospitable to science in days when to many of her friends the humanities were the only study. But her special and personal interest was in literature and in the modern languages. In this field she bought with great discrimination. No doubtful or ephemeral books for her. In her twenty-three years she built up a well-balanced library that was one of the best in Canada.

No one could have done more with so little money. Her own salary was only $400 to start with and when four years later the Trustees thought she should have another $100, they voted to try to get it out of the School of Mining. In her first year she bought 791 books, in her last year 1294. For most of her time she had only about $2000 a year for all purposes except salaries. But she never overspent. Her youth as one of a clergyman's family of eleven children left ingrained lessons of economy. Nothing was wasted. Paper that wrapped incoming books was carefully saved to do up those mailed to extramural students. String must be untied, not cut. Even corks were carefully put away. She had no knowledge of bookkeeping and her unorthodox methods worried the auditor. At the end of the year vouchers and petty cash had to be sought in miscellaneous drawers and in various handbags, but they were always found, though once the expenditure had to be reported vaguely as "about $6000." These were small and simple days.

Her space at the beginning was one room on the second floor of the Old Arts Building. In time it expanded upwards into a gallery; then, on the building of Kingston Hall, horizontally into Cappon's former classroom for a reference library and into the theological quarters for more stacks; finally downward into a specially made gallery for political and economic documents above the birds and beasts and fishes of the museum on the ground floor. A reading room for pass students was provided in Kingston Hall in what came to be known as the Red Room. But still there was not enough space. The problem of accommodation was the main matter of her annual reports. "Every rational and many irrational suggestions," she wrote, "have been most carefully considered by myself and the curators." Finally in 1915 Dr. Douglas, the Chancellor, made a generous gift for a new building but construction had to be postponed till after the war. By that time physical ills made it impossible for Miss Saunders to continue. She retired October 1, 1922, and the corner stone of the new library was laid May 9, 1923. It was

a terrible disappointment to have reached the borders of the promised land and to be unable to enter.

To all but the elect Miss Saunders was a bit overwhelming. She was more widely read than most and knew it. Many professors, even some who were potentates in their own departments, had a feeling of inadequacy in her presence and furtively used the library out of regular hours so as not to encounter her. They well understood Macbeth's discomfort when with Banquo·

"Under him
My Genius is rebuked, as it is said
Mark Antony's was by Caesar."

Miss Saunders would have been surprised and sorry to know this, for she had a kind heart. She loved children and they loved her. She would draw for them and recite poetry to them. She might refuse an assistant a week-end leave with the curt words, "It would be quite impossible," but in half an hour she would go to her and say, "It can be arranged." Though students knew her only as a remote and rather dismaying person, she was really too eager to help them with their work. A history professor once complained to her that she spoiled his class by putting on special shelves all the material needed for each essay. A fiction grew up that she hated to see her books go out on loan. That belief was true only as indicating her love of her library. No approved professor could ever complain that even his most careless ways were interfered with. When books were recalled at the end of the session, some men were found to have exceeded all rights. Cappon's borrowings required a cart to bring them back. She was profoundly touched when on her retirement members of staff made her a gift. "It is so lovely," she wrote. "I do not think I ever saw a tea-service I liked so much. I shall certainly never use it without remembering the many dear friends, both new and old, who made the time of my service at Queen's the happiest part of my life. I wish I could make you understand the pleasure and happiness you have given me."

Miss Saunders wrote much verse in her youth but destroyed it when she had better acquaintance with the great poets. In 1912, however, she published in London a little volume of metrical translations from French, Italian, German, and Middle High German, with the title "Strangers and Foreigners." It is thus dedicated:

To the Memory
of
Jessie Grant
For lilies these I lay where she is sleeping.

Mrs. Grant had been dead for eleven years but not to Miss Saunders. A passage from Petrarch is one of her fragrant lilies on the ever-green grave:

"Death cannot mar the sweetness of that face,
But that sweet face can steal from death his sting . .
I know her near from whom all good I trace . . . .
I walked with her—with her would be at peace—
My journey ended where her footsteps cease."

She carried in her memory an amazing amount of poetry. She could place almost any quotation. In the little diary-like book that always lay at the head of her bed she had copied a poem for every day of the year. "Dilecta," she had written on the fly-leaf—things loved. Over one hundred and fifty poets are there, with Shakespeare, Tennyson, Milton, Wordsworth, Browning, Shelley, and Christina Rossetti leading all the rest. The minor

Elizabethans and the early seventeenth century lyrists such as Herrick and Herbert take many pages.

"Fair Daffodils, we weep to see
You haste away so soon."

But for the next hundred and fifty years there is little harvest—Bunyan and Milton, but not Dryden; Gray, Cowper and Collins, but not Pope. She quotes Joyce Kilmer's "Trees," but resents the couplet,

"Poems are made by fools like me,
But only God can make a tree."

Beside this is written a characteristically edged retort:

"No, rhymes are made by fools like thee,
God made the poet and the tree."

There is a great variety,—patriotic verse like Swinburne's, "All our past acclaims our future"; muscular verse like Browning's, "One who never turned his back but marched breast forward"; dirges, and elegies, and epitaphs, "Fear no more the heat of the sun," "They are all gone into the world of light"; poems of faith, "Say not the struggle naught availeth"; and above all poems of love and tenderness, "Give all to love; obey thy heart." Much is in a minor key. There is Sir John Beaumont's lament for his dead Gervase, "Dear Lord, receive my son," and Walter de la Mare's, "Here lies, but seven years old, our little maid."

The passages have no subtlety or preciosity. They speak in the clear voice of common humanity transmuted into the music of verse. They make a beautiful anthology showing how tender and noble was the heart that loved it.

Miss Saunders' religious feelings, like her personal feelings, were profound, but veiled from all save her closest friends. She read her Bible not in special passages but from beginning to end, over and over. She said that was the right way to read it She completed it for the last time a few weeks before her death. She said there was no book equal to it in beauty of language or weight of matter.

While in the hospital she collected over fifty "Epitaphs, Farewells, and Hopes," in a little black-covered note-book with the title, "Vale." Among them is her own poem, "The End of the Road," of which twenty-five copies were printed for her friends. There she names the great articles of her faith—Love, Nature, Art, God. Dean Craig read it at her funeral service, held in the Morgan Memorial Chapel, once one of her library rooms.

Now I have reached the last stretch of the way,
A path to me unknown;
Friends at my side seem dim and far away,
And I must walk alone.

Love! Nature! Art! beauties of Earth and Sky
Oh, were you once so dear!
I scarce remember all your ecstasy,
As I walk silent here.

I only feel one Presence at my side,
To one Hope I hold fast,
That He, who all through life has been my Guide,
Will keep me to the last.

## CHANCELLOR DOUGLAS' LIFE SKETCHED BY SON

AS a frontispiece in this issue, the *Review* is pleased to be able to reproduce the portrait of Dr. James Douglas, Chancellor of Queen's from 1915 to 1918, which was recently executed by Sir Wyly Grier and presented to the University at Spring Convocation on May 16 by Mr. James Stuart Douglas, of Montreal, on behalf of the Douglas family.

Dr. James Douglas received his Bachelor of Arts degree at Queen's in 1858. Throughout his subsequent career he retained a keen interest in his Alma Mater and fifty-seven years after graduation he became her chancellor. This was in the midst of the first Great War, when Queen's was facing very serious financial problems. Through the generosity of Dr. Douglas these were successfully met. His gifts included $100,000 for general maintenance during the war years, $150,000 towards the cost of the Douglas Library, and $100,000 to aid in the reconstruction of the Kingston General Hospital. Queen's will always remain deeply indebted to Chancellor Douglas.

James Douglas, Jr., was born in Megantic Township, in the Province of Quebec, and inherited many of his father's attributes and interests. He homesteaded in Manitoba in the eighties; but following in his parent's footsteps soon gravitated into the mining field. He occupied prominent posts at various mines in the United States and Mexico, eventually becoming president of the United Verde Extension Mining Company, at Jerome, Arizona, and remaining in this position until 1936. He was also president of the Bank of Douglas, at Douglas, Arizona, from 1909 to 1935. He subsequently returned to Canada and took up residence in Montreal.

THE DOUGLAS LIBRARY

During the first Great War, Mr Douglas served in France with the American Red Cross, enjoyed a personal friendship with Premier Clemenceau, and was made a *Chevalier de la Legion d'honneur* by the French Government. His son, Lewis W. Douglas, LL.D. '38, was Principal of McGill University for a time and now occupies a high position in the United States shipping administration.

In presenting his father's portrait to the University Mr. Douglas spoke as follows:

"Mr. Chancellor, Mr. Principal, Ladies and Gentlemen—

"It is an honour extended by Queen's to my brother and my sisters and my sons, for me to have been summoned by your Principal to make a few remarks about the life of my father, who was a student here in 1858 and was Chancellor in 1915.

"His life was a career curious in the extreme, from comfortable youth, educated in Canada and Edinburgh, to near bankruptcy and wealth.

"My grandfather was a surgeon and doctor of medicine in Quebec when it was the largest ship building port in the world with the exception of Bath in the State of Maine, and the only reason that Bath exceeded in output was that its open season was longer than that of Quebec.

"My grandfather was professionally most successful, intensely sympathetic and human, but a decided disciplinarian, and finding the insane of the province ill treated, he established the Beauport Asylum, now the Sanatorium Mastai. But my grandfather was an adventurer. On one of his return voyages in the spring he bought an interest in an alleged copper mine in Megantic, and due to this ignorant speculation my supposedly unfortunate father's life was changed.

"My father's mother, a pious Presbyterian, was for his being a minister of her faith. His father, managing the Beauport Asylum for the Insane, but spending his winters in Egypt, naturally enough used him in his absence to look after the welfare of his unfortunate patients. However, due to my grandfather's proclivities for adventure and speculation, Beauport and the insane had to be abandoned, and with Dr. T. Sterry Hunt, a professor of chemistry at Laval Unversity, much time and the summer of 1868 were spent at the alleged copper mine in the evolution of what became the Hunt and Douglas process for the wet reduction of silicious copper ore.

"It was by and for the same process that our family, including my grandfather, moved in 1875 to the State of Pennsylvania, at Phoenixville, to establish that process for the reducton of copper ores of another alleged mine.

"It was in 1859 that James Douglas married my mother, another Douglas but of an entirely separate tribe. She, too, was born in Quebec, daughter of Walter Douglas, who was a Captain and later Commander in the Cunard Line.

"In all my life I have never known a more persistent, constant and untiring worker than the man whose image you see before you, so honestly and sincerely portrayed by Sir Wyly Grier.

"In the assay office and around the chemical works at Phoenixville all day and writing letters always till midnight, and frequently till early morning, he always found the time to play the harmonium for his six chidren and for family church and prayers on Sunday.

"It was surely due to these virtues that there resulted his contact with other than an 'alleged' copper mine — the Copper Queen Mine of Bisbee, Arizona. The subject of these remarks had other attributes of character which led to success. He didn't bother with ordinary preople as associates or friends. Professor Benjamin Silliman of Yale was a bosom friend, as was also your Principal, Dr. Grant. His financial success was due to his wisdom and foresight and that of Mr. Wm. E. Dodge of 11 Cliff St., New York, to whom he told the story of the Copper Queen open cut, a most remarkable outcrop of wonderfuly rich carbonate ore in the limestones.

"It was Mr. Wm. E. Dodge, an extraordinary person of international sympathies and affairs, and whose father established the American College at Beirut, who with Mr. D. Willis James, his business partner, provided the money for my father to sink a shaft on an adjoining claim to the Copper Queen which exposed high grade ore.

"This venture in 1882 was the nucleus of the fortune which made it possible for James Douglas to become the Chancellor of this school of learning, to which he was so attached, and for his children to be able to present this portrait.

"My father's love for his native land, Canada, was undiminished by his years

of work and prosperity in the United States and he remained and died a British subject. His remains rest on the bank of the St. Lawrence in the Mount Hermon Cemetery at Quebec."

---

## E. T. STERNE, SC. '13, NAMED CHEMICALS CONTROLLER

FOR THE past two years director of the explosives division of Allied War Supplies Limited, Montreal, a Crown company, Edward T. Sterne, Sc. '13, has been appointed chemicals controller for the Dominion.

E. T. STERNE

Born at Brantford, Ont., in 1889, Mr. Sterne received his preliminary education in that city and graduated from Queen's in 1913 with his B.Sc. in chemistry and mineralogy. He did postgraduate work at the University of Chicago and then taught for two years at Queen's. During the first Great War he was chief chemist of the Imperial Munitions Board explosives plant at Trenton, Ont., and later went to England as foreign technical representative of the Shawinigan Water and Power Company Limited.

In 1921 he returned to Brantford to enter his father's company, Messrs. G. F. Sterne and Sons Limited, chemical manufacurers, of which firm he has been general manager for some years.

---

## STAFF MEMBERS HONOURED BY ROYAL SOCIETY

AT the annual meeting of the Royal Society of Canada, held in Toronto during the last week in June, M. B. Baker, Arts '00, Sc. '02, professor of geology at Queen's; J. K. Robertson, Robert Waddell professor of experimental physics; and Dr. G. B. Reed, professor of bacteriology, were elected sectional presidents of the Society.

## QUEEN'S ALUMNUS ELUDES CAPTURE AT SINGAPORE

ESCAPING from Singapore on February 1, just two weeks before that city fell to the Japanese, J. L. Mutter, Arts '27, Com. '28, Canadian Government trade commissioner at the Island Fortress since 1939, and Mrs. Mutter arrived in Ottawa during the early part of July after an eventful and harrowing trip through the Pacific war zone.

They travelled ten thousand miles by cattle boat, river craft and army transport—much of the time just two jumps ahead of the Japs—before finally reaching North America.

When Japanese planes first attacked Singapore, Mr. and Mrs. Mutter were on leave in the hills four hundred miles away. Hastening back to the city, Mr. Mutter served for the next few weeks as an air-raid warden, while Mrs. Mutter worked in a hospital caring for Asiatic casualties. "It sounds impossible," Mr. Mutter related, "but one of our wardens came into the city and reported for duty one day, and when he tried to go home he found his house was behind the Japanese lines."

Day by day the enemy forces moved closer. Owing to the desertion of the maintenance coolies, many of the airfields became useless, and the heroic fight put up by the British and Australian fliers was futile.

The Mutters had managed to secure passage on a cattle boat that was to leave for Java at nine oclock one morning, but a Japanese raid came over with clocklike precision. The dock and the ship were special targets, but fortunately the latter escaped damage and sailed in the late afternoon.

Nine days later Java was reached — normally a 36-hour trip—the passengers sleeping on hatch covers and eating spinach and mashed potatoes. But here also the Japanese were approaching; and when evacuation of all sailable craft was ordered, the fugitives escaped in a leaky river boat carrying six times its customary passenger limit.

It took eleven more days to reach Australia, with very little water for drinking or washing purposes and only bully beef and biscuits for food. A further trial was a severe tropical storm shortly before sighting Australia. "Almost everyone of military age was in uniform there, including hundreds of women," Mrs. Mutter reported, "and glass was being taken out of store windows and other preparations made."

A United States army transport brought Mr. and Mrs. Mutter safely across the Pacific after the trials and hazards of their trip to Australia. A few pieces of hand-baggage held their entire possessions.

## W. K. KELLOGG FOUNDATION MAKES GRANT TO QUEEN'S

THE W. K. Kellogg Foundation, of Battle Creek, Michigan, has made a grant of $10,000 to Queen's for the purpose of assisting medical students who would have difficulty in financing their course under the newly accelerated schedule.

This generous gift to the University was inspired by the Kellogg Foundation's belief that "it is a matter of great importance to the war effort that the stream of professional men in training be maintained at a maximum at this time." Similar assistance is being rendered by the Foundation to some hundred and fifty other schools of medicine, dentistry, public health and nursing in Canada and the United States.

At Queen's the help made possible by the Kellogg gift will be extended to Medical students in the form of loans at a low rate of interest. The fund will supplement that provided by the Dominion Department of Labour for a like purpose. It will be used chiefly for those not eligible for Government loans, viz., students in their first year and students not physically fit for military service.

The W. K. Kellogg Foundation was established in 1930 to receive and administer funds for "the promotion of the welfare, comfort, health, care, education, feeding, clothing, sheltering, and safeguarding of children and youth, directly or indirectly, without regard to sex, race, creed or nationality."

## TWO INNOVATIONS MARK PRESENT SUMMER SCHOOL

THE thirty-third session of the Summer School began on July 3 with an attendance of 290—a decrease of 80 from last year's total, and of 460 from the all-time high of 750 in 1936.

Two innovations mark the present session—the opening of the School of Fine Arts, and the establishment of a special preparatory course in Applied Science for junior matriculants. The latter is noted in some detail elsewhere in this issue.

The School of Fine Arts offers courses in art, music, drama and play-writing. Edwin Holgate, R.C.A., of Montreal, is assisting Professor André Biéler in the art classes; while Leslie R. Bell, director of music at the Ontario College of Education, and Madame Tania Plaw, of Kingston, are aiding Dr. F. L. Harrison with the work in music. The studies in drama and play-writing are being conducted by Dr. William Angus, assisted by Charles Rittenhouse, supervisor of speech training and dramatics for the Montreal Board of School Commissioners.

No C.O.T.C. training is being given at this year's Summer School, but special courses in first aid and home nursing are being offered for the women students.

## GEOLOGICAL LIBRARY RECEIVES VALUABLE BOOKS

DR. J. B. Tyrrell, LL.D. '40, has presented a number of books to the geological library of the University. Included are the rare volume, *Geology of Canada, 1862,* by Sir William Logan, and the complete reports of the Geological Survey of Newfoundland from 1866 to 1909. The latter are now difficult to obtain.

Only a few copies of the Logan *Geology of Canada* were issued. One of these came into Dr. Tyrrel's hands at York Factory during his exploration of the country west of Hudson Bay in the early eighteen-nineties.

# UNIVERSITY BALANCES BUDGET FOR 1941-42 YEAR

IN spite of a decrease of approximately $27,600 in student-fee revenue over that of the previous period, the University was able to close the year ending on March 31, 1942, with a credit balance of $789.39.

This satisfactory showing was made possible by an increase of $25,000 in the Ontario Government's annual grant, by a sufficient growth in the investment portfolio—through accretions to the endowment, scholarship, trust and reserve funds—to yield a return that slightly overbalanced the loss from falling interest rates, and by extremely careful supervision of all expenditures.

The operating accounts and balance sheets of the University for the three years since the start of the war are given in condensed form below:

## Revenues and Expenditures

### Revenues

| | 1939-40 | 1940-41 | 1941-42 |
|---|---|---|---|
| Students' Fees (intramural and extramural) | $436,071 | $409,421 | $381,837 |
| Investment Income— | | | |
| General and special | 142,025 | 145,092 | 148,663 |
| Trust | 32,054 | 30,953 | 31,740 |
| Government Grants | 256,075 | 256,075 | 281,075 |
| Sundry | 5,596 | 5,301 | 10,890 |
| | $871,821 | $846,842 | $854,205 |

### Expenditures

| | | | |
|---|---|---|---|
| Educational | $621,644 | $611,575 | $613,878 |
| Plant | 117,954 | 111,016 | 109,332 |
| Sundry | 99,786 | 93,061 | 98,473 |
| Trust | 32,054 | 30,953 | 31,740 |
| Balance | 383 | 237 | 782 |
| | $871,821 | $846,842 | $854,205 |

## Balance Sheets

### Assets

| | 1939-40 | 1940-41 | 1941-42 |
|---|---|---|---|
| Investments | $3,831,884 | $4,013,041 | $4,345,912 |
| Lands, Building and Equipment | 4,893,710 | 4,887,046 | 4,752,834 |
| Cash | 145,093 | 119,499 | 154,789 |
| Sundry | 21,139 | 21,213 | 27,482 |
| | $8,891,826 | $9,040,799 | $9,281,017 |

### Liabilities and Endowments

| | 1939-40 | 1940-41 | 1941-42 |
|---|---|---|---|
| General and Special Endowments | $3,504,357 | $3,513,791 | $3,549,655 |
| Trust and Reserve Funds | 763,996 | 822,000 | 1,006,440 |
| Scholarships | 465,854 | 522,045 | 532,491 |
| Current Liabilities | 71,632 | 96,739 | 100,116 |
| Surplus | 4,085,987 | 4,086,224 | 4,092,315 |
| | $8,891,826 | $9,040,799 | $9,281,017 |

The student registration figures, intramural and extramural, for the past three years are: 1939-40, 4463; 1940-41, 4076; 1941-42, 3714. The total registration for 1938-39, the last period before the war, was 4714. This was the highest in the University's history, and was exactly 1000 greater than that of last year.

The Ontario Government's annual grant to Queen's dropped, in $50,000 or $25,000 amounts, from $350,000 in 1931-32 to $250,000 in 1939-40 and 1940-41. It was put back to $275,000 last year.

## FROM A GRADUATE OF ARTS '98, THEOLOGY '01

To the Editor of the *Review*:

I was greatly interested in Lawson Chambers' article on "Geordie" in your April number. It stirred happy memories of those days of long ago. I belonged to the last class of Divinity students to whom our beloved Principal lectured—the class of '01. He lived another year, but did no further teaching.

The reason I am prompted to write to you is that I was the student guide referred to by Lawson as "Billy McLaren." This was a slip of memory; it should have been "Billy McDonald." I remember the experience distinctly. I was one of the two postmasters of that time. We had a little office on the second-floor corridor, and one of us had to be on hand on Saturday morning to sort the mail and post the list. The Principal knew us, and it was not by chance of the passing student that he asked me to guide the two boys newly arrived from Turkey.

It was a lovely September morn. We started out, and I remember my secret amusement at the way those lads walked —with a sort of ambling and uneven gait, the one before the other, as they had been accustomed to move along on the cobbled streets of the far-away Turkish city—neither of them in step with me, and I as a senior student feeling quite important.

Our first call was upon Mrs. Mason, the kindly, motherly wife of Professor Mason, who fostered Henry Baillie and his sister Annie, the late matron of the Kingston General Hospital and the kind friend of many a student. The call was successful; the Chambers were at once established in a good boarding-house and, my pleasant duty thus performed, I went my way.

The lads quickly fell into step with the ways of college life, and we soon learned to accept and appreciate them as "among the boys" and found them to be clever and industrious students. They were merged in their classes, and since graduation have done credit to their Alma Mater.

I, too, might add my quota of reminiscences of "Geordie" and Queen's, but shall set down only one.

During the summer following my graduation in 1901, I got aboard the train at Carleton Place, and in the day coach—first-class that time—I saw the Principal in a seat by himself. Naturally I went to him, and after greeting me in his usual cordial fashion, he asked me to sit down with him. I did so, and after questions about myself, we spoke in more general terms.

"Principal," I said, "I'm sorry that I am leaving Queen's and not just entering."

"Why so?" he quickly asked.

"There are great days ahead for the students at Queen's," I replied.

I think he was personally a little hurt by what I had said, for he must have known that his days at Queen's were numbered.

Turning to me, he commented somewhat sharply: "Don't say that, young man, don't say that! Your days at Queen's were the *best days, for you;* they always are, for everybody." Then he changed the conversation.

I have always remembered his words. They are the truth. That was the last time I saw him. "O, what a happy man was Geordie!" So we sang many a time, and our memories of him are happy.

I have just completed the reading of that recent book, *Some Great Men of Queen's*. It brings home to me afresh that my days were really *great days*—days of great men, rather than of great things. Indeed I now realize that I was most fortunate in my high-school and college career. In the former I was a pupil and intimate personal friend of Dr. P. C. McGregor, who sent some brilliant men to Queen's — Haydon, Peacock, Munro, Playfair, Max Bell, McDougall, to mention just a few.

Then, on top of that, to have been under the influence of all those "great men of Queen's"—save Adam Shortt—was indeed to be privileged beyond any recent crop of undergraduates, no matter how highly they regard their own generation of professors. It was the personalities, rather than the lectures, of such men that made the impression.

I took Professor Jordan's first lectures at Queen's, as I took "Geordie's" last ones. "Johnny" Macnaughton has still a

cherished place in my memory because of his "fire." McNeill's address on "Cappie" is a perfect gem of portrayal.

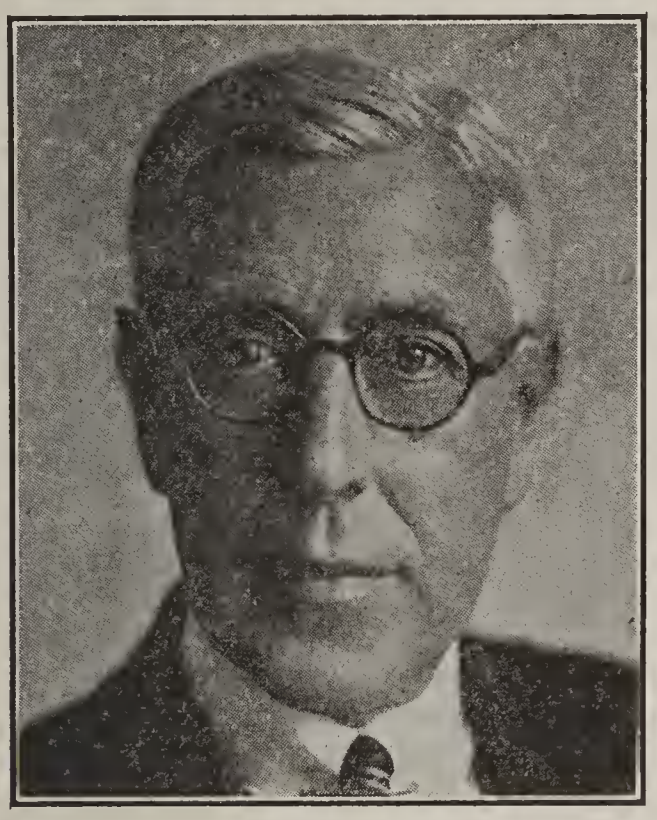

The best thing about my memory is that we simply took for granted that these "great men" were part of Queen's.

In my retirement I often think of the "good old days."

Very sincerely yours,
WM. MCDONALD,
Arts '98, Theol. '01.

## FORMER PRINCIPAL KNIGHTED BY KING

DR. W. H. FYFE, Principal of the University from 1930 to 1936, was made a Knight Bachelor by His Majesty the King in June of this year. The award was in recognition of Dr. Fyfe's outstanding contributions in the field of education.

PRINCIPAL FYFE

Before coming to Queen's, Dr. Fyfe was for ten years headmaster of Christ's Hosital—the famous "Bluecoat School"—at Horsham, England. At Queen's he will always be remembered for his ready wit and charm of manner no less than for his able administration and fine scholarship. He left Queen's to assume the principalship of Aberdeen University, which position he still holds.

Queen's people everywhere will join with the *Review* in congratulating Sir William Hamilton Fyfe on the well-merited honour that has come to him.

## AUTUMN CONVOCATION SET FOR OCTOBER 16

AUTUMN Convocation is to be held this year on "University Day"—Friday, October 16. The time of the function, whether afternoon or evening, has not yet been arranged.

Other events being planned for the week-end are the semi-annual meeting of the board of directors of the General Alumni Association, the annual meeting of the Association, the customary University reception and the Convocation dance.

As Intercollegiate football is still in eclipse, no general reunion is scheduled for this fall; but the Alumni office will be glad to lend its assistance to any individual classes who may wish to hold get-togethers at Convocation time.

## PERSONNEL OFFICIALS ATTEND SPECIAL COURSE

THIRTY-FIVE members of the personnel staffs of Canadian companies and Government departments attended the first half of the special course in Personnel Administration for War Industries, which opened at Queen's on June 8 and carried on until June 20. The second part of the course will be given from August 10 to 22.

Sponsored by the Federal Department of Labour, the course is conducted by the Industrial Relations Section of the School of Commerce and Administration, with the assistance of experienced personnel directors of Canadian corporations. Its objective is to give intensive training to selected representatives of companies and organizations engaged in or associated with war-production work. Professor J. C. Cameron is in charge.

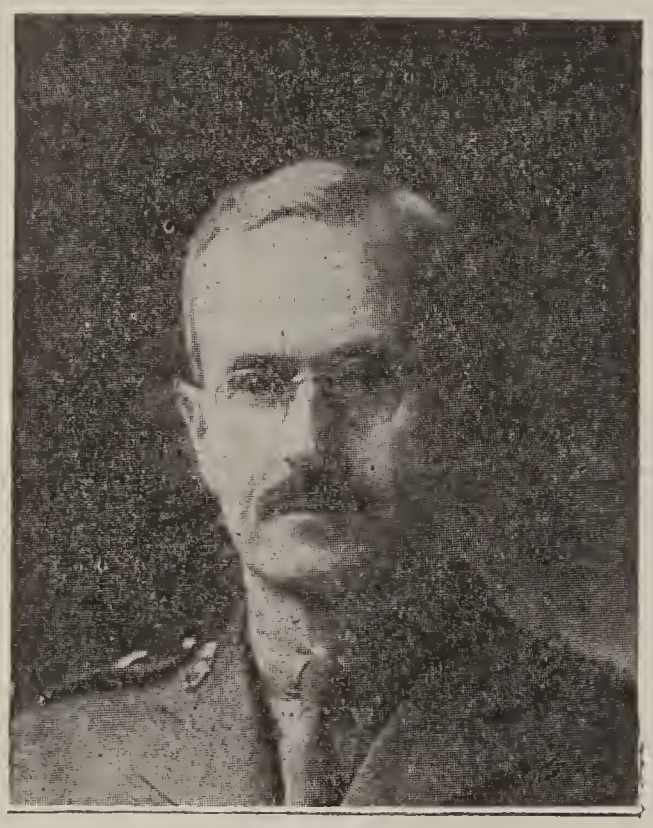

A comprehensive series of employer-employee problems and other pertinent subjects is covered by the curriculum. Included are such matters as the recruiting, selection and placement of employees, wages and hours, foreman and employee training, the introduction of women into industry, absenteeism, labour loss and morale building.

The foresight which, some five years ago, made Queen's the Canadian pioneer

in the study of industrial relations, and the fund of valuable experience and information accumulated since then, have placed the University in a particularly favourable position to serve the Dominion effectively at this critical time. When speaking at Queen's last winter, Labour Minister Humphrey Mitchell complimented the University on the fundamental work it was doing in the personnel field.

## C.O.T.C. CAMP TO BE HELD IN SEPTEMBER

THE Queen's Contingent of the Canadian Officers' Training Corps, including the auxiliary battalion, will go into camp for two weeks at Connaught

LT.-COL. EARL

Ranges, Ottawa, on September 5. Lt.-Col. R. O. Earl, Arts '14, will be in command. Last year the camp was held at Barriefield during the early part of May.

## SPECIAL COURSE ADMITS TO APPLIED SCIENCE

A SPECIAL course to enable junior matriculants to enter the first year of Applied Science this fall is now in operation at Queen's. By attending this summer session, students will save a year which would otherwise be spent in obtaining senior matriculation standing in high school or its equivalent by means of a regular winter session in Arts at the University.

The course, which opened on July 2, is eight weeks in length and provides intensive instruction in mathematics, physics and chemistry. Candidates who successfully complete the work may register for second-year courses in mathematics, physics and chemistry in Arts if they do not wish to enter Applied Science.

This new development is one of the many ways in which Queen's is participating in the war effort. By accelerating established courses and by instituting special instruction in many subjects, the University is endeavouring to use to the full its teaching and laboratory resources, thus helping to meet the great demand for highly trained personnel in the armed forces and in essential industry.

## PRINCIPAL WALLACE HAS BUSY SCHEDULE

AMONG Dr. Wallace's many outside engagements during recent weeks have been the following:

April 28—Radio broadcast at Canton, Ohio, under sponsorship of United States Department of Information, on Canadian-American co-operation in the war effort.

April 28-29—Addresses on similar subjects to Kiwanis clubs of Cleveland, Canton and Massillon, Ohio.

May 29—Royal Society of Canada, Toronto.

June 1 — Commencement address at Michigan College of Mining and Technology, Houghton, Mich.

June 10 — Commencement address at University of Buffalo, Buffalo, N.Y.

June 11-12 — Canadian Universities Conference, Toronto.

June 16 — Conference of Board of Christian Education of United Church, Toronto.

July 2 and 9—Reports before House of Commons Special Committee on Reconstruction and Re-establishment, Ottawa, in connection with post-war reconstruction and rehabilitation questions.

Included, also, in the Principal's programme have been fortnightly visits to Ottawa for regular conferences on reconstruction and other war problems.

## QUEEN'S MEN ELECTED FELLOWS OF ROYAL SOCIETY

DR. GEORGE HUMPHREY, professor of philosophy at Queen's, Dr. L. E. Marion, Sc. '26, of the National Research Council, and Dr. J. J. Stewart, Sc. '11, of the Canadian Geological Survey, were recently elected to fellowships in the Royal Society of Canada.

For the past two years Dr. Humphrey has been doing important research work at the University in psychology as related to war probems.

Dr. Marion has been on the staff of the National Research Council since 1929, working principally on research in plant chemistry.

A specialist in oil geology, Dr. Stewart has had experience in Trinidad, Ecuador, Peru, Colombia and Alaska, as well as in Canada.

## ON HIS MAJESTY'S SERVICE

LT.-COL. J. H. EAMAN, Sc. '31, formerly assistant chief signal officer for the Canadian Corps overseas, has been appointed officer commanding the 2nd Canadian Corps of Signals. He has been overseas since December, 1939.

* * * *

Lieut. F. L. Askwith, Sc. '40, of the R.C.N.V.R., is on furlough at his home in Ottawa from active service on the high seas. Lieutenant Askwith went to Portsmouth, England, to take an officers' training course in 1940, and shortly afterwards was posted to a cruiser of the Royal Navy, doing patrol work around the British Isles. Later he was transferred to more hazardous duties in Russian waters.

* * * *

Major J. W. Grimmon, Arts '32, has been transferred from his former position as adjutant of No. 10 B.T.C., Kitchener, to Headquarters, Military District No. 1, London, Ont., where he is serving as district army examiner.

* * * *

Major Colin Campbell, Sc. '22, Arts '23, now serving in England with the R.C.E., has been promoted to the rank of lieutenant-colonel. He is at present in charge of Canada's "shock sappers"—No. 1 Tunnellers Company, which has been commissioned to re-open the Cornish tin mines that had fallen into disuse. The work consists of blasting out new adits, sinking new shafts, and dewatering old workings, some of which were abandoned fifty years ago.

* * * *

Major A. B. Dove, Sc. '32 who has been in England for the past year as adjutant of the 3rd Division Engineers is at present taking a staff course at the R.M.C., Kingston.

* * * *

Lieut. Ian Campbell, Arts '40 and his wife, formerly Emily Elizabeth McNeill, Arts '42, are both servng in the armed forces overseas. Lieutenant Campbell, who is with the Hastings and Prince Edward Regt., has recently been acting as adjutant quartermaster at a junior leader school. Mrs. Campbell is attached to the Mechanized Transport Corps.

* * * *

Squadron Leader George Ault, Arts '35, who has been with the R.C.A.F. overseas for the past year, was recently appointed assistant judge advocate general at R.C.A.F., headquarters in London. He was a member of the legal profession in Ottawa before joining the Air Force in 1939.

* * * *

Below is the twenty-seventh in the series of monthly lists of Queen's alumni who have joined some branch of the fighting services:

Royal Canadian Air Force — Wing Cmdr. J. K. W. Aird, Sc. '14, A. J. Butter, Sc. '44, G. H. Carson, Sc. '42, AC2 W. J. Carswell, Arts '45, AC2 R. K.

Carty, Com. '42, Frank Dubrule, Arts '42, Sgt. Observer M. A. Everard, Sc. '39, FO. J. C. Finley, Med. '35 (Medical Branch), Sqdn. Ldr. W. M. Foster, Sc. '37, Flt. Lt. C. R. Gates, Arts '39, PO. W. D. Gilmore, Arts '32, PO. E. M. Haacke, Sc. '42 (Radio Branch), PO. R. E. Helmer, Arts '32, PO. R. W. Little, Sc. '42 (Navigation Branch), Flt. Lt. A. D. McGinnis, Sc. '38, R. R. McGregor, Sc. '44, FO. D. H. Morrow, Arts '36, AC. H. F. Williamson, Arts '43.

Royal Canadian Naval Volunteer Reserve—Sub-Lt. W. D. Alford, Sc. '41, Sub-Lt. D. A. Denny, Arts '44, Sub-Lt. J. K. Diebel, Sc '42, Surgeon-Lt. D. H. Dixon, Med. '42, Lieut. J. A. Ferrier, Sc. '37, F. L. Johnson, Sc. '43, Surgeon-Lt. R. W. McIntyre, Med. '42, Lieut. D. L. McGillivray, Sc. '37, Surgeon-Lt. A. A. MacMillan, Med. '41, Sub-Lt. H. B. Meanwell, Sc. 42, Sub-Lt. A. R. Smith, Sc. '42.

Royal Canadian Artillery—2/Lt. J. L. Besley, Arts '42, 2/Lt. J. B. Black, Arts '42, 2/Lt. D. G. Buckley, Arts '42, Cadet J. R. Connell, Arts 43, 2/Lt. J. W. Conner, Arts '41, 2/Lt. K. C. Corbett, Arts '42, 2/Lt. J. L. Field, Arts '42, 2/Lt. P. M. Fisher, Arts '42, 2/Lt. D. J. Godkin, Com. '42, 2/Lt. J. M. Hamilton, Com. '42, 2/Lt. W. C. Hesler, Com. '42, 2/Lt. B. A. Howse, Com. '42, Cadet H. D. Hume, Arts '44, 2/Lt. William McDonnell, Com. '42, Cadet G. A. Mendel, Arts '45, 2/Lt. J. H. Morrow, Arts '42, Lieut. E. H. H. Reid, Sc. '43, Cadet G. S. Webb, Arts '44.

Royal Canadian Engineers—2/Lt. I. C. Brown, Sc '40, 2/Lt W. R. Chilman, Sc. '42, 2/Lt. Peter Malchowski, Sc. '41, Lieut. N. J. Paithouski, Sc. '40, 2/Lt. J. R. Peters, Sc. '42, Lieut. T. L. Reid, Sc. '38, 2/Lt. E. E. Sorenson, Sc. '42, 2/Lt. R. G. Whatnough, Sc. '43.

Infantry—Cadet P. V. Alexander, Arts '40, 2/Lt. C. G. Case, Arts '42, 2/Lt. Cecil Cornwell (extramural), Cadet R. B. Crozier, Arts '38, Com. '40, 2/Lt. J. E. Forrester, Arts '44, 2/Lt. P. A. Q. Gillan, Arts '41, Capt. G. B. Macgillivray, Arts '37, Lieut. F. L. Miller, Arts '38, Lieut. G. W. L. Nicholson, Arts '31, Cadet J. T. Parkhill, Arts '41, Cadet W. D. Sproule, Arts '42, 2/Lt. H. J. Valery, Arts '42, 2/Lt. Kenneth Williams, Arts '40.

Royal Canadian Ordnance Corps—Cadet C. B. Clarkson, Arts '42, 2/Lt. W. R. Coburn, Sc. '42, Lieut. S. G. Jones, Sc. '41, Cadet William Lawrence, Arts '41, 2/Lt. R. K. Motherwell, Sc. '42, Lieut. W. A. Nelson, Sc. '37, 2/Lt. E. W. E. Parker, Sc. '42, Cadet W. R. Preston, Arts '42, 2/Lt. T. G. Rust, Sc. '42, Cadet G. A. Schultz, Sc. '42.

Royal Canadian Army Service Corps—Cadet C. E. Abner, Arts '42, Cadet P. R. Berman, Arts '42, Cadet F. J. C. Haynes, Arts '41.

Royal Canadian Corps of Signals—2/Lt. A. P. Cote, 2/Lt. B. C. Craig, Sc. '42, Cadet E. B. Forde, Arts '44, Lieut. A. R. Garrett, Arts '18, Sc. '20, Lieut. E. S. Graham, Sc. '42, Cadet H. B. Henderson, Arts '42, .2/Lt. J. W. Wheal, Sc. '42.

Royal Canadian Army Pay Corps—H. L. Allen, Arts '37.

Canadian Armoured Corps — Tr. R. E. Forbes, Sc. '44, Lieut. E. G. Vance, Arts '32.

Royal Canadian Army Medical Corps —N/S Mary G. Hemphill, Arts '37.

Directorate of Special Services—Lieut. George McCracken, Arts '28.

## THREE ALUMNI KILLED ON ACTIVE SERVICE

WHILE engaged in air operations in the Eastern theatre of war, Pilot Officer John Phipps Doncaster, Sc. '42, of Port Arthur, Ont., was killed on June 13, according to a cable recently received by his wife. Last word from him had come from Gibraltar early in June, stating that he was then *en route* to the East.

Pilot Officer Doncaster was born in New Westminster, B.C., twenty-two years ago. He entered Applied Science at Queen's in the fall of 1938 and remained until the spring of 1940. He then enlisted in the R.C.A.F. and went overseas last November. He was the son of P. E. Doncaster, Sc. '10, who was for many years on the staff of the Depart-

ment of Public Works in British Columbia and later district engineer at Fort William, Ont., and who has recently been representing Government interests on the new Dominion Magnesium Limited project near Renfrew, Ont.

* * * *

AS a result of a motor-cycle accident, Lieutenant Charles Hersom, Arts '41, of the R.C.A.S.C., died in England during the last week in June.

Born in Peel County, Ontario, in 1916, Charles Hersom received his primary education in Brampton, and attended high school at Streetsville, Shelbourne and Oakville. After qualifying as a public-school teacher at Toronto Normal School, he taught for two years before entering Queen's, where he majored in history and took a large part in extra-curricular activities, being a member of the debating team and contributing a number of articles to Canadian periodicals. He obtained his B.A. with honours in 1941, received his commission shortly after graduation and went overseas towards the end of last year. At the time of his fatal accident he is believed to have been attached to an R.C.A.S.C. ammunition column. Surviving are his parents, Mr. and Mrs. Harvie Hersom, of Streetsville, Ont., one sister and three brothers.

* * * *

WHEN his R.C.A.F. twin-engined plane took fire in mid-air and crashed on Lulu Island, near Vancouver, on July 7, Pilot Officer Donald John Sterling Sc '43, and two fellow airmen were instantly killed.

"Don" Sterling was born in Peterborough, Ont., twenty years ago, a son of John Sterling, Sc. '21, of the Department of Public Works, Ottawa, and Mrs. Sterling. He attended high school in Winnipeg and in the fall of 1939 came to Queen's, where he took two years' work in electrical engineering and won two scholarships. Enlisting with the R.C.A.F. in February, 1941, he trained at Summerside, P.E.I., graduated last December as a sergeant-pilot, and subsequently obtained his officer's rank. He is survived by his parents and one sister.

## FRANK W. ANDERSON, Sc. '39, PRISONER OF WAR

REPORTED as "missing" some time ago Flight Sergeant Frank Willis Anderson, Sc. '39, of the Royal Air Force, is now listed as a prisoner of war in Germany. He is a son of Doctor F. C. Anderson, Arts '00, Med. '13, and Mrs. Anderson, of Ottawa.

F. W. ANDERSON

Flight Sergeant Anderson entered Queen's in 1935, and received his B.Sc. in mining engineering in 1939. After graduating he went to South Africa to join the staff of the West Rand Consolidated Mines, in the Transvaal. He enlisted in the R.A.F. in June, 1940, and took his training in England.

## SCIENCE GRADUATE WINS DISTINGUISHED FLYING CROSS

AFTER more than a hundred operational flights over Britain and the invasion coast, Flight Lieutenant Eugene L. Neal, Sc. '38, of Quebec City, has been awarded the Distinguished Flying Cross.

E. L. NEAL

As a fighter pilot in an R. C. A. F. Spitfire squadron, Fl. Lt. Neal was officially credited with the destruction of a Messerschmitt 109 and with helping to bring down another. According to the citation, this "skilled and determined pilot" displayed in action "great keenness and has set an inspiring example." "On one occasion," the citation continues, "his aircraft was extensively damaged by enemy fire. Despite this he skilfully landed it in a field. On another occasion after several combats and when running short of petrol he was forced to leave his craft by parachute while over the sea. He was rescued some two hours later." Shortly after the award of the decoration, Neal

and a fellow-member of his squadron were reported to have accounted for another enemy aircraft over Northern France.

While at Queen's, Eugene Neal was prominent in student affairs. He was a member of the A.M.S. executive, of the executive of the Newman Club, and is permanent "chaplain" of his year.

## OLD MEDICAL BOOKS PRESENTED TO LIBRARY

THOUGH occupied with heavy war duties overseas, a Queen's man has not neglected an opportunity to enrich his Alma Mater. He is Captain Joseph P. A. McManus, R.C.A.M.C., of Med. '37.

While browsing through some of the old book shops in the London area, Dr. McManus came upon a number of early medical volumes of unusual interest. Among them was a particularly attractive and valuable edition of the Commentaries of Matthioli, dated 1598, which he discovered in Guildford, in Surrey. With the financial help of a few other recent Medical graduates now serving in England, Dr. McManus made a collection of these books and forwarded them to the University librarian. He suggested that they form the nucleus of a special library of medical history, which might serve as a fitting memorial to the late Dr. Thomas Gibson, who, in addition to being professor of therapeutics and pharmacology at Queen's for many years, was also an authority on the history of medicine and instituted a special course in this subject at the University.

Dr. McManus expressed the hope that other alumni would lend their help towards building up a comprehensive collection of texts of historical interest, which would be both a useful addition to the medical library and a proper tribute to a fine teacher and scholar.

# AT THE BRANCHES

### Kootenay

THE Golf Club at Trail, B.C., was the scene of a most enjoyable banquet on the evening of July 9, when about twenty alumni from the Trail-Rossland area gathered to do honour to Dean A. L. Clark, who was spending a few days in the Kootenay district.

The branch president, James Atwell, Sc. '24, was in the chair, and among the special guests were Mr. S. G. Blaylock, general manager, Mr. R. W. Diamond, assistant general manager, and Mr. McNaughton, personnel manager of the Consolidated Mining and Smelting Company.

C. E. Marlatt, Sc. '23, introduced Dr. Clark, who told of the general work of the University, of recent developments, and of the important part that was being taken in the war effort.

Following the Dean's address, Mr. Diamond spoke briefly, and S. S. R. MacDiarmid, Sc. '03, city engineer of Trail, reminisced in a most interesting fashion about the days of Queen's in the early "naughties." Several other alumni added their quota of pleasant recollections before the happy gathering came to a close.

### New York

EARLY in June ballots were sent out to members of the New York Society showing the candidates whom the nominating committee had suggested for election to the executive board and asking for further nominations. As no other names were submitted, the following alumni were declared elected by acclamation, to hold office for the two-year period ending September 30, 1944: president, Dr. N. A. Brisco, Arts '98; first vice-president, H. P. Salter, Com. '23; second vice-president, Dr. Marion Laird, Arts '22; corresponding secretary, Dr. J. A. Polson, Med. '10; recording secretary, Miss Leona Farmer, Arts '32; treasurer, H. J. Douglas, Arts '24; chairman of nominating committee, Dr. George E. Hayunga, Med. '40; chairman of mem-

bership committee, Dr. John E. Hammett, Med. '19; chairman of programme committee H. E. Searle Sc. '22.

### Niagara Peninsula

A SUCCESSFUL bridge party was held during the late spring at the home of Miss Helen McFarlane in St. Catharines, when twelve tables were in play. Ray Bissell, Sc. '28, recently appointed manager of the nylon division of Canadian Industries Limited, Kingston, was in the district at that time and was a very welcome guest at the party. He donated a special prize of a pair of nylon stockings to the graduate present having a birthday nearest that date. This was won by Mrs. Baker, wife of C. W. Baker, Sc. '05. The branch is planning on renewed activity in the fall.

## ALUMNI NEWS

### Births

**Abramson**—On May 5, to Dr. Eli Abramson, Arts '41, and Mrs. Abramson, of Lac Vert, Sask., a daughter (Donna).

**Allen**—At the Ottawa General Hospital, on May 28, to Dr. J. D. Allen, Med. '31, and Mrs. Allen, a son.

**Batstone**—At the Kingston General Hospital, on July 27, to Dr H. L. Batstone, Com. '26, Med. '32, and Mrs. Batstone, a daughter.

**Beach**—At the Royal Victoria Hospital, Montreal, on May 21, to Dr. E. F. Beach, Arts '34, and Mrs. Beach, a daughter (Elizabeth).

**Bethune**—At St. Joseph's Hospital, Sudbury, Ont., on June 2, to W. A. Bethune, Sc. '35, and Mrs. Bethune, of Copper Cliff, Ont., a son (Donald Frank).

**Bowles**—At the Ottawa Civic Hospital, on June 5, to Flt. Lt. Jeffrey Bowles, Arts '37, and Mrs. Bowles, a son.

**Brown**—At the Ottawa Civic Hospital, on May 21, to Howard M. Brown, Com. '27, and Mrs. Brown, a daughter.

**Brydon**—At the Royal Victoria Hospital, Montreal, on June 15, to F. E. Brydon, Sc. '24, and Mrs. Brydon, a daughter.

**Bull**—At the Kingston General Hospital, on May 31, to R. S. Bull, Arts '32, and Mrs. Bull, a son.

**Carson**—At the Ottawa Civic Hospital, on June 23, to R. E. Carson, Sc. '39, and Mrs. Carson, a son.

**Caswell**—On June 8, at the Ottawa Civic Hospital, to Dr. L. A. Caswell, Med. '41, and Mrs. Caswell, a son.

**Charlesworth**—On July 4, at the Private Patients' Pavilion, Toronto General Hospital, to A. M. Charlesworth, Arts '27, and Mrs. Charlesworth, a son (Roger Blake).

**Chown**—At the Kingston General Hospital, on June 21, to A. N. Chown, Com. '31, and Mrs. Chown (Edith Pense), Arts '35, a son.

**Corbett**—At the Kingston General Hospital, on July 16, to Lieut. John S. Corbett, Sc. '35, and Mrs. Corbett, a son (John Harty).

**Currier**—At Grace Hospital, Ottawa, on June 5, to Flt. Lt. T. E. Currier, Med. '40, and Mrs. Currier, a son (Thomas Evans).

**Ellicott**—On June 23, at the Kingston General Hospital, to Dr. E. R. Ellicott, Med. '31, and Mrs. Ellicott, of Napanee, Ont., a daughter.

**Falkner**—At the Ottawa Civic Hospital, on May 29, to Major Keith C. Falkner, Med. '36, and Mrs. Falkner, a son.

**Fell**—At the Wellesley Hospital, Toronto, on July 13, to James M. Fell, Com '28, and Mrs. Fell, a daughter.

**Ferguson**—At the Memorial Hospital, St. Thomas, Ont., on June 26, to J. A. Ferguson, Sc. '38, and Mrs. Ferguson, a son (John Edwin).

**Fortier**—At the Ottawa Civic Hospital, on July 26, to F. J. Fortier, Com. '37, and Mrs. Fortier, a son.

**Gates**—At the Kingston General Hospital, on June 6, to Flt. Lt. C. R. Gates, Arts '39, and Mrs. Gates, a daughter.

**Gault** — At the Kingston General Hospital, on June 17, to Rev. D. G. Gault, Arts '34, Theol. '37, and Mrs. Gault, a son (Andrew Thomas).

**Green**—At St. Joseph's Hospital, Sudbury, Ont., on April 16, to Garfield R. Green, Sc. '39, and Mrs. Green, a son.

**Hughes**—At St. Joseph's Hospital, London, Ont., on June 3, to J. O. Hughes, Com. '29, and Mrs. Hughes, a son (John McHale).

**Lieff**—At the Royal Jubilee Hospital, Victoria, B.C., on May 31, to Wing Cmdr. A. H. Lieff, Com. '36, and Mrs. Lieff, a son.

**Low**—At the Ottawa Civic Hospital, on June 1, to Orian E. B. Low, Arts '34, and Mrs. Low, a daughter.

**McKeever**—On June 10, at Nicholls Hospital, Peterborough, Ont., to Mr. J. L. McKeever and Mrs. McKeever (Carolyn Sills), Arts '34, a son.

**McKelvey**—At the University of Minnesota Hospital, Minneapolis, Minn., on June 22, to Dr. J. L. McKelvey, Arts '23, Med. '26, and Mrs. McKelvey (Ruth MacKinnon), Arts '23, a son.

**McNeil**—At the Toronto Western Hospital, on July 4, to Capt. R. C. McNeil, Com.

'31, and Mrs. McNeil, a daughter (Helen Leslie Florence).

**MacPherson**—At the Ottawa Civic Hospital, on July 5, to Mr. E. C. MacPherson and Mrs. MacPherson (Doris Hawke), Arts '30, a daughter.

**MacTavish**—At the Ottawa Civic Hospital, on June 13, to Lt.-Comdr. Duncan MacTavish, Arts '20, and Mrs. MacTavish, a daughter.

**Megill**—At the Ottawa Civic Hospital, on April 30, to H. B. Megill, Sc. '35, and Mrs. Megill, a daughter.

**Milligan** — At the Hotel Dieu Hospital, Kingston, on July 8, to Dr. A. D. Milligan, Med. '33, and Mrs. Milligan, a daughter.

**Murray**—At the Women's College Hospital, Toronto, on June 3, to J. L. Murray, Arts '20, and Mrs. Murray, a son (James Holt).

**Nesbitt**—At Brighton, Ont., on June 5, to Robert S. Nesbitt, Arts '37, and Mrs. Nesbitt, a daughter (Catherine Anne).

**O'Connor**—At the Hotel Dieu Hospital, Kingston, on June 3, to Dr. Fergus J. O'Connor, Med. '36, and Mrs. O'Connor, a daughter (Mary Frances).

**Parnell** — At Victoria Hospital, London, Ont., on February 25, to Sgt. Douglas Parnell, Arts '39, and Mrs. Parnell (Dorothy Matheson). Arts '40, a son (Gordon Edward)

**Robertson**—At the Ottawa General Hospital, on June 27, to Capt. J. C. Robertson, Com. '34, and Mrs. Robertson, a son.

**Rooney**—At the Kingston General Hospital, on June 2, to Major T. D. K. Rooney, Sc. '26, and Mrs. Rooney, a daughter.

**Shurtleff**—At St. Michael's Hospital, Toronto, on June 19, to Dr. Harold Shurtleff, Arts '26, and Mrs. Shurtleff (Nell Jackson), Arts '30, a son.

**Squires**—At the Kingston General Hospital, on June 11, to E. M. Squires, Com. '32, and Mrs. Squires (Isabel Gallaher), Arts '33, a son.

**Taylor** — At the Ross Memorial Hospital, Lindsay, Ont., on June 18, to Capt. W. L. Taylor, Med. '35, and Mrs. Taylor, a daughter (Cynthia Jane).

**Thompson**—At the Private Patients' Pavilion, Toronto Western Hospital, on June 24, to Robert H. Thompson, Arts '28, and Mrs. Thompson, a son.

**Tilley** — At Brantford Hospital, Brantford, Ont., on July 15, to G. C. Tilley, Com. '36, and Mrs. Tilley, a daughter.

**Watters**—At the Grace Hospital, Ottawa, on July 13, to D. M. Watters, Arts '38, and Mrs. Watters, a son.

**Westington**—At the Ottawa Civic Hospital, on June 2, to D. M. Westington, Arts '32, and Mrs. Westington (Janet Little), Arts '32, a son (Walter Little).

**Wright**—On May 27, in St. Joseph's Hospital, Sudbury, Ont., to F. G. Wright, Sc. '33, and Mrs. Wright (Geraldine Scott), Arts '29, a son.

**Young** — In the Kingston General Hospital, on June 3, to Capt. Bruce Young, Med. '40, and Mrs. Young, a daughter (Patricia Jane).

## Marriages

**Annis** — In March, Irene Emily Annis, Arts '40, to Russell Watson, R.C.A.F.

**Appleby**—On May 2, in the Church of Our Lady of Victory, Buckingham, Que., Mary Madeline Cullen to Dalton James Appleby, Sc. '41. They are living at Buckingham, where Mr. Appleby is on the staff of the Electric Reduction Company of Canada as assistant engineer.

**Beale-Gordon**—At the home of the bride's parents, Kingston, on June 27, Irene Frances Gordon, Arts '29, to Hubert Page Beale, Arts '30, of Athens, Ont.

**Beveridge**—At the home of the bride's parents, Aurora, Ont., on June 6, Clara Marjorie Foy to Rev. Robert William Beveridge, Arts '05, of Thessalon, Ont.

**Breckenridge**—On July 11, at King's College Chapel, Halifax, N.S., Anna Mary Egan to Surgeon Lieutenant William Grant Breckenridge, Med. '38.

**Brown** — At St. Paul's Anglican Church, Uxbridge, Ont., on June 6, Orpha Pearl Noble to Douglas Robertson Brown, Arts '40, Brownsburg, Que. Rev. Dr. George Brown, Arts '04, Theol. '07, father of the groom, officiated at the ceremony, and Dr. R. S. Brown, Arts '33, brother of the groom, was best man.

**Cahill**—In St. Mary's Cathedral, Kingston, on June 20, Mary Helen Murphy to Dr. Claude Francis Cahill, Med. '38. They will reside in Perth, Ont., where Dr. Cahill is practising.

**Caldwell**—On May 30, at Glebe United Church, Ottawa, Christina Elizabeth Caldwell, Arts '40, daughter of Mrs. Caldwell and the late Rev. T. N. Caldwell, Arts '12, to Ernest Arthur Brown, Winnipeg.

**Campbell**—In Westboro United Church, Westboro, Ont., on June 6, Helen Irca Carkner to David Ronald Campbell, Arts '34. They are living at 117 O'Connor St., Ottawa.

**Clarke-O'Grady** — At St. Mary's Cathedral, Kingston on July 27, Julie Mary Loretta O'Grady, Arts '42, daughter of the late John L. O'Grady, Arts '14, and Mrs. O'Grady (Etta Grimshaw), Arts '15, to James J. Clarke, Sc. '41, son of C. F. Clarke, Sc. '05, and Mrs. Clarke. The bride was given in marriage by her brother, Arthur O'Grady, Com. '37. Her sister, Aileen, Arts '38, was bridesmaid.

**Cormie**—In St. George's United Church, Toronto, on June 23, Edna Isobel MacLeod to John Mills Cormie, Sc. '33, Bourlamaque, Que.

**Cunningham**—On June 6, in St. Thomas Anglican Church, St. John's, Nfld., Margaret Mavis Prince to Robert Auld Cunningham, Sc. '41.

**Davidson**—In May, Elizabeth Davidson, Arts '40, to Sgt. Frank Perkins, R.C.A.F.

**Estabrook-Reece**.— On June 27, in St. Matthew's Church, Ottawa, Olive Audrey Reece, Arts '41, to Howard Albert Estabrook, Sc. '41. They will live in Arvida, Que.

**Fleming** — In St. Mary's Cathedral, Kingston, on July 20, Ann Serine Fleming, Arts '39, to Lieut. Archie Staley Deming, of the U.S.N.R. Medical Corps.

**Whitty**—On June 13, in the Sacred Heart Church, Norwich Town, Conn., Mary M. Fields to Dr. Charles Aloysius Whitty, Med. '29, Hartford, Conn.

**Williamson**—In Morgan Memorial Chapel, Queen's University, on May 22, Thelma Boyce Furdy to Melvin Williamson, Sc. '41. They will live at 180 Johnson St., Kingston.

**Wright** — On June 29, in St. Andrew's Presbyterian Church, Guelph, Ont., Elizabeth Caroline Walker to Sqdn. Ldr. James Edward Wright, Com. '28.

## Deaths

**Alexander** — Reverend William Albert Alexander, Arts and Theol. '97, retired minister of the United Church, died on June 10 in Vancouver, B.C., at the age of seventy-three. The late Mr. Alexander was born at Bishop's Mills, Ont., and entered Queen's in 1893, spending five years in Arts and Theology. He took his Theology degree at Manitoba College in 1899, and then served at numerous parishes in the West until his retirement eight years ago. His wife and one brother survive.

**Douglas** — In poor health for several months, Mrs. Arnold J. Douglas (Elsie Gardiner), Arts '22, died at Flushing, N.Y., on July 23. Active in re-organizing the New York Society of Queen's University a few years ago, Mrs. Douglas served as its vice-president from 1940 to 1942. She was born in Burlington, Ont., and attended the collegiate institute in Kingston before entering Queen's in 1918. She was a popular member of her class and received her B.A. in 1922. Surviving are her husband and a young son, Bruce. Dr. W. H. Gardiner, Arts '10, Med. '12, who recently returned from China, is a brother.

**Ferguson**—Suffering a heart attack while surf bathing at Cavendish, P.E.I., on July 26, Rev. Dr. Alexander Ferguson, D.D. '42, distinguished Scottish cleric, and minister of St. Andrew's Church, Ottawa, since September, 1938, died a few minutes after he was stricken. He was in his forty-seventh year. A native of Scotland, Dr. Ferguson was a brilliant graduate in Arts and Divinity of the University of Glasgow, where he also took a full course in law. An eloquent orator and a forceful preacher, he ministered at Barrhead, Perth and Falkirk, Scotland, before coming to Ottawa. He also served in France from 1916 to 1919. He received the degree of Doctor of Divinity, honoris causa, at Queen's last spring. Surviving are his wife and two brothers.

**Jones**—The death occurred at Akron, Ohio, on May 19, of Dr. Alfred Walter Jones, who had practised in that city since 1900 and had been city physician for many years. The late Dr. Jones was born in Surrey, England, about 1870, entered Medicine at Queen's in 1888, and received his M.D., C.M. degrees in 1896. He was a member of the American Medical Association, of the Ohio State Medical Association, and of the Summit County Medical Society. He served as secretary of the last-named organization for one year. He was a 32nd-degree Mason and a Knight Templar. His wife, a daughter, three brothers and two sisters survive.

**Kirkpatrick**—While convalescing from an extended illness, Alexander Keith MacDougall Kirkpatrick, Sc. '11, of Wininpeg, died as the result of a heart attack in the Toronto General Hospital on July 1. Son of the late Alexander K. Kirkpatrick, who was professor of civil engineering at Queen's from 1904 to 1914, "Dougall" Kirkpatrick was born in Chatham, Ont., in 1889, and received his preparatory education there and in Kingston. After graduating from Queen's with an honour B.Sc. in civil enginering in 1911, he joined the staff of the Department of Public Works, serving first with the International Commission on the St. John River and later as assistant engineer in the Western Ontario district. In 1928 he was appointed senior assistant for the Prairie Provinces area, eventually becoming district engineer in charge of the Prairie Provinces and Northwest Territories. He is survived by his mother, one brother and two sisters.

**McDougald** — Dr. Wilfred Laurier McDougald, Med. '07, Liberal senator for Wellington from 1926 to 1930 and well known in financial and industrial circles, died in Montreal on June 19 after a long illness. Born in Alexandria, Ont., in 1881, Dr. McDougald received his secondary education at the high school there and at the collegiate institute in Cornwall. After three years at McGill University, he came to Queen's for his final year in Medicine and graduated with the M.D.,C.M. degrees in

1907. Two years later he entered the service of the Ogdensburg Coal and Towing Company, owned by his father-in-law. From 1911 to 1928 he was president and manager of this company, which he re-organized as a coal-importing firm. He was made chairman of the Board of Harbour Commissioners of Montreal in 1921, a position which he held until 1930. He was a member of the board of directors of the Beauharnois Power Corporation, a director of Hollinger Consolidated Gold Mines Limited, and president of the Cumulative Investment Foundation Limited. He is survived by his widow, two sons, a brother and a sister.

**MacDowall**—One of Queen's most prominent football and hockey players at the turn of the century, Dr. John Lazier MacDowall, Arts '00, Med. '03, died in Perth Amboy, N.J., on July 21 as the result of a heart attack. He had practised there as an eye, ear, nose and throat specialist for thirty-six years, and was a former chief of the Perth Amboy General Hospital ophthalmology staff. Dr. MacDowall was born in Demorestville, Ont., on August 29, 1878, moved to Kingston in his early youth and entered Queen's from the Collegiate Institute in 1896. He spent four years in Arts and then took up Medicine, receiving his M.D.,C.M. in 1903. After graduation he interned in the Manhattan Eye, Ear, Nose and Throat Hospital and later was connected with the Presbyterian Hospital in New York City. He was an ardent deep-sea fisherman, and when the ill-fated liner "Morro Castle" caught fire off the shore of Asbury Park, N.J., in the early hours of the morning of September 8, 1934, he set out in a small fishing boat, and was instrumental in saving the lives of many of the passengers. He is survived by a brother and two sisters, one of whom is the wife of Prof. K. F. Johnston, Arts '12, Sc. '15, of the University staff.

**Macgillivray**—Leaping overboard when a motor launch in which he was passenger took fire, Dr. Thomas Dow Macgillivray, Arts '02, Med. '05, of Port Arthur, Ont., perished from shock in the cold waters of Lake Shebandowan, about sixty miles west of the Lakehead Cities, on the evening of July 11. Accompanied by his daughter (Mrs. Frank Murphy) and her husband, Dr. Macgillivray was crossing the lake to his summer home when the accident occurred. He held on to the side of the boat for a short time, but apparently suffered a heart seizure and sank in spite of Mr. Murphy's efforts to support him. His body was recovered about two hours later. Dr. Macgillivray was born in 1880, a son of the late Very Rev. Dr. Malcolm Macgillivray, Arts '72, D.D. '03, for many years pastor of Chalmers Church, Kingston, and a former moderator of the Presbyterian Church in Canada. He entered Queen's from the Kingston Collegiate Institute in 1898, and received his B.A. and his M.D.,C.M. degrees in 1902 and 1905. After graduation he practised for a time in Spokane, Wash. From there he came east thirty-one years ago, to enter partnership at Port Arthur with his life-long friend, Dr. J. A. Crozier, Arts '97, and eventually became one of the most eminent physicians and citizens of the Fort William-Port Arthur area. He was a member of the College of Physicians and Surgeons of Ontario and of the Thunder Bay Medical Association, and was also a past president of the Lakehead Branch of the General Alumni Association. Noted for his keen interest in Scottish traditions and associations, he founded the Macgillivray Pipe Band in Port Arthur about twenty years ago, sending to Scotland for authentic tartans to garb the pipers. Besides his wife, Dr. Macgillivray is survived by his mother, two sisters, his daughter, and two sons, one of whom is Captain George Brown Macgillivray, Arts '37, of the Queen's York Rangers.

**McIlroy**—Executive secretary of the Prisoners Rehabilitation Society of Ontario and an authority on the reform of prisoners, Rev. William Augustus McIlroy, Arts '98, died in Toronto General Hospital on May 24 following a heart seizure. Mr McIlroy was born in Kingston in 1874 and obtained his preparatory education at the Kingston Collegiate Institute. He entered Queen's in 1894 receiving his B.A. in 1898 and the testamur in Theology two years later. He was then ordained into the ministry and served at Williamsburg, Winchester Springs, Stewarton Presbyterian Church, Ottawa, and St. Giles Church, Hamilton. In 1928 he was called to Bond United Church, Toronto, which later became St. James-Bond. He left the ministry in 1929 to become executive secretary of the newly formed "Citizen's Service Association," the purpose of which was to re-establish first offenders in civil life. In this work Mr. McIlroy was singularly successful. Of five thousand prisoners who came before him, fully 90 per cent subsequently became law-abiding citizens. In the words of General Draper, chief constable of Toronto, "He went about his Master's work with sincerity, seeking out and restoring lost humanity." He is survived by his widow, formerly Thora D. Tracy, Arts '01, two daughters and six grandchildren.

**Neale** — Outstanding in Northern and Eastern Ontario educational circles for many years, William James Neale, B.A. '27, passed away on June 26 in Ottawa, where civic officials and teachers from public, normal and model schools joined with many others to pay tribute to his memory. Mr. Neale was born sixty-five years ago at Tyneside, Ont., and received his primary education there. He attended high school and model school at Caledonia, and later took the normal-school course at London. Subsequently he taught at various Ontario centres and then for six years in Ottawa. In 1918 he was appointed superintendent of playgrounds for

Ottawa, a position that gave him scope in which to use his special talent as a young people's leader. Returning to teaching in 1922, he became principal of Wellington Street School, Ottawa, and a year later principal of the Normal Model School. He held that post until 1930, during which period he obtained his B.A. extramurally from Queen's and was awarded the Curtis Memorial Scholarship. In 1930 he joined the staff of the North Bay Model School, of which he remained a member until his superannuation last January. He had been on sick leave and living in Ottawa since June, 1941. He was a member of the Masonic Order, and was active in the North Bay Rotary Club and founded the Rotary Boys' Camp there. Surviving are his widow, five daughters, three sons, one of whom is William R. Neale, Arts '40, of Ottawa, a brother and a sister.

**Shannon**—After an illness of several months, Dr. John Rowlands Shannon, Arts '84, Medicine '90, for many years an eminent eye specialist in New York City and the author of numerous papers on ophthalmic subjects, died in Richmond, Virginia, on July 4. The late Dr. Shannon was born in Kingston in 1863, and entered Arts at Queen's from the Kingston Collegiate Institute in 1880. He received his B.A. in 1885, and then proceeded into Medicine, obtaining his M.D.,C.M. degrees and the silver medal in 1890. After graduation he did a year's postgraduate work in diseases of the eye at St. Thomas' Hospital and the Royal Ophthalmic (Moorfields) Hospital, London, England, and in Vienna. He began practice in New York in 1892, also joining the staff of the Manhattan Eye, Ear and Throat Hospital and eventually becoming surgeon-director of this institution. He retired from the hospital's active staff in 1928, but continued his private practice in New York until 1937, when he took up residence in Richmond. During the First World War he served in the United States Medical Reserve Corps. He was a member of the New York Academy of Medicine, the American Medical Association, the American Ophthalmic Society, the New York Ophthalmic Society and the Ophthalmic Society of the United Kingdom. He is survived by his wife and one brother, Alfred J. Shannon, of Kingston. Two other brothers were the late Robert W. Shannon, Arts '75, for many years legislative counsel for the Province of Saskatchewan, and the late Brig.-Gen. Lewis W. Shannon, C.M.G., Arts '77, for some time officer commanding Military District No. 1, London, Ont.

**Wert**—At the age of forty-nine, George Dalton Wert, Sc '16, died in St. Joseph's Hospital, North Bay, Ont., during the second week of July. Mr. Wert was born in Avonmore, Ont., received his public- and high-school education there, and entered Engineering at Queen's in 1912. His course was interrupted by the first Great War, when he served as a pilot with the Royal Flying Corps. Upon returning from overseas, he completed his studies and received his B.Sc. in electrical engineering in 1919. For a year after graduation, he acted as an instructor with the vocational branch of the Soldiers' Aid Commission, and then was engaged in engineering work until 1931. For the next few years he taught in the high school at Maxville, Ont., and in the Ottawa Technical School. In 1937 he joined the staff of the North Bay Vocational School, remaining there until the time of his death. Surviving are his parents, his widow, a brother and a sister.

## Notes

### 1890-1899

**Dr. J. G. Burrows**, Med. '91, Tweed, Ont., was bereaved on July 8 by the death of his youngest son, Ironeus Grant Burrows, of Napanee, Ont.

**Miss Caroline Grenfell**, Arts '99, retired recently from the staff of the Patent and Copyright Office, Ottawa. She is now living with her sister **Mary Grenfell**, Arts '99, at 2226 West 39th St., Kerrisdale, Vancouver, B.C. Before leaving Ottawa for the West, Miss Grenfell was entertained by members of the staff of the Patent and Copyright Office and presented with a beautiful Sheffield tea tray.

**Rev. Murdoch A. MacKinnon**, Arts '97, who recently resigned as minister of Runnymede United Church, Toronto, and Mrs. MacKinnon (Lillian Vaux), Arts '02, were guests of honour at the banquet given by members of the congregation on May 21 in Eaton's Round Room. Tribute was paid to Dr. MacKinnon's work in having built and established Runnymede United Church as one of the most influential in Toronto. As a token of their esteem and affection, the members of the congregation presented Dr. MacKinnon with an illuminated address and Mrs. MacKinnon with a bouquet of roses.

**Rev. Dr. J. S Shortt**, Arts '94, D.D. '32, a past moderator of the Presbyterian Church in Canada, was inducted as minister of High Park Presbyterian Church, Toronto, on June 30. He was formerly minister of St. Andrew's Church, Barrie, Ont.

**Mrs. F. A. Wightman** (Mai Gober), Arts '99, is now living at 438 West 116th St., New York City.

### 1900-1909

**Dr. D. A. Carmichael**, Arts '07, Med. '09, Ottawa, was elected president of the Canadian Tuberculosis Association at the annual meeting held recently in Hamilton. Dr. Carmichael has been superintendent of the Royal Ottawa Sanatorium for nearly twenty years.

**Dr. S. O. Eschoo**, Med. '02, is retired and living with his daughter, Mrs. A. A. Johns, in Madera, Calif.

TORONTO

ly at Lourenco Marques, Portuguese West Africa, aboard the Italian steamship "Conte Verde" from Japanese or Japanese-occupied territory. They are being repatriated by the Japanese Government in exchange for Japanese diplomats in this country.

**Dr. Hector Featherston**, Med. '21, was appointed assistant superintendent of the Ottawa Civic Hospital at a meeting of the hospital trustees held early in June. He has been on the staff for fifteen years.

**C. S. Finkle**, Sc. '23, is at present in Egypt as technical adviser on military transport. Mail will reach him through the following address—1-A Cockspur St., T.A.M.T., C.M. H.Q., London, England.

**Dr. H. B. Geiger**, Med. '26, has joined the U.S. Army Air Force. He is at present in Atlanta Field, Georgia.

**Mrs. David A. Johnston** (Gladys M. Eamon), Arts '28, of Dixon, Ont., was bereaved on June 10 by the death of her husband, Rev. Canon D. A. Johnston, a graduate of Trinity College, University of Toronto, and formerly canon of St. Luke's Pro-Cathedral, Sault Ste. Marie, Ont. An infant son, David, survives with his mother.

**Miss Audrey Judge**, Arts '22, has resigned from the staff of the high school in Prescott, Ont, where she has taught for fifteen years.

**Dr. R. H. Kettle**, Med. '28, was recently promoted from senior physician to assistant superintendent of the Norwich State Hospital, Norwich, Conn.

**G. L. McRory**, Sc. '23, is priority specialist for the zinc branch of the War Production Board, Washington, D.C. His residence address is 4206 Russel Ave., Mount Rainier, Md.

**N. A. Morrison**, Sc. '23, is now plant engineer for General Cable Corporation, Rome, N.Y., having resigned as assistant general engineer of the Borden Company, New York City.

**Miss Bertha Ranson**, Arts '29, formerly on the staff of Smiths Falls Collegiate Institute, is now teaching in Prescott, Ont.

**Major C. R. Salsbury**, Med. '24, now serving overseas with R.C.A.M.C., has received his fellowship in the Royal College of Surgeons (London). He received his fellowship in the Royal College of Surgeons (Canada) in 1939.

**M. J. Vechsler**, Com. '26, formerly at Lima, Peru, has taken up his new duties at Santiago, Chile, where he has been commissioned to establish a Canadian Government Trade Commissioner's office.

**Rev. W. J. Walker**, Theol. '23, for the past three years minister of St. Andrew's Presbyterian Church, Belleville, Ont., has accepted a new charge at Knox Presbyterian Church, Galt, Ont.

**O. E. Walli**, Sc. '25, who has been on the staff of the high and vocational school at Timmins, Ont., for the past two years, has been promoted to the directorship of the vocational department.

**1930-1939**

**Dr. J. D. Bankier**, Arts '37 (Ph.D. Rice Institute), is instructor in mathematics at the Johns-Hopkins University, Baltimore, Md. He lives at 216 Chancery Road, Baltimore.

**Miss Frances Bourne**, Arts '37, has accepted a position as chemist with the International Nickel Company at Copper Cliff, Ont.

**G. L. Clendenning**, Arts '32, who has been head of the mathematics department of the Port Arthur Technical School, left recently for Toronto to take a course in meteorology, in order to qualify as a meteorological officer in the R.C.A.F.

**Rev. Kenneth Crawford**, Arts '39, was ordained as a minister of the United Church of Canada at a service held in Lindsay, Ont., on June 7 in connection with the sessions of the Bay of Quinte Conference.

**Mrs. A. M. Currie** (Madeline McNeely), Arts '32, Vancouver, B.C., was bereaved in June by the death of her father, Judge J. S. L. McNeely.

**J. R. Evans**, Sc .'35, has joined the works engineering department of Canadian Industries Limited, Brownsburg, Que.

**J. H. Evans**, Sc. '30, until recently with Central Cadillac Mine, has accepted a position at Stadacona Rouyn Mines, Rouyn, Que.

**Rhodes W. Fairbridge**, Arts '36, did postgraduate work in geology at Oxford University after leaving Queen's, and subsequently carried on geological exploration in the Middle East. He then spent a year at the Hebrew University in Jerusalem, reading on the Syrian-Arabian problem. Latterly he has been with the Standard Oil Company in Australia, and at present he is doing special work at the University of Perth, Australia.

**C. C. Ferguson**, Arts '32, is teaching science in the high school at Port Colborne, Ont.

**Dr. G. M. Furnival**, Arts '34 (Ph.D. Mass. Inst. of Tech.), has resigned from the staff of the Geological Survey of Canada, and is now with the Standard Oil Company of British Columbia. His address is 700 Lancaster Building, Calgary, Alta.

**J. T. Gardiner**, Sc. '37, is on the staff of Canada Foundries and Forgings Limited, Welland, Ont.

**Charles S. Green**, Sc. '31, captain at Macassa Mine, Kirkland Lake Ont., for the past five years, has won first prize ($50.00) in the Ontario Mining Association Accident Prevention contest this year. The subject of his paper was "Safe Practices in Scaling in Mines." Mr. Green received the award at the annual meeting of the Association, held at Bigwin Inn, Lake of Bays, on June 22 and 23.

**Miss Mary Hemphill**, Arts '38, who joined the R.C.A.M.C. as a nursing sister, is at present stationed at Camp Borden, Ont.

**C. H. Houlton**, Arts '34, has been appointed traffic representative at St. John's Nfld., for the regular air-line service established recently between Moncton, N.B., Sydney, N.S., and Gander and St. John's, Nfld. The service has been established by Trans-Canada Air Lines to meet war needs.

**Orian E. B. Low**, Arts '34, Ottawa, was bereaved on July 4 by the death of his father, Mr. A. E. Low. Mr. Orian Low is no longer practising as a member of the law firm, Low and McKenna, in Ottawa. Since February he has been acting as secretary and solicitor to Commodity Prices Stabilization Corporation, Ltd., a Government-owned company created to assist the maintenance of the price ceiling.

**J. M. McEachern**, Arts '34, is principal of Indian Road School, Toronto.

*Ontario Ladies' College*
**WHITBY, ONTARIO**
**Founded 1874**
*A Residential School for Girls, near Toronto*

One hundred acres of grounds. Public School to Honor Matriculation. Music, Art, Interior Decoration and Handicrafts. Household Science, Secretarial Courses, and Dramatics. Swimming Pool and Gymnasium. Physical Education and Riding under resident Mistresses.

Calendar on Request.
REV. C. R. CARSCALLEN, M.A., D.D., Principal.

**D. G. McCaig**, Com. '33, has been assistant secretary of Alloy Metal Sales Limited, Toronto, since the beginning of the year.

**Hermann McGuire**, Arts '31, has joined the staff of the Wartime Bureau of Technical Personnel at Ottawa.

**Dr. D. C. G. MacKay**, Arts '30, is on a year's leave of absence from the University of Connecticut. He is teaching zoology at the University of Hawaii in addition to carrying on marine zoological research at the Shore laboratory of the University.

**Capt. R. C. McNeil**, Com. '31 is at present stationed at the Canadian Army Trades School in Hamilton, Ont., where he is a company commander.

**Rev. Kenneth Moyer**, Arts '33, assistant minister of Chalmers United Church, Ottawa, left recently for Edrans, Man, where he will spend several months in the home mission field.

**D. H. Munger**, Com. '34, has joined the United States Army Air Force and is at present stationed at Sheppard Field, Texas.

**W. P. Nesbitt**, Sc. '35, formerly with Consolidated Paper Mills, Grand' Mère, Que., has acepted a position with Howard Smith Paper Mills, Cornwall, Ont.

**Dr. E. G. Planty**, Arts '30 (Ph.D. Cornell), left his position as research assistant at Cornell University to become head of the department of education at Union College, Barbourville, Kentucky.

**J. L. Reid** Sc. '38, is draw engineer for the Roan Antelope Copper Mines at Luanshya, Northern Rhodesia. He is also in the Army Reserve Corps there.

**A. H. Ross**, Sc. '36, is now assistant manager of the Eldorado Gold Mines refinery at Port Hope, Ont.

**Dr. G. D. Scott**, Med. '39, has successfully completed his postgraduate studies in neuropsychiatry at the University of Toronto. He has been awarded the Falconer gold medal for his work in this field. At present he is on the staff of the Psychiatric Hospital, New Toronto.

**Esther Aileen Stevenson**, Arts '37, teaches at the continuation school in Dresden, Ont.

**Miss Margaret Stewart**, Arts '37, is dietitian at Lower Canada College, Montreal.

SPUN ROCK WOOL · HEAT COLD SOUND · INSULATION

**SPUN ROCK WOOL**
(Reg'd.)

**A resilient, long-fibred insulation made from molten rock. Proof against Fire, Vermin, Vibration and Corrosion. Recommended for cold-storage; sound-proofing and acoustical treatments; all industrial purposes up to 1000 F. Made in standard forms for home insulation; exported in bulk form.**

**Spun Rock Wools Ltd.**
THOROLD, ONTARIO
J. Buss, Sc. '19 C. R. Buss, Sc. '27

**A. P. Tisdall**, Arts '38, completed his course at Osgoode Hall, Toronto, this spring and has ben called to the Ontario bar.

**Miss Lois Tomkins**, Arts '39, has been appointed social worker in the travellers' aid and social work department of the Y.W.C.A. in Ottawa. Since graduation Miss Tomkins has been with the Big Sisters' Association in Toronto, and has also been a councillor at Camp Oconto and at the Ottawa C.G.I.T. camps.

**William C. Walton**, Sc. '39, is on the staff of the International Silver Company, Hamilton, Ont.

**Capt. Freeman Waugh**, Arts '34, R.C.A. (Overseas), and **Douglas Waugh**, Arts '35, Oshawa, Ont., were bereaved on July 8 by the sudden death of their father, Dr. Freeman Waugh, well-known Kingston dentist.

**J. D. Waugh**, Sc. '33, is on the staff of Malartic Gold Fields Limited, Halet, Que.

**Rev. Robert W. Young**, Arts '33, Theol. '36, and Mrs. Young (Marguerite Couch), Arts '35, are now living in Bothwell, Ont., where Mr. Young is minister of the United Church.

### 1940-1942

**Dr. Eli Abramson**, Arts '41 (M.D. Montreal), has been practising at Lac Vert, Sask., for the past three years. He is health officer for the Pleasantvale and Lac Lenore municipality, surgeon for the R.C.M.P. of that area, coroner, and representative of the Department of Pensions and National Health.

**L. B. Anthes**, Sc. '41, is on the staff of the Welland Chemical Works, Niagara Falls, Ont.

**Donalda Campbell**, **Marion Mayhew** and **Doris Smith**, all of Arts '42, are with the T. Eaton Company, Toronto.

**Edna Cohrs**, Arts '41, received her M.A. from Smith College this spring.

**Anne Constantine**, Arts '41, is a nurse-in-training at the Kingston General Hospital.

**Mrs. Norman Chalmers** (Lila Hyndman), Arts '42, has joined the nylon division of Canadian Industries Limited, Kingston.

**R. A. Cunningham**, Sc. '41, has joined the staff of Messrs. E. G. M. Cape and Company, at St. John's, Nfld.

**R. J. W. Douglas**, Sc. '42, has registered for the next session at the graduate school of Yale University, New Haven, Conn.

**F. W. Gibson**, Arts '42, Queen's representative at the Institute of the Students' International Union, left Kingston recently to attend the summer school of that institution at Salisbury, Conn. Mr. Gibson won a scholarship which entitled him to be one of the two Canadian students enrolling for the course.

**D. J. Godkin**, Com. '42, Kingston, has been awarded the Ontario Paper Company's

# TOWN IN THE CORDILLERA

By F. K. McKean, Sc. '40

AFTER reading the article by Dr. Fiddes in the January issue of the *Review* I am tempted to write about another town near the opposite end of the world—and possibly of opposing characteristics, in that this place does not have very much in common with Shangrila except that it is in a mountainous region.

There the resemblance ends; for within the limits of our town of Sewell* there is only one patch of greenery—the lawn on the sidehill behind the manager's house, planted in alfalfa in lieu of less hardy grass. The surrounding mountains, which stretch up to twelve thousand feet above the seven thousand feet of the campsite, are bare of vegetation owing to fumes from the smelter six miles down the canyon.

On the west there is a gunsight notch in the hills, where the Rio Coya has cut a narrow gorge. Formerly the railroad that leads "down the hill" followed along a winding shelf cut out of the sheer cliff fifteen hundred feet above the river, but now the big thrill of the first trip "up the hill" has been eliminated by a tunnel through the rock. Even after one has made the trip around that precipice several times, the thought of what would happen if the car were to jump the track is bound to crop up. Coming back up, the boys never seemed to be in the mood to care much.

This break in the hills also frames wonderful sunsets at certain seasons of the year, and early on a clear morning one may see the high points of the several ranges along the coast sticking up through the fog like black islands out of a white sea. Our eyes stray in that direction quite often; for that is the only spot on our horizon where one may look into the distance—down over the great interior valley of Chile.

Back of the town, to the east, begins the first of the really high ranges. The Argentine border lies thirteen miles away, so that from our town we can see the greater part of the distance across Chile—from the coast to near the crest of the Andes.

Our canyon offers no pass worthy of the name over to the Argentine; for the trail rises to more than fifteen thousand feet, which means almost continual snow at this latitude. An old fellow in the mine who has been here long enough to take liberties with the truth, as old-timers will the world over, warns me that it is dangerous to travel that way. He states that in some places even the granite rock has been polished smooth as glass by the terrific force of the wind, so that a human is literally blown off the face of the earth when the weather starts acting up. But a man's troubles begin in earnest when the winds blow straight up or down, with enough force to carry him away or drive him flat on the ground, depending on their direction. Those "zephyrs" must be close relatives of the awful "upsy-downsy winds" that the boys from the Prairie Provinces talk about.

Even if the traveller manages to choose good weather for his journey back into the hills, he still may encounter the spitting guanaco, a small cousin of the Bolivian llama, with the same nefarious habit of spitting in one's face for which the

*The town of Sewell lies in central Chile, in the Province of O'Higgins. It is the site of the concentrator of the Braden Copper Company, whose output of fine copper from its 2300 acres of mining claims in this area of South America was about 290 million pounds in 1941. Upon his graduation in Mining in 1940, Mr. McKean joined the engineering staff of the Braden Company on a three-year contract. While at the University, he was prominent in student affairs, being president of the Engineering Society in 1939-40 and manager of the senior football team in 1939.

latter is notorious. My old *raconteur* says that when this happens the luckless victim is blinded—like the receiving side in a skunk-dog set-to—and usually ends his journey by a tumble over one of the high cliffs.

All this is based on some fact; for when the winds whip down out of the back country we in town seek cover. And the guanaco does spit; for the boys at the mine staff-house had one as a pet a few years ago and it would spit in the most obnoxious manner at those it did not like. Judging from the habits of that particular specimen, guanacos do not care for very many people; so he was shipped off to the zoo in Santiago de Chile, where he still may be seen. The boys at the mine resent the fact that he does not recognize them now; he has become so city-fied that he will not even spit at his friends when they go to visit him. The boys also donated a mountain lion to the same zoo, but the latter has become so grown up and "porfial" (powerful) that no one cares to be remembered by him.

One often wonders what happens to the animals of the back country in winter time. We know that the foxes, with all the adaptability of their kind, come right into town. Last winter, which was unusually severe, we often found one of them snooping around the front porch of the staff-house when we were coming off afternoon shift. This used to afford us an opportunity for a fox hunt; but we never managed to catch a fox, even though the streets of the town, with the snow piled high on each side, were all very much like tunnels.

The lions go down to the foothills where, it is said, they kill off several people every winter, usually old *guasos* out gathering wood near the ranches. This explains the healthy respect that the *gente* entertain for the lions. The guanacos and chinchillas must live in perpetual snow; they never are seen in low altitudes to the best of my knowledge.

The town lies on the nose of a mountain, at the junction of two canyons. Here is the picture: one side of the mountain is occupied by the mill or concentrator; the nose itself is built up with the huge *camarotes* or apartment houses in which the labourers live; the other side is covered by the American townsite, where the houses for contract men and other married staff members are situated.

Almost all of the streets are in reality stairways, which makes any journey about the town something of a mountain-climbing expedition. It is a thousand feet from the bottom to the top, so that we usually take good care to see that all our affairs are completed in one particular part of our little city before proceeding to another. There is something of heartbreak in store when a person who has been down at the club near the foot of the town in the afternoon has to go up to the mine staff-house for dinner, and then back down again to see the show in the evening. Under such conditions he is apt to forego the show or the dinner, one or the other.

And, of course, there is the problem of transporting materials up and down. Heavy goods are taken care of by inclined hoists, one of which can lift a loaded freight car up the slope from the main railroad, at the bottom of the town, to the mine railroad, at the top. Casual goods, baggage, stovewood and so forth, are generally carried by man-power—by a special class of labourers called *cargadores*. They are usually puny little fellows, but the loads they manage are wonderful to behold.

There are no wheeled vehicles in town, except one bicycle. When I first saw the tracks of the bike, down at the foot of the town along the bridle path leading down the canyon, I could hardly believe my eyes; but later I saw the machine itself, being ridden around one of the verandas of an apartment house. It seems to me that anyone owning a bicycle in Sewell is riding close to the thin edge of absurdity.

The mine is about two thousand feet above the town. It is reached by an underground railroad two and a half miles long, from the end of which a shaft goes up to the surface on the mountainside, where there is a small campsite with about five hundred inhabitants, as contrasted with the thirteen thousand in Sewell. Teniente C, or as we know it, "C level of the Lieutenant Mine," pre-

sents an Alpine contrast to even the steep slopes of our townsite here in Sewell. Up there all passages are underground, and the cliff-dwellers who live there do not have to go into the open even when they start off for the local movie. From Teniente C one must walk back into the mountain for perhaps a mile and a half to reach the working place.

When I say that the campsite at Teniente C is perched on a mountainside, that is what I mean, as only a person who has seen the steep slopes of the High Andes can appreciate. One evening a man was sitting on his window-sill up there, smoking a cigarette and enjoying the fresh air after a shift in the mine. He overbalanced and fell out of the win-

F. K. McKEAN

dow, down over the roof of the lower storey and over the cliff below the campsite. He was lucky and hit on a snow-covered part of the cliff-face, so that he was not killed, although he fell close to a mile, taking into account the horizontal and vertical distance. Some skiers from Sewell found him the next morning down by the ski lodge at the bottom of the canyon, and he did not have even a broken bone. I do believe that this is the tallest story I shall ever have a chance to tell, that is, unless one considers the slips that pass in private conversation where veracity is not called for.

A youngster who set out to show his friends that he could ride down over the roofs of Teniente on a barrel-stave toboggan did not fare so well. He struck a bare spot on the way down and was found dead on the cliff, where a projecting finger of rock had interrupted his trip.

The Teniente Mine gets its name from its discoverer, a lieutenant in the Chilean army who got mixed up on the wrong side of a local revolution against the Spaniards in the old colonial days before 1800. While trying to escape from his pursuers, he followed up this canyon in an attempt to get over to the Argentine. The story has it that he mined out a few tons of high-grade copper ore, with which he bought off his antagonists. Be that as it may, a report was issued by a reliable geologist about 1850 which describes El Mineral Teniente as a place where a large amount of capital and an improvement in transportation facilities would some day make possible a very large mine.

This is one geologist who hit the nail on the head; for since that time one of the large mines of the world has been developed on the site where he saw a few *particulares,* or miners working on shares. We can still see the remains of their prospecting tunnels on the slopes above the town. When some of those tunnels were made, Canada was still awaiting the toss of the coin between Wolfe and Montcalm.

One of the most striking things to a *Canadiense* who has not passed many years in Sewell is the earthquakes. There are two or three separate shocks every year, and at least once in a twelvemonth things really get tossed about. This year it happened only two weeks ago, on June 30. Last year it was on the Fourth of July, just as a group of us were trying to decide whether it was safe to go out skiing. The old *mayor domo* at the staff-house had told us that after such a heavy snowfall as we had had the night before it was dangerous to go out on the hills. But after the *teremoto* we figured that if anything was about to slide it would have let go with that shock. We struggled down the slope behind the staff-house in deep snow, and did not enjoy skiing at all. The next morning we looked out and saw that the whole side of the mountain where we had been playing around had slid into the bottom of the canyon. This convinced us that slides were not a thing

to be taken so lightly. It also gave the mayor domo a grand chance to say "I told you so." It happened that we actually saw a slide on one of the hills a few days later, and we now have a proper respect for his warning "*y no hay mas.*"

This slide came down the opposite side of the canyon from the townsite, in a place where slides occur almost every year. But last year the winter was very severe—over fifty feet of snow was our portion—and when the usual slide let go it had enough force to sweep up on this side for more than a hundred feet, like a wave breaking on a rock, and wipe two houses off the American townsite. One man saved his life by dashing out on the up-hill side just as the house went into kindling behind him, but three other people were caught.

During the search for the bodies a small dog was found; he had been buried under the snow for six days, but still had enough life left in him to get up and trot off under his own power. Our railroad was covered with fifty feet of snow, so that we had to depend upon the aerial tram that takes the concentrates down to the smelter to bring us in food and mail for a period of two weeks. Nothing so drastic has happened this year; in fact, today (July 16) we woke up to find the first really heavy snow of the season.

But returning to earthquakes, the one we had on the night of June 30 was certainly a good one. Our staff-house shook like a ship in a high sea; the air fairly hummed with the sound that comes with a 'quake; and the aerial outside my window whipped about till I thought the house must be swaying at least a couple of feet. After talking with people who went through the big shake farther south, in Chillan, in 1938, I realized that nothing could be done about it, so I went to the window and looked out in order to be on hand if I were needed. The chimney and the aerial were dancing around a bit outside, and a few screams could be heard from the townsite, but there was nothing very bad about it all. The older men say that it was the worst 'quake in thirty years, and it speaks well for construction in the town that no damage was done. I asked one of the men next morning what he thought of the *temblor;* he answered that it made him feel as if he didn't amount to much, which is exactly my reaction to earthquakes.

One of the natives on the staff said that he thought the 'quake had been caused by the eruption of a volcano just south of here called Quisapoo. I recognized this at once as the Chileno's slurring way of saying: "*Quien sabe, pues*" ("Who knows, then?" or, more literally, "How should I know?"). I asked what was the story behind this, and he answered that when Charles Darwin was riding about these parts back in the year 1833 (Ref.—*The Voyage of the Beagle*, the most used volume of The Five Foot Shelf in the Sewell Library), he was out one day near San Fernando with a native guide. Darwin inquired of his man what the volcano was called, and the answer was "*Quisapoo,*" which was duly written down as the name of the mountain. It still bears that name, and the same slurring of the language causes trouble to this day for the gringo learning what is supposed to be Castillano!

I find that mastery of the idiom in two years is hardly possible, though one can achieve some fluency. A man who has progressed far enough to use the language quite well as far as bossing a crew is concerned, will find that he is at a complete loss when it comes to a discussion of classical music, as I discovered a few days ago when *Fantasia* appeared at the local theater. One of the greatest difficulties, if one except such phrases as *quisapoo*, is the fact that the language changes enough from one part of Chile to another that when "down the hill" we often think we have encountered a new tongue. There are changes even within the camp itself, as I found a few months ago after moving from the mine to the mill.

The workers in the mill at once exercised their knack for pinning a *sebre nombre,* or nick-name, on a new-comer—a thing at which they are very good. They called me El Verdejo, the typical Chileno, as one would say "Jack Canuck" up home. Now, this is hardly a compliment, as anyone who has seen El Verdejo as he appeared on the posters for the last elec-

tion for the presidency, would testify. On one poster my namesake appears with his customary toothless grin, ragged clothes, and all that goes to make up the *roto Chileno* in everyday life. The inscription below reads: "*Ibanez a poder, Verdejo a comer* (Put Ibanez in power, and Verdejo will eat)." Since very few of Verdejo's class have ever done much eating, outside of the great years from 1880 to 1930, when the nitrate export taxes kept Chile on easy street, I was surprised to hear that Ibanez did not get *a poder*.

Such an experience reminds one that the language cannot be mastered by just speaking it, so one takes to the grammar again. But it certainly cannot even be begun by using only what comes out of a book; for the *roto Chileno* will not get the drift at all if he hears book Castillano spoken.

## GOVERNMENT AID AVAILABLE TO SCIENCE STUDENTS

ARRANGEMENTS have been completed by the Dominion Department of Labour whereby qualified matriculants may, under certain conditions, obtain financial assistance from the Dominion Government, in the form of loans or grants, to enable them to enter scientific or engineering courses at Canadian universities.

The plan, which was developed as a further means of maintaining and increasing the supply of technically trained personnel for the active service forces and for war industry, is somewhat similar to that inaugurated some time ago for Medical students other than those of first year. In applying for Government help, Science or Engineering students must undertake to place their services at the disposal of the Dominion Government upon graduation in whatever capacity the authorities may direct.

Assistance is to be restricted to students with high standing who could not otherwise attend university because of financial circumstances. The size of the loan or grant will depend upon these circumstances; the sum of $300 has been suggested as a maximum.

Selection of the students will be made in each province by a committee which will include representatives of the Dominion and Provincial governments and of the university concerned.

## QUEEN'S DISTRIBUTING CENTRE FOR WAR FILMS

QUEEN'S has been made a distributing centre for the special motion-picture films produced by the National Film Board, Ottawa, to spur Canada's war effort. The Board has also furnished the University with a projection machine, including sound equipment, for the purpose of showing the pictures.

The subjects of the films deal with the changes brought about by the war, the problems arising, and their solutions. *Women in the War* is divided into three parts and shows how rapidly the women of Canada have responded to their country's need of various kinds of help. *Fire Guard* deals with fire prevention. *Queen's Messengers* portrays aid given to bomb victims by means of mobile units. *Who Sheds His Blood* explains the splendid service rendered by blood donors. *Shunter Black* deals with the precautions which must be taken with high explosives. These and numerous other films on important subjects may be secured from the University, either immediately or on short notice, for showing at public gatherings.

## DR. C. H. A. WALTERS, MED. '30, ASSOCIATE IN MEDICAL GIFT

ASSOCIATED with Captain J. P. McManus, R.C.A.M.C., of Med. '37, in initiating the collection in England of old medical books to form the nucleus of a special library of medical history at Queen's, was Captain C. H. Austin Walters, R.C.A.M.C., of Med. '30. The interesting and valuable volumes already sent to the University by Drs. McManus and Walters, as a memorial to the late Dr. Thomas Gibson, were described in the August *Review*, but unfortunately Dr. Walters' connection with the project was not then known.

## JAPANESE STUDENTS NOT ADMITTED TO QUEEN'S

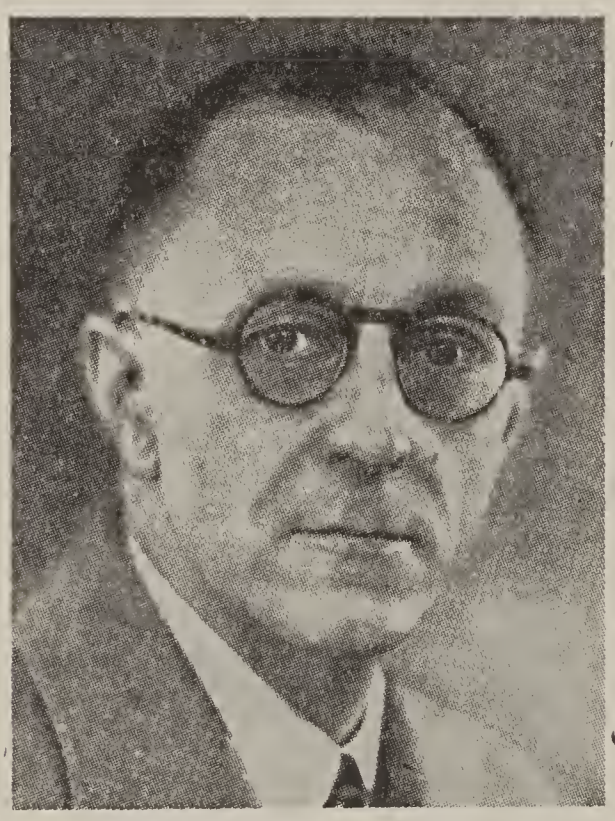

CONTRARY to newspaper reports, no Japanese students have been admitted to Queen's this session.

One Canadian-born student of Japanese parentage, who was admitted in 1940 and who had completed his second year in Applied Science, and whose loyalty was proved, has been allowed to continue his course. He is the only Japanese in attendance.

---

## TWO QUEEN'S MEN HONOURED BY ROTARY INTERNATIONAL

UNANIMOUSLY elected at the recent Rotary convention in Toronto, by delegates who represented more than fifty countries of the world, Prof. H. W. McKiel, Arts '08, Sc. '12, of Sackville, N.B., and Dr. G. G. McNab, Arts '02, of Gueph, Ont., became district governors of Rotary International. Part of their duties is to visit the Rotary Clubs of their respective districts, and advise officers and committeemen on matters of club policy.

PROF. H. W. McKIEL

Professor McKiel is dean of the McClellan School of Applied Science at Mount Allison University and a past president of the Engineering Institute of Canada. He is also a past president of the Sackville Rotary Club.

Dr. McNab is inspector of public schools for Guelph and for the County of South Wellington. He is president of the Guelph Branch of the General Alumni Association, a member of the Queen's University Council, and a past president of the Ontario Educational Association. He has also served as president of the Guelph Rotary Club.

DR. G. G. McNAB

Rotary International has more than 5000 clubs throughout the world, and more than 210,000 members.

---

## MEDICAL CLASSES HAVE VARIED TIME SCHEDULE

UNDER the accelerated curriculum in Medicine, the current term for the sixth, fifth, fourth and third years, which opened on June 2, will close on December 19. The session for the succeeding sixth, fifth and fourth years will begin on January 5, 1943, and continue until July 10.

Classes for the second year opened on August 25 and will carry on until March 27, 1943. This group will return for its third-year work on April 13.

The term for the new first year began on September 22 and will continue until April 30, 1943, as formerly.

Vacation periods for this schedule are as follows: present sixth, fifth, fourth and third years—August 3 to August 17, 1942; all years—December 21, 1942, to January 5, 1943; all years except first year—March 29 to April 13, 1943.

## QUEEN'S STATION CEASES GENERAL BROADCASTING

AT 6.59 o'clock on the evening of August 29, Queen's radio station, CFRC, went off the air as a general broadcasting unit and reverted to its original status as a purely educational medium.

At 7.00 o'clock in the same evening, Station CKWS, owned and operated by the Allied Broadcasting Corporation Limited, an associate of the Kingston *Whig-Standard,* took over the field of commercial and general broadcasting for the Kingston area. The studios of CKWS are situated in the *Whig-Standard* building. Its 1000-watt transmitting plant is on Wolfe Island, across the harbour from the city. Its frequency is 960 kylocycles.

For some years CFRC had been operated jointly by Queen's and the *Whig-Standard,* under a collaborative arrangement with the Canadian Broadcasting Corporation. The new station, CKWS, is the outcome of lengthy negotiations whereby the Kingston newspaper purchased the University rights and interests in CFRC as far as commercial and network broadcasting is concerned.

Speaking on the inaugural programme of CKWS, Dr. W. E. McNeill, Vice-Principal of the University, told in the following words the story of the Queen's station and of recent developments:

"I speak for CFRC, the radio station of Queen's University. At 7 o'clock tonight it said a wistful goodbye to regular public service. Its voice which for years has spoken sixteen hours a day will henceforth be seldom heard.

"CFRC was one of the pioneers in radio. In 1922, within two years of the time when the Westinghouse station, KDKA, in Pittsburg sent out the first public broadcast, three Queen's professors had built a station in the basement of the Electrical Engineering building. At that time broadcasting was mostly noise and had little reach. In October, 1923, Lloyd George speaking before a microphone in New York was heard in Canada only in a few buzzing and scattered phrases. Yet in the same month CFRC told the story of a Queen's-McGill football game in a voice that reached Ottawa clearly. It was by five years the first university station in Canada. Even now it has very few academic associates.

"Good brains have been behind it—those of Professor Jemmett, head of the Department of Electrical Engineering, of R. L. Davis, now with the Westinghouse Company, of Professor Hughes, now at Washington University, of D. G. Geiger, now transmission engineer for the Bell Telephone Company, of Professor H. H. Stewart, who has rebuilt and constantly improved the station, and of his able associate, Professor Pollock.

"Year by year graduates go out with CFRC training into important posts in radio engineering. They are in all the branches of the fighting forces. They are with the CBC and the Marconi Company. One of them was sent by RCA Victor to install and test the transmitter in this fine new station.

"Though CFRC was built for experimental and teaching purposes, from the beginning it has served the people of Kingston and district by bringing into their homes university lectures, music, drama and debates. But for long there was no special staff and such broadcasts were only occasional.

"By 1936, however, the University saw that intermittent and limited service would no longer suffice. Commercial interests were pestering CFRC to lease its rights; advertisers were clamouring to be heard; the public was asking for continuous and varied programmes. To meet such needs is not the function of a university. But as an interim policy Queen's made an alliance with the *Whig-Standard* and a treaty with the Canadian Broadcasting Corporation. That body permitted the use of its programmes; the *Whig-Standard* handled the advertising; the University furnished equiment, studios and technical staff. Not a word of discord ever marred this useful arrangement.

"But gradually it became clear that the plan could not long continue. The University station was diverted from its main task of experiment and teaching; the

*Whig-Standard* had too carefully to temper its advertising contracts to the ethics and aesthetics of high-minded professors; both parties were frustrated by the limited reach of a 100-watt transmitter. The soaring *Whig-Standard* felt like Pegasus trying to be a rocking-horse. So the partnership has been dissolved in complete goodwill. From tonight, one station which had meagrely served two masters becomes two stations richly serving a community. Mr. W. R. Davies, the very powerful, resourceful, and persuasive president of CKWS has got a 1000-watt transmitter and a better wave length—advantages for which the University had striven in vain for many years. The meek may ultimately inherit the earth, but not yet.

"The Queen's station, with a little money in its pocket gathered from its association with the opulent *Whig-Standard,* now returns happily to its research and teaching and the making of radio engineers. But it will from time to time share with the people of Kingston such lectures and special programmes as CKWS cannot conveniently carry. The University thanks all who have helped with the work of CFRC and especially three devoted announcers and programme makers — Major Annand, now with CKCB at St. Catharines, Mr. Tom Warner, now in the Overseas Army, and Mr. Charles Millar, who tonight joins the staff of CKWS. The University gives its best wishes to the new station and especially to Mr. W. R. Davies, its president, with whom it has always planned and worked in happiness."

## SECOND HALF OF PERSONNEL COURSE HELD IN AUGUST

THE necessity of a revaluation of personnel policies and programmes in view of the great need for increased industrial output in Canada was particularly emphasized during the second half of the summer course in Personnel Administration for War Industries, held at the University from August 10 to 22.

Thirty-five delegates from Canadian companies and other organizations engaged in or associated with war production work attended the lectures, which remained under the joint sponsorship of the Federal Department of Labour and the Industrial Relations Section of the School of Commerce and Administration of the University. Professor J. C. Cameron was again in charge.

A brief review of the questions dealt with in the first half of the course was followed by lectures and discussions on additional subjects. These included a survey of recent labour developments and their significance for personnel managers, causes of unrest among workers, stimulating and maintaining employee interest, handling complaints and grievances, wartime legislation regarding disputes, wage problems, collective bargaining and accident prevention programmes.

## FURTHER STAFF CHANGES ANNOUNCED

THE following staff changes, in addition to those previously recorded in the *Review,* were announced prior to the opening of the present session:

Dr. A. A. Day, assistant professor of classics, has been given leave of absence to do personnel work with the armed forces. D. M. Shepherd, M.A. '40, who has been at the University of Chicago for the past two years, is serving as fellow in the classics department during Professor Day's absence.

Assistant professor of experimental psychology, Dr. D. O. Hebb, has resigned to undertake special research at Harvard.

Miss Idele Wilson, research assistant in the industrial relations section of the School of Commerce, has resigned. She has been succeeded by Miss D. H. Wright, an honours graduate of the University of Toronto, who was formerly with Canadian Industries Limited, Montreal.

In the mechanical engineering department, Mr. W. A. Wolfe, M.Sc., formerly lecturer, has been appointed assistant professor.

Other appointments include: Robert Seright, B.Sc. '31, of the staff of the Kingston Collegiate and Vocational Institute, as physical instructor for men on a part-time basis; Miss Doris E. Sargent, a

graduate of the University of Toronto, to serve as instructor in Spanish in the continued absence of Mr. A. B. Minor, who has been granted leave for a second year; D. V. Wade, a graduate of the University of Western Ontario, as instructor in philosophy, and J. H. Houck, M.A. '42, as instructor in psychology; H. I. Marshall, B.Sc. '41, latterly with the McLeod-Cockshutt Mines, to be instructor in drawing; R. H. Hay, M.Sc. '38, and P. T. Demos, B.Sc. '41, as instructors in mathematics; Dr. K. M. Macgregor, a graduate of the University of Western Ontario, to be clinical assistant in medicine.

## POSTHUMOUS D.F.C. AWARDED TO B. G. McIVER, Sc. '40

THE Distinguished Flying Cross has been awarded posthumously to Flying Officer Bruce G. McIver, Sc. '40, who was reported missing in November, 1941, and for official purposes is presumed to have died. The cross, which is of silver, hung on white ribbon with diagonal blue stripes, and which is awarded for the display of especial gallantry in the face of the enemy, has been presented to his parents, Mr. and Mrs. Gordon McIver, of Hamilton, Ontario.

Flying Officer McIver was a veteran of 175 hours of operational flights, from one of which, over targets in Germany, he failed to return. After 200 hours of such flights, he would have come back to Canada for instructional work.

## COLEMAN PAINTING PRESENTED TO UNIVERSITY

MISS LENA COLEMAN, of Toronto, has presented the University with a beautiful painting of the Rocky Mountains, done in water-colours by her brother, the late Dr. Arthur P. Coleman, formerly dean of Canadian geologists and well-loved professor at the University of Toronto. The picture is to be hung in Miller Hall, where it will be accompanied by a presentation plaque.

Besides being one of Canada's most eminent geologists and the author of many scientific papers and books, Dr. Coleman was also a skilled artist and a veteran mountaineer. A special work, of a more general nature, is his volume *The Canadian Rockies, New and Old Trails*. He was honoured by Queen's with the degree of Doctor of Laws in 1913.

## PRINCIPAL WALLACE STUDIES TENNESSEE DEVELOPMENT

ON behalf of the Canadian Committee on Reconstruction and Rehabilitation, of which he is a member, Principal Wallace spent ten days in Tennessee during the latter part of August, studying all phases of the Tennessee Valley Authority (TVA) enterprise.

This is an immense United States undertaking, the original purpose of which was to harness the Tennessee River and to develop with the resulting power the resources of the Tennessee Valley area for the benefit of the regional population. Latterly the operations have embraced various war industries.

It was felt that information about this great project would be of much value to the Canadian committee in its formulation of postwar reconstruction and rehabilitation policies.

## HIGH TRIBUTE PAID TO QUEEN'S DOCTORS

IN an article entitled "New and Old in War Surgery," by Colonel Edward W. Archibald, R.C.A.M.C., which appeared in the August issue of *The Canadian Medical Association Journal*, high tribute was paid to Drs. G. B. Reed and J. H. Orr, of the bacteriology department at Queen's, for their research in gas gangrene The paper was originally presented as an address at the twelfth annual meeting of the Royal College of Physicians and Surgeons of Canada, held in Ottawa in October, 1941.

Near the end of the article Colonel Archibald stated; "Further discussion at the moment must be put aside, but, for the credit of our country, I should like to say that on the experimental side the most complete and the most satisfactory work

hitherto done anywhere upon the influence of the sulfonamides in combating the gas-gangrene organisms has been done in Canada by Professors Reed and Orr, of Queen's University."

The research of the Queen's doctors was carried on at the University during 1939 and 1940. The importance of their work has also been noted in *The Lancet* (England) and in *The American Journal of War Medicine.*

---

## MARGERY VAN KOUGHNET JOINS ALUMNI STAFF

MRS. EDWARD VAN KOUGHNET (Margery Booth), Arts '24, joined the staff of the General Alumni Association in July, to serve as assistant editor of the *Review.*

Mrs. Van Koughnet graduated with her honours B.A. in English and French in the spring of 1924. She later did post-graduate work in English literature at Columbia University, receiving the degree of M.A. there in 1930. Her husband, Major Van Koughnet, is a graduate of the Royal Military College and is serving with the Canadian Engineers overseas.

---

## ALUMNI AND BENEFACTORS MAY MAKE NOMINATIONS

AS provided in the by-laws of the University Council that govern the elections of the administrative bodies of Queen's, graduates and graduate-benefactors are hereby notified that nominations of candidates for election to these bodies may be made as stated below. Printed forms for these nominations are not sent out, except to the elected members of the University Council and to the non-graduate benefactors in the case of the Trustee elections.

### Nominations of Trustees by the Graduates

Graduates of the University (except those who are elected members of the University Council, from whom nominations are solicited as stated above) may nominate two candidates for election to the Board of Trustees to succeed W. C. Clark, C.M.G., M.A., LL.D., Ottawa, and Alexander Macphail, C.M.G., D.S.O., B.Sc., LL.D., Kingston, whose terms expire on March 31, 1943. Dr. Clark and Dr. Macphail are both eligible for re-election. No other present member of the Board should be nominated, and no member of the University staff is eligible.

Candidates must be nominated by five or more electors in order to qualify. Nominations must be in writing, signed, and received by the Registrar of the University on or before December 31, 1942. The Trustees elected will serve until 1946.

### Nominations of Trustees by the Benefactors

Graduate-benefactors who have contributed $100 or more to the University may nominate two candidates for election to the Board of Trustees as follows:

(a) Under the Act of 1912 (General)—One Trustee to serve until March 31, 1947, in succession to Lt.-Cmdr. D. K. MacTavish, B.A., K.C., Ottawa. Lt.-Cmdr. MacTavish is eligible for re-election.

(b) Under the act of 1916, providing for representation of the "School of Mining" (Special Science)—One Trustee to serve until March 31, 1946, in succession to Mr. A. E. MacRae, B.Sc., Ottawa. Mr. MacRae is eligible for re-election.

No present member of the Board, other than Lt.-Cmdr. MacTavish and Mr. MacRae, should be nominated, and no member of the University staff is eligible.

Candidates must be nominated by five or more electors in order to qualify. Nominations must specify the category, whether "General" or "Special Science," and must be in writing, signed, and received by the Registrar of the University on or before December 15, 1942.

### Nominations to the Council by the Graduates

Graduates of the University may nominate nine candidates for election to the University Council to succeed the following members whose terms expire in 1943: G. C. Bateman, B.Sc., Ottawa; W. G. Cornett, B.A., M.D.,C.M., Hamilton; W. S. Kirkland, M.A., LL.D., Toronto;

Mrs. H. A. Lavell, B.A., Kingston; J. E. McAskill, M.D.,C.M., Watertown, N.Y.; J. Y. MacKinnon, M.A., B.D., Ph.D., London; N. B. MacRostie, B.A., B.Sc., Ottawa; Mrs. T. A. Newlands, M.A., Kingston; J. M. Young B.A., M.D.,C.M. Windsor. Retiring members are eligible for re-election. No other present members of the Council should be nominated.

Candidates must be graduates of Queen's and must receive five or more separate nominations in order to qualify. Nominations must be in writing, signed, and received by the Secretary of the University Council on or before December 15, 1942. The members elected will serve until March 31, 1949.

## FIVE MEMBERS RE-ELECTED TO ALUMNI DIRECTORATE

IN the annual elections of the General Alumni Association, which closed on September 30, the five retiring members of the Board of Directors were re-elected for the ensuing three-year period.

These members are: H. G. Bertram, Sc. '10, president of The John Bertram and Sons Company, Limited, Dundas, Ont.; Mrs. D. W. Boucher (Thelma Bogart), Arts '27, of Kingston; Dr. Campbell Laidlaw, Arts '02, Medicine '07, physician, Ottawa, Ont.; G. C. Monture, Sc. '21, assistant to the controller of metals, Department of Munitions and Supply, Ottawa, Ont.; and Dr. J. H. Orr, Med. '23, professor of bacteriology, Queen's University.

## FUNCTIONS ARRANGED FOR CONVOCATION WEEK-END

AUTUMN Convocation is being held in Grant Hall at 8 o'clock on the evening of Friday, October 16 (University Day). The honorary degree of Doctor of Laws is to be conferred upon His Eminence, Rodrigue Cardinal Villeneuve, O.M.I., Archbishop of Quebec, who will deliver the Convocation address; and upon Dr. G. G. Coulton, of Cambridge University, England, the distinguished authority on mediaeval history, who is at present a special lecturer at Trinity College, Toronto.

Other events scheduled for Convocation week-end are as follows:

Friday, October 16, 9.30 p.m.—University Reception, Gymnasium.

Saturday, October 17, 9.00 a.m.—Semi-Annual Meeting, Board of Directors, General Alumni Association, Red Room, Kingston Hall.

Saturday, October 17, 10.30 a.m. — Business Session, Annual Meeting General Alumni Association, Red Room, Kingston Hall.

Saturday, October 17, 11.07 a.m. — Special Open Session, Annual Meeting, General Alumni Association, Grant Hall. Speaker, Mr. L. Austin Wright, Assistant to the Director of National Selective Service. Subject, "The University Student and Selective Service."

Saturday, October 17, 2.30 p.m. — Semi-Annual Meeting, University Board of Trustees, Room 221, Douglas Library.

## VICE-PRINCIPAL McNEILL ATTENDS C.N.E.A. MEETING

DR. W. E. McNEILL, Vice-Principal and Treasurer of Queen's, Principal F. Cyril James, of McGill University, and Dean D. S. Woods, of the Faculty of Education of the University of Manitoba, represented the National Conference of Canadian Universities at a meeting of the Canada and Newfoundland Educational Association held in Victoria, B.C., from September 15 to 18.

Part of the business of the Victoria conference was to consider the formation of a Canadian bureau of education, with a permanent office in Ottawa and a full-time director. Dr. McNeill, as chairman of a special committee, had presented a report upon this matter at the annual meeting of the National Council of Canadian Universities in Toronto in June. It was decided at Victoria that, as an interim measure, a full-time secretary of the C.N.E.A. would be appointed, whose headquarters would be at Ottawa and who would deal with educational matters of Dominion-wide concern.

WING CMDR. DAVOUD THROWS THE WINNING JAVELIN

(Royal Canadian Air Force Photograph)

THERE is one area of England that is almost a part of Canada as far as members of the Royal Canadian Air Force are concerned. Squadron rivalry is intense, and to settle it the Y.M.C.A. recently held a track and field meet for the R.C.A.F. personnel. All squadrons were represented. High individual scorer in the competition was Wing Commander Paul Davoud, Sc. '34, who commands a Canadian night flier squadron.

Upon graduation from the Royal Military College, Paul Davoud attended Queen's and was a member of the senior Intercollegiate football team of 1933. After leaving the University he spent three years with the R.A.F. in England and then returned to Canada to do commercial flying. In 1940 he rejoined the fighting forces as a flying officer in the R.C.A.F., acting as instructor at the Central Flying School in Trenton before going back to England in May, 1941.

HE DEMONSTRATES HOW TO PUT A RECORD SHOT

(Royal Canadian Air Force Photograph)

## GIFT OF PEN RECALLS ROYAL VISIT

"QUEEN'S University, in Memory of the Royal Visit, October 15, 1901."

Such is the inscription, engraved in a floral scroll, on a slender silver pen bequeathed to the University by the late Miss Lois Saunders, for many years librarian at Queen's.

The pen was presented to Miss Saunders by Chancellor Fleming after the Duke of Cornwall and York, later His Majesty King George the Fifth, had used it to sign the Domesday Book of the University when the honorary degree of Doctor of Laws was conferred upon him in October, 1901. The occasion was the visit of Their Royal Highnesses to Kingston.

Following the special Convocation ceremonies, the Duke laid the corner-stone of Kingston Hall—the new Arts Building—whose "church-like entrance," according to the Queen's *Journal,* "was carpeted in Royal red, and over-arched with the grand old blue, red and yellow."

A later issue of the *Journal,* which appeared fortnightly at that time, expresses regret that Principal Grant was unable to be present on this memorable day. In his speech of acceptance, His Royal Highness stated: "I am happy to say that we have just visited your honoured Principal. We trust, as I know you all do, that he will very soon be restored to health. . . . I am glad to learn that *our* University is carrying most successfully its share in the work of placing higher education within the reach of all."

What to wear for the great occasion was a serious problem for the students. The following lines of a budding Butler, published in the *Journal,* under the title "Domestic Science," tell of the solution:

The Duke was coming to the town,
The Principal was stricken down
With a severe attack, and so
Could not expect to see the show.
The students wanted to appear
In perfect academic gear,
That Geordie, proud, might feel no shame
When all the Royal party came.
An order did the Senate send,
That all in college gowns attend,
And failing mortar-boards, they said,
Appear with nothing on the head.
Then out spake Geordie's new assistant,
"This garb is not at all consistent,
'Tis either cap and gown to be
Or plain civilian dress," said he.
The students heard him with dismay,
For some could not afford to pay
For caps right off; and others thought
There were not any to be bought.
Now what to do they did not know,
And as they puzzled, pondered, lo!
Help came at last, and came, of course,
From quite an unexpected source.
The college girls, they sat them down,
And made the cap to match the gown.
They made them for themselves, and then,
They fixed some others for the men,
Who donned these caps upon the spot
Unwitting if they fit or not.
The Senate rose up to a man
And shouted " 'Twas a daisy plan,
And we are very glad to know
The college girls can really sew."

---

## CAMPUS BRIEFS

THE hundred and second session of the University opened on September 24 for Arts; on September 23 for first-year Science and September 24 for the other years; and on September 22 for first-year Medicine. The other classes in Medicine had different opening dates under the accelerated war schedule, as stated elsewhere in this issue. Registration totals for the current session will be given in the November *Review.* Present indications are that the enrolment will equal or exceed that of last year.

* * * *

Because of the impossibility of securing sufficient domestic help in Ban Righ Hall, student waitresses are being used this year. At present some twelve resident undergraduates are filling the positions. They are being paid at the rate of $80 for about two and a half hours' service a day throughout the session. This arrangement is an innovation at Queen's, although the policy of student help in

dining-halls and elsewhere has been in vogue for several years at many American and some Canadian universities.

* * * *

In view of the urgent need in Canada for technically trained men, for both the armed forces and war industry, the admission limit to the first year in Applied Science was raised this fall from 180 to 240.

* * * *

Students in third-year Medicine who pass the primary examinations of the Royal College of Physicians and Surgeons of Canada will henceforth be given an allowance of $25 on their University fees.

* * * *

At present all first-year students at Queen's are tuberculin tested at no cost, and those who react positively are given a special X-ray test at a cost of $2.50. Under a plan shortly to be inaugurated, *all* students will be given the tuberculin test, and the reactors will be X-rayed. This is being made possible through the co-operation of the Ontario Department of Public Health, which has special travelling equipment and can take X-ray films in quantity at a very low cost. It is estimated that the additional number of students to be X-rayed will be about 300.

* * * *

Members of the Queen's Contingent, C.O.T.C., to the number of 304 were in camp at Connaught Ranges, Ottawa, from September 5 to September 20. The soldier-students' courses included basic training, Bren-gun and rifle drill, and other branches of military education. Lt.-Col. R. O. Earl, Arts '14, is commanding officer of the Queen's unit, and Capt. W. H. Agnew, Arts '32, is adjutant.

* * * *

Dr. George E. Wharton, of the medical staff of the University of Western Ontario, delivered a series of lectures on gastro-intestinal medicine to the Medical students of the senior years during ten days in September. While visiting the University, Dr. Wharton also conducted a number of special clinics at the Kingston General Hospital.

Miss Beatrice Jones, Cardinal, Ont., has been elected president of the Summer School Association for the ensuing year. The vice-presidents are Norman Lane, Toronto, and Thomas Myers, Newmarket, and the secretary-treasurer is Stewart Armstrong, North Bay.

* * * *

R. F. Elliott, Arts '32, of Kingston, has been appointed football and basketball coach at Queen's for the current session. Robert Seright, Sc. '31, of Kingston, will coach in track and field sports.

* * * *

Owing to supply difficulties, the cafeteria at the Students' Union has been obliged temporarily to discontinue the sale of meal tickets. At present all meals are on a cash basis, and meat is being served only once a day.

* * * *

As the result of the September supplemental examinations, seventy-two degrees in Arts and Science were awarded. The new graduates will be laureated at next spring's Convocation. The degrees were as follows: M.A., 2; B.A. (honours), 1; B.A. (pass), 59; B.Com., 3; B.Sc., 7.

**INFORMATION IS WANTED**

# WITH THE ARMED FORCES

## Casualties

THE *Review* records with deep regret the Queen's casualties in the Dieppe raid that have been reported to date:

MISSING

Capt. David Wesley Clare, Med. '40, Royal Canadian Army Medical Corps.

Lieut. John Robertson Dargavel, Sc. '35, Arts '36, Central Ontario Regiment.

CAPT. CLARE

LIEUT. PATTERSON

LIEUT. DOHERTY

CAPT. LAIRD

Lieut. Thomas Beatty Doherty, Sc. '36, Royal Canadian Engineers.

Capt. Reginald Robert Laird, Med. '37, Royal Canadian Army Medical Corps.

Lieut. Arthur Blachford Patterson, Arts '40, Canadian Armoured Corps.

PRISONER OF WAR

Lieut. Gordon Lloyd Drysdale, Arts '40, Canadian Armoured Corps.

WOUNDED

Capt. John Eric Bright, Sc. '38, Royal Canadian Corps of Signals.

Capt. Ben. Brachman, Arts '29, Med. '33, Royal Canadian Army Medical Corps.

Capt. Donald Fraser McRae, Arts '29, Essex Scottish Regiment.

*As the "Review" goes to press, it is announced that Captain McRae has been awarded the Military Cross.*

## Service Notes

OVERSEAS since the beginning of the war, Surgeon Lt. Cmdr. H. R. Ruttan and Surgeon Lt. Comdr. M. R. Peever, both of Med. '35, are now in charge of Naval Sick Quarters, the former at Greenock and the latter at Ardrossan, Scotland. Lt. Cmdr. Ruttan was in charge of Royal Naval Sick Quarters at Plymouth during the "blitzes" and received official commendation for his work at that time.

---

Flt.-Lt. Eugene (Jeep) Neal, D.F.C., Sc. '38, and his companion Flt. Sgt. Stanley Cosburn, have been credited with the destruction several weeks ago of a Messerschmitt 108 carrying Oberleutnant Joachim Hahn, a leading Nazi airman, and an unidentified German staff officer, both of whom were killed. The action took place near Calais. Flt. Lt. Neal, who joined the Royal Air Force three years ago, has been a fighter pilot for two years and has taken part in 88 sweeps over Germany. He is at present on leave in Canada.

---

Wing Cmdr. John McNab, Arts '14, Theol. '20, chief Protestant chaplain of the Royal Canadian Air Force overseas, has been appointed to the rank of group captain. His promotion was coincident with his appointment to the overseas post. He will be stationed at R.C.A.F. headquarters in London.

---

Lieut. J. C. (Bubs) Britton, Com. '30, recently happened upon the August issue of the *Queen's Review* on board a destroyer in a Canadian port. From it he learned that he was still listed as president of the South African branch of the General Alumni Association. "Bubs," who had been for a number of years assistant Canadian Government Trade

Commissioner in Johannesburg, returned to Canada on furlough about a year ago, but instead of going back to his post in South Africa, he was stationed for a short time in Los Angeles, Calif., as acting Canadian Government Trade Commissioner. Last June he joined the ranks of the R.C.N.V.R.

---

For the past two years a member of the administrative staff of No. 31, S.F.T.S., Norman Rogers Airdrome, Kingston, Wing Cmdr. W. M. Keddie, Sc. '30, left recently for Trenton, Ont., to take command of No. 6 Repair Depot. While at Kingston he was chief technical officer of the maintenance wing of the station and on several occasions assumed temporary command of No. 31.

---

Major W. B. Airth, Sc. '26, has been appointed commanding officer of the 2nd Corps Field Park Coy., R.C.E., Petawawa Military Camp.

---

Capt. G. M. Billings, R.C.C.S., Sc. '36, captured by the Japanese at the fall of Hong Kong, has recently been able to get word of his safety through to his wife, formery Mary Graham, Arts '39. In his letter he states that although wounded in the fighting he is now fully recovered and in good health. He did not give any indication as to where the Canadians were interned by the Japanese, but said that the food was adequate and that they had their own doctors and dentists.

---

Lt.-Col. M. D. Graham, Arts '13, Med. '14, formerly officer commanding the 23rd Field Ambulance overseas, has returned to Canada, where he has been placed in command of Rideau Military Hospital, Ottawa.

---

Lieut. Newton W. Buerger, U.S.N.R., who is on leave of absence from the department of mineralogy at Queen's, was one of 334 naval officers who graduated recently from the United States Naval Training School at Fort Schuyler, The Bronx, New York. He has been appointed to teach metallurgy at the U. S. Naval Academy Postgraduate School, Annapolis.

Wing Commander Paul Davoud, Sc. '34, hero of many air engagements against German fliers, is back at his home in Kingston on a short leave. As commanding officer of an R.C.A.F. night fighter squadron, his last engagement before coming to Canada resulted in the probable destruction of a Heinkel III and damage to a Dornier 217.

---

After serving four years with the R.A.F. in Egypt, Squadron Leader G. B. Preston, Med. '35, has returned to Canada, where he will be stationed at an R.A.F. school.

---

Among those recently arriving in England to do radio engineering with the R.C.N.V.R. are Sub-Lt. W. D. Alford, Sc. '41, and Sub-Lts. Norman Grandfield, G. N. C. (Riv) Rivington, Douglas Smith and Water Smith, all of Sc. '42.

---

Lieut. D. L. McGillivray, R.C.N.V.R., Sc. '37, is a survivor of the H.M.C.S. *Ottawa*. A little more than a year ago he was aboard the armed merchant cruiser *Rajputana* when it was torpedoed, and spent several hours in an open boat before being picked up by a destroyer. He is at present on leave at his home in Sarnia.

---

Major J. G. Cranston, Sc. '36, has been appointed to command the 6th Canadian Division Ordnance Workshop at Kingston. He went overseas a year ago as a captain, and on his return to Canada some months ago for special duty was promoted to the rank of major.

---

Brigadier Philip Earnshaw, Sc. '15, who recently returned from special duties overseas, has been appointed commander of an infantry brigade in the 7th Canadian Division and assigned to home defence work. Before going overseas he was in command of Canadian troops in Newfoundland. A graduate of the Imperial Staff College at Camberley, England, Brigadier Earnshaw served in France through the first Great War. He won the D.S.O. and the M.C., and was twice mentioned in despatches.

Flt.-Lt. G. H. Newsome, Sc. '39, who has been with the R.C.A.F. since graduation and who is now serving as a squadron commander at No. 11 F.T.S. in Yorkton, Sask., has been promoted to the rank of squadron leader.

---

Lieut. Douglas Peart, Com. '39, formerly attached to headquarters of the 1st Canadian Division as a reinforcement officer, is now acting as deputy assistant director of Ordnance Services. He has been overseas for two years.

---

Alumni of Queen's will be interested in knowing that the wife of Lieut. Col. C. C. Merritt, who has been awarded the Victoria Cross in recognition of his heroic achievements at Dieppe, was formerly Miss Grace Bone, Arts '35.

## Canadian Forces

BELOW is the twenty-eighth in the series of monthly lists of Queen's alumni who have joined some branch of His Majesty's forces.

Royal Canadian Air Force—A. E. Argue, Sc. '45; PO. D. A. Baxter, Com. '34; PO. J. M. Brewster, Med. '41; Flt. Lt. G. T. Carson, Med. '41; LAC. John Coldwell, Arts '41; Flt. Lt. John S. Crawford, Med. '39; PO. R. G. Davidson, Sc. '35; Flt. Lt. H. P. Dunne, Arts '31; AC. 2. W.G. W. Delahay, Sc. '45; FO. D. M. Ewart, Med. '41; Flt. Lt. W. J. Flay, Med. '41; LAC. H. P. Fokes, Arts '40; AC. R. B. Grant, Arts '45; PO. J. E. Hill, Med. '41; FO. J. P. Howard, Sc. '27; FO. W. A. L. McDonald, Med. '41; AC. G. L. Murdoch, Com. '41; AC. 2. Christopher Nicholl, Sc. '44; PO. F. L. Parker, Arts '35; PO. W. V. Rintoul, Sc. '35; PO. H. I. Robinson, Com. '37; PO. R. G. Rowan, Sc. '40; PO. H. W. Salter, Arts '36; R. K. Smith, Arts '44; PO. H. W. Snyder, Com. '30; AC. 2. E. E. Taggart, Sc. '39; PO. R. R. Wainwright, Sc. '39; R. K. West, Arts '44; PO. D. E. Whyte, Sc. '36; PO. I. C. Young, Arts '34.

Royal Canadian Air Force (Women's Division)—Naomi Bristol, Arts '45; Dorothy Clemens, Arts '34; Dorothy Dowsley, Arts '26; Barbara Gowans, Arts '35; Kate Macdonnell, Arts '45.

Royal Canadian Naval Volunteer Reserve—Sub-Lt. A. H. Anderson, Sc. '42; Sub-Lt. R. D. Ankerman, Arts '44; Sub-Lt. E. A. Barnabe, Com. '38; Sub-Lt. W. R. Berry, Arts '42; Sub-Lt. J. D. Scott, Sc. '42; Lieut. R. W. Southam, Arts '36; Sub-Lt. H. O. Wilson, Sc. '37.

Royal Canadian Engineers—Lieut. D. P. Ross, Sc. '32; Lieut. Allan Shier, Sc. '40; Lieut. C. M. Stanbury, Sc. '32; Lieut. C. G. Taylor, Sc. '39; Lieut. P. H. Taylor, Sc. '33; Lieut. M. A. Twidale, Sc. '29.

Royal Canadian Artillery—2/Lt. J. Briskin, Arts '38; Lieut. N. C. Davis, Arts '42; Lieut. Parlane Christie, Arts '42; Gnr. G. L. Hammond, Sc. '39; Lieut. W. A. Reid, Arts '40; Lieut. E. H. H. Reid, Sc. '39; Lieut. F. H. Smuck, Sc. '41.

Royal Canadian Army Medical Corps—Lieut. Roger Billings, Med. '38; Major E. S. Bissell, Med. '10; Capt. W. McCouan, Med. '33; Capt. J. A. Percival, Med. '33; Capt. E. E. Reinke, Med. '31; Lieut. G. D. Scott, Med. '39.

Infantry and Rifles—S. M. McDougall, Com. '43; J. A. McNeill, Arts '44; 2/Lt. J. T. Smith, Arts '32; D. M. Temple, Com. '43; 2/Lt. J. J. Urie, Sc. '41.

Royal Canadian Ordnance Corps—A. D. Flay, Sc. '45; Lieut. E. C. Hall, Sc. '41; Lieut. A. R. Jones, Arts '33, Com. '34; Lieut. S. G. Jones, Sc. '41; Lieut. E. R. Mitchell, Sc. '40; Pte. Robert Preston, Com. '30; Lieut. W. S. McIlquham, Sc. '23.

Royal Canadian Corps of Signals—Lieut. A. L. Furanna, Sc. '39.

Royal Canadian Army Service Corps—2/Lt. Paul A. Bates, Com. '43; 2/Lt. L. C. Gunby, Arts '42; M. P. O'Connell, Arts '42; G. C. Scott, Arts '42; J. A. S. Tims, Com. '45.

Royal Canadian Army Pay Corps—2/Lt. W. V. Percival, Arts '30, Com. '32.

Canadian Armoured Corps — Capt. A. L. Brady, Arts '40; Lieut. E. C. Godwin, Com. '32; Lieut. Harvey Shaw, Com. '39; Tpr. H. N. O'Connor, Arts '38.

Canadian Women's Army Corps—Isobel Stowell, Arts '24; Anna Neilson, Arts '25.

General List—Lieut. J. S. Robertson, Arts '33, Educational Officer; Lieut. R. E. Story, Arts '30, Educational Officer.

### United States Services

The following Queen's alumni are serving in the United States Forces. The list is undoubtedly incomplete, and further information will be welcomed by the Alumni office.

Alexander, F. A., Arts '29, Med. '33, U.S. Army Medical Corps.

Allison, W. E., Med. '38, with Syracuse Base Hospital Unit, No. 52, Fort Livingston, Alexandria, Louisiana.

Berry, W. H., Med. '26, major in the U.S. Army Medical Corps, serving in the St. Luke's Evacuation Unit No. 2, Fort Devens, Mass.

Boyd, M. G., Med. '29, captain in the Medical Corps of the United States Army in Engineer Amphibian Command (the new American Commandos), Camp Edwards, Mass.

Cliff, W. M., Med. '31, first lieutenant in the U.S. Army Medical Corps, stationed in Iceland.

Dowling, J. R., Med. '29, captain in United States Army Medical Corps, Billings General Hospital, Fort Benjamin Harrison, Indiana.

Geiger, H. B., Med. '26, U.S. Army Air Corps, Atlanta Field, Georgia.

Larkin, E. A., Med. '33, U.S. Army Medical Corps, Fort Dupont, Delaware.

Leigh, Horace, Med. '35, captain in the U.S. Army Medical Corps, 2nd Evacuation Hospital, Fort Devans, Mass.

McAuley, J. R., Med. '26, captain in the U.S. Army Medical Corps, stationed with 31st Armoured Rgt., 7th Armoured Division, Camp Polk, Louisiana.

McCarthy, J. B., Med. '35, captain, U.S. Army Medical Corps.

McCarthy, W. D., Med. '30, captain, U.S. Army Medical Corps.

Macdonald, J. O., Sc. '14, Med. '16, lieutenant commander in the U.S. Naval Reserve.

Munger, D. H., Com. '34, United States Army Air Corps, Sheppard Field, Texas.

Mack, E. G., Med. '38, first lieutenant in United States Army Medical Corps, Air Corps Division, March Field, Riverside, Calif.

Secord, C. L., Sc. '33, private in Company A, 26th Medical Training Btn., Camp Grant, Ill.

Smith, W. G., Arts '40, United States Navy, training at the Officers' Training School, Notre Dame University.

Steacy, G. H., Med. '28, captain in United States Army Medical Corps, Camp Barkeley, Texas.

Warrington, Stuart, Com. '33, sergeant in Engineer Replacement Training Centre, Fort Leonard Wood, Missouri.

Zbar, J. E., Arts '32, Med. '36, captain in United States Army Medical Corps.

## AT THE BRANCHES

### Ottawa

GIRLS from the war services group of the Metropolitan Life Insurance Company and the Bank of Canada, Ottawa, were joint hostesses at a most successful dance on September 11, when they entertained in honour of the Queen's University Contingent, C.O.T.C., which was in training at Connaught Ranges. Transportation to and from the camp was arranged through the generosity of the Ottawa Rotary Club and members of the local branch of the General Alumni Association. Music for the dancing was provided by a public-address system, and there were several novelty and prize numbers. The thanks of the Contingent were expressed by the chaplain, Major H. B. Clarke, M.C., and by the commanding officer, Lt.-Col. R. O. Earl.

## Vancouver

DR. E. C. McLEOD and Mrs. McLeod (Ella Percival), Arts '18, opened their home in Vancouver on the evening of September 18 for a reception at which some sixty alumni and friends welcomed Dr. and Mrs. W. E. McNeill, who had stopped over on their way east from the Victoria conference of the Canada and Newfoundland Educational Association.

Cordial greetings were extended to the visitors, and there was a warmth of enthusiasm that invariably marks assemblies of Queen's people on the Pacific Coast. Judge A. M. Harper, Arts '00, president of the Vancouver branch, acted as chairman.

In a most interesting address, Vice-Principal McNeill discussed the affairs of the University and its present activities. Mrs. McNeill also gave an enjoyable talk.

During the course of the evening, a brief business session of the branch was held, during which the following officers were elected for the ensuing term: honorary president, Principal R. C. Wallace; honorary vice-president, Judge A. M. Harper, Arts '00; president, Dr. C. W. Topping, Arts '12, Theol. '19; vice-presidents, Mrs. T. J. Norman (Mary Nash), Arts '13, D. A. McGregor, Arts '05, and Rev. Wm. Stott, Arts '07; secretary-treasurer, Dr. A. W. Currie, Arts '29, Com. '30; executive committee — Mrs. E. C. McLeod, Mrs. W. L. Uglow (Mattie B. Robertson), Arts '11, Mrs. R. E. Page (Edna McCartney), Arts '19, Prof. S. C. Morgan, Sc. '16, W. H. MacInnes, Arts '02, Theol. '05, Dr. N. F. Black, Arts '05, and F. O. Orr, Sc. '07.

## Victoria

ABOUT twenty-five alumni and their friends gathered at the home of Dr. H. E. Chatham, Med. '09, and Mrs. Chatham in Victoria, B.C., on the evening of September 15 to greet Vice-Principal and Mrs. W. E. McNeill, who were in the city for the conference of the Can-

NICOL AND GORDON HALLS

ada and Newfoundland Educational Association.

The felicitations of the Victoria alumni were conveyed to the Vice-Principal and his wife by Rev. H. A. McLeod, Arts '18, president of the branch, who interspersed his remarks with happy reminiscences of his days at Queen's.

Dr. McNeill, in his own inimitable fashion, told of the present University, of the great expansion that had taken place in the past twenty years, and of the reputation that had been established as a great educational institution. A short address from Mrs. McNeill was also greatly appreciated.

Further brief talks added to the pleasure of the evening. Among those who spoke were Albert Sullivan, Arts '12, of the British Columbia Department of Education, who quoted verbatim the last third of Dr. McNeill's memorable 1936 Convocation address; Dr. G. B. Stillwell, director of teacher training and supervision for Saskatchewan; and J. W. Gibson, Arts '08, of Ottawa, director of correspondence instruction for the Canadian Legion.

# ALUMNI NEWS

## Births

**Amodeo** — At the Hotel Dieu Hospital, Kingston, on August 28, to Flt. Lt. William Amodeo, Med. '40, and Mrs. Amodeo, a daughter (Ann Elizabeth).

**Billo** — On September 25, in Brantford, Ont., to W. F. Billo, Arts '42, and Mrs. Billo, a son (Frederic Stephen).

**Carson**—At the Ottawa Civic Hospital, on February 23, to R. B. Carson, Arts '31, Sc. '33, and Mrs. Carson (Mary Tribble), Arts '34, a daughter (Maureen Anne).

**Carter**—At the Ottawa Civic Hospital, on September 15, to Ernest E. Carter, Com. '31, and Mrs. Carter, a son (Edward Wayne).

**Climo**—At the General Hospital, Cobourg, Ont., on September 23, to Percy Climo, Sc. '32, and Mrs. Climo, a daughter (Doris Isobel).

**Dobson**—At Highland View Hospital, Amherst, N.S., on August 9, to R. N. Dobson and Mrs. Dobson (Norma MacRostie), Arts '37, a daughter.

**Fritz**—At the Kingston General Hospital, on August 30, to William Fritz, Arts '35, Sc '40, and Mrs. Fritz, of Sarnia, Ont., a daughter (Barbara Rose).

**Horton**—At the Red Cross Hospital, Mindemoya, Ont., on September 7, to J. E. Horton, Arts '37, and Mrs. Horton, Kirkland Lake, Ont., a son.

**Lambert**—At the Ottawa Civic Hospital, on August 25, to Lieut. James Lambert, Arts '40, and Mrs. Lambert (Patricia Lipsett), Arts '40, a daughter (Kathryn Patricia).

**McCann**—In Halifax, N.S., on August 28, to Sub-Lt. D. L. McCann, Sc. '41, and Mrs. McCann, a son (Donald James William).

**McDougall**—At the Hotel Dieu Hospital, Kingston, on August 5, to C. W. McDougall, Com. '38, and Mrs. McDougall (Eileen O'Connor), Arts '34, a daughter (Jane Frances).

**McEwen**—On July 5, to G. J. McEwen and Mrs. McEwen (Charlotte J. White), Arts '40, a daughter (Charlotte Christina).

**Nicholson**—At the Hotel Dieu Hospital, Kingston, on August 5, to Lieut. G. W. L. Nicholson, Arts '31, and Mrs. Nicholson (Edith Ashcroft), Arts '31, a son.

**Neilson**—At the General Hospital, Cornwall, Ont., on July 12, to James E. Neilson, Sc. '28, and Mrs. Neilson (Korleen Ball), Arts '30, a daughter.

**Park**—On September 6, to John H. Park, Sc. '38, and Mrs. Park, St. Catharines, Ont., a daughter (Diane Frances).

**Porter**—In Prince Edward County Hospital, Picton, Ont., on August 25, to Hon. Flt.-Lieut. and Chaplain Gordon W. Porter, Arts '30, Theol. '34 (overseas), and Mrs. Porter (Caroline U. McLaren), Arts '31, Wellington, Ont., a son (Ian Joseph McLaren).

**Purvis** — At the Toronto East General Hospital, on September 7, to Dr. W. M. Purvis, Med. '33, and Mrs. Purvis, twin daughters.

**Rabb**—At the General Hospital, Kenora, Ont., on June 26, to Arthur H. Rabb, Sc. 31, and Mrs. Rabb (Hilda McNeely), Arts '32, a son (John Douglas).

**Rozovsky**—At St. Mary's Hospital Timmins, Ont., on September 13, to H. Rozovsky, Sc. '33, and Mrs. Rozovsky, a son.

**Shannon**—On August 17, in the General Hospital, Regina, Sask., to FO. Whitney Shannon, Arts '36, and Mrs. Shannon, a daughter (Beverley Gilmour).

**Smyth**—At the Private Patients' Pavilion, Toronto Western Hospital, on September 5, to T. G. Smyth, Arts '36, and Mrs. Smyth, a daughter (Florence Leslie).

**Tupling** — At the Women's College Hospital, Toronto on September 4, to W. H. Tupling, Com. '38, and Mrs. Tupling, a daughter (Valerie Lynn).

## Marriages

**Adelkind**—At the home of the groom's mother, Kingston, on September 25, Pearl Goldstein, Toronto, to Samuel Adelkind, Com. '39. They are living at 84 Friel St., Apt. A, Ottawa.

**Anglin**—On August 29, in the chapel of Deer Park United Church, Toronto, Elizabeth Mary Wales to Arthur Baker Anglin, Sc. '33, Toronto.

**Ault-Beattie**—At the home of the bride's parents, Toronto on June 20, Betty Margaret Beattie, Arts '42, to Lieut. Samuel Gordon Keyes Ault, R.C.A.S.C., Arts '41.

**Bayley** — In St. Bartholomew's Church, Ottawa, on September 7, Rosalind Audrey Brown to John Goodenough Bayley, Sc. '42. They will live in Kingston.

**Berry** — On August 21, in St. George's Cathedral, Kingston, Ada Frances Roberts to Sub-Lt. Wallace Reid Berry, R.C.N.V.R., Arts '42.

**Burr**—On July 11, at Toronto, Helen Mary Munro to Stanley Vernon Burr, Arts '39.

**Carty-Matheson** — On September 26, in Chalmers Wesley United Church, Quebec City, Catherine Elizabeth Gordon Matheson, Arts '42, daughter of Rev. Dr. A. D. Matheson, Arts '12, Theol '16, and Mrs. Matheson (Gertrude McCuaig,), Arts '15, to Roland Kenneth Carty, Com. '42 of the R.C.A.F.

**Clark** — In St. James' Church, Bryson, Ont., on August 19, Gladys Hilda Shaver to George Howard Clark, Arts '32, Simcoe, Ont.

**Crawford**—On September 26, in St. Andrew's United Church, Niagara Falls, Ont., Helen Estelle Cairns to Flt. Lt. John S. Crawford, Med. '39, R.C.A.F.

**Davis** — On September 25, in Christ Church Cathedral chapel, Ottawa, Margaret Stafford to Robert Andrew Davis, Sc. '40, son of Norman B. Davis, Sc. '11, and Mrs. Davis. They are living in Arvida, Que.

**Dore**—On September 25, in Southminster United Church, Ottawa, Doris Annabella Robbie, R.N., Aberdeen, Scotland, to William George Dore, Arts '33 (M.Sc. McGill), of the staff of Dalhousie University, Halifax.

**Farrelly**—In St. Joseph's Church, Bracebridge, Ont., on September 5, Helen Anne Farrelly, Arts '29, to Lorne Clark Prentiss, New Liskeard, Ont.

**Finkelstein-Zbar**—In Toronto, on May 24, Eva Zbar, Arts '42, to Dr. Benjamin Finkelstein, Med. '41. They are living in Hamilton, Ont., where Dr. Finkelstein is in private practice.

**Flay** — On October 3, in St. Matthias Church, Ottawa, Ethel Elizabeth Howard to Flt. Lt. William Jackson Flay, Med. '41, R.C.A.F.

**Foster**—On August 3, at the home of the bride in Welland, Ont., Jean Elizabeth Cameron to Russel Edward Foster Arts '38, Port Credit, Ont.

**Frye**—On August 8, in St. Paul's Church, Delta, Ont., Helen Euphrasia Frye, Arts '34, to Harry Egerton Russell, Toronto. PO. Douglas Frye, Com. '40, was groomsman.

**Gibson**—On August 17, in Balboa Union Church, Colombia, S.A., Hortensia Diaz to John Clarence Gibson, Sc. '23.

**Goodman**—On August 29, in Outremont Presbyterian Church, Outremont, Que., Capt. Jean R. Sewell, C.W.A.C., to James Edward Goodman, Sc. '31.

**Graham**—In Yorkminster Baptist Church, Toronto, on August 14, Alda Isabella Gibson to LAC. Albert Ronald Graham, Sc. '40, R.C.A.F.

**Ingersoll**—In Wall Street United Church, Brockville, Ont., on September 18, Adelaide Lockhart to Lieut. Gerald M. Ingersoll, Com. '30.

**Kelly** — On September 19, at Christ Church, Athens, Ont., Helen Victoria Robinson to Dr. Richard Arnold Kelly, Med. '38. They will live at 515 Huron St., Toronto, where Dr. Kelly is on the staff of the Provincial Department of Health.

**Kent**—On August 15, in Morgan Memorial Chapel, Queen's University, Frances Isabelle Titcomb to Allan Douglas Kent, Sc. '36, son of Rev. Dr. H. A. Kent, principal of Queen's Theological College, and Mrs. Kent.

**Kinsey**—On September 28, in the Church of the Guardian Angels, Orillia, Ont., Bernadine Anne Reardon to Harold Victor Kinsey, Sc. '36.

**Knowles**—In St. Andrew's United Church, Marmora, Ont., on September 27, Grace Elizabeth Hemphill to George Victor Knowles, Sc. '39. They will live in Montreal.

**MacAlpine**—On May 27, at Petersfield, Hants, England, Pamela Mary Carpmael, of Newquay, Cornwall, England, to Lieut. Roderick Thompson MacAlpine, Sc. '39.

**MacDermid**—In Chalmers United Church, Kingston, on September 7, Margaret Isobel MacDermid, Arts '39, to Sub-Lt. Richard Scott Bunyard, R.N.V.R. They are living in Dartmouth, N.S.

**McEwen**—On July 8, in Kirkland Lake, Ont., Alta Irvine to Mervyn A. McEwen, Sc. '38, R.C.A.F.

**Mack**—On August 29, Margaret M. Yates, of Los Angeles, Calif., to Lieut. Edward G. Mack, Med. '33, of the United States Army Medical Corps.

**Morrison**—In St. Mary's Cathedral, Kingston, on September 19, Frances Morrison, Arts '38, daughter of Dr. C. A. Morrison, Med. '98, and Mrs. Morrison, to Harry James McGrath. They will reside in Kingston.

**Newby** — On September 12, in Timothy Eaton Memorial Church, Toronto, Hazel

Claire Hopkins to Harold Douglas Newby, Arts '39. They are living at 1 Cheritan Ave., Toronto, where Mr. Newby is personnel manager for General Steel Wares Limited.

**Parkhill- Hutchinson** — At the home of the bride's parents, Carleton Place, Ont., on August 8, Marion Edith Hutchinson, Arts '44, to Lieut. John Taylor Parkhill, Arts '41. The best man was LAC. John Coldwell, Arts '40. Lieutenant Parkhill is at present stationed at the Infantry (Advanced) Training Centre, Camp Borden, Ont.

**Petch**—On September 26 in Grace United Church, Gananoque, Ont., Jeannette Joan Petch, Arts '40, to Major Robert John Hamilton, 33rd Battery, 6th Anti-Tank Regiment, Petawawa.

**Reed-Turnbull** — In August, at Lindsay, Ont., Mabel Margaret Turnbull, Arts '39, to Lieut. Roger Williams Reed, Arts '40. The ceremony was performed by the groom's father, Rev. P. C. Reed.

**Rorabeck**—On August 15, in the Church of the Redeemer, Toronto, Winnifred Lucille Rorabeck, Arts '28, to George Irving Geddes. They are living in Hamilton.

**Seldon** — On September 12, in Trinity United Church, Newmarket, Ont., Annie May Coupland to Lieut. James M. Seldon, Sc. '42, R.C.O.C.

**Sherk**—On October 3, at St. James' Anglican Church, Kingston, Madeline Patricia Clark to Jerry Ward Sherk, Sc. '42. They are living in the Jarvis Apts., London, Ont.

**Slichter** — At Simpson Avenue United Church, Toronto, in the latter part of August, Jessie Forbes Galloway to Lloyd Thomas Slichter, Arts '37, principal of Current River School, Port Arthur.

**Smallian**—On August 1, in England, Rena Lutton, daughter of Brigadier and Mrs. R. M. Lutton, Halifax, to Major Robert J. Smallian, Sc. '38, R.C.E., aide-de-camp to Lieutenant General A. G. L. McNaughton. Major M. S. Brown, Sc. '39, was an usher.

**Thornham-Cramp** — On June 20, in St. Paul's Chapel, Toronto, Florena Cramp, Arts '35, to Jack Calvin Thornham, Sc. '41. They are living at 33 Eastbourne Ave., Toronto.

**Vallery**—On September 5, in St. John's Church, Peterborough, Ont., Marjorie Emery to Lieut. Hubert James Vallery, Arts '41.

**Van Order**—On September 5, at Fordham Methodist Church, The Bronx, New York, Audrey Helen Schiereck to Robert Bruce Van Order, Arts '38 (Ph.D. New York University). They are residing at 18 Maple Ave., Glenbrook, Conn.

**Woermke** — At St. Stephen's Church, Buckingham, Que., on September 5, Chiquita Hamilton to Orville Woermke, Sc. '39.

**Young**—In the Dutch Reformed Church, Wallkill, N.Y., recently, Marjorie May Dunn to Dr. Hallam Gallagher Young, Med. '38, son of Dr. F. S. Young, Med. '08, and Mrs. Young, Seeley's Bay, Ont.

## Deaths

**Ferguson** — At the age of forty-eight, John A. Ferguson, Sc. '17, died at his summer home in Tremont Park, near Gananoque, Ont., on September 7. For the past eighteen years he had been engaged in the lumber and general contracting business in Weston, Ont. John Ferguson was born in Arnprior, and was educated at St. Andrew's College, Toronto. He entered Science at Queen's in 1913, but went overseas during his third year as an officer with No. 17 Draft of the Canadian Engineers He rose to the rank of captain and was decorated with the Military Cross. On his return to Canada he entered his father's lumber business, eventually establishing his own firm at Weston. He is survived by his wife and two sons, as well as by his father, two sisters and three brothers.

**Fleming**—After an eight months' illness, Dr. Hugh Percy Fleming, Med. '94, died at the home of his daughter, Lady Harding, in Kent, England, on August 10. Born in Ottawa seventy-two years ago, the son of Sir Sandford Fleming, Chancellor of Queen's from 1880 to 1915, Dr. Fleming was educated at Upper Canada College and entered Medicine at Queen's in 1890. While at the University he resided with Principal Grant, who was an intimate friend of his father. Upon graduation with his M.D., C.M. degrees in 1895, he entered practice at Ottawa and was active in numerous public-health organizations. Shortly after the outbreak of hostilities in 1914, he joined the Canadian Army Medical Corps with the rank of captain, and served with a hospital unit in France, returning later to Canada. In 1939 he went again to England, where he was taken ill early this year. In addition to Lady Harding, Dr. Fleming is survived by his wife, a brother, and two sisters.

**Hughson**—The death occurred in St. Michael's Hospital, Toronto, on August 19, of William George Hughson, Sc. '11, at the age of fifty-six. The late Mr. Hughson was born in Niagara Falls, Ont., and came to Queen's from the collegiate institute there in the fall of 1907. He received his B.Sc. in mining engineering in 1911. After graduation he continued for several years with the topographical branch of the Canadian Geological Survey, with which he had been connected during his vacation periods. Subsequently he joined the national resources intelligence branch of the Department of the Interior, and later the staff of the Dominion Observatory. About seven years ago he left the Government service to become associated with mining interests in Toronto. He was secretary-treasurer of the McDonough Min-

ing Syndicate Limited and of the Madsen Red Lake Gold Mines Limited. He is survived by his wife, a daughter and a son. T. L. Hughson, Sc. '16, is a brother.

**Kennedy**—As the result of a fall in his office, Dr. Oswald E. Kennedy, Med. '16, died suddenly at Landis, Sask., on August 3. He was in his fifty-first year. A native of Quyon, Que., "Ossie" Kennedy attended Ottawa College before entering Medicine at Queen's in 1912. At both institutions he was prominent in athletics, being a member of the senior football team at Queen's. In March, 1915, his course was interrupted by his enlistment for overseas service in the first Great War. After some months in England, he returned to Canada and received his M.B. degree in the spring of 1916. He was then commissioned in the C.A.M.C., with which he served until the Armistice. He remained in Europe for three years, doing postgraduate work; became a member of the Royal College of Surgeons, England, and a licentiate of the Royal College of Physicians, London. and then spent some time in India. Returning again to Canada, he practised in Ottawa, in Biggar, Sask., for some years in Sudbury, Ont., and latterly in Landis, Sask. Surviving are his wife and four children, his mother, five brothers and three sisters.

**MacKay** — The death occurred at Banff, Alta., on August 15 of Mrs. Donald MacKay (Jennie Gibson), Arts '98. A native of Kingston, Mrs. MacKay entered Queen's from the Kingston Collegiate Institute, and studied languages for a year. In later life she did a good deal of writing, both prose and poetry, and last winter penned a series of articles for the Victoria"Times" on the life of Sir John A. Macdonald. Her husband, the late Donald MacKay, Arts '00, taught for many years in various Ontario high schools, finishing at Glebe Collegiate Institute in Ottawa. Mrs. MacKay was a sister of the late Dr. J. C Gibson, of Arts '92, Med. '96. Dr. D. C. G. MacKay, Arts '29, of Connecticut State College, Storrs, Conn., is a son.

**Newlands**—President of the Oregon Portland Cement Company Limited, Lawrence Creighton Newlands, Sc '00, died in Portland, Ore., on August 30. The late Mr. Newlands was born in Kingston in 1877 and came to Queen's from the Kingston Collegiate Institute in 1896 to study mining engineering. He left the University before the completion of his course and went to Rossland, B.C, where he was engaged in mining work for some years. He then became superintendent of the Butchart portland cement interests at Tod Inlet, near Victoria, B.C. In 1916 he went to Portland, Ore., to organize the Oregon Portland Cement Company, of which he became vice-president and general manager and eventually president. He is survived by his wife, two daughters, one son, two brothers and four sisters.

**Roberts**—Willys Horatio Roberts, Arts '08, Science '09, general manager of the Dominion Construction Corporation and its subsidiary firms, including Messrs. H. F. McLean Limited and H. F. McLean Incorporated, died in Smiths Falls, Ont., on September 16 at the age of fifty-four. Mr. Roberts was born in Sharbot Lake, Ont., and came to Queen's from Hillcroft Academy, Kingston. He spent a year in Arts and three years in Science (civil engineering), and was a valued member of the senior hockey team. Shortly after leaving the University, he joined the engineering staff of the Dominion Construction Corporation, and was associated with this company until his death, with the exception of four years overseas during World War 1, when he was a major in the Sixth Canadian Railway Troops. Surviving are his widow and one daughter.

**Walker**—Professor emeritus of mineralogy and petrography at the University of Toronto and director emeritus of the Royal Ontario Museum, Dr. Thomas Leonard Walker, Arts '90, died at his home in Toronto on August 6. Born in Peel County, Ont., in 1868, Dr. Walker received his early education in Brampton and Orangeville. He entered Arts at Queen's in 1887, and received his M.A. in chemistry, mineralogy and botany three years later. After graduation he was with the Geological Survey of Canada for a time, and was demonstrator in chemistry in the "School of Mining" at Queen's from 1893 to 1895. In 1896 he was awarded one of the Exhibition of 1851 science research scholarships, under which he did postgraduate work for two years at Leipzig, receiving his Ph.D. there. He subsequently studied at Heidelburg and then joined the Geological Survey of India. While in India he was also professor of geology for a year at Presidency College, Calcutta. Returning to Canada about 1901, he joined the staff of the University of Toronto. He was the author of numerous scientific publications. He is survived by his wife.

## Notes

### 1900-1909

**Dr. J. F. Brander**, Med. '06, has been practising at Edmonton, Alta., for many years. Mrs. Brander was **May C. Purdy**, Arts '04.

**Miss Alexandria Howson**, Arts '09, has been teaching modern languages and history at Peterborough Collegiate Institute for several years.

**H. V. Laughton**, Arts '09, manager of the trust department of the National Trust Company, Toronto, has been appointed assistant general manager. In addition to his new duties he will continue in charge of the trust department.

**S. S. MacDiarmid**, Sc. '03, has been city engineer of Trail, B.C., for many years.

### 1910-1919

**J. G. Cameron**, Sc. '14, county engineer for Stormont, Dundas and Glengarry, has been appointed chairman of the town-planning commission in Cornwall, Ont.

**G. H. Chalmers** Sc. '17, has been with the Canada Ingot Iron Company, Guelph, Ont., for several years. He lives at 72 Yorkshire St.

**W. F. Chown**, Arts '17, for some years in the marketing division of the Department of Agriculture, Ottawa, is now on the staff of the Wartime Prices and Trade Board.

**P. E. Doncaster**, Sc. '10, is now with the Polymer Corporation, Toronto.

**R. L. Dunsmore**, Sc. '15, of the staff of Imperial Oil Limited, Halifax, has been appointed chairman of the Wartime Housing Committee of that city.

**Courtland Elliott**, Arts '19, has been appointed a member of the board of referees authorized under the Excess Profits Tax Act. He was formerly economic adviser to the board.

**E. F. Elliott**, Sc. '11, formerly of The Pas and Winnipeg, is now on the construction staff of No. 1 Air Observers Training School, Malton, Ont.

**Miss Margaret Forester**, Arts '17, has been appointed vice-principal of Stamford Collegiate Institute, Niagara Falls, Ont.

**C. W. Greenland**, Sc. '13, has joined the staff of the Department of Mines and Resources, Ottawa.

**J. P. Harvey**, Sc. '13, is a resident engineer on the Alaskan highway. His permanent address is 3 Hogarth Ave., Toronto.

**T. J. Imbleau**, Sc. '19, is now in charge of special production work for William Kennedy and Sons, Owen Sound, Ont.

**Prof. T. Watson Kirkconnell**, Arts '16, Hamilton, was elected president of the Canadian Authors' Association early in September.

**E. L. Longmore**, Sc. '12, general manager of Wartime Metals Corporation, has been elected a director of the Ontario Mining Association.

**C. A. McGillivray** Sc. '16, is on the engineering staff of Pacific Mills Limited, Ocean Falls, B.C.

**G. D. McLeod**, Sc. '20, formerly of the Aldermac Copper Corporation, Arntfield, Que., recently jointed the staff of Wartime Metals Corporation, Black Lake, Que. Mrs. McLeod was **Muriel Waterhouse**, Arts '19.

**W. A. Newman**, Sc. '11, formerly managing director of Federal Aircraft Limited, Montreal, has been appointed president of this Government controlled company. Mr. Newman is on loan to Federal Aircraft from the Canadian Pacific Railway, of which he had been chief mechanical engineer for many years.

**Mrs. R. E. Page** (Edna McCartney), Arts '19, is doing social welfare work in Vancouver.

**R. M. Smith**, Sc. '14, deputy minister of highways for Ontario, is recovering from a heart attack suffered recently when he was in Alaska supervising the construction of the new Alaska highway.

### 1920-1929

**R. J. Askin**, Sc. '23, manager of the Abitibi Power and Paper Company's Thunder Bay mill at Fort Arthur, Ont., for the past eight years, has been promoted to the position of assistant manager of mills. Henceforth he will be at the company's head office in Toronto.

**Miss Gertrude Best**, Arts '24, has been teaching for a number of years at Stamford Collegiate Institute, Niagara Falls, Ont.

**Mrs. R. D. Bradfield** (Eva Newell), Arts '26, has been re-elected president of the Victoria Home and School Association in Kingston.

**C. N. Broad**, Arts '23, is secretary of the Reliance Foundry Company, Vancouver, B,C.

**J. G. Burley**, Sc. '26, is now toll and transmission engineer for the Toronto division of the Bell Telephone Company.

**G. C. Campbell**, Sc. '23, formerly at Uchi Lake Mines, is now at Preston East Dome Mines, South Porcupine, Ont.

**C. F. Cannon**, Arts '29 (B.Paed. Toronto), has been appointed assistant chief inspector of public and separate schools for the Province of Ontario.

**E. L. Dilworth**, Sc. '25, has been on the staff of Canadian Blower and Forge Company, Kitchener, since 1934.

**Dr. Gordon Ellis**, Arts '24, Med. '26, of Edmonton, Alta., was bereaved on July 28 by the death of his wife, formerly Mary Grant, of New Glasgow, N.S.

**J. F. Ellis**, Sc. '28 is on the staff of Canadian Industries Limited, Shawinigan Falls, Que.

**J. A. Gemmell**, Sc. '28, is in charge of mechanical draughting and design at the Ajax, Ont., plant of Defence Industries Limited. His residence address is 2023 Queen St. E., Toronto.

**J. T. Gow**, Arts '22, Toronto, was bereaved on August 27 by the death of his father, Mr. John Eckford Gow, of Kingston.

**W. M. B. Harvey**, Sc. '24, is now on the staff of the Aluminum Company of Canada, Arvida, Que. He returned recently from Northern Rhodesia, where he was with the Rhokana Copper Corporation.

**C. G. Heilig**, Sc. '29, of the Canadian Westinghouse Company, Hamilton, is at present adviser to the controller of supplies on electrical equipment, Department of Munitions and Supply, Ottawa.

**R. M. Lavell**, Arts '29, Com. '30, formerly of Cleveland Ohio, is now chief accountant in the office of the Manufacturers' Life Insurance Company, at Detroit, Mich.

**C. W. MacDonald**, Sc. '29, is on the staff of Sturgeon River Gold Mines, Nezah, Ont.

**J. M. Macleod**, Arts '26, Sc. '27, has been appointed assistant manager of the O'Okiepe Copper Company, Nababeep, Namaqualand, South Africa.

**W. B. McMullen**, Sc. '28, formerly town engineer at Sudbury, Ont., is now doing construction work at Halifax, N.S., for Messrs. E. G. M. Cape and Company.

**N. J. Meagher**, Com. '26, formerly of Victoria, B.C., is now special excise tax auditor at Toronto. He lives at 1235 Avenue Road.

**W. B. Musgrave**, Sc. '20, is on the staff of the Foundation Company of Canada at Arvida, Que.

**D. C. Nickle**, Arts '24, has been appointed regional representative at Toronto for the Wartime Bureau of Technical Personnel.

**M. A. Phelan**, Sc. '29, who was formerly manager of the Noranda, Que., office of Peacock Brothers Limited, has been transferred to the Toronto office of the company.

**Edward Ryan**, Sc. '28, has taken a position in the works and buildings branch, naval service, Department of National Defence, Ottawa, as assistant engineer in charge of progress reports.

**E. B. Taylor**, Com. '29, formerly local representative of the Wartime Prices and Trade Board at Kingston, was recently appointed superintendent of district offices in Eastern Ontario with headquarters in Brockville.

**J. A. Wedge**, Sc. '21, has joined the staff of the Wartime Bureau of Technical Personnel, Ottawa.

### 1930-1939

**Mrs. A. L. Best** (Clare Parr), Arts '30, formerly of Portage la Prairie, Man., is now living at 125 Powell Ave., Ottawa. Her husband is a flight-lieutenant in the R.C.A.F.

**C. G. Bruce**, Sc. '38, is acting as investigator in the organization branch of the Civil Service Commission, Ottawa.

**John Carruthers**, Sc. '39, is chief engineer for Clark Ruse Aircraft Limited, Dartmouth, N.S. His residence address is 15 Blink Bonnie Terrace Dartmouth.

**Mrs. Jules F. Chopin** (Marguerite Stoltz), Arts '34, has been living at 19 Roxborough St. W., Toronto, since her husband's death in 1940.

**Miss Marion Clarke**, Arts '38, has moved from Pasadena to Los Angeles, Calif., where her address is Parkshire Manor, Apt. 407, 847 Exposition Blvd. She was recently appointed instructor in mathematics at the University of Southern California.

**Dr. C. A. Cleland**, Med. '30, is on the staff of the Ontario Hospital, New Toronto.

**H. K. Coulthart**, Arts '36, is on the staff of the Inspection Board of the United Kingdom and Canada, at the Welland Chemical Works Niagara Falls, Ont.

"Oh daddy, I'm going to be married!"
"That will be a load off my Sweet Caps!"

**SWEET CAPORAL CIGARETTES**

*"The purest form in which tobacco can be smoked"*

**Nicholas Destefano**, Sc. '36, is in the engineering department of the Hamilton Bridge Company, Hamilton, Ont.

**J. C. Dobie**, Arts '39, is doing statistical work in the Department of Munitions and Supply, Ottawa.

**H. A. Elliott**, Sc. '34, is industrial power sales engineer for the British Columbia Electric Railway Company. He lives at 1579 Larch St., Vancouver, B.C.

**J. P. Estabrook**, Sc. '39, recently joined the staff of the Aluminum Company of Canada at Shawinigan Falls, Que. He was previously with Price Brothers and Company, Riverbend, Que.

**G. W. Fraser**, Sc. '36, has been on the staff of the Edison Lamp works, Canadian General Electric Company, Toronto, since 1936. He lives at 221 Dufferin St.

**W. A. Hoffman**, Sc. '34 is now with Defence Industries Limited, Montreal, as line superintendent of the Villeray plant.

**W. D. Hubbard**, Sc. '34, is weights engineer for the Lockheed Aircraft Corporation at Glendale Calif. His address is 205 B. West Chevy Chase Drive.

**Dr. Leon Katz**, Sc. '34, has left Pasadena, Calif., where he was teaching fellow at the California Institute of Technology while studying for his Ph.D. and is now on the research staff of the Westinghouse Electric Company, Pittsburgh, Pa.

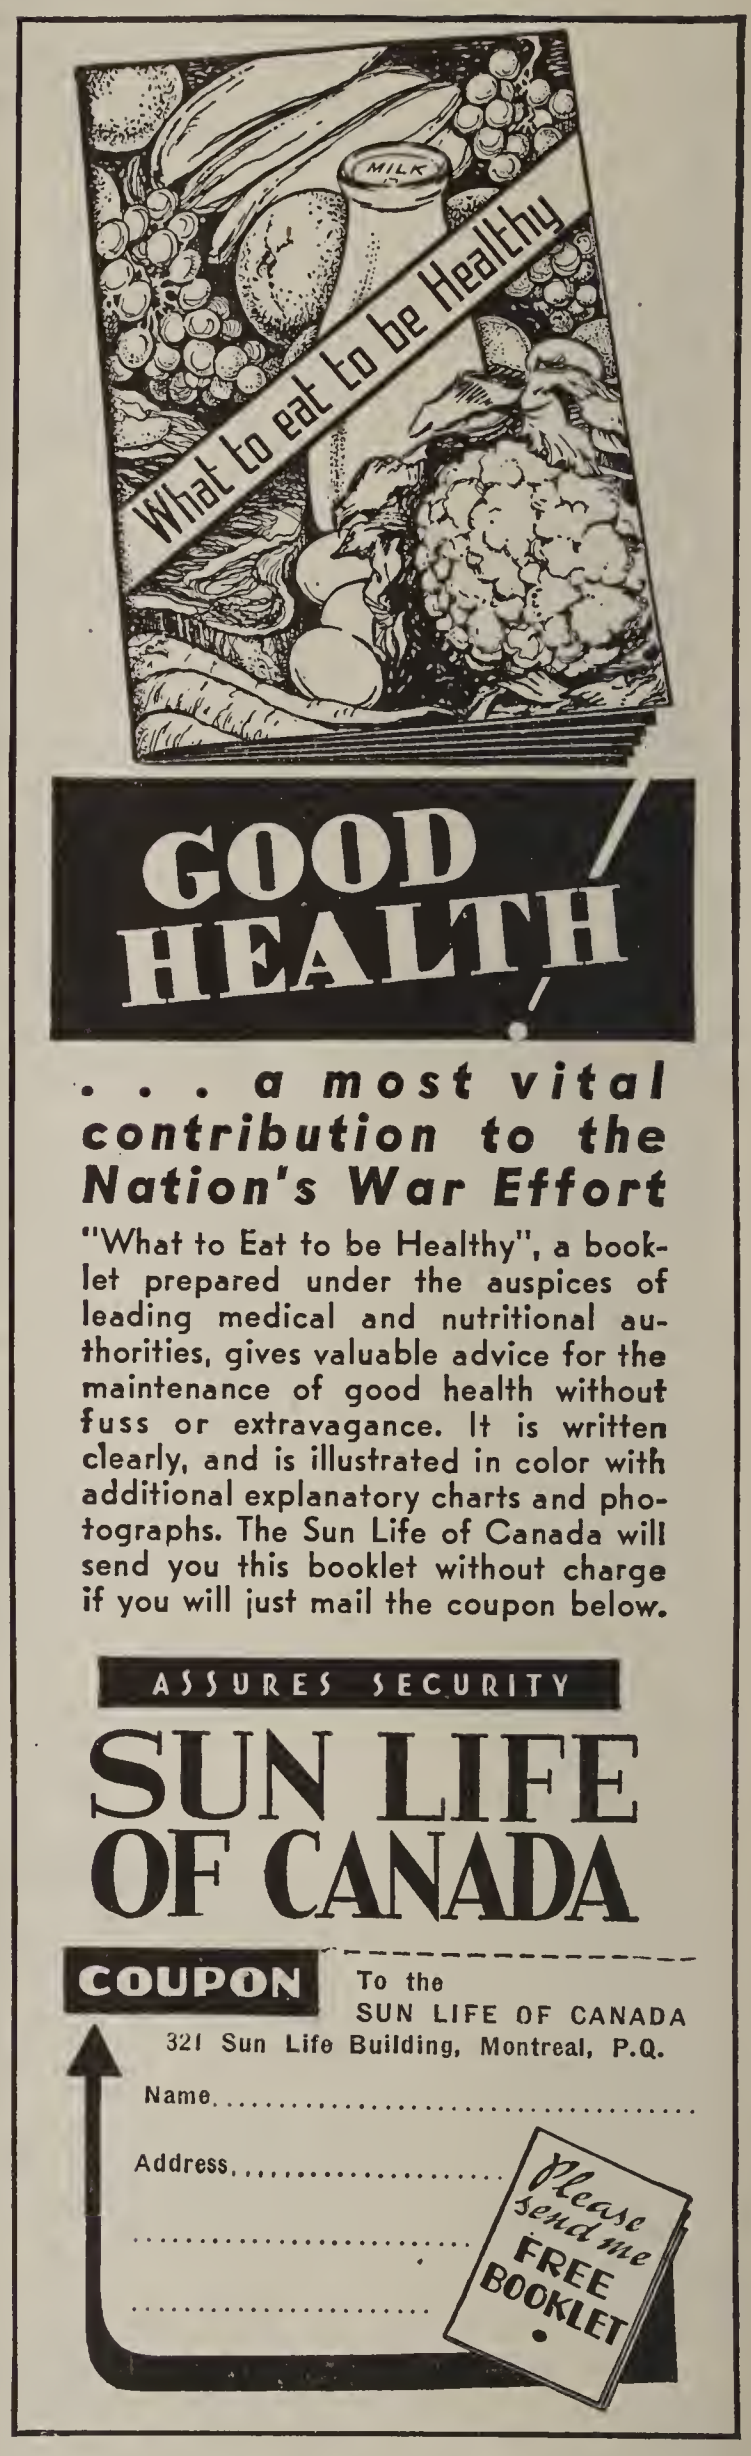

**C. O. P. Klotz**, Sc. '33, who recently joined the staff of the Aluminum Company of Canada, has been transferred from Arvida to Kingston.

**Miss Kathleen Esther Lee**, Arts '39, graduated in June from the Kingston General Hospital School of Nursing with high honours. She received the gold medal for the highest standing in the final year, the senior class prize in obstetrics, and the memorial prize given by the Student Council to the final year student "who during the three years she has ben in the school has proved herself the best all-round nurse, whose work has been of excellent quality, whose conduct and ethics have been of the highest standard and who has shown constructive interest in school activities."

**C. W. Lewis**, Sc. '36, of Virginiatown, Ont., was bereaved on August 31 by the death of his young son, Michael John, aged two and a half years, who was accidentally drowned in Larder Lake.

**W. A. Logan**, Sc. '39, recently with the Dominion Rubber Company, Montreal, is now on the chemical engineering staff of the ore plant of the Aluminum Company of Canada at Arvida, Que.

**R. T. MacAlpine**, Sc. '39, formerly lieutenant in the R.C.A. overseas, has transferred to the Stormont, Dundas and Glengarry Highlanders.

**Dr. Duncan T. R. McColl,** Med. '33, of Queen Charlotte City, B.C., is at present captain and O.C. of 96th Coy., Pacific Coast Militia Rangers, a home-defence unit which is trained in guerilla tactics.

**M. A. McEwen,** Sc. '38, is on the staff of Kerr Addison Gold Mines, Virginiatown, Ont.

**Capt. G. B. Macgillivray,** Arts '37, has become chief of the Macgillivray clan in Canada, in succession to his father, the late Dr. T. D. Macgillivray, Arts '02, Med. '05, of Port Arthur, Ont. The installation ceremony took place in full Scottish tradition at the Lakehead during July.

**Major K. H. McKibbin,** Sc. '38, and Mrs. McKibbin, of Kingston, were bereaved early in October by the death of their only child, Mary Catharine McKibbin, aged fifteen months.

**W. E. McLaughlin,** Arts '36, who has been with the Royal Bank of Canada since graduation, was recently appointed assistant manager of the London, Ont., branch.

**Grant McLennan,** Arts '31, formerly of Almonte, Ont., has been appointed sheriff, local registrar of the Supreme Court, clerk of the County Court, and registrar of the Surrogate Court, for Lanark County. He is also acting temporarily as local registrar of the Supreme Court for Carleton County. His headquarters are in Perth.

**I. W. McNaughton,** Arts '33, has been appointed principal of the high school at Whitby, Ont.

**R. H. Macklem,** Arts '33, has been appointed inspector of public schools for the district of Temiskaming. His headquarters are at Haileybury, Ont.

**John D. Marshall,** Arts '38 (M.S.M.E. '40, Purdue), formerly student engineer at the Kingston Locomotive Company and at the C.P.R. Angus Shops, Montreal, and subsequently with the Baldwin Locomotive Company, is now production engineer on munitions in the tank division of the Baldwin Southwark plant, Philadelphia, Pa. His father is **John H. Marshall,** Sc. '08, of the Patent Office staff, Ottawa.

**H. B. Megill,** Sc. '35, has joined the staff of Dominion Magnesium Limited, Haley, Ont.

**Dr. Hugh Munro,** Med. '39, has joined the staff of Lenox Hill Hospital, East 76th St., New York City.

**J. C. Orr,** Com. '34, for some time accountant at the Tyranite Mines, Timmins, Ont., is now on the staff of the Canada Starch Company, Cardinal, Ont.

**A. M. D. Redmond,** Arts '34, is assistant surveyor for Ariston Gold Mines Limited, Prestea, Gold Coast, British West Africa.

**Dr. J. B. Roberts,** Med. '36, is assistant radiologist at the Royal Jubilee Hospital, Victoria, B.C.

**C. T. M. Robinson,** Sc. '37, is on the staff of the Canadian International Paper Company, Three Rivers, Que.

## *THE PICTURE GALLERY OF CANADIAN HISTORY*

**By C. W. Jefferys, R.C.A., LL.D., assisted by T. W. McLean.** "One of the most valuable books that has ever appeared on Canadian history. . . . It is a wonderful book, a wonderful possession for our people, and we owe a deep debt of gratitude to those who have given it to us."—C. T. Currelly, Director Royal Ontario Museum of Archaeology, in *Saturday Night.* $2.00.

## *FRENCH CANADA AND BRITAIN*

**By Abbé Arthur Maheux.** "Were more books of this candid nature written and read in the spirit which has actuated Abbé Maheux, the ideal of Christian unity would be realized sooner."—*Ottawa Evening Journal.* Cloth $1.50, paper, $1.00.

## *DANIEL M. GORDON: HIS LIFE*

**By Wilhelmina Gordon.** "Although it will be of greatest interest to people interested in the university which he served so well, this book must also be recognized as an important addition to Canadian history . . . written with a taste and delicacy which cannot be too highly praised."—*Saturday Night.* $3.50.

## *SOME GREAT MEN OF QUEEN'S*

**Edited by Principal R. C. Wallace.** "The sketches are excellently done, well rounded within their limitations of space, and they depict with fine clarity the zeal and faith and personality which went into the building of a great Canadian university."—*Ottawa Journal.* $1.50.

***RYERSON***

**G. O. Sanders**, Sc. '37, is naval ordnance inspecting officer with the British Admiralty Technical Mission, 15 Broad St., New York City.

**Maurice Scott** Sc. '37, has joined the staff of Sigma Mines Limited, Bourlamaque, Que.

**G. W. Smith**, Arts '37, headmaster of Grove School, Lakefield, Ont., was bereaved on August 15 by the death of his father, Prof. G. O. Smith, who was for more than thirty years professor of Latin at University College, University of Toronto.

**Miss Eleanor Kathleen Smyth**, Arts '30, is teaching at the high school in Haileybury, Ont.

**N. J. Southern**, Sc. '39, has left the Hoyle Gold Mines, Pamour, Ont., to join the staff of the Schultz Die Casting Company, Wallaceburg, Ont., as production engineer.

**E. J. H. Spence**, Com. '38, has joined the staff of the Wartime Prices and Trade Board, Ottawa.

**M. S. Stevens**, Sc. '31, is mine engineer at Hard Rock Gold Mines, Geraldton, Ont.

**John R. Sullivan**, Med. '31, is now living at Apt. 49-B, Mranlag Manor, Elizabeth, N.J.

**J. L. Thomas** Sc. '30, is with Canadian Industries Limited, Montreal.

**Melville Thompson**, Arts '38, Weston, Ont., was bereaved on August 2 by the death of his father, Mr. Melville F. Thompson, treasurer of the Kingston Shipbuilding Company, Kingston.

**Don Toppin**, Arts '38, has been appointed life branch manager in Toronto for the Prudential Assurance Company of London, England. He had previously been acting in this capacity at Kingston.

**R. E. Treen**, Sc. '39, is with the Hydro-Electric Power Commission of Ontario at Brantford. He lives at 37 Port St.

**J. G. Turnbull**, Sc. '37, has been in charge of construction and expansion work for Brunner Mond (Canada) Limited, at Amherstburg, Ont., for the past three years. He has been with this company since graduation. Mrs. Turnbull was Dora Margaret Miller, Arts '35.

**Miss Ruth Walker**, Arts '33, is with the inspection board of the United Kingdom and Canada, stationed at Nitro, Que.

**Beatrice Walsh**, Arts '39, has been appointed full-time secretary of the national committee of the Labour Youth Federation of Canada. For the past year she has been secretary of the Hamilton East End Y.W.C.A.

**F. S. Ward**, Sc. '35, is with the British Admiralty Technical Mission, New York City. He lives at 9615 Shore Road, Apt. 4-F, Brooklyn, N.Y.

**Miss Katherine Wayling**, Arts '36, has joined the Women's Royal Canadian Naval Service and has completed her basic training at Kingsmill House, Ottawa.

**W. S. Whitmore** Sc. '35, is with Volta Manufacturing Company, Welland, Ont.

**J. E. Williams**, Sc. '32, is vice-president and general manager of Irvington Varnish and Insulating Company of Canada Limited, Hamilton, Ont.

**Rev. Robert W. Young**, Arts '33, Theol. '36, is minister of the United Church of Canada at Bothwell, Ont.

### 1940-1942

**R. W. Baker**, Sc. '41, formerly assistant geologist at Central Patricia Gold Mines, is now on the staff of the Preston East Dome Mines, South Porcupine, Ont.

**G. H. Ball**, Sc. '40, is with Fraser Brace Limited, Shawinigan Falls, Que.

**E. A. Barks**, Arts '41, is in the meteorological office at Gander, Nefoundland.

**R. L. Bartlett**, Sc. '42, is in the ammunition division of Canadian Industries Limited, Brownsburg, Que.

**Gordon J. Baxter** Arts '40, is chemical analyst for the Firestone Tire and Rubber Company, Hamilton, Ont.

**W. F. Billo**, Arts '42, is principal of the Major Ballachey Public School in Brantford, Ont.

**D. G. Black**, Arts '42, after completing a course in the meteorological office at To-

Investment Securities

IN the vast panorama of defence production throughout Canada, is pictured an ever-growing demand for vital materials. This ever-growing demand has created many and varied blasting problems, each one of which requires special study to assure maximum efficiency.

The Explosives Division of Canadian Industries Limited has a type of explosive for each need, whether for metal mining, coal mining or quarrying. Each C-I-L explosive has been field as well as laboratory tested—each is designed to do a specific job efficiently and economically.

* * *

The Explosives Division of C I L has placed its extensive facilities at the service of those mining men who are supplying minerals for war. Years of research and the widely developed resources of the Company place it in a position of trust—to see that efficient explosives and other blasting supplies are constantly available to Canada's mining industry.

ronto, is now in charge of the advanced operational training school at the R.A.F. Station, Pennfield, Ridge, N.B.

**J. A. Brooks** and **D. B. Hyland**, Sc. '42, have joined the chemical staff of Defence Industries Limited, Nobel, Ont.

**Dr. H. M. Campbelll**, Med. '42, is interning at the Kingston General Hospital.

**R. L. Coleman**, Sc. '42, is junior technical and ore-dressing assistant at Noranda Mines, Noranda, Que.

**Miss Mildred Conlin**, Arts '41, graduated recently from the Toronto General Hospital Training School for Nurses.

**J. R. Feick**, Sc. '42, has joined the staff of the International Nickel Company, Copper Cliff, Ont.

**W. H. Gray**, Com. '40, is in the accounting section of the Wartime Prices and Trade Board, Ottawa.

**J. C. Hamilton**, Sc. '42, has taken a position with the Canadian International Paper Company at Three Rivers, Que.

**J. R. Hood**, Sc. '42, is taking a course in meteorology at the meteorological office, Toronto.

**A. S. Lockley**, Arts '41 (M.Sc. University of Michigan), is doing special research work at present in the bacteriology laboratory at Queen's.

**J. F. McCallum** Sc. '42, has joined the staff of the Howard Smith Paper Mills, Cornwall, Ont.

**A. T. McKerrall**, Sc. '42, is with the Hydro-Electric Power Commission of Ontario at Toronto. He is meter engineer.

**Pierre Pasquet**, Sc. '42, has joined the staff of H. G. Acres and Company, consulting engineers, Niagara Falls, Ont.

**J. D. Paterson**, Sc. '40, is process technician for Defence Industries Limited, Ajax, Ont.

**F. L. Perry**, Sc. '42, is on the chemical engineering staff of Imperial Oil Limited, Dartmouth, N.S.

**H. A. Quinn**, Sc. '41, who did postgraduate work in geology at Queen's last session, is continuing his studies this year at Cornell University, Ithaca, N.Y.

**J. W. Sherk**, Sc. '42, is on the staff of the H. B. Beal Technical School London, Ont.

**Nicholas Shisko**, Sc. '40, is on the staff of Small Arms Limited, Long Branch, Ont. He lives at 328 Sunnyside Ave., Toronto.

**Miss Doris Smith**, Arts '42, is in the contract accounts office of the T. Eaton Company, Toronto.

**Miss Dorothy G. Smith**, Arts '40, is with the meningococcus meningitis commission of the U.S. War Department at Baltimore, Md. She lives at No. 12 Temple Court Apts., 233 E. University St., Baltimore.

The Mutual Life of Canada specializes in selecting policies adapted to individual needs. Why not see a Mutual Life representative about your insurance requirements now? He will gladly give you details about different plans — including the Victory Policy, a special low premium policy for war-time incomes.

**THE MUTUAL LIFE OF CANADA**

**ESTABLISHED 1869**

***"Owned by the Policyholders"***

Do not overlook your obligation to buy Victory Bonds and War Savings Certificates.

**R. E. Tait**, Sc. '42, has joined the chemical engineerfing staff of Messrs. Brunner, Mond (Canada) Limited, Amherstburg, Ont.

**J. E. A. Thomas**, Sc. '42, is now with the John Inglis Company Limited, Toronto.

**Rev. George Tuttle**, Arts '42, has been appointed secretary of young people's work for the United Church of Canada.

**R C. Zavitz**, Sc. '42, is inspector and foreman of the heat-treat department of Canada Foundries and Forgings Limited, Welland, Ont.

## General

**Prof. C. A. Curtis**, of the economics department at Queen's, and an alderman of the City of Kingston for several years, has been elected a member of the Ontario Municipal Association.

**Rt. Rev. J. R. P. Sclater**, D.D. '35, minister of Old St. Andrew's Church, Toronto, is the new moderator of the United Church of Canada.

**Dr. Duncan Campbell Scott**, LL.D. '39, Canadian poet, recently celebrated his eightieth birthday at his home in Ottawa.

**Principal R. C. Wallace** was in Belleville, Ont., recently to attend the meetings of the General Council of the United Church of Canada.

**Rev. Dr. H. P. Whidden**, LL.D. '29, exchancellor of McMaster University has been appointed editor of the "Canadian Baptist."

# EGYPT IN WAR TIME

By Frank H. Rand, Arts '29

CULTIVABLE Egypt, to one born within sound of Bow Bells, Minsky's Burlesque or Eaton's, is rather like the Canadian Middle West. In reverse, however; for instead of the wide expanse of open prairie, thinly populated and cropped, there is the flat Nile Delta, barely supporting thirteen million fellahin, or natives, despite three crops a year of cotton, wheat, bananas, rice and so on, *ad infinitum*. To fill in the picture, there are native cities like Tanta, with as many as sixty thousand inhabitants; and finally, Cairo, Alexandria, Suez and Ismailia—which spell Egypt for most people, but which are essentially the European refuges.

Then there is the desert, which the European (before the Lybian campaign) tended to romanticize. The Egyptian, however, has always shunned the desert; left it to the acclimatized tribes like the Senoussi and the Berberines. The latter are migrating in ever-increasing numbers to Cairo, as servants to the Well-offs and the Sit-easies.

So much for the Back Garden of Allah. One can understand a yearning for the peace of the desert; it is easier to be alone at Times Square than anywhere in the Delta proper. Within two minutes of stopping one's car, to admire or commiserate with the eucalyptus drooping over an irrigation canal, curious locals arrive by twos or threes as from nowhere. Remarks range from the unsubtle demand for "baksheesh" to the findings of the mechanical genius who assumes *"Mafish benzine!"* ("Out of gas!")

Flies and mosquitoes come panting in the rear, all the more annoyed at being out-distanced. An unrecognized factor in inspiring the Allied troops in Egypt with a fiery morale is their determination to find out where all the flies come from—fifty miles beyond the nearest blade of grass! But at least they haven't the Northern Ontario habit of taking a bite from one's periphery and going up into a tree to spend the rest of the day eating it.

In this unpredictable war—unpredictable except that the Germans, Italians and Japs are going to lose—everyone thought that Egypt would be "for it" in one way or another. But events so far have proved otherwise. Apart from the often persistent but usually negligible air raids on Alexandria and the Canal Zone, the balance sheet is dewy with credit, comparative and real. Britain buys the cotton crop, and the British taxpayer is thus contributing freely to the prosperity of the Well-established in Egypt, mainly the local Levantines. Casual shortages of other products are chiefly the result of economic rather than war conditions.

It is in Egypt that the East really meets the West. Cairo, with a population of a million, and particularly Alexandria, formerly "the dead city of the East," have large groups of Greeks, Italians (mostly interned), Armenians and Syrians, and smaller quotas of almost every race. Generally born in these cities, they prove, in circumstances little different from those prevailing in America, that human beings of varied nationalities do not have to bite each other every time that occasion offers.

---

After graduating from Queen's in 1930 with his B.A. degree in English and French, Frank Rand did further work in English at McGill University, receiving his M.A. degree there in 1932. He then taught for some time at the Royal Military College. In June, 1939, following a year's study at the Sorbonne in Paris, he was granted the degree of *Docteur de l'Université* (one of the last before the war). From 1939 to 1941, he was lecturer with the British Council at Cairo, Egypt, and also lectured at the American and Egyptian universities in that city. Since 1941 he has been on the staff of the department of English at the Egyptian University in Alexandria.

In the melting-pot of America, English is the language taught; in the Middle East, all learn French. English is also fashionable at present, but is unlikely to replace French as the language of general communication.

Nor is Arabic a probable rival of French in the same field. Colloquial or spoken Arabic is over-simplified and cannot convey the ideas that Europeans, with the resources of their own language, wish to express. There is a gulf separating spoken and written Arabic greater than that between the English of a movie gangster and that of a B.B.C. announcer. Classical Arabic is so difficult that my Egyptian students, for example, rely on good marks in English to pull them up in Arabic! There are constant efforts towards reform, and the Egyptian government is insisting more and more on the teaching of both the spoken and written versions of the language.

An Egyptian reading a novel written, as it always is, in the classical Arabic does not *feel* that what he reads bears sufficient relation to the life he knows. The tale would give an entirely different picture if told in the spoken tongue. A scientist is in despair when it comes to finding suitable Arabic terms; he sometimes has to go to a semi-illiterate mechanic for a translation. As an example, the barbarous mixture of "kitchen Arabic" for "There is a puncture in your tire," is *"Kawitch nime."* ("Your rubber is asleep.")

As I write these disjointed notes in the month of June, the cities are full of troops, though there are fewer now that the battle rages hot once more in the western desert. Alexandria goes its lazy, peaceful way, with a climate envious of none; Cairo, more active and sweltering in the heat of a nudging desert, lives closer to the projects of the military, and hopes that the summer will not seem too long. It was like that for me last year, when I established the only local general-reading magazine for the Forces stationed in the area. Alas, distribution and censorship difficulties caused the early demise of the *"V" Magazine* and left me for the time being a university lecturer. Such was also the fate of *Picture Post*, the English *Life,* which because of its frankness lost the Middle East distributor-subsidy last January. But we still have *Punch, Tatler* and *Sketch.*

What of the troops, whose impact on the life of the local population has been more solid than noisy, but could be a "flaming onion" of British understanding in a naughty world? What is the contact between a hundred thousand uniforms and a hundred thousand drops from the melting-pot? As an observer who speaks French probably as well as any Englishman in Egypt and is well acquainted with both sides of the handshake, I find in their relations one evidence of the possibility of an absolute human sanity. Admitting that "the English" are not universally adored—and rightly, since no one is universally adorable—it seems to me, as I think of the English *people,* that they are misjudged—even in Canada, sometimes—one of the twelve lost tribes of the outer hemisphere.

I have proof of this in the many friendships that have sprung up between soldiers and Greeks, anti-fascist Italians, Swiss, Syrians and nationals of numerous other countries. For example, a soldier comes to Alexandria on leave. By a happy chance, or through his own initiative in consulting the information bureaux or clubs doing so much to make the soldier's leave or day's distraction a pleasant one, he meets a local family. This is indeed good fortune for that normal trooper who finds no full contentment in haunting bar, cabaret or cinema, who likes to sit at his ease for a couple of hours in a home and talk about England—about his family, his civilian life, and the thousand details that bind man to man in all his mediocrity and all his sublime commonality. And to the "foreign" hosts, the agreeable revelation of a bit of England goes far to make Britain appreciated.

While on leave in this great port of Alexandria, dominated by a navy whose successful battle against odds will not be properly known until postwar history is written, a minor naval officer lived with an anti-fascist family of musicians. Other friends, an anti-fascist Italian lawyer and his Parisian wife and a Spanish girl of Jewish extraction, also helped to make

happy the leave hours of this British officer, who was subsequently killed during patrol duty on the Atlantic.

What these contacts meant to one so far from home is revealed in a letter written to the Spanish girl by the widow of the naval officer. I shall quote a few extracts: ". . . . I am sure this sad news will be a great sorrow and grief to all of you who were so very good to him. You made his stay in Alexandria as pleasant as you could, and he appreciated your kindness very much. He spoke to me of you all; and he described *"la sauce K"* and the night in an air-raid shelter, helping to buy the Sunday food and how he used to listen to Madame playing her piano, and your walks in the early morning to learn Arabic and English . . . . Will you please tell his friends what I have told you; I wish I had not to tell you such bad news. He was not afraid of what might happen; he knew and accepted the fact that he might have to go on a little ahead of me, and I knew too, but the fact is so much worse than the fear of what might happen."

And here in Alexandria the marvel is that an English wife, writing so soon after a tragedy that bespeaks its own loneliness and its suffering adjustment to a grey future, should take the trouble to pour out her gratitude for the casual hours of contentment her husband spent among "strangers" far away. "They wouldn't do that here," the Spanish girl remarked, with a kind, sad smile. This is the impress of English people the world knows too little about.

Then there was the group of Eighth Army tank privates whom I happened to meet here: I saw them one day at the University, playing ping-pong and basketball and having tea with some of my students. The dean of the Faculty of Arts, a royal Anglo-Egyptian, had picked them up in his car some days before on that lovely "Corniche" running alongside the Mediterranean for ten miles from the port to some of the camps and the King's palace. A casual word, and seven of them invaded my apartment the next evening; and from then on they never let me alone, thank goodness, until they were transferred to Cairo.

I knew the first moment I met these lads that they represented a cross-section of that English middle-class life which gives assurance that no revolution is necessary in "Blimey." Wilfred was a professional dancer, no pansy either, who worked with Jack Buchanan and Jessie Mathews before foot- and Krieg lights. Terry, slight and ginger, knew all the answers to tank indigestion. James, somewhat older, well on in the twenties, was an auctioneer, with a thousand pounds a years in private life. Bill was an ex-printer with a golden voice, a source of inspiration to the group which, whatever their education and upbringing, were "swing" to a man. Peter, tousle-headed intellectual without "advantages," had spent his time while at camp in England persuading the wife of an under-secretary that "Changes Must Come." Graham, formerly a photographer, could well pose as the ideal blond Aryan; his mother was German.

Jimmy was an expert on the guitar, whose strings had caused him a spot of trouble. He had, while in England on the estate of the aforementioned under-secretary, transported his guitar along with his favourite books to the lofty branch of an old elm. There, on an improvised platform, he read, sang and slept, raiding the cook-house nightly. A week later he dropped bearded in front on the officers' mess, to receive the gift of fourteen days C.B. This, however, did not prevent him from bestriding five tanks in one day during the last Lybian all-in, and finishing up in a truck that went unmolested past a German tank twenty yards away (de're prisoners, ja Heine?).

From a halcyon year in Paris before the war and my three years in the Middle East, I have learned a lot. From the former, that it will take more than a military mess and fascism-before-country to keep France from being free; from the latter, that the world needs foreigners after all. The revolutions of war-machines are turning towards a victory that the end of hostilities will only begin to inaugurate.

With this comforting thought I sign off, having with difficulty urged on to this point the Remington portable bought "on time" in Saskatchewan in 1927.

# THE LATE DR. WILLIAM GIBSON

**By F. J. O'Connor, Med. '06**

IN the passing of Dr. William Gibson, we chronicle with sadness the life of another Queen's man who came to the University as a student and remained as a valued member of the teaching staff for thirty-five years.

A trained pedagogue in our Ontario public schools, William Gibson soon sought higher fields. He entered Queen's Medical College, graduated with high standing in 1904, and immediately became an interne at the Kingston General Hospital. For a short period he practised at Smiths Falls, but at the personal request of Dr. J. C. Connell, who was then dean of Medicine, he returned to Kingston. A keen judge of professional ability, Dr. Connell foresaw for this young man the possibilities of a brilliant future and offered him a place on the staff at Queen's.

DR. GIBSON

In 1907 Sir Almroth E. Wright was conducting a series of lectures at Johns Hopkins Medical School on special work in vaccine therapy and obsonic index. Dr. Gibson registered for the course and proceeded to Baltimore, bringing back and introducing the fruits of his observation to the Kingston community and to his classes at the College. For some time he conducted the clinical microscopy lectures at Queen's, and attained the post of assistant professor of bacteriology and pathology in 1910. During the ensuing years he also taught general medicine.

With the advent of the first Great War, Dr. Gibson entered military service and became head of the medical department when the Queen's Military Hospital was established in 1917. He continued in that capacity when the patients were transferred to the Department of Soldiers' Civil Re-establishment at Sydenham Hospital. During two of the war years, along with the late Dr. E. C. D. McCallum, he carried on the entire teaching work of the medical department at Queen's.

For many years he was chief of the medical staff at the Hotel Dieu Hospital, where he conducted clinics, particularly in diseases of the heart. The electrocardiograph machine at that institution was his personal gift. He also served on the examining boards of both the Ontario and Dominion medical councils and gained for himself an enviable reputation for fairness and thoroughness.

With the re-organization at Queen's in the postwar years, Dr. Gibson continued to look after the medical care of military patients in both Kingston hospitals. This greatly widened his clinical field, and he soon was appointed associate professor of medicine. He held this post until his retirement from the University in 1939.

Along with his professional duties Dr. Gibson always found time for civic, social and fraternal service. He was one of the co-founders of the Newman Club of Queen's; for some time he served as alderman on the Kingston city council; he possessed a marked literary ability, which found its greatest expression as master of the degree team of the local Knights of Columbus, and as a member of the Canadian Catholic Historical Society.

It was as a teacher, however, that he loved best to be known. A product of the old model and normal schools, he knew how to teach; a skillful clinician with a thorough mastery of the fundamentals of medicine, he knew what to teach; and his contribution to the training of our graduates during the last thirty-odd years is beyond estimation.

Nor did he neglect the moral side of medicine. He prepared and gave an annual series of lectures on the Catholic ethics of medicine, to which all students — his co-religionists and others — were equally invited and welcome.

And so throughout the length and breadth of this continent the many doctors whom William Gibson helped to prepare to meet the emergencies of their profession will regret, with his other innumerable friends, the passing of a good friend, a loyal citizen, a splendid teacher.

## SERVICE CONTROLS AFFECT ALUMNI AND STUDENTS

GOVERNMENTAL control of university alumni and students, through the Wartime Bureau of Technical Personnel and through National Selective Service, was explained by Mr. L. Austin Wright, executive assistant to the director of National Selective Service, at the special session of the annual meeting of the General Alumni Association in Grant Hall on Saturday, October 17. Alumni, students and members of the University staff filled the hall to hear Mr. Wright's pronouncements on this most important question.

At the beginning of his address the speaker stated that, although he would deal with the subject of selective service in general, the main gist of his remarks would have reference to university men and women.

"It is recognized that university graduates have special qualifications to aid in the conduct of the war, and therefore you are specially guarded and cared for," said Mr. Wright, speaking particularly to the students. "It is as though you were precious war material, the supply of which must be guaranteed, the quality maintained, and the distribution controlled. Looking at it coldly, this is essentially what is happening. You are a war material."

Mr. Wright went on to explain that upon the completion of their course, graduates in engineering or in the sciences came immediately within the jurisdiction of the Wartime Bureau of Technical Personnel. This organization had already on file at Ottawa statistical information concerning 25,000 of Canada's technically trained men and women. The Bureau was administered by a permanent staff, in collaboration with an advisory committee, on which a Queen's professor represented the Canadian universities.

The primary purpose of the Wartime Bureau was to allocate the technical personnel of Canada so that it could make its greatest and most valuable contribution to the war effort. One of its specific aims was to prevent pernicious competition in industry, and among the several divisions of the armed forces, for the services of graduates in engineering and the sciences.

Non-technical graduates, and students during their university training, were under the direction at present of the National Selective Service organization, which had control of their employment movements, except in the case of part-time work. Selective Service permits were required before men and women in these categories could seek permanent employment or change their present occupations.

Under current regulations, students were granted exemption from military service in order to attend university, but were not permitted to change their course unless it were in the national interest. No student might leave Canada to take his education elsewhere unless the necessary facilities were lacking in Canada, and upon graduation all were subject to call for compulsory military training. Students would be allowed to proceed to post-graduate degrees only if such further study were in the national interest or of aid in the prosecution of the war. Any student who refused to take satisfactorily military training within the universities, or who failed to pass the requisite examinations for reasons within his control, would be called out forthwith under the regulations.

Mr. Wright made no mention in his address of students in Medicine, as these students were already governed by special military enlistment regulations, which came into force at the beginning of the fifth year of their course.

With regard to the future, the speaker said he believed that it would be necessary to assure that the supply of students entering the universities would be adequate to meet the requirements of the active service forces, of governmental departments, and of war industry as determined by the Department of Munitions and Supply. If the number of students entering voluntarily proved insufficient to meet these needs, means would have to be found for directing more young men and women into university work.

Mr. Wright has been for many years general secretary of the Engineering Institute of Canada. In 1941 he was active in the formation of the Wartime Bureau of Technical Personnel, and became assistant to Mr. Elliott M. Little when the latter was made head of the Bureau. When Mr. Little was placed in charge of

National Selective Service, Mr. Wright continued his association with him as executive assistant.

## INCREASE SHOWN IN STUDENT ENROLMENT

THE University's intramural registration total for the current session is 34 higher than that of last year. The number of students in attendance at the time of writing is 1640. This is an increase of 2 per cent over the 1941-42 figure, but a decrease of 200, or 11 per cent, from the all-time high of 1840, recorded in 1938-39.

Enrolment at the Queen's Theological College is ten, excluding the students who are also registered in Arts at the University proper.

Registration figures are tabulated below:

| | 1940 | 1941 | 1942 |
|---|---|---|---|
| Arts— | | | |
| First year | 262 | 247 | 294 |
| Other years | 565 | 508 | 430 |
| Science— | | | |
| First year | 167 | 201 | 234 |
| Other years | 432 | 384 | 403 |
| Medicine— | | | |
| First year | 46 | 45 | 49 |
| Other years | 220 | 221 | 231 |
| Gross Total | 1692 | 1606 | 1641 |
| Less registered in two faculties | 3 | 3 | 1 |
| Net Total | 1689 | 1603 | 1640 |

## NEW REGULATIONS SET UP FOR UNIVERSITY STUDENTS

UNDER recent amendments to the National Selective Service regulations, certain further restrictions and demands upon students attending Canadian universities have been laid down. These rulings cover failures in examinations, change of course and other matters.

The new legislation was designed to weed out from the universities, students who are not taking full advantage of their special privileges, or when it does not appear to be in the national interest to have them continue their technical or academic training. Part of the regulations reads as follows:

> "Any physically fit student who fails to pass any term or yearly academic examination required by his university, college or school, unless such failure, in the opinion of the university, college or school authorities and the District Officer Commanding, is due to circumstances beyond the control of such student, and that he should be permitted to continue his course of studies, shall be called out forthwith under these regulations."

At Queen's, in accordance with the University's interpretation of this particular clause, arrangements are now being made under which both men and women students who, in the opinion of their instructors, are not doing satisfactory work and are not likely to succeed will be asked to withdraw at Christmas. Instructors are to be asked to watch the progress of their students, and to report from time to time to the dean of the faculty concerned the names of those whose work is unsatisfactory. The December hour examinations are to be held as usual.

## UNIVERSITY INVESTS $584,000 IN VICTORY LOAN

AT the semi-annual meeting of the Board of Trustees of the University held on October 17, arrangements were made to invest $200,000 of the University's endowment funds—accruing from recently matured securities—in the new Victory Loan. Other special and routine business was also transacted, and half-yearly reports were presented by the Principal and the Treasurer.

Numerous changes in the teaching staff were announced. Those not previously noted in the *Review* were as follows:

Prof. J. A. Logan, a B.A. and a B.Sc. of the University of Saskatchewan, and an M.Sc. and D.Sc. of Harvard, will become assistant professor of civil engineering in place of Prof. J. B. Baty, who was given leave of absence last spring to join the United States Army. Professor Logan is at present assistant professor at the University of Missouri.

Dr. W. T. Connell, M.D.,C.M. '94, who had formally retired in 1941 from the professorship of medicine and clinical medicine, but who had kindly given assistance in the teaching of medicine dur-

ing the past year, asked to be relieved of his University work because of his duties at the Kingston Military Hospital. Dr. W. Ford Connell, M.D.,C.M. '29, acting head of the department of medicine, also requested release from his University appointment in order to enter the Royal Canadian Army Medical Corps. Both of these resignations were accepted with much regret.

In the department of history, Dr. Gerald Graham, Arts '24, was given further leave of absence to accept an appointment in naval history at the new Naval College in Esquimalt, B.C. Frederick W. Gibson, B.A. (honours) '42, was appointed as instructor.

Prof. F. A. Knox, Arts '23, of the economics department, was given half-time leave to do special work in the Department of Finance at Ottawa, and Prof. C. A. Curtis was made acting head of the department.

Present at the meeting were Chancellor Dunning, Principal Wallace, Dr. J. M. Macdonnell (chairman of the Board) and twelve other trustees, also Dr. W. E. McNeill (secretary of the Board).

Subsequent to the Trustees' meeting, the sale of a large holding of short-term bonds enabled the University to invest a further $384,000 in the Victory Loan, thus bringing Queen's subscription to a total of $584,000.

## QUEEN'S NOVELIST HONOURED AT REGINA

HONOURS were showered upon Queen's latest woman novelist, Mrs. Harvey B. Campbell, formerly Grace MacLennan Grant, Arts '15, on October 16, when she was entertained at a dinner held in Regina by the local branch of the General Alumni Association, the Saskatchewan branch of the Canadian Authors' Association, and the Women's Press Club.

About 150 guests were present to mark the occasion of the publication of Mrs. Campbell's new book, *Thorn-Apple Tree;* and during the evening scores of congratulatory messages, including one from the alumni of Queen's, were received by the author. Dr. C. C. Lingard, Arts '29, president of the Canadian Authors' Association in Saskatchewan, and L. A. Thornton, Arts and Sc. '06, president of the Regina branch of the Alumni Association were chairmen. The function was held in the main dining-room of the Hotel Saskatchewan.

As speaker of the evening, Mrs. Campbell chose the subject "Reading and Writing in Wartime." She stressed the importance of fostering a truly Canadian literature, "having the very feel and flavour of Canada in it" . . . . a literature encouraged by keen critical readers, interpreting each part of Canada to the others in order to make Canadians not only politically united, but emotionally and culturally united, inspiring in them those qualities which will make them spiritually rich, disciplined and strong.

Among others who spoke were Col. S. M. Polson, Arts '05, Med. '10, and D. A. R. McCannel, Sc. '14. John Ehman, Sc. '31, led in a number of Queen's songs, accompanied at the piano by his brother, Wilfred Ehman, Com. '28. Grace was asked by Rev. Dr. R. J. McDonald, Arts '07, Theol. '10.

Mrs. Campbell is the wife of Rev. Harvey Campbell, Arts '16, and has lived in Regina since her husband's appointment four years ago as minister of Knox Church in that city. They met while at the University and were married after Mr. Campbell returned from overseas at the end of the first Great War. Mrs. Campbell's mother, Mrs. Alex Grant, lives at the old farm in Glengarry, around which centres the plot of *Thorn-Apple Tree.*

## AIR TRAINING SQUADRON ORGANIZED AT QUEEN'S

WITH an enrolment of 143, the Queen's Squadron of the University Air Training Corps is now in full operation. The unit was formally organized this fall, as the development of an experimental programme inaugurated at the University last session, when a small number of students took special training under the direction of the officer commanding the Royal Canadian Air Force radio school at Queen's.

The U.A.T.C. bears the same relation to the air force as the C.O.T.C. bears

to the army. The two organizations operate along parallel lines, but have entirely separate commands, the Queen's Squadron being under the jurisdiction of No. 1 Training Command of the R.C.A.F. at Toronto.

The training of the U.A.T.C. is designed for students who are looking forward to enlistment in the R.C.A.F. The two-year course given at the University corresponds roughly to that given at an R.C.A.F. initial training school. It includes 125 hours of instruction within the University each year, in airmanship, air navigation, aircraft recognition, radio signals, special mathematics and other essential subjects, also two weeks' practical work at a service flying station. R.C.A.F. uniforms, with special identification tabs, are issued to students.

The commanding officer of the Queen's Squadron is Sqdn. Ldr. H. L. Tracy, head of the classics department at the University, who was a flight commander in the Royal Flying Corps and the Royal Air Force during the last war. Cordial co-operation in the training of the Squadron is being given by No. 31 Service Flying Training School of the R.A.F. at Kingston, through the furnishing of instructional personnel and equiment.

## D. A. GILLIES RE-ELECTED ALUMNI PRESIDENT

DAVID A. GILLIES, Arts '05, of Arnprior, Ont., was re-elected president of the General Alumni Association at the semi-annual meeting of the Board of Directors, held in the Red Room, Kingston Hall, on the morning of Saturday, October 17. Mr. Gillies was first elected to the presidency in October, 1941.

Other officers chosen for the ensuing year were A. C. Hanley, Sc. '18, as first vice-president, and Dr. J. H. Orr, Med. '23, as second vice-president. Mr. Hanley, who is manager of the Canadian National Telegraphs at Kingston and district inspector for the Ontario Hydro-Electric Power Commission, has been a member of the Board of Directors since 1933. Dr. Orr, who is professor of bacteriology at the University, has also served on the Board since 1933.

D. G. Geiger, Sc. '22, of Toronto, Dr. J. J. McCann, Med. '09, of Renfrew, and H. E. Searle, Sc. '22, of New York City, were appointed as co-optive members of the Directorate for the coming year. Mr. Searle is a newcomer to the Board.

In a brief summary of the past year's activities, President Gillies stated that the work of the Association had been carried on successfully in spite of numerous difficulties, not the least of which was the absence during most of the period of the secretary-treasurer, Mr. H. J. Hamilton, who was on leave of absence with the Wartime Bureau of Technical Personnel in Ottawa. The acting secretary-treasurer, Mr. Gordon J. Smith, director of endowment for the University, had been devoting a great deal of time to the work of the Association, the *Review* and the Employment Service, with the consent of the University. Mr. Gillies announced that the membership had increased slightly during the year, to the highest figure in the history of the organization. He extended his thanks to the directors who had been able to attend the meeting, noting that only the heavy pressure of special wartime duties had prevented several other members of the Board from being present.

The acting secretary-treasurer's report included the following statistics: Association membership, 1696; branches, 34, with two new ones in process of organization; net cost of *Review* for year, $857.52; contribution to University for extension to public-address system in Grant Hall, $416.78; surplus for year, $1,544.84 — chiefly owing to the University's bearing much of the administration cost through giving the services of the director of endowment as acting secretary-treasurer of the Association.

As the income of the Association during the year had been slightly greater than estimated, and the expenditure considerably less for the reason already mentioned, the Board decided to return to the University $1000 of the $1075 grant that had been made by the University to meet the expected deficit of the Association for the 1941-42 period.

The following directors or branch representatives were present: President D. A. Gillies; Past Presidents A. E. MacRae and J. C. Macfarlane; Vice-President A. C. Hanley; Mrs. D. W. Boucher, Miss

M. L. Macdonnell, Prof. D. S. Ellis, Drs. J. H. Orr and E. L. Bruce, Messrs. M. J. Aykroyd, J. H. Bell and C. S. Gibson.

## NEW OFFICERS INSTALLED AT ANNUAL ALUMNI MEETING

QUEEN'S has at present approximately 10,000 living grauates, about 1300 of whom are now recorded as serving in the active forces of the United Nations. Twenty-two have made the supreme sacrifice.

These figures were given in the report of the acting secretary-treasurer at the business session of the annual meeting of the General Alumni Association, held at the University on the morning of October 17.

President D. A. Gillies, Arts '05, occupied the chair and expressed appreciation of his re-election to the presidency of the Association. A. C. Hanley, Sc. '18, and Dr. J. H. Orr, were installed, respectively, as first and second vice-presidents, to which offices they had been elected at the preceding meeting of the Board of Directors.

Matters of general interest to the University and the alumni body were discussed, including that of more extensive publicity for Queen's in the press of Canada. It was decided to forward a recommendation in this connection to the Board of Trustees of the University.

The nominating committee for the ensuing year was named as follows: R. H. Bissell, Sc. '28, Kingston (convener); Miss Gertrude Best, Arts '23, Niagara Falls, Ont.; C. W. Butcher, Arts '17, Paris, Ont.; Dr. P. H. Huyck, Med. '11, Kingston; W. H. Losee, Sc. '12, Ottawa; and C. A. Root, Arts '19, Montreal.

At the close of the business session, the meeting adjourned to Grant Hall for the special address of Mr. L. Austin Wright, executive assistant to the director of National Selective Service. Mr. Wright spoke on the subject of Selective Service, with Particular Reference to University Graduates and Students. He was introduced by President Gillies, and was thanked by Principal Wallace on behalf of the large audience of alumni, students and staff for his excellent exposition of this important question.

## MEDICAL STUDENTS PROTEST CONNELL RESIGNATION

IN a resolution passed by the Aesculapian Society on October 19, the Medical students voiced their displeasure at the acceptance by the Board of Trustees of the resignation of Dr. W. Ford Connell, Med. '29, who had been acting head of the department of medicine for the past year. The Society had previously petitioned the University that Dr. Connell be made head of the department.

As recorded elsewhere in this issue, Dr. Connell's resignation was accepted by the Trustees on October 19. Dr. Connell had informed the Board that he wished to be released from his University post in order to join the Royal Canadian Army Medical Corps. He made it clear that his decision was final.

According to the *Queen's Journal* of October 23, the Medical students were critical of the Board of Trustees for "allowing a member of the staff to resign when the resignation could have been prevented." Further criticisms were that the Board had accepted Dr. Connell's resignation without "consulting the proper authorities, viz., the advisory committee of the Medical Faculty"; and had done so "when it had in mind no qualified substitute," and when "great difficulties would be encountered in filling the vacancy with an equally qualified man."

In a statement to the *Review* concerning the matter, Principal Wallace said: "Dr. Connell is highly regarded as a teacher. The University is very sorry to lose his services. When he was asked to assume the acting headship of the department of medicine in 1941, Dr. Connell was informed that no head of the department would be appointed until after the war. At that time the field would be thoroughly surveyed, and the most suitable man selected. If Dr. Connell accepted the acting post, his qualifications would be carefully weighed along with those of others who might then be available."

Dr. Wallace added: "The policy of the University in making all appointments of heads of departments is to find the best man who may be available anywhere, with due consideration to the qualities of the men who are already giving service at Queen's."

## A.R.P. INSTRUCTION GIVEN TO WOMEN STUDENTS

A COMPULSORY course in air-raid precautions for all women students has been established at the University. The lectures, which are being given on successive Tuesday evenings in Convocation Hall, extend through the first term. The topics and speakers are as follows:

1. "Fire Prevention, Fire Fighting and Smoke Rescue." Assistant Chief Brightman, Kingston Fire Department.

2. "Chemical Warfare, Detection and Physical Characteristics of Gases." Capt. W. H. Agnew, Queen's Contingent, C.O. T.C.

3. "Anti-gas Precautions, First Aid to Gas Casualties and Decontamination." Captain Agnew.

4. "A.R.P. Set-up, and Experience of A.R.P. Organization in Britain." Capt. M. McIntyre Hood, Director, Civilian Defence Committee, Province of Ontario.

5. "Incendiary and High Explosive Bombs, with Demonstration." Captain Hood.

6. "Emergency Sanitation." Professor John Wyllie, Queen's University.

7. "A. R. P. Transportation Problems and First Aid Review." This lecture fulfils, with the first six, the outline laid down by the Province for those citizens who wish to qualify for the municipal A.R.P. certificate.

A written examination will be held at the close of the course. Students who pass this examination and have already qualified for a St. John Ambulance certificate in first aid will be awarded A.R.P. certificates by the City of Kingston.

In the second term a compulsory first-aid course will be provided for all freshettes. Those who complete this course, having already passed the A.R.P. in the first term, will then be recommended to the City of Kingston for the A.R.P. certificate.

The nurses-in-training at the Kingston General Hospital are joining with the Queen's undergraduates for the last four lectures of the A.R.P. course, in order that they, too, may be able to qualify for the municipal certificate. They are taking the gas and first-aid instruction, however, in separate classes.

## SCHOLAR AND CHURCHMAN HONOURED AT CONVOCATION

"WE have seen other countries suffer torture for the things in which they believe. We have seen the gallant stand of the Russians, backed by extensive scientific research. We have watched the teachers of Norway stand against the Nazis, and the universities of China move back into the interior so that they may carry on their work. Can we, who are better placed, do less than they?"

These were some of the words spoken by Principal Wallace in his University Day address delivered at Autumn Convocation in Grant Hall on the evening of Friday, October 16. The occasion was the 101st anniversary of the signing by Queen Victoria of the University's Royal Charter.

In conclusion the Principal declared: "We must have the courage to hold high the light of freedom until we can find our way out of the darkness. That is the pledge we have taken on this University Day."

The Chancellor, Honourable Charles Avery Dunning, officiated at the Convocation ceremony. During the proceedings the honorary degree of Doctor of Laws was conferred upon Dr. George Gordon Coulton, distinguished mediaeval historian of Cambridge University, who is at present delivering a series of special lectures at Toronto University; and upon his Eminence, Jean Marie Rodrigue Cardinal Villeneuve, Archbishop of Quebec.

In presenting Dr. Coulton and Cardinal Villeneuve to the Chancellor, Principal Wallace spoke as follows:

"I present George Gordon Coulton, whose contributions to mediaeval history have brought honour to British scholarship, and in whose unique knowledge Canada has now been given the opportunity to share in a personal way, to receive the degree of doctor of laws, *honoris causa,* at your hands."

"I present Jean Marie Rodrigue Villeneuve, scholar, philosopher, humanist, man of God, who in his exalted position in his own church has been a strong force working for unity in our Canadian life. Mr. Chancellor, I present His Eminence Cardinal Villeneuve to receive the degree

of doctor of laws, *honoris causa,* at your hands."

On behalf of Dr. Coulton and himself, Cardinal Villeneuve thanked the University for the honour conferred upon them. He said that in his case he believed the honour to be a link between the French-speaking and Catholic people on the one side and the English-speaking and non-Catholic people of Canada on the other side.

His Eminence then spoke of the difficulties that the world was facing in the present crisis, declaring that religious leaders of all denominations acknowledged the fact that the present evils are due in a large measure to "the failure of nations to carry out the laws of God."

Commending the principles of the Churchill-Roosevelt Atlantic Charter, the Cardinal said that he thought public opinion should be cast in the mould of that Christianlike social doctrine.

"Should things be left the same after the war in our country as they were before, woe to us for not having seen or not having done."

After outlining what was required for a better civilization, the Cardinal issued a challenge to university students to search out the means of achieving a secure social peace after having offered their life and blood to secure victory.

Matriculation scholarships, of the value of $20,000, were announced by Vice-Principal W. E. McNeill and presented to the winners by Chancellor Dunning. Dr. McNeill stated that the University and matriculation awards now available at Queen's numbered 230 and had a total annual value of approximately $53,000.

At the close of Convocation an informal reception was held in the Gymnasium, at which alumni and members of the University staff had an opportunity of meeting Queen's newest graduates and of spending a pleasant social hour together.

---

## TRADE UNION AGREEMENTS BULLETIN ISSUED

"TRADE Union Agreements in Canadian Industry, 1942" is the title of the sixth bulletin issued by the Industrial Relations Section of the School of Commerce and Administration at Queen's.

The bulletin, which contains 177 pages and is priced at $2.00, deals with the importance of trade-union agreements, their general and specific purposes, and their distribution in Canadian industry. Included also are specimen clauses from 150 individual agreements, and a selected bibliography.

---

## QUEEN'S STUDENTS HELP IN WESTERN HARVESTING

QUEEN'S students to the number of 185 answered in early October the emergency call of the Dominion Government for harvesters in Western Canada.

In an appeal to Principal Wallace for student help to meet the critical situation, Minister of Labour Humphrey Mitchell stated that as a serious loss of the wheat crop in the West was imminent if labour were not made available from Eastern Canada, and as war and essential industries were taxing to the limit the manpower capacity of Ontario and Quebec, he was asking the universities of these two provinces to grant leave of absence until about November 1 to male students in courses not directly connected with war work.

Governmental arrangements were made whereby the students would receive a minimum of $4 and board for each day they worked, free transportation going West, and return transportation at a cost of $10 if after October 31. The students had to provide their own meals *en route.* Owing to the scarcity of rooms in Kingston. the payment of one-half of the students' room rent during their absence from the city was offered by the Department of Labour, in order to insure the rooms being held for their return.

Special arrangements at Queen's provided for allowance for classes missed, and for credit for C.O.T.C. training until November 9.

On October 10, the Queen's students left Kingston for the Regina and Saskatoon areas, and according to reports, had a very happy trip West, along with their confrères from the other universities. A brief stop at Winnipeg was made the occasion for a jolly jambouree, with a bit of sight-seeing for some. A letter from the West records that many of the rail-

way coaches were decorated with the names and colours of the universities, with those of Queen's appearing on a goodly number.

---

## THEOLOGICAL ALUMNI HOLD FIFTIETH CONFERENCE

"REVELATION and Mysticism; The Mystical Element in the Bible" was the general subject of the Chancellor's Lectures at the fiftieth annual conference of the Theological Alumni Association, held at the University from October 19 to 22. The special lecturer this year was Dr. J. S. Thomson, general manager of the Canadian Broadcasting Commission and president of the University of Saskatchewan.

President Thomson opened his seminar with a discussion of "The Mystical Element in the Old Testament." He dealt with other aspects of mysticism in three succeeding addresses. In expounding the teachings of St. Paul and St. John, Dr. Thomson stated: "The sins of the spirit are the most deadly . . . . All sin is a form of self-worship."

The conference programme also included lectures on other subjects:

Dr. C. H. McCuaig, Med. '21, of the Ontario Hospital, Kingston, spoke on "Psychiatry and Religion," pointing out that "psychiatry is needed in religion as much as religion is needed in psychiatry."

Rev. J. I. MacKay, Arts '14, Theol. '17, of Montreal, dealt with "The Non-Anglo-Saxons in Canada and our Protestantism." "The Church must give the lead in ensuring absolute fairness to these new Canadians" was the theme of this address.

Rev. Salem Bland, D.D. '03, of Toronto, spoke on "Fifty Years of Queen's Theological Alumni Conference: A Retrospect." He stated that "Queen's in the early nineties comprised only a small faculty and student body, but the same quality and high spirit were in evidence then as now."

A paper on the "Faith We Declare" was given by Professor J. M. Shaw, D.D., of Queen's Theological College; and "The Idea of the Ministry of the Early Church" was set forth by Rev. F. J. Jackson, B.D., of Uno Park.

Dr. B. K. Sandwell, editor of *Saturday Night,* Toronto, in his lecture on "The Social Function of Canadian Fiction," pointed out that Canadian authors did not, as a rule, reveal an awareness of a Canadian character. "We have accepted as applicable to ourselves the American concept of the American national character. The Canadian writer rarely succeeds in depicting accurately the Canadian scene or the Canadian mind. Canada is today a literary suburb of both England and the United States."

The meetings of the conference were held in Convocation Hall, while the devotional services took place in the Morgan Memorial Chapel. On the afternoon of October 24, a delightful reception for the members and their friends was held at the home of Principal and Mrs. Kent.

At the annual business session, Rev. A. D. Cornett, Arts '07, Theol. '11, was re-elected president of the Association for the ensuing year. The other officers were also returned, as follows: vice-president, Rev. A. P. Menzies, Arts '10, Theol. '12, Ottawa; secretary, Rev. H. W. Cliff, Kingston; treasurer, Rev. Dr. J. R. Watts, Arts '01, Theol. '04, Kingston.

---

## EXAMINATION BONUS FOR STUDENT HARVESTERS

QUEEN'S students who went to Western Canada to help with the harvesting operations and thus lost considerable study time are to be given a 25 per cent bonus on the marks they obtain in their regular mid-term examinations.

In some departments, special examinations may be set for these students, covering the class work they have actually taken. In such cases, the aforementioned bonus will not apply.

The Department of National Defence has ruled that the student harvest volunteers will not be penalized for the C.O.T.C. training they missed while working in the West.

## UNIVERSITY ESTABLISHES COURSE IN NURSING

TO meet the urgent need in the nursing profession for women to fill administrative posts in hospitals and elsewhere, Queen's has established a course in nursing under the jurisdiction of the Medical faculty. It has been found that a more extensive academic education than that obtained in the ordinary hospital training-course is desirable for such work.

The new course, which is similar to those that have been in operation for some time at a few other Canadian universities will lead to the degree of Bachelor of Nursing Science (B.N.S.). This corresponds to the B.Sc.(Nursing) degree granted at other institutions. The course offers two options in the final year—public-health nursing and hospital administration, and will normally cover six years' work from junior matriculation.

Two years' purely academic training is compulsory. This includes obligatory courses in English, chemistry, physics, biology, bacteriology and psychology, with a choice of history or languages. This is followed by three years of standard training at the Kingston General Hospital or in special circumstances some other recognized school of nursing. (If nineteen years old, the student may enter hospital at the end of her first University year, for four summer months as a probationer).

After the completion of her three years' hospital training, the student will receive her R.N. diploma, and must then come back to the University for a year's postgraduate work in either public-health nursing or hospital administration in order to receive her B.N.S. degree.

If a student, during her hospital period, decides to give up nursing, she may return to the University and complete her Arts course, with credit for the academic work previously taken.

In 1945 Queen's will appoint a full-time lecturer in public health, and the Kingston General Hospital a lecturer in hospital administration, to take charge of the postgraduate work in the respective divisions.

# THE BOOKSHELF

### A Tale of Glengarry

THORN-APPLE TREE. By Grace Campbell,* Arts '15. Wm. Collins Sons & Co. Canada Limited, Toronto. Reviewed by Mary MacPhail Chown, Arts '17.

*THORN-APPLE TREE* will be read by all Canadians, and especially by those who stem from the early Scottish settlements with nostalgic delight. For it is the record of the life of a pioneer group of a century ago seen through backward-looking eyes. It is a gentle tale, softly told. There is a fine thread of plot on which really beautiful bits of description are strung. We see, for the author knows every acre of the land she describes, the rolling fields with the encroaching forest about them, the little creeks and the wide St. Lawrence; the sturdy log cabins which the settlers built with their own hands "four-square and substantial." We watch the seasons come and go, and the thorn-apple tree marks their passing, "its spikes lost in a cloud of blossoms" or "bright with its small crimson fruit."

The characters are figures on a delicate and colourful bit of tapestry. It is impossible to dislike Red Hugh, the villain of the piece, or to feel the strength of character that must have been Fairlie's. One wishes that Finlay Ban had survived beyond the first chapter. He might have given to the book that suggestion of vigour and vitality which it somehow lacks. For this, quite definitely, is a story of the good old days. The author has attempted, by the introduction of rather artificial incidents—a drowning, a stabbing, an outbreak of small-pox among a band of fur-traders—to convey an idea of the hardships which the early settlers must have endured. It is not wholly successful; the atmosphere remains peaceful

and pleasant, almost idyllic. Even the "dreich" season sounds far from grim. The blighting June frost seems to have brought no hardship or privation. Birth and death, even violent death, cause scarcely a ripple in the smooth-flowing lives of these picture people.

GRACE CAMPBELL

The incidents are so well told that one has no doubt that they really happened. Especially good are the accounts of the trip to Quebec with logs, the Sugaring-off and the Gathering at Hughie Ban's These are true tales, and an integral part of every picture of pioneer life. If they have been toned down, mellowed in the re-telling, it is a welcome relief for the reader weary of strained psychological novels and the sordid output of a war-ridden world.

The writing is consistently good. There is no self-conscious striving after style, and the result is a competent prose admirably suited to the theme. The language is Canadian, sturdy but not vulgar, while the few Gaelic words and the Scottish gift for turning a phrase lend a peculiar charm to the simple diction.

---

*Grace Campbell was born near Williamstown, in Glengarry County, Ontario, of Highland and Loyalist ancestry, on the farm which is the scene of *Thorn-Apple Tree*. A United Empire Loyalist grant from King George III to John Grant, her great-grandfather, the land has been in continuous possession of the family since 1784.

As Grace MacLennan Grant, she entered Arts at Queen's in 1911, with the MacLennan Glengarry scholarship from Williamstown High School. On graduation with her B.A. degree in 1915, she won the gold medal in English literature. In 1919 she married Rev. Harry B. Campbell, Arts '16. Since then she has lived in Saskatchewan, Ontario, Northern Quebec and Montreal. Her home is now in Regina, where her husband is minister of Knox Church. They have three sons; the older two, twins of nineteen years, are in the R.C.A.F.

Many of Mrs. Campbell's short stories have been published in Canada, the United States and Great Britain. *Thorn-Apple Tree* is her first novel.

# STUDENT ACTIVITIES

## General

THE Queen's Contingent, C.O.T.C., and the Auxiliary Battalion have an enrolment this year of 953 students. This is exclusive of those who are taking training with the University Air Training Corps.

* * * *

Mrs. R. C. Wallace was guest speaker at the first meeting of the Levana Society. She told of her own college days at Edinburgh University. The Society decided to invest $300 in the new Victory Loan. Miss Wilda Baker, Arts '43 of Livonia, N.Y., the new president, was in the chair.

* * * *

As an incentive to freshmen and freshettes who are interested in learning to play the pipes, a $25 prize has been set up. The competition will be judged by a committee appointed by the A.M.S. Instruction in both piping and drumming is being given by members of the Queen's Pipe Band.

The motif of the annual Medical At Home, held in Grant Hall on October 23, was "Salute to the R.C.A.M.C.," which is very close to the hearts of all men of medicine. The function was marked by a requested informality in the matter of dress, and all profits were turned over to the war effort. Morgan Thomas, "Canada's King of Sweet and Swing," supplied the music.

* * * *

Intensive Red Cross work is being carried on again this session by the members of Levana. The girls are busy from two to five every afternoon except Saturday and Sunday, in the Red Cross rooms in the Old Arts Building.

* * * *

Continuing a policy introduced two years ago, the Arts Society has allocated to each freshman, a senior student who will act as guide, counsellor and friend in academic and extra-curricular activities.

* * * *

Stewart Webster, Arts '43, of Fort William, Ont., has been elected president of the Arts Society for the current year.

* * * *

The Drama Guild has arranged to produce two plays this session: *Arsenic and Old Lace* and *Distant Point*. The former is a comedy recently released for amateur production; the latter is a Russian play by the brilliant young dramatist, Alexander Afinogenov, who was killed in a German air raid on Moscow.

* * * *

The common room at Ban Righ Hall is to be open every second Sunday evening during the session to the whole student body. The object of the "open house," which is entirely informal, is to give an opportunity to the students, men and women, to discuss among themselves and with members of the staff current events, campus doings and personal problems. A sing-song is to be a regular feature. There was an attendance of more than 200 on the first evening.

* * * *

About 500 students and alumni were present at the Convocation dance, held in Grant Hall on the evening of October 17 under the auspices of the General Alumni Association.

## Athletics

WITH the continuance of the ban on Intercollegiate sports, athletics at the University are confined again this session to intramural and local competition.

* * * *

At the annual interfaculty track and field meet, under the able guidance of Bob Seright, Sc. '31, the new coach, a record was established in the number entered in nearly every event. Sc. '45 won the meet, beating out Sc. '44 and Med. '47. Stuart Clarke, Sc. '44, of Windsor, and Donald Moreton, Sc. '45, also of Windsor, tied for the individual championship, with three firsts and a second each.

* * * *

The Queen's All Stars, under the tutorship of Bob Elliott, Arts '32, swept the Kingston City football league, without losing a game and without being scored on except in the last fixture. Vimy Officers, Vimy Other Ranks, Ordnance Training Centre and Ordnance Headquarters were the other entries in the league.

* * * *

Two hundred and forty entries were received for the men's intramural tennis tournament, which has now progressed into the quarter finals. Fine weather during the last month has kept the courts unusually busy.

* * * *

Among the co-eds, tennis, track, softball, basketball, archery and swimming (with life-saving instruction) have been the chief athletic activities to date.

* * * *

In the tennis singles, Miss Dorothy Mills, '45, Ottawa, defeated all comers. The doubles competition is still to be completed.

* * * *

At the girls' track meet, Miss Anne Shaw, '44, of Aylmer, Ont., shattered by 15 inches the Queen's women's record for the running broad jump when she cleared a distance of 14 feet, 11 inches. Miss Betty Wellington, '45, Port Arthur, broke another record by topping 4 feet, 3¼ inches in the high jump. Miss Wellington also won the 100-yard dash and the shot-put.

# AT THE BRANCHES

## Toronto

THE luncheon group of the Toronto branch held its first meeting of the current season at the Prince George Hotel on November 2. The speaker was Dr. Walter T. Brown, chancellor and president of Victoria University, who spoke on the subject, "Are Our Universities Essential in Wartime?"

Dr. Brown gave a most interesting address on the merits of a liberal arts education and the value of education to a free people.

The next meeting of the group, of which A. J. Strain, Sc. '25, is this year's chairman, will take place at the Prince George Hotel on December 7, when Mr. R. S. Frost, Toronto representative of the Wartime Bureau of Technical Personnel, will speak on "National Selective Service and the University Graduate."

The annual meeting of the Toronto branch, in the form of an informal dinner, is being held at Eaton's Round Room at 6.30 p.m., November 13. Principal Wallace is to be guest speaker.

## Regina

MRS. G. R. DOLAN (Mabel Taylor), Arts '03, entertained at a delightful luncheon late in September in honour of Mrs. Murdoch MacKinnon (Lilian Vaux), Arts '03, and Mrs. Harvey Campbell (Grace Grant), Arts '15. Other guests included Mrs. R. J. MacDonald (Mary Macfarlane), Arts '07, Miss Don Cathro, Arts '05, Mrs. L. M. Outerbridge (Christine Martyn), Arts '25, and Mrs. J. W. D. Farrell (Retta Cotton), Arts '13.

High tributes were paid to the two special guests, both of whom had won a place of distinction in the realm of Canadian literature. Mrs. MacKinnon's delightful story, *Miriam of Queen's,* was remembered with interest and pride, while Mrs. Campbell received many compliments on the recent publication of her excellent romantic novel, *Thorn-Apple Tree.* It was recalled that both Mrs. Campbell and Mrs. MacKinnon had won the gold medal in English literature in their respective years while at the University.

## Peterborough

CANDLES in Queen's colours and autumn fruit in the same tones lent a gala air to the annual dinner of the Peterborough branch, held at Hooper's Tea Room on the evening of Friday, October 30, with Dr. W. E. McNeill, vice-principal and treasurer of the University, as special speaker. The guests, who numbered more than fifty, were received by Dr. C. M. Scott, Arts '12, Med. '14, president of the branch, and Mrs. Scott (Katherine McNabb), Arts '17, and by Dr. and Mrs. McNeill.

MISS BURGESS

Speaking on the subject, "Have You Anything to Declare?", Dr. McNeill asked his listeners to imagine the end of life as a customs barrier at which they must declare those qualities of heart and mind which they had acquired throughout a lifetime. He showed how wide, diversified and intensive reading had enabled not only men of letters but practical men of affairs to see life fairly and as a whole. He urged his audience to enter into the great heritage of English literature and to make its treasures their own.

Dr. McNeill was introduced by Miss Alexandria Howson, Arts '09, and was thanked for his most excellent address by E. R. Shirley, Sc. '12.

During the course of the evening, college songs led by Arnold Noftall, Arts '41, with Miss Musa Cox at the piano, were much enjoyed; and Mrs. McNeill, formerly dean of women at the University, was presented with a beautiful bouquet of roses, the gift of her "old girls."

Officers for the coming year were elected as follows: honorary president, Dr. Scott; president, Miss Verna Burgess, Arts '36; vice-presidents, G. R. Lawlor, Arts '02, and V. R. Henry, Arts '13; secretary, Miss Fern Rahmel, Arts '40; associate secretary, Amelia Thompson, Arts '22; treasurer, Arnold Noftall; chaplain, Rev. William McDonald, Arts '99, Theol. '01; executive committee—R. G. Corneil, Sc. '23, Helen McGregor, Arts '30, C. M. Krug, Arts '37, Percy Windrim, Arts '41, and Dr. W. J. Gordon, Med. '32.

## Montreal

A. F. WHITE, Sc. '27, eastern division toll cable superintendent of the Bell Telephone Company, was elected president of the Montreal branch at the annual meeting held in the Ritz Carlton Hotel on October 20. The retiring president, G. R. Maybee, Sc. '25, Arts '27. was in the chair.

Other officers elected for the coming year were: first vice-president, R. A. Blakely, Sc. '28; second vice-president, G. V. Roney, Sc. '26; secretary, P. G. Cranston, Sc. '29; treasurer, J. M. Courtright, Sc. '40; committee—J. R. Bain, Sc. '28, H. B. Elliott, Sc. '28, G. V. Knowles, Sc. '39, C. W. McDougall, Com. '38, E. M. Patton, Arts '26, Rev. H. J. Rodney, Arts '27, H. H. Snyder, Sc. '26, and L. C. Williams, Sc. '32.

On completion of the business part of the meeting, E. T. Sterne, Sc. '13, chemicals controller for Canada, told about his trip by aeroplane from England to India in 1939, just prior to the war. His description, illustrated by coloured moving pictures, of the many places he visited *en route* and of his travels and experiences in India was most interesting.

# WITH THE ARMED FORCES

## Casualties

PILOT OFFICER ARTHUR DOUGLAS WALKER, Arts '43, star rugby player in Queen's last senior Intercollegiate football year, is reported missing and believed killed on a flight to Germany. He was navigator of a four-engine Lancaster bomber and had taken part in more than a dozen raids on important German targets since he began his operational flights four months ago.

"Art," as he was popularly known, was born in Toronto twenty-one years ago, the son of Mr. and Mrs. Sylvester Walker. He graduated from Bloor Collegiate Institute before entering Queen's, where he was an outstanding member of both the senior rugby and basketball teams. He left the University in 1940, after his first year, to enlist in the R.C.A.F. and won his observer's "O" at MacDonald, Manitoba.

* * * *

Capt. R. R. Laird, Med. '37, and Lieut. John Dargavel, Sc. '35, who were reported in the October *Review* as missing after the Dieppe raid, are now known to be prisoners of war. Captain Laird, who was seriously wounded in action, is now reported well on the way to recovery. He lost his right leg at the knee and also suffered a broken shoulder and hip.

## Honours

FOR conspicuous gallantry in the face of the enemy at Dieppe, Captain Donald Fraser MacRae, Arts '29, has been awarded the Military Cross. The citation covering the award reads as follows:

> "Captain MacRae, of Cornwall, was attached to the Essex Scottish Regiment during the action at Dieppe on August 19, 1942, and was the only officer of this unit who returned from the shore landing. He displayed great coolness and courage throughout the engagement, and at great risk to himself moved from place to place leading and encouraging groups of men who were being held up by the extremely heavy enemy fire. Subsequently, although himself wounded early in the raid, Captain MacRae dragged several wounded men through the fire-swept beach area to the water's edge. Finding a small abandoned craft he lifted the wounded into the boat and, swimming himself, pushed it two miles through the water, at which point he was rescued with his party. His leadership, coolness and resolution set a fine example to the men during the operation and in the withdrawal saved several valuable lives."

Captain MacRae was commissioned with the Queen's Contingent, C.O.T.C., in March, 1928. After leaving the University, he was employed for a number of years with the Howard Smith Paper Mills at Cornwall. In 1938 he joined the Stormont, Dundas and Glengarry Regiment, of which he was appointed adjutant in September of the following year. In 1940 he was promoted to the rank of captain and appointed Brigade Intelligence Officer. Shortly afterwards he went overseas, returning to Canada to attend a staff course at the Royal Military College in 1941. Last fall he went back to England.

* * * *

Sub-Lieutenant Andrew A. Wedd, Arts '44, has been awarded the Distinguished Service Cross for "gallantry, daring and skill in the combined attack on Dieppe." Details of the exploit have not yet been released by the British Admiralty, but it is known that he was in command of landing barges on the main beach at Dieppe and was wounded by shrapnel while dressing the arm of a wounded sailor. He continued to navigate his craft and, upon returning to the mother ship, was ordered to take another party ashore. After he had completed this operation he returned and had his own wound dressed.

Sub-Lieutenant Wedd was born in Toronto and, after graduating from Upper Canada College, entered Queen's in 1940. He left the University at the end of his first year to enlist in the Royal Canadian Naval Volunteer Reserve. In January, 1942 he went overseas on loan to the Royal Navy. He is the first member of the Canadian Navy to win the D.S.C.

Captain William Henry Finch, Sc. '42, who left Queen's at the outbreak of war to join the Royal Canadian Corps of Signals, was mentioned in despatches for gallantry at Dieppe. Captain Finch was born in Kingston and attended Victoria Public School and the Kingston Collegiate Institute before entering the University in 1938. He went overseas in August, 1940, as a wireless officer and served at Dieppe with the Headquarters Company.

## Service Notes

CAPT. RONALD B. MURRAY, Med. '35, veteran of the Dieppe raid, was accorded a civic reception when he returned to Kingston on October 16. Brigadier F. Logie Armstrong, officer commanding M.D. No. 3, together with the Mayor of the city were at the station to welcome him on his arrival, and the band of the Royal Canadian Corps of Signals participated in the ceremony. Captain Murray had been overseas with the R.C.A.M.C. for the past two years. His wife, formerly Helen Mylks, Arts '33, has been living in Kingston during that time.

* * * *

Sub-Lieuts. N. A. Grandfield, G. N. C. Rivington, W. J. Smith, D. L. Smith, of Sc. '42, W. D. Alford, Sc. '41, and W. G. Ward, Sc. '35, were members of a group of Royal Canadian Volunteer Reserve (special branch) officers which recently completed a course at a famous Royal Naval establishment in Great Britain with the highest class standing on record—an average of 83 per cent. The previous record was 71 per cent. Sub-Lieut. Grandfield, who was president of the Engineering Society last year, obtained the highest individual marks ever given.

* * * *

Lt.-Col. Stuart Polson, Arts '05, Med. '10, formerly at Petawawa, Ont., has taken up his new duties as head of the military hospital in Regina, Sask.

* * * *

Major H. G. Conn, formerly of the mechanical engineering staff at Queen's, is at present in England, where he is taking a course at the Royal College of Military Science.

**AW2. JEAN C. CAMERON, ARTS '34**
**Of the R.C.A.F.(W.D.), No. 6 Manning Depot, Toronto, receiving scroll of honour for highest standing in Motor Transport Section. Air Vice-Marshal G. O. Johnston, M.C., head of No. 1 Training Command, making presentation.**

PO. C. A. McRoberts, Sc. '35, of the R.C.A.F., received his Observer's badge at Rivers, Man., last January and his commission at the same time. He went overseas early in March to take operational training with the R.A.F. He is now serving with a bomber crew.

* * * *

Major R. C. Burr, Med. '32, has been officer commanding No. 1 (R) Field Ambulance, R.C.A.M.C., since the reserve unit went on active service last spring. Other officers include Lieut. S. S. Robinson, Med. '33, Lieut. Edwin Robertson, professor of obstetrics and gynaecology at Queen's, and Lieut. G. W. Mylks, Arts '27, Med. '29.

* * * *

After joining the Army in February, 1940, M. B. MacLachlan, Arts '14, served with the Adjutant General's branch with the rank of captain until March, 1942. He was then transferred to the General Staff branch in the Directorate of Military Operations and Planning and promoted to the rank of major.

AW1 Barbara Gowans, Arts '35, is attached to No. 110 R.C.A.F. (Women's Division), at Camp Borden, where she is one of fifteen airwomen equipment assistants employed at No. 1 S.F.T.S.

* * * *

Capt. A. C. Cluff, Sc. '36, is now attached to the meteorological office, H.Q. Canadian Corps, Canadian Army Overseas.

* * * *

Major Travers Rooney, Sc. '26, has been appointed district engineer officer for Military District No. 10, Winnipeg. He was transferred recently from a similar post at M.D. No. 3, Kingston.

* * * *

A. S. Lockley, Arts '41, enlisted last August in a chemical warfare unit as a first lieutenant. He is at present doing research in C.W. Labs., Research Unit, Queen's University.

## Canadian Forces

BELOW is the twenty-ninth in the series of monthly lists of Queen's alumni who have joined some branch of His Majesty's forces:

Royal Canadian Air Force—FO. G. C. Beacock, Med. '41; PO. Morgan Brown, Com. '30; Flt. Lt. B. M. Connolly, Med. '40; C. A. Huculak, Sc. '45; AC2. H. R. Jarrett, Sc.' 40; PO. J. S. Johnston, Sc. '41; E. Kautto, Sc. '45; AC2. H. F. Philbrick, Arts '39; R. T. Roth, Sc. '45; PO. W. B. Sargent, Sc. '37; Cadet H. M. Steckley, Sc. '45; AC2. Justin Sullivan, Arts '43; PO. Melville Thompson, Arts '38; Flt. Lt. J. A. Thomson, Med. '41; Flt. Lt. D. W. Whyte, Med. '40; FO. N. L. Williamson, Med. '42; PO. S. C. Yule, Sc. '32.

Royal Canadian Ordnance Corps—Lieut. J. L. Forrest, Sc. '40; 2/Lt. Hugh Gibson, Arts '37, Com. '38; Lieut. D. H. Leckie, Sc. '39; Lieut. E. W. Parker, Sc. '42; 2/Lt. A. S. MacLaren, Arts '37.

Royal Canadian Naval Volunteer Reserve—Sub-Lt. A. H. Anderson, Sc. '42; Surgeon Lieut. J. W. Clark, Med. '41; Sub-Lt. E. C. Connolly, Com. '37; Surgeon Lieut. Malcolm Dingwall, Med. '40; Lieut. H. W. Little, Sc. '32; Surgeon Lieut. T. M. McLennan, Med. '32; Sub-Lt. H. F. Morrow, Arts '40; J. K. Parrish, Sc. '45; Lieut. G. R. Taylor, Arts '27; Surgeon Lieut. W. L. Teskey, Med. '40; Sub-Lt. Hector Tetu, Sc. '42.

Royal Canadian Artillery—2/Lt. J. D. Bie, Sc. '41; Lieut. B. J. Champagne, Arts '42; Lieut. G. M. Ingersoll, Com. '30; Lieut. J. D. Williams, Com. '42.

Royal Canadian Army Medical Corps—Capt. C. F. Agro, Med. '41; Capt. W. M. Byers, Med. '41; Capt. J. B. Cramer, Med. '28; Capt. C. P. Green, Med. '40; Capt. E. C. Hoodless, Med. '41; Capt. J. G. McBroom, Med. '34; Capt. M. J. O'Connor, Med. '34; Capt. J. O. Patton, Med. '40; Capt. (QM) E. S. Smyth, Sc. '12; Capt. R. J. Wilson, Med. '41.

Royal Army Medical Corps—Capt. George P. Nash, Med. '32.

Royal Canadian Engineers—Lieut. J. D. Allan, Sc. '40; Major D. C. MacMillan, Sc. '38; 2/Lt. P. S. Teare, Sc. '37; Lieut. E. P. Thompson, Sc. '31.

Royal Canadian Army Service Corps—Lieut. S. G. K. Ault, Arts '41; Lieut. W. H. Craig, Arts '37; Lieut. S. G. Keyes, Arts '41.

Royal Canadian Corps of Signals—Lieut. K. N. Bodkin, Sc. '39; 2/Lt. W. W. Finlay, Sc. '43.

Infantry—Capt. R. N. Bissonnette, Arts '21; 2/Lt. K. C. Corbett, Arts '43; Lieut. J. C. Pattinson, Arts '37; Lieut. J. H. Wright, Arts '42.

Royal Canadian Army Pay Corps—2/Lt. J. C. D. Blaine, Com. '34.

Canadian Women's Army Corps—Pte. Frances Clarke, Arts '40.

## United States Services

LAST month the *Review* published the complete list of Queen's Alumni who were known to be serving with the U.S. forces. The following names have been sent in since that time:

Hayunga, George E., Jr., Med. '40, captain in the U.S. Army Medical Corps.

Thompson, Walter A., Med. '29, major in the U.S. Army Medical Corps, stationed at Fort Sam Houston, San Antonio, Texas.

Cunningham, J. J., Med. '40, 1st Lieut. in U.S. Army Medical Corps, stationed at MacDill Field, Tampa, Florida.

# ALUMNI NEWS

## Births

**Broadbent**—On October 31, at the Private Patients' Pavilion, Toronto General Hospital, to Alan Broadbent, Arts '29, Com. '36, and Mrs. Broadbent, a daughter.

**Davies**—At the General Hospital, Peterborough, Ont., on October 16, to Robertson Davies, Arts '36, and Mrs. Davies, a daughter.

**Demers**—On October 25, to Charles E. Demers, Sc. '41, and Mrs. Demers, Montreal, a daughter.

**Garlough** — At Williamsburg, Ont., on July 30, to Mr. Wilburn M. Garlough and Mrs. Garlough (Hilda Merkley), Arts '38, a son (Gordon Edward).

**Gummer**—At Arvida, Que., on November 5, to Dr. W. K. Gummer, Arts '37, and Mrs. Gummer, a son.

**Hay**—At the General Hospital, Kingston, on October 20, to Dr. W. D. Hay, Arts '14, Med. '16, and Mrs. Hay (Edna Saunders), Arts '24, a son.

**MacDonald**—At the Hotel Dieu Hospital, Kingston, on October 11, to Lieut. John A. MacDonald, Sc. '40, and Mrs. MacDonald (Joan Welch), Arts '40, a daughter.

**McEwen**—At Vermillion, South Dakota, on September 26, to H. Douglas McEwen, Arts '26, and Mrs. McEwen, a daughter (Mary Jean).

**MacKay**—At Palo Alto, Calif., on September 29, to Dr. Donald C. G. MacKay, Arts '29, and Mrs. MacKay, a daughter.

**Macpherson**—At the Kingston General Hospital, on October 14, to D. C. Macpherson, Sc. '24, and Mrs. Macpherson (Alma Smith), Arts '26, a son.

**Orwell**—At the Royal Victoria Maternity Hospital, Montreal, on October 30, to A. E. Orwell, Sc. '30, and Mrs. Orwell, twins, a boy and a girl.

**Patterson**—In the General Hospital, Lachine, Que., on October 29, to Rev. J. W. Patterson, Arts '28, Theol. '31, and Mrs. Patterson, a daughter.

**Pattinson**—On October 9, at the General Hospital, Niagara Falls, Ont., to Lieut. J. C. Pattinson, Arts '37, and Mrs. Pattinson, a daughter (Sandra Jean).

**Stanyar**—At the Ottawa Civic Hospital, on November 3, to S. B. Stanyar, Arts '33, and Mrs. Stanyar, a daughter (Suzanne Clare).

## Marriages

**Batchelder**—On September 11, in Hamilton, Ont., Olive C. Tufford to Nelson Franklin Batchelder, Arts '37.

**Battista**—On September 19, at St. Raphael's Church, Outremont, Que., Sylvia Mary Costello to Nicholas I. Battista, Sc. '33. They are living at 331 Cumberland St., Apt. 8, Cornwall, Ont.

**Brunton**—On October 29, in Gananoque, Ont., Mary Laird Black McDonald to Donald Charles Brunton, Sc. '40. PO. Norman Alcock, Sc. '40, was best man.

**Bowles**—In Southminster Church, Ottawa, on October 31, Mona Barbara LeDrew Butler to Kenneth William Thorne Bowles. Sc. '31.

**Clark**—On August 19, Hilda Shaver, only daughter of Rev. T. P. Shaver and Mrs. Shaver, Campbell's Bay, Que., to George Howard Clark, Arts '32, Simcoe, Ont.

**Conner-O'Grady**—In St. James Chapel, St. Mary's Cathedral, Kingston, on November 7, Aileen O'Grady, Arts '38, daughter of the late John L. O'Grady, Arts '14, and Mrs. O'Grady (Etta Grimshaw), Arts '15, to Lieut. John Wayne Conner, R.C.A., Arts '41. The bride was given in marriage by her brother, Arthur O'Grady, Com. '37, and the matron of honour was Mrs. J. J. Clarke (Julie O'Grady), Arts '42, sister of the bride. Miss Doris Anglin, Arts '38, was bridesmaid, and Lieut. William Sproule, Arts '42, was best man.

**Dimmock**—At the home of the bride's parents, Kingston, on November 7, Anne Margaret Ferguson to Archie T. Dimmock, Sc. '40, Copper Cliff, Ont.

**Flay**—On October 3, at St. Matthais Church, Ottawa, Ethel Elizabeth Howard to Flt. Lt. William Jackson Flay, R.C.A.F., Med. '41.

**Fokes**—On October 10, in the United Church, Shawville, Que., Ethel L. Smart to LAC. Harold Prescott Fokes, R.C.A.F., Arts '40, Trenton, Ont.

**Grant**—On October 15, at the home of the bride's parents, Sydenham, Ont., Marjorie Grant, Arts '36, to PO. Acton Daunt, R.C. A.F.

**Gratton-Meagher**—On October 19, in St. Mary's Cathedral, Kingston, Mary Catherine Meagher, Arts '34, to Albert Edward Gratton, Arts '36. The bridesmaid was Katherine Keenan, Arts '27. They are living in Cornwall.

**Howe**—On October 10, in Calvary United Church, Montreal, Laura Frances Millay, Derby Line, Vermont, to Harold Bertram Howe, Sc. '36.

**Kinsey**—Recently in the sacristy of the Church of the Guardian Angels, Orillia, Ont., Bernadine Ann Reardon to Harold Victor Kinsey, Sc. '36.

**Little**—On October 3, in the chapel of St. Stephen's Theological College, Edmonton, Alta., Vera Margaret Brunton to Rev. Alexander Milton Little, Arts '41.

**Milne**—In the rectory of St. Malachy's Church, Montreal, on November 10, Gladys Elizabeth Milne, Arts '29, to John Andrew McCrindle, 2nd Battalion Black Watch (R.H.R.) of Canada, Sussex, N.B.

**Miron**—On October 23, at St. Andrew's Manse, Kingston, Jean Isabel Dennee to Ernest Joseph Miron, Sc. '42, Sudbury, Ont.

**Morton**—Recently, in the chapel of Deer Park United Church, Dorothy Morton, Arts '32, to John Griffith Beatty, Hamilton, Ont.

**Poole**—On October 17, at the home of the bride's parents, Toronto, Mary Helen Carson to George Robertson Poole, Arts '34.

**Pugsley**—On June 20, in St. Mark's Anglican Church, Valleyfield, Que., Margaret Baron to Robert L. Pugsley, Sc. '38.

**Roddick**—Recently, in India, Joan Phillips, of Oxford, England, to Capt. John Ewart Roddick, R.C.A.M.C., Med. '38. The bride is a nursing sister in her husband's unit.

**Simonton**—On October 7, in Deer Park United Church, Toronto, Emily Ruth Irving to Joseph Gilliland Simonton, Com. '40.

**Stollery-Gordon**—On October 24, in Bloor Street United Church, Toronto, Helen Scott Gordon, Arts '39, to LAC. Arthur Wilfred Stollery, Sc. '39.

**Teare**—On July 11, in St. Mark's Church, Peterborough, Ont., Muriel Gillard, Toronto, to Lieut. Philip Sidney Teare, Sc. '37.

**Thomson**—On October 31, in Queen St. United Church, Kingston, Evelyn Maude Lee to Flt. Lt. John Andrew Thomson, Med. '41. They will live in Guelph, Ont., where the groom is a medical officer at No. 4 Wireless Training School, R.C.A.F.

**Whittington**—In the Presbyterian Church, Centreville, Ont., on October 4, Muriel Marguerite Whittington (extramural) to Pilot Officer Robert G. McMichael.

**Wilson**—In Runnymede United Church, Toronto, on October 3, Margaret Patricia Worden to Harold Chris Wilson, Sc. '38, Peterborough, Ont.

**Williamson**—On October 31, in Trinity Church, Watford, Ont., Verlie Dorothy Williamson, Arts '28, to Allen Thomas Dodds, Montreal.

## Deaths

**Dewar**—One of the best-known members of the classes of Science '11 and '12, Major Duncan Fraser Dewar, M.C., died in the general hospital at Lindsay, Ont., on October 7. He had been in ill health for two years. "Dunc" Dewar was born in Pembroke, Ont., in 1887, and received his preliminary education there, entering Engineering at Queen's in 1907. While at the University, he was an outstanding boxer, winning Intercollegiate championships in both the lightweight and welterweight classes. After graduation with his B.Sc. in mining in 1912, he joined the city engineer's staff at Edmonton, Alta., where he was in charge of tunnelling operations for trunk sewers until the outbreak of the last war. In the spring of 1915 he went overseas as a private in the Sixth Field Company, Canadian Engineers. In France he had a distinguished record, rose to the rank of major, was awarded the Military Cross, and was mentioned three times in despatches. Upon his return to Canada in 1919, he entered highway construction work, and was associated with the Curran and Briggs Construction Company, Toronto, from 1923 until the early thirties. He then became a partner in the Harvey Construction Company of Kingston, with which firm he was connected until his death. His wife, two sons and four sisters survive.

**Carr**—Secretary-treasurer of the Dominion Association of Chartered Accountants for the past eleven years and editor of the "Canadian Chartered Accountant," Austin Hope Carr, B.A. '25, M.A. '30, died suddenly at his home in Toronto on October 26. He was in his fifty-fourth year. Born at Summerside, P.E.I., Mr. Carr received his primary education there and later graduated from Prince of Wales College and the normal school at Charlottetown. In 1909 he went to Alberta where, after a short period on the staffs of both rural and city schools, he was appointed principal of the Calgary Night School of Commerce. He also served as president of the Calgary Teachers' Alliance and of the Alberta Educational Association. In 1922 he came to Queen's as director of extension and remained in this position until 1931. During this period he also did work in economics and history towards his B.A. and M.A. degrees. In addition, he held the degree of Chartered Accountant from the Institute of Chartered Accountants. Surviving are his wife; one son, G. K. Carr, Arts '37, Com. '39; and two daughters.

A. H. CARR

**Flynn**—Stricken suddenly in his forty-fifth year, Dr. Richard A. Flynn, Med. '23, died at his home in Belleville, Ont., on October 8. For a period of eleven years, he had served his community well in an extensive practice. Dr. Flynn was born in Langdon, North Dakota, but later resided in Erinsville, Ont. He obtained his higher education at Regiopolis College, Kingston, and later at Queen's, which he entered in 1918, graduating with his M.D.,C.M. degrees in 1923. In Belleville, he was a past president of the Kiwanis Club, a director of the Holy Name Society and the Knights of Columbus, and a member of St. Michael's Church. Surviving are his widow, four daughters, one son, his mother, three sisters and one brother.

**Gibson**—A member of the Medical staff at Queen's for thirty-five years and one of Kingston's best-loved physicians, Dr. William Gibson, Med. '04, passed away in the Hotel Dieu Hospital on October 2 after an

extended illness. The late Dr. Gibson was born on Amherst Island, near Kingston, sixty-three years ago. He entered Queen's from the high school at Newburgh, Ont., and graduated with his M.D.,C.M. degrees and the gold medal in surgery in 1904. His subsequent career in the practice and teaching of medicine is outlined elsewhere in this issue in a fitting tribute by his old friend, Dr. F. J. O'Connor, of Med. '06. Dr. Gibson is survived by his wife; five sons, including Flt. Lt. J. E. Gibson, Arts '37, Med. '40, Lt. H. F. Gibson, Arts '37, Com. '38, William Gibson, Arts '45, and Desmond Gibson, Sc. '46; two daughters, one of whom is Miss Rose Mary Gibson, Arts '34; one brother; and one sister.

**Hodges**—For over forty years an active minister in the United Church, Reverend James Hodges, Arts '92, died on September 27 at the age of seventy-seven in Toronto, where he had been living since his retirement. Mr. Hodges came to Canada from County Antrim, Ireland, in 1885, and lived at Forrester's Falls, Ont. He graduated from Queen's in Arts and Theology in 1892, having previously attended McGill University for two years, and was then ordained a minister of the Presbyterian Church in Canada, which office he filled until Church Union in 1925. His first charge was in Tilbury. Four years later he became minister of St. Andrew's Church, Oshawa, where he remained for fourteen years. He then answered a call to Minnedosa, Man., and after this ministry went to Winnipeg, remaining until 1934. Upon his retirement eight years ago, Mr. Hodges took up residence in Toronto. He became a member of Eglinton United Church there. Surviving are his wife, a son (overseas), and a daughter.

**Low**—An outstanding explorer and geologist, Albert Peter Low, LL.D., '08, died in Ottawa on October 9 at the age of eighty-two. Thirty years ago Dr. Low, although of strong constitution, suffered a stroke while on an exploration trip on the "Neptune" and had been an invalid since that time. After graduation from McGill University in 1881, he joined the Canadian Geological Survey, and upon his retirement in 1912 he held the post of deputy minister of mines. For seven years, beginning in 1892, he was engaged in exploring the Labrador Peninsula and surveying the northern boundary of Quebec. In 1900 he had charge of the Dominion's mineral exhibit in Paris. The next two years were spent in investigating the extensive iron deposits on Hudson Bay. In 1903 the expedition to take possession of the Arctic Islands for Canada was under his able command. He was honoured for his scientific services by high offices in the Geological Society of America and the Canadian Forestry Association. Dr. Low was the author of numerous geological reports that are considered models of their kind. He is survived by one daughter.

"I'D GALLOP MILES FOR A SWEET CAP"

SWEET CAPORAL CIGARETTES

*"The purest form in which tobacco can be smoked"*

**Macarow**—At the venerable age of eighty-three, Mary Emily Bermingham, M.D.,C.M., widow of Philip Henry Macarow, died in the Hotel Dieu Hospital, Kingston, on October 4. Mrs. Macarow was a member of the small group who graduated in the eighties and nineties from the Women's Medical College at Queen's, the first institution of its kind in Canada. She had been in poor health for some time. Mrs. Macarow was born in Port Hope, but received her education at the Ursuline Convent in Quebec City. Entering Queen's in 1887, she graduated in Medicine in 1892. Shortly thereafter, she married and lived for sometime in Kingston before moving to Ottawa thirty years ago. Surviving are one son, Philip D. Macarow, Arts '18, Montreal, one brother and one sister.

**Macarthur**—The death occurred in Toronto on October 4, of Kenneth Dickson Macarthur, M.A. '25, who came to Queen's from the University of Alberta to do postgraduate work in history and economics. Mr. Macarthur was born in Princeton, Ont., in 1884, but lived at New Brigden, Alta., for some years. In 1929, he received his specialists' certificate for teaching, and was later on the high school teaching staff at Port Colborne, Ont. He is survived by his wife.

**McKee**—Assistant professor of chemistry at Queen's from 1918 to 1921, when he resigned to join the chemistry staff of the Royal Military College, Dr. James Lyttle McKee died in Kingston on October 8 at the age of sixty-five. He had been in poor health for several years. A native of Northern Ireland, Dr. McKee was a graduate of Queen's University, Belfast, of Freiburg University in Germany, and of the National University of Ireland. He taught at University College, Cork, Ireland, and at Mount Allison University, Sackville, N.B., before coming to Queen's after the last war. At the R.M.C. he became head of the science department in 1934. He is survived by two sisters and two brothers.

## Notes

### 1900-1909

G. C. **Bateman**, Sc. '05, metals controller for Canada, and **F. M. Connell**, Sc. '06, deputy metals controller, have been appointed to head the newly formed non-ferrous castings advisory committee of the Department of Munitions and Supply. Other members of the committee include **Norman McPhee**, Arts '20, Department of Mines and Resources, and **Prof. J. U. MacEwan**, Sc. '22, army engineer design branch, Department of Munitions and Supply.

C. **H. Bland**, Arts '07, chairman of the Civil Service Commission, recently made a two weeks' inspection tour of the four new branch offices opened in Western Canada to facilitate the commission's task of maintaining a supply of workers in war departments. The new offices are in Winnipeg, Regina, Edmonton and Vancouver.

**Rev. A. D. Cornett**, Arts '07, Theol. '11, was elected president of the Oshawa Ministerial Association last September. In October he was re-elected president of the Queen's Theological Alumni Association.

**W. A. Johnston**, Arts '03, Sc. '05, has moved from Campbellford to Brighton, Ont.

**T. A. McGinnis**, Sc. '08, Kingston, acted as chairman of the County of Frontenac division of the National War Finance Committee in connection with the third Victory Loan.

**Dr. G. G. McNab**, Arts '02, governor of the 168th district of Rotary International, addressed the Rotary Club of Toronto at a luncheon meeting held in the Royal York Hotel on October 30. Prior to the meeting he visited a special club assembly where he conferred with committee chairmen, past international officers and past presidents on the work and problems of the Toronto club.

**R. S. Smart**, K.C., Arts '07, member of the law firm of Smart and Biggar, Ottawa, has been appointed administrator of real property for the Wartime Prices and Trade Board.

**It is**

## 1910-1919

**Mrs. J. L. Connell** (Mabel Killins), Arts '17, who received the degree of Doctor of Dental Surgery from the University of Toronto in 1923 and practised in Calgary until her marriage in 1927, has since that time been practising at Prince Albert, Sask., with her husband, who is also a dentist.

**McLaren Ewart**, Sc. '10, formerly of Moose Jaw, Sask., is now general yard master for the Canadian Pacific Railway in Regina. Mr. Ewart's second son, **Dr. Douglas M. Ewart**, Med. '41, is a flight lieutenant in the R.C.A.F., attached to No. 32 S.F.T.S., Moose Jaw.

**Edgar H. Finlay**, Arts '20, is principal of the Finlay Engineering College at Kansas City, Mo.

**S. J. Fraser**, Arts '18, Kingston, has been appointed acting local representative of the Wartime Prices and Trade Board for Kingston and the counties of Frontenac, Lennox and Addington.

**Mrs. H. W. Gordon** (Nelida Vessot), Arts '17, lives at Weiser, Idaho, where her husband is Presbyterian minister. They have one daughter, Lucille, just finishing a course in nursing, and a son is his last year at "junior high."

**A. E. MacRae**, Sc. '14, consulting engineer and patent attorney, Ottawa, was re-elected president of the Patent Institute of Canada at the sixteenth annual meeting held recently in the Chateau Laurier, Ottawa.

**Emmett P. Murphy**, Sc. '10, has been appointed Deputy Minister of Public Works in the Dominion Government. Mr. Murphy has done engineering construction exclusively since he joined the former Department of Railways and Canals many years ago, and during the construction of the Welland Canal he held posts of senior assistant engineer, division engineer and later superintendent of operations. At the outbreak of war he became construction engineer with the Defence Purchasing Board, supervising building projects for the three Defence departments. Later he was appointed director general of construction for the Department of Munitions and Supply.

**Dr. Morley Sellery**, Arts '13, Med. '16, is chief medical officer of the Los Angeles Board of Education, with a staff of 250 doctors and nurses. He has two sons attending the University of California and a daughter completing high school.

**Dr. Bryce M. Stewart**, Arts' 11, has resigned his position as Deputy Minister of Labour in the Dominion Government and has returned to his duties with Industrial Relations Counsellors, New York City. Dr. Stewart was on loan to the Canadian Government in connection with the solution of important labour problems arising out of war conditions.

**Dr. Charlotte Whitton**, C.B.E., Arts '17, who recently completed a speaking tour of the Central and Pacific Coast States, is at present giving a series of lectures in Vic-

toria and Vancouver under the auspices of the extension department of the University of British Columbia. On her return journey at the end of November she will address a number of meetings in the Canadian West. Dr. Whitton is the author of a recently published pamphlet entitled "Canadian Women in the War Effort," which gives a clear and concise summary of the important work that the women in Canada are doing today.

### 1920-1929

**W. M. Armstrong**, Sc. '20, has been appointed assistant vice-president of the Canadian National Railways in charge of Canadian National Telegraphs, of which he will serve as general manager. He will take over his new position on December 1, with headquarters in Toronto. Mr. Armstrong joined the staff of the railway as an assistant engineer in 1920. Since 1939 he has been assistant chief of research and development.

**Miss Bertha Bassam**, Arts '22, Toronto, recently received her M.Sc. in library work at Columbia University, New York City.

**J. W. Dougherty**, Sc. '21, has been appointed by the civilian defense committee at Timmins, Ont., to direct an extensive air-raid precaution system in that city.

**Dr. Florence Dunlop**, Arts '24, has been appointed lecturer in child psychology at Carleton College, Ottawa. For several years she has been psychologist and supervisor of special classes in the Ottawa public schools and has published a number of articles dealing with her work.

**Mrs. J. E. Elviss** (Frances D. Smith), Arts '29, is living at 456 - 13th St., Brandon. Man. After leaving Queen's, Mrs. Elviss attended the University of Toronto where she received her M.A. degree in 1932.

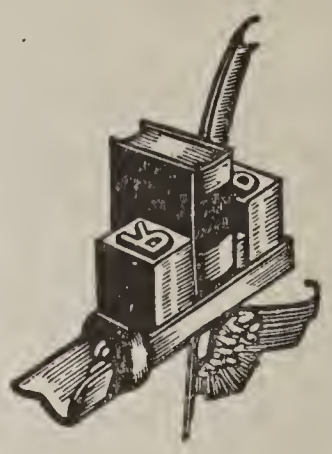

**Rev. D. K. Faris**, Arts '21, Theol. '24, missionary in China for many years, who was interned by the Japanese and repatriated on the "S.S. Gripsholm," recently addressed the members of First United Church, Ottawa, on conditions in China, with special reference to the need for education among the Chinese farmers. His talk was illustrated by moving pictures. Mr. Faris is planning to return to China after a lecture tour in British Columbia.

**Mrs. D. G. Geiger** (Goldie Bartels), Arts '22. Toronto, and **Sqdn. Ldr. C. O. Bartels**, R.C.A.F., Com. '27, were bereaved on October 3, by the death of their mother, Mrs. Oscar V. Bartels, Kingston.

**H. B. Hanna**, Sc. '24, is works manager of the Verdun plant of Defence Industries Limited, Verdun, Que.

**Dr. Ernest Hess**, Arts '25 (Ph.D. McGill), bacteriologist for the Fisheries Research Board of Canada, Halifax, N.S.. has been elected president of the Nova Scotian Institute of Science, one of the oldest scientific organizations in Canada. founded in 1862. He is also editor of the "Proceedings" of the Institute.

*NEW CANADIAN BOOKS*

***A HISTORY OF THE CANADIAN PEOPLE:***
***VOLUME 1, NEW FRANCE***

**By Morden H. Long.** In this important volume, Professor Long surveys the colourful history of the French Régime in the new perspectives afforded by the research of recent years. $3.50.

***DAVID AND OTHER POEMS***

**By Earle Birney.** "'David' is a superb story, dynamic in its feeling, musical in its elaborated metrics."—E. J. Pratt. $1.50.

***SALT MARSH***

**By Anne Marriott.** A new Ryerson Poetry Chap-Book by the author of *Calling Adventurers!* which won the Governor-General's Award in 1941. 75 cents.

***ANNE OF GREEN GABLES***
***ANNE OF AVONLEA***
***ANNE OF THE ISLAND***

**By L. M. Montgomery.** In the handsome new Canadian copyright edition, any one of the three Anne Books makes a perfect gift for a girl of eleven years or older. And the price is remarkably low. Each $1.49.

***THE PICTURE GALLERY OF CANADIAN HISTORY***

**By C. W. Jefferys.** "One of the most valuable books that has ever appeared on Canadian history."—C. T. Currelly. $2.00.

RYERSON

**Mrs. Cecil Merritt** (Grace Bone), Arts '35. of Vancouver, has been named by the British Columbia Conservative Association as a delegate to the National Conservative convention, which is to be held in Winnipeg in December.

**Miss Caroline Mitchell,** Arts '26, has been appointed to the staff of the Kingston District Dependents' Advisory Committee.

**K. G. Morgenroth,** Arts '29, is doing postgraduate work in education at the University of Saskatchewan.

### 1930-1939

**Douglas Argue,** Arts '36, has been appointed principal of the high school in Schumacher, Ont.

**G. A. Ball,** Arts '35, joined the staff of the Ottawa Gauge and Instrument Company last June as purchasing agent.

**Margaret Biehn,** Arts '38, has been with the biochemistry department of the Ontario Research Foundation, Toronto, since the spring.

**J. W. Brooks,** Sc. '39, structural designer for H. G. Acres and Company, Niagara Falls, Ont., is at present engaged in design of the Shipshaw power development for the Aluminum Company of Canada at Arvida, Que.

**George H. Clark,** Arts '32, has joined the staff of the high and vocational school at Simcoe, Ont.

**John Deutsch,** Com. '35, director of the research branch of the Bank of Canada, is on loan to the National Selective Service to take charge of the allocation of labour to essential industry.

**Lorne Green,** Arts '37, chief C.B.C. news announcer, has been named winner for the eastern time zone of the 1942 H. P. Davis Memorial announcers' award. He won this distinction on the basis of a recording of a C.B.C. national news bulletin broadcast. The Davis award was established in 1933 by Mrs. Davis, of Philadelphia, in memory of her husband, one of the fathers of broadcasting and a founder of station KDKA. Mr. Green brings this highly coveted honour to Canada for the first time.

**W. P. McCreary,** Arts '38, is on the staff of the continuation school at Blind River, Ont.

**Mrs. David W. McCullough** (Beatrice Yuill), Arts '36, is doing secretarial work at divisional headquarters, northern division, National War Finance Committee, North Bay, Ont. Her husband, Capt. D. W. McCullough, is overseas with the R.C.A.M.C.

**A. J. McDonald,** Sc. '36, is in England with the overseas unit of the Canadian Broadcasting Corporation. His work takes him to a great many Canadian units and has brought him into contact with a number of Queen's Alumni serving in the active forces.

**Mrs. A. G. MacPherson** (Sara Ethel MacDonald), Arts '31, wife of Captain A. G. MacPherson, Arts '31, now stationed as chaplain of the R.C.A.F. at Belleville, Ont., spoke on October 29 to the Rotary Club of Orangeville, Ont., on "Russia."

**Donald J. Woodside,** Arts '31, principal of the continuation school at Eganville, Ont., has been elected president of the Ottawa district Secondary School Teachers' Federation for 1942-43.

### 1940-1942

**Phyllis Gummer,** Arts '40, has been awarded a fellowship at the Juilliard School of Music, New York City. Miss Gummer, who has been studying at the Toronto Conservatory of Music for the past two years, will leave shortly for New York to continue her work. The Juilliard School is maintained for the purpose of teaching music composition rather than preparing students for music performance.

**Bruce Hay,** Sc. '40, was recently appointed general manager at Uchi Gold Mines, Uchi Lake, Ont. He was formerly chief engineer.

**Dr. J. C. Lapp,** Arts '40, who recently received his Ph.D. in French from Cornell University, has been appointed to the staff of the University of Illinois, Urbana, Ill.

**C. A. Park,** Arts '42, is doing postgraduate work in forestry and conservation at the University of Michigan, Ann Arbor, Mich.

**W. M. Stacey,** Arts '41, has been teaching in North Simcoe School, Oshawa, Ont., for the past six years.

**Dora Tottenham,** Arts '42, is assistant librarian at Aluminium Laboratories Limited, Kingston.

SPUN ROCK WOOL INSULATION
HEAT COLD SOUND

**SPUN ROCK WOOL**
(Reg'd.)

**A resilient, long-fibred insulation made from molten rock. Proof against Fire, Vermin, Vibration and Corrosion. Recommended for cold-storage; sound-proofing and acoustical treatments; all industrial purposes up to 1000 F. Made in standard forms for home insulation; exported in bulk form.**

**Spun Rock Wools Ltd.**

# ANOTHER BUILDER OF QUEEN'S

## DR. JOHN MACGILLIVRAY

By Alex. L. Harris, Arts '10

ONE day many years ago, shortly before the opening of college, I was standing in the New Arts Building, looking at the bulletin board, when a medical student came along and entered into conversation. Learning that I was an intending freshman, he began to question me about my plan of study; and when he found that I was expecting to go on with German, he exclaimed: "Oh, don't take that! It's the hardest subject in the University!"

However, in spite of this advice, I enrolled as I had previously decided. The transition from high-school work to that of the University was certainly abrupt and stiff. We started with texts imported from Germany, unprovided with notes or any vocabulary help; and although we had had little or no practice in the spoken language, we were expected to give answers in German.

It was a new experience and a new atmosphere with a vengeance; and with a teacher like Dr. Macgillivray, there was little possibility of "getting by" without proper preparation. I have often thought that if the approach had been more gentle, through texts edited in this country, we might have gained as much, with less pain to ourselves and with less irritation to the professor. At any rate, there is no doubt that by this method we did learn to make a close friend of the dictionary and to know the value of strict discipline. There were compensations, though: this was for only two classes a week in the first year; two others—much less severe—were taken by the assistant professor; and the tutor gave us one hour of scientific German. Naturally, as we progressed, we had more to do with Dr. Macgillivray. In honours, most of our work was with him.

Juniors and seniors were grouped together for the study of *Faust,* and here Dr. Macgillivray's power of invective came into play, even more than elsewhere. No doubt he sometimes thought we had not been giving the text due attention. But in reality several of the more sensitive students were almost paralysed by something akin to stage fright, so that their careful preparation did not show. The hapless individual who was called upon for a reply to some more or less philosophic question, not finding the German words ready to his tongue (perhaps not the English, either!) and feeling himself singled out for special consideration, was apt to flounder around badly. Then the professor would glare at him (or her) over the top of his spectacles and give vent to his feelings by some remark in German.

I think that no one who was in the *Faust* course could ever forget that line in the prologue, *"Für einen Leichnam bin ich nicht zu Haus."* ("I have no dealings with a corpse.") This was one of Dr. Macgillivray's favourite quotations and he used it with telling effect. He preferred these classic expressions. More homely ones, such as *"stumm wie ein Fisch"* ("dumb as an oyster"), were rather reserved for "pass" (first- and second-year) students.

In those days Dr. Macgillivray wore a moustache and pointed beard and, behind his back, some of the more irreverent students referred to him as "Mephisto." I believe he was aware of this and, with a certain grim humour, even enjoyed the

---

Dr. A. L. Harris graduated from Queen's with his M.A. degree in French and German in 1910. During his course he won the Roughton prize and the Alexander medal in German. Immediately upon graduation he joined the modern languages department at Hobart College, Geneva, N.Y., and became professor in this department in 1919. He received his Ph.D. at Queen's in 1930; the subject of his doctorial dissertation was *"Das Voltairische ïm Mephistopheles."*

appellation. Like his famous prototype, his aim was to destroy inertia, to galvanize into action; and with his tall, thin, bony frame and the fire in his eye, he could vividly suggest the part.

Yet, beneath that dour exterior was a really kindly heart, and

". . . . . if severe in aught,
The love he bore to learning was in fault."

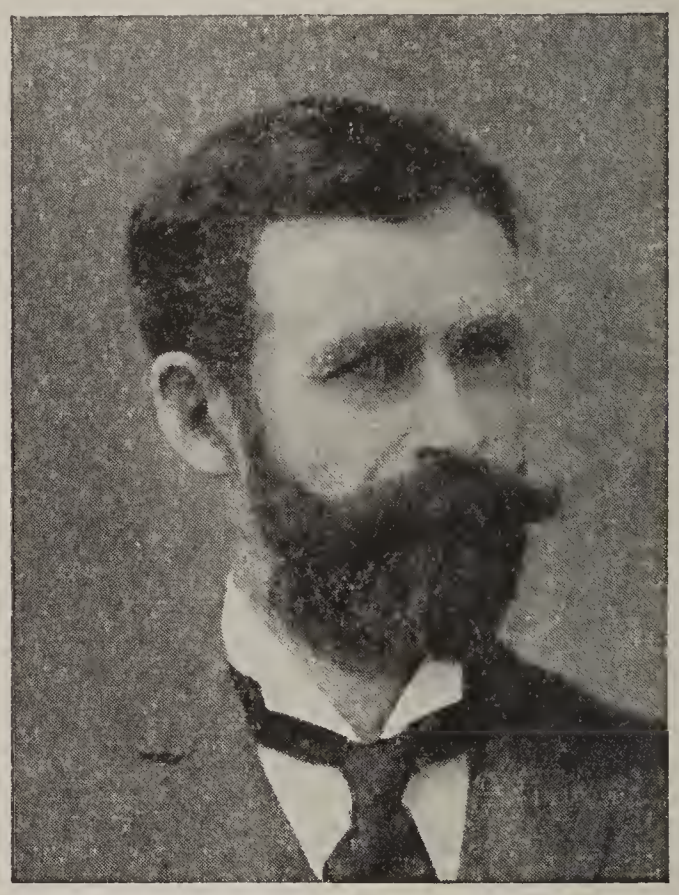

For he had an insatiable thirst for knowledge. It is hard to read the words which Lessing's school principal spoke of him —*"Ein Pferd, das doppeltes Futter brauche"* ("A horse requiring a double ration") — without being reminded of Professor Macgillivray. He was literally a beggar for work, himself, and he expected as much from his students. That was one of the reasons for his success. Practice and precept were combined.

He chose for class discussion those parts of a book which bore upon his own philosophy of life. For instance, in teaching Frenssen's novel of *Jörn Uhl,* the children's argument as to what is the best thing in the world was a fruitful topic; and when Jörn explicitly declared, *"Das Beste in der Welt ist die Arbeit"* ("The best thing in the world is work"), comment seemed superfluous.

Nowadays teachers readily find excuses for their students—lack of background, lack of home training, and so forth. If Dr. Macgillivray recognized any previous handicap, he gave no evidence of it; nor did he consider it any palliation of poor work. The thing to do was to remedy the defect as quickly as possible by extra effort and to get on with the university course. "It is good for a man that he bear the yoke in his youth."

The same rigid standards of excellence he demanded for Queen's. No one had a higher ideal of what the University should be. He was a graduate of Toronto, but he never had much to say about that; his heart and soul were in the life of Queen's. It was as if he took for granted that the latter must be of surpassing excellence. He was often misunderstood by his colleagues. They interpreted his hostility as a personal matter. In reality, his indignation arose from the fact that he considered they were lowering the standards of Queen's, that they were untrue to the high tradition of teaching and scholarship for which she ought to stand.

I recall the fine contempt with which he once spoke to me of another professor who had written a critical article for a magazine. It seemed that Dr. Macgillivray had questioned him about it and found that he had read only a portion of the work of the author he was discussing. And yet this man came out in print as if an authority on the subject! That could not be Dr. Macgillivray's way. Like Browning's grammarian, he said, "Let me know all." And the comment must be a

DR. MACGILLIVRAY

matter of infinite care. He was as much an artist in German as Dean Cappon was in English—painstaking, thoughtful, thorough. Language was something to be handled with meticulous exactitude. He would tolerate no slovenliness of expression.

Never was there a professor at Queen's who took his work more seriously. One morning when, by exception, he was very late for an eight-o'clock class — so late that it seemed as if he were not coming —we dispersed, some to the reading-room, some to the cloak-room, others elsewhere. Dr. Macgillivray arrived and found no students. Did he give up the lesson? Not he. He scoured the corridors and descended to the basement to round up what members he could. Then the work went on.

In my experience I never knew him to take time out because of a cold; nor was

he ever absent through illness. Other professors might be away, giving lectures or attending meetings, but somehow Dr. Macgillivray managed so that such things did not result in any loss of class exercises. In my final year we had eight hours of German a week, involving much outside reading and study—no inconsiderable amount, since this was not the only department which had claims upon our time.

As far as teaching was concerned, he decried the lecture system in general, although admitting its value in certain specific cases. What was the use of merely taking notes? The student ought to be a functioning part of the educational process. It is the effort a man himself makes, rather than what others do for him, that counts.

It is doubtful whether any of Dr. Macgillivray's colleagues realized the untold hours he spent upon student exercises. His patience in this respect seemed boundless. Some, considering the task a wearisome and thankless one, might have recourse to the waste-paper basket. Not so John Macgillivray. Exercises—and there were many—came back with underlining, crossings and annotations in red ink. The student remained under no misapprehension as to his mistakes and the need for their correction, that there might be no repetition in the future.

As a scholar Dr. Macgillivray ranked with the best. He was an exceptionally well-read man and could have bettered many a member of a department of English in placing quotations. In the classroom he welcomed parallels from Shakespeare and other authors. He would himself bring in illustrations from French writers and those of other nationalities. But he never forgot that he was a teacher of German. One day he wrote on the board an apt sentence in Latin from Spinoza, and we set about translating it, not into English, but into German. In his busy life he still found time to write to me fairly often. I do not recall one letter of his which was not in German and also in German script. His choice of texts was an evidence of sound literary judgment and scholarship. He was most scrupulous in their selection.

Talking with him one day about class material, I happened to mention the excellent German of Meyer's *Der Heilige*, an edition of which had been prepared especially for college use. I found that Dr. Macgillivray did not care to use it, because the subject matter was not to his taste. Back in the earlier days he had taught both French and German, when the University was so small as not to require a division of modern languages. Later, when he had to make a choice, he took German. It has often occurred to me that his reason was the healthier moral tone of the best German writers and their fine feelings for nature. He did not like the hot-house atmosphere and the everlasting sex-theme, so characteristic of the French. Look back through the old catalogues of Queen's and examine the lists of books he prescribed. You will find, I believe, almost without exception, that they are such as build and strengthen the fibre of character and inspire desire and courage for the nobler things of life.

Professor Macgillivray's teaching was both an art and a science. He went to class as a general to battle, with his scheme of operations laid out in advance. One of the books he used in his last year came into my possession as a keepsake. In it I found a series of questions, of the kind he always made up to cover a lesson, skilfully contrived to require an answer involving the use of a certain construction or an idiomatic turn of speech, or to bring out some important point in the story.

The Germany he strove to impress upon us—the Germany in which he lived, in fact—was an ideal land, not exactly a country of his own creation, but one of his own unconscious composition, ennobled by the finest qualities of the great classic writers. There was the gospel of work and the tolerance of Lessing, the broad, humanitarian outlook and devotion to duty of Goethe, along with the fire of freedom and the high sense of honour of Schiller. Had the Germans, themselves, been as faithful to these things, as deeply imbued with their spirit as was John Macgillivray, no nation would rank so high in the esteem of mankind.

Though it was not his habit to speak much about it, Dr. Macgillivray loved beauty, whether expressed in thoughtful prose or verse, in artistic china, in the

grace of a flower, or in the wide sweep of a landscape. His pleasure was in seeing things grow and improve—the minds of his students and the garden he cultivated at his own home. He never asked for rest. I doubt that a retirement of *"otium cum dignitate"* held any charms for him. He neither wore out nor rusted out, in spite of over forty years of unswerving service to Queen's. Death took him upon his return from a summer trip to Germany.

It was as if some Walküre had descended suddenly, and lo! the old master was gone. In some happier Walhall than the Teutons ever knew, may his soul go striding on!

---

## PRE-AIRCREW SCHOOL ESTABLISHED AT QUEEN'S

UNDER the command of Flying Officer, R. W. Watson, a graduate of the University of Alberta, a pre-aircrew school of the R.C.A.F. has been established at Queen's. A small group of wireless air gunners is already in attendance, and the number will be greatly increased shortly after Christmas. The school is known at present as No. 18 Pre-Aircrew Education Detachment.

The men attending the school, which is entirely separate from the recently organized Queen's Squadron of the University Air Training Corps, are enlisted wireless air gunners who have already had some months' training at a Manning Depot. At Queen's they will take a special course in mathematics, science, Morse code and allied subjects, and will then proceed to a regular wireless school. Instruction is being given at present by the commanding officer and one other member of the R..C.A.F. personnel, and the University laboratories are being used. Eventually there will be additional instructors on the staff.

The new school succeeds the R.C.A.F. radio direction finding school which has been in operation at the University since the summer of 1940, and the last unit of which completed its training at the end of November. Like their predecessors, the pre-aircrew men are quartered in the New Gymnasium and are messed in the Students' Union.

## FEBRUARY 1 CLOSING DATE FOR MARTY SCHOLARSHIP

SINCE 1937, six Queen's women graduates have taken advantage of the opportunities for graduate study offered by the Marty Memorial Scholarship.

Two of these women, Miss Jeanne LeCaine, B.A. '37, M.A. '38, and Miss Anne Sedgwick, B.A. '37, M.A. '40, were later selected to hold the travelling scholarship presented by the Canadian Federation of University Women—the highest academic honour open to women in Canada. Dr. LeCaine is now with the National Research Council in Ottawa, and Miss Sedgwick has accepted a position in the chairman's section of the Wartime Prices and Trade Board.

Miss Eleanor Clarke, B.A. '39, M.A. '41, the recipient of the 1941 award, is completing very interesting and valuable scientific research at McGill University. Miss Joyce Hemlow, B.A. '38, M.A. '42, the winner this year, is at Radcliffe pursuing her studies in English, and plans later to resume her work in some branch of the educational field in Canada.

It is well for students to realize that the pursuit of graduate studies is essential even in wartime—for the training of postwar leaders, and for the stimulating of research effort in the humanities and in the social as well as the pure sciences.

Subject to National War Students Regulations, this scholarship in memory of Dr. Aletta Marty, Arts '94, valued at not less than $800, is again offered by the Queen's University Alumnae Association. Any woman graduate of Queen's with a Master's degree may hold the scholarship, which is usually offered for a year's graduate work overseas. A committee chosen by the Alumnae Association will make the award.

The scholarship may be awarded to the same woman for a second year. The committee is authorized to withhold the award in any year for financial or academic reasons.

Applications should reach the Registrar of the University not later than February 1, 1943. Candidates must have the Master's degree when they hold the scholarship, but not necessarily when they apply for it. Further information may be obtained from the Registrar's office.

# HARVESTING

By Hugh P. Buchanan, Arts '44

IT all started with a telegram from Hon. Humphrey Mitchell, Canada's minister of labour.

The wire—received Sunday, October 3, by Principal Wallace—requested that men registered in Arts and Commerce volunteer to help harvest Saskatchewan's record wheat crop. A shortage of labour brought about the Government's urgent request, Mr. Mitchell pointed out, and every consideration would be given to the men who volunteered. The Government would pay the train fare west and would guarantee a minimum wage of four dollars every working day. It was expected that the job would last from four to five weeks. Nothing more was heard for several days.

In the meantime Queen's orderly campus life turned upside down. By Monday noon everyone had heard the news and was passing it along to everyone. Freshmen, still suffering for the sake of tradition, galloped about the campus shouting, "Artsmen, go west!" Signs mysteriously appeared on blackboards offering such morsels as: "Go West young man, go west—or else!" Professors stopped in the middle of lectures to discuss the pros and cons of the proposition and to offer sage words of adult advice. Mass meetings were held, and the Principal and Dean Matheson tried to keep in close touch with the Ottawa authorities. Word was received that the Universities of Manitoba and Saskatchewan had not been asked to help harvest the crop, and rumours began to flow thick and fast. Some boys even got the idea that Principal Wallace had been hoodwinked, that some wag was playing a practical joke, that the whole thing had been called off. But nobody believed them; nobody wanted to. For hadn't Dr. Wallace assured all prospective harvesters that the University would pay half their Kingston room-rent while they were away, that the C.O.T.C. almost certainly would give them credit for the training hours they missed, that the professors would lean over backwards to give them consideration in the Christmas and final exams? And hadn't the coeds walked around with that "My Hero" expression in their eyes? No wonder everyone wanted to go.

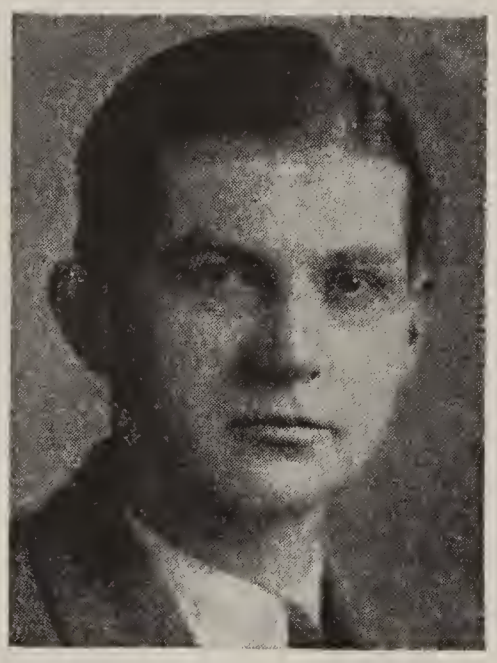

At last the Government made its final arrangements and wired Dr. Wallace. The boys could leave as early as October 7 and couldn't return to Queen's until after October 31. Frantic meetings were held again, and when the smoke had cleared it was discovered that almost two hundred Artsmen were signed and sealed. Only the delivery was left, and everyone

SOME OF THE QUEEN'S HARVESTERS AT TORONTO UNION STATION

was looking forward especially to that part of the experience.

Most of us left Toronto's Union Station on Saturday night—or rather Sunday morning — October 10. We were joined there by almost a thousand students from Varsity, McGill, Western and Laval. They were to help us with the harvest and were just as pleased about the idea as we were. Shouts and college yells echoed through the station from nine until one in the morning. Approximately two thousand jealous co-eds were down to see us off. "Why don t they take us?" they wailed. "We could cook or wait on tables." (It was later disclosed that the co-eds at most universities had made strong petitions to be included in the harvesting scheme.)

HUGH BUCHANAN

The train — an eighteen-car affair — finally chugged out of Toronto at one-thirty in the morning. We found, after a hasty search, that we had been provided with what the railroad calls "Colonist Cars." Bunks were provided, but there were no mattresses or pillows, or blankets. No one, however, appeared to mind. We were all together and that was comfort enough. We didn't care as long as we could find something to eat, and although there was no dining-car on the train, the station restaurants served the purpose. Wayside cafés did a roaring business, and the "peanuts-popcorn" man was sold out every hour or so. When he left the train at Winnipeg he was heard to remark that he could now retire for life.

At Winnipeg we discovered that all Queen's men on the train were to be situated in and around Saskatoon and North Battleford. Some of us were to get off at such "wayward" points as Marshall, Lashburn, and Lloydminster, a little town on the border of Saskatchewan and Alberta The names didn't frighten us, but when we heard that Lloydminster, for instance, was north of Edmonton and the tip of James Bay, we began to shiver in anticipation. Anyway, there was nothing we could do about it, so we just sat and waited.

We must have been quite a sight getting off the train at our destinations. A farmer, eagerly waiting on the platform, would have seen about forty sleepy-looking individuals, in brand new overalls, polished hip boots, sombreros, straw hats and beards, clambering off the train. He also would have noticed, with a sinking heart, that most of these strange fellows had one or two suitcases, a dunnage bag, blankets, overcoats, and now and then a portable radio. But the labour shortage was really grave; they greeted us like long lost brothers.

For an hour or so the station platform would be a jumble of voices. Here and there a farmer would sneak out of the maelstrom with a harvester or two in tow and then, as if he were a criminal, run for his car. The others would remain and bicker about salaries, the number of men they needed on their farms, and almost everything else employers and employees can think of at times like these. At any rate, they were obviously pleased to see us, and within a few hectic hours most of us were trundling our baggage over to our farmer's car and preparing for our first sight of a farm, a threshing machine, western saddles, and the sheaves we had heard so much about. By three in the afternoon ninety per cent of us were placed and ready to go. At least, we thought we were.

The fellows who began harvesting the afternoon they arrived were lucky. They were at least partially broken in when they were requested to grope their way out of their beds at five in the morning. Most of us weren't prepared for an hour's harvesting, much less a full day of it. But that was just our tough luck; we learned to do it and to like it, eventually.

Probably most people are fairly familiar with the work that harvesting entails. They probably know what stooking, pitching and bundling mean. They know that a teamster has to handle a team of horses, a wagon and a pitchfork, all at the same time. They know that he has to pitch three hundred twenty-pound bundles on to his wagon to make one load, and that he has then to unload it into a

READY TO START

separator. But do they know that a teamster has to bring in twelve loads a day before he can consider having done even a fair day's work? We didn't either.

Working on a farm is entirely different from any other type of labour known to man. For instance, a teamster (most of the university harvesters were defined as such) had to get up at five every morning, get dressed in icy mid-October weather, water his horses, harness them, hitch them to a wagon, eat his breakfast, drive out to the field, and be ready to have a load up at the separator shortly after seven o'clock. This may not appear particularly difficult if you have never tried it, and right now it doesn't appear difficult to us. Nevertheless, many a harvester writhed on the ground with rage trying to figure out which way which piece of harness went on which horse. It was very exasperating, especially when it was so dark you couldn't see the horse until it was stepping on you.

A harvester's day is a twelve-hour day. Officially he works from seven in the morning until eight in the evening, with an hour off for lunch. However, lunches are also provided at eleven a.m. and at four in the afternoon. These lunches are eaten in record time; so, actually, the harvester is able to get only a one-minute breather.

After several days of this type of work most of us were adjusted to our environment. The work was tough, but (at least, in our imagination) we could feel our muscles harden, our cheeks grow healthy, and our student-like appetite increase twofold. It was also a treat to be able to scramble into bed at eight o'clock without worrying about the essay in English or the assignment in mathematics. It was also fun to stroke our first beard and to visualize the amazed looks on parental and other faces when we returned home.

Farming has its other advantages, too. For instance, the northern lights, the cloudless skies, the endless expanse of prairie, stooks waving in the wind at sundown, and those famous western sunsets that have to be seen to be believed. And then there were the political arguments with Social Credit farmers, the Saturday night get-togethers in town, and that wonderful feeling of falling to sleep under a clear starlit sky. We had heard of all these things, and had seen them in the movies, but now we really appreciated them. Unfortunately we didn't see many

"BRINGING IN THE SHEAVES"

farmers' daughters or sing western songs around a blazing campfire, but perhaps that was too much to expect.

While the weather was miserable towards the latter part of October, most Queen's men managed to get from eight to twelve days' harvesting. The boys who worked near Lloydminster didn't average that much because winter broke there

sooner than in some southern areas. Nevertheless, few left for home before November 1; many stayed as late as November 5.

The general concensus among the Queen's harvesters is that the trip was a success. Most of us did not make as much money as we hoped we would, and the work was harder than we expected, but on the whole we have nothing to regret. Government officials seem to think that we did a creditable job, and most of the farmers were satisfied. Few difficulties arose, no one was injured, and only a few took to their beds with colds or 'flu.

Now we are all back at work again. We are pleased with the way the University officials have treated us, and we are satisfied that all will be well when examination-time comes next April. None of us are wealthy—in the ordinary sense of the word—but we feel we have learned a great deal about another part of Canada and its people. We hope that the Government will think of us again.

## UNIVERSITY STOPS TRAINING BONUSES

NO general bonus in the form of marks will be given on next spring's examinations to Arts and Science students receiving training in the C.O.T.C. and the U.A.T.C.

This is a change from the previous policy of the University, under which C.O.T.C. training at first replaced one of the regular academic courses and had its own examination. Later this arrangement was abandoned in favour of a bonus on each examination of the full academic curriculum. Henceforth consideration will be given only to student instructors, who put in 60 hours of training in addition to the regular 110-hour schedule.

The chief reason for the change was that, whereas work of the C.O.T.C. training was heretofore in the form of lectures entailing considerable study time, there are at present no lectures, the training being now entirely practical and taken in small groups under student instructors.

## WE DO THEM HOMAGE

TO Rev. Hugh Cameron, Arts '76, of Ottawa, father of His Honour Judge C. A. Cameron, Arts '13, of Belleville, to Mr. P. A. Macdonald, Arts '76, of Winnipeg, and to the eighteen other graduates of Queen's named below, the General Alumni Association extends greetings.

They are the seniors of the Queen's clan, and ten thousand of their juniors join in wishing them many more years of health and vigour.

Rev. Hugh Cameron, Arts '76, Ottawa, Ont.
P. A. Macdonald, Arts '76, Winnipeg, Man.
Dr. H. H. Chown, Med. '80, LL.D. '03, Winnipeg, Man.
Dr. A. D. Cameron, Med. '82, Kearney, Neb.
Dr. R. G. Feek, Arts '82, Au Sable Forks, N.Y.
A. C. Morris, Arts '82, Toronto, Ont.
Dr. S. W. Dyde, Arts '83, D.Sc. '87, Edmonton, Alta.
Dr. Hugo Erichsen, Med. '83, Birmingham, Mich.
A. M. Ferguson, Arts '83, Victoria, B.C.
Rev. H. R. Grant, Arts '83, New Glasgow, N.S.
Dr. James C. Connell, Arts '84, Med. '88, LL.D. '30, Kingston, Ont.
Rev. Dr. John E. Duclos, Arts '84, Edmonton, Alta.
Judge A. G. Farrell, Arts '84, Toronto, Ont.
Annie L. Fowler, Arts '84, Kingston, Ont.
Roderick J. McLennan, K.C., Arts '84, Toronto, Ont.
Dr. D. H. Mackie, Med. '84, Otego, N.Y.
Mrs. Adam Shortt (Elizabeth Smith), Med. '84, Ottawa, Ont.
D. W. Stewart, Arts '84, Renfrew, Ont.
Dr. W. J. Webster, Med. '84, Vivian, S.D.

## DR. JOHN ORR, MED. '23, PUBLIC HEALTH DIRECTOR

DR. JOHN ORR, Med. '23, professor of bacteriology at Queen's, has been appointed director of the Ontario Government Laboratory at Kingston. He

DR. JOHN ORR

will administer the Provincial public-health diagnostic work for the Kingston area in addition to carrying on his regular University duties.

---

## BACTERIOLOGY LABORATORY FACILITIES EXTENDED

IN order to provide additional laboratory space for the special investigation work in connection with war-wound infections, which has been in progress in the department of bacteriology at the University for the past two years, the animals—chiefly rabbits, guinea pigs and mice—used for testing the efficacy of various treatment methods have been removed from the top floor of the Medical Laboratories (New Medical Building). They are now housed in a separate structure recently erected between the Medical Laboratories and the Old Gymnasium.

The new animal building is of concrete-block construction, measures about seventy-five by thirty-five feet, and has two storeys and twenty-four rooms. It adjoins the Medical Laboratories and has direct communication with it.

## REMEMBRANCE DAY SERVICE HELD IN GRANT HALL

STUDENTS and staff of the University filled Grant Hall to capacity on the morning of November 11 for a brief Remembrance Day Service, conducted by Principal Wallace and Rev. Dr. H. A. Kent, principal of the Theological College.

Dr. Kent opened the service with prayer, after which a two-minute silence was observed. Principal Wallace spoke of the young men who had fallen in the last war, and of the duty of Queen's students during and after the present conflict.

The events of the twenty years prior to 1939 had caused many people of riper age to wonder whether the sacrifices of 1914-18 had been in vain. "Perhaps the goal of final peace may never be reached," said Dr. Wallace, "but the struggle towards this worthy aim may be more satisfactory than the achievement itself." The younger generation should use every means in its power to make sure that the sacrifice of those who gave their lives in the first Great War counted for future good.

As an example of the spirit that will win the present war, and the peace, the Principal quoted from a letter written by Flying Officer Bruce McIver, a graduate of Science '40, who was killed overseas: "If I had a chance to do everything again, I wouldn't have done anything different."

Paying tribute to such men as Bruce McIver, Dr. Wallace referred to the lines of Rupert Brooke:

> "He leaves a white unbroken glory, a gathered radiance,
> A width, a shining peace, under the night."

---

## C.O.T.C. TRAINING PROGRAMME REVISED

UNDER a recent revision of the syllabus of the Canadian Officers' Training Corps, all male students taking army training at Canadian universities are now being admitted direct to the C.O.T.C., instead of spending an initial period in what has latterly been known as the Auxiliary Battalion.

Until September, 1940, military training at the universities consisted of courses leading to qualification for commissions in the various arms of the service. With

the introduction of compulsory training for students, many men had to be trained who would not become successful candidates for commissions. The number exceeded the authorized C.O.T.C. establishment, and as it was found too difficult in practice to select with confidence, the Auxiliary Battalion was formed. This was composed of freshmen and students of low medical category, and provided training similar to that given to men called up for the army.

When officers' training centres were formed in the active army, it was found that credit could not be given for the courses provided in the C.O.T.C. The programme of the C.O.T.C. was therefore changed so that candidates going from it to O.T. centres would have the equivalent of the training of men recommended from the ranks of the active army, and would henceforth enter the centres as cadets rather than as commissioned officers, except in certain special cases.

Under the new C.O.T.C. syllabus, first-year students are being given the first month's course of a basic-training centre; second-year students, that of the second month; while third- and fourth-year students take a special course which includes mutual instruction, the new battle-drill, fieldcraft, and toughening exercises.

Students of the fourth, fifth and sixth years in Medicine are not taking military training. Those of the fifth and sixth years, however, are enlisted in the Royal Canadian Army Medical Corps as members of the active army on furlough.

---

## DRAMA GUILD PRESENTS "DISTANT POINT"

PERFORMANCES by the Queen's Drama Guild of *Distant Point,* a Russian drama by A. W. Afinogenov, in Convocation Hall on the evenings of November 23 and 24 drew capacity audiences.

The play is a product of the present war, in which the author, who was killed in the battle of Moscow, shows the impact of Russian idealism on the minds of the rather primitive inhabitants of a remote railway terminal in Siberia, Distant Point.

Dr. William Angus, director of dramatics at the University, supervised the production and also filled one of the leading roles. The counsellor of the Russian

DR. ANGUS

Legation in Canada, Mr. G. Tomkin, and the second secretary of the Legation, Mr. V. Paulov, came from Ottawa to attend the second evening's performance. While in Kingston they were the guests of Dr. and Mrs. Angus and of Principal and Mrs. Wallace.

---

## CANADIAN WOMEN READY FOR ACADEMIC POSTS

To Women Graduates of Queen's:

The above is the title of a publication compiled by Dr. Ursilla M. Macdonnell (Queen's M.A. '00, Ph.D. '21), dean of women at the University of Manitoba, from material furnished to her by the committee member in each Canadian university.

The Canadian Federation of University Women has felt that the names and records of qualified women should be listed annually and placed before the heads of universities. Last year the universities acknowledged their indebtedness to this list in filling staff vacancies.

Queen's graduates wishing their names to appear in the 1943 issue should write to the undersigned not later than January 15.

If your name has not previously appeared, please tabulate information briefly under the following heads: Full name, Age, Permanent address, Degrees (when and where), Scholarships or distinctions, General line of advanced study, Topic of

special research, Publications, Teaching experience.

If your name has previously been included, you need notify me only of changes of address or additions. Be sure to inform me if you wish your name dropped from the record.

It cannot be too strongly emphasized that mere attainment of good postgraduate standing is not sufficient to offer hope of academic appointment. Some evidence of continued activity in productive scholarship is very important.

I throw this provocative question into your midst to stir up thought and argument, and perhaps something more: Are women more prone than men to look upon an M.A. or a Ph.D. as an end in itself, like an oar won in a race, to be henceforth hung upon the wall? Or are these dégrees and the training behind them regarded as oars to be used with vigour and determination, to carry us a little farther along the stream of knowledge towards the wider ocean of unexplored truth? The future of women in the universities depends largely upon the answer that they give to this question.

A. Vibert Douglas,
Member of C.F.U.W. Committee
for Queen's University,

## "A FINE FIGHTING FAMILY"

THE *Review* takes much pleasure in adding its tribute to that paid to Scott Griffin, Arts '98, and Mrs. Griffin, of Toronto, by the *Globe and Mail* in the editorial reprinted below, which appeared on November 20 under the caption, "A Fine Fighting Family."

"It may seem invidious to single out for special mention the fighting record of any one Canadian family, but that of the family of Mr. and Mrs. Scott Griffin, well-known residents of this city, seems to merit it. Their eldest son, Gilbert, who is home on leave after one and a half years' service with the overseas army, is a captain in the 48th Highlanders. Their second son, William, is a flight lieutenant in the Royal Air Force and was present at Dunkirk and has seen almost continuous active service. Their third son, Tony, a lieutenant in the Royal Canadian Navy, was recently appointed to the command of a corvette, being the first member of the R.C.N.V.R. to gain such a promotion; and their fourth son, Peter, after two and a half years' service in Britain with the army, has recently returned to this continent to train with a Canadian paratroop unit in Georgia.

"A contribution of four gallant young officers by one family to the fighting forces will be difficult to match in any country; and it is interesting to recall that they are grandsons of Sir William Mackenzie, the great railway builder."

Mr. and Mrs. Griffin must indeed be proud.

---

## STUDENTS AND STAFF SPONSOR CHRISTIAN MISSION

"EDUCATION and religion are inseparable, for both are related to living of a good life. The Christian religion presents a challenge which we profess to accept, but may not have adopted as the mainspring of our thinking and our actions. The University Mission at Queen's will give us the opportunity to hear from able and consecrated men and women, and to determine anew to work together for the coming of the Kingdom of God in our own lives, in our human society, and in our relationship to the world at large. May it be attended by a new resolve to make life worth while, by committing ourselves to the Divine Will. That we can do if we approach this special season in the spirit of reverence and true humility. For all of us at Queen's it is a great opportunity."

Such was the message issued by Principal Wallace as a prologue to the Christian Mission held at the University from November 19 to 22. The mission, which was the fourth of a series of inter-university conferences taking place in Canada this year, was arranged by a joint committee of students and members of staff.

The session opened on the morning of November 11 with a well-attended mass meeting in Grant Hall, at which Dr. Gerald Cragg, professor of theology at United Theological College, Montreal, spoke on "The Challenge of the Christian Faith."

Various aspects of this topic were discussed by several other eminent speakers

from different parts of Canada during the following four days. These speakers were Dr. C. P. Martin, professor of anatomy at McGill University; Rev. Hugh MacMillan, president of the Canadian section of the World Council of Churches, and one of the leaders in the Students' Christian Movement in Canada; Wing Commander Gerald Gregson, senior chaplain of the Royal Air Force in Canada; Miss Gertrude Rutherford, principal of the United Church Training School for Women; and Dr. James Smart, of St. Paul's Presbyterian Church, Peterborough, Ont.

During the conference, special services were held daily at the noon hour in the Morgan Memorial Chapel. Mr. Murray Brooks of the Canadian Y.M.C.A. staff, Montreal, was in charge of the music arrangements. Four of the meetings were under the respective sponsorship of the Engineering Society, the Theological Society, the Aesculapian Society, and the Arts and Levana societies.

---

## DR. L. J. AUSTIN SUFFERS HEART ATTACK

WHILE seated in the surgeons' room at the Kingston General Hospital on the morning of November 11, Dr. L. J. Austin, professor of surgery at the

DR. L. J. AUSTIN

University, suffered a severe heart attack. His attending physicians state that he will have to rest for several weeks.

The good wishes of all Queen's alumni, particularly the Medicals, go forward to Dr. Austin for a speedy and complete recovery.

## Campus Briefs

A NEW wing is being built at the rear of the Students' Memorial Union to provide additional storage, refrigeration and kitchen accommodation. Latterly the Union has been serving approximately 1100 meals each day to regular students and about 325 to the members of the R.C.A.F. radio school. This has taxed the capacity of the Union to the utmost. Further facilities were necessary in order to care for the pre-aircrew detachment of the R.C.A.F. coming in at the New Year.

* * * *

Under the auspices of the Public Lectures Committee, Dr. H. J. Creighton, of Swarthmore College, Swarthmore, Pa., spoke at the University on November 19 on the subject of the electrolytic reduction of sugars. Dr. Creighton, a Canadian by birth, is a graduate of Dalhousie University, the University of Birmingham, the Zürich Polytechnical Institute and Heidelberg University. He was awarded the Longstreth medal for his work in electro-chemistry. He is a past president of the Franklin Institute, a member of many scientific societies, and the author of numerous textbooks in electro-chemistry.

* * * *

A regulation assault course for C.O.T.C. training has been built on Leonard Field. The course is 400 yards in length and contains nine military obstacles, such as ramps, parapets, trenches and other impedimenta.

* * * *

A total of nineteen "friendly aliens" are registered at Queen's this session. Fourteen of the men were admitted this fall; the five others were previously in attendance. These students were released from internment by the Canadian Government, acting in collaboration with the British authorities, for the specific purpose of attending Queen's University. Their anti-Nazi status had been established by the Government prior to their release.

* * * *

A film concert, the first of a series to be held during the winter under the direction of the department of music, took place in Convocation Hall on November 30. The ballet and orchestra of the Paris

Opera were presented, as were the soloists of the La Scala Opera Company of Milan in scenes from *Othello*. The works of famous composers, as interpreted by world-known artists, were also much enjoyed by the large audience.

Instead of the numerous separate fees heretofore levied for summer-school and extramural work and accompanying incidentals, there will henceforth be an inclusive fee of $30 for each course, with no extras.

# STUDENT ACTIVITIES

## General

ON their return journey from the harvest fields of Western Canada, some twenty students of Queen's were guests of the Commerce Club of the University of Manitoba at a conducted tour through the Winnipeg Grain Exchange. Subsequently, the Queen's men and the U. of M. Club were entertained at a luncheon at the Fort Garry Hotel by Messrs. James Richardson and Sons, Limited.

* * * *

In the annual elections of the Alma Mater Society, held on November 18, the Science-Medicine combination emerged victorious with Arts-Levana on the losing side. L. T. Lane, Sc. '43, of Sudbury, was chosen as president, and I. W. Bean, Med. '43, of Regina, as vice-president; while A. F. Holloway, Sc. '44, of Hamilton, and F. F. Howatt, Med. '44 of Charlottetown, P.E.I., were elected secretary and treasurer respectively. Arts-Levana subsequently claimed that the current election system of the A.M.S. lent itself too readily to a "ganging-up" procedure and that the system should be changed.

* * * *

Profits from the annual Medical at-home, held in Grant Hall on October 23, added to funds contributed by the various years in Medicine, enabled the Aesculapian Society to purchase a $500 bond of the third Victory Loan. The total of Victory bonds and War Savings certificates now held by the society is $1800.

* * * *

Carlyle Woodside, Arts '43, Smith Falls, Ontario, has been appointed editor-in-chief of this year's *Tricolor*, the official Queen's year book.

Under the auspices of the Industrial Relations Club, Queen's students, in conjunction with those of many other Canadian and American universities, paid tribute at a meeting on November 17 to the memory of the group of Czech university students who were massacred by the Germans three years ago. The commemoration meeting was addressed by Prof. W. E. C. Harrison, of the history department.

* * * *

The Newman Club at the University is celebrating its silver jubilee this year. The club was organized a quarter-century ago by the late Dr. Harry R. Fleming, of Med. '17. The celebration was opened on Sunday, November 15, by a special service in St. James' Chapel at St. Mary's Cathedral. The club's activities during its jubilee year will culminate with the convention of the Canadian Federation of Newman Clubs at Queen's in November, 1943.

* * * *

"The Processing of Nylon, its Chemistry and its Part in the War," was the subject of an address by C. E. Almqvist, Sc. '36, process-control supervisor at the nylon division of Canadian Industries Limited, Kingston, at the November meeting of the Queen's branch of the Canadian Institute of Chemistry.

* * * *

An innovation at two recent student dances, sponsored by Science '43 and '44 respectively, was the formation of a special committee to secure suitable partners for those who needed this type of assistance. Application forms were supplied to those desiring them. These forms contained questions regarding the stu-

dent seeking a dance partner: the applicant's weight, height, favourite pastimes, and the type of co-ed he would be interested in knowing. On the occasion of the Science '43 dance, sixty forms were turned in. As a result, thirty couples attended the dance through the arrangements made by the new bureau. No longer need the shy and bashful student be handicapped because of his own diffidence. No longer need he be backward in coming forward.

* * * *

A feature of the Ban Righ Hall "open house" on Sunday evening, November 29, was a musicale presented by the new Queen's Chamber Music Group.

### Athletics

QUEEN'S has entered a team in the Van Horne division of the newly combined Van Horne-Service Hockey League, which will play a schedule of fifty-six games in Kingston this winter. Teams from the Ordnance Corps, the Navy, Headquarters, Vimy Officers and Vimy Other Ranks will compete in both divisions of the league. Kingston Lions, Kingston Dukes and Queen's will play only in the Van Horne Series. Queen's won the Kingston City League championship and the Van Horne cup last year. "Senator" Powell is again in charge of the Tricolour squad, which to date has won three games and lost one.

* * * *

The finals in the men's intramural tennis tournament were won on November 7 by Lucien Corriveau, Sc. '45, Abitibi, Que. Ernie Hyde, Sc. '44, New Toronto, was the runner up.

* * * *

David Watson, Sc. '43, Ottawa, won the annual cross-country race on November 9, completing the course in 14 minutes, 26 seconds, two seconds less than his previous record. Science '45 captured the team championship.

* * * *

Helen Lake, '45, Kingston, Jamaica, and Pauline Jewett, '44, St. Catharines, Ont., were the final winners in the women's tennis doubles.

* * * *

Basketball will commence immediately after the New Year, under the guidance of Coach Bob Elliott, Arts '32. Queen's will have teams in both the junior and intermediate local leagues.

* * * *

Bob Seright, Sc. '31, has been appointed boxing and wrestling coach. It will be remembered that during his undergraduate days Bob captured five Intercollegiate boxing championships, winning two in one Intercollegiate assault.

## AT THE BRANCHES

### Vancouver

IN honour of Dr. Charlotte Whitton, C.B.E., Arts '17, who was in the city delivering a series of lectures on the Development of Social Services in Canada, about sixty alumni from the Vancouver area met on October 29 at the beautiful University Hill home of Dr. S. J. Schofield, Arts '06, Sc. '08, and Mrs. Schofield (Florence Tait), Arts '12.

In a very witty manner Dr. Whitton told of the Centenary celebrations and of the latest developments at Queen's. She concluded her address with an appeal to the graduates to assume the responsibility of giving leadership to public opinion these troubled days. Rev. William Stott, Arts '07, also gave a brief talk, and Squadron Officer K. O. Walker spoke on behalf of the R.C.A.F. (W.D.).

Dr. C. W. Topping, Arts '12, Theol. '19, was chairman of the meeting. Mrs. T. J. Norman (Mary Nash), Arts '13, and the executive of the Vancouver Alumnae group were in charge of many of the arrangements and provided the refreshments. Dr. Daniel McLellan, Arts and Med. '06, was added to the executive of the Alumni branch as representative of the Medical graduates.

## Toronto

PRINCIPAL WALLACE was guest speaker at the annual dinner-meeting of the Toronto branch, held in Eaton's Round Room on the evening of November 13. The president, Lieut. R. E. Story, Arts '30, who is at present on the instructional staff at No. 22 C.A.E. (B) T.C., North Bay, Ont., was in the chair. The attendance numbered one hundred and seven.

Guests of honour at the banquet were His Honour the Lieutenant-Governor of Ontario, LL.D. '41, Rev. Dr. F. H. Cosgrave, LL.D. '29, provost of Trinity College, and Dr. V. K. Greer, LL.D. '41. Seated also at the head table, which was decorated with tricolour flowers and candles, were Principal Wallace, Lieut. R. E. Story, J. A. Bell, Sc. '24, R. J. Aitcheson, Arts '29, W. P. Ferguson, Arts '08, M. J. Aykroyd, Sc. '13, Dr. W. R. Patterson, Arts '02, Med. '06, J. M. Macdonnell, Arts '05, J. C. Macfarlane, Arts '11, G. J. Smith, Arts '12, Sc. '15, D. G. Geiger, Sc. '22, and R. S. Welsh, Arts '24, Com. '28. Lieut. E. H. Coon, Sc. '21, acted as aide-de-camp to the Lieut.-Governor.

Taking as his subject "Our Present Task and Our Future Goal," Principal Wallace dealt with the serious problems that are facing Canada at present, and particularly with those that will have to be solved at the close of the war. Two cardinal principles, Dr. Wallace declared, must be the framework of all designs for postwar reconstruction: that all Canadians be given an opportunity to develop their abilities to the maximum, and that they be also given an opportunity to use them for the benefit of the community.

A certain measure of state control in the postwar period would probably be necessary, said the Principal, since full employment was impossible without considerable state direction. There was a great deal of advantage, however, in having private initiative left untrammelled by the state. "If it is lost, we lose something of very great importance to our freedom."

Speaking of finance, Dr. Wallace stated that any financial system should be the servant of the producer and not his master. If the system tried to dominate the producer it should be curbed. "I personally feel better off with a large income tax and most Canadians employed, than I would feel with a large income and most people unemployed. We may have to carry the burden of heavy taxation after the war in order to keep our men working."

The Principal was introduced by Mr. J. M. Macdonnell, chairman of the Board of Trustees of the University, and was thanked for his "statesmanlike, thoughtful and challenging" address by G. W. Mason, Arts '02. Mr. Mason also paid tribute to Lieutenant-Governor Matthews, as a "fellow alumnus of Queen's." Miss Elizabeth P. Macpherson, Arts '24, president of the Alumnae branch in Toronto, tendered the thanks of the ladies for the invitation extended to them to be present at the dinner.

Provost Cosgrave said grace at the start of the banquet, and this was followed by a two-minute silence in honour of the Queen's alumni who had given their lives in the present war. S. M. Ketcheson, Arts '33, rendered several piano selections during the course of the evening, and three solos were sung by Miss Mary Losoto, the eminent Russian soprano, now residing in Toronto. Gordon Smith, director of endowment at the University and at present acting secretary-treasurer of the General Alumni Association, brought the greetings of the Association as a whole and of the other branches. Dr. A. E. Lavell, Arts '92, led the Queen's yell with his customary vigour.

In a brief business session, Mr. Story reported upon the activities of the branch during the past year, the financial report was presented, and the following officers were elected for the ensuing period: honorary president, Dr. W. R. Patterson; past president, Lieut. R. E. Story; president, John Bell; vice-presidents, M. J. Aykroyd, W. K. Bailey, Arts '31, A. R. Foster, Sc. '23, and W. N. McLeod, Arts '12; treasurer, W. H. Slinn, Sc. '16; secretaries, A. E. Harkness, Sc. '21, and J. T. McNeely, Arts '22. A representative committee of twenty members was also appointed.

In accepting the presidency of the branch for the coming year, Mr. Bell pledged the full co-operation and support

of the Toronto group in the work of the Association on behalf of the University and the alumni. He extended thanks to the retiring officers for their excellent work during the past year.

The members of the special committee in charge of the arrangements for the dinner were: A. R. Foster (chairman), John Bell, M. J. Aykroyd, A. R. Simpson, Sc. '14, and W. D. Stone, Com. '28.

---

### Porcupine

THE annual meeting of the Porcupine Branch, in the form of a bridge party, took place in the curling lounge of the McIntyre Community Building early in November. It was well attended by members and their friends. The War Savings certificate given as a bridge prize was won by Miss Frances Evans, Arts '25.

Among those present were: D. E. Keeley, Sc. '10; E. C. Keeley, Sc. '16; R. K. Kilborn, Sc. '27; R. E. Delahunt, Sc. '23, and Mrs. Delahunt (Cecelia Beaupré), Arts '21; Mrs. W. R. Rinn (Ruby Garbutt), Arts '26; Mrs. F. Evans (Marion Ostrosser), Arts '39; J. G. Malkin, Sc. '31; C. S. Gibson, Sc. '22; D. J. Ludgate, Sc. '19; Miss Irene Cunningham, Arts '26; Miss Mary Williams, Arts '36; Douglas Argue, Arts '36, and Mrs. Argue; A. F. Quinn, Sc. '30; W. O. Lafontaine, Sc. '22; A. E. Pugsley, Sc. '33; Mrs. E. P. Thompson (Margaret Austin), Arts '35.

After the serving of refreshments, a business session was held, at which the following executive was elected for the ensuing year: honorary president, Dr. B. H. Harper, Med. '22; president, R. K. Kilborn, Sc. '27; secretary-treasurer, Miss Helen Black, Com. '30; committee—S. R. Brunton, Arts '34, Mrs. E. P. Thompson, Arts '35, A. E. Pugsley, Sc. '33, A. W. Bromley, Sc. '26, R. W. Thompkins, Sc. '33, J. G. Malkin, Sc. '31, W. S. Gardner, Arts '31.

## WITH THE ARMED FORCES

### Deaths

PREVIOUSLY reported missing and later presumed dead, the death of Sergeant James Blain Anderson, R.C.A.F., Arts '42, has now been confirmed by the British Air Ministry. He was killed in action over Germany on August 25 of last year and buried in Belgium. Sergeant Anderson, only son of Mr. P. M. Anderson, K.C., and Mrs. Anderson, Ottawa, was born in Regina in 1919. He attended Glebe Collegiate Institute, Ottawa, where he took a prominent part in athletics. In 1938 he registered in Arts at Queen's, but left at the end of his second year to enlist in the Air Force.

* * * *

Lieutenant James McLellan Conover, Arts '44, died in England on November 17 as the result of a motorcycle accident while serving with the Lorne Scots Regiment. He was born at Brampton, Ont., in 1920, the eldest son of Lt.-Col. R. V. Conover and Mrs. Conover, and received his early education in that town. In 1940 he registered at Queen's, but left at the end of his first year to join the active forces. He was commissioned a first lieutenant in 1941.

* * * *

Captain Willard Brewing Thomson, Arts '35, who was taken prisoner by the Germans during the Dieppe raid, subsequently died of wounds in a prison camp, according to official word received from Ottawa recently. He had been overseas for more than a year with the Royal Regiment of Canada and was promoted to the rank of captain last February. Captain Thomson entered Queen's in 1939 from Oakwood Collegiate Institute, Toronto, but remained at the University for only part of his course. He later attended the University of Toronto, where he was well known as business manager of Hart House Theatre. He is survived by his wife and a three-year-old son.

## Honours

NOTIFICATION that he had been awarded the Distinguished Flying Cross reached Sqdn. Ldr. J. D. Pattison, Arts '41, on his arrival at Toronto in November after two and a half years' overseas duty with the R.C.A.F. No details were released at that time by the Air Ministry. Squadron Leader Pattison was a member of the first Canadian squadron to go overseas — the celebrated 110th Army Co-operation, which arrived in England early in 1940. He flew a fighter plane through the Battle of Britain and later transferred to the famous "Moose" bomber squadron. He is a veteran of thirty flights over enemy territory and took part in the bombing of Nazi centres, including the 1,500-plane attack on Cologne. The last raid in which he participated was that on Dusseldorff in October. He is the son of Mr. and Mrs. A. J. Pattison, Toronto, and attended Upper Canada College before registering at Queen's in 1937.

* * * *

Sub-Lieutenant Neil Henley Chapman, R.C.N.V.R., Arts '40, Med. '45, has been mentioned in despatches for special efficiency as depth charge officer aboard H.M.C.S. *Sackville*. The official citation reads as follows: "In an engagement with an enemy U-boat he carried out his duties as depth charge officer with alertness and effect, and skilfully directing a depth charge attack, made a substantial contribution to the result of the action." Sub-Lieutenant Chapman is the son of Mrs. L. M. Chapman and the late Mr. Chapman, Pembroke, Ont. He received his B.A. in 1940 and had completed his second year in Medicine when he left the University to enlist in the Royal Canadian Navy.

* * * *

Pilot Officer Victor Alfred Haw, R.C.A.F., Sc. '41, was awarded the Air Force Medal on October 26. The award was given for "courage and devotion to duty whilst flying, though not in active operations against the enemy." Pilot Officer Haw is the son of Rev. J. A. Haw, United Church minister at Eganville, Ont., and Mrs. Haw, and was in his final year in Science when he left the University to join the Air Force. He took his early training at Trenton and Kingston and received his commission last summer. He was posted recently to the East Coast after eighteen months as flying instructor at Yorkton, Sask.

## Service Notes

### Army

MAJ. A. E. BROOME, Med. '17, and Capt. G. W. Telfer, Med. '31, of the R.C.A.M.C., are attached to Petawawa Military Hospital, Petawawa, Ont., the former as radiologist and the latter as psychiatrist.

* * * *

Maj. M. A. Buell, Sc. '34, who has been overseas for some time with the R.C.E., is now back in Canada and stationed at Chilliwack, B.C.

* * * *

Dr. David Ross Campbell, Med. '24, serving overseas with the R.C.A.M.C., has been promoted to the rank of major. He has been medical officer of a Central and Northern Ontario infantry battalion since September, 1940. Major Campbell served with the 77th and 87th battalions in the last war and was awarded the Military Medal at that time. From 1928 to 1931 he was attached to the Royal Navy as surgeon-lieutenant, spending six months at Portsmouth and over two years at a station in China. Later he practised in Parry Sound, Ont.

* * * *

Maj. E. A. Clark, R.C.A.M.C., Med. '24, is now registrar of No. 10 General Hospital, Canadian Army Overseas.

* * * *

Lt.-Col. S. C. Clegg, Arts '29, has been transferred from Camp Nanaimo, B.C., to Camp Sussex, N.B.

* * * *

Dr. George A. W. Currie, Med. '38, has been promoted to the rank of major. He is at present serving at Canadian Divisional Headquarters in Great Britain.

* * * *

Lieut. A. H. Lewis, R.C.O.C., Sc. '41. has been overseas since October, 1941. He is now stationed with the 2nd Heavy Anti-Aircraft Workshop.

* * * *

Major Hardy Main, Sc. '40, has been staff officer (R.C.E.) in the newly created directorate of engineering development, Department of National Defence, Ottawa, since last September.

Maj. E. M. Medlen, R.C.E., Sc. '12, has been appointed staff officer (Engineers) at the headquarters of the Pacific Command, Vancouver, B.C.

* * * *

Capt. A. H. Megill, R.C.A.M.C., Med. '41, has arrived overseas with the 6th Light Anti-Aircraft Regt., of which he is medical officer. His brother, Lt.-Col. W. J. Megill, Sc. '32, general staff officer of the 3rd Canadian Division, has been overseas for more than a year.

* * * *

Ted Reeve, former football coach at Queen's, has arrived overseas with the Toronto Sportsman's Battery.

* * * *

Maj. W. P. Shirreff, R.C.C.S., Sc. '35, has been promoted to the rank of lieutenant-colonel in the 5th Canadian Armoured Division overseas. He is one of the youngest officers of this rank in the Canadian Army.

* * * *

Capt. W. R. I. Slack, Med. '34, has been promoted to the rank of major in the R.C.A.M.C. overseas.

* * * *

Maj. L. R. Talbot, Sc. '36, is officer commanding the 12th A.A. Bty., R.C.A.

**Air Force**

Rev. J. G. Brown, Arts' 32, Theol. '36, who is on leave of absence from Robertson Church, Edmonton, Alta., for service with the chaplain branch of the R.C.A.F., is at present stationed at No. 2 Flying Instructors' School, Vulcan, Alta.

* * * *

Flt. Lt. E. R. McGill, Com. '34, is chief supervisory officer of No. 19 E.F.T.S., Virden, Man. He was formerly flying instructor at No. 4 S.F.T.S., Saskatoon.

A MEDICAL DINNER AT AN EASTERN CANADIAN PORT

**Included in the group are Col. W. A. Jones, professor of radiology and physical therapy at Queen's; Maj. E. A. Clark, Med. '24, professor of psychiatry at Queen's; Maj. E. S. Bissell, Med. '10; Capt. C. A. Campbell, Med. '38; Capt. W. A. Bearden, Med. '37; Capt. C. F. Egan, Med. '41; Surgeon Lieut. J. L. Johnston, Med. '39; Surgeon Lieut. W. J. G. Breckenridge, Med. '38; Surgeon Lieut. W. E. Collins, Med. '38; Surgeon Lieut. James Small, Med. '41.**

(Canadian Army Photo)

A. W. Roberts, Com. '28, who joined the administrative branch of the R.C.A.F. in 1940 as a flying officer, has been promoted to the rank of squadron leader. He is now chief ground instructor at No. 5 I.T.S., R.C.A.F., Belleville, Ont.

* * * *

Wing Cmdr. H. E. Walker, Sc. '34, is armament training specialist staff officer at No. 2 Training Command, R.C.A.F., Winnipeg.

* * * *

Lloyd Vineberg, Arts '36, has been promoted from the rank of flight lieutenant to that of squadron leader. He is stationed with the R.C.A.F. at Victoria, B.C., where he is in charge of equipment and supplies for coastal stations. After leaving Queen's, he did postgraduate work in business administration at Harvard University. He enlisted in 1940.

## His Majesty's Forces

BELOW is the thirtieth in the series of monthly lists of Queen's alumni and students who have joined some branch of His Majesty's forces:

Royal Navy—D. W. Wolfe, Sc. '45 (Fleet Air Arm).

Royal Canadian Naval Volunteer Reserve—Sub-Lt. J. B. Anderson, Sc. '36; Pay Sub-Lt. W. R. Greatrex, Com. '41; Sub-Lt. W. C. Harvey, Arts '44; Sub-Lt. E. D. Hawken, Arts '40; Sub-Lt. B. C. Heintzman, Arts '44; Pay Sub-Lt. R. G. Hunt, Com. '41; Surgeon-Lieut. C. E. Irvine, Med. '32; Surgeon Lieut. Donald R. Johnston, Med. '42; Sub-Lt. S. P. Owens, Arts '42; Sub-Lt. J. F. Williams, Sc. '41; Surgeon-Lieut. J. R. Wilson, Med. '40; Surgeon-Lieut. J. D. Worral, Med. '38.

Women's Royal Canadian Naval Service—Third Officer Aileen Mason, Arts '36; Third Officer Katherine Wayling, Arts '36; Freda MacEwen, Arts '41.

Royal Canadian Army Medical Corps—Maj. A. E. Broome, Med. '17; Lieut. M. A. Weaver, Arts '39, Med. '42.

Royal Canadian Engineers—Lieut. M. W. Airth, Sc. '39; Lieut. W. E. Clarke, Sc. '39; Lieut. John Curtis, Sc. '41; Lieut. R. S. Eddy, Sc. '41; 2/Lt. D. H. Hill, Sc. '42; Lieut. L. J. Johnson, Sc. '38; Lieut. L. R. Kingston, Sc. '44; Lieut. N. J. Paithouski, Sc. '40; Lieut. J. A. Pigott, Sc. '41; Lieut. Arnold Walker, Sc. '40; 2/Lt. J. L. Ward, Sc. '42; Lieut. C. T. Young, Sc. '38.

Royal Canadian Ordnance Corps—Lieut. Percy Devenny, Sc. '22; 2/Lt. H. H. Lockwood, Sc. '39; Lieut. G. L. Woodruff, Arts '40.

Royal Canadian Artillery—Lieut. J. R. Barker, Arts '43; Lieut. C. J. Guselle, Arts '40; 2/Lt. A. M. Ross, Arts '40; 2/Lt. H. M. Steckley, Sc. '45; Maj. L. R. Talbot, Sc. '36; Lieut. J. D. Williams, Com. '42.

Royal Canadian Corps of Signals—Lieut. A. S. Robb, Sc. '36.

Canadian Armoured Corps—Tpr. D. E. Barrett (extra-mural); Lieut. C. J. Chandler, Arts '42; Tpr. M. J. Gaffney, Arts '43; Lieut. G. E. Haram, Arts '41.

Royal Canadian Army Service Corps—Lieut. Lloyd C. Gunby, Com. '42; 2/Lt. M. P. O'Connell, Arts '42.

Infantry—Lieut. J. B. Callan, Arts '32; Lieut. Robert Cole, Arts '40; Lieut. R. O. Geddes, Arts '34; Lieut. Douglas A. Grant, Arts '33; Lieut. G. P. Miller, Arts '43; 2/Lt. W. W. Powell, Arts '42; 2/Lt. D. M. Temple, Arts '44.

Canadian Women's Army Corps—Frances Hayward, Arts '41; Mary Elizabeth Sheldon, Arts '21.

Corps of Military Staff Clerks—Pte. Israel Cohen, Com. '41.

Royal Canadian Air Force—AC2 W. G. Anderson, Arts '42; Cpl. C. H. Asquith, Sc. '43; LAC. H. A. Bryson, Sc. '44; FO. W. D. Butchart, Arts '32; PO. John Conlin, Arts '43; Sgt. R. H. Cowley, Arts '40; FO. R. A. Filion, (extramural); AC. M. J. Gayfer (extramural); LAC. A. R. Graham, Sc. '40; PO. H. A. Hancock, Com. '32; PO. W. K. Hastey, Sc. '40; FO. Roy Loken, Arts '42; AC2. J. L. McNeil (extramural); Sgt. Pilot, R. E. Murray, Sc. '39; FO. Harold Neville, Arts '31; AC2. H. C. Norman, Sc. '40; AC2. E. D. Richard, Sc. '44; PO. C. N. Rowse, Arts '38; AC2. R. K. Smith, Arts '44; LAC. C. C. Stewart, Arts '43; LAC. H. P. Thomas, Sc. '41; PO. K. W. Thrasher, Arts '42.

### United States Services

BELOW is the third in the series of monthly news items about Queen's alumni who are serving in the U.S. services:

Capt. A. C. Baiden, Med. '22, is with the U.S. Army Medical Corps and detailed to the Surgeon General's Office in Washington, D.C.

Dr. R. A. Breckenridge, Med. '27, has joined the medical division of the U.S. Army Air Corps with rank of captain.

Lieut. J. J. Cunningham, Med. '40, of the Medical Corps of the U.S. Army Air Force, formerly stationed at MacDill Field, Florida, has been transferred to the Army Air Base at Birmingham, Alabama.

Lieut. L. S. Greenfield, Med. '36, formerly in general practice at Rochester, N.Y., joined the U.S. Army Medical Corps in July, 1940. He spent six weeks at Marion, Georgia, and was later stationed at Salt Lake City. He is now with the American troops in Africa.

E. G. Haliday, Med. '27, is with the American Air Force and stationed at Indianapolis, Indiana.

Maj. G. C. Hamilton, Med. '24, of the U.S. Army Medical Corps, is in charge of medical services at 15th Evacuation Hospital, Fort Meade, Maryland.

Dr. F. G. Keyes, Med. '27, recently enlisted with the U.S. Air Force. He has been commissioned as a captain and is now stationed at Westover Field, Chicopee Falls, Mass.

Capt. W. R. McCarty, Med. '32, is with the U.S. Army Medical Corps and stationed at Fort Knox, Kentucky.

Dr. John F. Maloney, Med. '41, New York City, has joined the United States Navy.

Dr. Paul Miranti, Med. '35, Jersey City, is in the U.S. Army Medical Corps.

Dr. W. H. F. Newman, Med. '30, is a first lieutenant in the U.S. Army Medical Corps and stationed temporarily at Port of Embarkation in Boston, Mass.

Warren G. Smith, Arts '40, has been commissioned as an ensign in the United States Navy.

Lt.-Col. R. M. Tovell, Med. '26, of the U.S. Army Medical Corps, is consultant in anesthesia for the U.S. troops in the European theatre of war. He is attached to the office of the chief surgeon.

## ALUMNI NEWS

### Births

**Blaine**—At the Ottawa Civic Hospital, on October 23, to Wing Cmdr. D. S. Blaine, Sc. '34, and Mrs. Blaine, a daughter.

**Bowman**—On November 2, at Rosamond Memorial Hospital, Carleton Place, Ont., to T. R. Bowman, Arts '33, and Mrs. Bowman, a son (Thomas Richard).

**Caldbick**—On December 6, at the City Hospital, Moncton, N.B., to Flt. Lt. G. D. Caldbick, Med. '37, and Mrs. Caldbick, a daughter.

**Carter**—At the Ottawa Civic Hospital, on September 15, to E. E. Carter, Com. '31, and Mrs. Carter, a son (Edward Wayne).

**Dell**—At Niagara Falls, Ont., on November 26, to C. A. O. Dell and Mrs. Dell (Jean Murray), Arts '26, a son.

**Flint**—At the Ross Memorial Hospital, Lindsay, Ont., on November 12, to O. T. Flint, Arts '33, and Mrs. Flint, a son (Roger Oliver).

**Graves**—In Bourlamaque, Que., on November 11, to H. A. Graves, Sc. '28, and Mrs. Graves (Maidie Baker), Arts '32, a son.

**Hartman**—At the Private Patients' Pavilion, Toronto General Hospital, on November 18, to H. J. Hartman, Sc. '26, and Mrs. Hartman (Mildred England), Arts '25, a daughter.

**Howard**—At Nicholls Hospital, Peterborough, Ont., on November 20, to Capt. W. R. Howard and Mrs. Howard (Doris Jean Bannister), Arts '33, twin sons.

**McLeod**—At the Kingston General Hospital, on December 3, to Lt.-Col. P. A. McLeod, Arts '21, Med. '26, and Mrs. McLeod, a daughter.

**Saunders**—At the Women's College Hospital, Toronto, on October 13, to Graydon Saunders, Com. '31, and Mrs. Saunders (Elizabeth Graham), Com. '30, a daughter (Carol Elizabeth).

**Tanner**—At the Kingston General Hospital, on November 21, to C. J. Tanner, Sc. '39, and Mrs. Tanner (Janet Sword), Arts '38, a daughter (Judith Anne).

**Waugh**—On October 22, at the General Hospital, Oshawa, Ont., to J. Douglas Waugh, Arts '35, and Mrs. Waugh (Eleanor Kidd), Arts '35, a son (John Douglas George).

**Yourt**—On August 31, to G. R. Yourt, Arts '40, and Mrs. Yourt, of Kirkland Lake, Ont., a daughter (Judith Donna).

## Marriages

**Baiden**—On April 4, 1942, Mrs. Euphemia Doidge, of Brantford, Ont., to Capt. Arthur Clifford Baiden, Med. '22, of the United States Army Medical Corps.

**Baxter**—In St. Giles United Church, Hamilton, Ont., on October 10, Margaret Kahle to Gordon James Baxter, Arts '40, of the chemical staff of Firestone Tire and Rubber Company, Hamilton.

**Christie**—On November 11, at First Baptist Church, Kingston, Mary Ruth Sage to Lieut. Parlane Fowler Christie, R.C.A., Arts '42.

**Cowan-Mullins** — In Morgan Memorial Chapel, Queen's University, on October 3, Vera Marie Mullins, Arts '41, to William James Cowan, Arts '42.

**Cunningham**—In February, 1942, Erna Meyer, of Regina, Sask., to Lieut. James Joseph Cunningham, Med. '40, of the medical branch of the United States Air Force.

**Dowsley** — On December 3, at Christ Church Cathedral, Victoria, B.C., Helen Dorothy Dowsley, Arts '26, daughter of the late W. C. Dowsley, Arts '98, and Mrs. Dowsley, Brockville, Ont., to Rev. G. E. Graham, R.C.N., acting chaplain in charge of the naval barracks at Victoria, B.C.

**Gibbons**—In St. Mary's Church, Brantford, Ont., on August 24, Mary Gertrude Kew to Edward Vincent Gibbons, Sc. '37.

**Lawrence-Turnbull**—On November 28, at Southminster United Church, Ottawa, Margaret Graham Turnbull, Arts '42, to Lieut. William Gordon Clark Lawrence, Arts '41. Faye Stoness, Arts '42, was maid of honour.

**McDougall**—On May 23, 1942, in Wall Street United Church, Brockville, Ont., Luella Maud McDougall, Arts '29, to Robert N. Levis. They are living at 307 Holland St., Syracuse, N.Y.

**McKibbin** — At Princess Street United Church, Kingston, on November 13, Winona Harpell to Terrence McKibbin, Arts '34, of Paris, Ont.

**McShane** — On November 28, at Knox Presbyterian Church, Ottawa, Vera Helen O'Hara to William Keith McShane, Arts '41.

**Marks**—In St. Gregory's Church, Oshawa, Ont., on October 3, Mary V. Nicol to Ernest J. Marks, Arts '34. Alan E. James, Arts '33, was an usher. Mr. and Mrs. Marks are living at Apt. 16, Buckingham Manor, Oshawa.

**Miller**—On September 8, at St. George's Anglican Church, St. Catharines, Ont., Katharine Eleanor Hooper Birkett, only daughter of the late Maj. E. H. Birkett, Sc. '10, and Mrs. Birkett, to Lieut. Frederick Lawrence Miller, Arts '38. Lieut. Gordon P. Miller, Arts '43, was best man. Lieutenant Miller is attached to the 2nd-10th Dragoons and stationed in the Maritimes.

**Richardson**—Early in November, at the United Church, Redickville, Ont., Mabel Aileen Dynes to Lieut. Gordon John Richardson, R.C.A.S.C., Arts '42.

**Smith**—In May, 1942, at Parry Sound, Ont., Helen McKinley to Terrence B. Smith, Sc. '42, Defence Industries Limited, Nobel, Ont.

**Tapp**—On June 17, 1942, Mary McLeod, Fort William, Ont., to Edward Gordon Tapp, Sc. '39. They are living in Kimberley, B.C., where Mr. Tapp is on the staff of the Consolidated Mining and Smelting Company.

**Vessie**—On October 10, at St. Jean Baptiste Church, Marieville, Que., Estelle Auclair to Ian David Vessie, Sc. '38, Nitro, Que.

**Woodrow**—On December 8, at the Morgan Memorial Chapel, Queen's University, Jean Lindsay Turnbull to William Ross Woodrow, Sc. '38. Lieut. R. W. Reed, Arts '40, was best man, and Mrs. Reed (Mabel Turnbull), Arts '39, was matron of honour.

**Young**—In St. Thomas Aquinas Chapel, Toronto, in July, 1942, Mary Isabelle McGlynn to Dr. Robert Joseph Young, Med. '32, of Peterborough, Ont.

## Deaths

**Bailie**—After a short illness, Archibald Alexander Bailie, Sc. '06, died at his home in Billings' Bridge (Ottawa), Ont., on November 10. He was in his sixty-eighth year. Born at Billings' Bridge and educated at Lisgar Collegiate Institute, Ottawa, Mr. Bailie entered Queen's in 1902 and graduated with his B.Sc. in mechanical engineering in 1906. For a short time he was on the staff of the Dominion Topographical Survey. Later he was with a construction firm in Detroit, and subsequently with the Allis-Chalmers Company, Montreal. In 1909 he took up residence in Saskatoon, returning in 1915 to Billings' Bridge, where he started a market-gardening business in which he was engaged until two weeks before his fatal illness. Surviving are his widow, a daughter, two sons, a sister and two brothers.

**Carmichael**—A graduate in Medicine of 1908, Dr. Samuel Victor Carmichael, of Strome, Alberta, passed away suddenly on October 27 in his fifty-eighth year. Dr. Carmichael was born in Spencerville, Ont., attended high school at Kemptville, and entered Queen's in the fall of 1904, graduating with his M.D.,C.M. four years later. Subsequently, he practised his profession at Hamilton, Ont., and then at Indian Head, Sask. About thirty years ago he went to Strome, where he was held in high regard. He is survived by one daughter, a sister, and three brothers, one of whom is Rev. Dr. Harvey Carmichael, Arts '97, of Toronto.

**Dennis**—General executive assistant of the lands, parks and forests branch of the Department of Mines and Resources, Earle Munro Dennis, Sc. '04, died on October 31

in an Ottawa hospital after a brief illness. Born in Burgessville, Ontario, fifty-nine years ago, Mr. Dennis attended Woodstock Collegiate Institute and later entered Queen's, graduating with his B.Sc. in 1904. He immediately joined the topographical surveys branch of the Department of the Interior, eventually becoming chief of administration in the hydrographic and maps services. When this department was absorbed by the Department of Mines and Resources four years ago, he took over the position of assistant director of the parks branch, and at the time of his death was acting director. An original member of the professional institute of the Civil Service of Canada, Mr. Dennis served for many years on the advisory council and also on the executive committee. He is survived by his mother, his widow, three sons, a daughter, two sisters and a brother.

**Fleming**—The death occurred in Humboldt, Sask., on November 5, of Dr. Harry Raymond Fleming, Arts '16, Med. '22, Liberal member of Parliament for the Humboldt riding. He had been in poor health for some time. Born at Amherst Island, Ont., in 1894, Dr. Fleming attended Regiopolis College, Kingston, before entering Queen's in 1912. He received his B.A. degree in 1916, after which he held the position of principal of Humboldt High School for two years. He then returned to Queen's to study Medicine and was granted his M.D., C.M. degrees in 1922. He thereupon began his practice as a physician and surgeon in Humboldt. He was first elected to the House of Commons in 1935, and five years later he was again returned to Ottawa at the general election. He was particularly noted in the House for his geniality and his friendly spirit towards all groups. At the last session he spoke on the Wheat Bill and other measures. He is survived by his widow, two sons, two daughters, and a sister, Mrs. James Ronan, Arts '17.

## Notes

### 1890-1899

**Prof. J. F. Macdonald,** Arts '99, of the English department, University of Toronto, addressed a luncheon meeting of the University Women's Club in Toronto recently on the subject of Negro poetry.

**Dr. K. P. R. Neville,** Arts '96, dean of the Faculty of Arts at the University of Western Ontario, was bereaved on November 28 by the death of his mother, Mrs. Chester W. Neville, at Kingston. She was in her ninety-third year.

### 1900-1909

**Miss Ethel Alford,** Arts '07, is now living at 439 St. Mark St., Fort William, Ont.
